ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 6.69
- Benchmark: 6.60

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 6.43
- Benchmark: 6.36

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

- What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 14.09% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 23.36% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● ☐ Yes	●○ ☒ No
☐ It made sustainable investments with an environmental objective : ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 62.40% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective : ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 7.27
- Benchmark: 6.97

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● ☐ Yes	●○ ☒ No
☐ It made sustainable investments with an environmental objective : ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 34.98% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective : ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

- Benchmark: 3.14

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 9.47% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 25.51% of total investments

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under "#2 Other": (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under "#2 Other", there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the "Stewardship Report", the "Report on participation at shareholder meetings of companies with securities under portfolios" and the Proxy Voting Dashboard available at

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☒	☐ Yes	☒ ☐	☒ No
☐	It made sustainable investments with an environmental objective : ____%	☒	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 53.08% of sustainable investments
☐	☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐	☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐	It made sustainable investments with a social objective : ____%	☒	☒ with a social objective
☐		☐	It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 6.01
- Benchmark: 5.76

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: December 2023

What was the proportion of sustainability-related investments?

What was the asset allocation?

Asset allocation
describes the share of
investments in specific
assets.

In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- ☐ Yes:
☐ In fossil gas ☐ In nuclear energy
☒ No

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 12.24% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 24.47% of total investments

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under "#2 Other": (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under "#2 Other", there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the "Stewardship Report", the "Report on participation at shareholder meetings of companies with securities under portfolios" and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

- **How does the reference benchmark differ from a broad market index?**

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not Applicable

- **How did this financial product perform compared with the reference benchmark?**

Product name: Eurizon Fund - Global Equity Infrastructure

Legal entity identifier: 549300SYG2YH766FGV02

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● ☐ Yes	●○ ☒ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 49.74% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Carbon footprint: the fund also aims to build a portfolio with a lower carbon footprint than that of its benchmark, by measuring direct (i.e.: Scope 1, i.e. from sources controlled or owned by the company) and indirect (i.e.: Scope 2, i.e. from energy purchased and consumed by the company) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies.

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 7.41

- Benchmark: 7.02

The ESG score is calculated on a scale of 0 to 10

Carbon footprint: direct (i.e.: Scope 1) and indirect (i.e.: Scope 2) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio

- Fund: 827.75

- Benchmark: 1079.48

Value represents tons of carbon dioxide (CO2) per million dollars of revenue (direct and indirect Greenhouse Gas emissions). Measures CO2 emissions generated by issuers

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 7.52

- Benchmark: 7.00

The ESG score is calculated on a scale of 0 to 10

Carbon footprint:

- Fund: 861.34

- Benchmark: 1149.56

Value represents tons of carbon dioxide (CO2) per million dollars of revenue (direct and indirect Greenhouse Gas emissions). Measures CO2 emissions generated by issuers

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.
- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?

Transitional activities: 0.00%
Enabling activities: 0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in activities considered environmentally sustainable, which are entirely not aligned with the EU Taxonomy, to the extent of 13.74% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 36.00% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

Product name: Eurizon Fund - Sustainable Global Equity

Legal entity identifier: 549300RNJ0W1IVOBLO73

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 62.92% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Carbon footprint: the fund also aims to build a portfolio with a lower carbon footprint than that of its benchmark, by measuring direct (i.e.: Scope 1, i.e. from sources controlled or owned by the company) and indirect (i.e.: Scope 2, i.e. from energy purchased and consumed by the company) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 7.80

- Benchmark: 6.93

The ESG score is calculated on a scale of 0 to 10

Carbon footprint: direct (i.e.: Scope 1) and indirect (i.e.: Scope 2) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio

- Fund: 56.38

- Benchmark: 121.23

Value represents tons of carbon dioxide (CO2) per million dollars of revenue (direct and indirect Greenhouse Gas emissions). Measures CO2 emissions generated by issuers

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 7.47

- Benchmark: 6.67

The ESG score is calculated on a scale of 0 to 10

Carbon footprint:

- Fund: 83.32

- Benchmark: 150.21

Value represents tons of carbon dioxide (CO2) per million dollars of revenue (direct and indirect Greenhouse Gas emissions). Measures CO2 emissions generated by issuers

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to

environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: Year 2023

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
 Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 23.36% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 39.56% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

● How did this financial product perform compared with the reference benchmark?

Product name: Eurizon Fund - Equity Planet

Legal entity identifier: 549300IKPFWCH028ZQ26

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 61.27% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Carbon footprint: the fund also aims to build a portfolio with a lower carbon footprint than that of its benchmark, by measuring direct (i.e.: Scope 1, i.e. from sources controlled or owned by the company) and indirect (i.e.: Scope 2, i.e. from energy purchased and consumed by the company) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 7.38

- Benchmark: 6.93

The ESG score is calculated on a scale of 0 to 10

Carbon footprint: direct (i.e.: Scope 1) and indirect (i.e.: Scope 2) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio

- Fund: 89.90

- Benchmark: 121.22

Value represents tons of carbon dioxide (CO2) per million dollars of revenue (direct and indirect Greenhouse Gas emissions). Measures CO2 emissions generated by issuers

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to

environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
 Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 29.30% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 31.97% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

Product name: Eurizon Fund - Equity Innovation

Legal entity identifier: 549300XJ1BMSX5305U71

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 55.15% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.13%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 7.12
- Benchmark: 6.93

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 6.89
- Benchmark: 6.67

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

- What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 26.43% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 28.72% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective : ____% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 61.03% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective
☐ It made sustainable investments with a social objective : ____%	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Carbon footprint: the fund also aims to build a portfolio with a lower carbon footprint than that of its benchmark, by measuring direct (i.e.: Scope 1, i.e. from sources controlled or owned by the company) and indirect (i.e.: Scope 2, i.e. from energy purchased and consumed by the company) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 7.67

- Benchmark: 6.93

The ESG score is calculated on a scale of 0 to 10

Carbon footprint: direct (i.e.: Scope 1) and indirect (i.e.: Scope 2) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio

- Fund: 71.16

- Benchmark: 121.20

Value represents tons of carbon dioxide (CO2) per million dollars of revenue (direct and indirect Greenhouse Gas emissions). Measures CO2 emissions generated by issuers

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 7.32

- Benchmark: 6.73

The ESG score is calculated on a scale of 0 to 10

Carbon footprint:

- Fund: 91.95

- Benchmark: 154.76

Value represents tons of carbon dioxide (CO2) per million dollars of revenue (direct and indirect Greenhouse Gas emissions). Measures CO2 emissions generated by issuers

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to

environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: Year 2023

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 23.02% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 38.01% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● ☐ Yes	●○ ☒ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 40.68% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 7.22
- Benchmark: 6.93

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

- Benchmark: 6.73

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 15.60% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 25.08% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. Product name: Eurizon Fund - Equity Real Estate

Legal entity identifier: 549300HZ88MZIPCKGJ29

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● ☐ Yes	●○ ☒ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 91.58% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its benchmark. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 6.07
- Benchmark: 5.87

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. ● ...and compared to previous periods?

Not Applicable

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: December 2023

What was the proportion of sustainability-related investments?

Asset allocation
describes the share of
investments in specific
assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%

Enabling activities: 0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not Applicable

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 29.12% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 62.46% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the "Stewardship Report", the "Report on participation at shareholder meetings of companies with securities under portfolios" and the Proxy Voting Dashboard available at

Sustainable investment objective

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● ☒ Yes	●○ ☐ No
☒ It made sustainable investments with an environmental objective : 97.07%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☒ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective : 0.94%	☐ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

Eurizon Capital S.A. has adopted a sustainable investment selection methodology based on the 17 Sustainable Development Goals (so called "Sustainable Development Goals" or "SDGs") promoted by the United Nations. This methodology, in accordance with good governance practices, aims to propose to select securities issued by companies whose products/services and processes contribute to one or more of the SDGs, provided that said investments do not cause any significant harm to any of the environmental or social objectives set forth in Regulation (EU) 2019/2088.

In addition, Eurizon Capital S.A. considers as sustainable investments, financial instruments of a bond/monetary nature aimed at financing projects that are environmentally friendly and have a positive social impact (green/sustainable bonds).

Therefore, during the reporting period, Eurizon monitored investments that are sustainable in accordance with Regulation (EU) 2019/2088 and investments in bond issues whose proceeds are intended to finance environmental and/or social projects.

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

Impact Investing: The fund adopts investment selection methodologies aimed at generating a social or environmental impact along with a measurable financial return.

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoprovers.

- 0.00%

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG info providers

- 0.00%

Impact investing: weight in the fund of the corporate bonds or government securities exclusively issued for financing climate- and environment-friendly projects such as renewable energy, energy efficiency, pollution prevention, clean transportation, water management, circular economy, biodiversity conservation and green construction (green bonds or other similar instruments such as social bonds and sustainable bonds).

- 96.72%

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

Impact investing:

- 95.20%

● How did the sustainable investments not cause significant harm to any sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Share of consumption of non-renewable energy
- Share of production of non-renewable energy
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies
- Investee countries subject to social violations

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

- **What was the asset allocation?**

● In which economic sectors were the investments made?

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In fossil gas
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: : 0.00%

● **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU taxonomy and is 97.07% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for

What was the share of socially sustainable investments?

The fund had a socially sustainable investment share of 0.94% of total investments

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Not sustainable”: (i) any other assets according to the fund's investment policy, (ii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets, (iii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure according to its investment policy and its sustainable investment objective; (iv) instruments and techniques only used for efficient fund management as detailed in the fund's prospectus.

However “#2 Not sustainable” investments do not prevent the attainment of the sustainable investment objective. Given the nature of these investments, minimum environmental or social safeguards are not applicable

What actions have been taken to attain the sustainable investment objective during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of the sustainable investment objective is ensured through specific investment limits.

How did this financial product perform compared to the reference sustainable benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 52.02% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 6.62

- Investment Universe: 6.29

The ESG score is calculated on a scale of 0 to 10

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.01%

ESG Score integration:

- Fund: 6.20

- Investment Universe: 5.96

The ESG score is calculated on a scale of 0 to 10

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● ***How were the indicators for adverse impacts on sustainability factors taken into account?***

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?***

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 24.67% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 27.35% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits.

How did this financial product perform compared to the reference benchmark?

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☒ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 31.36% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

The ESG score is calculated on a scale of 0 to 10

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● ***How were the indicators for adverse impacts on sustainability factors taken into account?***

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?***

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: Year 2023

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas
 - ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 11.93% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 19.43% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits.

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

● How did this financial product perform compared with the reference benchmark?

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● ☐ Yes	●○ ☒ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 23.51% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies.

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders

- 0.02%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 6.95
- Investment Universe: 6.51

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.02%

ESG Score integration:

- Fund: 6.90
- Investment Universe: 6.53

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes ☐ It made sustainable investments with an environmental objective: ____% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: ____%	☒ ☐ No ☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 27.88% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 6.54
- Investment Universe: 6.52

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 12.64% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 15.24% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 39.03% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Carbon footprint: the fund also aims to build a portfolio with a lower carbon footprint than that of its investment universe, by measuring direct (i.e.: Scope 1, i.e. from sources controlled or owned by the company) and indirect (i.e.: Scope 2, i.e. from energy purchased and consumed by the company) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 7.13

- Investment Universe: 6.92

The ESG score is calculated on a scale of 0 to 10

Carbon footprint: direct (i.e.: Scope 1) and indirect (i.e.: Scope 2) carbon dioxide emissions (CO2) generated by the investee issuers expressed as weighted average of the CO2 intensity (with respect to their generated sales) per the weight of each corporate issuer in portfolio

- Fund: 79.30

- Investment Universe: 113.05

Value represents tons of carbon dioxide (CO2) per million dollars of revenue (direct and indirect Greenhouse Gas emissions). Measures CO2 emissions generated by issuers

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to

environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 15.26% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 23.77% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 26.76% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 6.96

- Investment Universe: 6.17

The ESG score is calculated on a scale of 0 to 10

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 6.81

- Investment Universe: 6.07

The ESG score is calculated on a scale of 0 to 10

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: Year 2023

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

☒ No

switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?

Transitional activities: 0.00%

Enabling activities: 0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

However, the fund has invested in activities considered environmentally sustainable, which are entirely not aligned with the EU Taxonomy, to the extent of 20.59% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 6.17% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits.

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

● How did this financial product perform compared with the reference benchmark?

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name: Eurizon Fund - China Opportunity

Legal entity identifier: 5493005OR8IMCNJO7V88

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

●● ☐ Yes	●○ ☒ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 20.82% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies.

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 4.33
- Investment Universe: 2.65

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.07%

ESG Score integration:

- Fund: 4.45
- Investment Universe: 2.78

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes:

☐ In fossil gas ☐ In nuclear energy

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

☒ No

switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?

Transitional activities: 0.00%

Enabling activities: 0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

However, the fund has invested in activities considered environmentally sustainable, which are entirely not aligned with the EU Taxonomy, to the extent of 7.39% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 13.43% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 37.27% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 6.92
- Investment Universe: 6.52

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 6.60
- Investment Universe: 6.41

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

- What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas
 - ☐ In nuclear energy
- ☒ No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 21.65% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 15.62% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● How were the indicators for adverse impacts on sustainability factors taken into account?

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund did not pursue a sustainable investment objective within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in assets considered sustainable according to the methodology adopted by Eurizon Capital S.A.

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

What was the asset allocation?

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088.

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The fund has promoted environmental and/or social characteristics but has not committed itself to make sustainable investments within the meaning of art. 2(17) of Regulation (EU) 2019/2088. However, the fund has invested in activities considered environmentally sustainable, which are entirely not aligned with the EU Taxonomy, to the extent of 9.66% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 11.34% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Product name: Eurizon Fund - Flexible Europe Strategy

Legal entity identifier: 5493001D7WLFSLQ8C47

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 38.11% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 7.30
- Investment Universe: 7.23

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

● ...and compared to previous periods?

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 7.34
- Investment Universe: 7.15

The ESG score is calculated on a scale of 0 to 10

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

- What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

Transitional activities: 0.00%
Enabling activities: 0.00%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 16.18% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 21.93% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 25.57% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name: Eurizon Fund - Global Multi Credit

Legal entity identifier: 5493001INX5MYSRJTV14

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 29.10% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

- Fund: 6.39

- Investment Universe: 5.99

The ESG score is calculated on a scale of 0 to 10

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

Sustainability indicators performance reported in previous reference period (December 31, 2022):

Sector exclusion:

- 0.00%

Issuer exclusion:

- 0.00%

ESG Score integration:

- Fund: 6.43

- Investment Universe: 5.86

The ESG score is calculated on a scale of 0 to 10

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Eurizon Capital S.A. has adopted a methodology for the selection of sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations. This methodology aims to select instruments issued by companies whose activities contribute to one or more of the SDG (aiming to foster a more conscious and lasting global development, including the well-being of human beings, the protection and care of the natural environment and responses to major social issues) through their own products and services or production processes, provided that (i) such investments do not significantly harm any of the environmental or social objectives set out in Regulation (EU) 2019/2088 and (ii) the companies benefiting from such investments comply with good governance practices.

However, the fund did not promote the specific environmental objectives set out in Regulation (EU) 2020/852. The fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental objectives

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The assessment of an Issuer's contribution to one or more of the 17 Sustainable Development Goals (SDGs) promoted by the United Nations took into account selected quantitative and qualitative metrics designed to highlight any adverse impacts caused by the Issuer.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

On the basis of controls it has defined, Eurizon Capital S.A. has considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund.

Although the negative effects of investment decisions on sustainability factors should be considered according to the different range of assets, geographic areas and sectors to which managed products are exposed, Eurizon Capital S.A. believes that adequate monitoring of exposure to social and environmental issues is a priority in order to mitigate the potential negative effects of its investments.

In particular, the methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations has taken into account, with varying degrees of intensity, principal adverse impacts through quantitative and qualitative metrics.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The methodology to select sustainable investments based on the Sustainable Development Goals (SDGs) promoted by the United Nations adopted by Eurizon Capital S.A. considers principal adverse impacts through quantitative and qualitative metrics as, for example, the exposure of the issuer to eventual controversies. Within this context, Eurizon Capital S.A. assesses, for example, the issuers involvement in controversies regarding human rights, worker rights and own business conduct

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The "do not significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The identification of the main negative effects of investment choices on sustainability factors and the definition of the related mitigation actions are an integral part of Eurizon Capital S.A.'s approach to sustainability. Eurizon has adopted a specific framework which provides for specific environmental, social and governance indicators for the assessment of the negative effects on the sustainability deriving from investments according to the characteristics and objectives of the individual financial products, which provide for the use of:

- negative screening of SRI and ESG factors, with the aim of mitigating the risks of exposure to companies operating in sectors considered as not "socially responsible" (including, in particular, the exposure to the fossil fuels sector and to the unconventional weapons sector) or characterized by critical environmental, social or corporate governance;
- positive integration of ESG factors in the analysis, selection and composition of financial portfolios (Score ESG).

In the best interest of its own financial products, Eurizon Capital S.A. commits (i) to continue to develop its own Sustainability Policies and (ii) to activate specific engagement actions with regard to the issuers that show significant deviations from specific environmental, social and governance indicators or that show significant negative effects on several indicators, with the aim of directing them towards improving their sustainability practices, evaluating, only as a last resort, the disposal of their investments.

On the basis of controls it defined, Eurizon Capital S.A. considered specific environmental and social indicators for the assessment of the principal adverse sustainability impacts determined by the investment activities of the fund, as here below indicated:

- Activities that adversely affect biodiversity sensitive areas
- Gender diversity on the board of directors
- Exposure to controversial weapons
- Greenhouse Gas (GHG) Emissions intensity
- Greenhouse Gas (GHG) Emissions intensity of investee companies
- Exposure to fossil fuel companies

What were the top investments of this financial product?

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● What was the asset allocation?

● In which economic sectors were the investments made?

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, considering the information set available to Eurizon as of the date of this periodic report, the fund's proportion of environmentally sustainable investments within the meaning of Regulation (EU) 2020/852 is equal to 0%. However, the fund may have invested in activities that may be considered as environmentally sustainable according to its investment policy, but such investments were not per se decisive to the attainment of the fund's environmental characteristics.

Finally, it should be noted that the investments underlying this fund do not take into account the European Union's criteria for environmentally sustainable economic activities

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes:
- ☐ In fossil gas
 - ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?

Transitional activities: 0.00%
Enabling activities: 0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 13.21% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 15.89% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits.

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

● How did this financial product perform compared with the reference benchmark?

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☒ ☐ Yes	☒ ☐ No
☐ It made sustainable investments with an environmental objective: ____%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 51.08% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☐ It made sustainable investments with a social objective: ____%	☒ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sector exclusion: the fund does not invest in issuers operating in sectors considered "not socially and environmentally responsible", that is, (i) in companies characterized by a clear direct involvement in the manufacture of unconventional weapons, (ii) in companies that derive at least 25% of their turnover from mining or electricity production activities linked to thermal coal or (iii) in companies that derive at least 10% of their turnover from the extraction of oil sands.

Issuer exclusion: the fund does not invest in "critical" issuers (i.e. companies with the highest exposure to environmental, social and corporate governance risks, i.e. having a lower ESG sustainability rating level with a lower ESG sustainability rating level in the equity and bond investment universe) for which an escalation process is activated.

ESG Score integration: in accordance with good governance practices, the fund aims to pursue an "ESG score" - calculated at the overall portfolio level - higher than that of its investment universe. The ESG score is representative of the environmental, social, and corporate governance opportunities and risks to which an issuer is exposed and takes into account the issuer's management of these risks. The fund's ESG score is calculated as a weighted average of the ESG scores of the issuers of the financial instruments held in the fund's portfolio.

Active ownership - engagement: the fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies

● How did the sustainability indicators perform?

Sector exclusion: weight in the fund of issuers operating in sectors deemed not to be "socially and environmentally responsible", identified on the basis of data provided by specialised ESG and SRI infoproviders.

- 0.00%

Issuer exclusion: weight in the fund of issuers with a high exposure to environmental, social and corporate governance (ESG) risks (i.e.: "critical" issuers), identified on the basis of data provided by specialised ESG infoproviders.

- 0.00%

ESG Score integration: "ESG Score" of the fund as determined by the specialised ESG infoprovider on the basis of environmental, social and governance profile of the investee companies

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Fund: 7.12
- Investment Universe: 6.62

The ESG score is calculated on a scale of 0 to 10

The fund also promotes a proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information go to <https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● What was the share of investments made in transitional and enabling activities?

Transitional activities: 0.00%
Enabling activities: 0.00%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Compared to the previous reference period (December 31, 2022), the percentage of investments that were aligned with the EU Taxonomy, both including and excluding sovereign bonds, remained unchanged and equal to 0%.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective is entirely not aligned with the EU Taxonomy and was 29.68% of total investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

The fund has promoted environmental and/or social characteristics and had a socially sustainable investment share of 21.40% of total investments

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The following investments are included under “#2 Other”: (i) potential investments in issuers with no ESG score; (ii) derivatives for reducing risks (hedging) and costs, and to gain additional investment exposure; (iii) liquid assets in order to cover current or exceptional payments, or for the time necessary to reinvest in eligible assets; (iv) instruments and techniques only used for efficient fund management.

For the investments included under “#2 Other”, there are no minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Eurizon Capital S.A monitored compliance with the financial instrument selection strategies set out in previous section in line with the principles of Sustainable and Responsible Investment (SRI) and environmental, social and governance (ESG) factors promoted by the fund.

The pursuit of environmental and/or social characteristics is monitored through specific investment limits. The fund also promoted proactive engagement with issuers by exercising participating and voting rights and by engagement with the investee companies by encouraging an effective communication with the management of the companies. For more information please refer to the “Stewardship Report”, the “Report on participation at shareholder meetings of companies with securities under portfolios” and the Proxy Voting Dashboard available at

<https://www.eurizoncapital.com/en/sustainability/stewardship-policy>

How did this financial product perform compared to the reference benchmark?

No specific index has been designated as a reference benchmark to determine whether the fund is aligned with the environmental and/or social characteristics that it promotes.

● How does the reference benchmark differ from a broad market index?

Not Applicable

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not Applicable

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform compared with the reference benchmark?**

Relazione di gestione al 30 dicembre 2024
del Fondo Comune di Investimento Mobiliare Aperto

Eurizon Obbligazionario Etico

Relazione della società di revisione indipendente
ai sensi degli articoli 14 e 19-bis del D. Lgs. 27 gennaio 2010, n. 39
e dell'articolo 9 del D. Lgs. 24 febbraio 1998, n. 58

Relazione della società di revisione indipendente ai sensi degli articoli 14 e 19-bis del D. Lgs. 27 gennaio 2010, n. 39 e dell'articolo 9 del D. Lgs. 24 febbraio 1998, n. 58

Ai partecipanti al
Fondo Comune di Investimento Mobiliare Aperto
"Eurizon Obbligazionario Etico"

Relazione sulla revisione contabile della relazione di gestione

Giudizio

Abbiamo svolto la revisione contabile della relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Obbligazionario Etico" (il "Fondo"), costituita dalla situazione patrimoniale al 30 dicembre 2024, dalla sezione reddituale per l'esercizio chiuso a tale data e dalla nota integrativa.

A nostro giudizio, la relazione di gestione fornisce una rappresentazione veritiera e corretta della situazione patrimoniale e finanziaria del Fondo al 30 dicembre 2024 e del risultato economico per l'esercizio chiuso a tale data in conformità al Provvedimento emanato dalla Banca d'Italia il 19 gennaio 2015 e successive modifiche (di seguito anche il "Provvedimento") che ne disciplina i criteri di redazione.

Elementi alla base del giudizio

Abbiamo svolto la revisione contabile in conformità ai principi di revisione internazionali (ISA Italia). Le nostre responsabilità ai sensi di tali principi sono ulteriormente descritte nella sezione "Responsabilità della società di revisione per la revisione contabile della relazione di gestione" della presente relazione. Siamo indipendenti rispetto al Fondo e a Eurizon Capital SGR S.p.A., Società di Gestione del Fondo, in conformità alle norme e ai principi in materia di etica e di indipendenza applicabili nell'ordinamento italiano alla revisione contabile del bilancio. Riteniamo di aver acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio.

Responsabilità degli amministratori e del collegio sindacale per la relazione di gestione

Gli amministratori della Società di Gestione del Fondo sono responsabili per la redazione della relazione di gestione del Fondo che fornisca una rappresentazione veritiera e corretta in conformità al Provvedimento che ne disciplina i criteri di redazione e, nei termini previsti dalla legge, per quella parte del controllo interno dagli stessi ritenuta necessaria per consentire la redazione di una relazione di gestione che non contenga errori significativi dovuti a frodi o a comportamenti o eventi non intenzionali.

Gli amministratori della Società di Gestione del Fondo sono responsabili per la valutazione della capacità del Fondo di continuare ad operare come un'entità in funzionamento e, nella redazione della relazione di gestione, per l'appropriatezza dell'utilizzo del presupposto della continuità aziendale, nonché per una adeguata informativa in materia. Gli amministratori utilizzano il presupposto della continuità aziendale nella redazione della relazione di gestione a meno che abbiano valutato che sussistono le condizioni per la liquidazione del Fondo o per l'interruzione dell'attività o non abbiano alternative realistiche a tali scelte.

Il collegio sindacale della Società di Gestione del Fondo ha la responsabilità della vigilanza, nei termini previsti dalla legge, sul processo di predisposizione dell'informativa finanziaria del Fondo.

with confidence

Responsabilità della società di revisione per la revisione contabile della relazione di gestione

I nostri obiettivi sono l'acquisizione di una ragionevole sicurezza che la relazione di gestione nel suo complesso non contenga errori significativi, dovuti a frodi o a comportamenti o eventi non intenzionali, e l'emissione di una relazione di revisione che includa il nostro giudizio. Per ragionevole sicurezza si intende un livello elevato di sicurezza che, tuttavia, non fornisce la garanzia che una revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia) individui sempre un errore significativo, qualora esistente. Gli errori possono derivare da frodi o da comportamenti o eventi non intenzionali e sono considerati significativi qualora ci si possa ragionevolmente attendere che essi, singolarmente o nel loro insieme, siano in grado di influenzare le decisioni economiche prese dagli utilizzatori sulla base della relazione di gestione.

Nell'ambito della revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia), abbiamo esercitato il giudizio professionale e abbiamo mantenuto lo scetticismo professionale per tutta la durata della revisione contabile. Inoltre:

- abbiamo identificato e valutato i rischi di errori significativi nella relazione di gestione, dovuti a frodi o a comportamenti o eventi non intenzionali; abbiamo definito e svolto procedure di revisione in risposta a tali rischi; abbiamo acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio. Il rischio di non individuare un errore significativo dovuto a frodi è più elevato rispetto al rischio di non individuare un errore significativo derivante da comportamenti o eventi non intenzionali, poiché la frode può implicare l'esistenza di collusioni, falsificazioni, omissioni intenzionali, rappresentazioni fuorvianti o forzature del controllo interno;
- abbiamo acquisito una comprensione del controllo interno rilevante ai fini della revisione contabile allo scopo di definire procedure di revisione appropriate nelle circostanze e non per esprimere un giudizio sull'efficacia del controllo interno del Fondo e della Società di Gestione del Fondo;
- abbiamo valutato l'appropriatezza dei criteri e delle modalità di valutazione adottati, nonché la ragionevolezza delle stime contabili effettuate dagli amministratori, inclusa la relativa informativa;
- siamo giunti ad una conclusione sull'appropriatezza dell'utilizzo da parte degli amministratori del presupposto della continuità aziendale e, in base agli elementi probativi acquisiti, sull'eventuale esistenza di una incertezza significativa riguardo a eventi o circostanze che possono far sorgere dubbi significativi sulla capacità del Fondo di continuare ad operare come una entità in funzionamento. In presenza di un'incertezza significativa, siamo tenuti a richiamare l'attenzione nella relazione di revisione sulla relativa informativa della relazione di gestione, ovvero, qualora tale informativa sia inadeguata, a riflettere tale circostanza nella formulazione del nostro giudizio. Le nostre conclusioni sono basate sugli elementi probativi acquisiti fino alla data della presente relazione. Tuttavia, eventi o circostanze successivi possono comportare il fatto che il Fondo cessi di operare come un'entità in funzionamento;
- abbiamo valutato la presentazione, la struttura e il contenuto della relazione di gestione nel suo complesso, inclusa l'informativa, e se la relazione di gestione rappresenti le operazioni e gli eventi sottostanti in modo da fornire una corretta rappresentazione.

Abbiamo comunicato ai responsabili delle attività di governance della Società di Gestione del Fondo, identificati ad un livello appropriato come richiesto dai principi di revisione internazionali (ISA Italia), tra gli altri aspetti, la portata e la tempistica pianificate per la revisione contabile e i risultati significativi emersi, incluse le eventuali carenze significative nel controllo interno identificate nel corso della revisione contabile.

Relazione su altre disposizioni di legge e regolamentari

Giudizi e dichiarazione ai sensi dell'articolo 14, comma 2, lettera e), e-bis) ed e-ter) del D. Lgs. 27 gennaio 2010, n. 39

Gli amministratori della Eurizon Capital SGR S.p.A. sono responsabili per la predisposizione della relazione degli amministratori del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Obbligazionario Etico" al 30 dicembre 2024, incluse la sua coerenza con la relazione di gestione del Fondo e la sua conformità al Provvedimento.

Abbiamo svolto le procedure indicate nel principio di revisione (SA Italia) n. 720B al fine di:

- esprimere un giudizio sulla coerenza della relazione degli amministratori con la relazione di gestione;
- esprimere un giudizio sulla conformità al Provvedimento della relazione degli amministratori;
- rilasciare una dichiarazione su eventuali errori significativi nella relazione degli amministratori.

A nostro giudizio, la relazione degli amministratori è coerente con la relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Obbligazionario Etico" al 30 dicembre 2024.

Inoltre, a nostro giudizio, la relazione degli amministratori è redatta in conformità al Provvedimento.

Con riferimento alla dichiarazione di cui all'articolo 14, comma 2, lettera e-ter), del D. Lgs. 27 gennaio 2010, n. 39, rilasciata sulla base delle conoscenze e della comprensione del Fondo e del relativo contesto acquisite nel corso dell'attività di revisione, non abbiamo nulla da riportare.

FONDO COMUNE D'INVESTIMENTO

Il fondo "EURIZON OBBLIGAZIONARIO ETICO" (già denominato "Sanpaolo Obbligazionario Italia Etico" fino al 31 dicembre 1998 e "Sanpaolo Obbligazionario Etico" fino al 27 aprile 2008) è stato istituito in data 13 settembre 1996 ai sensi della legge n. 77 del 23 marzo 1983 ed autorizzato dalla Banca d'Italia con Provvedimento del 31 dicembre 1996. Il Fondo è operativo a partire dal 2 giugno 1997. In data 1° novembre 2004 ha incorporato il fondo "Sanpaolo Obbligazionario Estero Etico" e in data 28 aprile 2008 ha incorporato il fondo "Nextra SR Bond". In data 24 giugno 2022 ha incorporato il fondo "Eurizon AM Obbligazionario Euro Corporate Etico".

Per il Fondo sono previste due classi di quote, definite quote di "Classe D" e quote di "Classe isy", che si differenziano per il livello di commissioni di gestione applicato e per le modalità di sottoscrizione.

Tutte le quote di un Fondo - ovvero tutte le quote appartenenti alla stessa classe - hanno uguale valore e uguali diritti.

La durata del Fondo è fissata al 31 dicembre 2050, salvo proroga da assumersi con deliberazione del Consiglio di Amministrazione almeno due anni prima della scadenza.

Il Fondo, denominato in euro, è del tipo a distribuzione dei ricavi; i ricavi sono distribuiti ai partecipanti a ciascuna Classe del Fondo secondo le modalità di seguito indicate.

La SGR provvede alla distribuzione ai partecipanti di almeno l'80% dei ricavi conseguiti nella gestione di ciascuna Classe del Fondo con periodicità annuale (con riferimento al 31 dicembre).

I ricavi oggetto di distribuzione - al netto dei relativi effetti fiscali - sono costituiti dai proventi da investimento (interessi, dividendi ed altri proventi) su strumenti finanziari quotati e non quotati, dai proventi delle operazioni di pronti contro termine e di prestito titoli e dagli interessi attivi su disponibilità liquide e su depositi bancari, al netto degli oneri finanziari (interessi passivi ed altri oneri finanziari) e degli oneri di gestione, come risultanti dalla relazione di gestione del Fondo relativa al periodo di riferimento per la distribuzione dei ricavi (annuale). E' facoltà del Consiglio di Amministrazione deliberare, secondo il proprio prudente apprezzamento, la distribuzione in tutto o in parte degli utili su titoli realizzati al netto di eventuali perdite e dei relativi effetti fiscali.

L'ammontare così distribuito non rappresenta il risultato effettivo del Fondo nel periodo, in quanto non vengono prese in considerazione né le plusvalenze né le minusvalenze. Per tali ragioni, la distribuzione potrebbe anche essere superiore al risultato effettivo di gestione del Fondo (variazione del valore della quota), rappresentando - in tal caso - un rimborso parziale del valore delle quote.

Hanno diritto alla distribuzione dei ricavi i partecipanti esistenti il giorno di approvazione da parte del Consiglio di Amministrazione della relazione di gestione del Fondo relativa al periodo di riferimento per la distribuzione dei ricavi (annuale). I diritti rivenienti dalle cedole non riscosse si prescrivono ai sensi di legge a favore del Fondo a decorrere dalla data del pagamento. Ai partecipanti al Fondo è data la possibilità di devolvere ad enti o associazioni benefiche una parte dei ricavi messi in pagamento dal Fondo medesimo.

La partecipazione al Fondo si realizza attraverso la sottoscrizione di quote o il loro successivo acquisto a qualsiasi titolo.

La sottoscrizione di quote può avvenire solo a fronte del versamento di un importo corrispondente al valore delle quote di partecipazione.

La SGR provvede a determinare il numero delle quote di partecipazione e frazioni millesimali di esse arrotondate per difetto da attribuire ad ogni partecipante dividendo l'importo del versamento, al netto degli oneri a carico dei singoli partecipanti, per il valore unitario della quota relativo al giorno di riferimento. Quando in tale giorno non sia prevista la valorizzazione del Fondo, le quote vengono assegnate sulla base del valore relativo al primo giorno successivo di valorizzazione della quota.

Il giorno di riferimento è il giorno in cui la SGR ha ricevuto, entro le ore 13.00, notizia certa della sottoscrizione ovvero, se successivo, è il giorno in cui decorrono i giorni di valuta riconosciuti al mezzo di pagamento indicati nel modulo di sottoscrizione. Nel caso di bonifico, il giorno di valuta è quello riconosciuto dalla banca ordinante.

Le quote di "Classe isy" possono essere sottoscritte esclusivamente mediante versamento in un'unica soluzione di importo minimo pari a 50 (cinquanta) euro. Tale Classe può essere sottoscritta solo tramite un soggetto incaricato del collocamento che opera esclusivamente mediante tecniche di comunicazione a distanza.

I partecipanti al Fondo possono, in qualsiasi momento, chiedere alla SGR il rimborso totale o parziale delle quote possedute.

Il rimborso può avvenire a mezzo bonifico ovvero a mezzo assegno circolare o bancario non trasferibile all'ordine del richiedente.

Il valore del rimborso è determinato in base al valore unitario delle quote del giorno di ricezione della domanda da parte della SGR. Quando nel giorno di ricezione della domanda non è prevista la valorizzazione del Fondo, il valore del rimborso è determinato in base al primo valore del Fondo successivamente determinato.

La SGR provvede, tramite il Depositario, al pagamento dell'importo nel più breve tempo possibile e non oltre il termine di quindici giorni dalla data in cui la domanda è pervenuta, salvi i casi di sospensione del diritto di rimborso.

Caratteristiche del Fondo

Il Fondo di tipo aperto, rientrante nell'ambito di applicazione della Direttiva 2009/65/CE come successivamente modificata ed integrata, appartiene alla categoria "Obbligazionari Altre Specializzazioni" e fa parte del "Sistema Etico".

Il "Sistema Etico" è un insieme di fondi che si prefiggono l'obiettivo di incrementare nel tempo il valore dei capitali conferiti attuando una politica di investimento ispirata a principi etici per la selezione degli emittenti. Il "Sistema Etico" si caratterizza anche per:

- la possibilità data ai partecipanti al fondo Obbligazionario Etico di devolvere ad enti o associazioni benefiche una parte dei ricavi messi in pagamento dal Fondo medesimo;
- l'impegno della SGR a finanziare progetti ed iniziative di carattere umanitario - nel senso più ampio del termine - tramite la devoluzione di una parte della commissione di gestione percepita sui Fondi del Sistema Etico, secondo quanto specificato nel Prospetto;
- l'impegno del Fondo Azionario Internazionale Etico a destinare una parte del patrimonio ad investimenti aventi come prioritarie finalità sociali e umanitarie;

I Fondi appartenenti al Sistema Etico sono orientati, tendenzialmente in via esclusiva, verso strumenti finanziari di emittenti che - al momento dell'investimento - non rientrano nei casi di esclusione precisati nei "criteri negativi" e si contraddistinguono per il rispetto di uno o più "criteri positivi":

"criteri positivi"

- a) nel caso in cui l'emittente sia uno Stato, riguardano
 - la tutela dei diritti dell'Uomo (qualunque sia la razza, la nazionalità, la religione, il sesso...);
 - l'impegno a dirimere situazioni di conflitto ed a creare le condizioni per un dialogo stabile e pacifico tra gli Stati ed i Popoli;
 - l'intervento a sostegno di Paesi non sviluppati e di quelli colpiti da guerre o catastrofi naturali;
- b) nel caso in cui l'emittente sia una società
 - la sensibilità mostrata nell'esercizio della propria attività d'impresa verso la tutela dell'ambiente;
 - l'impegno in attività e progetti che possano contribuire ad un miglioramento della qualità della vita;
 - l'attenzione dimostrata, durante la progettazione e la produzione, alle caratteristiche di qualità e sicurezza dei prodotti nonché alla salute ed alla sicurezza dei lavoratori;

"criteri negativi"

- c) nel caso in cui l'emittente sia uno Stato
 - la presenza di un regime oppressivo;
 - il coinvolgimento in azioni militari che non siano condotte sotto l'egida di organizzazioni sovranazionali;
- d) nel caso in cui l'emittente sia una società
 - la realizzazione di una parte rilevante del proprio giro d'affari o del proprio utile attraverso la produzione o commercializzazione di armi, tabacco, alcolici, organismi geneticamente modificati e prodotti lesivi della dignità dell'Uomo (ad esempio: pornografia,...) e della sua salute;
 - la produzione o realizzazione di impianti per la produzione di energia nucleare.

Nel caso in cui situazioni o notizie dovessero comportare una variazione di giudizio su un emittente, evidenziando il mancato rispetto dei "criteri positivi" o la presenza di comportamenti rientranti nei "criteri negativi", la SGR provvederà - in relazione alla gravità delle situazioni - a ridurre il peso dell'investimento negli strumenti finanziari di tali emittenti nel più breve tempo possibile, agendo nell'interesse dei partecipanti, e in ogni caso ad azzerarlo entro sei mesi dal momento di variazione del giudizio.

In considerazione dei principi etici a cui si ispira l'attività di gestione, il Consiglio di Amministrazione della SGR si avvale della collaborazione di un "Comitato di Sostenibilità" al fine di assicurare la rispondenza delle scelte gestionali ai principi etici sopra indicati. Tale Comitato è indipendente ed autonomo rispetto alla SGR, è composto da personalità di riconosciuta probità e moralità, formula le proprie opinioni circa l'eticità degli emittenti anche avvalendosi di banche dati internazionali.

Il benchmark di riferimento è:

50% Bloomberg MSCI Euro Treasury 500M ESG Weighted Custom Tilt
30% Bloomberg MSCI Euro Corporate Sustainability SRI Custom
20% FTSE Eurozone BOT (Weekly)

Gli investimenti sono effettuati prevalentemente in strumenti finanziari di natura obbligazionaria e/o monetaria di emittenti governativi, di organismi sovranazionali/agenzie o di emittenti societari con merito di credito non inferiore ad investment grade. E' escluso l'investimento in azioni; i titoli azionari che pervenissero al Fondo a seguito della conversione di obbligazioni convertibili o con utilizzo di warrant, sono alienati nell'interesse dei partecipanti nei tempi e nei modi ritenuti più opportuni dalla SGR. La durata media finanziaria (duration) del Fondo è tendenzialmente compresa tra 3,5 e 7,5 anni. Gli investimenti sono effettuati in strumenti finanziari quotati nei mercati regolamentati dei Paesi

aderenti al Fondo Monetario Internazionale nonché Taiwan, prevalentemente denominati in euro. Possono essere effettuati investimenti in strumenti finanziari denominati in valute diverse dall'euro fino ad un massimo del 25% del totale delle attività.

Il Fondo può inoltre investire:

- in strumenti finanziari di natura obbligazionaria e/o monetaria aventi rating inferiore ad investment grade o privi di rating, fino al 10% del totale delle attività;
- in depositi bancari denominati in qualsiasi valuta, fino ad un massimo del 30% del totale delle attività, a condizione che gli investimenti complessivi del Fondo risultino prevalentemente denominati in euro;
- in parti di OICVM e FIA aperti non riservati, la cui composizione del portafoglio risulti compatibile con la politica di investimento del Fondo, fino ad un massimo del 10% del totale delle attività;
- in strumenti del mercato monetario non quotati, fino ad un massimo del 10% del totale delle attività.

Il Fondo utilizza strumenti finanziari derivati per finalità di copertura dei rischi e per finalità diverse da quelle di copertura. L'esposizione complessiva in strumenti finanziari derivati non può essere superiore al valore complessivo netto del Fondo e deve risultare coerente con la politica di investimento. Tale esposizione è calcolata secondo il metodo degli impegni, secondo quanto stabilito nella disciplina di vigilanza.

La SGR adotta uno stile di gestione attivo. La selezione degli investimenti viene effettuata - nel rispetto di principi etici - sulla base delle previsioni circa l'evoluzione dei tassi di interesse considerando le opportunità di posizionamento, anche tramite arbitraggi, sui diversi tratti della curva dei rendimenti, sulla base delle previsioni circa l'andamento dei tassi di cambio tra le diverse valute e sull'analisi dell'affidabilità degli emittenti.

Data la sua denominazione, il Fondo è conforme ai requisiti previsti dagli "Orientamenti ESMA sull'utilizzo di termini ambientali, sociali e di governance o relativi alla sostenibilità nella denominazione dei fondi" (ESMA34-1592494965-657) per i fondi che utilizzano nella propria denominazione termini relativi alla dimensione "sociale".

Il Fondo promuove caratteristiche di natura ambientale e/o sociale nel rispetto di pratiche di buon governo societario, ai sensi dell'art. 8 del Regolamento (UE) 2019/2088 del Parlamento Europeo e del Consiglio del 27/11/2019 e successive modifiche.

A prescindere dagli orientamenti di investimento specifici del Fondo, resta comunque ferma la facoltà di:

- effettuare investimenti in strumenti finanziari non quotati, nei limiti previsti dalle vigenti disposizioni normative;
- detenere liquidità per esigenze di tesoreria;
- assumere, in relazione all'andamento dei mercati finanziari o ad altre specifiche situazioni congiunturali, scelte per la tutela dell'interesse dei partecipanti, che si discostino dalle politiche d'investimento.

Il Fondo può inoltre:

- acquistare titoli di società finanziate da società del Gruppo di appartenenza della SGR;
- negoziare strumenti finanziari con altri patrimoni gestiti dalla SGR;
- investire in parti di altri OICR gestiti dalla SGR o da altre società alla stessa legate tramite controllo comune o con una considerevole partecipazione diretta o indiretta.

La SGR ha facoltà di effettuare operazioni in divisa estere (es. acquisti e vendite a pronti ed a termine, ecc.) ed utilizzare strumenti di copertura del rischio di cambio, coerentemente con la politica di investimento del Fondo. La SGR ha inoltre la facoltà di utilizzare tecniche di gestione efficiente del portafoglio (quali ad esempio operazioni di pronti contro termine, riporti, prestito titoli ed altre operazioni assimilabili) coerentemente con la politica di investimento del Fondo e nel rispetto dei limiti e delle condizioni stabilite dalle vigenti disposizioni normative.

Spese ed oneri a carico del Fondo

Le spese a carico del Fondo sono:

- la provvigione di gestione a favore della SGR, pari allo 0,90% su base annua per le quote di "Classe D" e pari allo 0,55% su base annua per le quote di "Classe isy", calcolata quotidianamente sul valore complessivo netto del Fondo. La misura mensile della provvigione di gestione è pari ad 1/12 di quella sopra indicata ed è ripartita su base giornaliera; la medesima è prelevata dalla disponibilità del Fondo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento;
- il costo per il calcolo del valore della quota del Fondo, nella misura massima dello 0,016% su base annua, calcolato ogni giorno di valorizzazione sul valore complessivo netto del Fondo e prelevato mensilmente dalle disponibilità di quest'ultimo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento;
- il compenso riconosciuto al Depositario per l'incarico svolto. Tale importo è calcolato quotidianamente sul valore complessivo netto del Fondo, nella misura massima annua dello 0,024%;
- le spese di pubblicazione del valore unitario delle quote e dei prospetti periodici del Fondo;
- le spese degli avvisi inerenti alla liquidazione del Fondo, al pagamento delle cedole qualora il Fondo preveda la

distribuzione dei proventi, alla disponibilità dei prospetti periodici nonché alle modifiche del Regolamento richieste da mutamenti della legge ovvero delle disposizioni di vigilanza;

- gli oneri della stampa dei documenti destinati al pubblico nonché gli oneri derivanti dagli obblighi di comunicazione alla generalità dei partecipanti, purché tali oneri non attengano a propaganda e a pubblicità o comunque al collocamento delle quote del Fondo;

- le spese per la revisione della contabilità e dei rendiconti del Fondo, ivi compreso quello finale di liquidazione;

- gli oneri finanziari per i debiti assunti dal Fondo e le spese connesse;

- le spese legali e giudiziarie sostenute nell'esclusivo interesse del Fondo;

- il contributo di vigilanza dovuto alla Consob nonché alle Autorità estere competenti, per lo svolgimento dell'attività di controllo e di vigilanza. Tra tali spese non sono in ogni caso comprese quelle relative alle procedure di commercializzazione del Fondo nei paesi diversi dall'Italia;

- gli oneri di intermediazione inerenti alla compravendita di strumenti finanziari o di parti di OICR, all'investimento in depositi bancari nonché gli oneri connessi alla partecipazione agli OICR oggetto dell'investimento;

- gli oneri fiscali di pertinenza del Fondo.

La provvigione di gestione, calcolata separatamente per ciascuna classe di quote del Fondo, è imputata a ciascuna di esse, secondo il rispettivo ammontare, solo dopo che il valore complessivo del Fondo, al netto di tutte le componenti rettificative diverse dalle commissioni in questione, risultante in ciascuna giornata di calcolo, sia stato ripartito proporzionalmente tra le differenti classi di quote.

Il pagamento delle suddette spese, salvo quanto diversamente indicato, è disposto dalla SGR mediante prelievo dalla disponibilità del Fondo con valuta non antecedente a quella del giorno di effettiva erogazione.

In caso di investimento in OICR collegati, sul Fondo acquirente non vengono fatte gravare spese e diritti di qualsiasi natura relativi alla sottoscrizione e al rimborso delle parti degli OICR acquisiti. La SGR deduce dal proprio compenso, fino a concorrenza dello stesso, la remunerazione complessiva (provvigione di gestione, di incentivo, ecc.) percepita dal gestore degli OICR "collegati".

Regime fiscale

La SGR, ai sensi della Legge 10/2011, applica una ritenuta sul reddito realizzato direttamente in capo ai partecipanti.

La ritenuta viene applicata nella misura del 26%. La quota parte dei redditi riconducibile all'investimento in titoli governativi italiani ed equiparati e in obbligazioni emesse da Stati esteri white list e loro enti territoriali partecipa in misura ridotta, per il 48,08% del relativo ammontare al reddito fiscalmente imponibile. I proventi riferibili ai titoli pubblici italiani ed equiparati sono determinati proporzionalmente alla percentuale media dell'attivo investita direttamente, o indirettamente per il tramite di altri organismi di investimento.

Tale percentuale media viene aggiornata con cadenza semestrale e decorre dal 1° gennaio e dal 1° luglio di ciascun anno solare. Il relativo dato è disponibile sul sito internet della SGR, nella sezione dedicata alla fiscalità.

Il reddito imponibile in capo al partecipante corrisponde ai proventi distribuiti in costanza di partecipazione al Fondo o alla differenza tra il valore di rimborso, di liquidazione o di cessione delle quote e il costo medio ponderato di sottoscrizione o acquisto delle quote medesime, rilevati dai prospetti periodici. Tra le operazioni di rimborso sono comprese anche quelle realizzate mediante operazioni di spostamento tra Fondi. La ritenuta è applicata anche nell'ipotesi di trasferimento delle quote a rapporti di custodia, amministrazione o gestione intestati a soggetti diversi dagli intestatari dei rapporti di provenienza, incluse le operazioni di trasferimento avvenute per successione o donazione.

Nel caso in cui il partecipante realizzi una perdita, tale minusvalenza può essere portata dal partecipante in diminuzione di plusvalenze realizzate su altri titoli, nel medesimo periodo d'imposta o entro il quarto successivo.

Durata dell'esercizio contabile

L'esercizio contabile del Fondo ha durata annuale e si chiude l'ultimo giorno di valorizzazione del mese di dicembre di ogni anno.

RELAZIONE DEGLI AMMINISTRATORI

Scenario Macroeconomico

Nel periodo di riferimento (1° gennaio 2024 - 30 dicembre 2024) i mercati finanziari hanno registrato un andamento generalmente positivo. Il contesto macro si è caratterizzato per una certa divergenza fra gli USA e l'area Euro. Negli USA, infatti, la forza del ciclo ha sorpreso le stime e l'inflazione, sebbene in calo, ha mostrato un trend di rientro meno lineare; viceversa, nell'area Euro la crescita ha mostrato una maggiore debolezza e l'inflazione ha evidenziato un percorso di rientro verso il target del 2% più marcato. All'interno di questo scenario le principali Banche Centrali hanno avviato, seppure con tempistiche e modalità differenti, un ciclo di taglio dei tassi.

Più in dettaglio, negli USA l'inflazione totale ha chiuso il primo trimestre al 3,2%, in calo rispetto al dato di fine 2023, così come l'inflazione core (vale a dire al netto delle componenti più volatili legate ai prezzi di alimentari ed energia) che si è attestata al 3,8%, livello di poco inferiore al 4% che aveva caratterizzato la parte finale del 2023. A destare attenzione, però, sono stati i contributi mensili sia per l'inflazione totale che per quella core. La crescita mensile dei prezzi, infatti, si è assestata tra lo 0,3% e lo 0,4% per il primo trimestre. All'interno di questo contesto si è registrata una normalizzazione delle aspettative di politica monetaria, con i mercati che si sono via via allineati allo scenario delineato dalle Banche Centrali, prima fra tutte la Fed, che a dicembre 2023 aveva annunciato tre tagli dei tassi per il 2024. Nella riunione di marzo, la Banca Centrale statunitense ha lasciato i tassi invariati e ha confermato la volontà di procedere con tre tagli dei tassi, nonostante la dinamica inflattiva mostrasse una marginale resilienza ed i dati macro fossero ancora molto solidi, soprattutto, per quanto concerne le dinamiche occupazionali. Nell'area Euro l'inflazione ha registrato un percorso di discesa più netto, portandosi al 2,6% nel dato totale ed al 3,1% in quello core. Anche se l'inflazione europea ha mostrato una dinamica di rientro più consistente ed il quadro macro ha evidenziato una maggior debolezza rispetto a quello statunitense, la BCE non ha introdotto variazioni di politica monetaria nel trimestre, rimandando a giugno l'eventuale inizio dell'attesa riduzione dei tassi. Il contesto geopolitico ha visto il proseguimento delle tensioni sia in Ucraina che in Medio Oriente, ma con scarso impatto sui mercati finanziari. Anche le elezioni a Taiwan ed in Russia non hanno generato reazioni sostanziali sui mercati. Il congresso del Partito Comunista cinese ha fissato al 5% il target di crescita per il 2024; tuttavia le misure di stimolo introdotte da Pechino non sono state giudicate adeguate dagli investitori.

Nel secondo trimestre i dati di inflazione statunitensi sono apparsi in moderazione rispetto alla prima parte dell'anno; in particolare, i dati di aprile e maggio sono tornati ad evidenziare una tendenza al rientro. Da questo punto di vista, il mese di giugno è stato particolarmente importante; da un lato l'inflazione ha rallentato oltre le attese nel contributo mensile sia nella componente totale che in quella core, dall'altro la Fed ha rivisto le sue aspettative di politica monetaria (Dots), posticipando al 2025 la parte sostanziale della riduzione dei tassi e prevedendo un solo taglio per il 2024. In Europa, invece, i dati di inflazione hanno proseguito in un percorso di rientro più definito, portando la BCE ad effettuare un primo taglio dei tassi da 25 punti base nella riunione di giugno. Questo primo intervento di riduzione, però, non ha prodotto un cambiamento radicale nell'orientamento di politica monetaria, che è rimasto fortemente ancorato all'andamento dei dati macro e, in particolare, dell'inflazione. Oltre ai dati macro, molto rilevanti per gli operatori sono state anche le elezioni per il rinnovo del Parlamento europeo, il cui esito, però, non ha avuto particolari riflessi sui mercati visto che si è avuta una sostanziale riconferma della maggioranza uscente. La maggior parte della turbolenza politica si è avuta in Francia dove, a seguito della forte affermazione dei partiti di opposizione, il presidente Macron ha sciolto anticipatamente le camere e indetto nuove elezioni. Questo si è tradotto in una crescente volatilità sugli asset francesi, con un marginale contagio anche per gli altri Paesi europei; tale volatilità, però, è gradualmente rientrata man mano che i risultati elettorali mostravano sempre meno probabile una forte affermazione dei partiti con posizioni più estreme.

Il terzo trimestre è stato caratterizzato dal consolidamento del percorso di discesa per l'inflazione USA, mentre quella europea ha addirittura accelerato verso il basso, chiudendo il periodo sotto il target di riferimento della BCE. Negli USA l'inflazione su base annua è scesa al 2,5% nel dato totale, ai minimi da febbraio 2021, mentre nella componente core è apparsa più stabile al 3,2%, sui minimi da aprile 2021. In Europa l'inflazione è scesa significativamente, portandosi all'1,8% (sotto il target BCE del 2%), mentre quella core ha raggiunto il livello del 2,7% su base annua. A ridurre le pressioni inflazionistiche ha contribuito il calo diffuso dei prezzi delle materie prime, in particolare di quelle energetiche, con il petrolio che ha chiuso il trimestre in area 70 dollari al barile. Insieme al calo dell'inflazione, un marginale indebolimento del mercato del lavoro USA e un deterioramento del quadro macro complessivo in Europa hanno portato le Banche Centrali a ridurre i tassi. La BCE ha introdotto il secondo taglio da 25 punti base del tasso sui depositi, dopo quello effettuato a giugno, portandolo dal 3,75% al 3,5%. Negli USA, la Fed ha avviato la politica di allentamento monetario con un primo taglio da 50 punti base, che ha portato i tassi al 5%. Tra le principali Banche Centrali, quella giapponese è risultata in controtendenza, poiché a fine luglio ha annunciato un rialzo dei tassi per fronteggiare le crescenti pressioni inflazionistiche. Questo rialzo era inatteso ed ha innescato molta volatilità sui mercati, che, in seguito, è gradualmente rientrata con il consolidarsi della crescita globale. In Europa, la Francia ha ultimato la formazione del nuovo esecutivo; tuttavia, la debolezza del quadro politico, insieme a quella sui dati di bilancio, si è riflessa sullo spread del tasso decennale francese rispetto a quello tedesco che è tornato in area 80 punti base. Negli USA la corsa per la presidenza ha visto la rinuncia di Biden, molto penalizzato nei sondaggi, a favore della sua vice Kamala Harris. In Cina i policy maker hanno modificato l'approccio verso gli stimoli all'economia. La Banca Centrale cinese,

infatti, ha introdotto un significativo taglio dei tassi, mentre le autorità centrali hanno annunciato, anche se non ancora formalizzato, un piano di espansione fiscale, finalizzato al raggiungimento del target di crescita del 5%.

Il quarto trimestre è stato caratterizzato dal consolidamento di una marginale divergenza macroeconomica tra USA ed Eurozona. Negli USA l'inflazione totale ha chiuso il trimestre al 2,7%, mentre l'inflazione core si è stabilizzata in area 3,3%. Il rialzo medio su base mensile è stato nell'ordine dello 0,3%, evidenziando come, nonostante una tendenza di fondo dell'inflazione orientata al ribasso, la crescita mensile dei prezzi sia rimasta solida e i progressi verso l'obiettivo del 2% abbiano registrato un certo rallentamento. A questo si sono aggiunti un mercato del lavoro in fase di normalizzazione su livelli pre-pandemia e un quadro macro complessivo che ha visto i settori legati ai servizi sostenere la crescita americana. La netta affermazione repubblicana alle elezioni di novembre ha portato gli investitori a scontare molto rapidamente l'agenda economica di Trump, fatta di espansione fiscale, nuove tariffe, deregolamentazione e lotta all'immigrazione. La reazione della Fed ad un quadro macro più solido delle attese si è tradotta in due tagli dei tassi da 25 punti base nel corso del trimestre, mentre le stime relative ai tagli previsti per il 2025 sono state fortemente ridotte. Situazione diversa in Europa, dove l'inflazione ha chiuso il trimestre in area 2,3% nel dato totale, mentre la componente core in area 2,7%. Il quadro macro in Eurozona si è confermato più debole rispetto a quello americano. A questo si sono poi aggiunte le difficoltà politiche francesi e tedesche. In Francia, è stato varato un nuovo governo dopo quello di luglio, con l'obiettivo prioritario di approvare la nuova legge di bilancio, mentre in Germania la crisi politica si è tradotta nello scioglimento del parlamento, con nuove elezioni previste per il mese di febbraio. In tale contesto, la BCE ha effettuato due ulteriori tagli dei tassi da 25 punti base, prevedendo di riportare l'inflazione al target del 2% entro il 2025. La debolezza europea è in parte legata a quella evidenziata dall'economia cinese. Nel corso del trimestre, infatti, proprio la Cina ha annunciato un importante piano di stimolo fiscale a sostegno dell'economia, che fatica a raggiungere il target previsto di una crescita annua al 5%.

Analizzando l'andamento dei mercati finanziari, nei primi sei mesi del 2024, all'interno di un contesto macroeconomico nel quale la crescita ha mostrato una certa resilienza e l'inflazione un ritmo di rientro verso gli obiettivi delle Banche Centrali più lento del previsto, i tassi governativi si sono mossi al rialzo sia sulla parte a breve delle curve che su quella più lunga. Nel prosieguo del periodo di riferimento, però, di fronte al rafforzamento del movimento di discesa dell'inflazione e al cambio di approccio di politica monetaria da parte delle principali Banche Centrali, i tassi hanno ripreso a scendere, con un movimento che ha impattato maggiormente la parte a breve delle curve dei rendimenti. Nella parte conclusiva del periodo di riferimento, però, si è assistito ad una risalita dei tassi statunitensi che ha coinvolto, seppure con intensità più contenuta, anche quelli europei. I mercati, infatti, sono andati a scontare maggiormente la vittoria di Trump, con la possibilità di avere un'agenda economica molto espansiva in grado potenzialmente di rallentare il percorso di riduzione dei tassi intrapreso dalla Fed. Questi timori sono stati amplificati dalla Fed stessa che nell'ultimo meeting dell'anno, pur operando un ulteriore taglio dei tassi di 25 punti base, si è detta pronta a rallentare il ritmo dei tagli nel corso del 2025, alla luce della solidità della ripresa, della tenuta del mercato del lavoro e, soprattutto, del rallentamento nella discesa dell'inflazione.

Nel complesso, il tasso di interesse a 2 anni statunitense ha chiuso l'anno al 4,24% (sugli stessi livelli della chiusura annuale precedente), mentre il decennale è aumentato dal 3,88% al 4,53% per una curva che ha assunto un'inclinazione positiva (ossia, con un livello dei tassi sul tratto a lungo termine superiore a quello del tratto a breve termine). In Europa il tasso a 2 anni tedesco è sceso dal 2,40% al 2,08% mentre quello decennale è salito dal 2,02% al 2,37%. Tra i Paesi periferici dell'area Euro, lo spread del decennale italiano rispetto a quello tedesco è calato da 168 punti base a 115.

All'interno di questo scenario, il mercato obbligazionario globale ha mostrato una performance positiva dello 0,2% in valuta locale e del 2,6% in euro (indice JPM Global). A livello di singole aree geografiche, l'area Euro ha chiuso il periodo di riferimento con l'indice JPM Emu in rialzo dell'1,8% e gli Stati Uniti (indice JPM Usa) hanno registrato un guadagno dello 0,8% in valuta locale e del 7,2% in euro. I Paesi emergenti (indice JPM Embi+) hanno evidenziato un andamento nel complesso migliore rispetto a quello dei Paesi maggiormente sviluppati, con una variazione positiva del 7,7% in valuta locale e del 14,6% in euro.

Volgendo lo sguardo ai mercati azionari, essi hanno esibito un andamento positivo, beneficiando di una buona dinamica degli utili aziendali e di un contesto macro ancora favorevole. Inoltre, l'inizio dei tagli dei tassi da parte delle Banche Centrali è stato un elemento di ulteriore supporto, sebbene le tempistiche di riduzione siano state più lente delle stime iniziali. Nel corso dei mesi estivi si è assistito ad un aumento della volatilità che è sfociata in alcune fasi ribassiste, peraltro interamente recuperate in orizzonti temporali molto ridotti. Nel corso del mese di ottobre, sulla base delle attese di una politica fiscale a favore delle aziende e di un processo di deregolamentazione in vari settori economici nel caso di una vittoria di Trump, la Borsa statunitense ha consolidato il movimento rialzista, mentre i listini europei e asiatici (in primis quello cinese) sono stati penalizzati dai timori di una nuova politica di dazi commerciali. Nella parte conclusiva del periodo di riferimento, la vittoria di Trump e la conquista da parte dei repubblicani della maggioranza sia alla Camera che al Senato hanno fornito ulteriore sostegno agli indici azionari americani, mentre quelli europei e dei Paesi emergenti non hanno evidenziato un'impostazione rialzista così marcata, in attesa anche di verificare la reale portata delle decisioni della nuova amministrazione americana su vari dossier economici, primo fra tutti quello commerciale.

Il mercato azionario globale ha totalizzato un guadagno in valuta locale del 21,4% (indice MSCI World) e del 26,7% in euro. A livello di singole aree geografiche, il mercato azionario statunitense (indice MSCI Usa) ha chiuso il 2024 con una performance positiva del 25,1% in valuta locale che raggiunge il 33,2% se si considera l'andamento in euro. I mercati europei (indice MSCI Emu) hanno evidenziato un andamento rialzista più contenuto rispetto a quello mostrato dai listini

statunitensi, registrando una performance positiva dell'8,9%. Andamento positivo anche per i Paesi emergenti; l'area nel suo complesso (indice MSCI Emerging Markets) ha evidenziato un recupero del 13,3% in valuta locale e del 14,7% in euro.

Relativamente al mercato valutario, l'euro si è indebolito del 6,0% nei confronti del dollaro e del 4,2% rispetto alla sterlina, mentre si è rafforzato dell'1,2% contro il franco svizzero e del 4,8% verso lo yen. La dinamica valutaria ha impattato sulle performance convertite in euro dei mercati esterni all'area Euro.

Commento di gestione

La duration del Fondo è stata costantemente superiore rispetto al benchmark di riferimento. Il sovrappeso è stato progressivamente incrementato nel corso della prima parte dell'anno e dopo il taglio a sorpresa della Fed di 50 punti base del 18 settembre.

Il Fondo ha costruito una posizione complessivamente lunga di duration, modulandone l'intensità nel corso dell'anno e allocandola principalmente sulla curva europea, ma anche tatticamente su Stati Uniti o Regno Unito. Tenzialmente il sovrappeso si è concentrato maggiormente sui segmenti a breve e medio termine della curva dei rendimenti.

In termini di allocazione geografica, in Europa la parte dedicata ai Paesi periferici è stata mantenuta quasi costantemente in sovrappeso, più su Spagna e Portogallo che su Italia, dove il peso è stato concentrato principalmente sulle parti a breve termine della curva per sfruttarne l'inversione e per il livello interessante dei tassi delle scadenze entro l'anno. In termini di curva, mentre sui Paesi europei core si è preferito privilegiare le parti a breve ed intermedie, sui Paesi periferici il Fondo ha sovrappeso le parti a lunga, vista la ripidità delle curve stesse. Sulla parte corporate è stato mantenuto e incrementato tatticamente un discreto sovrappeso, utilizzando frequentemente il mercato primario.

Il Fondo ha utilizzato tatticamente la parte valutaria, in particolare con il sovrappeso di yen. Dollaro in lieve sovrappeso nella parte finale dell'anno contro euro. Sporadicamente sono state costruite posizioni di sovrappeso sulle valute del nord Europa, in particolare corona norvegese contro corona svedese.

Nell'implementazione di posizioni volte a trarre profitto da movimenti tattici di duration, curva e spread, sono stati utilizzati derivati al fine di ridurre i costi di transazione e sfruttare la maggiore liquidità rispetto all'investimento diretto in titoli.

La performance del Fondo è stata positiva in termini assoluti ma inferiore al benchmark di riferimento. Positivo il contributo derivante dall'allocazione sui tassi europei, a discapito dei tassi statunitensi, e dall'allocazione alla periferia e al credito, mentre è stato negativo il lungo di duration complessivo e il sovrappeso di yen.

Per i mesi a venire il Fondo manterrà un approccio costruttivo sulla parte tassi, anche se i livelli assoluti raggiunti nelle ultime settimane dell'anno consigliano una certa cautela. Sulla parte corporate, pur avendo una visione positiva, si opererà un'attenta selezione degli emittenti da inserire in portafoglio, sia in termini finanziari che in termini di punteggio ESG (Environmental, Social, Governance).

Rapporti con le Società del Gruppo

Si precisa che i rapporti intrattenuti e le operazioni effettuate nel corso del periodo di riferimento con le altre Società del Gruppo vengono descritti nell'ambito della nota integrativa cui si rimanda. Tali rapporti e operazioni sono stati regolati in base alle normali condizioni di mercato.

Fatti di rilievo avvenuti dopo la chiusura del periodo di riferimento della presente relazione

Nell'ambito della politica di investimento dei fondi "Eurizon Obbligazionario Etico", "Eurizon Diversificato Etico" ed "Eurizon Azionario Internazionale Etico", appartenenti al "Sistema Etico", è stato precisato che gli stessi fondi risultano conformi ai requisiti previsti dagli "Orientamenti ESMA sull'utilizzo di termini ambientali, sociali e di governance o relativi alla sostenibilità nella denominazione dei fondi", per i fondi che utilizzano nella propria denominazione termini relativi alla dimensione "sociale".

In particolare, gli stessi fondi adottano le esclusioni previste dagli indici di riferimento UE di transizione climatica previste all'articolo 12, paragrafo 1, lettere a), b) e c), del Regolamento Delegato (UE) 2020/1818 della Commissione del 17 luglio 2020.

Tali modifiche, deliberate dal Consiglio di Amministrazione di Eurizon Capital SGR, nella riunione del 28 gennaio 2025, acquisiranno efficacia in data 28 febbraio 2025.

Attività di collocamento delle quote

Di seguito si riporta il dettaglio dell'attività di collocamento delle classi di quote:

Classe D: raccolta netta negativa per euro 22.479.250.

Classe isy: raccolta netta positiva per euro 3.000, effettuata tramite Isybank S.p.A...

Informazioni su SFDR e tassonomia

La SGR, ai sensi all'articolo 11, paragrafo 2, del Regolamento (UE) 2019/2088 (cd. "Regolamento SFDR") e della correlata disciplina di attuazione, mette a disposizione per i prodotti classificati ai sensi dell'art.8 del Regolamento SFDR, le informazioni sulle caratteristiche ambientali e/o sociali nell'allegato "Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario".

Devoluzione Commissioni di Gestione

Il Regolamento dei fondi appartenenti al Sistema Etico prevede l'impegno della Società a finanziare progetti ed iniziative di carattere umanitario tramite la devoluzione di una somma - come esplicitato nel Prospetto del Fondo - pari allo 0,01% del patrimonio netto medio giornaliero complessivo dei fondi appartenenti al "Sistema Etico" in ciascun esercizio annuale.

Al fine di assicurare la rispondenza dei progetti e delle iniziative di carattere umanitario ai principi etici indicati nel Prospetto del Fondo e in applicazione del Codice Etico e del Codice Interno di Comportamento, la SGR ha istituito un apposito comitato interno, denominato "Comitato Devoluzioni", composto da 4 membri rappresentativi di diverse funzioni aziendali, inclusa la funzione di conformità. Tra i compiti del Comitato rientrano anche quelli di (i) sovrintendere alle attività di devoluzione e beneficenza effettuate a tutti i livelli da Eurizon Capital SGR, e (ii) predisporre le proposte per il Consiglio di Amministrazione in merito all'individuazione delle organizzazioni benefiche ritenute prioritarie e meritevoli.

La devoluzione effettuata per l'esercizio 2024 è stata destinata alla seguente lista di organizzazioni:

- ReteClima Onlus (Walk4Trees);
- Il Ponte Società Cooperativa Sociale;
- Italian Society of Oncologic Surgery (S.I.C.O.);
- Amici di Cometa Onlus;
- Associazione AIHELPIU;
- Associazione Le Gocce Volontari Per il Tempo Libero dei Disabili e Le Loro Famiglie ETS;
- La Città di Smeraldo ONLUS;
- Associazione "La vita è un dono" ODV;
- Associazione "Salotto Letterario Donata Doni" Lagonegro - ONLUS;
- GEF Educational - Associazione di promozione sociale;
- Amici delle Missioni OMI Casa Betania ONLUS;
- A.P.E. Natura ODV oasi smeraldino;
- Unione Italiana dei Ciechi e degli Ipovedenti - Liguria;
- YUKI Onlus;
- Il Cuore nel Mondo - ODV;
- For Kenya ETS;
- BB Leva89;
- Pubblica Assistenza di Tarnuzze;
- Fondazione Francesca Divella Onlus;
- Zhe - Center for Human Health and Environment;
- Associazione CasAmica ODV;
- ASSOCIAZIONE PER I DIRITTI DEGLI ANZIANI;
- Il Telaio delle arti APS;
- Fondazione Diversity ETS;
- PlayMore! Società Sportiva Dilettantistica;
- Dog4life ETS;
- Il sorriso dei popoli APS;
- Associazione caretta caretta;
- Mani Guanelliane di Provvidenza ODV;
- Associazione Arci Le Muse APS;
- Villaggio del Fanciullo di Morosolo;
- Portami per Mano Onlus;
- SOS Villaggi dei Bambini;
- Associazione Missione Belem APS;
- Cooperativa Sociale Regina Mundi;
- Kencom - Associazione Onlus Kenyan Community;
- Associazione Tumori Toscana;
- Arimo Società Cooperativa Sociale;
- L'Arte nel Cuore Onlus;
- Emmaus Società Cooperativa Sociale;
- L'ORSA MINORE ETS;
- Cooperativa Primi Passi - Casa Gialla;
- A.N.D.O.S Comitato Varese OdV (Associazione Nazionale donne operate al seno) ;
- Comunità di Saccovescio;
- Acchiappalevriani ODV;
- Fondazione Alessandro Maria Zancan ETS;
- AGPD - Associazione Genitori e Persone con Sindrome di Down - ONLUS;
- Croce Bianca Milano sezione Milano Centro;
- Imparo Mentre Cresco APS;
- Camminiamo Insieme;

- W.A.L.C.E. Onlus;
- Fondazione Oxiamo Onlus;
- Medici con L'africa Cuamm;
- Mamme a Scuola - Associazione di Promozione Sociale ETS.

Politica di Distribuzione

Si precisa che, come indicato nel Regolamento del Fondo, gli importi distribuibili corrispondono ad un minimo di euro 3.597.817 (pari al 80% dei ricavi distribuibili) e ad un massimo di euro 4.497.271 (ovvero il 100% del massimo distribuibile).

Il Consiglio di Amministrazione delibera, in ottemperanza a quanto stabilito nel Regolamento del Fondo, di distribuire alle quote in circolazione alla data di approvazione della presente relazione, l'importo complessivo di euro 4.497.271 destinando a proventi del Fondo l'eventuale residuo non distribuibile derivante dal troncamento della cedola unitaria.

L'importo unitario della cedola, ottenuto dalla ripartizione dell'ammontare messo in distribuzione per le quote del Fondo in circolazione, dopo le operazioni di avvaloramento e di rimborso, alla data di approvazione della presente relazione di gestione, è di euro 0,074 pagabile a partire dal 10 marzo 2025.

Milano, 25 febbraio 2025

 IL CONSIGLIO DI AMMINISTRAZIONE
 

RELAZIONE DI GESTIONE AL 30 DICEMBRE 2024

PREMESSA

La Relazione di gestione del Fondo si compone di una Situazione patrimoniale, di una Sezione reddituale e di una Nota integrativa ed è stata redatta in conformità alle disposizioni del Regolamento della Banca d'Italia del 19 gennaio 2015 in materia di gestione collettiva del risparmio, come modificato dal Provvedimento della Banca d'Italia del 12 marzo 2024. Questi sono inoltre accompagnati dalla relazione degli amministratori.

I prospetti contabili e la nota integrativa sono redatti in unità di euro, senza cifre decimali, a eccezione del valore della quota, che viene calcolato in millesimi di euro.

La presente Relazione di gestione è redatta con riferimento al 30 dicembre 2024, che risulta, ai sensi del regolamento del Fondo attualmente in vigore, l'ultimo giorno di calcolo del valore della quota del mese di dicembre. Tale data rappresenta pertanto il termine dell'esercizio contabile del Fondo.

Come espressamente previsto dal Provvedimento di riferimento, i prospetti allegati sono stati posti a confronto con i dati relativi al periodo precedente.

L'Assemblea degli Azionisti di Eurizon Capital SGR S.p.A. del 16 marzo 2020 ha incaricato EY S.p.A. della revisione legale del bilancio d'esercizio e della revisione contabile delle relazioni di gestione dei Fondi comuni d'investimento istituiti dalla SGR per gli esercizi 2021 - 2029.

Milano, 25 febbraio 2025

Per IL CONSIGLIO DI AMMINISTRAZIONE

NOTA INTEGRATIVA

Parte A - Andamento del valore della quota

1) Nel periodo di riferimento, la performance del Fondo, al netto delle commissioni applicate, relativa alla Classe D e alla Classe Isy e la performance del benchmark di riferimento, sono state rispettivamente pari a 1,63%, -1,05% e 3,01%, -0,76%.

Si ricorda che la classe Isy del Fondo è stata sottoscritta per la prima volta il 29 novembre 2024, pertanto non viene rappresentato il grafico lineare dell'andamento delle quote.

Classe D (*)

(*) Ai fini del confronto con il benchmark di riferimento, il valore unitario della quota è espresso al lordo del valore delle eventuali cedole unitarie distribuite dal Fondo nel corso del periodo di riferimento.

2) Il rendimento annuo del Fondo e del benchmark(*) nel corso degli ultimi dieci anni, o del minor periodo di vita delle Classi del Fondo, può essere rappresentato come segue:

Classe D

Il rendimento annuo della classe Isy nel corso degli ultimi dieci anni non è rappresentato in quanto la stessa è stata

Pitz

istituita nel corso dell'esercizio contabile.

I dati di rendimento del Fondo non includono eventuali costi di sottoscrizione e rimborso a carico dell'investitore. La performance del Fondo e del benchmark riflette valori che fino al 30/06/2011 erano al netto dell'effetto fiscale, mentre dal 01/07/2011 sono calcolati al lordo di tale componente.

3) I valori minimi e massimi delle differenti Classi di quota raggiunti durante l'esercizio sono così raffigurabili:

Andamento del valore della quota durante l'esercizio - classe D	
Valore minimo al 10/06/24	5,344
Valore massimo al 02/12/24	5,644

Andamento del valore della quota durante l'esercizio - classe isy	
Valore minimo al 27/12/24	5,557
Valore massimo al 02/12/24	5,644

Per quanto concerne i principali eventi che hanno influito sull'andamento del valore della quota si rimanda a quanto illustrato nel commento di gestione.

4) Il Fondo presenta la suddivisione nelle differenti Classi di quote, descritte nel paragrafo del "Fondo comune di investimento".

5) Nel corso dell'esercizio non sono stati riscontrati errori nel calcolo del valore delle quote del Fondo.

6) La volatilità della differenza di rendimento del Fondo rispetto al benchmark di riferimento negli ultimi tre anni o del minor periodo di vita del Fondo è rappresentata dal valore della "Tracking Error Volatility(*)" di seguito riportata:

Classe	2024	2023	2022
D	1,05%	1,31%	1,46%

(*) La Tracking Error Volatility è calcolata come deviazione standard settimanale annualizzata della differenza tra la performance del Fondo e quella del benchmark.

7) Le quote del Fondo non sono trattate su mercati regolamentati.

8) Si precisa che, come indicato nel Regolamento del Fondo, gli importi distribuibili corrispondono ad un minimo di euro 3.597.817 (pari al 80% dei ricavi distribuibili) e ad un massimo di euro 4.497.271 (ovvero il 100% del massimo distribuibile).

Il Consiglio di Amministrazione delibera, in ottemperanza a quanto stabilito nel Regolamento del Fondo, di distribuire alle quote in circolazione alla data di approvazione della presente relazione, l'importo complessivo di euro 4.497.271 destinando a proventi del Fondo l'eventuale residuo non distribuibile derivante dal troncamento della cedola unitaria. L'importo unitario della cedola, ottenuto dalla ripartizione dell'ammontare messo in distribuzione per le quote del Fondo in circolazione, dopo le operazioni di avvaloramento e di rimborso, alla data di approvazione della presente relazione di gestione, è di euro 0,074 pagabile a partire dal 10 marzo 2025.

9) Il Fondo è soggetto principalmente al rischio di sfavorevole andamento dei corsi dei titoli obbligazionari che può dipendere sia dal movimento di risalita dei tassi che dal movimento di allargamento degli spread dei Paesi in cui può avvenire l'investimento.

Il monitoraggio di tali rischi viene effettuato su base continuativa dal gestore attraverso la costante verifica dell'effettivo posizionamento del Fondo rispetto al profilo di rischio-rendimento desiderato e al benchmark di riferimento. La misurazione ed il controllo dei rischi in oggetto viene inoltre effettuata con frequenza giornaliera mediante l'utilizzo di modelli matematico-statistici utilizzati autonomamente dalla struttura di Risk Management. I risultati di tali valutazioni sono regolarmente portati all'attenzione degli organi amministrativi della SGR.

I valori della volatilità annualizzata e del VaR mensile per la classe Isy, non sono indicati in quanto l'orizzonte temporale di vita del Fondo risulta poco significativo per effettuare il calcolo, pertanto non viene fornita rappresentazione dei rischi assunti nel periodo.

Per le ulteriori classi di quota, ai fini di fornire una rappresentazione dei rischi assunti nell'esercizio, si riporta qui di seguito una sintesi degli indicatori più significativi, elaborati a posteriori su dati di consuntivo:

Classe D

Volatilità annualizzata su quote nette del Fondo **3,73%**
 (esprime la misura annualizzata della variabilità settimanale del rendimento della quota rispetto al valore medio del rendimento stesso)

Volatilità annualizzata del Benchmark **2,85%**
 (esprime la misura annualizzata della variabilità del rendimento del benchmark rispetto al valore medio del rendimento stesso)

Var mensile (99%) su quote nette **-1,38%**
 (Minor rendimento realizzato su base mensile nel corso del periodo di riferimento determinato escludendo l'1% dei peggiori risultati)

Durante il periodo di riferimento, sono stati utilizzati strumenti derivati (quali future, opzioni, swap) per finalità di copertura.

Parte B - Le attività, le passività e il valore complessivo netto

SEZIONE I - Criteri di valutazione

Principi contabili

La presente relazione di gestione è redatta nel presupposto della continuità operativa del Fondo.

Nella redazione del presente documento vengono applicati i principi contabili di generale accettazione per i fondi comuni d'investimento e i criteri di valutazione previsti dal Regolamento in accordo con quanto espressamente disposto dalla Banca d'Italia. Tali principi contabili, coerenti con quelli utilizzati nel corso del periodo per la predisposizione dei prospetti giornalieri, sono di seguito riepilogati.

Criteri contabili

Gli acquisti e le vendite di titoli e di altre attività sono contabilizzati nel portafoglio del Fondo sulla base della data di effettuazione dell'operazione, indipendentemente dalla data di regolamento dell'operazione stessa. Nel caso di sottoscrizione di titoli di nuova emissione la contabilizzazione nel portafoglio del Fondo avviene invece alla data di attribuzione.

La vendita o l'acquisto di contratti future su titoli nozionali influenzano il valore netto del Fondo attraverso la corresponsione o l'incasso dei margini di variazione i quali incidono direttamente sulla liquidità disponibile e sul conto economico mediante l'imputazione dei differenziali positivi/negativi. Tali differenziali vengono registrati secondo il principio della competenza, sulla base della variazione giornaliera tra i prezzi di chiusura del mercato di contrattazione e i costi dei contratti stipulati e/o i prezzi del giorno precedente.

Le opzioni, i premi e i warrant acquistati e le opzioni emesse e i premi venduti sono computati tra le attività/passività al loro valore corrente. I controvalori delle opzioni, dei premi e dei warrant non esercitati confluiscono, alla scadenza, nelle apposite poste di conto economico.

I costi delle opzioni, dei premi e dei warrant, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i costi per acquisti e i ricavi per vendite dei titoli cui si riferiscono, mentre i ricavi da premi venduti e opzioni emesse, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i ricavi per vendite e i costi per acquisti dei titoli cui si riferiscono.

Le differenze tra i costi medi ponderati di carico e i prezzi di mercato relativamente alle quantità in portafoglio originano minusvalenze e/o plusvalenze; nell'esercizio successivo tali poste da valutazione influiranno direttamente sui relativi valori di libro. Gli utili e le perdite su realizzi riflettono la differenza fra i costi medi ponderati di carico e i prezzi relativi alle vendite dell'esercizio. Le commissioni di acquisto e vendita corrisposte alle controparti, qualora esplicitate sono imputate a costo nella voce "13. Altri Oneri" della Sezione Reddittuale della relazione di gestione.

Gli interessi e gli altri proventi su titoli, gli interessi sui depositi bancari, gli interessi sui prestiti, nonché gli oneri di gestione, vengono registrati secondo il principio della competenza temporale, mediante il calcolo, ove necessario, di ratei attivi e passivi.

I dividendi maturati su titoli azionari in portafoglio vengono registrati dal giorno della quotazione ex cedola, al netto della ritenuta d'imposta ove applicata.

Le sottoscrizioni e i rimborsi delle quote sono registrati a norma di Regolamento del Fondo, nel rispetto del principio della competenza temporale.

Criteri di valutazione

Il prezzo di valutazione dei titoli in portafoglio in ottemperanza a quanto disposto dalla normativa vigente è determinato sulla base dei seguenti parametri:

- i prezzi unitari utilizzati, determinati in base all'ultimo prezzo disponibile rilevato sul mercato di negoziazione, sono quelli del giorno di Borsa aperta al quale si riferisce il valore della quota;
- per i titoli di Stato italiani è l'ultimo prezzo rilevato sul Mercato Telematico (MOT) e, in mancanza di quotazione, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli obbligazionari quotati negoziati presso il Mercato Telematico (MOT) è il prezzo trade e, in mancanza di questo, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli quotati presso altri mercati regolamentati, è l'ultimo prezzo ufficiale disponibile entro le ore 24 italiane del giorno al quale si riferisce il valore della quota. Se il titolo è trattato su più mercati si applica la quotazione più significativa, tenuto conto anche delle quantità trattate e dell'operatività svolta dal Fondo. Nel caso in cui nel mercato di quotazione risultino contenuti gli scambi ed esistano elementi di scarsa liquidità, la valutazione tiene altresì conto del presumibile valore di realizzo determinabile anche sulla base delle informazioni reperibili su circuiti internazionali di

referimento oggettivamente considerate dai responsabili organi della SGR;

- per i titoli e le altre attività finanziarie non quotati, compresi quelli esteri, è il loro presumibile valore di realizzo sul mercato, individuato su un'ampia base di elementi di informazione - oggettivamente considerati dai responsabili organi della SGR - con riferimento alla peculiarità del titolo, alla situazione patrimoniale e reddituale degli emittenti, alla situazione del mercato e al generale andamento dei tassi di interesse;

- per le opzioni, i warrant e gli strumenti derivati trattati in mercati regolamentati è il prezzo di chiusura del giorno rilevato nel mercato di trattazione; nel caso di contratti trattati su più mercati è il prezzo più significativo, anche in relazione alle quantità trattate sulle diverse piazze e all'operatività svolta dal Fondo;

- per le opzioni, i warrant e gli strumenti derivati non trattati in mercati regolamentati è il valore corrente espresso dalla formula indicata dall'Organo di Vigilanza; qualora i valori risultassero incongruenti con le quotazioni espresse dal mercato, la SGR riconsidera il tasso d'interesse "risk free" e la volatilità utilizzati, al fine di ricondurne il risultato al presunto valore di realizzo;

- per la conversione in Euro delle valutazioni espresse in altre valute si applicano i relativi cambi correnti alla data di riferimento comunicati da WM Reuters. Le operazioni a termine in valuta sono convertite al tasso di cambio a termine corrente per scadenze corrispondenti a quelle delle operazioni oggetto di valutazione;

- per i titoli strutturati non quotati la valutazione viene effettuata procedendo alla valutazione distinta di tutte le singole componenti elementari in cui essi possono essere scomposti; per titoli strutturati si intendono quei titoli che incorporano una componente derivata e/o presentano il profilo di rischio di altri strumenti finanziari sottostanti. In particolare, non sono considerati titoli strutturati i titoli di Stato parametrati a tassi di interesse di mercato e i titoli obbligazionari di emissione societaria che prevedono il rimborso anticipato.

SEZIONE II - Le attività

Qui di seguito vengono riportati alcuni grafici che forniscono l'indicazione della composizione del portafoglio del Fondo alla chiusura dell'esercizio, ripartito in base alle aree geografiche verso cui sono orientati gli investimenti e in base ai settori economici di impiego delle risorse del Fondo.

Si riporta inoltre l'elenco analitico dei principali strumenti finanziari detenuti dal Fondo (i primi 50 o comunque tutti quelli che superano lo 0,5% delle attività del Fondo).

Aree geografiche verso cui sono orientati gli investimenti

Settori economici di impiego delle risorse del Fondo

Si segnala che le parti di OICR sono classificate all'interno del settore finanziario, compreso nel settore "diversi".

II.1 STRUMENTI FINANZIARI QUOTATI

Ripartizione degli strumenti finanziari quotati per Paese di residenza dell'emittente:

	Paesi di residenza dell'emittente			
	Italia	Paesi dell'UE	Altri paesi dell' OCSE	Altri paesi
Titoli di debito:				
- di Stato	24.991.394	57.937.567		
- di altri enti pubblici				
- di banche	25.000.103	79.301.905	13.058.057	
- di altri	22.177.080	96.571.370	16.866.114	
Titoli di capitale:				
- con diritto di voto				
- con voto limitato				
- altri				
Parti di OICR:				
- OICVM		2.023.403		
- FIA aperti retail				
- altri				
Totali:				
- in valore assoluto	72.168.577	235.834.245	29.924.171	
- in percentuale del totale delle attività	20,8	67,8	8,6	

Nel caso di quote di OICR, la ripartizione per paese di residenza dell'emittente è stata effettuata tenendo in considerazione i mercati prevalenti nei quali gli OICR investono.

Ripartizione degli strumenti finanziari quotati per mercato di quotazione:

	Mercato di quotazione			
	Italia	Paesi dell'UE	Altri paesi dell'OCSE	Altri paesi
Titoli quotati	29.470.101	286.486.761	20.129.457	1.840.674
Titoli in attesa di quotazione				
Totali:				
- in valore assoluto	29.470.101	286.486.761	20.129.457	1.840.674
- in percentuale del totale delle attività	8,5	82,4	5,8	0,5

Altri paesi - Borsa valori di: Singapore SE.

Si segnala che, le quote di OICR, in accordo con quanto stabilito dal Regolamento della Banca d'Italia, sono ricondotte tra gli strumenti finanziari quotati. La ripartizione per mercato di quotazione, in tal caso, viene effettuata in base al paese di residenza della SGR che li ha istituiti.

Movimenti dell'esercizio:

	Controvalore acquisti	Controvalore vendite/rimborsi
Titoli di debito:		
- titoli di Stato	70.137.204	114.042.860
- altri	83.096.629	46.580.579
Titoli di capitale		
Parti di OICR	3.103.638	10.877.413
Totale	156.337.471	171.500.852

II.3 TITOLI DI DEBITO

1) Elenco titoli strutturati detenuti in portafoglio.

Risultano in portafoglio i seguenti titoli strutturati:

Descrizione	Divisa	Valore Nominale	Controvalore Euro	Caratteristiche	% su portafoglio
BTPS 2.4 05/39	EUR	1.400.000	1.522.096	INDEX LINKED	0,4
BTPS 1.8 05/36	EUR	2.300.000	2.330.378	INDEX LINKED	0,7

2) Duration modificata per valuta di denominazione.

Qui di seguito si riporta la ripartizione dei titoli di debito e degli strumenti finanziari derivati con sottostanti titoli di debito o tassi di interesse, in funzione della valuta di denominazione e della durata finanziaria (duration) modificata:

Valuta	Duration in anni		
	minore o pari ad 1	compresa tra 1 e 3,6	maggiore di 3,6
Euro	60.463.901	151.063.826	198.019.415
Dollaro Statunitense		21.237.467	31.837.792
Yen Giapponese	17.403.943	9.192.223	
Sterlina Regno Unito			11.145.069

II.4 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizioni creditorie:

Valore patrimoniale degli strumenti finanziari derivati			
	Margini	Strumenti finanziari quotati	Strumenti finanziari non quotati
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili			68.584
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili			44
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili	1.270.574		
Altre operazioni: - future - opzioni - swap			

Tipologia dei contratti	Controparte dei contratti				
	Banche Italiane	SIM	Banche e imprese di investimento di paesi OCSE	Banche e imprese di investimento di paesi non OCSE	Altre controparti
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili			47.110		21.474
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili					44
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili	1.270.574				
Altre operazioni: - future - opzioni - swap					

Non risultano attività ricevute in garanzia.

II.8 POSIZIONE NETTA DI LIQUIDITÀ

La posizione netta di liquidità è composta dalle seguenti sottovoci:

Descrizione	Importo
Liquidità disponibile	3.120.254
- Liquidità disponibile in euro	1.895.936
- Liquidità disponibile in divisa estera	1.224.318
Liquidità da ricevere per operazioni da regolare	11.426.425
- Vend/Acq di divisa estera a termine	10.679.359
- Margini di variazione da incassare	747.066
Liquidità impegnata per operazioni da regolare	-11.246.487
- Acq/Vend di divisa estera a termine	-10.728.058
- Margini di variazione da versare	-518.429
Totale posizione netta di liquidità	3.300.192

II.9 ALTRE ATTIVITÀ

Le altre attività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Ratei attivi	4.228.684
- Su liquidità disponibile	18.193
- Su titoli di debito	4.209.080
- Su contratti CSA	1.411
Altre	560.000
- Contratti CSA	560.000
Totale altre attività	4.788.684

La voce "Contratti CSA" si riferisce ai crediti iscritti a fronte della liquidità versata a garanzia dell'operatività in strumenti finanziari derivati sulla base di Credit Support Annex (CSA) stipulati.

SEZIONE III - Le passività

III.1 FINANZIAMENTI RICEVUTI

Il Fondo ricorre a forme di finanziamento rappresentate da affidamenti temporanei di conto corrente concessi dal Depositario che non risultano essere utilizzati a fine esercizio e a forme di indebitamento a vista con Intesa Sanpaolo S.p. A., al fine di far fronte ad una dilazione temporale nel versamento dei margini di variazione relativi a operazioni in strumenti finanziari derivati su mercati regolamentati.

Qui di seguito si riporta il riepilogo dei finanziamenti in essere a fine periodo:

Finanziamenti ricevuti	Importo
- Finanziamenti Non EUR	14

III.4 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizione debitorie:

Valore patrimoniale degli strumenti finanziari derivati		
	Strumenti finanziari quotati	Strumenti finanziari non quotati
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili		49.443
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili		
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili

III.5 DEBITI VERSO PARTECIPANTI

I debiti verso partecipanti sono così dettagliabili:

Descrizione	Data estinzione debito	Importi
Rimborsi richiesti e non regolati		238.842
-	31/12/2024	238.842
Proventi da distribuire		1.725
-	31/03/2029	1.689
-	31/03/2028	36
Totale debiti verso i partecipanti		240.567

III.6 ALTRE PASSIVITÀ

Le altre passività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Provvigioni ed oneri maturati e non liquidati	274.678
- Commissioni Depositario, custodia e amministrazione titoli	4.296
- Provvigioni di gestione	261.660
- Ratei passivi su conti correnti	408
- Commissione calcolo NAV	4.734
- Commissioni di tenuta conti liquidità	3.580
Altre	23.351
- Società di revisione	17.942
- Spese per pubblicazione	5.409
Totale altre passività	298.029

SEZIONE IV - Il Valore Complessivo Netto

1) Le quote in circolazione a fine periodo detenute da investitori qualificati risultano in numero di 377.092 pari a 0,61% per la Classe D e nulle per la Classe isy delle quote in circolazione alla data di chiusura.

2) Le quote in circolazione a fine periodo detenute da soggetti non residenti risultano in numero di 668.948 pari a 1,08% per la Classe D e nulle per la Classe isy delle quote in circolazione alla data di chiusura.

3) Le componenti che hanno determinato la variazione della consistenza del patrimonio netto tra l'inizio e la fine del periodo sono qui di seguito riportate:

Variazioni del patrimonio netto				
Classe D		Anno 2024	Anno 2023	Anno 2022
Patrimonio netto a inizio periodo		367.826.372	381.327.815	489.788.635
Incrementi:	a) sottoscrizioni:	69.470.241	65.814.541	76.767.864
	- sottoscrizioni singole	38.220.758	30.564.031	29.723.199
	- piani di accumulo	11.855.802	12.338.615	11.732.909
	- switch in entrata	19.393.681	22.911.895	35.311.756
	b) risultato positivo della gestione	5.425.515	19.879.796	
Decrementi:	a) rimborsi:	91.949.491	98.982.655	122.031.325
	- riscatti	68.008.833	78.784.752	96.702.194
	- piani di rimborso	162.400	134.300	132.100
	- switch in uscita	23.778.258	20.063.603	25.197.031
	b) proventi distribuiti	4.585.902	213.125	
	c) risultato negativo della gestione			63.197.359
Patrimonio netto a fine periodo		346.186.735	367.826.372	381.327.815

SEZIONE V - Altri dati patrimoniali

V.1 IMPEGNI ASSUNTI DAL FONDO A FRONTE DI STRUMENTI FINANZIARI DERIVATI E ALTRE OPERAZIONI A TERMINE

Si riporta il dettaglio degli impegni assunti dal Fondo a fronte di strumenti derivati in essere alla data di chiusura:

	Ammontare dell'impegno	
	Valore assoluto	% del Valore Complessivo Netto
Operazioni su tassi di interesse:		
- future su titoli di debito, tassi e altri contratti simili	137.863.880	39,8
- opzioni su tassi e altri contratti simili		
- swap e altri contratti simili	26.596.166	7,7
Operazioni su tassi di cambio:		
- future su valute e altri contratti simili		
- opzioni su tassi di cambio e altri contratti simili		
- swap e altri contratti simili	10.654.032	3,1
Operazioni su titoli di capitale:		
- future su titoli di capitale, indici azionari e contratti simili		
- opzioni su titoli di capitale e altri contratti simili		
- swap e altri contratti simili		
Altre operazioni:		
- future e contratti simili		
- opzioni e contratti simili		
- swap e contratti simili	6.400.000	1,8

Si ricorda che la normativa vigente richiede che l'ammontare degli impegni di cui sopra assunti dal Fondo non sia superiore al valore complessivo netto del Fondo stesso.

V.2 AMMONTARE DELLE ATTIVITÀ E PASSIVITÀ NEI CONFRONTI DI ALTRE SOCIETÀ DEL GRUPPO INTESA SANPAOLO

Le attività e passività in essere a fine periodo nei confronti delle altre società appartenenti al Gruppo Intesa Sanpaolo sono le seguenti:

	INTESA SANPAOLO SPA	EPSILON SGR SPA	EURIZON CAPITAL SA	
Strumenti finanziari detenuti	5.814.199	1.018.400	1.005.003	
(Incidenza % sul portafoglio)	1,7	0,3	0,3	
Strumenti finanziari derivati	1.270.574			
Depositi bancari				
Altre attività	49.076			
Finanziamenti ricevuti	-14			
Altre passività				
Garanzie e impegni				

V.3 COMPOSIZIONE DELLE POSTE PATRIMONIALI DEL FONDO PER DIVISA DI DENOMINAZIONE

Le poste patrimoniali alla fine del periodo erano così ripartite per divisa di denominazione:

	ATTIVITÀ				PASSIVITÀ		
	Strumenti finanziari	Depositi bancari	Altre attività	TOTALE	Finanziamenti ricevuti	Altre passività	TOTALE
Dollaro Australiano			5.277	5.277			
Dollaro Canadese			3.566	3.566			
Franco Svizzero			7	7			
Renminbi Cina			292	292			
Corona Ceca			278	278			
Euro	338.441.972		-3.977.480	334.464.492		1.165.278	1.165.278
Sterlina Regno Unito	338.888		323.196	662.084		65	65
Yen Giapponese	47.109		6.855.564	6.902.673			
Peso Messicano			111	111			
Corona Norvegese			125	125			
Dollaro Neozelandese			647	647			
Zloty Polacco			22	22			
Corona Svedese			151.334	151.334			
Dollaro Statunitense	438.226		4.725.937	5.164.163	14		14
TOTALE	339.266.195		8.088.876	347.355.071	14	1.165.343	1.165.357

Parte C - Il risultato economico dell'esercizio

SEZIONE I - Strumenti finanziari quotati e non quotati e relative operazioni di copertura

I.1 RISULTATO DELLE OPERAZIONI SU STRUMENTI FINANZIARI

Il risultato delle operazioni del periodo è così dettagliabile:

Risultato complessivo delle operazioni su:	Utile/perdita da realizzi	di cui: per variazioni dei tassi di cambio	Plus / minusvalenze	di cui: per variazioni dei tassi di cambio
A. Strumenti finanziari quotati	-389.383	1.334	6.114.911	
1. Titoli di debito	-276.701	-2.009	6.109.451	
2. Titoli di capitale				
3. Parti di OICR	-112.682	3.343	5.460	
- OICVM	-112.682	3.343	5.460	
- FIA				
B. Strumenti finanziari non quotati				
1. Titoli di debito				
2. Titoli di capitale				
3. Parti di OICR				

I.2 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizione debitorie:

Risultato degli strumenti finanziari derivati				
	Con finalità di copertura (sottovoci A4 e B4)		Senza finalità di copertura (sottovoci C1 e C2)	
	Risultati realizzati	Risultati non realizzati	Risultati realizzati	Risultati non realizzati

TOTALE SPESE (SOMMA DA 1 A 13)	D	3.383	0,96			23	0,00		
TOTALE SPESE (SOMMA DA 1 A 13)	isy		0,04						

A fronte dell'attività di promozione e collocamento nonché dell'attività di assistenza fornita in via continuativa nei confronti dei partecipanti ai Fondi, anche nelle operazioni successive alla prima sottoscrizione e, laddove previsto, a fronte del servizio di consulenza, ai collocatori del Fondo sono stati riconosciuti i seguenti compensi:

- una quota parte degli importi percepiti dalla SGR a titolo di provvigioni di gestione, in media pari all'82,1%, corrispondente ad un importo di 2.607 migliaia di euro per la classe NC, pari allo 0,0%, corrispondente ad un importo di 0 migliaia di euro per la classe isy.

Si precisa che gli oneri di negoziazione su strumenti finanziari, sostenuti nell'esercizio e riportati al punto 11) della presente tabella, consistono nelle commissioni di negoziazione esplicitate dalle controparti. In caso contrario, tali oneri accessori risultano già inclusi nel prezzo di acquisto o vendita.

IV.3 REMUNERAZIONI

Le Politiche di remunerazione e incentivazione della SGR sono state predisposte sulla base delle Politiche di Remunerazione del Gruppo Intesa Sanpaolo e, per quanto non in contrasto, non disciplinato o più restrittivo della normativa del settore bancario, nel rispetto delle disposizioni europee e nazionali che regolamentano il settore del Risparmio Gestito.

Al riguardo, la SGR elabora ed attua politiche e prassi di remunerazione ed incentivazione coerenti con le proprie caratteristiche, la propria dimensione e quella degli OICR gestiti, l'organizzazione interna, la natura, la portata e la complessità delle attività. L'applicazione dei sistemi di incentivazione per il personale della SGR è subordinata alle seguenti condizioni: (i) di attivazione a livello di Gruppo Intesa Sanpaolo e della SGR; (ii) di "finanziamento" previste dai connessi meccanismi a livello di Gruppo e della SGR, nonché (iii) di accesso individuale.

Tali condizioni sono ispirate ai principi di sostenibilità finanziaria della componente variabile dei compensi e rappresentate dalla verifica della "qualità" dei risultati reddituali raggiunti e della coerenza con i limiti previsti nell'ambito del quadro di riferimento per la determinazione della propensione al rischio del Gruppo Intesa Sanpaolo.

Nel dettaglio, la struttura della retribuzione variabile prevede modalità di erogazione differenziate in funzione del ruolo ricoperto (ad esempio nel caso del cd. "personale più rilevante") e del rapporto tra retribuzione variabile e fissa che prevede l'applicazione dei requisiti più stringenti della regolamentazione comunitaria, nazionale e di Gruppo, tra cui: (i) il differimento, ovvero la corresponsione della retribuzione variabile negli anni successivi a quello di maturazione; (ii) l'assegnazione di parte in contanti e parte in strumenti finanziari; (iii) la previsione di un meccanismo di mantenimento degli strumenti finanziari assegnati; (iv) la previsione di meccanismi di correzione che prevedano la riduzione parziale e/o totale della retribuzione variabile ovvero la restituzione dei premi già corrisposti. Sono, inoltre, vietate eventuali strategie di copertura personale o assicurazioni sulla remunerazione che possano alterare gli effetti di allineamento al rischio insiti nei meccanismi di remunerazione.

Con specifico riferimento alla filiera dei gestori, la definizione della remunerazione variabile viene effettuata tenendo conto del profilo di rischio/rendimento dei diversi patrimoni gestiti al fine di orientare e premiare le migliori performance e al tempo stesso allineare i sistemi incentivanti agli interessi degli investitori. La valutazione delle performance viene effettuata sulla base del livello di professionalità e della tipologia e complessità delle attività gestite. Oltre a tali valutazioni, è inoltre considerato il livello di raggiungimento di prestazioni qualitative di tipo discrezionale e/o progettuale, che rafforzano l'orientamento del singolo a obiettivi di lungo termine e verso performance sostenibili.

Le politiche di remunerazione e incentivazione della SGR sono altresì coerenti con le previsioni in tema di integrazione dei rischi di sostenibilità ai sensi del Regolamento UE 2019/2088.

Ciò posto, si forniscono le seguenti informazioni relative all'applicazione delle Politiche di remunerazione relative all'esercizio 2023:

- la remunerazione totale del personale della SGR è risultata pari a 59,8 milioni di euro, di cui 41,0 milioni di euro riconducibili alla componente fissa e 18,9 milioni di euro alla componente variabile liquidata. Al 31 dicembre 2023 il personale della SGR era composto da n. 531 dipendenti;
- la remunerazione totale del personale complessivamente coinvolto, anche in via non esclusiva, nella gestione delle attività del Fondo è risultata complessivamente pari a 1,7 milioni di euro, di cui 1,2 milioni di euro riconducibili alla componente fissa e 0,5 milioni di euro alla componente variabile;
- la remunerazione totale del personale più rilevante della SGR, ammonta complessivamente a 13,1 milioni di euro. La stessa risulta essere suddivisa tra le seguenti categorie di "personale più rilevante" di seguito indicate:
 - i) membri esecutivi e non esecutivi del Consiglio di Amministrazione, per complessivi 3,0 milioni di euro;
 - ii) i soggetti che riportano direttamente al vertice aziendale, nonché coloro i quali riportano direttamente al Consiglio di Amministrazione, all'Amministratore Delegato e al Collegio Sindacale, per complessivi 3,8 milioni di euro;
 - iii) personale appartenente alle funzioni aziendali di controllo, per complessivi 0,9 milioni di euro;
 - iv) altri soggetti che, individualmente o collettivamente, assumono rischi in modo significativo per la SGR o per i Fondi gestiti, per complessivi 5,2 milioni di euro;
 - v) altri soggetti la cui remunerazione totale si collochi nella medesima fascia retributiva delle categorie sub ii) e iv), per complessivi 0,2 milioni di euro;
- la proporzione della remunerazione totale del personale attribuibile al Fondo è pari allo 0,8% del costo del personale coinvolto nella gestione del Fondo, cui corrisponde un numero medio di beneficiari pari a 13,4;
- le informazioni relative alle remunerazioni sono state determinate sulla base della contabilità industriale della SGR utilizzando i dati del Bilancio d'esercizio; gli esiti del riesame periodico svolto dal Consiglio di Amministrazione hanno riscontrato la rispondenza delle prassi operative seguite nella determinazione del sistema incentivante rispetto alle Politiche deliberate dagli Organi aziendali e alle disposizioni normative e di Gruppo in materia; non si evidenziano modifiche sostanziali rispetto alle Politiche di Remunerazione valide per il periodo precedente.

La sintesi delle Politiche di remunerazione e incentivazione della SGR è disponibile nel sito internet della SGR.

SEZIONE V - Altri ricavi ed oneri

Si riportano qui di seguito i dettagli delle voci interessi attivi su disponibilità liquide, altri ricavi e altri oneri:

Descrizione	Importi
Interessi attivi su disponibilità liquide	215.618
- C/C in Euro	158.327
- C/C in Dollaro Statunitense	36.066

DIVISA A TERMINE	Vendita	USD	43.454.268	15

2. INFORMAZIONE SUGLI ONERI DI INTERMEDIAZIONE

Nell'esercizio sono stati corrisposti oneri di intermediazione esplicitati dalle controparti e relativi ad operazioni effettuate in strumenti finanziari. Tali oneri sono stati così riconosciuti alle seguenti categorie di intermediari:

	Soggetti non appartenenti al gruppo	Soggetti appartenenti al gruppo	Totale
Banche italiane	52	23.462	23.514
SIM			
Banche e imprese di investimento estere	1.085		1.085
Altre controparti	2.783		2.783

3. INFORMAZIONE SULLE UTILITÀ RICEVUTE

La SGR assorbe direttamente i costi connessi alla ricerca in materia di investimenti relativi ai prodotti gestiti al fine di mantenere inalterato il livello di qualità e di valore per tutti gli investitori, evitando di addebitare tali oneri al patrimonio gestito.

La SGR considera comunque ammissibili le seguenti tipologie di benefici non monetari di minore entità:

- le informazioni o la documentazione relativa a uno strumento finanziario o a un servizio di investimento di natura generica ovvero personalizzata in funzione di uno specifico cliente;
- il materiale scritto da terzi, commissionato e pagato da un emittente societario o da un emittente potenziale per promuovere una nuova emissione da parte della società, o quando l'intermediario è contrattualmente impegnato e pagato dall'emittente per produrre tale materiale in via continuativa, purché il rapporto sia chiaramente documentato nel materiale e quest'ultimo sia messo a disposizione di qualsiasi intermediario che desideri riceverlo o del pubblico in generale nello stesso momento;
- partecipazione a convegni, seminari e altri eventi formativi sui vantaggi e sulle caratteristiche di un determinato strumento finanziario o servizio di investimento;
- ospitalità di un valore de minimis ragionevole, come cibi e bevande nel corso di un incontro di lavoro o di una conferenza, seminario o altri eventi di formazione di cui alla lettera c).

5. TURNOVER

Il tasso di movimentazione del portafoglio del Fondo (c.d. turnover), espresso dal rapporto percentuale tra la somma degli acquisti e delle vendite di strumenti finanziari, al netto delle sottoscrizioni e rimborsi delle quote del Fondo, e il patrimonio netto medio del Fondo, nell'esercizio è stato pari a 47%.

TRASPARENZA DELLE OPERAZIONI DI FINANZIAMENTO TRAMITE TITOLI (SFT) E TOTAL RETURN SWAP ED EVENTUALE RIUTILIZZO

Con riferimento all'obbligo previsto dall'art. 13 comma 1 lett. a. del Regolamento UE 2015/2365 (Regolamento SFT) sulla trasparenza delle operazioni di finanziamento tramite titoli e dei total return swap, si informa che il Fondo non presenta posizioni in essere, relative a operazioni di Prestito titoli, Pronti contro termine, Repurchase transaction e Total return swap, alla data di riferimento della presente relazione e non ha fatto ricorso a tali operazioni nel periodo di riferimento della stessa.

Pertanto non sono rappresentate le informazioni previste alla sezione A dell'allegato del citato Regolamento UE.

Allegato - Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario.

Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario.

Nome prodotto: EURIZON OBBLIGAZIONARIO ETICO

Identificativo dell'Entità giuridica: 5493003HBL8VFP2F1R02

Caratteristiche ambientali e/o sociali**PARTE I***Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?*☐ **SI**

- ☐ ha effettuato investimenti sostenibili con un obiettivo ambientale: _%
- ☐ in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'Unione Europea (UE)
- ☐ in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE
- ☐ ha effettuato investimenti sostenibili con un obiettivo sociale: _%

☒ **NO**

- ☒ ha promosso caratteristiche Ambientali/Sociali (A/S) e, pur non avendo come obiettivo un investimento sostenibile, aveva una quota del(lo) 59,70% di investimenti sostenibili:
 - ☐ con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'Unione Europea (UE)
 - ☒ con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE
 - ☒ con un obiettivo sociale
- ☐ ha promosso caratteristiche A/S, ma non ha effettuato alcun investimento sostenibile

PARTE II

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Il Fondo ha integrato fattori ambientali, sociali e di buon governo societario (cd. fattori "ESG") nell'analisi, selezione e composizione degli investimenti, con la finalità di conseguire un punteggio (cd. "Score ESG"), calcolato a livello complessivo di portafoglio come media ponderata degli Score ESG dei singoli emittenti, superiore a quello del relativo parametro di riferimento (benchmark). In considerazione della peculiarità e dell'eterogeneità dei singoli investimenti effettuati dal Fondo, la selezione degli emittenti è avvenuta sulla base del Score ESG complessivo dell'emittente e non per singola caratteristica ambientale e/o sociale promossa.

Inoltre, il Fondo ha promosso caratteristiche ambientali e sociali investendo in emittenti coerenti con i criteri negativi e/o positivi dettagliati nella documentazione di offerta.

Con riferimento alle caratteristiche ambientali e/o sociali promosse dal Fondo si riportano, per ciascuna di esse, i principali indicatori di sostenibilità scelti per misurarne il rispetto:

Limitazione gas ad effetto Serra

"ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti degli strumenti finanziari in portafoglio. La limitazione delle emissioni di gas a effetto serra è un indicatore considerato nell'ambito dello Score ESG. (ESG Score Integration)

- Assenza di investimenti in imprese che derivano (i) almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (ii) almeno il 10% del fatturato derivante da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands), contribuendo così a limitare le emissioni di gas a effetto serra. (Esclusioni SRI)

Rispetto dei diritti umani

- Assenza di investimenti in società caratterizzate da un evidente coinvolgimento diretto nella manifattura di armi non convenzionali (Mine antiuomo; Bombe a grappolo; Armi nucleari; Uranio impoverito; Armi biologiche; Armi chimiche; Armi a frammentazione invisibile; Laser accecanti; Armi incendiarie; Fosforo bianco). (Esclusioni SRI)

Conservazione e ripristino della biodiversità, utilizzo di energia rinnovabile, utilizzo e provenienza di materie prime, gestione dei rifiuti

- Assenza o limitazione di investimenti in emittenti considerati "critici", ovvero quelle società caratterizzate da una più elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano un livello di rating di sostenibilità ESG più basso nell'universo di investimento. (Esclusioni ESG)

"ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti gli strumenti finanziari in portafoglio. La conservazione e ripristino della biodiversità, l'utilizzo di energia rinnovabile, l'utilizzo e provenienza delle materie prime e la gestione dei rifiuti sono indicatori considerati nell'ambito dello Score ESG. (ESG Score Integration)

Contrasto delle disuguaglianze sociali, relazioni con il personale, investimenti nel capitale umano e parità di genere nell'organo amministrativo

"ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti gli strumenti finanziari in portafoglio. Il contrasto delle disuguaglianze sociali, le relazioni con il personale, gli investimenti nel capitale umano e la parità di genere nell'organo amministrativo sono indicatori considerati nell'ambito dello Score ESG. (ESG Score Integration)

- Assenza o limitazione di investimenti in emittenti considerati "critici", ovvero quelle società caratterizzate da una più elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano un livello di rating di sostenibilità ESG più basso nell'universo di investimento. (Esclusioni ESG)

Il Fondo ha investito in strumenti finanziari di natura obbligazionaria/monetaria:

(i) finalizzati al finanziamento di progetti aventi un positivo impatto ambientale, come energie rinnovabili, efficienza energetica, prevenzione dell'inquinamento, trasporto pulito, gestione delle acque, economia circolare, protezione della biodiversità, edilizia a basso impatto ambientale (c.d. green/sustainability bond o obbligazioni verdi/sostenibili) o
(ii) emessi da società attivamente coinvolte nel processo della transizione energetica, che abbiano almeno dichiarato l'impegno di voler raggiungere zero emissioni nette (Scopo 1 ovvero le emissioni dirette derivanti da fonti di proprietà o controllate dall'azienda e Scopo 2 ovvero le emissioni indirette generate dall'energia acquistata e consumata dall'azienda) entro il 2050 (cd. obiettivo "Net Zero").

Il Fondo ha, altresì, investito in strumenti finanziari di natura azionaria oggetto di investimento emessi da società impegnate pubblicamente nel processo della transizione energetica, in particolare attraverso la progressiva riduzione delle emissioni di Scopo 1 e Scopo 2 fino a raggiungere la neutralità climatica entro il 2050 (cd. obiettivo "Net Zero").

In particolare, le azioni oggetto di investimento sono emesse da società che devono attuare, o stanno già attuando, percorsi di decarbonizzazione misurabili tramite target di breve, medio e lungo periodo ed investimenti volti ad allineare il modello di business all'impegno dichiarato.

Qual è stata la prestazione degli indicatori di sostenibilità?

Indicatore di sostenibilità	Descrizione	2024-12-31
Esclusioni "SRI"	Il peso degli emittenti operanti in settori ritenuti non "socialmente responsabili", (i) quelle società caratterizzate da un evidente coinvolgimento diretto nella manifattura di armi non convenzionali, (ii) le società che derivano almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (iii) le società che derivano almeno il 10% del fatturato da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands).	0,00%
Esclusioni "ESG"	Il peso degli emittenti con un'elevata esposizione a rischi ESG (cd. "emittenti critici"), ossia quelle società caratterizzate da una elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano il livello di rating di sostenibilità ESG più basso, pari a "CCC", assegnato dall'info-provider specializzato "MSCI ESG Research".	0,00%
Thematic Integration	Il peso ponderato degli emittenti che risultano rispettare gli specifici criteri di selezione positivi previsti dal Prodotto.	97,96%
ESG Score Integration	Lo "score ESG" del prodotto/componente di portafoglio è calcolato dalla SGR sulla base di specifici datapoint dell'infoprovider MSCI ESG Research per ogni tipologia di strumento (es. titoli corporate, governativi, OICR). Tali valori sono successivamente aggregati attraverso una media ponderata tra i pesi dei singoli titoli e i corrispondenti Score ESG. Le medesime logiche sono utilizzate ai fini del calcolo dello score del benchmark del prodotto. Lo Score ESG viene calcolato giornalmente anche a supporto del processo di controllo dei limiti di investimento che prevede sia un controllo ex-ante in fase di predisposizione degli ordini sia ex-post in fase di valorizzazione dei portafogli.	Prodotto: 7,87 Benchmark: 7,17 L'ESG score viene calcolato su una scala da 0 a 10

Il prodotto finanziario promuove l'interazione proattiva nei confronti delle società emittenti sia mediante l'esercizio dei diritti di intervento e di voto sia mediante il confronto con le società partecipate, incoraggiando un'efficace comunicazione con il management delle società.

Thematic Integration		

Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario in parte ha realizzato e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?

La SGR ha adottato una metodologia di selezione degli investimenti sostenibili basata sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite (SDG). In particolare, tale metodologia permette di selezionare gli emittenti le cui attività contribuiscono ad uno o più Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite (cd. "Sustainable Development Goals" o "SDG"), sia attraverso i propri prodotti/servizi sia con riguardo allo svolgimento dei propri processi operativi, a condizione che detti investimenti non arrechino un danno significativo ad alcuno degli obiettivi ambientali o sociali stabiliti nel Regolamento (UE) 2019/2088 e che le imprese che beneficiano di tali investimenti rispettino prassi di buona governance.

Gli Obiettivi di Sviluppo Sostenibile si pongono l'obiettivo di favorire uno sviluppo globale più consapevole e duraturo; nello specifico tali obiettivi ricomprendono, tra gli altri: il contrasto della povertà e della fame, il diritto alla salute, al lavoro e all'istruzione, la parità di genere e la riduzione delle disuguaglianze, l'accesso all'acqua e all'energia, l'urbanizzazione e la promozione di infrastrutture resilienti, il contrasto del cambiamento climatico e la tutela dell'ambiente inclusi la preservazione degli ecosistemi marini e terrestri.

La porzione minima di investimenti sostenibili è calcolata come il peso ponderato degli emittenti che risultano avere, con riferimento ai propri prodotti/servizi e processi produttivi: (i) un allineamento netto positivo ad almeno uno dei 17 SDG e (ii) nessun disallineamento netto nei confronti di alcuno dei 17 SDG a cui si somma l'eventuale peso ponderato di obbligazioni con proventi destinati al finanziamento di progetti ambientali e/o sociali. Nello specifico, la contribuzione ad uno o più SDG tiene conto di selezionate metriche quantitative e qualitative, tra cui l'esposizione a controversie, che contribuiscono ad evidenziare eventuali impatti avversi causati dall'emittente.

In che modo gli investimenti sostenibili che il prodotto finanziario in parte ha realizzato non hanno arrecato danno significativo a nessun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?

La misurazione della contribuzione di un emittente ad uno o più Obiettivi di Sviluppo Sostenibile ha tenuto conto di selezionate metriche quantitative e qualitative, tra cui l'esposizione a controversie, nell'ambito degli indicatori degli effetti negativi sui fattori di sostenibilità.

La Tassonomia UE stabilisce un principio di "non nuocere in modo significativo" ("do not significant harm" o "DNSH") secondo il quale gli investimenti allineati alla tassonomia non dovrebbero nuocere in modo significativo agli obiettivi della tassonomia dell'UE ed è accompagnata da criteri specifici dell'UE.

Il principio del "non nuocere in modo significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?

La metodologia di selezione degli investimenti sostenibili definita dalla SGR si basa sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite e tiene conto - con diversi gradi di intensità - dei principali indicatori di impatto avverso attraverso metriche quantitative e qualitative.

Gli indicatori di natura qualitativa comprendono l'eventuale (i) presenza di controversie relative al cambiamento climatico, a contaminanti rilasciati nel terreno, nell'aria e/o nell'acqua, alla discriminazione, agli standard lavorativi della catena di fornitura o al rispetto dei diritti umani; (ii) assenza di piani di transizione accompagnati da obiettivi di riduzione delle emissioni; (iii) generazione di energia da combustibili fossili e prodotti correlati o presenza di riserve utilizzabili di combustibili fossili e (iv) assenza di diversità nel Consiglio di Amministrazione o discriminazioni retributive.

Gli indicatori di natura quantitativa comprendono l'esclusione dall'universo investibile delle imprese che derivano (i) almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (ii) almeno il 10% del fatturato derivante da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands) nonché delle società coinvolte nella manifattura o nella vendita di armi non convenzionali (quali, tra le altre, mine antiuomo, bombe a grappolo, armi chimiche e armi biologiche).

Il principio di non arrecare un danno significativo (cd. "do not significant harm" - DNSH) viene verificato attraverso l'assenza di disallineamenti netti nei confronti di ciascuno dei n. 17 SDG. Il punteggio sintetico di ciascun SDG viene determinato mediante l'analisi dei punteggi attribuiti alle n. 2 componenti: (i) l'allineamento netto dei prodotti e servizi di un emittente ai target associati a ciascun SDG; e (ii) l'allineamento netto dei processi produttivi delle società emittenti rispetto a specifici obiettivi di sviluppo sostenibile.

Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?

La metodologia di selezione degli investimenti sostenibili basata sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite adottata dalla SGR tiene in considerazione i principali indicatori di impatto avverso attraverso metriche quantitative e qualitative, come per esempio l'esposizione dell'emittente a eventuali controversie. In tale ambito, per esempio, viene valutato il coinvolgimento dell'emittente riguardo a controversie sui Diritti dell'Uomo, sui Diritti dei Lavoratori e sulla condotta del proprio business.

PARTE III

In che modo questo prodotto finanziario ha preso in considerazione i principali impatti negativi sui fattori di sostenibilità?

La valutazione dei principali effetti negativi delle scelte di investimento sui fattori di sostenibilità e la definizione delle possibili azioni di mitigazione connesse costituiscono parte integrante dell'approccio della SGR alla sostenibilità. In tale ambito, la SGR si è dotata di un framework che prevede l'utilizzo di specifici indicatori di natura ambientale e sociale per la valutazione dei principali effetti negativi sui fattori di sostenibilità determinati in funzione delle caratteristiche e degli obiettivi dei singoli prodotti finanziari.

PAI considerati

Attività che incidono negativamente sulle aree sensibili sotto il profilo della biodiversità

Diversità di genere nel Consiglio di Amministrazione

Esposizione ad armi controverse (mine antiuomo, munizioni a grappolo, armi chimiche e armi biologiche)

Intensità delle emissioni di gas serra delle imprese beneficiarie degli investimenti

Intensità di emissioni di gas serra

Quota di investimenti in imprese attive nel settore dei combustibili fossili

PARTE IV

Quali sono stati i principali investimenti di questo prodotto finanziario?

Vengono elencati di seguito i principali investimenti¹ in cui ha investito il prodotto finanziario con l'indicazione del settore e del paese.

Principali titoli	Settore	Percentuale	Paese
BTPS 4.45 09/43	STATO	3,54%	Italia
EIB 2.25 03/30	BANCARIO	3,15%	Sovranazionale
SPGB 0 05/25	STATO	1,82%	Spagna
KFW 2.75 03/28	BANCARIO	1,28%	Germania
NETHER 0 07/31	STATO	1,27%	Paesi Bassi
KFW 2.5 11/25	BANCARIO	1,13%	Germania
SPGB 0.85 07/37	STATO	1,05%	Spagna
FRTR 3.25 05/55	STATO	0,82%	Francia
SPGB 1.9 10/52	STATO	0,77%	Spagna
UCGIM FR 02/30	BANCARIO	0,74%	Italia
SPGB 3.15 04/33	STATO	0,72%	Spagna
BTPS 4.15 10/39	STATO	0,72%	Italia
ENGSM 3.625 01/34	MINERALE E METALLURGICO	0,70%	Spagna
RAGB 2.4 05/34	STATO	0,68%	Austria
BACRED FR 03/28	BANCARIO	0,67%	Italia

¹ Qualora nel periodo di riferimento il Prodotto finanziario abbia investito cumulativamente il 50% del proprio portafoglio in meno di n. 15 strumenti, questi vengono rappresentati in ordine decrescente in base al rispettivo peso.

PARTE V

Quale è stata la quota degli investimenti in materia di sostenibilità?

Qual è stata l'allocazione degli attivi?

"#1 Allineati con caratteristiche A/S" comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

"#2 Altri" comprende gli investimenti rimanenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria "#1 Allineati con caratteristiche A/S" comprende:

- la sottocategoria "#1-a Sostenibili", che contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria "#1-b Altri investimenti allineati alle caratteristiche A/S" che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Attualmente, in considerazione del set informativo a disposizione della SGR alla data della presente rendicontazione periodica, la quota di investimenti ecosostenibili ai sensi del Regolamento (UE) 2020/852 (ovvero allineati alla tassonomia dell'UE) è stata valutata pari allo 0%. Il Prodotto finanziario potrebbe aver investito in attività ecosostenibili selezionate in base alla sua politica di investimento, ma tali investimenti non sono stati di per sé decisivi per il perseguimento delle caratteristiche ambientali del Prodotto finanziario.

Si evidenzia infine che gli investimenti sottostanti il presente Fondo non tengono conto dei criteri dell'Unione Europea per le attività economiche ecosostenibili.

Il prodotto finanziario ha investito in attività connesse al gas fossile e/o all'energia nucleare che erano conformi alla tassonomia dell'UE?²

- ☐ Sì
- ☐ Gas fossile ☐ Energia nucleare
- ☒ No

I due grafici che seguono mostrano in verde la percentuale di investimenti che erano allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

*Ai fini dei grafici di cui sopra, per “obbligazioni sovrane” si intendono tutte le esposizioni sovrane.

² Le attività connesse al gas fossile e/o all'energia nucleare sono conformi alla tassonomia dell'UE solo se contribuiscono all'azione di contenimento dei cambiamenti climatici (“mitigazione dei cambiamenti climatici”) e non arrecano un danno significativo a nessuno degli obiettivi della tassonomia dell'UE. I criteri completi riguardanti le attività economiche connesse al gas fossile e all'energia nucleare che sono conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Qual era la quota degli investimenti effettuati in attività transitorie e abilitanti?

Attività transitorie	0,00%
Attività abilitanti	0,00%

Qual è l'esito del raffronto della percentuale degli investimenti che erano allineati alla tassonomia dell'UE rispetto ai precedenti periodi di riferimento?

Raffronto dei periodi precedenti considerando i sovereign bonds:

2023-12-29	
CapEx	0,00%
Fatturato	0,00%
OpEx	0,00%

Raffronto dei periodi precedenti escludendo i sovereign bonds:

2023-12-29	
CapEx	0,00%
Fatturato	0,00%
OpEx	0,00%

Qual era la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con un obiettivo ambientale è interamente non allineata alla tassonomia dell'UE e risulta pari al 36,12% del totale di investimenti.

Qual era la quota di investimenti socialmente sostenibili?

Il prodotto finanziario ha promosso caratteristiche ambientali e sociali e ha avuto una quota di investimenti socialmente sostenibili pari al 23,58% del totale degli investimenti.

Quali investimenti erano compresi nella categoria "Altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

Nella quota "Altri" sono inclusi: (i) eventuali investimenti in emittenti privi di score ESG; (ii) strumenti derivati sia per finalità di copertura dei rischi sia per finalità diverse da quelle di copertura; (iii) liquidità detenuta; (iv) eventuali strumenti, quali ad esempio i Pronti Contro Termine, utilizzati per l'efficiente gestione del portafoglio.

PARTE VI

Quali azioni sono state adottate per soddisfare le caratteristiche ambientali e/o sociali durante il periodo di riferimento?

Nel corso del periodo di riferimento oggetto della presente Informativa, la SGR ha monitorato il rispetto delle strategie di selezione degli strumenti finanziari riportate nella Parte II coerentemente con i principi di Investimento Sostenibile e Responsabile (SRI) e di fattori ambientali, sociali e di governance (ESG) promossi dal prodotto.

Il perseguimento delle caratteristiche ambientali e/o sociali viene presidiato attraverso appositi limiti di investimento. Il Prodotto finanziario ha inoltre promosso l'interazione proattiva nei confronti delle società emittenti sia mediante l'esercizio dei diritti di intervento e di voto sia mediante il confronto con le società partecipate, incoraggiando un'efficace comunicazione con il management delle società. Per maggiori informazioni si rimanda allo Stewardship Report pubblicato sul sito <https://www.eurizoncapital.com/it-IT/sostenibilita/politica-impegno-attivita-stewardship>.

PARTE VII

Qual è stata la prestazione di questo prodotto finanziario rispetto all'indice di riferimento?

Non è stato designato un indice di riferimento per il perseguimento delle caratteristiche ambientali/sociali del prodotto.

Relazione della società di revisione indipendente ai sensi degli articoli 14 e 19-bis del D. Lgs. 27 gennaio 2010, n. 39 e dell'articolo 9 del D. Lgs. 24 febbraio 1998, n. 58

Ai partecipanti al
Fondo Comune di Investimento Mobiliare Aperto
"Eurizon Diversificato Etico"

Relazione sulla revisione contabile della relazione di gestione

Giudizio

Abbiamo svolto la revisione contabile della relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Diversificato Etico" (il "Fondo"), costituita dalla situazione patrimoniale al 30 dicembre 2024, dalla sezione reddituale per l'esercizio chiuso a tale data e dalla nota integrativa.

A nostro giudizio, la relazione di gestione fornisce una rappresentazione veritiera e corretta della situazione patrimoniale e finanziaria del Fondo al 30 dicembre 2024 e del risultato economico per l'esercizio chiuso a tale data in conformità al Provvedimento emanato dalla Banca d'Italia il 19 gennaio 2015 e successive modifiche (di seguito anche il "Provvedimento") che ne disciplina i criteri di redazione.

Elementi alla base del giudizio

Abbiamo svolto la revisione contabile in conformità ai principi di revisione internazionali (ISA Italia). Le nostre responsabilità ai sensi di tali principi sono ulteriormente descritte nella sezione "Responsabilità della società di revisione per la revisione contabile della relazione di gestione" della presente relazione. Siamo indipendenti rispetto al Fondo e a Eurizon Capital SGR S.p.A., Società di Gestione del Fondo, in conformità alle norme e ai principi in materia di etica e di indipendenza applicabili nell'ordinamento italiano alla revisione contabile del bilancio. Riteniamo di aver acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio.

Richiamo di informativa

Come descritto nella sezione "Parte A - Andamento valore della Quota" della nota integrativa, il Fondo ha incorporato in data 24 maggio 2024 i fondi "Eurizon Disciplina Sostenibile ESG Ottobre 2023" e "Eurizon Disciplina Sostenibile ESG Dicembre 2023".

In nostro giudizio non è espresso con rilievi con riferimento a tale aspetto.

Responsabilità degli amministratori e del collegio sindacale per la relazione di gestione

Gli amministratori della Società di Gestione del Fondo sono responsabili per la redazione della relazione di gestione del Fondo che fornisca una rappresentazione veritiera e corretta in conformità al Provvedimento che ne disciplina i criteri di redazione e, nei termini previsti dalla legge, per quella parte del controllo interno dagli stessi ritenuta necessaria per consentire la redazione di una relazione di gestione che non contenga errori significativi dovuti a frodi o a comportamenti o eventi non intenzionali.

Gli amministratori della Società di Gestione del Fondo sono responsabili per la valutazione della capacità del Fondo di continuare ad operare come un'entità in funzionamento e, nella redazione della relazione di gestione, per l'appropriatezza dell'utilizzo del presupposto della continuità aziendale, nonché per una adeguata informativa in materia. Gli amministratori utilizzano il presupposto della continuità aziendale nella redazione della relazione di gestione a meno che abbiano valutato che sussistono le condizioni per la liquidazione del Fondo o per l'interruzione dell'attività o non abbiano alternative realistiche a tali scelte.

Il collegio sindacale della Società di Gestione del Fondo ha la responsabilità della vigilanza, nei termini previsti dalla legge, sul processo di predisposizione dell'informativa finanziaria del Fondo.

Responsabilità della società di revisione per la revisione contabile della relazione di gestione

I nostri obiettivi sono l'acquisizione di una ragionevole sicurezza che la relazione di gestione nel suo complesso non contenga errori significativi, dovuti a frodi o a comportamenti o eventi non intenzionali, e l'emissione di una relazione di revisione che includa il nostro giudizio. Per ragionevole sicurezza si intende un livello elevato di sicurezza che, tuttavia, non fornisce la garanzia che una revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia) individui sempre un errore significativo, qualora esistente. Gli errori possono derivare da frodi o da comportamenti o eventi non intenzionali e sono considerati significativi qualora ci si possa ragionevolmente attendere che essi, singolarmente o nel loro insieme, siano in grado di influenzare le decisioni economiche prese dagli utilizzatori sulla base della relazione di gestione.

Nell'ambito della revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia), abbiamo esercitato il giudizio professionale e abbiamo mantenuto lo scetticismo professionale per tutta la durata della revisione contabile. Inoltre:

- abbiamo identificato e valutato i rischi di errori significativi nella relazione di gestione, dovuti a frodi o a comportamenti o eventi non intenzionali; abbiamo definito e svolto procedure di revisione in risposta a tali rischi; abbiamo acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio. Il rischio di non individuare un errore significativo dovuto a frodi è più elevato rispetto al rischio di non individuare un errore significativo derivante da comportamenti o eventi non intenzionali, poiché la frode può implicare l'esistenza di collusioni, falsificazioni, omissioni intenzionali, rappresentazioni fuorvianti o forzature del controllo interno;
- abbiamo acquisito una comprensione del controllo interno rilevante ai fini della revisione contabile allo scopo di definire procedure di revisione appropriate nelle circostanze e non per esprimere un giudizio sull'efficacia del controllo interno del Fondo e della Società di Gestione del Fondo;
- abbiamo valutato l'appropriatezza dei criteri e delle modalità di valutazione adottati, nonché la ragionevolezza delle stime contabili effettuate dagli amministratori, inclusa la relativa informativa;
- siamo giunti ad una conclusione sull'appropriatezza dell'utilizzo da parte degli amministratori del presupposto della continuità aziendale e, in base agli elementi probativi acquisiti, sull'eventuale esistenza di una incertezza significativa riguardo a eventi o circostanze che possono far sorgere dubbi significativi sulla capacità del Fondo di continuare ad operare come una entità in funzionamento. In presenza di un'incertezza significativa, siamo tenuti a richiamare l'attenzione nella relazione di revisione sulla relativa informativa della relazione di gestione, ovvero, qualora tale informativa sia inadeguata, a riflettere tale circostanza nella formulazione del nostro giudizio. Le nostre conclusioni sono basate sugli elementi probativi acquisiti fino alla data della presente relazione. Tuttavia, eventi o circostanze successivi possono comportare il fatto che il Fondo cessi di operare come un'entità in funzionamento;
- abbiamo valutato la presentazione, la struttura e il contenuto della relazione di gestione nel suo complesso, inclusa l'informativa, e se la relazione di gestione rappresenti le operazioni e gli eventi sottostanti in modo da fornire una corretta rappresentazione.

Abbiamo comunicato ai responsabili delle attività di governance della Società di Gestione del Fondo, identificati ad un livello appropriato come richiesto dai principi di revisione internazionali (ISA Italia), tra gli altri aspetti, la portata e la tempistica pianificate per la revisione contabile e i risultati significativi emersi, incluse le eventuali carenze significative nel controllo interno identificate nel corso della revisione contabile.

Shape the future
with confidence

Relazione su altre disposizioni di legge e regolamentari

Giudizi e dichiarazione ai sensi dell'articolo 14, comma 2, lettera e), e-bis) ed e-ter) del D. Lgs. 27 gennaio 2010, n. 39

Gli amministratori della Eurizon Capital SGR S.p.A. sono responsabili per la predisposizione della relazione degli amministratori del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Diversificato Etico" al 30 dicembre 2024, incluse la sua coerenza con la relazione di gestione del Fondo e la sua conformità al Provvedimento.

Abbiamo svolto le procedure indicate nel principio di revisione (SA Italia) n. 720B al fine di:

- esprimere un giudizio sulla coerenza della relazione degli amministratori con la relazione di gestione;
- esprimere un giudizio sulla conformità al Provvedimento della relazione degli amministratori;
- rilasciare una dichiarazione su eventuali errori significativi nella relazione degli amministratori.

A nostro giudizio, la relazione degli amministratori è coerente con la relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Diversificato Etico" al 30 dicembre 2024.

Inoltre, a nostro giudizio, la relazione degli amministratori è redatta in conformità al Provvedimento.

Con riferimento alla dichiarazione di cui all'articolo 14, comma 2, lettera e-ter), del D. Lgs. 27 gennaio 2010, n. 39, rilasciata sulla base delle conoscenze e della comprensione del Fondo e del relativo contesto acquisite nel corso dell'attività di revisione, non abbiamo nulla da riportare.

FONDO COMUNE D'INVESTIMENTO

Il fondo "EURIZON DIVERSIFICATO ETICO" (già denominato "Nextra Equilibrio" fino al 27 febbraio 2006 e "Nextra Equilibrio SR" fino al 27 aprile 2008) è stato istituito in data 29 aprile 1994 ai sensi della legge n. 77 del 23 marzo 1983 ed autorizzato dalla Banca d'Italia con Provvedimento del 27 dicembre 1993. Il Fondo è operativo a partire dal 20 novembre 1995. In data 27 giugno 2003 ha incorporato il fondo "Nextra Bond Convertibili Internazionali"; in data 28 aprile 2008 ha incorporato i Fondi "Nextra SR Equity 10", "Nextra SR Equity 20" e il fondo "Sanpaolo Etico Venezia Serenissima". In data 2 dicembre 2022 ha incorporato i fondi "Eurizon Disciplina Attiva Maggio 2022" ed "Eurizon Disciplina Attiva Luglio 2022". In data 7 luglio 2023 ha incorporato i fondi "Eurizon Disciplina Attiva Settembre 2022" ed "Eurizon Disciplina Attiva Dicembre 2022". In data 29 settembre 2023 ha incorporato il fondo "Eurizon Disciplina Sostenibile ESG Marzo 2023". In data 27 ottobre 2023 ha incorporato il fondo "Eurizon Disciplina Sostenibile ESG Maggio 2023". In data 1° dicembre 2023 ha incorporato il fondo "Eurizon Disciplina Sostenibile ESG Luglio 2023". In data 24 maggio 2024 ha incorporato i fondi "Eurizon Disciplina Sostenibile ESG Ottobre 2023" ed "Eurizon Disciplina Sostenibile ESG Dicembre 2023".

La durata del Fondo è fissata al 31 dicembre 2050, salvo proroga da assumersi con deliberazione del Consiglio di Amministrazione almeno due anni prima della scadenza.

Il Fondo, denominato in euro, è del tipo del tipo ad accumulazione; i proventi realizzati non vengono pertanto distribuiti ai partecipanti, ma restano compresi nel patrimonio del Fondo.

La partecipazione al Fondo si realizza attraverso la sottoscrizione di quote o il loro successivo acquisto a qualsiasi titolo. La sottoscrizione di quote può avvenire solo a fronte del versamento di un importo corrispondente al valore delle quote di partecipazione.

La SGR provvede a determinare il numero delle quote di partecipazione e frazioni millesimali di esse arrotondate per difetto da attribuire ad ogni partecipante dividendo l'importo del versamento, al netto degli oneri a carico dei singoli partecipanti, per il valore unitario della quota relativo al giorno di riferimento. Quando in tale giorno non sia prevista la valorizzazione del Fondo, le quote vengono assegnate sulla base del valore relativo al primo giorno successivo di valorizzazione della quota.

Il giorno di riferimento è il giorno in cui la SGR ha ricevuto, entro le ore 13.00, notizia certa della sottoscrizione ovvero, se successivo, è il giorno in cui decorrono i giorni di valuta riconosciuti al mezzo di pagamento indicati nel modulo di sottoscrizione. Nel caso di bonifico, il giorno di valuta è quello riconosciuto dalla banca ordinante.

I partecipanti al Fondo possono, in qualsiasi momento, chiedere alla SGR il rimborso totale o parziale delle quote possedute.

Il rimborso può avvenire a mezzo bonifico ovvero a mezzo assegno circolare o bancario non trasferibile all'ordine del richiedente.

Il valore del rimborso è determinato in base al valore unitario delle quote del giorno di ricezione della domanda da parte della SGR. Quando nel giorno di ricezione della domanda non è prevista la valorizzazione del Fondo, il valore del rimborso è determinato in base al primo valore del Fondo successivamente determinato.

La SGR provvede, tramite il Depositario, al pagamento dell'importo nel più breve tempo possibile e non oltre il termine di quindici giorni dalla data in cui la domanda è pervenuta, salvi i casi di sospensione del diritto di rimborso.

Caratteristiche del Fondo

Il Fondo di tipo aperto, rientrando nell'ambito di applicazione della Direttiva 2009/65/CE come successivamente modificata ed integrata, appartiene alla categoria "Obbligazionari Misti" e fa parte del "Sistema Etico".

Il "Sistema Etico" è un insieme di fondi che si prefiggono l'obiettivo di incrementare nel tempo il valore dei capitali conferiti attuando una politica di investimento ispirata a principi etici per la selezione degli emittenti. Il "Sistema Etico" si caratterizza anche per:

- la possibilità data ai partecipanti al fondo Obbligazionario Etico di devolvere ad enti o associazioni benefiche una parte dei ricavi messi in pagamento dal Fondo medesimo;
- l'impegno della SGR a finanziare progetti ed iniziative di carattere umanitario - nel senso più ampio del termine - tramite la devoluzione di una parte della commissione di gestione percepita sui Fondi del Sistema Etico, secondo quanto specificato nel Prospetto;
- l'impegno del Fondo Azionario Internazionale Etico a destinare una parte del patrimonio ad investimenti aventi come prioritarie finalità sociali e umanitarie;

I Fondi appartenenti al Sistema Etico sono orientati, tendenzialmente in via esclusiva, verso strumenti finanziari di emittenti che - al momento dell'investimento - non rientrano nei casi di esclusione precisati nei "criteri negativi" e si contraddistinguono per il rispetto di uno o più "criteri positivi":

"criteri positivi"

- a) nel caso in cui l'emittente sia uno Stato, riguardano
 - la tutela dei diritti dell'Uomo (qualunque sia la razza, la nazionalità, la religione, il sesso...);
 - l'impegno a dirimere situazioni di conflitto ed a creare le condizioni per un dialogo stabile e pacifico tra gli Stati ed i Popoli;
 - l'intervento a sostegno di Paesi non sviluppati e di quelli colpiti da guerre o catastrofi naturali;
- b) nel caso in cui l'emittente sia una società
 - la sensibilità mostrata nell'esercizio della propria attività d'impresa verso la tutela dell'ambiente;
 - l'impegno in attività e progetti che possano contribuire ad un miglioramento della qualità della vita;
 - l'attenzione dimostrata, durante la progettazione e la produzione, alle caratteristiche di qualità e sicurezza dei prodotti nonché alla salute ed alla sicurezza dei lavoratori;

“criteri negativi”

- c) nel caso in cui l'emittente sia uno Stato
 - la presenza di un regime oppressivo;
 - il coinvolgimento in azioni militari che non siano condotte sotto l'egida di organizzazioni sovranazionali;
- d) nel caso in cui l'emittente sia una società
 - la realizzazione di una parte rilevante del proprio giro d'affari o del proprio utile attraverso la produzione o commercializzazione di armi, tabacco, alcolici, organismi geneticamente modificati e prodotti lesivi della dignità dell'Uomo (ad esempio: pornografia,...) e della sua salute;
 - la produzione o realizzazione di impianti per la produzione di energia nucleare.

Nel caso in cui situazioni o notizie dovessero comportare una variazione di giudizio su un emittente, evidenziando il mancato rispetto dei “criteri positivi” o la presenza di comportamenti rientranti nei “criteri negativi”, la SGR provvederà - in relazione alla gravità delle situazioni - a ridurre il peso dell'investimento negli strumenti finanziari di tali emittenti nel più breve tempo possibile, agendo nell'interesse dei partecipanti, e in ogni caso ad azzerarlo entro sei mesi dal momento di variazione del giudizio.

In considerazione dei principi etici a cui si ispira l'attività di gestione, il Consiglio di Amministrazione della SGR si avvale della collaborazione di un “Comitato di Sostenibilità” al fine di assicurare la rispondenza delle scelte gestionali ai principi etici sopra indicati. Tale Comitato è indipendente ed autonomo rispetto alla SGR, è composto da personalità di riconosciuta probità e moralità, formula le proprie opinioni circa l'eticità degli emittenti anche avvalendosi di banche dati internazionali.

Il benchmark di riferimento è:

65% Bloomberg MSCI Euro Treasury 500M (1-3 years) ESG Weighted Custom Tilt
20% Bloomberg MSCI Euro Corporate Sustainability SRI Custom
15% MSCI World SRI in euro

Gli investimenti sono effettuati prevalentemente in strumenti finanziari di natura obbligazionaria e/o monetaria di emittenti governativi, di organismi sovranazionali/agenzie o di emittenti societari con merito di credito non inferiore ad investment grade; gli investimenti in strumenti finanziari rappresentativi del capitale di rischio sono presenti per un valore non superiore al 20% del totale delle attività. La durata media finanziaria (duration) del Fondo è tendenzialmente compresa tra 1 e 4 anni. Gli investimenti sono effettuati in strumenti finanziari prevalentemente denominati in euro quotati nei mercati regolamentati dei Paesi aderenti al Fondo Monetario Internazionale nonché Taiwan.

Il Fondo può inoltre investire:

- in strumenti finanziari di natura monetaria e/o obbligazionaria aventi rating inferiore ad investment grade o privi di rating, fino al 10% del totale delle attività;
- in depositi bancari denominati in qualsiasi valuta, fino ad un massimo del 50% del totale delle attività, a condizione che gli investimenti complessivi del Fondo risultino prevalentemente denominati in euro;
- in parti di OICVM e FIA aperti non riservati, la cui composizione del portafoglio risulti compatibile con la politica di investimento del Fondo, fino ad un massimo del 10% del totale delle attività;
- in strumenti del mercato monetario non quotati, fino ad un massimo del 10% del totale delle attività.

Il Fondo utilizza strumenti finanziari derivati per finalità di copertura dei rischi e per finalità diverse da quelle di copertura. L'esposizione complessiva in strumenti finanziari derivati non può essere superiore al valore complessivo netto del Fondo e deve risultare coerente con la politica di investimento. Tale esposizione è calcolata secondo il metodo degli impegni, secondo quanto stabilito nella disciplina di vigilanza.

La SGR adotta uno stile di gestione attivo. Con riguardo alla componente obbligazionaria, la selezione degli investimenti viene effettuata - nel rispetto di principi etici - sulla base delle previsioni circa l'evoluzione dei tassi di interesse considerando le opportunità di posizionamento, anche tramite arbitraggi, sui diversi tratti della curva dei rendimenti e sull'analisi dell'affidabilità degli emittenti. Con riguardo alla componente azionaria, la selezione degli investimenti viene effettuata - nel rispetto di principi etici - sulla base della dinamica delle principali variabili macroeconomiche nonché sulla base dell'analisi fondamentale e strategica delle singole società (dati finanziari, quota di mercato, piani di sviluppo, qualità del management) con l'obiettivo di identificare quei titoli che, rispetto al mercato od al settore di appartenenza,

forniscono le migliori prospettive di apprezzamento.

Data la sua denominazione, il Fondo è conforme ai requisiti previsti dagli “Orientamenti ESMA sull'utilizzo di termini ambientali, sociali e di governance o relativi alla sostenibilità nella denominazione dei fondi” (ESMA34-1592494965-657) per i fondi che utilizzano nella propria denominazione termini relativi alla dimensione “sociale”.

Il Fondo promuove caratteristiche di natura ambientale e/o sociale nel rispetto di pratiche di buon governo societario, ai sensi dell'art. 8 del Regolamento (UE) 2019/2088 del Parlamento Europeo e del Consiglio del 27/11/2019 e successive modifiche.

A prescindere dagli orientamenti di investimento specifici del Fondo, resta comunque ferma la facoltà di:

- effettuare investimenti in strumenti finanziari non quotati, nei limiti previsti dalle vigenti disposizioni normative;
- detenere liquidità per esigenze di tesoreria;
- assumere, in relazione all'andamento dei mercati finanziari o ad altre specifiche situazioni congiunturali, scelte per la tutela dell'interesse dei partecipanti, che si discostino dalle politiche d'investimento.

Il Fondo può inoltre:

- acquistare titoli di società finanziate da società del Gruppo di appartenenza della SGR;
- negoziare strumenti finanziari con altri patrimoni gestiti dalla SGR;
- investire in parti di altri OICR gestiti dalla SGR o da altre società alla stessa legate tramite controllo comune o con una considerevole partecipazione diretta o indiretta.

La SGR ha facoltà di effettuare operazioni in divisa estere (es. acquisti e vendite a pronti ed a termine, ecc.) ed utilizzare strumenti di copertura del rischio di cambio, coerentemente con la politica di investimento del Fondo. La SGR ha inoltre la facoltà di utilizzare tecniche di gestione efficiente del portafoglio (quali ad esempio operazioni di pronti contro termine, riporti, prestito titoli ed altre operazioni assimilabili) coerentemente con la politica di investimento del Fondo e nel rispetto dei limiti e delle condizioni stabilite dalle vigenti disposizioni normative.

Spese ed oneri a carico del Fondo

Le spese a carico del Fondo sono:

- la provvigione di gestione a favore della SGR, pari all'1,00% su base annua, calcolata quotidianamente sul valore complessivo netto del Fondo. La misura mensile della provvigione di gestione è pari ad 1/12 di quella sopra indicata ed è ripartita su base giornaliera; la medesima è prelevata dalle disponibilità del Fondo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento;
- il costo per il calcolo del valore della quota del Fondo, nella misura massima dello 0,016% su base annua, calcolato ogni giorno di valorizzazione sul valore complessivo netto del Fondo e prelevato mensilmente dalle disponibilità di quest'ultimo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento;
- il compenso riconosciuto al Depositario per l'incarico svolto. Tale importo è calcolato quotidianamente sul valore complessivo netto del Fondo, nella misura massima annua dello 0,024%;
- le spese di pubblicazione del valore unitario delle quote e dei prospetti periodici del Fondo;
- le spese degli avvisi inerenti alla liquidazione del Fondo, al pagamento delle cedole qualora il Fondo preveda la distribuzione dei proventi, alla disponibilità dei prospetti periodici nonché alle modifiche del Regolamento richieste da mutamenti della legge ovvero delle disposizioni di vigilanza;
- gli oneri della stampa dei documenti destinati al pubblico nonché gli oneri derivanti dagli obblighi di comunicazione alla generalità dei partecipanti, purché tali oneri non attengano a propaganda e a pubblicità o comunque al collocamento delle quote del Fondo;
- le spese per la revisione della contabilità e dei rendiconti del Fondo, ivi compreso quello finale di liquidazione;
- gli oneri finanziari per i debiti assunti dal Fondo e le spese connesse;
- le spese legali e giudiziarie sostenute nell'esclusivo interesse del Fondo;
- il contributo di vigilanza dovuto alla Consob nonché alle Autorità estere competenti, per lo svolgimento dell'attività di controllo e di vigilanza. Tra tali spese non sono in ogni caso comprese quelle relative alle procedure di commercializzazione del Fondo nei paesi diversi dall'Italia;
- gli oneri di intermediazione inerenti alla compravendita di strumenti finanziari o di parti di OICR, all'investimento in depositi bancari nonché gli oneri connessi alla partecipazione agli OICR oggetto dell'investimento;
- gli oneri fiscali di pertinenza del Fondo.

Il pagamento delle suddette spese, salvo quanto diversamente indicato, è disposto dalla SGR mediante prelievo dalla disponibilità del Fondo con valuta non antecedente a quella del giorno di effettiva erogazione.

In caso di investimento in OICR collegati, sul Fondo acquirente non vengono fatte gravare spese e diritti di qualsiasi natura relativi alla sottoscrizione e al rimborso delle parti degli OICR acquisiti. La SGR deduce dal proprio compenso, fino a concorrenza dello stesso, la remunerazione complessiva (provvigione di gestione, di incentivo, ecc.) percepita dal gestore degli OICR "collegati".

Regime fiscale

La SGR, ai sensi della Legge 10/2011, applica una ritenuta sul reddito realizzato direttamente in capo ai partecipanti.

La ritenuta viene applicata nella misura del 26%. La quota parte dei redditi riconducibile all'investimento in titoli governativi italiani ed equiparati e in obbligazioni emesse da Stati esteri white list e loro enti territoriali partecipa in misura ridotta, per il 48,08% del relativo ammontare al reddito fiscalmente imponibile. I proventi riferibili ai titoli pubblici italiani ed equiparati sono determinati proporzionalmente alla percentuale media dell'attivo investita direttamente, o indirettamente per il tramite di altri organismi di investimento.

Tale percentuale media viene aggiornata con cadenza semestrale e decorre dal 1° gennaio e dal 1° luglio di ciascun anno solare. Il relativo dato è disponibile sul sito internet della SGR, nella sezione dedicata alla fiscalità.

Il reddito imponibile in capo al partecipante corrisponde ai proventi distribuiti in costanza di partecipazione al Fondo o alla differenza tra il valore di rimborso, di liquidazione o di cessione delle quote e il costo medio ponderato di sottoscrizione o acquisto delle quote medesime, rilevati dai prospetti periodici. Tra le operazioni di rimborso sono comprese anche quelle realizzate mediante operazioni di spostamento tra Fondi. La ritenuta è applicata anche nell'ipotesi di trasferimento delle quote a rapporti di custodia, amministrazione o gestione intestati a soggetti diversi dagli intestatari dei rapporti di provenienza, incluse le operazioni di trasferimento avvenute per successione o donazione.

Nel caso in cui il partecipante realizzi una perdita, tale minusvalenza può essere portata dal partecipante in diminuzione di plusvalenze realizzate su altri titoli, nel medesimo periodo d'imposta o entro il quarto successivo.

Durata dell'esercizio contabile

L'esercizio contabile del Fondo ha durata annuale e si chiude l'ultimo giorno di valorizzazione del mese di dicembre di ogni anno.

RELAZIONE DEGLI AMMINISTRATORI

Scenario Macroeconomico

Nel periodo di riferimento (1° gennaio 2024 - 30 dicembre 2024) i mercati finanziari hanno registrato un andamento generalmente positivo. Il contesto macro si è caratterizzato per una certa divergenza fra gli USA e l'area Euro. Negli USA, infatti, la forza del ciclo ha sorpreso le stime e l'inflazione, sebbene in calo, ha mostrato un trend di rientro meno lineare; viceversa, nell'area Euro la crescita ha mostrato una maggiore debolezza e l'inflazione ha evidenziato un percorso di rientro verso il target del 2% più marcato. All'interno di questo scenario le principali Banche Centrali hanno avviato, seppure con tempistiche e modalità differenti, un ciclo di taglio dei tassi.

Più in dettaglio, negli USA l'inflazione totale ha chiuso il primo trimestre al 3,2%, in calo rispetto al dato di fine 2023, così come l'inflazione core (vale a dire al netto delle componenti più volatili legate ai prezzi di alimentari ed energia) che si è attestata al 3,8%, livello di poco inferiore al 4% che aveva caratterizzato la parte finale del 2023. A destare attenzione, però, sono stati i contributi mensili sia per l'inflazione totale che per quella core. La crescita mensile dei prezzi, infatti, si è assestata tra lo 0,3% e lo 0,4% per il primo trimestre. All'interno di questo contesto si è registrata una normalizzazione delle aspettative di politica monetaria, con i mercati che si sono via via allineati allo scenario delineato dalle Banche Centrali, prima fra tutte la Fed, che a dicembre 2023 aveva annunciato tre tagli dei tassi per il 2024. Nella riunione di marzo, la Banca Centrale statunitense ha lasciato i tassi invariati e ha confermato la volontà di procedere con tre tagli dei tassi, nonostante la dinamica inflattiva mostrasse una marginale resilienza ed i dati macro fossero ancora molto solidi, soprattutto, per quanto concerne le dinamiche occupazionali. Nell'area Euro l'inflazione ha registrato un percorso di discesa più netto, portandosi al 2,6% nel dato totale ed al 3,1% in quello core. Anche se l'inflazione europea ha mostrato una dinamica di rientro più consistente ed il quadro macro ha evidenziato una maggior debolezza rispetto a quello statunitense, la BCE non ha introdotto variazioni di politica monetaria nel trimestre, rimandando a giugno l'eventuale inizio dell'attesa riduzione dei tassi. Il contesto geopolitico ha visto il proseguimento delle tensioni sia in Ucraina che in Medio Oriente, ma con scarso impatto sui mercati finanziari. Anche le elezioni a Taiwan ed in Russia non hanno generato reazioni sostanziali sui mercati. Il congresso del Partito Comunista cinese ha fissato al 5% il target di crescita per il 2024; tuttavia le misure di stimolo introdotte da Pechino non sono state giudicate adeguate dagli investitori.

Nel secondo trimestre i dati di inflazione statunitensi sono apparsi in moderazione rispetto alla prima parte dell'anno; in particolare, i dati di aprile e maggio sono tornati ad evidenziare una tendenza al rientro. Da questo punto di vista, il mese di giugno è stato particolarmente importante; da un lato l'inflazione ha rallentato oltre le attese nel contributo mensile sia nella componente totale che in quella core, dall'altro la Fed ha rivisto le sue aspettative di politica monetaria (Dots), posticipando al 2025 la parte sostanziale della riduzione dei tassi e prevedendo un solo taglio per il 2024. In Europa, invece, i dati di inflazione hanno proseguito in un percorso di rientro più definito, portando la BCE ad effettuare un primo taglio dei tassi da 25 punti base nella riunione di giugno. Questo primo intervento di riduzione, però, non ha prodotto un cambiamento radicale nell'orientamento di politica monetaria, che è rimasto fortemente ancorato all'andamento dei dati macro e, in particolare, dell'inflazione. Oltre ai dati macro, molto rilevanti per gli operatori sono state anche le elezioni per il rinnovo del Parlamento europeo, il cui esito, però, non ha avuto particolari riflessi sui mercati visto che si è avuta una sostanziale riconferma della maggioranza uscente. La maggior parte della turbolenza politica si è avuta in Francia dove, a seguito della forte affermazione dei partiti di opposizione, il presidente Macron ha sciolto anticipatamente le camere e indetto nuove elezioni. Questo si è tradotto in una crescente volatilità sugli asset francesi, con un marginale contagio anche per gli altri Paesi europei; tale volatilità, però, è gradualmente rientrata man mano che i risultati elettorali mostravano sempre meno probabile una forte affermazione dei partiti con posizioni più estreme.

Il terzo trimestre è stato caratterizzato dal consolidamento del percorso di discesa per l'inflazione USA, mentre quella europea ha addirittura accelerato verso il basso, chiudendo il periodo sotto il target di riferimento della BCE. Negli USA l'inflazione su base annua è scesa al 2,5% nel dato totale, ai minimi da febbraio 2021, mentre nella componente core è apparsa più stabile al 3,2%, sui minimi da aprile 2021. In Europa l'inflazione è scesa significativamente, portandosi all'1,8% (sotto il target BCE del 2%), mentre quella core ha raggiunto il livello del 2,7% su base annua. A ridurre le pressioni inflazionistiche ha contribuito il calo diffuso dei prezzi delle materie prime, in particolare di quelle energetiche, con il petrolio che ha chiuso il trimestre in area 70 dollari al barile. Insieme al calo dell'inflazione, un marginale indebolimento del mercato del lavoro USA e un deterioramento del quadro macro complessivo in Europa hanno portato le Banche Centrali a ridurre i tassi. La BCE ha introdotto il secondo taglio da 25 punti base del tasso sui depositi, dopo quello effettuato a giugno, portandolo dal 3,75% al 3,5%. Negli USA, la Fed ha avviato la politica di allentamento monetario con un primo taglio da 50 punti base, che ha portato i tassi al 5%. Tra le principali Banche Centrali, quella giapponese è risultata in controtendenza, poiché a fine luglio ha annunciato un rialzo dei tassi per fronteggiare le crescenti pressioni inflazionistiche. Questo rialzo era inatteso ed ha innescato molta volatilità sui mercati, che, in seguito, è gradualmente rientrata con il consolidarsi della crescita globale. In Europa, la Francia ha ultimato la formazione del nuovo esecutivo; tuttavia, la debolezza del quadro politico, insieme a quella sui dati di bilancio, si è riflessa sullo spread del tasso decennale francese rispetto a quello tedesco che è tornato in area 80 punti base. Negli USA la corsa per la presidenza ha visto la rinuncia di Biden, molto penalizzato nei sondaggi, a favore della sua vice Kamala Harris. In Cina i policy maker hanno modificato l'approccio verso gli stimoli all'economia. La Banca Centrale cinese,

infatti, ha introdotto un significativo taglio dei tassi, mentre le autorità centrali hanno annunciato, anche se non ancora formalizzato, un piano di espansione fiscale, finalizzato al raggiungimento del target di crescita del 5%.

Il quarto trimestre è stato caratterizzato dal consolidamento di una marginale divergenza macroeconomica tra USA ed Eurozona. Negli USA l'inflazione totale ha chiuso il trimestre al 2,7%, mentre l'inflazione core si è stabilizzata in area 3,3%. Il rialzo medio su base mensile è stato nell'ordine dello 0,3%, evidenziando come, nonostante una tendenza di fondo dell'inflazione orientata al ribasso, la crescita mensile dei prezzi sia rimasta solida e i progressi verso l'obiettivo del 2% abbiano registrato un certo rallentamento. A questo si sono aggiunti un mercato del lavoro in fase di normalizzazione su livelli pre-pandemia e un quadro macro complessivo che ha visto i settori legati ai servizi sostenere la crescita americana. La netta affermazione repubblicana alle elezioni di novembre ha portato gli investitori a scontare molto rapidamente l'agenda economica di Trump, fatta di espansione fiscale, nuove tariffe, deregolamentazione e lotta all'immigrazione. La reazione della Fed ad un quadro macro più solido delle attese si è tradotta in due tagli dei tassi da 25 punti base nel corso del trimestre, mentre le stime relative ai tagli previsti per il 2025 sono state fortemente ridotte. Situazione diversa in Europa, dove l'inflazione ha chiuso il trimestre in area 2,3% nel dato totale, mentre la componente core in area 2,7%. Il quadro macro in Eurozona si è confermato più debole rispetto a quello americano. A questo si sono poi aggiunte le difficoltà politiche francesi e tedesche. In Francia, è stato varato un nuovo governo dopo quello di luglio, con l'obiettivo prioritario di approvare la nuova legge di bilancio, mentre in Germania la crisi politica si è tradotta nello scioglimento del parlamento, con nuove elezioni previste per il mese di febbraio. In tale contesto, la BCE ha effettuato due ulteriori tagli dei tassi da 25 punti base, prevedendo di riportare l'inflazione al target del 2% entro il 2025. La debolezza europea è in parte legata a quella evidenziata dall'economia cinese. Nel corso del trimestre, infatti, proprio la Cina ha annunciato un importante piano di stimolo fiscale a sostegno dell'economia, che fatica a raggiungere il target previsto di una crescita annua al 5%.

Analizzando l'andamento dei mercati finanziari, nei primi sei mesi del 2024, all'interno di un contesto macroeconomico nel quale la crescita ha mostrato una certa resilienza e l'inflazione un ritmo di rientro verso gli obiettivi delle Banche Centrali più lento del previsto, i tassi governativi si sono mossi al rialzo sia sulla parte a breve delle curve che su quella più lunga. Nel prosieguo del periodo di riferimento, però, di fronte al rafforzamento del movimento di discesa dell'inflazione e al cambio di approccio di politica monetaria da parte delle principali Banche Centrali, i tassi hanno ripreso a scendere, con un movimento che ha impattato maggiormente la parte a breve delle curve dei rendimenti. Nella parte conclusiva del periodo di riferimento, però, si è assistito ad una risalita dei tassi statunitensi che ha coinvolto, seppure con intensità più contenuta, anche quelli europei. I mercati, infatti, sono andati a scontare maggiormente la vittoria di Trump, con la possibilità di avere un'agenda economica molto espansiva in grado potenzialmente di rallentare il percorso di riduzione dei tassi intrapreso dalla Fed. Questi timori sono stati amplificati dalla Fed stessa che nell'ultimo meeting dell'anno, pur operando un ulteriore taglio dei tassi di 25 punti base, si è detta pronta a rallentare il ritmo dei tagli nel corso del 2025, alla luce della solidità della ripresa, della tenuta del mercato del lavoro e, soprattutto, del rallentamento nella discesa dell'inflazione.

Nel complesso, il tasso di interesse a 2 anni statunitense ha chiuso l'anno al 4,24% (sugli stessi livelli della chiusura annuale precedente), mentre il decennale è aumentato dal 3,88% al 4,53% per una curva che ha assunto un'inclinazione positiva (ossia, con un livello dei tassi sul tratto a lungo termine superiore a quello del tratto a breve termine). In Europa il tasso a 2 anni tedesco è sceso dal 2,40% al 2,08% mentre quello decennale è salito dal 2,02% al 2,37%. Tra i Paesi periferici dell'area Euro, lo spread del decennale italiano rispetto a quello tedesco è calato da 168 punti base a 115.

All'interno di questo scenario, il mercato obbligazionario globale ha mostrato una performance positiva dello 0,2% in valuta locale e del 2,6% in euro (indice JPM Global). A livello di singole aree geografiche, l'area Euro ha chiuso il periodo di riferimento con l'indice JPM Emu in rialzo dell'1,8% e gli Stati Uniti (indice JPM Usa) hanno registrato un guadagno dello 0,8% in valuta locale e del 7,2% in euro. I Paesi emergenti (indice JPM Embi+) hanno evidenziato un andamento nel complesso migliore rispetto a quello dei Paesi maggiormente sviluppati, con una variazione positiva del 7,7% in valuta locale e del 14,6% in euro.

Volgendo lo sguardo ai mercati azionari, essi hanno esibito un andamento positivo, beneficiando di una buona dinamica degli utili aziendali e di un contesto macro ancora favorevole. Inoltre, l'inizio dei tagli dei tassi da parte delle Banche Centrali è stato un elemento di ulteriore supporto, sebbene le tempistiche di riduzione siano state più lente delle stime iniziali. Nel corso dei mesi estivi si è assistito ad un aumento della volatilità che è sfociata in alcune fasi ribassiste, peraltro interamente recuperate in orizzonti temporali molto ridotti. Nel corso del mese di ottobre, sulla base delle attese di una politica fiscale a favore delle aziende e di un processo di deregolamentazione in vari settori economici nel caso di una vittoria di Trump, la Borsa statunitense ha consolidato il movimento rialzista, mentre i listini europei e asiatici (in primis quello cinese) sono stati penalizzati dai timori di una nuova politica di dazi commerciali. Nella parte conclusiva del periodo di riferimento, la vittoria di Trump e la conquista da parte dei repubblicani della maggioranza sia alla Camera che al Senato hanno fornito ulteriore sostegno agli indici azionari americani, mentre quelli europei e dei Paesi emergenti non hanno evidenziato un'impostazione rialzista così marcata, in attesa anche di verificare la reale portata delle decisioni della nuova amministrazione americana su vari dossier economici, primo fra tutti quello commerciale.

Il mercato azionario globale ha totalizzato un guadagno in valuta locale del 21,4% (indice MSCI World) e del 26,7% in euro. A livello di singole aree geografiche, il mercato azionario statunitense (indice MSCI Usa) ha chiuso il 2024 con una performance positiva del 25,1% in valuta locale che raggiunge il 33,2% se si considera l'andamento in euro. I mercati europei (indice MSCI Emu) hanno evidenziato un andamento rialzista più contenuto rispetto a quello mostrato dai listini

statunitensi, registrando una performance positiva dell'8,9%. Andamento positivo anche per i Paesi emergenti; l'area nel suo complesso (indice MSCI Emerging Markets) ha evidenziato un recupero del 13,3% in valuta locale e del 14,7% in euro.

Relativamente al mercato valutario, l'euro si è indebolito del 6,0% nei confronti del dollaro e del 4,2% rispetto alla sterlina, mentre si è rafforzato dell'1,2% contro il franco svizzero e del 4,8% verso lo yen. La dinamica valutaria ha impattato sulle performance convertite in euro dei mercati esterni all'area Euro.

Commento di gestione

Nella prima parte dell'anno il peso dell'azionario è variato intorno ad un livello di neutralità contro benchmark, gestendo la volatilità del mercato con interventi tattici. Nel terzo trimestre l'esposizione è stata mantenuta in generale sottopeso per aumentarla progressivamente nel quarto trimestre, quando il Fondo ha mantenuto un leggero sovrappeso in particolare sul mercato americano.

A livello geografico, è stata mantenuta in generale una preferenza per il mercato americano. Nell'ultimo semestre dell'anno, inoltre, è stata incrementata l'esposizione alle small cap statunitensi.

La duration di portafoglio è stata mantenuta costantemente ad un livello superiore a quello del benchmark di riferimento. Il sovrappeso è stato parzialmente ridotto nel corso del terzo trimestre, per aumentarlo nuovamente negli ultimi due mesi dell'anno.

In generale, a livello di scadenza dei rendimenti si è preferito mantenere una esposizione alle scadenze brevi ed intermedie delle curve. A livello geografico la preferenza è andata ai mercati obbligazionari euro, in particolare Italia, Spagna e Germania. Il Fondo ha avuto una posizione leggermente lunga sulle parti brevi del mercato statunitense e inglese. Il Fondo ha mantenuto una esposizione lunga al mercato corporate Investment Grade, concentrata sul settore finanziario e sulle scadenze fino a 5 anni.

Il Fondo si è caratterizzato per una posizione generalmente costruttiva sul dollaro, che è stata modulata di intensità nel corso dell'anno; in particolare, è stata aumentata dopo il risultato delle elezioni americane.

Nell'implementazione di posizioni volte a trarre profitto da movimenti tattici di duration, curva e differenziali di rendimento, si è optato per l'utilizzo di derivati al fine di ridurre i costi di transazione e sfruttare la maggiore liquidità offerta da questi strumenti rispetto all'investimento diretto in titoli.

La performance assoluta del Fondo è stata positiva, ma negativa contro benchmark. Ha influito negativamente la posizione troppo cauta sulle componenti rischiose del benchmark nel terzo trimestre dell'anno e le posizioni lunghe di duration sulla curva americana. Un contributo positivo è giunto dalla posizione lunga nei confronti dei BTP e del credito Investment Grade.

Per i mesi a venire il Fondo manterrà una posizione costruttiva sulla componente obbligazionaria, con una posizione lunga sulla componente a spread. Sulla duration, pur mantenendo un leggero lungo contro benchmark, è stata decisamente ridotta l'intensità dell'esposizione, in attesa di avere una maggiore visibilità sulle politiche della nuova amministrazione americana. Per quanto riguarda la posizione azionaria, si mantiene al momento una posizione costruttiva, anche se l'esposizione contro benchmark verrà mossa tatticamente per gestire la volatilità dei mercati, in una fase del ciclo macro nel quale la visibilità sulle dinamiche di crescita rimane piuttosto bassa.

Rapporti con le Società del Gruppo

Si precisa che i rapporti intrattenuti e le operazioni effettuate nel corso del periodo di riferimento con le altre Società del Gruppo vengono descritti nell'ambito della nota integrativa cui si rimanda. Tali rapporti e operazioni sono stati regolati in base alle normali condizioni di mercato.

Fatti di rilievo avvenuti dopo la chiusura del periodo di riferimento della presente relazione

Nell'ambito della politica di investimento dei fondi "Eurizon Obbligazionario Etico", "Eurizon Diversificato Etico" ed "Eurizon Azionario Internazionale Etico", appartenenti al "Sistema Etico", è stato precisato che gli stessi fondi risultano conformi ai requisiti previsti dagli "Orientamenti ESMA sull'utilizzo di termini ambientali, sociali e di governance o relativi alla sostenibilità nella denominazione dei fondi", per i fondi che utilizzano nella propria denominazione termini relativi alla dimensione "sociale".

In particolare, gli stessi fondi adottano le esclusioni previste dagli indici di riferimento UE di transizione climatica previste all'articolo 12, paragrafo 1, lettere a), b) e c), del Regolamento Delegato (UE) 2020/1818 della Commissione del 17 luglio 2020.

Tali modifiche, deliberate dal Consiglio di Amministrazione di Eurizon Capital SGR, nella riunione del 28 gennaio 2025, acquisiranno efficacia in data 28 febbraio 2025.

Attività di collocamento delle quote

Per quanto riguarda l'attività di collocamento delle quote, si segnala una raccolta netta negativa per euro 274.899.513.

Esercizio del diritto di voto alle Assemblee di società quotate

Esercizio del diritto di voto e attività di Engagement

Eurizon Capital SGR S.p.A. (di seguito anche "Eurizon Capital" o la "SGR") ha un impegno fiduciario volto alla protezione e alla creazione di valore nei confronti dei propri Clienti ed Investitori che richiede di affrontare in modo efficace le problematiche legate all'andamento delle società in cui investe per conto dei patrimoni gestiti. La SGR attribuisce rilevanza al presidio del buon governo societario (cd. "corporate governance") delle società emittenti partecipate; a tal fine la SGR ha adottato una Politica di Impegno coerente con i già adottati "Principi di Stewardship" per l'esercizio dei diritti amministrativi e di voto nelle società quotate e delle relative Raccomandazioni di best practice definite da Assogestioni. La SGR, dal 2015 firmataria dei "Principi per l'Investimento Responsabile" delle Nazioni Unite (UN PRI), presta particolare attenzione alle politiche implementate dagli emittenti in cui investe per conto dei patrimoni gestiti, nella convinzione che sane politiche e pratiche di governo societario (che incorporino questioni ambientali, sociali e di governance) siano in grado di creare valore per gli azionisti nel lungo termine. In tale ambito, la ricerca specializzata di cui si avvale la SGR, a supporto delle decisioni di investimento e dell'esercizio dei diritti di intervento e di voto, comprende anche informazioni sulla responsabilità sociale e ambientale degli emittenti, volte ad identificare eventuali impatti in termini di reputazione, concorrenza e di opportunità di business determinati dalle scelte di governo societario (corporate governance).

In conformità alla normativa vigente, la SGR ha adottato la propria "Strategia per l'esercizio dei diritti di intervento e di voto inerenti agli strumenti finanziari di pertinenza dei patrimoni gestiti di Eurizon Capital SGR S.p.A." che definisce le procedure e le misure adottate per:

- monitorare gli eventi societari connessi agli strumenti finanziari detenuti dai portafogli gestiti, laddove richiesto dalle caratteristiche degli strumenti finanziari che incorporano i diritti da esercitare;
- valutare le modalità e i tempi per l'eventuale esercizio dei diritti di intervento e di voto, sulla base di un'analisi costi/benefici che consideri anche gli obiettivi e la politica di investimento di ciascun portafoglio gestito;
- prevenire o gestire le eventuali situazioni di conflitto di interessi che possono risultare dall'esercizio dei diritti di voto per conto dei patrimoni gestiti.

La partecipazione alle Assemblee è regolata da una specifica procedura operativa interna che disciplina le modalità di partecipazione nell'interesse dei portafogli gestiti e dell'integrità del mercato, con l'obiettivo di ridurre al minimo il rischio di conflitti di interesse. A tal fine, la SGR si è dotata di appositi presidi volti ad identificare le circostanze che generano o potrebbero generare situazioni di conflitto di interesse e quindi ledere gravemente gli interessi di uno o più Clienti/Investitori/OICR. La SGR interviene, per conto dei patrimoni gestiti, nelle assemblee di selezionate società con azioni quotate alla Borsa Italiana e sui mercati internazionali, tenendo conto dell'utilità della partecipazione rispetto agli interessi dei patrimoni gestiti e della possibilità di incidere sulle decisioni in relazione ai diritti di voto posseduti.

Con specifico riferimento alle motivazioni che guidano la scelta di esercitare i diritti di intervento e di voto, la SGR ha individuato i seguenti criteri di tipo quantitativo e qualitativo:

- partecipare alla vita assembleare di quelle società nelle quali si detengano quote significative di capitale, quali di tempo in tempo individuate nelle procedure aziendali;
- partecipare a quelle assemblee che presentino tematiche giudicate rilevanti nell'interesse dei patrimoni gestiti al fine di (i) stigmatizzare situazioni di particolare rilievo, in difesa o a supporto degli interessi degli azionisti di minoranza o (ii) supportare decisioni significative riferite a pratiche ambientali, sociali e di buon governo societario;
- contribuire ad eleggere sindaci o consiglieri di amministrazione di società quotate in Italia mediante il meccanismo del voto di lista, in rappresentanza delle minoranze azionarie;
- partecipare alle assemblee in cui vengono deliberate operazioni straordinarie ritenute significative per l'interesse dei patrimoni gestiti al fine di supportare o contrastare l'operazione proposta.

Qualora uno o più di tali criteri siano soddisfatti, la struttura ESG & Strategic Activism definisce le proposte relative alle istruzioni di voto sulla base (i) di analisi e di approfondimenti svolti su documenti pubblici, (ii) della ricerca disponibile, a supporto delle decisioni di corporate governance e nelle raccomandazioni di voto, (iii) delle indicazioni fornite dai gestori di riferimento, nonché (iv) degli esiti dell'eventuale interazione con la società emittente (cd. "engagement"). La partecipazione alle singole assemblee viene autorizzata dall'Amministratore Delegato della SGR che definisce altresì (i) il voto da esprimere, (ii) le eventuali specifiche istanze da manifestare nell'interesse degli investitori, in modo indipendente da qualsiasi condizionamento interno ed esterno alla Società e (iii) le modalità di partecipazione, ivi compresa la delega, in occasione delle singole assemblee, da conferire a Società terze specializzate, impartendo esplicite istruzioni. Qualora ritenuta la modalità più efficiente nell'interesse dei patrimoni gestiti e non ricorrano i criteri quali-quantitativi sopra indicati, la SGR esercita, inoltre, i diritti di voto avvalendosi del processo di voto elettronico eventualmente previsto dagli emittenti. A tal fine, la SGR si avvale di una piattaforma informatica che permette di efficientare il processo di esercizio dei diritti di voto, con particolare riferimento agli emittenti esteri. In tali situazioni, le istruzioni di voto sono definite sulla base di apposite linee guida approvate dal Consiglio di Amministrazione su proposta formulata dall'Amministratore Delegato e Direttore Generale.

Eurizon Capital si impegna, inoltre, ad effettuare una ricerca approfondita e ad instaurare un dialogo costruttivo con gli organi di amministrazione e/o controllo degli "emittenti rilevanti" individuati in base a precisi criteri di selezione definiti

nella Politica di Impegno (c.d. “Engagement Policy”) di Eurizon Capital SGR che è pubblica e disponibile sul sito internet della SGR.

La SGR promuove un'interazione proattiva nei confronti delle società in cui investe, incoraggiando un'efficace comunicazione con il management di tali emittenti, ricorrendo ad una delle seguenti modalità di ingaggio:

- “unilaterale”, qualora sia SGR ad avviare la comunicazione (“one-way”);
- “bilaterale”, laddove la SGR e l'emittente partecipato abbiano instaurato un dialogo costruttivo (“two-way”);
- “collettivo”, ove sia prevista l'azione coordinata su temi mirati di più investitori istituzionali, anche tramite la partecipazione alle attività del Comitato di Corporate Governance e del Comitato dei Gestori promossi da Assogestioni, con altri investitori istituzionali firmatari di UN PRI, oppure nell'ambito di altre sedi internazionali di rilievo.

I documenti relativi all'attività di Stewardship di Eurizon sono disponibili sul sito internet della SGR.

Si riporta di seguito l'elenco delle Assemblee degli azionisti in cui la SGR è intervenuta per conto del Fondo nel corso del periodo di riferimento:

Sostenibilità

La SGR si è dotata della Politica di Sostenibilità che descrive le metodologie di selezione e monitoraggio degli strumenti finanziari adottate al fine di integrare l'analisi dei rischi di sostenibilità nell'ambito del proprio Processo di Investimento relativo ai servizi di gestione collettiva del risparmio e di gestione di portafogli e alle raccomandazioni effettuate nell'ambito del servizio di consulenza in materia di investimenti.

In linea con i “Principi per gli Investimenti Sostenibili” (PRI) promossi dalle Nazioni Unite e con il quadro normativo e regolamentare europeo, la SGR ha adottato metodologie che prevedono l'applicazione di specifici processi di selezione degli strumenti finanziari, opportunamente graduati in funzione delle caratteristiche e degli obiettivi dei singoli prodotti

gestiti, che tengono conto di fattori ambientali, sociali e di governance (“Environmental, Social and Governance factors” - ESG) e di principi di Investimento Sostenibile e Responsabile (“Sustainable and Responsible Investments” - SRI).

I criteri di selezione e monitoraggio degli emittenti basati su profili ESG e SRI integrano le tradizionali analisi finanziarie dei profili di rischio/rendimento degli emittenti che la SGR prende in considerazione nella formazione delle proprie scelte di investimento al fine di (i) evitare che condizioni di tipo ambientale, sociale e di governance possano determinare un significativo impatto negativo, effettivo o potenziale, sul valore degli investimenti dei patrimoni gestiti e (ii) cogliere le capacità degli emittenti di trarre vantaggio dalle opportunità di crescita sostenibile.

In conformità a quanto previsto dalla normativa vigente la SGR mette a disposizione dei propri clienti/investitori e degli altri stakeholder la Sintesi della Politica di Sostenibilità, ed ogni eventuale aggiornamento rilevante della stessa, sul proprio sito Internet www.eurizoncapital.com.

Informazioni su SFDR e tassonomia

La SGR, ai sensi all’articolo 11, paragrafo 2, del Regolamento (UE) 2019/2088 (cd. “Regolamento SFDR”) e della correlata disciplina di attuazione, mette a disposizione per i prodotti classificati ai sensi dell’art.8 del Regolamento SFDR, le informazioni sulle caratteristiche ambientali e/o sociali nell’allegato “Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario”.

Devoluzione Commissioni di Gestione

Il Regolamento dei fondi appartenenti al Sistema Etico prevede l'impegno della Società a finanziare progetti ed iniziative di carattere umanitario tramite la devoluzione di una somma - come esplicitato nel Prospetto del Fondo - pari allo 0,01% del patrimonio netto medio giornaliero complessivo dei fondi appartenenti al "Sistema Etico" in ciascun esercizio annuale.

Al fine di assicurare la rispondenza dei progetti e delle iniziative di carattere umanitario ai principi etici indicati nel Prospetto del Fondo e in applicazione del Codice Etico e del Codice Interno di Comportamento, la SGR ha istituito un apposito comitato interno, denominato "Comitato Devoluzioni", composto da 4 membri rappresentativi di diverse funzioni aziendali, inclusa la funzione di conformità. Tra i compiti del Comitato rientrano anche quelli di (i) sovrintendere alle attività di devoluzione e beneficenza effettuate a tutti i livelli da Eurizon Capital SGR, e (ii) predisporre le proposte per il Consiglio di Amministrazione in merito all'individuazione delle organizzazioni benefiche ritenute prioritarie e meritevoli.

La devoluzione effettuata per l'esercizio 2024 è stata destinata alla seguente lista di organizzazioni:

- ReteClima Onlus (Walk4Trees);
- Il Ponte Società Cooperativa Sociale;
- Italian Society of Oncologic Surgery (S.I.C.O.);
- Amici di Cometa Onlus;
- Associazione AIHELPIU;

Per

RELAZIONE DI GESTIONE AL 30 DICEMBRE 2024

PREMESSA

La Relazione di gestione del Fondo si compone di una Situazione patrimoniale, di una Sezione reddituale e di una Nota integrativa ed è stata redatta in conformità alle disposizioni del Regolamento della Banca d'Italia del 19 gennaio 2015 in materia di gestione collettiva del risparmio, come modificato dal Provvedimento della Banca d'Italia del 12 marzo 2024. Questi sono inoltre accompagnati dalla relazione degli amministratori.

I prospetti contabili e la nota integrativa sono redatti in unità di euro, senza cifre decimali, a eccezione del valore della quota, che viene calcolato in millesimi di euro.

La presente Relazione di gestione è redatta con riferimento al 30 dicembre 2024, che risulta, ai sensi del regolamento del Fondo attualmente in vigore, l'ultimo giorno di calcolo del valore della quota del mese di dicembre. Tale data rappresenta pertanto il termine dell'esercizio contabile del Fondo.

Come espressamente previsto dal Provvedimento di riferimento, i prospetti allegati sono stati posti a confronto con i dati relativi al periodo precedente.

L'Assemblea degli Azionisti di Eurizon Capital SGR S.p.A. del 16 marzo 2020 ha incaricato EY S.p.A. della revisione legale del bilancio d'esercizio e della revisione contabile delle relazioni di gestione dei Fondi comuni d'investimento istituiti dalla SGR per gli esercizi 2021 - 2029.

NOTA INTEGRATIVA

Parte A - Andamento del valore della quota

1) Nel periodo di riferimento, la performance del Fondo, al netto delle commissioni applicate, e la performance del benchmark di riferimento, sono state rispettivamente pari a 3,60% e 6,14%.

2) Il rendimento annuo del Fondo e del benchmark(*) nel corso degli ultimi dieci anni, o del minor periodo di vita, può essere rappresentato come segue:

I dati di rendimento del Fondo non includono eventuali costi di sottoscrizione e rimborso a carico dell'investitore. La performance del Fondo e del benchmark riflette valori che fino al 30/06/2011 erano al netto dell'effetto fiscale, mentre dal 01/07/2011 sono calcolati al lordo di tale componente.

3) I valori minimi e massimi della quota raggiunti durante l'esercizio sono così raffigurabili:

Andamento del valore della quota durante l'esercizio	
Valore minimo al 17/01/24	10,556
Valore massimo al 11/12/24	11,165

Per quanto concerne i principali eventi che hanno influito sull'andamento del valore della quota si rimanda a quanto illustrato nel commento di gestione.

Si evidenzia che in data 24 maggio 2024 il Fondo ha incorporato i fondi "Eurizon Disciplina Sostenibile ESG Ottobre 2023" e "Eurizon Disciplina Sostenibile ESG Dicembre 2023".

4) Il Fondo non presenta la suddivisione in Classi di quote.

5) Nel corso dell'esercizio non sono stati riscontrati errori nel calcolo del valore della quota del Fondo.

6) La volatilità della differenza di rendimento del Fondo rispetto al benchmark di riferimento negli ultimi tre anni o del minor periodo di vita del Fondo è rappresentata dal valore della "Tracking Error Volatility(*)" di seguito riportata:

	2024	2023	2022
TEV	0,95%	1,18%	1,21%

(*) La Tracking Error Volatility è calcolata come deviazione standard settimanale annualizzata della differenza tra la performance del Fondo e quella del benchmark.

7) La quota del Fondo non è trattata su mercati regolamentati.

8) Le quote del Fondo sono del tipo ad accumulazione. I proventi realizzati non vengono pertanto distribuiti ma restano compresi nel patrimonio del Fondo.

9) Il Fondo è soggetto principalmente al rischio di sfavorevole andamento dei corsi dei titoli obbligazionari, che può dipendere sia dal movimento di risalita dei tassi che dal movimento di allargamento degli spread dei Paesi in cui può avvenire l'investimento. Il Fondo è inoltre esposto ai rischi di potenziali ribassi dei corsi azionari. Le scelte di allocazione del portafoglio e l'uso di derivati consentono di modulare l'esposizione a tali fattori di rischio.

Il monitoraggio di tali rischi viene effettuato su base continuativa dal gestore attraverso la costante verifica dell'effettivo posizionamento del Fondo rispetto al profilo di rischio-rendimento desiderato e al benchmark di riferimento. La misurazione ed il controllo dei rischi in oggetto viene inoltre effettuata con frequenza giornaliera mediante l'utilizzo di modelli matematico-statistici utilizzati autonomamente dalla struttura di Risk Management. I risultati di tali valutazioni sono regolarmente portati all'attenzione degli organi amministrativi della SGR.

Ai fini di fornire una rappresentazione dei rischi assunti nell'esercizio, si riporta qui di seguito una sintesi degli indicatori più significativi, elaborati a posteriori su dati di consuntivo:

Volatilità annualizzata su quote nette del Fondo **2,77%**

(esprime la misura annualizzata della variabilità settimanale del rendimento della quota rispetto al valore medio del rendimento stesso)

Volatilità annualizzata del Benchmark **2,70%**

(esprime la misura annualizzata della variabilità del rendimento del benchmark rispetto al valore medio del rendimento stesso)

Var mensile (99%) su quote nette **-0,74%**

(Minor rendimento realizzato su base mensile nel corso del periodo di riferimento determinato escludendo l'1% dei peggiori risultati)

Durante il periodo di riferimento, sono stati utilizzati strumenti derivati (quali future, opzioni, swap) per finalità di copertura e per gestire tatticamente la volatilità dei mercati in cui il Fondo investe.

Parte B - Le attività, le passività e il valore complessivo netto

SEZIONE I - Criteri di valutazione

Principi contabili

La presente relazione di gestione è redatta nel presupposto della continuità operativa del Fondo.

Nella redazione del presente documento vengono applicati i principi contabili di generale accettazione per i fondi comuni d'investimento e i criteri di valutazione previsti dal Regolamento in accordo con quanto espressamente disposto dalla Banca d'Italia. Tali principi contabili, coerenti con quelli utilizzati nel corso del periodo per la predisposizione dei prospetti giornalieri, sono di seguito riepilogati.

Criteri contabili

Gli acquisti e le vendite di titoli e di altre attività sono contabilizzati nel portafoglio del Fondo sulla base della data di effettuazione dell'operazione, indipendentemente dalla data di regolamento dell'operazione stessa. Nel caso di sottoscrizione di titoli di nuova emissione la contabilizzazione nel portafoglio del Fondo avviene invece alla data di attribuzione.

La vendita o l'acquisto di contratti future su titoli nozionali influenzano il valore netto del Fondo attraverso la corresponsione o l'incasso dei margini di variazione i quali incidono direttamente sulla liquidità disponibile e sul conto economico mediante l'imputazione dei differenziali positivi/negativi. Tali differenziali vengono registrati secondo il principio della competenza, sulla base della variazione giornaliera tra i prezzi di chiusura del mercato di contrattazione e i costi dei contratti stipulati e/o i prezzi del giorno precedente.

Le opzioni, i premi e i warrant acquistati e le opzioni emesse e i premi venduti sono computati tra le attività/passività al loro valore corrente. I controvalori delle opzioni, dei premi e dei warrant non esercitati confluiscono, alla scadenza, nelle apposite poste di conto economico.

I costi delle opzioni, dei premi e dei warrant, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i costi per acquisti e i ricavi per vendite dei titoli cui si riferiscono, mentre i ricavi da premi venduti e opzioni emesse, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i ricavi per vendite e i costi per acquisti dei titoli cui si riferiscono.

Le differenze tra i costi medi ponderati di carico e i prezzi di mercato relativamente alle quantità in portafoglio originano minusvalenze e/o plusvalenze; nell'esercizio successivo tali poste da valutazione influiranno direttamente sui relativi valori di libro. Gli utili e le perdite su realizzazioni riflettono la differenza fra i costi medi ponderati di carico e i prezzi relativi alle vendite dell'esercizio. Le commissioni di acquisto e vendita corrisposte alle controparti, qualora esplicitate sono imputate a costo nella voce "13. Altri Oneri" della Sezione Reddittuale della relazione di gestione.

Gli interessi e gli altri proventi su titoli, gli interessi sui depositi bancari, gli interessi sui prestiti, nonché gli oneri di gestione, vengono registrati secondo il principio della competenza temporale, mediante il calcolo, ove necessario, di ratei attivi e passivi.

I dividendi maturati su titoli azionari in portafoglio vengono registrati dal giorno della quotazione ex cedola, al netto della ritenuta d'imposta ove applicata.

Le sottoscrizioni e i rimborsi delle quote sono registrati a norma di Regolamento del Fondo, nel rispetto del principio della competenza temporale.

Criteri di valutazione

Il prezzo di valutazione dei titoli in portafoglio in ottemperanza a quanto disposto dalla normativa vigente è determinato sulla base dei seguenti parametri:

- i prezzi unitari utilizzati, determinati in base all'ultimo prezzo disponibile rilevato sul mercato di negoziazione, sono quelli del giorno di Borsa aperta al quale si riferisce il valore della quota;
- per i titoli di Stato italiani è l'ultimo prezzo rilevato sul Mercato Telematico (MOT) e, in mancanza di quotazione, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli obbligazionari quotati negoziati presso il Mercato Telematico (MOT) è il prezzo trade e, in mancanza di questo, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli quotati presso altri mercati regolamentati, è l'ultimo prezzo ufficiale disponibile entro le ore 24 italiane del giorno al quale si riferisce il valore della quota. Se il titolo è trattato su più mercati si applica la quotazione più significativa, tenuto conto anche delle quantità trattate e dell'operatività svolta dal Fondo. Nel caso in cui nel mercato di quotazione risultino contenuti gli scambi ed esistano elementi di scarsa liquidità, la valutazione tiene altresì conto del presumibile valore di realizzo determinabile anche sulla base delle informazioni reperibili su circuiti internazionali di

referimento oggettivamente considerate dai responsabili organi della SGR;

- per i titoli e le altre attività finanziarie non quotati, compresi quelli esteri, è il loro presumibile valore di realizzo sul mercato, individuato su un'ampia base di elementi di informazione - oggettivamente considerati dai responsabili organi della SGR - con riferimento alla peculiarità del titolo, alla situazione patrimoniale e reddituale degli emittenti, alla situazione del mercato e al generale andamento dei tassi di interesse;

- per le opzioni, i warrant e gli strumenti derivati trattati in mercati regolamentati è il prezzo di chiusura del giorno rilevato nel mercato di trattazione; nel caso di contratti trattati su più mercati è il prezzo più significativo, anche in relazione alle quantità trattate sulle diverse piazze e all'operatività svolta dal Fondo;

- per le opzioni, i warrant e gli strumenti derivati non trattati in mercati regolamentati è il valore corrente espresso dalla formula indicata dall'Organo di Vigilanza; qualora i valori risultassero incongruenti con le quotazioni espresse dal mercato, la SGR riconsidera il tasso d'interesse "risk free" e la volatilità utilizzati, al fine di ricondurne il risultato al presunto valore di realizzo;

- per la conversione in Euro delle valutazioni espresse in altre valute si applicano i relativi cambi correnti alla data di riferimento comunicati da WM Reuters. Le operazioni a termine in valuta sono convertite al tasso di cambio a termine corrente per scadenze corrispondenti a quelle delle operazioni oggetto di valutazione;

- per i titoli strutturati non quotati la valutazione viene effettuata procedendo alla valutazione distinta di tutte le singole componenti elementari in cui essi possono essere scomposti; per titoli strutturati si intendono quei titoli che incorporano una componente derivata e/o presentano il profilo di rischio di altri strumenti finanziari sottostanti. In particolare, non sono considerati titoli strutturati i titoli di Stato parametrati a tassi di interesse di mercato e i titoli obbligazionari di emissione societaria che prevedono il rimborso anticipato.

SEZIONE II - Le attività

Qui di seguito vengono riportati alcuni grafici che forniscono l'indicazione della composizione del portafoglio del Fondo alla chiusura dell'esercizio, ripartito in base alle aree geografiche verso cui sono orientati gli investimenti e in base ai settori economici di impiego delle risorse del Fondo.

Si riporta inoltre l'elenco analitico dei principali strumenti finanziari detenuti dal Fondo (i primi 50 o comunque tutti quelli che superano lo 0,5% delle attività del Fondo).

Aree geografiche verso cui sono orientati gli investimenti

Settori economici di impiego delle risorse del Fondo

Si segnala che le parti di OICR sono classificate all'interno del settore finanziario.

II.1 STRUMENTI FINANZIARI QUOTATI

Ripartizione degli strumenti finanziari quotati per Paese di residenza dell'emittente:

	Paesi di residenza dell'emittente			
	Italia	Paesi dell'UE	Altri paesi dell' OCSE	Altri paesi
Titoli di debito:				
- di Stato	326.401.911	383.890.692		
- di altri enti pubblici	1.909.278			
- di banche	95.917.900	321.442.092	47.336.905	
- di altri	56.492.845	273.295.731	75.366.881	1.910.766
Titoli di capitale:				
- con diritto di voto	5.021.900	41.246.445	286.319.593	2.698.227
- con voto limitato			532.473	
- altri				
Parti di OICR:				
- OICVM		32.453.137		58.499.581
- FIA aperti retail				1.112.106
- altri				
Totali:				
- in valore assoluto	485.743.834	1.052.328.097	409.555.852	64.220.680
- in percentuale del totale delle attività	22,6	49,1	19,1	3,0

Altri paesi: Hong Kong, Altri paesi.

Nel caso di quote di OICR, la ripartizione per paese di residenza dell'emittente è stata effettuata tenendo in considerazione i mercati prevalenti nei quali gli OICR investono.

Ripartizione degli strumenti finanziari quotati per mercato di quotazione:

	Mercato di quotazione			
	Italia	Paesi dell'UE	Altri paesi dell'OCSE	Altri paesi
Titoli quotati	340.072.511	1.286.767.140	379.207.488	5.801.324
Titoli in attesa di quotazione				
Totali:				
- in valore assoluto	340.072.511	1.286.767.140	379.207.488	5.801.324
- in percentuale del totale delle attività	15,9	59,9	17,7	0,3

Altri paesi - Borsa valori di: Hong Kong, Singapore SE.

Si segnala che, le quote di OICR, in accordo con quanto stabilito dal Regolamento della Banca d'Italia, sono ricondotte tra gli strumenti finanziari quotati. La ripartizione per mercato di quotazione, in tal caso, viene effettuata in base al paese di residenza della SGR che li ha istituiti.

Movimenti dell'esercizio:

	Controvalore acquisti	Controvalore vendite/rimborsi
Titoli di debito:		
- titoli di Stato	415.921.487	562.732.908
- altri	191.891.599	247.733.672
Titoli di capitale	70.421.001	158.776.179
Parti di OICR	169.465.927	245.397.058
Totale	847.700.014	1.214.639.817

Si segnala che, nella presente tabella non sono evidenziate le eventuali riclassifiche avvenute nel corso dell'esercizio tra strumenti finanziari quotati e non quotati, in quanto non costituiscono effettivi movimenti di portafoglio.

II.2 STRUMENTI FINANZIARI NON QUOTATI

Movimenti dell'esercizio:

	Controvalore acquisti	Controvalore vendite/rimborsi
Titoli di debito:		
- titoli di Stato		
- altri		
Titoli di capitale	19.189	29.769
Parti di OICR		
Totale	19.189	29.769

Si segnala che, nella presente tabella non sono evidenziate le eventuali riclassifiche avvenute nel corso dell'esercizio tra strumenti finanziari quotati e non quotati, in quanto non costituiscono effettivi movimenti di portafoglio.

II.3 TITOLI DI DEBITO

1) Elenco titoli strutturati detenuti in portafoglio.

Risultano in portafoglio i seguenti titoli strutturati:

Descrizione	Divisa	Valore Nominale	Controvalore Euro	Caratteristiche	% su portafoglio
EU 5 06/28	EUR	4.000.000	3.695.440	CALL/STRUCTNT	0,2
BTPS 1.8 05/36	EUR	16.300.000	16.515.287	INDEX LINKED	0,8

2) Duration modificata per valuta di denominazione.

Qui di seguito si riporta la ripartizione dei titoli di debito e degli strumenti finanziari derivati con sottostanti titoli di debito o tassi di interesse, in funzione della valuta di denominazione e della durata finanziaria (duration) modificata:

Valuta	Duration in anni		
	minore o pari ad 1	compresa tra 1 e 3,6	maggiore di 3,6
Euro	519.188.167	1.190.171.588	398.198.005
Dollaro Statunitense		106.187.337	82.030.596
Sterlina Regno Unito			20.667.071

II.4 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizioni creditorie:

Valore patrimoniale degli strumenti finanziari derivati			
	Margini	Strumenti finanziari quotati	Strumenti finanziari non quotati
Operazioni su tassi di interesse:			
- future su titoli di debito, tassi e altri contratti simili			
- opzioni su tassi e altri contratti simili			
- swap e altri contratti simili			141.117
Operazioni su tassi di cambio:			
- future su valute e altri contratti simili			
- opzioni su tassi di cambio e altri contratti simili

II.8 POSIZIONE NETTA DI LIQUIDITÀ

La posizione netta di liquidità è composta dalle seguenti sottovoci:

Descrizione	Importo
Liquidità disponibile	110.367.162
- Liquidità disponibile in euro	87.403.325
- Liquidità disponibile in divisa estera	22.963.837
Liquidità da ricevere per operazioni da regolare	169.736.309
- Vendite di strumenti finanziari	689.272
- Vend/Acq di divisa estera a termine	167.547.626
- Margini di variazione da incassare	1.499.411
Liquidità impegnata per operazioni da regolare	-169.307.655
- Acquisti di strumenti finanziari	-260.000
- Acq/Vend di divisa estera a termine	-168.084.559
- Margini di variazione da versare	-963.096
Totale posizione netta di liquidità	110.795.816

II.9 ALTRE ATTIVITÀ

Le altre attività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Ratei attivi	16.739.883
- Su liquidità disponibile	491.712
- Su titoli di debito	16.241.844
- Su contratti CSA	6.327
Altre	1.424.969
- Dividendi da incassare	244.969
- Contratti CSA	1.180.000
Totale altre attività	18.164.852

La voce “Contratti CSA” si riferisce ai crediti iscritti a fronte della liquidità versata a garanzia dell'operatività in strumenti finanziari derivati sulla base di Credit Support Annex (CSA) stipulati.

SEZIONE III - Le passività

III.1 FINANZIAMENTI RICEVUTI

Il Fondo ricorre a forme di finanziamento rappresentate da affidamenti temporanei di conto corrente concessi dal Depositario che non risultano essere utilizzati a fine esercizio e a forme di indebitamento a vista con Intesa Sanpaolo S.p. A., al fine di far fronte ad una dilazione temporale nel versamento dei margini di variazione relativi a operazioni in strumenti finanziari derivati su mercati regolamentati.

III.4 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizione debitorie:

Valore patrimoniale degli strumenti finanziari derivati		
	Strumenti finanziari quotati	Strumenti finanziari non quotati
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili		
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili		40.581
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili		
Altre operazioni: - future - opzioni - swap		

Tipologia dei contratti	Controparte dei contratti				
	Banche Italiane	SIM	Banche e imprese di investimento di paesi OCSE	Banche e imprese di investimento di paesi non OCSE	Altre controparti
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili					
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili			40.581		
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili					
Altre operazioni : - future - opzioni - swap					

III.5 DEBITI VERSO PARTECIPANTI

I debiti verso partecipanti sono così dettagliabili:

Descrizione	Data estinzione debito	Importi
Rimborsi richiesti e non regolati		1.388,086
-	31/12/2024	1.386,409
-	03/01/2025	781
-	06/01/2025	896
Proventi da distribuire		120
-	30/12/2024	120
Totale debiti verso i partecipanti		1.388,206

III.6 ALTRE PASSIVITÀ

Le altre passività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Provvigioni ed oneri maturati e non liquidati	1.854.247
- Commissioni Depositario, custodia e amministrazione titoli	26.512
- Provvigioni di gestione	1.771.216
- Commissione calcolo NAV	29.219
- Commissioni di tenuta conti liquidità	22.097
- Ratei passivi su CSA	5.203
Altre	1.012.119
- Società di revisione	40.494
- Contratti CSA	940.000
- Spese per pubblicazione	31.625
Totale altre passività	2.866.366

La voce "Contratti CSA" si riferisce a debiti iscritti a fronte della liquidità ricevuta a garanzia dell'operatività in strumenti finanziari derivati sulla base di Credit Support Annex stipulati.

SEZIONE IV - Il Valore Complessivo Netto

1) Le quote in circolazione a fine periodo detenute da investitori qualificati risultano in numero di 159.072 pari a 0,08% delle quote in circolazione alla data di chiusura.

2) Le quote in circolazione a fine periodo detenute da soggetti non residenti risultano in numero di 1.257.822 pari a 0,65% delle quote in circolazione alla data di chiusura.

3) Le componenti che hanno determinato la variazione della consistenza del patrimonio netto tra l'inizio e la fine del periodo sono qui di seguito riportate:

Variazioni del patrimonio netto				
		Anno 2024	Anno 2023	Anno 2022
Patrimonio netto a inizio periodo		2.339.442.154	2.334.439.088	2.308.923.704
Incrementi:	a) sottoscrizioni:	353.895.803	481.078.788	769.739.032
	- sottoscrizioni singole	169.730.006	150.223.075	541.230.274
	- piani di accumulo	85.870.981	92.788.174	96.763.037
	- switch in entrata	98.294.816	238.067.539	131.745.721
	b) risultato positivo della gestione	76.417.503	129.450.654	
Decrementi:	a) rimborsi:	628.795.316	605.526.376	507.133.562
	- riscatti	528.465.123	530.059.275	463.416.701
	- piani di rimborso	1.831.356	3.669.773	6.092.096
	- switch in uscita	98.498.837	71.797.328	37.624.765
	b) proventi distribuiti			
	c) risultato negativo della gestione			237.090.086
Patrimonio netto a fine periodo		2.140.960.144	2.339.442.154	2.334.439.088

SEZIONE V - Altri dati patrimoniali

V.1 IMPEGNI ASSUNTI DAL FONDO A FRONTE DI STRUMENTI FINANZIARI DERIVATI E ALTRE OPERAZIONI A TERMINE

Si riporta il dettaglio degli impegni assunti dal Fondo a fronte di strumenti derivati in essere alla data di chiusura:

	Ammontare dell'impegno	
	Valore assoluto	% del Valore Complessivo Netto
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili	732.477.763	34,2
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili	23.734.876 147.139.269	1,1 6,9
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili		
Altre operazioni: - future e contratti simili - opzioni e contratti simili - swap e contratti simili		

Si ricorda che la normativa vigente richiede che l'ammontare degli impegni di cui sopra assunti dal Fondo non sia superiore al valore complessivo netto del Fondo stesso.

V.2 AMMONTARE DELLE ATTIVITÀ E PASSIVITÀ NEI CONFRONTI DI ALTRE SOCIETÀ DEL GRUPPO INTESA SANPAOLO

Le attività e passività in essere a fine periodo nei confronti delle altre società appartenenti al Gruppo Intesa Sanpaolo sono le seguenti:

	EURIZON CAPITAL SA	INTESA SANPAOLO SPA	EURIZON INVEST. SICAV	Altre società del gruppo
Strumenti finanziari detenuti (Incidenza % sul portafoglio)	71.633.878 3,6	32.510.430 1,6	16.263.639 0,8	3.055.200 0,2
Strumenti finanziari derivati		3.956.317		
Depositi bancari				
Altre attività		24.740.504		
Finanziamenti ricevuti				
Altre passività				
Garanzie e impegni				

V.3 COMPOSIZIONE DELLE POSTE PATRIMONIALI DEL FONDO PER DIVISA DI DENOMINAZIONE

Le poste patrimoniali alla fine del periodo erano così ripartite per divisa di denominazione:

	ATTIVITÀ				PASSIVITÀ		
	Strumenti finanziari	Depositi bancari	Altre attività	TOTALE	Finanziamenti ricevuti	Altre passività	TOTALE
Dollaro Australiano	1.644.579		456.110	2.100.689			
Dollaro Canadese	15.813.101		603.468	16.416.569			
Franco Svizzero	4.688.057		116.714	4.804.771			
Renminbi Cina			535	535			
Corona Ceca			284	284			
Corona Danese	8.672.382		77.822	8.750.204			
Euro	1.711.730.201		40.883.740	1.752.613.941		4.295.153	4.295.153
Sterlina Regno Unito	12.267.517		723.585	12.991.102			
Dollaro Hong Kong	2.698.227		808.771	3.506.998			
Yen Giapponese	25.205.450		27.384.773	52.590.223			
Peso Messicano			17	17			
Corona Norvegese			42.137.457	42.137.457			
Dollaro Neozelandese			3.462	3.462

Dollaro Statunitense	233.575.115		56.120.982	289.696.097			
TOTALE	2.016.294.629		128.960.668	2.145.255.297		4.295.153	4.295.153

Parte C - Il risultato economico dell'esercizio

SEZIONE I - Strumenti finanziari quotati e non quotati e relative operazioni di copertura

I.1 RISULTATO DELLE OPERAZIONI SU STRUMENTI FINANZIARI

Il risultato delle operazioni del periodo è così dettagliabile:

Risultato complessivo delle operazioni su:	Utile/perdita da realizzi	di cui: per variazioni dei tassi di cambio	Plus / minusvalenze	di cui: per variazioni dei tassi di cambio
A. Strumenti finanziari quotati	27.699.004	3.006.801	78.594.488	10.667.947
1. Titoli di debito	8.320.490	-251.808	27.482.986	
2. Titoli di capitale	17.887.921	3.044.139	46.863.353	10.703.353
3. Parti di OICR	1.490.593	214.470	4.248.149	-35.406
- OICVM	1.490.984	214.454	4.296.686	
- FIA	-391	16	-48.537	-35.406
B. Strumenti finanziari non quotati	-450	-475		
1. Titoli di debito				
2. Titoli di capitale	-450	-475		
3. Parti di OICR				

I.2 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizione debitorie:

Risultato degli strumenti finanziari derivati				
	Con finalità di copertura (sottovoci A4 e B4)		Senza finalità di copertura (sottovoci C1 e C2)	
	Risultati realizzati	Risultati non realizzati	Risultati realizzati	Risultati non realizzati
Operazioni su tassi di interesse	1.757.141		-17.649.043	141.117
- future su titoli di debito, tassi e altri contratti simili	1.757.141		-18.089.875	
- opzioni su tassi e altri contratti simili				
- swap e altri contratti simili			440.832	141.117
Operazioni su titoli di capitale	-2.027.080		-15.117.632	
- future su titoli di capitale, indici azionari e contratti simili	-1.763.439		-14.458.172	
- opzioni su titoli di capitale e altri contratti simili	-263.641		-659.460	
- swap e altri contratti simili				
Altre operazioni	5.063.124		-8.169.850	
- future			36	
- opzioni			-1.448.135	
- swap	5.063.124		-6.721.751	

SEZIONE III - Altre operazioni di gestione e oneri finanziari

III.2 RISULTATO DELLA GESTIONE CAMBI

Le differenze di cambio derivanti dalla gestione della liquidità in valuta sono di seguito dettagliate:

Risultato della gestione cambi		
	Risultati realizzati	Risultati non realizzati
OPERAZIONI DI COPERTURA		
Operazioni a termine	-10.704.403	-107.815
Strumenti finanziari derivati su tassi di cambio		76.487
- future su valute e altri contratti simili		
- opzioni su tassi di cambio e altri contratti simili		76.487
- swap e altri contratti simili		
OPERAZIONI NON DI COPERTURA		
Operazioni a termine	2.991.295	-429.119
Strumenti finanziari derivati su tassi di cambio	-1.673.608	692
- future su valute e altri contratti simili		
- opzioni su tassi e altri contratti simil	-1.673.608	692
- swap e altri contratti simili		
LIQUIDITÀ	-120.488	61.904

III.3 INTERESSI PASSIVI SU FINANZIAMENTI RICEVUTI

Gli interessi passivi addebitati al Fondo nell'esercizio sono così dettagliabili:

Descrizione	Importi
Interessi passivi per scoperti di : - c/c denominati in Dollaro Australiano	-2
Interessi passivi per scoperti di : - c/c denominati in Dollaro Canadese	-3
Interessi passivi per scoperti di : - c/c denominati in Euro	-630
Interessi passivi per scoperti di : - c/c denominati in Sterlina Regno Unito	-78
Interessi passivi per scoperti di : - c/c denominati in Yen Giapponese	-116
Interessi passivi per scoperti di : - c/c denominati in Dollaro Statunitense	-5.553
Totale interessi passivi su finanziamenti ricevuti	-6.382

III.4 ALTRI ONERI FINANZIARI

Gli altri oneri finanziari addebitati al Fondo nell'esercizio sono così dettagliabili:

Descrizione	Importi
Interessi negativi su saldi creditori	-10.226
Totale altri oneri finanziari	-10.226

SEZIONE IV - Oneri di gestione

IV.1 COSTI SOSTENUTI NEL PERIODO

I costi sostenuti nel complesso dal Fondo nell'esercizio sono così dettagliati:

ONERI DI GESTIONE	Importi complessivamente corrisposti				Importi corrisposti a soggetti del gruppo di appartenenza della SGR			
	Importo (migliaia di Euro)	% sul valore complessivo netto	% su valore dei beni negoziati	% su valore del finanziamento	Importo (migliaia di Euro)	% sul valore complessivo netto	% su valore dei beni negoziati	% su valore del finanziamento
1) Provvigioni di gestione - provvigioni di base	21.706 21.706	0,98 0,98						
2) Costo per il calcolo del valore della quota	355	0,02						
3) Costi ricorrenti degli OICR in cui il fondo investe								
3) Costi ricorrenti degli OICR in cui il fondo investe(*1)								
3) Costi ricorrenti degli OICR in cui il fondo investe(*1)(*2)								
4) Compenso del depositario	590	0,03						
5) Spese di revisione del fondo	41	0,00						
6) Spese legali e giudiziarie								
7) Spese di pubblicazione del valore della quota	34	0,00						
8) Altri oneri gravanti sul fondo - contributo di vigilanza - commissioni varie - commissioni di garanzia	4 4	0,00 0,00						
9) Commissioni di collocamento								
COSTI RICORRENTI TOTALI (SOMMA DA 1 A 9)	22.730	1,03						
10) Commissioni di performance (già provvig. di incentivo)								
11) Oneri di negoziazione di strumenti finanziari di cui: - su titoli azionari - su titoli di debito - su derivati - su OICR - Commissioni su C/V Divise Estere - Commissioni su prestito titoli	106 126	 0,00	0,05 0,00		 114	 0,00		
12) Oneri finanziari per i debiti assunti dal fondo	6			2,48				
13) Oneri fiscali di pertinenza del fondo	2	0,00						
TOTALE SPESE (SOMMA DA 1 A 13)	22.970	1,03			114	0,00		

- (*1) I costi ricorrenti degli OICR sono di natura extracontabile e sono conformi alle Linee Guida del CESR/10-674

A fronte dell'attività di promozione e collocamento nonché dell'attività di assistenza fornita in via continuativa nei confronti dei partecipanti ai Fondi, anche nelle operazioni successive alla prima sottoscrizione e, laddove previsto, a fronte del servizio di consulenza, ai collocatori del Fondo sono stati riconosciuti i seguenti compensi:

- una quota parte degli importi percepiti dalla SGR a titolo di provvigioni di gestione, in media pari all'82,6%, corrispondente ad un importo di 17.940 migliaia di euro.

Si precisa che gli oneri di negoziazione su strumenti finanziari, sostenuti nell'esercizio e riportati al punto 11) della presente tabella, consistono nelle commissioni di negoziazione esplicitate dalle controparti. In caso contrario, tali oneri accessori risultano già inclusi nel prezzo di acquisto o vendita.

IV.3 REMUNERAZIONI

Le Politiche di remunerazione e incentivazione della SGR sono state predisposte sulla base delle Politiche di Remunerazione del Gruppo Intesa Sanpaolo e, per quanto non in contrasto, non disciplinato o più restrittivo della normativa del settore bancario, nel rispetto delle disposizioni europee e nazionali che regolamentano il settore del Risparmio Gestito.

Al riguardo, la SGR elabora ed attua politiche e prassi di remunerazione ed incentivazione coerenti con le proprie caratteristiche, la propria dimensione e quella degli OICR gestiti, l'organizzazione interna, la natura, la portata e la complessità delle attività. L'applicazione dei sistemi di incentivazione per il personale della SGR è subordinata alle seguenti condizioni: (i) di attivazione a livello di Gruppo Intesa Sanpaolo e della SGR; (ii) di "finanziamento" previste dai connessi meccanismi a livello di Gruppo e della SGR, nonché (iii) di accesso individuale.

Tali condizioni sono ispirate ai principi di sostenibilità finanziaria della componente variabile dei compensi e rappresentate dalla verifica della "qualità" dei risultati reddituali raggiunti e della coerenza con i limiti previsti nell'ambito del quadro di riferimento per la determinazione della propensione al rischio del Gruppo Intesa Sanpaolo.

Nel dettaglio, la struttura della retribuzione variabile prevede modalità di erogazione differenziate in funzione del ruolo ricoperto (ad esempio nel caso del cd. "personale più rilevante") e del rapporto tra retribuzione variabile e fissa che prevede l'applicazione dei requisiti più stringenti della regolamentazione comunitaria, nazionale e di Gruppo, tra cui: (i) il differimento, ovvero la corresponsione della retribuzione variabile negli anni successivi a quello di maturazione; (ii) l'assegnazione di parte in contanti e parte in strumenti finanziari; (iii) la previsione di un meccanismo di mantenimento degli strumenti finanziari assegnati; (iv) la previsione di meccanismi di correzione che prevedano la riduzione parziale e/o totale della retribuzione variabile ovvero la restituzione dei premi già corrisposti. Sono, inoltre, vietate eventuali strategie di copertura personale o assicurazioni sulla remunerazione che possano alterare gli effetti di allineamento al rischio insiti nei meccanismi di remunerazione.

Con specifico riferimento alla filiera dei gestori, la definizione della remunerazione variabile viene effettuata tenendo conto del profilo di rischio/rendimento dei diversi patrimoni gestiti al fine di orientare e premiare le migliori performance e al tempo stesso allineare i sistemi incentivanti agli interessi degli investitori. La valutazione delle performance viene effettuata sulla base del livello di professionalità e della tipologia e complessità delle attività gestite. Oltre a tali valutazioni, è inoltre considerato il livello di raggiungimento di prestazioni qualitative di tipo discrezionale e/o progettuale, che rafforzano l'orientamento del singolo a obiettivi di lungo termine e verso performance sostenibili.

Le politiche di remunerazione e incentivazione della SGR sono altresì coerenti con le previsioni in tema di integrazione dei rischi di sostenibilità ai sensi del Regolamento UE 2019/2088.

Ciò posto, si forniscono le seguenti informazioni relative all'applicazione delle Politiche di remunerazione relative all'esercizio 2023:

- la remunerazione totale del personale della SGR è risultata pari a 59,8 milioni di euro, di cui 41,0 milioni di euro riconducibili alla componente fissa e 18,9 milioni di euro alla componente variabile liquidata. Al 31 dicembre 2023 il personale della SGR era composto da n. 531 dipendenti;
- la remunerazione totale del personale complessivamente coinvolto, anche in via non esclusiva, nella gestione delle attività del Fondo è risultata complessivamente pari a 1,7 milioni di euro, di cui 1,2 milioni di euro riconducibili alla componente fissa e 0,5 milioni di euro alla componente variabile;
- la remunerazione totale del personale più rilevante della SGR, ammonta complessivamente a 13,1 milioni di euro. La stessa risulta essere suddivisa tra le seguenti categorie di "personale più rilevante" di seguito indicate:
 - i) membri esecutivi e non esecutivi del Consiglio di Amministrazione, per complessivi 3,0 milioni di euro;
 - ii) i soggetti che riportano direttamente al vertice aziendale, nonché coloro i quali riportano direttamente al Consiglio di Amministrazione, all'Amministratore Delegato e al Collegio Sindacale, per complessivi 3,8 milioni di euro;
 - iii) personale appartenente alle funzioni aziendali di controllo, per complessivi 0,9 milioni di euro;
 - iv) altri soggetti che, individualmente o collettivamente, assumono rischi in modo significativo per la SGR o per i Fondi gestiti, per complessivi 5,2 milioni di euro;
 - v) altri soggetti la cui remunerazione totale si collochi nella medesima fascia retributiva delle categorie sub ii) e iv), per complessivi 0,2 milioni di euro;
- la proporzione della remunerazione totale del personale attribuibile al Fondo è pari al 2,2% del costo del personale coinvolto nella gestione del Fondo, cui corrisponde un numero medio di beneficiari pari a 13,4;
- le informazioni relative alle remunerazioni sono state determinate sulla base della contabilità industriale della SGR utilizzando i dati del Bilancio d'esercizio; gli esiti del riesame periodico svolto dal Consiglio di Amministrazione hanno riscontrato la rispondenza delle prassi operative seguite nella determinazione del sistema incentivante rispetto alle Politiche deliberate dagli Organi aziendali e alle disposizioni normative e di Gruppo in materia; non si evidenziano modifiche sostanziali rispetto alle Politiche di Remunerazione valide per il periodo precedente.

La sintesi delle Politiche di remunerazione e incentivazione della SGR è disponibile nel sito internet della SGR.

SEZIONE V - Altri ricavi ed oneri

Si riportano qui di seguito i dettagli delle voci interessi attivi su disponibilità liquide, altri ricavi e altri oneri:

Descrizione	Importi
Interessi attivi su disponibilità liquide	2.242.801
- C/C in Euro	1.671.127
- C/C in Dollaro Statunitense	526.516
- C/C in Sterlina Regno Unito	41.748
- C/C in Dollaro Canadese	1.961
- C/C in Dollaro Australiano	908
- C/C in Franco Svizzero	519
- C/C in Dollaro Neozelandese	15
- C/C in Yen Giapponese	7
Altri ricavi	207.556
- Interessi attivi su CSA	170.650
- Claims attivi	126
- Sopravvenienze attive	30.968
- Ricavi vari	5.812
Altri oneri	-346.296
- Commissione su contratti regolati a margine	-126.464
- Commissione su operatività in titoli	-106.466
- Interessi passivi e spese su CSA	-82.560
- Spese bancarie	-20.657
- Sopravvenienze passive	-7.820
- Spese varie	-2.329
Totale	2.104.061

SEZIONE VI - Imposte

Si riporta qui di seguito il riepilogo delle imposte del Fondo nell'esercizio rappresentate principalmente da imposte su titoli di capitale (c.d. Tobin tax), bolli su titoli di debito, bolli su OICR esteri e ritenute fiscali su c/c:

Descrizione	Importi
Altre imposte	-2.180
Totale imposte	-2.180

Parte D - Altre informazioni

1. OPERATIVITÀ POSTA IN ESSERE PER LA COPERTURA DEI RISCHI DI PORTAFOGLIO

Si riportano qui di seguito i dati riepilogativi dell'operatività posta in essere per la copertura dei rischi di portafoglio:

Concluse alla chiusura del periodo:

Descrizione	Sottostante	Divisa	Quantità
FUTURES SU TITOLI DELLO STATO	BTPS 23/11.33 4.35%	EUR	945
FUTURES SU TITOLI DELLO STATO	BTPS 23/11.33 4.35%	EUR	2.300
FUTURES SU TITOLI DELLO STATO	BTPS 23/11.33 4.35%	EUR	2.294
FUTURES SU TITOLI DELLO STATO	BTPS 23/11.33 4.35%	EUR	1.584

2. INFORMAZIONE SUGLI ONERI DI INTERMEDIAZIONE

Nell'esercizio sono stati corrisposti oneri di intermediazione esplicitati dalle controparti e relativi ad operazioni effettuate in strumenti finanziari. Tali oneri sono stati così riconosciuti alle seguenti categorie di intermediari:

	Soggetti non appartenenti al gruppo	Soggetti appartenenti al gruppo	Totale
Banche italiane SIM	50	114.127	114.177
Banche e imprese di investimento estere	61.196		61.196
Altre controparti	57.557		57.557

3. INFORMAZIONE SULLE UTILITÀ RICEVUTE

La SGR assorbe direttamente i costi connessi alla ricerca in materia di investimenti relativi ai prodotti gestiti al fine di mantenere inalterato il livello di qualità e di valore per tutti gli investitori, evitando di addebitare tali oneri al patrimonio gestito.

La SGR considera comunque ammissibili le seguenti tipologie di benefici non monetari di minore entità:

- le informazioni o la documentazione relativa a uno strumento finanziario o a un servizio di investimento di natura generica ovvero personalizzata in funzione di uno specifico cliente;
- il materiale scritto da terzi, commissionato e pagato da un emittente societario o da un emittente potenziale per promuovere una nuova emissione da parte della società, o quando l'intermediario è contrattualmente impegnato e pagato dall'emittente per produrre tale materiale in via continuativa, purché il rapporto sia chiaramente documentato nel materiale e quest'ultimo sia messo a disposizione di qualsiasi intermediario che desideri riceverlo o del pubblico in generale nello stesso momento;
- partecipazione a convegni, seminari e altri eventi formativi sui vantaggi e sulle caratteristiche di un determinato strumento finanziario o servizio di investimento;
- ospitalità di un valore de minimis ragionevole, come cibi e bevande nel corso di un incontro di lavoro o di una conferenza, seminario o altri eventi di formazione di cui alla lettera c).

5. TURNOVER

Il tasso di movimentazione del portafoglio del Fondo (c.d. turnover), espresso dal rapporto percentuale tra la somma degli acquisti e delle vendite di strumenti finanziari, al netto delle sottoscrizioni e rimborsi delle quote del Fondo, e il patrimonio netto medio del Fondo, nell'esercizio è stato pari a 48,8%.

TRASPARENZA DELLE OPERAZIONI DI FINANZIAMENTO TRAMITE TITOLI (SFT) E TOTAL RETURN SWAP ED EVENTUALE RIUTILIZZO

Con riferimento all'obbligo previsto dall'art. 13 comma 1 lett. a. del Regolamento UE 2015/2365 (Regolamento SFT) sulla trasparenza delle operazioni di finanziamento tramite titoli e dei total return swap, si informa che il Fondo non presenta posizioni in essere, relative a operazioni di Prestito titoli, Pronti contro termine, Repurchase transaction e Total return swap, alla data di riferimento della presente relazione e non ha fatto ricorso a tali operazioni nel periodo di riferimento della stessa.

Pertanto non sono rappresentate le informazioni previste alla sezione A dell'allegato del citato Regolamento UE.

Allegato - Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario.

Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario.

Nome prodotto: EURIZON DIVERSIFICATO ETICO

Identificativo dell'Entità giuridica: 549300C5CCRMRXN6HX79

Caratteristiche ambientali e/o sociali**PARTE I***Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?*☐ **SI**

- ☐ ha effettuato investimenti sostenibili con un obiettivo ambientale: _%
- ☐ in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'Unione Europea (UE)
- ☐ in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE
- ☐ ha effettuato investimenti sostenibili con un obiettivo sociale: _%

☒ **NO**

- ☒ ha promosso caratteristiche Ambientali/Sociali (A/S) e, pur non avendo come obiettivo un investimento sostenibile, aveva una quota del(lo) 45,28% di investimenti sostenibili:
 - ☐ con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'Unione Europea (UE)
 - ☒ con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE
 - ☒ con un obiettivo sociale
- ☐ ha promosso caratteristiche A/S, ma non ha effettuato alcun investimento sostenibile

PARTE II

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Il Fondo ha integrato fattori ambientali, sociali e di buon governo societario (cd. fattori "ESG") nell'analisi, selezione e composizione degli investimenti, con la finalità di conseguire un punteggio (cd. "Score ESG"), calcolato a livello complessivo di portafoglio come media ponderata degli Score ESG dei singoli emittenti, superiore a quello del relativo parametro di riferimento (benchmark). In considerazione della peculiarità e dell'eterogeneità dei singoli investimenti effettuati dal Fondo, la selezione degli emittenti è avvenuta sulla base del Score ESG complessivo dell'emittente e non per singola caratteristica ambientale e/o sociale promossa.

Inoltre, il Fondo ha promosso caratteristiche ambientali e sociali investendo in emittenti coerenti con i criteri negativi e/o positivi dettagliati nella documentazione di offerta.

Con riferimento alle caratteristiche ambientali e/o sociali promosse dal Fondo si riportano, per ciascuna di esse, i principali indicatori di sostenibilità scelti per misurarne il rispetto:

Limitazione gas ad effetto Serra

"ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti degli strumenti finanziari in portafoglio. La limitazione delle emissioni di gas a effetto serra è un indicatore considerato nell'ambito dello Score ESG. (ESG Score Integration)

- Assenza di investimenti in imprese che derivano (i) almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (ii) almeno il 10% del fatturato derivante da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands), contribuendo così a limitare le emissioni di gas a effetto serra. (Esclusioni SRI)

Rispetto dei diritti umani

- Assenza di investimenti in società caratterizzate da un evidente coinvolgimento diretto nella manifattura di armi non convenzionali (Mine antiuomo; Bombe a grappolo; Armi nucleari; Uranio impoverito; Armi biologiche; Armi chimiche; Armi a frammentazione invisibile; Laser accecanti; Armi incendiarie; Fosforo bianco). (Esclusioni SRI)

Conservazione e ripristino della biodiversità, utilizzo di energia rinnovabile, utilizzo e provenienza di materie prime, gestione dei rifiuti

- Assenza o limitazione di investimenti in emittenti considerati "critici", ovvero quelle società caratterizzate da una più elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano un livello di rating di sostenibilità ESG più basso nell'universo di investimento. (Esclusioni ESG)

"ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti gli strumenti finanziari in portafoglio. La conservazione e ripristino della biodiversità, l'utilizzo di energia rinnovabile, l'utilizzo e provenienza delle materie prime e la gestione dei rifiuti sono indicatori considerati nell'ambito dello Score ESG. (ESG Score Integration)

Contrasto delle disuguaglianze sociali, relazioni con il personale, investimenti nel capitale umano e parità di genere nell'organo amministrativo

"ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti gli strumenti finanziari in portafoglio. Il contrasto delle disuguaglianze sociali, le relazioni con il personale, gli investimenti nel capitale umano e la parità di genere nell'organo amministrativo sono indicatori considerati nell'ambito dello Score ESG. (ESG Score Integration)

- Assenza o limitazione di investimenti in emittenti considerati "critici", ovvero quelle società caratterizzate da una più elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano un livello di rating di sostenibilità ESG più basso nell'universo di investimento. (Esclusioni ESG)

Il Fondo ha investito in strumenti finanziari di natura obbligazionaria/monetaria:

(i) finalizzati al finanziamento di progetti aventi un positivo impatto ambientale, come energie rinnovabili, efficienza energetica, prevenzione dell'inquinamento, trasporto pulito, gestione delle acque, economia circolare, protezione della biodiversità, edilizia a basso impatto ambientale (c.d. green/sustainability bond o obbligazioni verdi/sostenibili) o
(ii) emessi da società attivamente coinvolte nel processo della transizione energetica, che abbiano almeno dichiarato l'impegno di voler raggiungere zero emissioni nette (Scopo 1 ovvero le emissioni dirette derivanti da fonti di proprietà o controllate dall'azienda e Scopo 2 ovvero le emissioni indirette generate dall'energia acquistata e consumata dall'azienda) entro il 2050 (cd. obiettivo "Net Zero").

Il Fondo ha, altresì, investito in strumenti finanziari di natura azionaria oggetto di investimento emessi da società impegnate pubblicamente nel processo della transizione energetica, in particolare attraverso la progressiva riduzione delle emissioni di Scopo 1 e Scopo 2 fino a raggiungere la neutralità climatica entro il 2050 (cd. obiettivo "Net Zero").

In particolare, le azioni oggetto di investimento sono emesse da società che devono attuare, o stanno già attuando, percorsi di decarbonizzazione misurabili tramite target di breve, medio e lungo periodo ed investimenti volti ad allineare il modello di business all'impegno dichiarato.

Qual è stata la prestazione degli indicatori di sostenibilità?

Indicatore di sostenibilità	Descrizione	2024-12-31
Esclusioni "SRI"	Il peso degli emittenti operanti in settori ritenuti non "socialmente responsabili", (i) quelle società caratterizzate da un evidente coinvolgimento diretto nella manifattura di armi non convenzionali, (ii) le società che derivano almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (iii) le società che derivano almeno il 10% del fatturato da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands).	0,00%
Esclusioni "ESG"	Il peso degli emittenti con un'elevata esposizione a rischi ESG (cd. "emittenti critici"), ossia quelle società caratterizzate da una elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano il livello di rating di sostenibilità ESG più basso, pari a "CCC", assegnato dall'info-provider specializzato "MSCI ESG Research".	0,00%
Thematic Integration	Il peso ponderato degli emittenti che risultano rispettare gli specifici criteri di selezione positivi previsti dal Prodotto.	76,33%
ESG Score Integration	Lo "score ESG" del prodotto/componente di portafoglio è calcolato dalla SGR sulla base di specifici datapoint dell'infoprovder MSCI ESG Research per ogni tipologia di strumento (es. titoli corporate, governativi, OICR). Tali valori sono successivamente aggregati attraverso una media ponderata tra i pesi dei singoli titoli e i corrispondenti Score ESG. Le medesime logiche sono utilizzate ai fini del calcolo dello score del benchmark del prodotto. Lo Score ESG viene calcolato giornalmente anche a supporto del processo di controllo dei limiti di investimento che prevede sia un controllo ex-ante in fase di predisposizione degli ordini sia ex-post in fase di valorizzazione dei portafogli.	Prodotto: 7,65 Benchmark: 7,42 L'ESG score viene calcolato su una scala da 0 a 10

Il prodotto finanziario promuove l'interazione proattiva nei confronti delle società emittenti sia mediante l'esercizio dei diritti di intervento e di voto sia mediante il confronto con le società partecipate, incoraggiando un'efficace comunicazione con il management delle società.

Thematic Integration		

Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario in parte ha realizzato e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?

La SGR ha adottato una metodologia di selezione degli investimenti sostenibili basata sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite (SDG). In particolare, tale metodologia permette di selezionare gli emittenti le cui attività contribuiscono ad uno o più Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite (cd. "Sustainable Development Goals" o "SDG"), sia attraverso i propri prodotti/servizi sia con riguardo allo svolgimento dei propri processi operativi, a condizione che detti investimenti non arrechino un danno significativo ad alcuno degli obiettivi ambientali o sociali stabiliti nel Regolamento (UE) 2019/2088 e che le imprese che beneficiano di tali investimenti rispettino prassi di buona governance.

Gli Obiettivi di Sviluppo Sostenibile si pongono l'obiettivo di favorire uno sviluppo globale più consapevole e duraturo; nello specifico tali obiettivi ricomprendono, tra gli altri: il contrasto della povertà e della fame, il diritto alla salute, al lavoro e all'istruzione, la parità di genere e la riduzione delle disuguaglianze, l'accesso all'acqua e all'energia, l'urbanizzazione e la promozione di infrastrutture resilienti, il contrasto del cambiamento climatico e la tutela dell'ambiente inclusi la preservazione degli ecosistemi marini e terrestri.

La porzione minima di investimenti sostenibili è calcolata come il peso ponderato degli emittenti che risultano avere, con riferimento ai propri prodotti/servizi e processi produttivi: (i) un allineamento netto positivo ad almeno uno dei 17 SDG e (ii) nessun disallineamento netto nei confronti di alcuno dei 17 SDG a cui si somma l'eventuale peso ponderato di obbligazioni con proventi destinati al finanziamento di progetti ambientali e/o sociali. Nello specifico, la contribuzione ad uno o più SDG tiene conto di selezionate metriche quantitative e qualitative, tra cui l'esposizione a controversie, che contribuiscono ad evidenziare eventuali impatti avversi causati dall'emittente.

In che modo gli investimenti sostenibili che il prodotto finanziario in parte ha realizzato non hanno arrecato danno significativo a nessun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?

La misurazione della contribuzione di un emittente ad uno o più Obiettivi di Sviluppo Sostenibile ha tenuto conto di selezionate metriche quantitative e qualitative, tra cui l'esposizione a controversie, nell'ambito degli indicatori degli effetti negativi sui fattori di sostenibilità.

La Tassonomia UE stabilisce un principio di "non nuocere in modo significativo" ("do not significant harm" o "DNSH") secondo il quale gli investimenti allineati alla tassonomia non dovrebbero nuocere in modo significativo agli obiettivi della tassonomia dell'UE ed è accompagnata da criteri specifici dell'UE.

Il principio del "non nuocere in modo significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?

La metodologia di selezione degli investimenti sostenibili definita dalla SGR si basa sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite e tiene conto - con diversi gradi di intensità - dei principali indicatori di impatto avverso attraverso metriche quantitative e qualitative.

Gli indicatori di natura qualitativa comprendono l'eventuale (i) presenza di controversie relative al cambiamento climatico, a contaminanti rilasciati nel terreno, nell'aria e/o nell'acqua, alla discriminazione, agli standard lavorativi della catena di fornitura o al rispetto dei diritti umani; (ii) assenza di piani di transizione accompagnati da obiettivi di riduzione delle emissioni; (iii) generazione di energia da combustibili fossili e prodotti correlati o presenza di riserve utilizzabili di combustibili fossili e (iv) assenza di diversità nel Consiglio di Amministrazione o discriminazioni retributive.

Gli indicatori di natura quantitativa comprendono l'esclusione dall'universo investibile delle imprese che derivano (i) almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (ii) almeno il 10% del fatturato derivante da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands) nonché delle società coinvolte nella manifattura o nella vendita di armi non convenzionali (quali, tra le altre, mine antiuomo, bombe a grappolo, armi chimiche e armi biologiche).

Il principio di non arrecare un danno significativo (cd. "do not significant harm" - DNSH) viene verificato attraverso l'assenza di disallineamenti netti nei confronti di ciascuno dei n. 17 SDG. Il punteggio sintetico di ciascun SDG viene determinato mediante l'analisi dei punteggi attribuiti alle n. 2 componenti: (i) l'allineamento netto dei prodotti e servizi di un emittente ai target associati a ciascun SDG; e (ii) l'allineamento netto dei processi produttivi delle società emittenti rispetto a specifici obiettivi di sviluppo sostenibile.

Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?

La metodologia di selezione degli investimenti sostenibili basata sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite adottata dalla SGR tiene in considerazione i principali indicatori di impatto avverso attraverso metriche quantitative e qualitative, come per esempio l'esposizione dell'emittente a eventuali controversie. In tale ambito, per esempio, viene valutato il coinvolgimento dell'emittente riguardo a controversie sui Diritti dell'Uomo, sui Diritti dei Lavoratori e sulla condotta del proprio business.

PARTE III

In che modo questo prodotto finanziario ha preso in considerazione i principali impatti negativi sui fattori di sostenibilità?

La valutazione dei principali effetti negativi delle scelte di investimento sui fattori di sostenibilità e la definizione delle possibili azioni di mitigazione connesse costituiscono parte integrante dell'approccio della SGR alla sostenibilità. In tale ambito, la SGR si è dotata di un framework che prevede l'utilizzo di specifici indicatori di natura ambientale e sociale per la valutazione dei principali effetti negativi sui fattori di sostenibilità determinati in funzione delle caratteristiche e degli obiettivi dei singoli prodotti finanziari.

PAI considerati

Attività che incidono negativamente sulle aree sensibili sotto il profilo della biodiversità

Diversità di genere nel Consiglio di Amministrazione

Esposizione ad armi controverse (mine antiuomo, munizioni a grappolo, armi chimiche e armi biologiche)

Intensità delle emissioni di gas serra delle imprese beneficiarie degli investimenti

Intensità di emissioni di gas serra

Quota di investimenti in imprese attive nel settore dei combustibili fossili

PARTE IV

Quali sono stati i principali investimenti di questo prodotto finanziario?

Vengono elencati di seguito i principali investimenti¹ in cui ha investito il prodotto finanziario con l'indicazione del settore e del paese.

Principali titoli	Settore	Percentuale	Paese
BTPS 1.2 08/25	STATO	4,59%	Italia
SPGB 0 01/26	STATO	4,17%	Spagna
FRTR 0.5 05/26	STATO	2,45%	Francia
KFW 2.5 11/25	BANCARIO	2,38%	Germania
FRTR 1 11/25	STATO	2,22%	Francia
OBL 0 10/24	STATO	2,00%	Germania
BGB 4.5 03/26	STATO	1,71%	Belgio
FRTR 0 02/27	STATO	1,54%	Francia
NVIDIA CORP	ELETTRONICO	1,52%	Stati Uniti d'America
BOTS ZC 03/25	STATO	1,30%	Italia
BTPS 0.85 01/27	STATO	1,30%	Italia
MICROSOFT CORP	ELETTRONICO	1,16%	Stati Uniti d'America

KFW 2.875 05/26	BANCARIO	0,93%	Germania

¹ Qualora nel periodo di riferimento il Prodotto finanziario abbia investito cumulativamente il 50% del proprio portafoglio in meno di n. 15 strumenti, questi vengono rappresentati in ordine decrescente in base al rispettivo peso.

PARTE V

Quale è stata la quota degli investimenti in materia di sostenibilità?

Qual è stata l'allocazione degli attivi?

"#1 Allineati con caratteristiche A/S" comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

"#2 Altri" comprende gli investimenti rimanenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria "#1 Allineati con caratteristiche A/S" comprende:

- la sottocategoria "#1-a Sostenibili", che contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria "#1-b Altri investimenti allineati alle caratteristiche A/S" che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Attualmente, in considerazione del set informativo a disposizione della SGR alla data della presente rendicontazione periodica, la quota di investimenti ecosostenibili ai sensi del Regolamento (UE) 2020/852 (ovvero allineati alla tassonomia dell'UE) è stata valutata pari allo 0%. Il Prodotto finanziario potrebbe aver investito in attività ecosostenibili selezionate in base alla sua politica di investimento, ma tali investimenti non sono stati di per sé decisivi per il perseguimento delle caratteristiche ambientali del Prodotto finanziario.

Si evidenzia infine che gli investimenti sottostanti il presente Fondo non tengono conto dei criteri dell'Unione Europea per le attività economiche ecosostenibili.

Il prodotto finanziario ha investito in attività connesse al gas fossile e/o all'energia nucleare che erano conformi alla tassonomia dell'UE?²

- ☐ Sì
- ☐ Gas fossile ☐ Energia nucleare
- ☒ No

I due grafici che seguono mostrano in verde la percentuale di investimenti che erano allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

*Ai fini dei grafici di cui sopra, per “obbligazioni sovrane” si intendono tutte le esposizioni sovrane.

² Le attività connesse al gas fossile e/o all'energia nucleare sono conformi alla tassonomia dell'UE solo se contribuiscono all'azione di contenimento dei cambiamenti climatici (“mitigazione dei cambiamenti climatici”) e non arrecano un danno significativo a nessuno degli obiettivi della tassonomia dell'UE. I criteri completi riguardanti le attività economiche connesse al gas fossile e all'energia nucleare che sono conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Qual era la quota degli investimenti effettuati in attività transitorie e abilitanti?

Attività transitorie	0,00%
Attività abilitanti	0,00%

Qual è l'esito del raffronto della percentuale degli investimenti che erano allineati alla tassonomia dell'UE rispetto ai precedenti periodi di riferimento?

Raffronto dei periodi precedenti considerando i sovereign bonds:

2023-12-29	
CapEx	0,00%
Fatturato	0,00%
OpEx	0,00%

Raffronto dei periodi precedenti escludendo i sovereign bonds:

2023-12-29	
CapEx	0,00%
Fatturato	0,00%
OpEx	0,00%

Qual era la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con un obiettivo ambientale è interamente non allineata alla tassonomia dell'UE e risulta pari al 24,11% del totale di investimenti.

Qual era la quota di investimenti socialmente sostenibili?

Il prodotto finanziario ha promosso caratteristiche ambientali e sociali e ha avuto una quota di investimenti socialmente sostenibili pari al 21,17% del totale degli investimenti.

Quali investimenti erano compresi nella categoria "Altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

Nella quota "Altri" sono inclusi: (i) eventuali investimenti in emittenti privi di score ESG; (ii) strumenti derivati sia per finalità di copertura dei rischi sia per finalità diverse da quelle di copertura; (iii) liquidità detenuta; (iv) eventuali strumenti, quali ad esempio i Pronti Contro Termine, utilizzati per l'efficiente gestione del portafoglio.

PARTE VI

Quali azioni sono state adottate per soddisfare le caratteristiche ambientali e/o sociali durante il periodo di riferimento?

Nel corso del periodo di riferimento oggetto della presente Informativa, la SGR ha monitorato il rispetto delle strategie di selezione degli strumenti finanziari riportate nella Parte II coerentemente con i principi di Investimento Sostenibile e Responsabile (SRI) e di fattori ambientali, sociali e di governance (ESG) promossi dal prodotto.

Il perseguimento delle caratteristiche ambientali e/o sociali viene presidiato attraverso appositi limiti di investimento. Il Prodotto finanziario ha inoltre promosso l'interazione proattiva nei confronti delle società emittenti sia mediante l'esercizio dei diritti di intervento e di voto sia mediante il confronto con le società partecipate, incoraggiando un'efficace comunicazione con il management delle società. Per maggiori informazioni si rimanda allo Stewardship Report pubblicato sul sito <https://www.eurizoncapital.com/it-IT/sostenibilita/politica-impegno-attivita-stewardship>.

PARTE VII

Qual è stata la prestazione di questo prodotto finanziario rispetto all'indice di riferimento?

Non è stato designato un indice di riferimento per il perseguimento delle caratteristiche ambientali/sociali del prodotto.

Relazione della società di revisione indipendente ai sensi degli articoli 14 e 19-bis del D. Lgs. 27 gennaio 2010, n. 39 e dell'articolo 9 del D. Lgs. 24 febbraio 1998, n. 58

Ai partecipanti al
Fondo Comune di Investimento Mobiliare Aperto
"Eurizon Azioni PMI Italia"

Relazione sulla revisione contabile della relazione di gestione

Giudizio

Abbiamo svolto la revisione contabile della relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Azioni PMI Italia" (il "Fondo"), costituita dalla situazione patrimoniale al 30 dicembre 2024, dalla sezione reddituale per l'esercizio chiuso a tale data e dalla nota integrativa.

A nostro giudizio, la relazione di gestione fornisce una rappresentazione veritiera e corretta della situazione patrimoniale e finanziaria del Fondo al 30 dicembre 2024 e del risultato economico per l'esercizio chiuso a tale data in conformità al Provvedimento emanato dalla Banca d'Italia il 19 gennaio 2015 e successive modifiche (di seguito anche il "Provvedimento") che ne disciplina i criteri di redazione.

Elementi alla base del giudizio

Abbiamo svolto la revisione contabile in conformità ai principi di revisione internazionali (ISA Italia). Le nostre responsabilità ai sensi di tali principi sono ulteriormente descritte nella sezione "Responsabilità della società di revisione per la revisione contabile della relazione di gestione" della presente relazione. Siamo indipendenti rispetto al Fondo e a Eurizon Capital SGR S.p.A., Società di Gestione del Fondo, in conformità alle norme e ai principi in materia di etica e di indipendenza applicabili nell'ordinamento italiano alla revisione contabile del bilancio. Riteniamo di aver acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio.

Responsabilità degli amministratori e del collegio sindacale per la relazione di gestione

Gli amministratori della Società di Gestione del Fondo sono responsabili per la redazione della relazione di gestione del Fondo che fornisca una rappresentazione veritiera e corretta in conformità al Provvedimento che ne disciplina i criteri di redazione e, nei termini previsti dalla legge, per quella parte del controllo interno dagli stessi ritenuta necessaria per consentire la redazione di una relazione di gestione che non contenga errori significativi dovuti a frodi o a comportamenti o eventi non intenzionali.

Gli amministratori della Società di Gestione del Fondo sono responsabili per la valutazione della capacità del Fondo di continuare ad operare come un'entità in funzionamento e, nella redazione della relazione di gestione, per l'appropriatezza dell'utilizzo del presupposto della continuità aziendale, nonché per una adeguata informativa in materia. Gli amministratori utilizzano il presupposto della continuità aziendale nella redazione della relazione di gestione a meno che abbiano valutato che sussistono le condizioni per la liquidazione del Fondo o per l'interruzione dell'attività o non abbiano alternative realistiche a tali scelte.

Il collegio sindacale della Società di Gestione del Fondo ha la responsabilità della vigilanza, nei termini previsti dalla legge, sul processo di predisposizione dell'informativa finanziaria del Fondo.

Responsabilità della società di revisione per la revisione contabile della relazione di gestione

I nostri obiettivi sono l'acquisizione di una ragionevole sicurezza che la relazione di gestione nel suo complesso non contenga errori significativi, dovuti a frodi o a comportamenti o eventi non intenzionali, e l'emissione di una relazione di revisione che includa il nostro giudizio. Per ragionevole sicurezza si intende un livello elevato di sicurezza che, tuttavia, non fornisce la garanzia che una revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia) individui sempre un errore significativo, qualora esistente. Gli errori possono derivare da frodi o da comportamenti o eventi non intenzionali e sono considerati significativi qualora ci si possa ragionevolmente attendere che essi, singolarmente o nel loro insieme, siano in grado di influenzare le decisioni economiche prese dagli utilizzatori sulla base della relazione di gestione.

Nell'ambito della revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia), abbiamo esercitato il giudizio professionale e abbiamo mantenuto lo scetticismo professionale per tutta la durata della revisione contabile. Inoltre:

- abbiamo identificato e valutato i rischi di errori significativi nella relazione di gestione, dovuti a frodi o a comportamenti o eventi non intenzionali; abbiamo definito e svolto procedure di revisione in risposta a tali rischi; abbiamo acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio. Il rischio di non individuare un errore significativo dovuto a frodi è più elevato rispetto al rischio di non individuare un errore significativo derivante da comportamenti o eventi non intenzionali, poiché la frode può implicare l'esistenza di collusioni, falsificazioni, omissioni intenzionali, rappresentazioni fuorvianti o forzature del controllo interno;
- abbiamo acquisito una comprensione del controllo interno rilevante ai fini della revisione contabile allo scopo di definire procedure di revisione appropriate nelle circostanze e non per esprimere un giudizio sull'efficacia del controllo interno del Fondo e della Società di Gestione del Fondo;
- abbiamo valutato l'appropriatezza dei criteri e delle modalità di valutazione adottati, nonché la ragionevolezza delle stime contabili effettuate dagli amministratori, inclusa la relativa informativa;
- siamo giunti ad una conclusione sull'appropriatezza dell'utilizzo da parte degli amministratori del presupposto della continuità aziendale e, in base agli elementi probativi acquisiti, sull'eventuale esistenza di una incertezza significativa riguardo a eventi o circostanze che possono far sorgere dubbi significativi sulla capacità del Fondo di continuare ad operare come una entità in funzionamento. In presenza di un'incertezza significativa, siamo tenuti a richiamare l'attenzione nella relazione di revisione sulla relativa informativa della relazione di gestione, ovvero, qualora tale informativa sia inadeguata, a riflettere tale circostanza nella formulazione del nostro giudizio. Le nostre conclusioni sono basate sugli elementi probativi acquisiti fino alla data della presente relazione. Tuttavia, eventi o circostanze successivi possono comportare il fatto che il Fondo cessi di operare come un'entità in funzionamento;
- abbiamo valutato la presentazione, la struttura e il contenuto della relazione di gestione nel suo complesso, inclusa l'informativa, e se la relazione di gestione rappresenti le operazioni e gli eventi sottostanti in modo da fornire una corretta rappresentazione.

Abbiamo comunicato ai responsabili delle attività di governance della Società di Gestione del Fondo, identificati ad un livello appropriato come richiesto dai principi di revisione internazionali (ISA Italia), tra gli altri aspetti, la portata e la tempistica pianificate per la revisione contabile e i risultati significativi emersi, incluse le eventuali carenze significative nel controllo interno identificate nel corso della revisione contabile.

Relazione su altre disposizioni di legge e regolamentari

Giudizi e dichiarazione ai sensi dell'articolo 14, comma 2, lettera e), e-bis) ed e-ter) del D. Lgs. 27 gennaio 2010, n. 39

Gli amministratori della Eurizon Capital SGR S.p.A. sono responsabili per la predisposizione della relazione degli amministratori del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Azioni PMI Italia" al 30 dicembre 2024, incluse la sua coerenza con la relazione di gestione del Fondo e la sua conformità al Provvedimento.

Abbiamo svolto le procedure indicate nel principio di revisione (SA Italia) n. 720B al fine di:

- esprimere un giudizio sulla coerenza della relazione degli amministratori con la relazione di gestione;
- esprimere un giudizio sulla conformità al Provvedimento della relazione degli amministratori;
- rilasciare una dichiarazione su eventuali errori significativi nella relazione degli amministratori.

A nostro giudizio, la relazione degli amministratori è coerente con la relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Azioni PMI Italia" al 30 dicembre 2024.

Inoltre, a nostro giudizio, la relazione degli amministratori è redatta in conformità al Provvedimento.

Con riferimento alla dichiarazione di cui all'articolo 14, comma 2, lettera e-ter), del D. Lgs. 27 gennaio 2010, n. 39, rilasciata sulla base delle conoscenze e della comprensione del Fondo e del relativo contesto acquisite nel corso dell'attività di revisione, non abbiamo nulla da riportare.

FONDO COMUNE D'INVESTIMENTO

Il fondo "EURIZON AZIONI PMI ITALIA" (già denominato "Nextra Azioni PMI Italia" fino al 27 aprile 2008) è stato istituito in data 16 dicembre 1999 ai sensi della legge n. 77 del 23 marzo 1983 ed autorizzato dalla Banca d'Italia con Provvedimento del 20 marzo 2000. Il Fondo è operativo a partire dal 5 luglio 2000.

La durata del Fondo è fissata al 31 dicembre 2050, salvo proroga da assumersi con deliberazione del Consiglio di Amministrazione almeno due anni prima della scadenza.

Il Fondo, denominato in euro, è del tipo ad accumulazione; i proventi realizzati non vengono pertanto distribuiti ai partecipanti, ma restano compresi nel patrimonio del Fondo.

A partire dal 19 febbraio 2018 per il Fondo sono previste tre categorie di quote, definite quote di "Classe R", quote di "Classe I" e quote di "Classe X". Le quote di "Classe R" possono essere sottoscritte dalla generalità degli investitori. Le quote di "Classe I" e di "Classe X" possono essere sottoscritte esclusivamente dai "clienti professionali", come individuati dall'art. 26, comma 1, lettera d), del Regolamento Consob in materia di Intermediari, adottato con Delibera n. 16190 del 29 ottobre 2007 e successive modifiche e integrazioni, con esclusione delle persone fisiche.

Le quote di "Classe R", le quote di "Classe I" e le quote di "Classe X" si differenziano inoltre per il regime commissionale applicato.

La partecipazione al Fondo si realizza attraverso la sottoscrizione di quote o il loro successivo acquisto a qualsiasi titolo. La sottoscrizione di quote può avvenire solo a fronte del versamento di un importo corrispondente al valore delle quote di partecipazione.

La SGR provvede a determinare il numero delle quote di partecipazione e frazioni millesimali di esse arrotondate per difetto da attribuire ad ogni partecipante dividendo l'importo del versamento, al netto degli oneri a carico dei singoli partecipanti, per il valore unitario della quota relativo al giorno di riferimento. Quando in tale giorno non sia prevista la valorizzazione del Fondo, le quote vengono assegnate sulla base del valore relativo al primo giorno successivo di valorizzazione della quota.

Il giorno di riferimento è il giorno in cui la SGR ha ricevuto, entro le ore 13.00, notizia certa della sottoscrizione ovvero, se successivo, è il giorno in cui decorrono i giorni di valuta riconosciuti al mezzo di pagamento indicati nel modulo di sottoscrizione. Nel caso di bonifico, il giorno di valuta è quello riconosciuto dalla banca ordinante.

I partecipanti al Fondo possono, in qualsiasi momento, chiedere alla SGR il rimborso totale o parziale delle quote possedute.

Il rimborso può avvenire a mezzo bonifico ovvero a mezzo assegno circolare o bancario non trasferibile all'ordine del richiedente.

Il valore del rimborso è determinato in base al valore unitario delle quote del giorno di ricezione della domanda da parte della SGR. Quando nel giorno di ricezione della domanda non è prevista la valorizzazione del Fondo, il valore del rimborso è determinato in base al primo valore del Fondo successivamente determinato.

La SGR provvede, tramite il Depositario, al pagamento dell'importo nel più breve tempo possibile e non oltre il termine di quindici giorni dalla data in cui la domanda è pervenuta, salvi i casi di sospensione del diritto di rimborso.

Caratteristiche del Fondo

Il Fondo di tipo aperto, rientrando nell'ambito di applicazione della Direttiva 2009/65/CE come successivamente modificata ed integrata, appartiene alla categoria "Azionari Italia" e fa parte del "Sistema Mercati".

Il benchmark di riferimento è:

95% FTSE Italia Mid Cap

5% Bloomberg Euro Treasury Bill

Gli investimenti sono effettuati principalmente in strumenti finanziari rappresentativi del capitale di rischio di emittenti a media capitalizzazione quotati nei mercati regolamentati italiani e/o di emittenti italiani a media capitalizzazione quotati in altri mercati regolamentati.

Il Fondo può inoltre investire:

- in strumenti finanziari rappresentativi del capitale di rischio di emittenti italiani a bassa capitalizzazione e/o ad elevata capitalizzazione, fino ad un massimo del 30% del totale delle attività;
- in strumenti finanziari rappresentativi del capitale di rischio di emittenti dell'Area Euro, fino ad un massimo del 10% del totale delle attività;
- in strumenti finanziari di natura obbligazionaria e/o monetaria denominati in euro, fino ad un massimo del 30% del totale delle attività;
- in depositi bancari denominati in euro, fino ad un massimo del 30% del totale delle attività;
- in parti di OICVM e FIA aperti non riservati nonché in FIA chiusi quotati e non quotati, la cui composizione del portafoglio risulti compatibile con la politica di investimento del Fondo, fino ad un massimo del 10% del totale delle

attività.

Il Fondo utilizza strumenti finanziari derivati per finalità di copertura dei rischi e per finalità diverse da quelle di copertura. L'esposizione complessiva in strumenti finanziari derivati non può essere superiore al valore complessivo netto del Fondo e deve risultare coerente con la politica di investimento. Tale esposizione è calcolata secondo il metodo degli impegni, secondo quanto stabilito nella disciplina di vigilanza. L'esposizione azionaria complessiva non può superare il 130% del valore complessivo netto del Fondo.

In relazione alla politica di investimento perseguita, tenuto conto che il Fondo investe prevalentemente in azioni di imprese residenti nel territorio dello Stato italiano o in Stati membri dell'Unione Europea o in Stati aderenti all'Accordo sullo Spazio economico europeo con stabile organizzazione nel territorio dello Stato italiano, le quote del Fondo rientrano tra gli investimenti qualificati di cui all'art. 1, comma 89, della Legge 11 dicembre 2016, n. 232, ("Bilancio di previsione dello Stato per l'anno finanziario 2017 e bilancio pluriennale per il triennio 2017-2019") che possono essere effettuati da parte degli enti di previdenza obbligatoria e delle forme di previdenza complementare, come individuati rispettivamente ai commi 88 e 92 della citata Legge 11 dicembre 2016, n. 232.

La SGR adotta uno stile di gestione attivo. La selezione degli investimenti viene effettuata sulla base della dinamica delle principali variabili macroeconomiche nonché sulla base dell'analisi fondamentale e strategica delle singole società (dati finanziari, quota di mercato, piani di sviluppo, qualità del management), con l'obiettivo di identificare quei titoli che, rispetto al mercato od al settore di appartenenza, forniscono le migliori prospettive di apprezzamento. Nella selezione degli strumenti finanziari (compresi gli OICR) vengono considerate anche informazioni di natura ambientale, sociale e di governo societario.

Il Fondo promuove caratteristiche di natura ambientale e/o sociale nel rispetto di pratiche di buon governo societario, ai sensi dell'art. 8 del Regolamento (UE) 2019/2088 del Parlamento Europeo e del Consiglio del 27/11/2019 e successive modifiche.

A prescindere dagli orientamenti di investimento specifici del Fondo, resta comunque ferma la facoltà di:

- effettuare investimenti in strumenti finanziari non quotati, nei limiti previsti dalle vigenti disposizioni normative;
- detenere liquidità per esigenze di tesoreria;
- assumere, in relazione all'andamento dei mercati finanziari o ad altre specifiche situazioni congiunturali, scelte per la tutela dell'interesse dei partecipanti, che si discostino dalle politiche d'investimento.

Il Fondo può inoltre:

- acquistare titoli di società finanziate da società del Gruppo di appartenenza della SGR;
- negoziare strumenti finanziari con altri patrimoni gestiti dalla SGR;
- investire in parti di altri OICR gestiti dalla SGR o da altre società alla stessa legate tramite controllo comune o con una considerevole partecipazione diretta o indiretta.

La SGR ha facoltà di effettuare operazioni in divise estere (es. acquisti e vendite a pronti ed a termine, ecc.) ed utilizzare strumenti di copertura del rischio di cambio, coerentemente con la politica di investimento del Fondo. La SGR ha inoltre la facoltà di utilizzare tecniche di gestione efficiente del portafoglio (quali ad esempio operazioni di pronti contro termine, riporti, prestito titoli ed altre operazioni assimilabili) coerentemente con la politica di investimento del Fondo e nel rispetto dei limiti e delle condizioni stabilite dalle vigenti disposizioni normative.

Spese ed oneri a carico del Fondo

Le spese a carico del Fondo sono:

- la provvigione di gestione a favore della SGR, pari all'1,80% su base annua per la Classe R, pari allo 0,60% per la Classe I e pari allo 0,75% per la Classe X, calcolata quotidianamente sul valore complessivo netto del Fondo. La misura mensile della provvigione di gestione è pari ad 1/12 dell'aliquota sopra riportata ed è ripartita su base giornaliera; la medesima è prelevata dalle disponibilità del Fondo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento.

- il costo per il calcolo del valore della quota del Fondo, nella misura massima dello 0,035% su base annua per tutte e tre le Classi, calcolato ogni giorno di valorizzazione sul valore complessivo netto del Fondo e prelevato mensilmente dalle disponibilità di quest'ultimo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento;

- la provvigione di incentivo a favore della SGR ("modello a benchmark"), limitatamente alla "Classe R" e alla "Classe I", pari al 20% della differenza maturata nell'anno solare tra l'incremento percentuale del valore della quota (tenendo conto anche degli eventuali proventi distribuiti) e l'incremento percentuale del valore del parametro di riferimento relativi al medesimo periodo.

La provvigione viene calcolata sul minore ammontare tra il valore complessivo netto medio del Fondo nello stesso periodo e il valore complessivo netto del Fondo disponibile nel giorno di calcolo.

Il calcolo della commissione è eseguito quotidianamente, accantonando un rateo che fa riferimento all'extraperformance maturata rispetto all'ultimo giorno dell'anno solare precedente.

Ogni giorno, ai fini del calcolo del valore complessivo del Fondo, la SGR accredita al Fondo l'accantonamento del giorno precedente e addebita quello del giorno cui si riferisce il calcolo.

La commissione viene prelevata il primo giorno lavorativo successivo alla chiusura dell'anno solare.

La SGR avrà diritto a percepire tale provvigione di incentivo solo se qualsiasi sottoperformance del Fondo rispetto al parametro di riferimento subita nel periodo di riferimento della performance sia recuperata (c.d. recupero delle perdite). Il periodo di riferimento decorre dal 30 dicembre 2021 per i cinque anni successivi a tale data; successivamente, il periodo di riferimento decorre dall'ultimo giorno di valorizzazione della quota relativo al quinto anno precedente. Eventuali extraperformance possono essere utilizzate una volta sola per compensare le perdite pregresse.

Il parametro di riferimento è: 95% FTSE Italia Mid Cap; 5% Bloomberg Euro Treasury Bill.

E' previsto un fee cap al compenso della SGR pari alla provvigione di gestione fissa a cui si aggiunge il 100% della stessa; quest'ultima percentuale costituisce il massimo prelevabile a titolo di provvigione di incentivo;

- il compenso riconosciuto al Depositario per l'incarico svolto. Tale importo è calcolato quotidianamente sul valore complessivo netto del Fondo, nella misura massima annua dello 0,06% per tutte e tre le Classi di quote del Fondo;

- le spese di pubblicazione del valore unitario delle quote e dei prospetti periodici del Fondo;

- le spese degli avvisi inerenti alla liquidazione del Fondo, al pagamento delle cedole qualora il Fondo preveda la distribuzione dei proventi, alla disponibilità dei prospetti periodici nonché alle modifiche del Regolamento richieste da mutamenti della legge ovvero delle disposizioni di vigilanza;

- gli oneri della stampa dei documenti destinati al pubblico nonché gli oneri derivanti dagli obblighi di comunicazione alla generalità dei partecipanti, purché tali oneri non attengano a propaganda e a pubblicità o comunque al collocamento delle quote del Fondo;

- le spese per la revisione della contabilità e dei rendiconti del Fondo, ivi compreso quello finale di liquidazione;

- gli oneri finanziari per i debiti assunti dal Fondo e le spese connesse;

- le spese legali e giudiziarie sostenute nell'esclusivo interesse del Fondo;

- il contributo di vigilanza dovuto alla Consob nonché alle Autorità estere competenti, per lo svolgimento dell'attività di controllo e di vigilanza. Tra tali spese non sono in ogni caso comprese quelle relative alle procedure di commercializzazione del Fondo nei paesi diversi dall'Italia;

- gli oneri di intermediazione inerenti alla compravendita di strumenti finanziari o di parti di OICR, all'investimento in depositi bancari nonché gli oneri connessi alla partecipazione agli OICR oggetto dell'investimento;

- gli oneri fiscali di pertinenza del Fondo.

Il pagamento delle suddette spese, salvo quanto diversamente indicato, è disposto dalla SGR mediante prelievo dalla disponibilità del Fondo con valuta non antecedente a quella del giorno di effettiva erogazione.

In caso di investimento in OICR collegati, sul Fondo acquirente non vengono fatte gravare spese e diritti di qualsiasi natura relativi alla sottoscrizione e al rimborso delle parti degli OICR acquisiti. La SGR deduce dal proprio compenso, fino a concorrenza dello stesso, la remunerazione complessiva (provvigione di gestione, di incentivo, ecc.) percepita dal gestore degli OICR "collegati".

Regime fiscale

La SGR, ai sensi della Legge 10/2011, applica una ritenuta sul reddito realizzato direttamente in capo ai partecipanti.

La ritenuta viene applicata nella misura del 26%. La quota parte dei redditi riconducibile all'investimento in titoli governativi italiani ed equiparati e in obbligazioni emesse da Stati esteri white list e loro enti territoriali partecipa in misura ridotta, per il 48,08% del relativo ammontare al reddito fiscalmente imponibile. I proventi riferibili ai titoli pubblici italiani ed equiparati sono determinati proporzionalmente alla percentuale media dell'attivo investita direttamente, o indirettamente per il tramite di altri organismi di investimento.

Tale percentuale media viene aggiornata con cadenza semestrale e decorre dal 1° gennaio e dal 1° luglio di ciascun anno solare. Il relativo dato è disponibile sul sito internet della SGR, nella sezione dedicata alla fiscalità.

Il reddito imponibile in capo al partecipante corrisponde ai proventi distribuiti in costanza di partecipazione al Fondo o alla differenza tra il valore di rimborso, di liquidazione o di cessione delle quote e il costo medio ponderato di sottoscrizione o acquisto delle quote medesime, rilevati dai prospetti periodici. Tra le operazioni di rimborso sono comprese anche quelle realizzate mediante operazioni di spostamento tra Fondi. La ritenuta è applicata anche nell'ipotesi di trasferimento delle quote a rapporti di custodia, amministrazione o gestione intestati a soggetti diversi dagli intestatari dei rapporti di provenienza, incluse le operazioni di trasferimento avvenute per successione o

donazione.

Nel caso in cui il partecipante realizzi una perdita, tale minusvalenza può essere portata dal partecipante in diminuzione di plusvalenze realizzate su altri titoli, nel medesimo periodo d'imposta o entro il quarto successivo.

Durata dell'esercizio contabile

L'esercizio contabile del Fondo ha durata annuale e si chiude l'ultimo giorno di valorizzazione del mese di dicembre di ogni anno.

RELAZIONE DEGLI AMMINISTRATORI

Scenario Macroeconomico

Nel periodo di riferimento (1° gennaio 2024 - 30 dicembre 2024) i mercati finanziari hanno registrato un andamento generalmente positivo. Il contesto macro si è caratterizzato per una certa divergenza fra gli USA e l'area Euro. Negli USA, infatti, la forza del ciclo ha sorpreso le stime e l'inflazione, sebbene in calo, ha mostrato un trend di rientro meno lineare; viceversa, nell'area Euro la crescita ha mostrato una maggiore debolezza e l'inflazione ha evidenziato un percorso di rientro verso il target del 2% più marcato. All'interno di questo scenario le principali Banche Centrali hanno avviato, seppure con tempistiche e modalità differenti, un ciclo di taglio dei tassi.

Più in dettaglio, negli USA l'inflazione totale ha chiuso il primo trimestre al 3,2%, in calo rispetto al dato di fine 2023, così come l'inflazione core (vale a dire al netto delle componenti più volatili legate ai prezzi di alimentari ed energia) che si è attestata al 3,8%, livello di poco inferiore al 4% che aveva caratterizzato la parte finale del 2023. A destare attenzione, però, sono stati i contributi mensili sia per l'inflazione totale che per quella core. La crescita mensile dei prezzi, infatti, si è assestata tra lo 0,3% e lo 0,4% per il primo trimestre. All'interno di questo contesto si è registrata una normalizzazione delle aspettative di politica monetaria, con i mercati che si sono via via allineati allo scenario delineato dalle Banche Centrali, prima fra tutte la Fed, che a dicembre 2023 aveva annunciato tre tagli dei tassi per il 2024. Nella riunione di marzo, la Banca Centrale statunitense ha lasciato i tassi invariati e ha confermato la volontà di procedere con tre tagli dei tassi, nonostante la dinamica inflattiva mostrasse una marginale resilienza ed i dati macro fossero ancora molto solidi, soprattutto, per quanto concerne le dinamiche occupazionali. Nell'area Euro l'inflazione ha registrato un percorso di discesa più netto, portandosi al 2,6% nel dato totale ed al 3,1% in quello core. Anche se l'inflazione europea ha mostrato una dinamica di rientro più consistente ed il quadro macro ha evidenziato una maggior debolezza rispetto a quello statunitense, la BCE non ha introdotto variazioni di politica monetaria nel trimestre, rimandando a giugno l'eventuale inizio dell'attesa riduzione dei tassi. Il contesto geopolitico ha visto il proseguimento delle tensioni sia in Ucraina che in Medio Oriente, ma con scarso impatto sui mercati finanziari. Anche le elezioni a Taiwan ed in Russia non hanno generato reazioni sostanziali sui mercati. Il congresso del Partito Comunista cinese ha fissato al 5% il target di crescita per il 2024; tuttavia le misure di stimolo introdotte da Pechino non sono state giudicate adeguate dagli investitori.

Nel secondo trimestre i dati di inflazione statunitensi sono apparsi in moderazione rispetto alla prima parte dell'anno; in particolare, i dati di aprile e maggio sono tornati ad evidenziare una tendenza al rientro. Da questo punto di vista, il mese di giugno è stato particolarmente importante; da un lato l'inflazione ha rallentato oltre le attese nel contributo mensile sia nella componente totale che in quella core, dall'altro la Fed ha rivisto le sue aspettative di politica monetaria (Dots), posticipando al 2025 la parte sostanziale della riduzione dei tassi e prevedendo un solo taglio per il 2024. In Europa, invece, i dati di inflazione hanno proseguito in un percorso di rientro più definito, portando la BCE ad effettuare un primo taglio dei tassi da 25 punti base nella riunione di giugno. Questo primo intervento di riduzione, però, non ha prodotto un cambiamento radicale nell'orientamento di politica monetaria, che è rimasto fortemente ancorato all'andamento dei dati macro e, in particolare, dell'inflazione. Oltre ai dati macro, molto rilevanti per gli operatori sono state anche le elezioni per il rinnovo del Parlamento europeo, il cui esito, però, non ha avuto particolari riflessi sui mercati visto che si è avuta una sostanziale riconferma della maggioranza uscente. La maggior parte della turbolenza politica si è avuta in Francia dove, a seguito della forte affermazione dei partiti di opposizione, il presidente Macron ha sciolto anticipatamente le camere e indetto nuove elezioni. Questo si è tradotto in una crescente volatilità sugli asset francesi, con un marginale contagio anche per gli altri Paesi europei; tale volatilità, però, è gradualmente rientrata man mano che i risultati elettorali mostravano sempre meno probabile una forte affermazione dei partiti con posizioni più estreme.

Il terzo trimestre è stato caratterizzato dal consolidamento del percorso di discesa per l'inflazione USA, mentre quella europea ha addirittura accelerato verso il basso, chiudendo il periodo sotto il target di riferimento della BCE. Negli USA l'inflazione su base annua è scesa al 2,5% nel dato totale, ai minimi da febbraio 2021, mentre nella componente core è apparsa più stabile al 3,2%, sui minimi da aprile 2021. In Europa l'inflazione è scesa significativamente, portandosi all'1,8% (sotto il target BCE del 2%), mentre quella core ha raggiunto il livello del 2,7% su base annua. A ridurre le pressioni inflazionistiche ha contribuito il calo diffuso dei prezzi delle materie prime, in particolare di quelle energetiche, con il petrolio che ha chiuso il trimestre in area 70 dollari al barile. Insieme al calo dell'inflazione, un marginale indebolimento del mercato del lavoro USA e un deterioramento del quadro macro complessivo in Europa hanno portato le Banche Centrali a ridurre i tassi. La BCE ha introdotto il secondo taglio da 25 punti base del tasso sui depositi, dopo quello effettuato a giugno, portandolo dal 3,75% al 3,5%. Negli USA, la Fed ha avviato la politica di allentamento monetario con un primo taglio da 50 punti base, che ha portato i tassi al 5%. Tra le principali Banche Centrali, quella giapponese è risultata in controtendenza, poiché a fine luglio ha annunciato un rialzo dei tassi per fronteggiare le crescenti pressioni inflazionistiche. Questo rialzo era inatteso ed ha innescato molta volatilità sui mercati, che, in seguito, è gradualmente rientrata con il consolidarsi della crescita globale. In Europa, la Francia ha ultimato la formazione del nuovo esecutivo; tuttavia, la debolezza del quadro politico, insieme a quella sui dati di bilancio, si è riflessa sullo spread del tasso decennale francese rispetto a quello tedesco che è tornato in area 80 punti base. Negli USA la corsa per la presidenza ha visto la rinuncia di Biden, molto penalizzato nei sondaggi, a favore della sua vice Kamala Harris. In Cina i policy maker hanno modificato l'approccio verso gli stimoli all'economia. La Banca Centrale cinese,

infatti, ha introdotto un significativo taglio dei tassi, mentre le autorità centrali hanno annunciato, anche se non ancora formalizzato, un piano di espansione fiscale, finalizzato al raggiungimento del target di crescita del 5%.

Il quarto trimestre è stato caratterizzato dal consolidamento di una marginale divergenza macroeconomica tra USA ed Eurozona. Negli USA l'inflazione totale ha chiuso il trimestre al 2,7%, mentre l'inflazione core si è stabilizzata in area 3,3%. Il rialzo medio su base mensile è stato nell'ordine dello 0,3%, evidenziando come, nonostante una tendenza di fondo dell'inflazione orientata al ribasso, la crescita mensile dei prezzi sia rimasta solida e i progressi verso l'obiettivo del 2% abbiano registrato un certo rallentamento. A questo si sono aggiunti un mercato del lavoro in fase di normalizzazione su livelli pre-pandemia e un quadro macro complessivo che ha visto i settori legati ai servizi sostenere la crescita americana. La netta affermazione repubblicana alle elezioni di novembre ha portato gli investitori a scontare molto rapidamente l'agenda economica di Trump, fatta di espansione fiscale, nuove tariffe, deregolamentazione e lotta all'immigrazione. La reazione della Fed ad un quadro macro più solido delle attese si è tradotta in due tagli dei tassi da 25 punti base nel corso del trimestre, mentre le stime relative ai tagli previsti per il 2025 sono state fortemente ridotte. Situazione diversa in Europa, dove l'inflazione ha chiuso il trimestre in area 2,3% nel dato totale, mentre la componente core in area 2,7%. Il quadro macro in Eurozona si è confermato più debole rispetto a quello americano. A questo si sono poi aggiunte le difficoltà politiche francesi e tedesche. In Francia, è stato varato un nuovo governo dopo quello di luglio, con l'obiettivo prioritario di approvare la nuova legge di bilancio, mentre in Germania la crisi politica si è tradotta nello scioglimento del parlamento, con nuove elezioni previste per il mese di febbraio. In tale contesto, la BCE ha effettuato due ulteriori tagli dei tassi da 25 punti base, prevedendo di riportare l'inflazione al target del 2% entro il 2025. La debolezza europea è in parte legata a quella evidenziata dall'economia cinese. Nel corso del trimestre, infatti, proprio la Cina ha annunciato un importante piano di stimolo fiscale a sostegno dell'economia, che fatica a raggiungere il target previsto di una crescita annua al 5%.

Analizzando l'andamento dei mercati finanziari, nei primi sei mesi del 2024, all'interno di un contesto macroeconomico nel quale la crescita ha mostrato una certa resilienza e l'inflazione un ritmo di rientro verso gli obiettivi delle Banche Centrali più lento del previsto, i tassi governativi si sono mossi al rialzo sia sulla parte a breve delle curve che su quella più lunga. Nel prosieguo del periodo di riferimento, però, di fronte al rafforzamento del movimento di discesa dell'inflazione e al cambio di approccio di politica monetaria da parte delle principali Banche Centrali, i tassi hanno ripreso a scendere, con un movimento che ha impattato maggiormente la parte a breve delle curve dei rendimenti. Nella parte conclusiva del periodo di riferimento, però, si è assistito ad una risalita dei tassi statunitensi che ha coinvolto, seppure con intensità più contenuta, anche quelli europei. I mercati, infatti, sono andati a scontare maggiormente la vittoria di Trump, con la possibilità di avere un'agenda economica molto espansiva in grado potenzialmente di rallentare il percorso di riduzione dei tassi intrapreso dalla Fed. Questi timori sono stati amplificati dalla Fed stessa che nell'ultimo meeting dell'anno, pur operando un ulteriore taglio dei tassi di 25 punti base, si è detta pronta a rallentare il ritmo dei tagli nel corso del 2025, alla luce della solidità della ripresa, della tenuta del mercato del lavoro e, soprattutto, del rallentamento nella discesa dell'inflazione.

Nel complesso, il tasso di interesse a 2 anni statunitense ha chiuso l'anno al 4,24% (sugli stessi livelli della chiusura annuale precedente), mentre il decennale è aumentato dal 3,88% al 4,53% per una curva che ha assunto un'inclinazione positiva (ossia, con un livello dei tassi sul tratto a lungo termine superiore a quello del tratto a breve termine). In Europa il tasso a 2 anni tedesco è sceso dal 2,40% al 2,08% mentre quello decennale è salito dal 2,02% al 2,37%. Tra i Paesi periferici dell'area Euro, lo spread del decennale italiano rispetto a quello tedesco è calato da 168 punti base a 115.

All'interno di questo scenario, il mercato obbligazionario globale ha mostrato una performance positiva dello 0,2% in valuta locale e del 2,6% in euro (indice JPM Global). A livello di singole aree geografiche, l'area Euro ha chiuso il periodo di riferimento con l'indice JPM Emu in rialzo dell'1,8% e gli Stati Uniti (indice JPM Usa) hanno registrato un guadagno dello 0,8% in valuta locale e del 7,2% in euro. I Paesi emergenti (indice JPM Embi+) hanno evidenziato un andamento nel complesso migliore rispetto a quello dei Paesi maggiormente sviluppati, con una variazione positiva del 7,7% in valuta locale e del 14,6% in euro.

Volgendo lo sguardo ai mercati azionari, essi hanno esibito un andamento positivo, beneficiando di una buona dinamica degli utili aziendali e di un contesto macro ancora favorevole. Inoltre, l'inizio dei tagli dei tassi da parte delle Banche Centrali è stato un elemento di ulteriore supporto, sebbene le tempistiche di riduzione siano state più lente delle stime iniziali. Nel corso dei mesi estivi si è assistito ad un aumento della volatilità che è sfociata in alcune fasi ribassiste, peraltro interamente recuperate in orizzonti temporali molto ridotti. Nel corso del mese di ottobre, sulla base delle attese di una politica fiscale a favore delle aziende e di un processo di deregolamentazione in vari settori economici nel caso di una vittoria di Trump, la Borsa statunitense ha consolidato il movimento rialzista, mentre i listini europei e asiatici (in primis quello cinese) sono stati penalizzati dai timori di una nuova politica di dazi commerciali. Nella parte conclusiva del periodo di riferimento, la vittoria di Trump e la conquista da parte dei repubblicani della maggioranza sia alla Camera che al Senato hanno fornito ulteriore sostegno agli indici azionari americani, mentre quelli europei e dei Paesi emergenti non hanno evidenziato un'impostazione rialzista così marcata, in attesa anche di verificare la reale portata delle decisioni della nuova amministrazione americana su vari dossier economici, primo fra tutti quello commerciale.

Il mercato azionario globale ha totalizzato un guadagno in valuta locale del 21,4% (indice MSCI World) e del 26,7% in euro. A livello di singole aree geografiche, il mercato azionario statunitense (indice MSCI Usa) ha chiuso il 2024 con una performance positiva del 25,1% in valuta locale che raggiunge il 33,2% se si considera l'andamento in euro. I mercati europei (indice MSCI Emu) hanno evidenziato un andamento rialzista più contenuto rispetto a quello mostrato dai listini

statunitensi, registrando una performance positiva dell'8,9%. Andamento positivo anche per i Paesi emergenti; l'area nel suo complesso (indice MSCI Emerging Markets) ha evidenziato un recupero del 13,3% in valuta locale e del 14,7% in euro.

Relativamente al mercato valutario, l'euro si è indebolito del 6,0% nei confronti del dollaro e del 4,2% rispetto alla sterlina, mentre si è rafforzato dell'1,2% contro il franco svizzero e del 4,8% verso lo yen. La dinamica valutaria ha impattato sulle performance convertite in euro dei mercati esterni all'area Euro.

Commento di gestione

Nel corso dell'anno il comparto relativo alle società a piccola e media capitalizzazione (small/mid cap) ha sottoperformato quelle a elevata capitalizzazione (large cap), in modo complessivamente omogeneo, con un recupero solo nel corso dell'ultimo trimestre dell'anno. Ciò è avvenuto, nonostante un contesto di riduzione dei tassi ed aspettative di ulteriori tagli nei mesi a venire. Il timore più grande risiede nell'incertezza del ciclo economico, compromesso dalla recessione del mercato tedesco, poiché l'indice è prevalentemente composto da settori industriali e ciclici. Anche il comparto tecnologico non ha beneficiato della spinta positiva statunitense, che ha visto concentrarsi le tematiche dell'intelligenza artificiale e delle sue applicazioni come propulsione alle aspettative di crescita degli utili. In Europa, infatti, e, in modo particolare, in Italia non sono presenti società di fatto rappresentative di queste tematiche. La sottoperformance delle small/mid cap rispetto alle large cap trova riscontro prevalentemente nella diversa composizione degli indici, che nel comparto large cap vede il prevalere del settore bancario, poco rappresentato nell'indice delle mid/small cap.

Nel corso dell'anno il Fondo è stato mediamente sovrainvestito, privilegiando l'attività di selezione dei titoli piuttosto che concentrando le scelte su singoli settori o tematiche specifiche. Tuttavia, nel secondo semestre è stato introdotto un forte sovrappeso nel comparto della difesa e delle tematiche legate allo spazio, dove si ritiene possibile una significativa concentrazione di investimenti nel prossimo futuro.

Nel periodo di riferimento le scelte derivanti dalla selezione titoli sono state dominanti. Pur non avendo l'indice di riferimento una significativa esposizione al settore bancario, il Fondo si è caratterizzato per investimenti in questo comparto. Le infrastrutture e le costruzioni sono rimaste in sovrappeso, presentando ancora prospettive di crescita significative e multipli accessibili. Nel comparto relativo ai consumi voluttuari si è privilegiato il settore media, sottopesando il lusso, penalizzato dalla debolezza dei mercati orientali. La tecnologia, nella connotazione di digitalizzazione e produzione di componenti, è stata progressivamente sottopesata a fronte di numerosi profit warning.

Nel periodo di riferimento non sono stati utilizzati derivati con finalità strategica, tattica o di buona gestione.

Il Fondo ha evidenziato una performance positiva. Contributi positivi sono stati forniti dagli investimenti nel settore bancario, dal sottopeso del lusso e degli industriali e dalla progressiva riduzione del comparto tecnologico, legato alla digitalizzazione. Nel corso dell'anno anche le operazioni di OPA (Offerta Pubblica di Acquisto) hanno contribuito positivamente.

Per i mesi a venire si tende a mantenere un sovrappeso nel comparto relativo alla difesa, ai media, al cemento e alle infrastrutture, guardando in modo selettivo al comparto industriale e delle utility che potrebbero dare segnali di ripresa.

Rapporti con le Società del Gruppo

Si precisa che i rapporti intrattenuti e le operazioni effettuate nel corso del periodo di riferimento con le altre Società del Gruppo vengono descritti nell'ambito della nota integrativa cui si rimanda. Tali rapporti e operazioni sono stati regolati in base alle normali condizioni di mercato.

Fatti di rilievo avvenuti dopo la chiusura del periodo di riferimento della presente relazione

Non si rilevano eventi significativi successivi alla chiusura della presente relazione di gestione, che possono avere un impatto rilevante sulla situazione patrimoniale e sezione reddituale del Fondo al 30 dicembre 2024.

Attività di collocamento delle quote

Di seguito si riporta il dettaglio dell'attività di collocamento delle classi di quote:

Classe R: raccolta netta negativa per euro 44.396.191.

Classe X: raccolta netta positiva per euro 10.967.230, effettuata tramite Eurizon Capital SGR S.p.A..

Esercizio del diritto di voto alle Assemblee di società quotate

Esercizio del diritto di voto e attività di Engagement

Eurizon Capital SGR S.p.A. (di seguito anche "Eurizon Capital" o la "SGR") ha un impegno fiduciario volto alla protezione e alla creazione di valore nei confronti dei propri Clienti ed Investitori che richiede di affrontare in modo efficace le

problematiche legate all'andamento delle società in cui investe per conto dei patrimoni gestiti. La SGR attribuisce rilevanza al presidio del buon governo societario (cd. "corporate governance") delle società emittenti partecipate; a tal fine la SGR ha adottato una Politica di Impegno coerente con i già adottati "Principi di Stewardship" per l'esercizio dei diritti amministrativi e di voto nelle società quotate e delle relative Raccomandazioni di best practice definite da Assogestioni. La SGR, dal 2015 firmataria dei "Principi per l'Investimento Responsabile" delle Nazioni Unite (UN PRI), presta particolare attenzione alle politiche implementate dagli emittenti in cui investe per conto dei patrimoni gestiti, nella convinzione che sane politiche e pratiche di governo societario (che incorporino questioni ambientali, sociali e di governance) siano in grado di creare valore per gli azionisti nel lungo termine. In tale ambito, la ricerca specializzata di cui si avvale la SGR, a supporto delle decisioni di investimento e dell'esercizio dei diritti di intervento e di voto, comprende anche informazioni sulla responsabilità sociale e ambientale degli emittenti, volte ad identificare eventuali impatti in termini di reputazione, concorrenza e di opportunità di business determinati dalle scelte di governo societario (corporate governance).

In conformità alla normativa vigente, la SGR ha adottato la propria "Strategia per l'esercizio dei diritti di intervento e di voto inerenti agli strumenti finanziari di pertinenza dei patrimoni gestiti di Eurizon Capital SGR S.p.A." che definisce le procedure e le misure adottate per:

- monitorare gli eventi societari connessi agli strumenti finanziari detenuti dai portafogli gestiti, laddove richiesto dalle caratteristiche degli strumenti finanziari che incorporano i diritti da esercitare;
- valutare le modalità e i tempi per l'eventuale esercizio dei diritti di intervento e di voto, sulla base di un'analisi costi/benefici che consideri anche gli obiettivi e la politica di investimento di ciascun portafoglio gestito;
- prevenire o gestire le eventuali situazioni di conflitto di interessi che possono risultare dall'esercizio dei diritti di voto per conto dei patrimoni gestiti.

La partecipazione alle Assemblee è regolata da una specifica procedura operativa interna che disciplina le modalità di partecipazione nell'interesse dei portafogli gestiti e dell'integrità del mercato, con l'obiettivo di ridurre al minimo il rischio di conflitti di interesse. A tal fine, la SGR si è dotata di appositi presidi volti ad identificare le circostanze che generano o potrebbero generare situazioni di conflitto di interesse e quindi ledere gravemente gli interessi di uno o più Clienti/Investitori/OICR. La SGR interviene, per conto dei patrimoni gestiti, nelle assemblee di selezionate società con azioni quotate alla Borsa Italiana e sui mercati internazionali, tenendo conto dell'utilità della partecipazione rispetto agli interessi dei patrimoni gestiti e della possibilità di incidere sulle decisioni in relazione ai diritti di voto posseduti.

Con specifico riferimento alle motivazioni che guidano la scelta di esercitare i diritti di intervento e di voto, la SGR ha individuato i seguenti criteri di tipo quantitativo e qualitativo:

- partecipare alla vita assembleare di quelle società nelle quali si detengano quote significative di capitale, quali di tempo in tempo individuate nelle procedure aziendali;
- partecipare a quelle assemblee che presentino tematiche giudicate rilevanti nell'interesse dei patrimoni gestiti al fine di (i) stigmatizzare situazioni di particolare rilievo, in difesa o a supporto degli interessi degli azionisti di minoranza o (ii) supportare decisioni significative riferite a pratiche ambientali, sociali e di buon governo societario;
- contribuire ad eleggere sindaci o consiglieri di amministrazione di società quotate in Italia mediante il meccanismo del voto di lista, in rappresentanza delle minoranze azionarie;
- partecipare alle assemblee in cui vengono deliberate operazioni straordinarie ritenute significative per l'interesse dei patrimoni gestiti al fine di supportare o contrastare l'operazione proposta.

Qualora uno o più di tali criteri siano soddisfatti, la struttura ESG & Strategic Activism definisce le proposte relative alle istruzioni di voto sulla base (i) di analisi e di approfondimenti svolti su documenti pubblici, (ii) della ricerca disponibile, a supporto delle decisioni di corporate governance e nelle raccomandazioni di voto, (iii) delle indicazioni fornite dai gestori di riferimento, nonché (iv) degli esiti dell'eventuale interazione con la società emittente (cd. "engagement"). La partecipazione alle singole assemblee viene autorizzata dall'Amministratore Delegato della SGR che definisce altresì (i) il voto da esprimere, (ii) le eventuali specifiche istanze da manifestare nell'interesse degli investitori, in modo indipendente da qualsiasi condizionamento interno ed esterno alla Società e (iii) le modalità di partecipazione, ivi compresa la delega, in occasione delle singole assemblee, da conferire a Società terze specializzate, impartendo esplicite istruzioni. Qualora ritenuta la modalità più efficiente nell'interesse dei patrimoni gestiti e non ricorrano i criteri quali-quantitativi sopra indicati, la SGR esercita, inoltre, i diritti di voto avvalendosi del processo di voto elettronico eventualmente previsto dagli emittenti. A tal fine, la SGR si avvale di una piattaforma informatica che permette di efficientare il processo di esercizio dei diritti di voto, con particolare riferimento agli emittenti esteri. In tali situazioni, le istruzioni di voto sono definite sulla base di apposite linee guida approvate dal Consiglio di Amministrazione su proposta formulata dall'Amministratore Delegato e Direttore Generale.

Eurizon Capital si impegna, inoltre, ad effettuare una ricerca approfondita e ad instaurare un dialogo costruttivo con gli organi di amministrazione e/o controllo degli "emittenti rilevanti" individuati in base a precisi criteri di selezione definiti nella Politica di Impegno (c.d. "Engagement Policy") di Eurizon Capital SGR che è pubblica e disponibile sul sito internet della SGR.

La SGR promuove un'interazione proattiva nei confronti delle società in cui investe, incoraggiando un'efficace comunicazione con il management di tali emittenti, ricorrendo ad una delle seguenti modalità di ingaggio:

- "unilaterale", qualora sia SGR ad avviare la comunicazione ("one-way");
- "bilaterale", laddove la SGR e l'emittente partecipato abbiano instaurato un dialogo costruttivo ("two-way");
- "collettivo", ove sia prevista l'azione coordinata su temi mirati di più investitori istituzionali, anche tramite la partecipazione alle attività del Comitato di Corporate Governance e del Comitato dei Gestori promossi da Assogestioni, con altri investitori istituzionali firmatari di UN PRI, oppure nell'ambito di altre sedi internazionali di rilievo.

I documenti relativi all'attività di Stewardship di Eurizon sono disponibili sul sito internet della SGR.

Si riporta di seguito l'elenco delle Assemblee degli azionisti in cui la SGR è intervenuta per conto del Fondo nel corso del periodo di riferimento:

Redeia Corporacion SA, Assicurazioni Generali S.p.A., BPER Banca S.p.A., CIR S.p.A. - Cie Industriali Riunite, Danieli & C. Officine Meccaniche S.p.A., Saras S.p.A., SAES Getters S.p.A., Banca Generali S.p.A., Banco di Desio e della Brianza S.p.A., Cembre S.p.A., SOL S.p.A., Acea S.p.A., Buzzi S.p.A., Fincantieri S.p.A., TXT e-solutions S.p.A., Arnoldo Mondadori Editore S.p.A., Piaggio & C S.p.A., De'Longhi S.p.A., Credito Emiliano S.p.A., Enel S.p.A., Tamburi Investment Partners S.p.A., Banca IFIS S.p.A., Fiera Milano S.p.A., MARR S.p.A., Leonardo S.p.A., Webuild S.p.A., Ascopiave S.p.A., Prysmian S.p.A., Gruppo MutuiOnline S.p.A., Salvatore Ferragamo S.p.A., SeSa S.p.A., Banca Mediolanum S.p.A., Maire Tecnimont S.p.A., Anima Holding S.p.A., Tinexta S.p.A., OVS S.p.A., Rai Way S.p.A., LU-VE S.p.A., Avio S.p.A., Technogym S.p.A., ENAV S.p.A., GPI S.p.A., BFF Bank S.p.A., Italmobiliare S.p.A., Pharmanutra S.p.A., Reply S.p.A., Carel Industries S.p.A., Gibus S.p.A., Philogen S.p.A., Ferretti S.p.A., GVS S.p.A., CY4Gate S.p.A., Almawave S.p.A., El.En. Sostenibilità

La SGR si è dotata della Politica di Sostenibilità che descrive le metodologie di selezione e monitoraggio degli strumenti finanziari adottate al fine di integrare l'analisi dei rischi di sostenibilità nell'ambito del proprio Processo di Investimento relativo ai servizi di gestione collettiva del risparmio e di gestione di portafogli e alle raccomandazioni effettuate nell'ambito del servizio di consulenza in materia di investimenti.

In linea con i "Principi per gli Investimenti Sostenibili" (PRI) promossi dalle Nazioni Unite e con il quadro normativo e regolamentare europeo, la SGR ha adottato metodologie che prevedono l'applicazione di specifici processi di selezione degli strumenti finanziari, opportunamente graduati in funzione delle caratteristiche e degli obiettivi dei singoli prodotti gestiti, che tengono conto di fattori ambientali, sociali e di governance ("Environmental, Social and Governance factors" - ESG) e di principi di Investimento Sostenibile e Responsabile ("Sustainable and Responsible Investments" - SRI).

I criteri di selezione e monitoraggio degli emittenti basati su profili ESG e SRI integrano le tradizionali analisi finanziarie dei profili di rischio/rendimento degli emittenti che la SGR prende in considerazione nella formazione delle proprie scelte di investimento al fine di (i) evitare che condizioni di tipo ambientale, sociale e di governance possano determinare un significativo impatto negativo, effettivo o potenziale, sul valore degli investimenti dei patrimoni gestiti e (ii) cogliere le capacità degli emittenti di trarre vantaggio dalle opportunità di crescita sostenibile.

In conformità a quanto previsto dalla normativa vigente la SGR mette a disposizione dei propri clienti/investitori e degli altri stakeholder la Sintesi della Politica di Sostenibilità, ed ogni eventuale aggiornamento rilevante della stessa, sul proprio sito Internet www.eurizoncapital.com.

Informazioni su SFDR e tassonomia

La SGR, ai sensi all'articolo 11, paragrafo 2, del Regolamento (UE) 2019/2088 (cd. "Regolamento SFDR") e della correlata disciplina di attuazione, mette a disposizione per i prodotti classificati ai sensi dell'art.8 del Regolamento SFDR, le informazioni sulle caratteristiche ambientali e/o sociali nell'allegato "Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario".

Milano, 25 febbraio 2025

 IL CONSIGLIO DI AMMINISTRAZIONE

RELAZIONE DI GESTIONE AL 30 DICEMBRE 2024

PREMESSA

La Relazione di gestione del Fondo si compone di una Situazione patrimoniale, di una Sezione reddituale e di una Nota integrativa ed è stata redatta in conformità alle disposizioni del Regolamento della Banca d'Italia del 19 gennaio 2015 in materia di gestione collettiva del risparmio, come modificato dal Provvedimento della Banca d'Italia del 12 marzo 2024. Questi sono inoltre accompagnati dalla relazione degli amministratori.

I prospetti contabili e la nota integrativa sono redatti in unità di euro, senza cifre decimali, a eccezione del valore della quota, che viene calcolato in millesimi di euro.

La presente Relazione di gestione è redatta con riferimento al 30 dicembre 2024, che risulta, ai sensi del regolamento del Fondo attualmente in vigore, l'ultimo giorno di calcolo del valore della quota del mese di dicembre. Tale data rappresenta pertanto il termine dell'esercizio contabile del Fondo.

Come espressamente previsto dal Provvedimento di riferimento, i prospetti allegati sono stati posti a confronto con i dati relativi al periodo precedente.

L'Assemblea degli Azionisti di Eurizon Capital SGR S.p.A. del 16 marzo 2020 ha incaricato EY S.p.A. della revisione legale del bilancio d'esercizio e della revisione contabile delle relazioni di gestione dei Fondi comuni d'investimento istituiti dalla SGR per gli esercizi 2021 - 2029.

Milano, 25 febbraio 2025

Per IL CONSIGLIO DI AMMINISTRAZIONE
Luigi Pirelli

Per

NOTA INTEGRATIVA

Parte A - Andamento del valore della quota

1) Nel periodo di riferimento, la performance del Fondo, al netto delle commissioni applicate, relativa alla Classe I, alla Classe R e alla Classe X e la performance del benchmark di riferimento, sono state rispettivamente pari a 10,04%, 9,08%, 9,95% e 10,20%, 10,20%, 10,20%.

Classe I

Classe R

Classe X

2) Il rendimento annuo del Fondo e del benchmark nel corso degli ultimi dieci anni, o del minor periodo di vita delle Classi del Fondo, può essere rappresentato come segue:

Pitz

Classe I

Classe R

Classe X

I dati di rendimento del Fondo non includono eventuali costi di sottoscrizione e rimborso a carico dell'investitore. La performance del Fondo e del benchmark riflette valori che fino al 30/06/2011 erano al netto dell'effetto fiscale, mentre dal 01/07/2011 sono calcolati al lordo di tale componente.

3) I valori minimi e massimi delle differenti Classi di quota raggiunti durante l'esercizio sono così raffigurabili:

Andamento del valore della quota durante l'esercizio - classe I	
Valore minimo al 03/01/24	11,127
Valore massimo al 12/07/24	12,843

Andamento del valore della quota durante l'esercizio - classe R	
Valore minimo al 03/01/24	10,307
Valore massimo al 12/07/24	11,827

Andamento del valore della quota durante l'esercizio - classe X	
Valore minimo al 03/01/24	11,179
Valore massimo al 12/07/24	12,899

Per quanto concerne i principali eventi che hanno influito sull'andamento del valore della quota si rimanda a quanto illustrato nel commento di gestione.

4) Il Fondo presenta la suddivisione nelle differenti Classi di quote, descritte nel paragrafo del "Fondo comune di investimento".

5) Per il periodo compreso dal 20 giugno 2017 e il 25 luglio 2024 per le quote di Classe R e dal 20 maggio 2019 e 25 luglio 2024 è stato riscontrato per le quote di Classe I un errore nel calcolo del valore delle quote del Fondo. L'errata valorizzazione ha generato una sottovalutazione del valore delle quote dell'OICVM di cui in oggetto.

La società ha provveduto a reintegrare i partecipanti e il patrimonio delle Classi R e I del Fondo.

Si precisa che si è proceduto a pubblicare sul quotidiano "Il Sole 24 Ore" l'informativa in merito alla rettifica del valore delle quote.

6) La volatilità della differenza di rendimento del Fondo rispetto al benchmark di riferimento negli ultimi tre anni o del minor periodo di vita del Fondo è rappresentata dal valore della “Tracking Error Volatility(*)” di seguito riportata:

Classe	2024	2023	2022
I	0,87%	0,97%	1,33%
R	0,87%	0,96%	1,34%
X	0,87%	0,96%	1,33%

(*) La Tracking Error Volatility è calcolata come deviazione standard settimanale annualizzata della differenza tra la performance del Fondo e quella del benchmark.

7) Le quote del Fondo non sono trattate su mercati regolamentati.

8) Le quote del Fondo sono del tipo ad accumulazione. I proventi realizzati non vengono pertanto distribuiti ma restano compresi nel patrimonio del Fondo.

9) Il Fondo investe in un singolo mercato geografico e i rischi a cui è esposto sono quelli tipici dell'investimento azionario italiano, riconducibili al contesto politico nazionale e all'evoluzione del contesto economico. Le scelte di gestione monitorano con attenzione i fattori di rischio e cercano di mitigarli attraverso la selezione di titoli di società di qualità, attraverso un portafoglio diversificato sui vari segmenti del mercato, e la gestione anche in chiave tattica.

Il monitoraggio di tali rischi viene effettuato su base continuativa dal gestore attraverso la costante verifica dell'effettivo posizionamento del Fondo rispetto al profilo di rischio-rendimento desiderato e al benchmark di riferimento. La misurazione ed il controllo dei rischi in oggetto viene inoltre effettuata con frequenza giornaliera mediante l'utilizzo di modelli matematico-statistici utilizzati autonomamente dalla struttura di Risk Management. I risultati di tali valutazioni sono regolarmente portati all'attenzione degli organi amministrativi della SGR.

Ai fini di fornire una rappresentazione dei rischi assunti nell'esercizio, si riporta qui di seguito una sintesi degli indicatori più significativi, elaborati a posteriori su dati di consuntivo:

	Classe I	Classe R	Classe X
Volatilità annualizzata su quote nette del Fondo (esprime la misura annualizzata della variabilità settimanale del rendimento della quota rispetto al valore medio del rendimento stesso)	12,72%	12,67%	12,74%
Volatilità annualizzata del Benchmark (esprime la misura annualizzata della variabilità del rendimento del benchmark rispetto al valore medio del rendimento stesso)	12,28%	12,28%	12,28%
Var mensile (99%) su quote nette (Minor rendimento realizzato su base mensile nel corso del periodo di riferimento determinato escludendo l'1% dei peggiori risultati)	-6,65%	-6,57%	-6,70%

Nel periodo di riferimento non sono stati utilizzati strumenti derivati con finalità di copertura.

Parte B - Le attività, le passività e il valore complessivo netto

SEZIONE I - Criteri di valutazione

Principi contabili

La presente relazione di gestione è redatta nel presupposto della continuità operativa del Fondo.

Nella redazione del presente documento vengono applicati i principi contabili di generale accettazione per i fondi comuni d'investimento e i criteri di valutazione previsti dal Regolamento in accordo con quanto espressamente disposto dalla Banca d'Italia. Tali principi contabili, coerenti con quelli utilizzati nel corso del periodo per la predisposizione dei prospetti giornalieri, sono di seguito riepilogati.

Criteri contabili

Gli acquisti e le vendite di titoli e di altre attività sono contabilizzati nel portafoglio del Fondo sulla base della data di effettuazione dell'operazione, indipendentemente dalla data di regolamento dell'operazione stessa. Nel caso di sottoscrizione di titoli di nuova emissione la contabilizzazione nel portafoglio del Fondo avviene invece alla data di attribuzione.

La vendita o l'acquisto di contratti future su titoli nozionali influenzano il valore netto del Fondo attraverso la corresponsione o l'incasso dei margini di variazione i quali incidono direttamente sulla liquidità disponibile e sul conto economico mediante l'imputazione dei differenziali positivi/negativi. Tali differenziali vengono registrati secondo il principio della competenza, sulla base della variazione giornaliera tra i prezzi di chiusura del mercato di contrattazione e i costi dei contratti stipulati e/o i prezzi del giorno precedente.

Le opzioni, i premi e i warrant acquistati e le opzioni emesse e i premi venduti sono computati tra le attività/passività al loro valore corrente. I controvalori delle opzioni, dei premi e dei warrant non esercitati confluiscono, alla scadenza, nelle apposite poste di conto economico.

I costi delle opzioni, dei premi e dei warrant, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i costi per acquisti e i ricavi per vendite dei titoli cui si riferiscono, mentre i ricavi da premi venduti e opzioni emesse, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i ricavi per vendite e i costi per acquisti dei titoli cui si riferiscono.

Le differenze tra i costi medi ponderati di carico e i prezzi di mercato relativamente alle quantità in portafoglio originano minusvalenze e/o plusvalenze; nell'esercizio successivo tali poste da valutazione influiranno direttamente sui relativi valori di libro. Gli utili e le perdite su realizzazioni riflettono la differenza fra i costi medi ponderati di carico e i prezzi relativi alle vendite dell'esercizio. Le commissioni di acquisto e vendita corrisposte alle controparti, qualora esplicitate sono imputate a costo nella voce "13. Altri Oneri" della Sezione Reddittuale della relazione di gestione.

Gli interessi e gli altri proventi su titoli, gli interessi sui depositi bancari, gli interessi sui prestiti, nonché gli oneri di gestione, vengono registrati secondo il principio della competenza temporale, mediante il calcolo, ove necessario, di ratei attivi e passivi.

I dividendi maturati su titoli azionari in portafoglio vengono registrati dal giorno della quotazione ex cedola, al netto della ritenuta d'imposta ove applicata.

Le sottoscrizioni e i rimborsi delle quote sono registrati a norma di Regolamento del Fondo, nel rispetto del principio della competenza temporale.

Criteri di valutazione

Il prezzo di valutazione dei titoli in portafoglio in ottemperanza a quanto disposto dalla normativa vigente è determinato sulla base dei seguenti parametri:

- i prezzi unitari utilizzati, determinati in base all'ultimo prezzo disponibile rilevato sul mercato di negoziazione, sono quelli del giorno di Borsa aperta al quale si riferisce il valore della quota;
- per i titoli di Stato italiani è l'ultimo prezzo rilevato sul Mercato Telematico (MOT) e, in mancanza di quotazione, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli obbligazionari quotati negoziati presso il Mercato Telematico (MOT) è il prezzo trade e, in mancanza di questo, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli quotati presso altri mercati regolamentati, è l'ultimo prezzo ufficiale disponibile entro le ore 24 italiane del giorno al quale si riferisce il valore della quota. Se il titolo è trattato su più mercati si applica la quotazione più significativa, tenuto conto anche delle quantità trattate e dell'operatività svolta dal Fondo. Nel caso in cui nel mercato di quotazione risultino contenuti gli scambi ed esistano elementi di scarsa liquidità, la valutazione tiene altresì conto del presumibile valore di realizzo determinabile anche sulla base delle informazioni reperibili su circuiti internazionali di

referimento oggettivamente considerate dai responsabili organi della SGR;

- per i titoli e le altre attività finanziarie non quotati, compresi quelli esteri, è il loro presumibile valore di realizzo sul mercato, individuato su un'ampia base di elementi di informazione - oggettivamente considerati dai responsabili organi della SGR - con riferimento alla peculiarità del titolo, alla situazione patrimoniale e reddituale degli emittenti, alla situazione del mercato e al generale andamento dei tassi di interesse;

- per le opzioni, i warrant e gli strumenti derivati trattati in mercati regolamentati è il prezzo di chiusura del giorno rilevato nel mercato di trattazione; nel caso di contratti trattati su più mercati è il prezzo più significativo, anche in relazione alle quantità trattate sulle diverse piazze e all'operatività svolta dal Fondo;

- per le opzioni, i warrant e gli strumenti derivati non trattati in mercati regolamentati è il valore corrente espresso dalla formula indicata dall'Organo di Vigilanza; qualora i valori risultassero incongruenti con le quotazioni espresse dal mercato, la SGR riconsidera il tasso d'interesse "risk free" e la volatilità utilizzati, al fine di ricondurne il risultato al presunto valore di realizzo;

- per la conversione in Euro delle valutazioni espresse in altre valute si applicano i relativi cambi correnti alla data di riferimento comunicati da WM Reuters. Le operazioni a termine in valuta sono convertite al tasso di cambio a termine corrente per scadenze corrispondenti a quelle delle operazioni oggetto di valutazione;

- per i titoli strutturati non quotati la valutazione viene effettuata procedendo alla valutazione distinta di tutte le singole componenti elementari in cui essi possono essere scomposti; per titoli strutturati si intendono quei titoli che incorporano una componente derivata e/o presentano il profilo di rischio di altri strumenti finanziari sottostanti. In particolare, non sono considerati titoli strutturati i titoli di Stato parametrati a tassi di interesse di mercato e i titoli obbligazionari di emissione societaria che prevedono il rimborso anticipato.

SEZIONE II - Le attività

Qui di seguito vengono riportati alcuni grafici che forniscono l'indicazione della composizione del portafoglio del Fondo alla chiusura dell'esercizio, ripartito in base alle aree geografiche verso cui sono orientati gli investimenti e in base ai settori economici di impiego delle risorse del Fondo.

Si riporta inoltre l'elenco analitico dei principali strumenti finanziari detenuti dal Fondo (i primi 50 o comunque tutti quelli che superano lo 0,5% delle attività del Fondo).

Aree geografiche verso cui sono orientati gli investimenti

Settori economici di impiego delle risorse del Fondo

Si segnala che le parti di OICR sono classificate all'interno del settore finanziario.

II.1 STRUMENTI FINANZIARI QUOTATI

Ripartizione degli strumenti finanziari quotati per Paese di residenza dell'emittente:

	Paesi di residenza dell'emittente			
	Italia	Paesi dell'UE	Altri paesi dell'OCSE	Altri paesi
Titoli di debito: - di Stato - di altri enti pubblici - di banche - di altri				
Titoli di capitale: - con diritto di voto - con voto limitato - altri	259.944.263 772.389	405.107		
Parti di OICR: - OICVM - FIA aperti retail - altri		1		
Totali: - in valore assoluto - in percentuale del totale delle attività	260.716.652 97,3	405.108 0,2		

Nel caso di quote di OICR, la ripartizione per paese di residenza dell'emittente è stata effettuata tenendo in considerazione i mercati prevalenti nei quali gli OICR investono.

Ripartizione degli strumenti finanziari quotati per mercato di quotazione:

	Mercato di quotazione			
	Italia	Paesi dell'UE	Altri paesi dell'OCSE	Altri paesi
Titoli quotati Titoli in attesa di quotazione	261.121.759	1		
Totali: - in valore assoluto - in percentuale del totale delle attività	261.121.759 97,5	1		

Si segnala che, le quote di OICR, in accordo con quanto stabilito dal Regolamento della Banca d'Italia, sono ricondotte tra gli strumenti finanziari quotati. La ripartizione per mercato di quotazione, in tal caso, viene effettuata in base al paese di residenza della SGR che li ha istituiti.

Movimenti dell'esercizio:

	Controvalore acquisti	Controvalore vendite/rimborsi
Titoli di debito: - titoli di Stato - altri		
Titoli di capitale	187.266.596	224.027.908
Parti di OICR		
Totale	187.266.596	224.027.908

II.2 STRUMENTI FINANZIARI NON QUOTATI

Ripartizione degli strumenti finanziari non quotati per Paese di residenza dell'emittente:

	Paesi di residenza dell'emittente			
	Italia	Paesi dell'UE	Altri paesi dell'OCSE	Altri paesi
Titoli di debito: - di Stato - di altri enti pubblici - di banche - di altri				
Titoli di capitale: - con diritto di voto - con voto limitato - altri	939.181 1.913			
Parti di OICR: - FIA aperti retail - altri				
Totali: - in valore assoluto - in percentuale del totale delle attività	941.094 0,4			

Movimenti dell'esercizio:

	Controvalore acquisti	Controvalore vendite/rimborsi
Titoli di debito: - titoli di Stato - altri Titoli di capitale Parti di OICR	551.181	4.185
Totale	551.181	4.185

II.3 TITOLI DI DEBITO

1) Non risultano in portafoglio titoli strutturati.

II.8 POSIZIONE NETTA DI LIQUIDITÀ

La posizione netta di liquidità è composta dalle seguenti sottovoci:

Descrizione	Importo
Liquidità disponibile	5.830.242
- Liquidità disponibile in euro	5.698.152
- Liquidità disponibile in divisa estera	132.090
Liquidità impegnata per operazioni da regolare	-128.615
- Acquisti di strumenti finanziari	-128.615
Totale posizione netta di liquidità	5.701.627

II.9 ALTRE ATTIVITÀ

Le altre attività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Ratei attivi	5.163
- Su liquidità disponibile	5.163
Totale altre attività	5.163

SEZIONE III - Le passività

III.1 FINANZIAMENTI RICEVUTI

Il Fondo ricorre a forme di finanziamento rappresentate da affidamenti temporanei di conto corrente concessi dal Depositario, che non risultano utilizzati a fine esercizio.

III.5 DEBITI VERSO PARTECIPANTI

I debiti verso partecipanti sono così dettagliabili:

Descrizione	Data estinzione debito	Importi
Rimborsi richiesti e non regolati		221.593
-	31/12/2024	221.593
Totale debiti verso i partecipanti		221.593

III.6 ALTRE PASSIVITÀ

Le altre passività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Provvigioni ed oneri maturati e non liquidati	410.433
- Commissioni Depositario, custodia e amministrazione titoli	6.527
- Provvigioni di gestione	371.372
- Ratei passivi su conti correnti	19.160
- Commissione calcolo NAV	7.943
- Commissioni di tenuta conti liquidità	5.431
Altre	19.011
- Società di revisione	13.416
- Spese per pubblicazione	5.595
Totale altre passività	429.444

SEZIONE IV - Il Valore Complessivo Netto

1) Le quote in circolazione a fine periodo detenute da investitori qualificati risultano in numero di 507.405 pari a 2,53% per la Classe R, in numero di 61.866 pari a 100,00% per la Classe I e in numero di 2.714.104 pari a 100,00% per la Classe X delle quote in circolazione alla data di chiusura.

2) Le quote in circolazione a fine periodo detenute da soggetti non residenti risultano in numero di 397.269 pari a 1,98% per la Classe R, nulle per la Classe I e nulle per la Classe X delle quote in circolazione alla data di chiusura.

3) Le componenti che hanno determinato la variazione della consistenza del patrimonio netto tra l'inizio e la fine del periodo sono qui di seguito riportate:

Variazioni del patrimonio netto			
Classe I	Anno 2024	Anno 2023	Anno 2022
Patrimonio netto a inizio periodo	706.290	608.911	754.538
Incrementi:			
a) sottoscrizioni:		1	
- sottoscrizioni singole			
- piani di accumulo			
- switch in entrata		1	
b) risultato positivo della gestione	71.965	97.378	
Decrementi:			
a) rimborsi:			
- riscatti			
- piani di rimborso			
- switch in uscita			
b) proventi distribuiti			
c) risultato negativo della gestione			145.627
Patrimonio netto a fine periodo	778.255	706.290	608.911

Variazioni del patrimonio netto			
Classe R	Anno 2024	Anno 2023	Anno 2022
Patrimonio netto a inizio periodo	254.491.216	258.054.766	341.265.745
Incrementi:			
a) sottoscrizioni:	25.594.592	27.258.613	46.217.166
- sottoscrizioni singole	10.587.354	8.288.809	23.463.044
- piani di accumulo	11.787.617	13.381.309	18.533.588
- switch in entrata	3.219.621	5.588.495	4.220.534
b) risultato positivo della gestione	22.018.129	35.529.223	
Decrementi:			
a) rimborsi:	69.990.783	66.351.386	60.662.514
- riscatti	60.506.857	57.684.248	51.843.669
- piani di rimborso	20.900	13.500	24.800
- switch in uscita	9.463.026	8.653.638	8.794.045
b) proventi distribuiti			
c) risultato negativo della gestione			68.765.631
Patrimonio netto a fine periodo	232.113.154	254.491.216	258.054.766

Variazioni del patrimonio netto			
Classe X	Anno 2024	Anno 2023	Anno 2022
Patrimonio netto a inizio periodo	20.722.671	17.876.671	22.161.428
Incrementi:			
a) sottoscrizioni:	10.967.230		
- sottoscrizioni singole	10.967.230

Decrementi:			
a) rimborsi:		1	2
- riscatti		1	2
- piani di rimborso			
- switch in uscita			
b) proventi distribuiti			
c) risultato negativo della gestione			4.284.755
Patrimonio netto a fine periodo	34.227.198	20.722.671	17.876.671

SEZIONE V - Altri dati patrimoniali

V.3 COMPOSIZIONE DELLE POSTE PATRIMONIALI DEL FONDO PER DIVISA DI DENOMINAZIONE

Le poste patrimoniali alla fine del periodo erano così ripartite per divisa di denominazione:

	ATTIVITÀ				PASSIVITÀ		
	Strumenti finanziari	Depositi bancari	Altre attività	TOTALE	Finanziamenti ricevuti	Altre passività	TOTALE
Euro	262.062.854		5.574.131	267.636.985		651.037	651.037
Dollaro Statunitense			132.659	132.659			
TOTALE	262.062.854		5.706.790	267.769.644		651.037	651.037

Parte C - Il risultato economico dell'esercizio

SEZIONE I - Strumenti finanziari quotati e non quotati e relative operazioni di copertura

I.1 RISULTATO DELLE OPERAZIONI SU STRUMENTI FINANZIARI

Il risultato delle operazioni del periodo è così dettagliabile:

Risultato complessivo delle operazioni su:	Utile/perdita da realizzi	di cui: per variazioni dei tassi di cambio	Plus / minusvalenze	di cui: per variazioni dei tassi di cambio
A. Strumenti finanziari quotati	3.575.919		14.986.118	
1. Titoli di debito				
2. Titoli di capitale	3.575.919		14.986.118	
3. Parti di OICR				
- OICVM				
- FIA				
B. Strumenti finanziari non quotati			-52.000	
1. Titoli di debito				
2. Titoli di capitale			-52.000	
3. Parti di OICR				

SEZIONE III - Altre operazioni di gestione e oneri finanziari

III.2 RISULTATO DELLA GESTIONE CAMBI

Le differenze di cambio derivanti dalla gestione della liquidità in valuta sono di seguito dettagliate:

Risultato della gestione cambi		
	Risultati realizzati	Risultati non realizzati
OPERAZIONI DI COPERTURA		
Operazioni a termine		
Strumenti finanziari derivati su tassi di cambio		
- future su valute e altri contratti simili		
- opzioni su tassi di cambio e altri contratti simili		
- swap e altri contratti simili		
OPERAZIONI NON DI COPERTURA		
Operazioni a termine		
Strumenti finanziari derivati su tassi di cambio		
- future su valute e altri contratti simili		
- opzioni su tassi e altri contratti simil		
- swap e altri contratti simili		
LIQUIDITÀ		4.528

III.3 INTERESSI PASSIVI SU FINANZIAMENTI RICEVUTI

Gli interessi passivi addebitati al Fondo nell'esercizio sono così dettagliabili:

Descrizione	Importi
Interessi passivi per scoperti di : - c/c denominati in Euro	-111.580
Totale interessi passivi su finanziamenti ricevuti	-111.580

III.4 ALTRI ONERI FINANZIARI

Gli altri oneri finanziari addebitati al Fondo nell'esercizio sono così dettagliabili:

Descrizione	Importi
Interessi negativi su saldi creditori	-2.683
Totale altri oneri finanziari	-2.683

SEZIONE IV - Oneri di gestione

IV.1 COSTI SOSTENUTI NEL PERIODO

I costi sostenuti nel complesso dal Fondo nell'esercizio sono così dettagliati:

ONERI DI GESTIONE	CLASSE	Importi complessivamente corrisposti				Importi corrisposti a soggetti del gruppo di appartenenza della SGR			
		Importo (migliaia di Euro)	% sul valore complessivo netto	% su valore dei beni negoziati	% su valore del finanziamento	Importo (migliaia di Euro)	% sul valore complessivo netto	% su valore dei beni negoziati	% su valore del finanziamento
1) Provvigioni di gestione	R	4.412	1,80

TOTALE SPESE (SOMMA DA 1 A 13)	I	6	0,83						
TOTALE SPESE (SOMMA DA 1 A 13)	X	237	0,89			4	0,00		

A fronte dell'attività di promozione e collocamento nonché dell'attività di assistenza fornita in via continuativa nei confronti dei partecipanti ai Fondi, anche nelle operazioni successive alla prima sottoscrizione e, laddove previsto, a fronte del servizio di consulenza, ai collocatori del Fondo sono stati riconosciuti i seguenti compensi:

- una quota parte degli importi percepiti dalla SGR a titolo di provvigioni di gestione, in media pari all'80,7%, corrispondente ad un importo di 3.561 migliaia di euro per la classe R, pari allo 0,0%, corrispondente ad un importo di 0 migliaia di euro per la classe I e pari all'84,9%, corrispondente ad un importo di 158 migliaia di euro per la classe X.

Si precisa che gli oneri di negoziazione su strumenti finanziari, sostenuti nell'esercizio e riportati al punto 11) della presente tabella, consistono nelle commissioni di negoziazione esplicitate dalle controparti. In caso contrario, tali oneri accessori risultano già inclusi nel prezzo di acquisto o vendita.

IV.2 COMMISSIONI DI PERFORMANCE (già provvigioni di incentivo)

La commissione di performance a favore della Società di Gestione viene calcolata e liquidata sulla base di quanto previsto dal Regolamento del Fondo così come esplicitato nella presente relazione tra le caratteristiche del Fondo Comune d'Investimento al relativo paragrafo delle "Spese ed oneri a carico del Fondo".

Alla fine dell'esercizio non sono state accantonate commissioni di performance, in quanto le stesse non risultavano dovute rispetto al calcolo effettuato a fine periodo contabile.

Commissioni di performance nell'esercizio	R	I	X
Importo delle commissioni di performance addebitate	0	0	0
Commissioni di performance (in percentuale del NAV)	0,0	0,0	0,0

IV.3 REMUNERAZIONI

Le Politiche di remunerazione e incentivazione della SGR sono state predisposte sulla base delle Politiche di Remunerazione del Gruppo Intesa Sanpaolo e, per quanto non in contrasto, non disciplinato o più restrittivo della normativa del settore bancario, nel rispetto delle disposizioni europee e nazionali che regolamentano il settore del Risparmio Gestito.

Al riguardo, la SGR elabora ed attua politiche e prassi di remunerazione ed incentivazione coerenti con le proprie caratteristiche, la propria dimensione e quella degli OICR gestiti, l'organizzazione interna, la natura, la portata e la complessità delle attività. L'applicazione dei sistemi di incentivazione per il personale della SGR è subordinata alle seguenti condizioni: (i) di attivazione a livello di Gruppo Intesa Sanpaolo e della SGR; (ii) di "finanziamento" previste dai connessi meccanismi a livello di Gruppo e della SGR, nonché (iii) di accesso individuale.

Tali condizioni sono ispirate ai principi di sostenibilità finanziaria della componente variabile dei compensi e rappresentate dalla verifica della "qualità" dei risultati reddituali raggiunti e della coerenza con i limiti previsti nell'ambito del quadro di riferimento per la determinazione della propensione al rischio del Gruppo Intesa Sanpaolo.

Nel dettaglio, la struttura della retribuzione variabile prevede modalità di erogazione differenziate in funzione del ruolo ricoperto (ad esempio nel caso del cd. "personale più rilevante") e del rapporto tra retribuzione variabile e fissa che prevede l'applicazione dei requisiti più stringenti della regolamentazione comunitaria, nazionale e di Gruppo, tra cui: (i) il differimento, ovvero la corresponsione della retribuzione variabile negli anni successivi a quello di maturazione; (ii) l'assegnazione di parte in contanti e parte in strumenti finanziari; (iii) la previsione di un meccanismo di mantenimento degli strumenti finanziari assegnati; (iv) la previsione di meccanismi di correzione che prevedano la riduzione parziale e/o totale della retribuzione variabile ovvero la restituzione dei premi già corrisposti. Sono, inoltre, vietate eventuali strategie di copertura personale o assicurazioni sulla remunerazione che possano alterare gli effetti di allineamento al rischio insiti nei meccanismi di remunerazione.

Con specifico riferimento alla filiera dei gestori, la definizione della remunerazione variabile viene effettuata tenendo conto del profilo di rischio/rendimento dei diversi patrimoni gestiti al fine di orientare e premiare le migliori performance e al tempo stesso allineare i sistemi incentivanti agli interessi degli investitori. La valutazione delle performance viene effettuata sulla base del livello di professionalità e della tipologia e complessità delle attività gestite. Oltre a tali valutazioni, è inoltre considerato il livello di raggiungimento di prestazioni qualitative di tipo discrezionale e/o progettuale, che rafforzano l'orientamento del singolo a obiettivi di lungo termine e verso performance sostenibili.

Le politiche di remunerazione e incentivazione della SGR sono altresì coerenti con le previsioni in tema di integrazione dei rischi di sostenibilità ai sensi del Regolamento UE 2019/2088.

Ciò posto, si forniscono le seguenti informazioni relative all'applicazione delle Politiche di remunerazione relative all'esercizio 2023:

- la remunerazione totale del personale della SGR è risultata pari a 59,8 milioni di euro, di cui 41,0 milioni di euro riconducibili alla componente fissa e 18,9 milioni di euro alla componente variabile liquidata. Al 31 dicembre 2023 il personale della SGR era composto da n. 531 dipendenti;
- la remunerazione totale del personale complessivamente coinvolto, anche in via non esclusiva, nella gestione delle attività del Fondo è risultata complessivamente pari a 1,1 milioni di euro, di cui 0,5 milioni di euro riconducibili alla componente fissa e 0,6 milioni di euro alla componente variabile;
- la remunerazione totale del personale più rilevante della SGR, ammonta complessivamente a 13,1 milioni di euro. La stessa risulta essere suddivisa tra le seguenti categorie di "personale più rilevante" di seguito indicate:
 - i) membri esecutivi e non esecutivi del Consiglio di Amministrazione, per complessivi 3,0 milioni di euro;
 - ii) i soggetti che riportano direttamente al vertice aziendale, nonché coloro i quali riportano direttamente al Consiglio di Amministrazione, all'Amministratore Delegato e al Collegio Sindacale, per complessivi 3,8 milioni di euro;
 - iii) personale appartenente alle funzioni aziendali di controllo, per complessivi 0,9 milioni di euro;
 - iv) altri soggetti che, individualmente o collettivamente, assumono rischi in modo significativo per la SGR o per i Fondi gestiti, per complessivi 5,2 milioni di euro;

v) altri soggetti la cui remunerazione totale si collochi nella medesima fascia retributiva delle categorie sub ii) e iv), per complessivi 0,2 milioni di euro;

- la proporzione della remunerazione totale del personale attribuibile al Fondo è pari al 6,7% del costo del personale coinvolto nella gestione del Fondo, cui corrisponde un numero medio di beneficiari pari a 4,5;

- le informazioni relative alle remunerazioni sono state determinate sulla base della contabilità industriale della SGR utilizzando i dati del Bilancio d'esercizio; gli esiti del riesame periodico svolto dal Consiglio di Amministrazione hanno riscontrato la rispondenza delle prassi operative seguite nella determinazione del sistema incentivante rispetto alle Politiche deliberate dagli Organi aziendali e alle disposizioni normative e di Gruppo in materia; non si evidenziano modifiche sostanziali rispetto alle Politiche di Remunerazione valide per il periodo precedente.

La sintesi delle Politiche di remunerazione e incentivazione della SGR è disponibile nel sito internet della SGR.

SEZIONE V - Altri ricavi ed oneri

Si riportano qui di seguito i dettagli delle voci interessi attivi su disponibilità liquide, altri ricavi e altri oneri:

Descrizione	Importi
Interessi attivi su disponibilità liquide	20.939
- C/C in Euro	19.140
- C/C in Dollaro Statunitense	1.799
Altri ricavi	1.038.960
- Sopravvenienze attive	1.038.613
- Ricavi vari	347
Altri oneri	-218.218
- Commissione su contratti regolati a margine	-77
- Commissione su operatività in titoli	-206.824
- Spese bancarie	-13
- Sopravvenienze passive	-179
- Spese varie	-11.125
Totale	841.681

SEZIONE VI - Imposte

Si riporta qui di seguito il riepilogo delle imposte del Fondo nell'esercizio rappresentate principalmente da imposte su titoli di capitale (c.d. Tobin tax), bolli su titoli di debito, bolli su OICR esteri e ritenute fiscali su c/c:

Descrizione	Importi
Altre imposte	-144.802
Totale imposte	-144.802

Parte D - Altre informazioni

2. INFORMAZIONE SUGLI ONERI DI INTERMEDIAZIONE

Nell'esercizio sono stati corrisposti oneri di intermediazione esplicitati dalle controparti e relativi ad operazioni effettuate in strumenti finanziari. Tali oneri sono stati così riconosciuti alle seguenti categorie di intermediari:

	<i>Soggetti non appartenenti al gruppo</i>	<i>Soggetti appartenenti al gruppo</i>	<i>Totale</i>
Banche italiane	41.273	33.064	74.337
SIM	59.885		59.885
Banche e imprese di investimento estere	43.954		43.954
Altre controparti	28.725		28.725

3. INFORMAZIONE SULLE UTILITÀ RICEVUTE

La SGR assorbe direttamente i costi connessi alla ricerca in materia di investimenti relativi ai prodotti gestiti al fine di mantenere inalterato il livello di qualità e di valore per tutti gli investitori, evitando di addebitare tali oneri al patrimonio gestito.

La SGR considera comunque ammissibili le seguenti tipologie di benefici non monetari di minore entità:

- le informazioni o la documentazione relativa a uno strumento finanziario o a un servizio di investimento di natura generica ovvero personalizzata in funzione di uno specifico cliente;
- il materiale scritto da terzi, commissionato e pagato da un emittente societario o da un emittente potenziale per promuovere una nuova emissione da parte della società, o quando l'intermediario è contrattualmente impegnato e pagato dall'emittente per produrre tale materiale in via continuativa, purché il rapporto sia chiaramente documentato nel materiale e quest'ultimo sia messo a disposizione di qualsiasi intermediario che desideri riceverlo o del pubblico in generale nello stesso momento;
- partecipazione a convegni, seminari e altri eventi formativi sui vantaggi e sulle caratteristiche di un determinato strumento finanziario o servizio di investimento;
- ospitalità di un valore de minimis ragionevole, come cibi e bevande nel corso di un incontro di lavoro o di una conferenza, seminario o altri eventi di formazione di cui alla lettera c).

5. TURNOVER

Il tasso di movimentazione del portafoglio del Fondo (c.d. turnover), espresso dal rapporto percentuale tra la somma degli acquisti e delle vendite di strumenti finanziari, al netto delle sottoscrizioni e rimborsi delle quote del Fondo, e il patrimonio netto medio del Fondo, nell'esercizio è stato pari a 112,8%.

TRASPARENZA DELLE OPERAZIONI DI FINANZIAMENTO TRAMITE TITOLI (SFT) E TOTAL RETURN SWAP ED EVENTUALE RIUTILIZZO

Con riferimento all'obbligo previsto dall'art. 13 comma 1 lett. a. del Regolamento UE 2015/2365 (Regolamento SFT) sulla trasparenza delle operazioni di finanziamento tramite titoli e dei total return swap, si informa che il Fondo non presenta posizioni in essere, relative a operazioni di Prestito titoli, Pronti contro termine, Repurchase transaction e Total return swap, alla data di riferimento della presente relazione e non ha fatto ricorso a tali operazioni nel periodo di riferimento della stessa.

Pertanto non sono rappresentate le informazioni previste alla sezione A dell'allegato del citato Regolamento UE.

Allegato - Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario.

Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario.

Nome prodotto: EURIZON AZIONI PMI ITALIA

Identificativo dell'Entità giuridica: 549300CTC5SOM2VT6688

Caratteristiche ambientali e/o sociali

PARTE I*Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?*☐ **SI**

- ☐ ha effettuato investimenti sostenibili con un obiettivo ambientale: _%
- ☐ in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'Unione Europea (UE)
- ☐ in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE
- ☐ ha effettuato investimenti sostenibili con un obiettivo sociale: _%

☒ **NO**

- ☒ ha promosso caratteristiche Ambientali/Sociali (A/S) e, pur non avendo come obiettivo un investimento sostenibile, aveva una quota del(lo) 63,47% di investimenti sostenibili:
 - ☐ con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'Unione Europea (UE)
 - ☒ con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE
 - ☒ con un obiettivo sociale
- ☐ ha promosso caratteristiche A/S, ma non ha effettuato alcun investimento sostenibile

PARTE II

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Il Fondo ha integrato fattori ambientali, sociali e di buon governo societario (cd. fattori "ESG") nell'analisi, selezione e composizione degli investimenti, con la finalità di conseguire un punteggio (cd. "Score ESG"), calcolato a livello complessivo di portafoglio/componente di portafoglio come media ponderata degli Score ESG dei singoli emittenti, superiore a quello del relativo parametro di riferimento (benchmark).

In considerazione della peculiarità e dell'eterogeneità dei singoli investimenti effettuati dal Fondo, la selezione degli emittenti è avvenuta sulla base del Score ESG complessivo dell'emittente e non per singola caratteristica ambientale e/o sociale promossa. Nello specifico, con riferimento alle caratteristiche ambientali e sociali promosse dal Fondo si riportano, per ciascuna di esse, i principali indicatori di sostenibilità scelti per misurarne il rispetto:

Limitazione gas ad effetto Serra

- Assenza di investimenti in imprese che derivano (i) almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (ii) almeno il 10% del fatturato derivante da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands), contribuendo così a limitare le emissioni di gas a effetto serra. (Esclusioni SRI)

- "ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti degli strumenti finanziari in portafoglio. La limitazione delle emissioni di gas a effetto serra è un indicatore considerato nell'ambito dello Score ESG. (ESG Score Integration)

Rispetto dei diritti umani

- Assenza di investimenti in società caratterizzate da un evidente coinvolgimento diretto nella manifattura di armi non convenzionali (Mine antiuomo; Bombe a grappolo; Armi nucleari; Uranio impoverito; Armi biologiche; Armi chimiche; Armi a frammentazione invisibile; Laser accecanti; Armi incendiarie; Fosforo bianco). (Esclusioni SRI)

Conservazione e ripristino della biodiversità, utilizzo di energia rinnovabile, utilizzo e provenienza di materie prime, gestione dei rifiuti

- Assenza o limitazione di investimenti in emittenti considerati "critici", ovvero quelle società caratterizzate da una più elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano un livello di rating di sostenibilità ESG più basso nell'universo di investimento. (Esclusioni ESG)

- "ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti gli strumenti finanziari in portafoglio. La conservazione e ripristino della biodiversità, l'utilizzo di energia rinnovabile, l'utilizzo e provenienza delle materie prime e la gestione dei rifiuti sono indicatori considerati nell'ambito dello Score ESG. (ESG Score Integration)

Contrasto delle disuguaglianze sociali, relazioni con il personale, investimenti nel capitale umano e parità di genere nell'organo amministrativo

- Assenza o limitazione di investimenti in emittenti considerati "critici", ovvero quelle società caratterizzate da una più elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano un livello di rating di sostenibilità ESG più basso nell'universo di investimento. (Esclusioni ESG)

- "ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti gli strumenti finanziari in portafoglio. Il contrasto delle disuguaglianze sociali, le relazioni con il personale, gli investimenti nel capitale umano e la parità di genere nell'organo amministrativo sono indicatori considerati nell'ambito dello Score ESG. (ESG Score Integration)

Qual è stata la prestazione degli indicatori di sostenibilità?

Indicatore di sostenibilità	Descrizione	2024-12-31
Esclusioni "SRI"	Il peso degli emittenti operanti in settori ritenuti non "socialmente responsabili", (i) quelle società caratterizzate da un evidente coinvolgimento diretto nella manifattura di armi non convenzionali, (ii) le società che derivano almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (iii) le società che derivano almeno il 10% del fatturato da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands).	0,00%
Esclusioni "ESG"	Il peso degli emittenti con un'elevata esposizione a rischi ESG (cd. "emittenti critici"), ossia quelle società caratterizzate da una elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano il livello di rating di sostenibilità ESG più basso, pari a "CCC", assegnato dall'info-provider specializzato "MSCI ESG Research".	0,00%
ESG Score Integration	Lo "score ESG" del prodotto/componente di portafoglio è calcolato dalla SGR sulla base di specifici datapoint dell'infoprovder MSCI ESG Research per ogni tipologia di strumento (es. titoli corporate, governativi, OICR). Tali valori sono successivamente aggregati attraverso una media ponderata tra i pesi dei singoli titoli e i corrispondenti Score ESG. Le medesime logiche sono utilizzate ai fini del calcolo dello score del benchmark del prodotto. Lo Score ESG viene calcolato giornalmente anche a supporto del processo di controllo dei limiti di investimento che prevede sia un controllo ex-ante in fase di predisposizione degli ordini sia ex-post in fase di valorizzazione dei portafogli.	Prodotto: 5,98 Benchmark: 5,96 L'ESG score viene calcolato su una scala da 0 a 10

Il prodotto finanziario promuove l'interazione proattiva nei confronti delle società emittenti sia mediante l'esercizio dei diritti di intervento e di voto sia mediante il confronto con le società partecipate, incoraggiando un'efficace comunicazione con il management delle società.

Esclusioni "ESG"	0,00%	0,00%
Esclusioni "SRI"	0,00%	0,00%
ESG Score Integration	Prodotto: 5,65 Benchmark: 5,60 L'ESG score viene calcolato su una scala da 0 a 10	Prodotto: 5,44 Benchmark: 5,42 L'ESG score viene calcolato su una scala da 0 a 10

Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario in parte ha realizzato e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?

La SGR ha adottato una metodologia di selezione degli investimenti sostenibili basata sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite (SDG). In particolare, tale metodologia permette di selezionare gli emittenti le cui attività contribuiscono ad uno o più Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite (cd. "Sustainable Development Goals" o "SDG"), sia attraverso i propri prodotti/servizi sia con riguardo allo svolgimento dei propri processi operativi, a condizione che detti investimenti non arrechino un danno significativo ad alcuno degli obiettivi ambientali o sociali stabiliti nel Regolamento (UE) 2019/2088 e che le imprese che beneficino di tali investimenti rispettino prassi di buona governance.

Gli Obiettivi di Sviluppo Sostenibile si pongono l'obiettivo di favorire uno sviluppo globale più consapevole e duraturo; nello specifico tali obiettivi ricomprendono, tra gli altri: il contrasto della povertà e della fame, il diritto alla salute, al lavoro e all'istruzione, la parità di genere e la riduzione delle disuguaglianze, l'accesso all'acqua e all'energia, l'urbanizzazione e la promozione di infrastrutture resilienti, il contrasto del cambiamento climatico e la tutela dell'ambiente inclusi la preservazione degli ecosistemi marini e terrestri.

La porzione minima di investimenti sostenibili è calcolata come il peso ponderato degli emittenti che risultano avere, con riferimento ai propri prodotti/servizi e processi produttivi: (i) un allineamento netto positivo ad almeno uno dei 17 SDG e (ii) nessun disallineamento netto nei confronti di alcuno dei 17 SDG a cui si somma l'eventuale peso ponderato di obbligazioni con proventi destinati al finanziamento di progetti ambientali e/o sociali. Nello specifico, la contribuzione ad uno o più SDG tiene conto di selezionate metriche quantitative e qualitative, tra cui l'esposizione a controversie, che contribuiscono ad evidenziare eventuali impatti avversi causati dall'emittente.

In che modo gli investimenti sostenibili che il prodotto finanziario in parte ha realizzato non hanno arrecato danno significativo a nessun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?

La misurazione della contribuzione di un emittente ad uno o più Obiettivi di Sviluppo Sostenibile ha tenuto conto di selezionate metriche quantitative e qualitative, tra cui l'esposizione a controversie, nell'ambito degli indicatori degli effetti negativi sui fattori di sostenibilità.

La Tassonomia UE stabilisce un principio di "non nuocere in modo significativo" ("do not significant harm" o "DNSH") secondo il quale gli investimenti allineati alla tassonomia non dovrebbero nuocere in modo significativo agli obiettivi della tassonomia dell'UE ed è accompagnata da criteri specifici dell'UE.

Il principio del "non nuocere in modo significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?

La metodologia di selezione degli investimenti sostenibili definita dalla SGR si basa sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite e tiene conto - con diversi gradi di intensità - dei principali indicatori di impatto avverso attraverso metriche quantitative e qualitative.

Gli indicatori di natura qualitativa comprendono l'eventuale (i) presenza di controversie relative al cambiamento climatico, a contaminanti rilasciati nel terreno, nell'aria e/o nell'acqua, alla discriminazione, agli standard lavorativi della catena di fornitura o al rispetto dei diritti umani; (ii) assenza di piani di transizione accompagnati da obiettivi di riduzione delle emissioni; (iii) generazione di energia da combustibili fossili e prodotti correlati o presenza di riserve utilizzabili di combustibili fossili e (iv) assenza di diversità nel Consiglio di Amministrazione o discriminazioni retributive.

Gli indicatori di natura quantitativa comprendono l'esclusione dall'universo investibile delle imprese che derivano (i) almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (ii) almeno il 10% del fatturato derivante da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands) nonché delle società coinvolte nella manifattura o nella vendita di armi non convenzionali (quali, tra le altre, mine antiuomo, bombe a grappolo, armi chimiche e armi biologiche).

Il principio di non arrecare un danno significativo (cd. "do not significant harm" - DNSH) viene verificato attraverso l'assenza di disallineamenti netti nei confronti di ciascuno dei n. 17 SDG. Il punteggio sintetico di ciascun SDG viene determinato mediante l'analisi dei punteggi attribuiti alle n. 2 componenti: (i) l'allineamento netto dei prodotti e servizi di un emittente ai target associati a ciascun SDG; e (ii) l'allineamento netto dei processi produttivi delle società emittenti rispetto a specifici obiettivi di sviluppo sostenibile.

Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?

La metodologia di selezione degli investimenti sostenibili basata sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite adottata dalla SGR tiene in considerazione i principali indicatori di impatto avverso attraverso metriche quantitative e qualitative, come per esempio l'esposizione dell'emittente a eventuali controversie. In tale ambito, per esempio, viene valutato il coinvolgimento dell'emittente riguardo a controversie sui Diritti dell'Uomo, sui Diritti dei Lavoratori e sulla condotta del proprio business.

PARTE III

In che modo questo prodotto finanziario ha preso in considerazione i principali impatti negativi sui fattori di sostenibilità?

La valutazione dei principali effetti negativi delle scelte di investimento sui fattori di sostenibilità e la definizione delle possibili azioni di mitigazione connesse costituiscono parte integrante dell'approccio della SGR alla sostenibilità. In tale ambito, la SGR si è dotata di un framework che prevede l'utilizzo di specifici indicatori di natura ambientale e sociale per la valutazione dei principali effetti negativi sui fattori di sostenibilità determinati in funzione delle caratteristiche e degli obiettivi dei singoli prodotti finanziari.

PAI considerati

Attività che incidono negativamente sulle aree sensibili sotto il profilo della biodiversità

Diversità di genere nel Consiglio di Amministrazione

Esposizione ad armi controverse (mine antiuomo, munizioni a grappolo, armi chimiche e armi biologiche)

Intensità delle emissioni di gas serra delle imprese beneficiarie degli investimenti

Intensità di emissioni di gas serra

Quota di investimenti in imprese attive nel settore dei combustibili fossili

PARTE IV

Quali sono stati i principali investimenti di questo prodotto finanziario?

Vengono elencati di seguito i principali investimenti¹ in cui ha investito il prodotto finanziario con l'indicazione del settore e del paese.

Principali titoli	Settore	Percentuale	Paese
REPLY SPA	COMUNICAZIONI	7,02%	Italia
BUZZI SPA	CEMENTIFERO	6,48%	Italia
DE LONGHI SPA	SETTORI DIVERSI	4,72%	Italia
BANCA GENERALI SPA	FINANZIARIO	4,17%	Italia
BFF BANK SPA	FINANZIARIO	4,01%	Italia
MAIRE TECNIMONT SPA	CEMENTIFERO	2,99%	Italia
SOL SPA	CHIMICO	2,96%	Italia
TECHNOGYM SPA	SETTORI DIVERSI	2,87%	Italia
IREN SPA	ELETTRONICO	2,84%	Italia
TECHNOPROBE SPA	ELETTRONICO	2,58%	Italia
ANIMA HLDG ORD	FINANZIARIO	2,56%	Italia
LOTTOMATICA GROUP SP	COMMERCIO	2,50%	Italia
BREMBO N.V.	MECCANICO ED AUTOMOBILISTICO	2,43%	Paesi Bassi
WEBUILD SPA	CEMENTIFERO	2,38%	Italia

¹ Qualora nel periodo di riferimento il Prodotto finanziario abbia investito cumulativamente il 50% del proprio portafoglio in meno di n. 15 strumenti, questi vengono rappresentati in ordine decrescente in base al rispettivo peso.

PARTE V

Quale è stata la quota degli investimenti in materia di sostenibilità?

Qual è stata l'allocazione degli attivi?

"#1 Allineati con caratteristiche A/S" comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

"#2 Altri" comprende gli investimenti rimanenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria "#1 Allineati con caratteristiche A/S" comprende:

- la sottocategoria "#1-a Sostenibili", che contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria "#1-b Altri investimenti allineati alle caratteristiche A/S" che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Attualmente, in considerazione del set informativo a disposizione della SGR alla data della presente rendicontazione periodica, la quota di investimenti ecosostenibili ai sensi del Regolamento (UE) 2020/852 (ovvero allineati alla tassonomia dell'UE) è stata valutata pari allo 0%. Il Prodotto finanziario potrebbe aver investito in attività ecosostenibili selezionate in base alla sua politica di investimento, ma tali investimenti non sono stati di per sé decisivi per il perseguimento delle caratteristiche ambientali del Prodotto finanziario.

Si evidenzia infine che gli investimenti sottostanti il presente Fondo non tengono conto dei criteri dell'Unione Europea per le attività economiche ecosostenibili.

Il prodotto finanziario ha investito in attività connesse al gas fossile e/o all'energia nucleare che erano conformi alla tassonomia dell'UE?²

- ☐ Sì
- ☐ Gas fossile ☐ Energia nucleare
- ☒ No

I due grafici che seguono mostrano in verde la percentuale di investimenti che erano allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane* alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.

*Ai fini dei grafici di cui sopra, per “obbligazioni sovrane” si intendono tutte le esposizioni sovrane.

² Le attività connesse al gas fossile e/o all'energia nucleare sono conformi alla tassonomia dell'UE solo se contribuiscono all'azione di contenimento dei cambiamenti climatici (“mitigazione dei cambiamenti climatici”) e non arrecano un danno significativo a nessuno degli obiettivi della tassonomia dell'UE. I criteri completi riguardanti le attività economiche connesse al gas fossile e all'energia nucleare che sono conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Qual era la quota degli investimenti effettuati in attività transitorie e abilitanti?

Attività transitorie	0,00%
Attività abilitanti	0,00%

Qual è l'esito del raffronto della percentuale degli investimenti che erano allineati alla tassonomia dell'UE rispetto ai precedenti periodi di riferimento?

Raffronto dei periodi precedenti considerando i sovereign bonds:

2023-12-29	
CapEx	0,00%
Fatturato	0,00%
OpEx	0,00%

Raffronto dei periodi precedenti escludendo i sovereign bonds:

2023-12-29	
CapEx	0,00%
Fatturato	0,00%
OpEx	0,00%

Qual era la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

La quota di investimenti sostenibili con un obiettivo ambientale è interamente non allineata alla tassonomia dell'UE e risulta pari al 19,71% del totale di investimenti.

Qual era la quota di investimenti socialmente sostenibili?

Il prodotto finanziario ha promosso caratteristiche ambientali e sociali e ha avuto una quota di investimenti socialmente sostenibili pari al 43,76% del totale degli investimenti.

Quali investimenti erano compresi nella categoria "Altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

Nella quota "Altri" sono inclusi: (i) eventuali investimenti in emittenti privi di score ESG; (ii) strumenti derivati sia per finalità di copertura dei rischi sia per finalità diverse da quelle di copertura; (iii) liquidità detenuta; (iv) eventuali strumenti, quali ad esempio i Pronti Contro Termine, utilizzati per l'efficiente gestione del portafoglio.

PARTE VI

Quali azioni sono state adottate per soddisfare le caratteristiche ambientali e/o sociali durante il periodo di riferimento?

Nel corso del periodo di riferimento oggetto della presente Informativa, la SGR ha monitorato il rispetto delle strategie di selezione degli strumenti finanziari riportate nella Parte II coerentemente con i principi di Investimento Sostenibile e Responsabile (SRI) e di fattori ambientali, sociali e di governance (ESG) promossi dal prodotto.

Il perseguimento delle caratteristiche ambientali e/o sociali viene presidiato attraverso appositi limiti di investimento. Il Prodotto finanziario ha inoltre promosso l'interazione proattiva nei confronti delle società emittenti sia mediante l'esercizio dei diritti di intervento e di voto sia mediante il confronto con le società partecipate, incoraggiando un'efficace comunicazione con il management delle società. Per maggiori informazioni si rimanda allo Stewardship Report pubblicato sul sito <https://www.eurizoncapital.com/it-IT/sostenibilita/politica-impegno-attivita-stewardship>.

PARTE VII

Qual è stata la prestazione di questo prodotto finanziario rispetto all'indice di riferimento?

Non è stato designato un indice di riferimento per il perseguimento delle caratteristiche ambientali/sociali del prodotto.

Relazione della società di revisione indipendente ai sensi degli articoli 14 e 19-bis del D. Lgs. 27 gennaio 2010, n. 39 e dell'articolo 9 del D. Lgs. 24 febbraio 1998, n. 58

Ai partecipanti al
Fondo Comune di Investimento Mobiliare Aperto
"Eurizon Azioni Energia e Materie Prime"

Relazione sulla revisione contabile della relazione di gestione

Giudizio

Abbiamo svolto la revisione contabile della relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Azioni Energia e Materie Prime" (il "Fondo"), costituita dalla situazione patrimoniale al 30 dicembre 2024, dalla sezione reddituale per l'esercizio chiuso a tale data e dalla nota integrativa.

A nostro giudizio, la relazione di gestione fornisce una rappresentazione veritiera e corretta della situazione patrimoniale e finanziaria del Fondo al 30 dicembre 2024 e del risultato economico per l'esercizio chiuso a tale data in conformità al Provvedimento emanato dalla Banca d'Italia il 19 gennaio 2015 e successive modifiche (di seguito anche il "Provvedimento") che ne disciplina i criteri di redazione.

Elementi alla base del giudizio

Abbiamo svolto la revisione contabile in conformità ai principi di revisione internazionali (ISA Italia). Le nostre responsabilità ai sensi di tali principi sono ulteriormente descritte nella sezione "Responsabilità della società di revisione per la revisione contabile della relazione di gestione" della presente relazione. Siamo indipendenti rispetto al Fondo e a Eurizon Capital SGR S.p.A., Società di Gestione del Fondo, in conformità alle norme e ai principi in materia di etica e di indipendenza applicabili nell'ordinamento italiano alla revisione contabile del bilancio. Riteniamo di aver acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio.

Responsabilità degli amministratori e del collegio sindacale per la relazione di gestione

Gli amministratori della Società di Gestione del Fondo sono responsabili per la redazione della relazione di gestione del Fondo che fornisca una rappresentazione veritiera e corretta in conformità al Provvedimento che ne disciplina i criteri di redazione e, nei termini previsti dalla legge, per quella parte del controllo interno dagli stessi ritenuta necessaria per consentire la redazione di una relazione di gestione che non contenga errori significativi dovuti a frodi o a comportamenti o eventi non intenzionali.

Gli amministratori della Società di Gestione del Fondo sono responsabili per la valutazione della capacità del Fondo di continuare ad operare come un'entità in funzionamento e, nella redazione della relazione di gestione, per l'appropriatezza dell'utilizzo del presupposto della continuità aziendale, nonché per una adeguata informativa in materia. Gli amministratori utilizzano il presupposto della continuità aziendale nella redazione della relazione di gestione a meno che abbiano valutato che sussistono le condizioni per la liquidazione del Fondo o per l'interruzione dell'attività o non abbiano alternative realistiche a tali scelte.

Il collegio sindacale della Società di Gestione del Fondo ha la responsabilità della vigilanza, nei termini previsti dalla legge, sul processo di predisposizione dell'informativa finanziaria del Fondo.

Shape the future

Responsabilità della società di revisione per la revisione contabile della relazione di gestione

I nostri obiettivi sono l'acquisizione di una ragionevole sicurezza che la relazione di gestione nel suo complesso non contenga errori significativi, dovuti a frodi o a comportamenti o eventi non intenzionali, e l'emissione di una relazione di revisione che includa il nostro giudizio. Per ragionevole sicurezza si intende un livello elevato di sicurezza che, tuttavia, non fornisce la garanzia che una revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia) individui sempre un errore significativo, qualora esistente. Gli errori possono derivare da frodi o da comportamenti o eventi non intenzionali e sono considerati significativi qualora ci si possa ragionevolmente attendere che essi, singolarmente o nel loro insieme, siano in grado di influenzare le decisioni economiche prese dagli utilizzatori sulla base della relazione di gestione.

Nell'ambito della revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia), abbiamo esercitato il giudizio professionale e abbiamo mantenuto lo scetticismo professionale per tutta la durata della revisione contabile. Inoltre:

- abbiamo identificato e valutato i rischi di errori significativi nella relazione di gestione, dovuti a frodi o a comportamenti o eventi non intenzionali; abbiamo definito e svolto procedure di revisione in risposta a tali rischi; abbiamo acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio. Il rischio di non individuare un errore significativo dovuto a frodi è più elevato rispetto al rischio di non individuare un errore significativo derivante da comportamenti o eventi non intenzionali, poiché la frode può implicare l'esistenza di collusioni, falsificazioni, omissioni intenzionali, rappresentazioni fuorvianti o forzature del controllo interno;
- abbiamo acquisito una comprensione del controllo interno rilevante ai fini della revisione contabile allo scopo di definire procedure di revisione appropriate nelle circostanze e non per esprimere un giudizio sull'efficacia del controllo interno del Fondo e della Società di Gestione del Fondo;
- abbiamo valutato l'appropriatezza dei criteri e delle modalità di valutazione adottati, nonché la ragionevolezza delle stime contabili effettuate dagli amministratori, inclusa la relativa informativa;
- siamo giunti ad una conclusione sull'appropriatezza dell'utilizzo da parte degli amministratori del presupposto della continuità aziendale e, in base agli elementi probativi acquisiti, sull'eventuale esistenza di una incertezza significativa riguardo a eventi o circostanze che possono far sorgere dubbi significativi sulla capacità del Fondo di continuare ad operare come una entità in funzionamento. In presenza di un'incertezza significativa, siamo tenuti a richiamare l'attenzione nella relazione di revisione sulla relativa informativa della relazione di gestione, ovvero, qualora tale informativa sia inadeguata, a riflettere tale circostanza nella formulazione del nostro giudizio. Le nostre conclusioni sono basate sugli elementi probativi acquisiti fino alla data della presente relazione. Tuttavia, eventi o circostanze successivi possono comportare il fatto che il Fondo cessi di operare come un'entità in funzionamento;
- abbiamo valutato la presentazione, la struttura e il contenuto della relazione di gestione nel suo complesso, inclusa l'informativa, e se la relazione di gestione rappresenti le operazioni e gli eventi sottostanti in modo da fornire una corretta rappresentazione.

Abbiamo comunicato ai responsabili delle attività di governance della Società di Gestione del Fondo, identificati ad un livello appropriato come richiesto dai principi di revisione internazionali (ISA Italia), tra gli altri aspetti, la portata e la tempistica pianificate per la revisione contabile e i risultati significativi emersi, incluse le eventuali carenze significative nel controllo interno identificate nel corso della revisione contabile.

Relazione su altre disposizioni di legge e regolamentari

Giudizi e dichiarazione ai sensi dell'articolo 14, comma 2, lettera e), e-bis) ed e-ter) del D. Lgs. 27 gennaio 2010, n. 39

Gli amministratori della Eurizon Capital SGR S.p.A. sono responsabili per la predisposizione della relazione degli amministratori del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Azioni Energia e Materie Prime" al 30 dicembre 2024, incluse la sua coerenza con la relazione di gestione del Fondo e la sua conformità al Provvedimento.

Abbiamo svolto le procedure indicate nel principio di revisione (SA Italia) n. 720B al fine di:

- esprimere un giudizio sulla coerenza della relazione degli amministratori con la relazione di gestione;
- esprimere un giudizio sulla conformità al Provvedimento della relazione degli amministratori;
- rilasciare una dichiarazione su eventuali errori significativi nella relazione degli amministratori.

A nostro giudizio, la relazione degli amministratori è coerente con la relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Azioni Energia e Materie Prime" al 30 dicembre 2024.

Inoltre, a nostro giudizio, la relazione degli amministratori è redatta in conformità al Provvedimento.

Con riferimento alla dichiarazione di cui all'articolo 14, comma 2, lettera e-ter), del D. Lgs. 27 gennaio 2010, n. 39, rilasciata sulla base delle conoscenze e della comprensione del Fondo e del relativo contesto acquisite nel corso dell'attività di revisione, non abbiamo nulla da riportare.

RELAZIONE DI GESTIONE AL 30 DICEMBRE 2024:

- *SITUAZIONE PATRIMONIALE*
- *SEZIONE REDDITUALE*
- *NOTA INTEGRATIVA*

SOCIETÀ DI GESTIONE

La società di gestione EURIZON CAPITAL SGR S.p.A., di seguito “la SGR” o “la Società”, è stata costituita con la denominazione di “EUROFOND - Società di Gestione di Fondi Comuni di Investimento Mobiliare S.p.A.” in data 22 dicembre 1983 a Torino con atto del notaio Dott. Ettore Morone, n. repertorio 39.679.

In data 1° agosto 1991, contestualmente all’incorporazione di “SANPAOLO - HAMBROS - Società Internazionale Gestione Fondi S.p.A.”, la SGR ha assunto la denominazione sociale di “SANPAOLO FONDI - Gestioni Mobiliari S.p.A.”. In data 1° ottobre 1999, contestualmente all’incorporazione della “Sanpaolo Asset Management SIM S.p.A.”, ha assunto la denominazione sociale di SANPAOLO IMI ASSET MANAGEMENT SGR S.p.A..

La SGR ha incorporato in data 1° settembre 2003 “BANCO DI NAPOLI ASSET MANAGEMENT SGR p.A.”, in data 1° maggio 2004 “EPTAFUND SGR p.A.”, in data 29 dicembre 2004 parte di “SANPAOLO IMI WEALTH MANAGEMENT S.p.A.”, in data 29 dicembre 2005 “SANPAOLO IMI INSTITUTIONAL ASSET MANAGEMENT SGR S.p.A.”, in data 7 aprile 2008 parte di “EURIZON INVESTIMENTI SGR S.p.A.”, in data 31 dicembre 2008 “Intesa Distribution Services S.r.l.” e in data 31 dicembre 2011 “Eurizon AI SGR S.p.A.”.

In data 1° luglio 2021, ha avuto efficacia la fusione per incorporazione di Pramerica SGR S.p.A. in Eurizon Capital SGR S.p.A.

L’attuale denominazione sociale di “EURIZON CAPITAL SGR S.p.A.” è stata assunta in data 1° novembre 2006.

La Società è iscritta all’Albo delle Società di Gestione del Risparmio, tenuto dalla Banca d’Italia ai sensi dell’articolo 35 del D. Lgs. 58/98, al n. 3 nella Sezione Gestori di OICVM e al n. 2 nella Sezione Gestori di FIA.

La Società ha sede legale in Milano, Via Melchiorre Gioia 22.

Sito Internet: www.eurizoncapital.com

La durata della SGR è fissata sino al 31 dicembre 2050, mentre l’esercizio sociale si chiude il 31 dicembre di ogni anno.

Il capitale sociale sottoscritto e interamente versato è di euro 99.000.000 ed è integralmente posseduto da Intesa Sanpaolo S.p.A., che esercita l’attività di direzione e coordinamento.

La composizione degli Organi Sociali alla data di approvazione della presente relazione è la seguente:

IL DEPOSITARIO

Il Depositario del Fondo è “State Street Bank International GmbH - Succursale Italia” (di seguito, il “Depositario”), via Ferrante Aporti 10, Milano, iscritta al n. 5757 dell'Albo delle Banche tenuto dalla Banca d'Italia e aderente al Fondo di Protezione dei Depositi dell'associazione delle banche tedesche.

Il Depositario adempie agli obblighi di custodia degli strumenti finanziari ad esso affidati e alla verifica della proprietà nonché alla tenuta delle registrazioni degli altri beni. Il Depositario, se non sono affidate a soggetti diversi, detiene altresì le disponibilità liquide del Fondo e nell'esercizio delle proprie funzioni:

- accerta la legittimità delle operazioni di vendita, emissione, riacquisto, rimborso e annullamento delle quote del Fondo, nonché la destinazione dei redditi dello stesso;
- accerta la correttezza del calcolo del valore delle quote del Fondo;
- accerta che nelle operazioni relative al Fondo la controprestazione sia rimessa nei termini d'uso;
- esegue le istruzioni del Gestore se non sono contrarie alla legge, al Regolamento o alle prescrizioni degli Organi di Vigilanza.

SOGGETTI CHE PROCEDONO AL COLLOCAMENTO

Il collocamento delle quote del Fondo viene effettuato dalla Società di Gestione che opera esclusivamente presso la propria sede sociale, per il tramite dei seguenti soggetti:

a) Banche

Consultinvest Investimenti Sim S.p.A., Corporate Family Office SIM S.p.A., Online Sim S.p.A..

FONDO COMUNE D'INVESTIMENTO

Il fondo "EURIZON AZIONI ENERGIA E MATERIE PRIME" (già denominato "Nextra Azioni Energia e Materie Prime" fino al 27 aprile 2008) è stato istituito in data 23 febbraio 1998 ai sensi della legge n. 77 del 23 marzo 1983 ed autorizzato dalla Banca d'Italia con Provvedimento del 20 febbraio 1998. Il Fondo è operativo a partire dal 12 ottobre 1998.

La durata del Fondo è fissata al 31 dicembre 2050, salvo proroga da assumersi con deliberazione del Consiglio di Amministrazione almeno due anni prima della scadenza.

Il Fondo, denominato in euro, è del tipo ad accumulazione; i proventi realizzati non vengono pertanto distribuiti ai partecipanti, ma restano compresi nel patrimonio del Fondo.

La partecipazione al Fondo si realizza attraverso la sottoscrizione di quote o il loro successivo acquisto a qualsiasi titolo. La sottoscrizione di quote può avvenire solo a fronte del versamento di un importo corrispondente al valore delle quote di partecipazione.

La SGR provvede a determinare il numero delle quote di partecipazione e frazioni millesimali di esse arrotondate per difetto da attribuire ad ogni partecipante dividendo l'importo del versamento, al netto degli oneri a carico dei singoli partecipanti, per il valore unitario della quota relativo al giorno di riferimento. Quando in tale giorno non sia prevista la valorizzazione del Fondo, le quote vengono assegnate sulla base del valore relativo al primo giorno successivo di valorizzazione della quota.

Il giorno di riferimento è il giorno in cui la SGR ha ricevuto, entro le ore 13.00, notizia certa della sottoscrizione ovvero, se successivo, è il giorno in cui decorrono i giorni di valuta riconosciuti al mezzo di pagamento indicati nel modulo di sottoscrizione. Nel caso di bonifico, il giorno di valuta è quello riconosciuto dalla banca ordinante.

I partecipanti al Fondo possono, in qualsiasi momento, chiedere alla SGR il rimborso totale o parziale delle quote possedute.

Il rimborso può avvenire a mezzo bonifico ovvero a mezzo assegno circolare o bancario non trasferibile all'ordine del richiedente.

Il valore del rimborso è determinato in base al valore unitario delle quote del giorno di ricezione della domanda da parte della SGR. Quando nel giorno di ricezione della domanda non è prevista la valorizzazione del Fondo, il valore del rimborso è determinato in base al primo valore del Fondo successivamente determinato.

La SGR provvede, tramite il Depositario, al pagamento dell'importo nel più breve tempo possibile e non oltre il termine di quindici giorni dalla data in cui la domanda è pervenuta, salvi i casi di sospensione del diritto di rimborso.

Caratteristiche del Fondo

Il Fondo di tipo aperto, rientrando nell'ambito di applicazione della Direttiva 2009/65/CE come successivamente modificata ed integrata, appartiene alla categoria "Azionari Energia e Materie Prime" e fa parte del "Sistema Mercati".

Il benchmark di riferimento è:

50% MSCI World Energy in euro

45% MSCI World Materials in euro

5% Bloomberg Euro Treasury Bill

Gli investimenti sono effettuati principalmente in strumenti finanziari rappresentativi del capitale di rischio di emittenti operanti nei settori energia e materie prime. Gli investimenti sono effettuati in strumenti finanziari di emittenti di ogni area geografica, quotati nei mercati regolamentati dei Paesi aderenti al Fondo Monetario Internazionale nonché Taiwan, denominati in qualsiasi valuta.

Il Fondo può inoltre investire:

- in strumenti finanziari rappresentativi del capitale di rischio di emittenti operanti in altri settori merceologici, fino ad un massimo del 10% del totale delle attività;
- in strumenti finanziari di natura obbligazionaria e/o monetaria denominati in qualsiasi valuta, fino ad un massimo del 30% del totale delle attività;
- in depositi bancari denominati in qualsiasi valuta, fino ad un massimo del 30% del totale delle attività;
- in parti di OICVM e FIA aperti non riservati, la cui composizione del portafoglio risulti compatibile con la politica di investimento del Fondo, fino ad un massimo del 10% del totale delle attività.

Il Fondo utilizza strumenti finanziari derivati per finalità di copertura dei rischi e per finalità diverse da quelle di copertura. L'esposizione complessiva in strumenti finanziari derivati non può essere superiore al valore complessivo netto del Fondo e deve risultare coerente con la politica di investimento. Tale esposizione è calcolata secondo il metodo degli impegni, secondo quanto stabilito nella disciplina di vigilanza. L'esposizione azionaria complessiva non può superare il 130% del valore complessivo netto del Fondo.

La SGR adotta uno stile di gestione attivo. La selezione degli investimenti viene effettuata sulla base dell'analisi delle

principali variabili macroeconomiche e dei tassi di interesse nonché sulla base dell'analisi fondamentale e strategica delle singole società (dati finanziari, quota di mercato, piani di sviluppo, qualità del management) con l'obiettivo di identificare quei titoli che, rispetto al settore di appartenenza, forniscono le migliori prospettive di apprezzamento. Nella selezione degli strumenti finanziari (compresi gli OICR) vengono considerate anche informazioni di natura ambientale, sociale e di governo societario.

Il Fondo promuove caratteristiche di natura ambientale e/o sociale nel rispetto di pratiche di buon governo societario, ai sensi dell'art. 8 del Regolamento (UE) 2019/2088 del Parlamento Europeo e del Consiglio del 27/11/2019 e successive modifiche.

A prescindere dagli orientamenti di investimento specifici del Fondo, resta comunque ferma la facoltà di:

- effettuare investimenti in strumenti finanziari non quotati, nei limiti previsti dalle vigenti disposizioni normative;
- detenere liquidità per esigenze di tesoreria;
- assumere, in relazione all'andamento dei mercati finanziari o ad altre specifiche situazioni congiunturali, scelte per la tutela dell'interesse dei partecipanti, che si discostino dalle politiche d'investimento.

Il Fondo può inoltre:

- acquistare titoli di società finanziate da società del Gruppo di appartenenza della SGR;
- negoziare strumenti finanziari con altri patrimoni gestiti dalla SGR;
- investire in parti di altri OICR gestiti dalla SGR o da altre società alla stessa legate tramite controllo comune o con una considerevole partecipazione diretta o indiretta.

La SGR ha facoltà di effettuare operazioni in divise estere (es. acquisti e vendite a pronti ed a termine, ecc.) ed utilizzare strumenti di copertura del rischio di cambio, coerentemente con la politica di investimento del Fondo. La SGR ha inoltre la facoltà di utilizzare tecniche di gestione efficienti del portafoglio (quali ad esempio operazioni di pronti contro termine, riporti, prestito titoli ed altre operazioni assimilabili) coerentemente con la politica di investimento del Fondo e nel rispetto dei limiti e delle condizioni stabilite dalle vigenti disposizioni normative.

Spese ed oneri a carico del Fondo

Le spese a carico del Fondo sono:

- la provvigione di gestione a favore della SGR, pari all'1,80% su base annua, calcolata quotidianamente sul valore complessivo netto del Fondo. La misura mensile della provvigione di gestione è pari ad 1/12 dell'aliquota sopra riportata ed è ripartita su base giornaliera; la medesima è prelevata dalle disponibilità del Fondo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento;

- il costo per il calcolo del valore della quota del Fondo, nella misura massima dello 0,035% su base annua, calcolato ogni giorno di valorizzazione sul valore complessivo netto del Fondo e prelevato mensilmente dalle disponibilità di quest'ultimo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento;

- la provvigione di incentivo a favore della SGR ("modello a benchmark"), pari al 20% della differenza maturata nell'anno solare tra l'incremento percentuale del valore della quota (tenendo conto anche degli eventuali proventi distribuiti) e l'incremento percentuale del valore del parametro di riferimento relativi al medesimo periodo.

La provvigione viene calcolata sul minore ammontare tra il valore complessivo netto medio del Fondo nello stesso periodo e il valore complessivo netto del Fondo disponibile nel giorno di calcolo.

Il calcolo della commissione è eseguito quotidianamente, accantonando un rateo che fa riferimento all'extraperformance maturata rispetto all'ultimo giorno dell'anno solare precedente.

Ogni giorno, ai fini del calcolo del valore complessivo del Fondo, la SGR accredita al Fondo l'accantonamento del giorno precedente e addebita quello del giorno cui si riferisce il calcolo.

La commissione viene prelevata il primo giorno lavorativo successivo alla chiusura dell'anno solare.

La SGR avrà diritto a percepire tale provvigione di incentivo solo se qualsiasi sottoperformance del Fondo rispetto al parametro di riferimento subita nel periodo di riferimento della performance sia recuperata (c.d. recupero delle perdite). Il periodo di riferimento decorre dal 30 dicembre 2021 per i cinque anni successivi a tale data; successivamente, il periodo di riferimento decorre dall'ultimo giorno di valorizzazione della quota relativo al quinto anno precedente. Eventuali extraperformance possono essere utilizzate una volta sola per compensare le perdite pregresse.

Il parametro di riferimento è: 50% MSCI World Energy in euro; 45% MSCI World Materials in euro; 5% Bloomberg Euro Treasury Bill.

E' previsto un fee cap al compenso della SGR pari alla provvigione di gestione fissa a cui si aggiunge il 100% della stessa; quest'ultima percentuale costituisce il massimo prelevabile a titolo di provvigione di incentivo;

- il compenso riconosciuto al Depositario per l'incarico svolto. Tale importo è calcolato quotidianamente sul valore complessivo netto del Fondo, nella misura massima annua dello 0,06%;

- le spese di pubblicazione del valore unitario delle quote e dei prospetti periodici del Fondo;

- le spese degli avvisi inerenti alla liquidazione del Fondo, al pagamento delle cedole qualora il Fondo preveda la distribuzione dei proventi, alla disponibilità dei prospetti periodici nonché alle modifiche del Regolamento richieste da

mutamenti della legge ovvero delle disposizioni di vigilanza;

- gli oneri della stampa dei documenti destinati al pubblico nonché gli oneri derivanti dagli obblighi di comunicazione alla generalità dei partecipanti, purché tali oneri non attengano a propaganda e a pubblicità o comunque al collocamento delle quote del Fondo;

- le spese per la revisione della contabilità e dei rendiconti del Fondo, ivi compreso quello finale di liquidazione;

- gli oneri finanziari per i debiti assunti dal Fondo e le spese connesse;

- le spese legali e giudiziarie sostenute nell'esclusivo interesse del Fondo;

- il contributo di vigilanza dovuto alla Consob nonché alle Autorità estere competenti, per lo svolgimento dell'attività di controllo e di vigilanza. Tra tali spese non sono in ogni caso comprese quelle relative alle procedure di commercializzazione del Fondo nei paesi diversi dall'Italia;

- gli oneri di intermediazione inerenti alla compravendita di strumenti finanziari o di parti di OICR, all'investimento in depositi bancari nonché gli oneri connessi alla partecipazione agli OICR oggetto dell'investimento;

- gli oneri fiscali di pertinenza del Fondo.

Il pagamento delle suddette spese, salvo quanto diversamente indicato, è disposto dalla SGR mediante prelievo dalla disponibilità del Fondo con valuta non antecedente a quella del giorno di effettiva erogazione.

In caso di investimento in OICR collegati, sul Fondo acquirente non vengono fatte gravare spese e diritti di qualsiasi natura relativi alla sottoscrizione e al rimborso delle parti degli OICR acquisiti. La SGR deduce dal proprio compenso, fino a concorrenza dello stesso, la remunerazione complessiva (provvigione di gestione, di incentivo, ecc.) percepita dal gestore degli OICR "collegati".

Regime fiscale

La SGR, ai sensi della Legge 10/2011, applica una ritenuta sul reddito realizzato direttamente in capo ai partecipanti.

La ritenuta viene applicata nella misura del 26%. La quota parte dei redditi riconducibile all'investimento in titoli governativi italiani ed equiparati e in obbligazioni emesse da Stati esteri white list e loro enti territoriali partecipa in misura ridotta, per il 48,08% del relativo ammontare al reddito fiscalmente imponibile. I proventi riferibili ai titoli pubblici italiani ed equiparati sono determinati proporzionalmente alla percentuale media dell'attivo investita direttamente, o indirettamente per il tramite di altri organismi di investimento.

Tale percentuale media viene aggiornata con cadenza semestrale e decorre dal 1° gennaio e dal 1° luglio di ciascun anno solare. Il relativo dato è disponibile sul sito internet della SGR, nella sezione dedicata alla fiscalità.

Il reddito imponibile in capo al partecipante corrisponde ai proventi distribuiti in costanza di partecipazione al Fondo o alla differenza tra il valore di rimborso, di liquidazione o di cessione delle quote e il costo medio ponderato di sottoscrizione o acquisto delle quote medesime, rilevati dai prospetti periodici. Tra le operazioni di rimborso sono comprese anche quelle realizzate mediante operazioni di spostamento tra Fondi. La ritenuta è applicata anche nell'ipotesi di trasferimento delle quote a rapporti di custodia, amministrazione o gestione intestati a soggetti diversi dagli intestatari dei rapporti di provenienza, incluse le operazioni di trasferimento avvenute per successione o donazione.

Nel caso in cui il partecipante realizzi una perdita, tale minusvalenza può essere portata dal partecipante in diminuzione di plusvalenze realizzate su altri titoli, nel medesimo periodo d'imposta o entro il quarto successivo.

Durata dell'esercizio contabile

L'esercizio contabile del Fondo ha durata annuale e si chiude l'ultimo giorno di valorizzazione del mese di dicembre di ogni anno.

RELAZIONE DEGLI AMMINISTRATORI

Scenario Macroeconomico

Nel periodo di riferimento (1° gennaio 2024 - 30 dicembre 2024) i mercati finanziari hanno registrato un andamento generalmente positivo. Il contesto macro si è caratterizzato per una certa divergenza fra gli USA e l'area Euro. Negli USA, infatti, la forza del ciclo ha sorpreso le stime e l'inflazione, sebbene in calo, ha mostrato un trend di rientro meno lineare; viceversa, nell'area Euro la crescita ha mostrato una maggiore debolezza e l'inflazione ha evidenziato un percorso di rientro verso il target del 2% più marcato. All'interno di questo scenario le principali Banche Centrali hanno avviato, seppure con tempistiche e modalità differenti, un ciclo di taglio dei tassi.

Più in dettaglio, negli USA l'inflazione totale ha chiuso il primo trimestre al 3,2%, in calo rispetto al dato di fine 2023, così come l'inflazione core (vale a dire al netto delle componenti più volatili legate ai prezzi di alimentari ed energia) che si è attestata al 3,8%, livello di poco inferiore al 4% che aveva caratterizzato la parte finale del 2023. A destare attenzione, però, sono stati i contributi mensili sia per l'inflazione totale che per quella core. La crescita mensile dei prezzi, infatti, si è assestata tra lo 0,3% e lo 0,4% per il primo trimestre. All'interno di questo contesto si è registrata una normalizzazione delle aspettative di politica monetaria, con i mercati che si sono via via allineati allo scenario delineato dalle Banche Centrali, prima fra tutte la Fed, che a dicembre 2023 aveva annunciato tre tagli dei tassi per il 2024. Nella riunione di marzo, la Banca Centrale statunitense ha lasciato i tassi invariati e ha confermato la volontà di procedere con tre tagli dei tassi, nonostante la dinamica inflattiva mostrasse una marginale resilienza ed i dati macro fossero ancora molto solidi, soprattutto, per quanto concerne le dinamiche occupazionali. Nell'area Euro l'inflazione ha registrato un percorso di discesa più netto, portandosi al 2,6% nel dato totale ed al 3,1% in quello core. Anche se l'inflazione europea ha mostrato una dinamica di rientro più consistente ed il quadro macro ha evidenziato una maggior debolezza rispetto a quello statunitense, la BCE non ha introdotto variazioni di politica monetaria nel trimestre, rimandando a giugno l'eventuale inizio dell'attesa riduzione dei tassi. Il contesto geopolitico ha visto il proseguimento delle tensioni sia in Ucraina che in Medio Oriente, ma con scarso impatto sui mercati finanziari. Anche le elezioni a Taiwan ed in Russia non hanno generato reazioni sostanziali sui mercati. Il congresso del Partito Comunista cinese ha fissato al 5% il target di crescita per il 2024; tuttavia le misure di stimolo introdotte da Pechino non sono state giudicate adeguate dagli investitori.

Nel secondo trimestre i dati di inflazione statunitensi sono apparsi in moderazione rispetto alla prima parte dell'anno; in particolare, i dati di aprile e maggio sono tornati ad evidenziare una tendenza al rientro. Da questo punto di vista, il mese di giugno è stato particolarmente importante; da un lato l'inflazione ha rallentato oltre le attese nel contributo mensile sia nella componente totale che in quella core, dall'altro la Fed ha rivisto le sue aspettative di politica monetaria (Dots), posticipando al 2025 la parte sostanziale della riduzione dei tassi e prevedendo un solo taglio per il 2024. In Europa, invece, i dati di inflazione hanno proseguito in un percorso di rientro più definito, portando la BCE ad effettuare un primo taglio dei tassi da 25 punti base nella riunione di giugno. Questo primo intervento di riduzione, però, non ha prodotto un cambiamento radicale nell'orientamento di politica monetaria, che è rimasto fortemente ancorato all'andamento dei dati macro e, in particolare, dell'inflazione. Oltre ai dati macro, molto rilevanti per gli operatori sono state anche le elezioni per il rinnovo del Parlamento europeo, il cui esito, però, non ha avuto particolari riflessi sui mercati visto che si è avuta una sostanziale riconferma della maggioranza uscente. La maggior parte della turbolenza politica si è avuta in Francia dove, a seguito della forte affermazione dei partiti di opposizione, il presidente Macron ha sciolto anticipatamente le camere e indetto nuove elezioni. Questo si è tradotto in una crescente volatilità sugli asset francesi, con un marginale contagio anche per gli altri Paesi europei; tale volatilità, però, è gradualmente rientrata man mano che i risultati elettorali mostravano sempre meno probabile una forte affermazione dei partiti con posizioni più estreme.

Il terzo trimestre è stato caratterizzato dal consolidamento del percorso di discesa per l'inflazione USA, mentre quella europea ha addirittura accelerato verso il basso, chiudendo il periodo sotto il target di riferimento della BCE. Negli USA l'inflazione su base annua è scesa al 2,5% nel dato totale, ai minimi da febbraio 2021, mentre nella componente core è apparsa più stabile al 3,2%, sui minimi da aprile 2021. In Europa l'inflazione è scesa significativamente, portandosi all'1,8% (sotto il target BCE del 2%), mentre quella core ha raggiunto il livello del 2,7% su base annua. A ridurre le pressioni inflazionistiche ha contribuito il calo diffuso dei prezzi delle materie prime, in particolare di quelle energetiche, con il petrolio che ha chiuso il trimestre in area 70 dollari al barile. Insieme al calo dell'inflazione, un marginale indebolimento del mercato del lavoro USA e un deterioramento del quadro macro complessivo in Europa hanno portato le Banche Centrali a ridurre i tassi. La BCE ha introdotto il secondo taglio da 25 punti base del tasso sui depositi, dopo quello effettuato a giugno, portandolo dal 3,75% al 3,5%. Negli USA, la Fed ha avviato la politica di allentamento monetario con un primo taglio da 50 punti base, che ha portato i tassi al 5%. Tra le principali Banche Centrali, quella giapponese è risultata in controtendenza, poiché a fine luglio ha annunciato un rialzo dei tassi per fronteggiare le crescenti pressioni inflazionistiche. Questo rialzo era inatteso ed ha innescato molta volatilità sui mercati, che, in seguito, è gradualmente rientrata con il consolidarsi della crescita globale. In Europa, la Francia ha ultimato la formazione del nuovo esecutivo; tuttavia, la debolezza del quadro politico, insieme a quella sui dati di bilancio, si è riflessa sullo spread del tasso decennale francese rispetto a quello tedesco che è tornato in area 80 punti base. Negli USA la corsa per la presidenza ha visto la rinuncia di Biden, molto penalizzato nei sondaggi, a favore della sua vice Kamala Harris. In Cina i policy maker hanno modificato l'approccio verso gli stimoli all'economia. La Banca Centrale cinese,

infatti, ha introdotto un significativo taglio dei tassi, mentre le autorità centrali hanno annunciato, anche se non ancora formalizzato, un piano di espansione fiscale, finalizzato al raggiungimento del target di crescita del 5%.

Il quarto trimestre è stato caratterizzato dal consolidamento di una marginale divergenza macroeconomica tra USA ed Eurozona. Negli USA l'inflazione totale ha chiuso il trimestre al 2,7%, mentre l'inflazione core si è stabilizzata in area 3,3%. Il rialzo medio su base mensile è stato nell'ordine dello 0,3%, evidenziando come, nonostante una tendenza di fondo dell'inflazione orientata al ribasso, la crescita mensile dei prezzi sia rimasta solida e i progressi verso l'obiettivo del 2% abbiano registrato un certo rallentamento. A questo si sono aggiunti un mercato del lavoro in fase di normalizzazione su livelli pre-pandemia e un quadro macro complessivo che ha visto i settori legati ai servizi sostenere la crescita americana. La netta affermazione repubblicana alle elezioni di novembre ha portato gli investitori a scontare molto rapidamente l'agenda economica di Trump, fatta di espansione fiscale, nuove tariffe, deregolamentazione e lotta all'immigrazione. La reazione della Fed ad un quadro macro più solido delle attese si è tradotta in due tagli dei tassi da 25 punti base nel corso del trimestre, mentre le stime relative ai tagli previsti per il 2025 sono state fortemente ridotte. Situazione diversa in Europa, dove l'inflazione ha chiuso il trimestre in area 2,3% nel dato totale, mentre la componente core in area 2,7%. Il quadro macro in Eurozona si è confermato più debole rispetto a quello americano. A questo si sono poi aggiunte le difficoltà politiche francesi e tedesche. In Francia, è stato varato un nuovo governo dopo quello di luglio, con l'obiettivo prioritario di approvare la nuova legge di bilancio, mentre in Germania la crisi politica si è tradotta nello scioglimento del parlamento, con nuove elezioni previste per il mese di febbraio. In tale contesto, la BCE ha effettuato due ulteriori tagli dei tassi da 25 punti base, prevedendo di riportare l'inflazione al target del 2% entro il 2025. La debolezza europea è in parte legata a quella evidenziata dall'economia cinese. Nel corso del trimestre, infatti, proprio la Cina ha annunciato un importante piano di stimolo fiscale a sostegno dell'economia, che fatica a raggiungere il target previsto di una crescita annua al 5%.

Analizzando l'andamento dei mercati finanziari, nei primi sei mesi del 2024, all'interno di un contesto macroeconomico nel quale la crescita ha mostrato una certa resilienza e l'inflazione un ritmo di rientro verso gli obiettivi delle Banche Centrali più lento del previsto, i tassi governativi si sono mossi al rialzo sia sulla parte a breve delle curve che su quella più lunga. Nel prosieguo del periodo di riferimento, però, di fronte al rafforzamento del movimento di discesa dell'inflazione e al cambio di approccio di politica monetaria da parte delle principali Banche Centrali, i tassi hanno ripreso a scendere, con un movimento che ha impattato maggiormente la parte a breve delle curve dei rendimenti. Nella parte conclusiva del periodo di riferimento, però, si è assistito ad una risalita dei tassi statunitensi che ha coinvolto, seppure con intensità più contenuta, anche quelli europei. I mercati, infatti, sono andati a scontare maggiormente la vittoria di Trump, con la possibilità di avere un'agenda economica molto espansiva in grado potenzialmente di rallentare il percorso di riduzione dei tassi intrapreso dalla Fed. Questi timori sono stati amplificati dalla Fed stessa che nell'ultimo meeting dell'anno, pur operando un ulteriore taglio dei tassi di 25 punti base, si è detta pronta a rallentare il ritmo dei tagli nel corso del 2025, alla luce della solidità della ripresa, della tenuta del mercato del lavoro e, soprattutto, del rallentamento nella discesa dell'inflazione.

Nel complesso, il tasso di interesse a 2 anni statunitense ha chiuso l'anno al 4,24% (sugli stessi livelli della chiusura annuale precedente), mentre il decennale è aumentato dal 3,88% al 4,53% per una curva che ha assunto un'inclinazione positiva (ossia, con un livello dei tassi sul tratto a lungo termine superiore a quello del tratto a breve termine). In Europa il tasso a 2 anni tedesco è sceso dal 2,40% al 2,08% mentre quello decennale è salito dal 2,02% al 2,37%. Tra i Paesi periferici dell'area Euro, lo spread del decennale italiano rispetto a quello tedesco è calato da 168 punti base a 115.

All'interno di questo scenario, il mercato obbligazionario globale ha mostrato una performance positiva dello 0,2% in valuta locale e del 2,6% in euro (indice JPM Global). A livello di singole aree geografiche, l'area Euro ha chiuso il periodo di riferimento con l'indice JPM Emu in rialzo dell'1,8% e gli Stati Uniti (indice JPM Usa) hanno registrato un guadagno dello 0,8% in valuta locale e del 7,2% in euro. I Paesi emergenti (indice JPM Embi+) hanno evidenziato un andamento nel complesso migliore rispetto a quello dei Paesi maggiormente sviluppati, con una variazione positiva del 7,7% in valuta locale e del 14,6% in euro.

Volgendo lo sguardo ai mercati azionari, essi hanno esibito un andamento positivo, beneficiando di una buona dinamica degli utili aziendali e di un contesto macro ancora favorevole. Inoltre, l'inizio dei tagli dei tassi da parte delle Banche Centrali è stato un elemento di ulteriore supporto, sebbene le tempistiche di riduzione siano state più lente delle stime iniziali. Nel corso dei mesi estivi si è assistito ad un aumento della volatilità che è sfociata in alcune fasi ribassiste, peraltro interamente recuperate in orizzonti temporali molto ridotti. Nel corso del mese di ottobre, sulla base delle attese di una politica fiscale a favore delle aziende e di un processo di deregolamentazione in vari settori economici nel caso di una vittoria di Trump, la Borsa statunitense ha consolidato il movimento rialzista, mentre i listini europei e asiatici (in primis quello cinese) sono stati penalizzati dai timori di una nuova politica di dazi commerciali. Nella parte conclusiva del periodo di riferimento, la vittoria di Trump e la conquista da parte dei repubblicani della maggioranza sia alla Camera che al Senato hanno fornito ulteriore sostegno agli indici azionari americani, mentre quelli europei e dei Paesi emergenti non hanno evidenziato un'impostazione rialzista così marcata, in attesa anche di verificare la reale portata delle decisioni della nuova amministrazione americana su vari dossier economici, primo fra tutti quello commerciale.

Il mercato azionario globale ha totalizzato un guadagno in valuta locale del 21,4% (indice MSCI World) e del 26,7% in euro. A livello di singole aree geografiche, il mercato azionario statunitense (indice MSCI Usa) ha chiuso il 2024 con una performance positiva del 25,1% in valuta locale che raggiunge il 33,2% se si considera l'andamento in euro. I mercati europei (indice MSCI Emu) hanno evidenziato un andamento rialzista più contenuto rispetto a quello mostrato dai listini

statunitensi, registrando una performance positiva dell'8,9%. Andamento positivo anche per i Paesi emergenti; l'area nel suo complesso (indice MSCI Emerging Markets) ha evidenziato un recupero del 13,3% in valuta locale e del 14,7% in euro.

Relativamente al mercato valutario, l'euro si è indebolito del 6,0% nei confronti del dollaro e del 4,2% rispetto alla sterlina, mentre si è rafforzato dell'1,2% contro il franco svizzero e del 4,8% verso lo yen. La dinamica valutaria ha impattato sulle performance convertite in euro dei mercati esterni all'area Euro.

Commento di gestione

Lo scenario di tassi di interesse in calo ha sostenuto i listini. La Fed, tuttavia, a causa di un'inflazione persistente e forti dati macroeconomici ha spostato i primi tagli nella seconda metà dell'anno. I dati dell'economia cinese, fondamentale per i settori in cui il Fondo investe, hanno deluso ampiamente e, nonostante una loro stabilizzazione nel corso dell'anno e gli interventi delle autorità governative, il Paese appare in difficoltà.

Il Fondo ha mantenuto un investito prossimo alla neutralità per quasi tutto il periodo e continuato ad accentuare, ove necessario, la composizione difensiva del prodotto. I pesi sui diversi comparti sono stati gestiti in maniera dinamica. Il Fondo ha assunto un atteggiamento più pro-ciclico nel terzo trimestre, dopo il taglio dei tassi della Fed e l'annuncio da parte della Cina dell'intenzione di attuare politiche di supporto alla crescita.

Il Fondo investe principalmente nel settore energetico e dei materiali di base, entrambi con un livello pro-ciclico elevato. A livello settoriale, su entrambi i comparti si è prediletto un assetto difensivo, sia in Europa che negli Stati Uniti e si è continuata la rotazione da titoli ad alto beta a nomi più di qualità e difensivi. La struttura del portafoglio e la relativa operatività sono stati ancora una volta caratterizzati dalla selezione titoli. Tra i materiali di base la preferenza è stata per la chimica nel suo complesso, in particolare quella downstream (relativa ai processi di trasformazione), e per il comparto relativo alla carta/materiale per imballaggi. I metalli, dopo una breve parentesi di interesse da parte del mercato sulla scia dello sviluppo dei data center e della generazione elettrica, hanno perso nuovamente smalto sul finire d'anno a causa di una Cina deludente nel rilasciare dettagli di crescita sul 2025, anche dopo l'esito delle elezioni americane. Il comparto energetico è stato penalizzato da continue revisioni al ribasso della crescita della domanda, ma la disciplina dei produttori sia Opec che non Opec ha contribuito alla buona performance del settore. Si è preferita l'esposizione a società integrate e ai produttori di gas e, per gli Stati Uniti in particolare, a quelle di infrastrutture e servizi con una buona inclinazione verso la transizione energetica.

L'allocazione valutaria del Fondo è stata sostanzialmente allineata a quella del benchmark, che si caratterizza per una significativa esposizione al dollaro.

Nel corso del periodo sono stati utilizzati tatticamente future su indici.

La performance del Fondo è stata positiva; a livello di comparti, quello energetico ha sovraperformato quello relativo ai materiali di base e il dollaro si è apprezzato.

Il Fondo valuterà le opportunità offerte dal mercato nei prossimi mesi sui due comparti oggetto di investimento; nella fase iniziale del 2025 l'atteggiamento di fondo resta moderatamente cauto e l'approccio value continuerà a guidare la selezione dei titoli.

Rapporti con le Società del Gruppo

Si precisa che i rapporti intrattenuti e le operazioni effettuate nel corso del periodo di riferimento con le altre Società del Gruppo vengono descritti nell'ambito della nota integrativa cui si rimanda. Tali rapporti e operazioni sono stati regolati in base alle normali condizioni di mercato.

Fatti di rilievo avvenuti dopo la chiusura del periodo di riferimento della presente relazione

Non si rilevano eventi significativi successivi alla chiusura della presente relazione di gestione, che possono avere un impatto rilevante sulla situazione patrimoniale e sezione reddituale del Fondo al 30 dicembre 2024.

Attività di collocamento delle quote

Per quanto riguarda l'attività di collocamento delle quote, si segnala una raccolta netta negativa per euro 49.767.945.

Esercizio del diritto di voto alle Assemblee di società quotate

Esercizio del diritto di voto e attività di Engagement

Eurizon Capital SGR S.p.A. (di seguito anche "Eurizon Capital" o la "SGR") ha un impegno fiduciario volto alla protezione e alla creazione di valore nei confronti dei propri Clienti ed Investitori che richiede di affrontare in modo efficace le problematiche legate all'andamento delle società in cui investe per conto dei patrimoni gestiti. La SGR attribuisce

rilevanza al presidio del buon governo societario (cd. “corporate governance”) delle società emittenti partecipate; a tal fine la SGR ha adottato una Politica di Impegno coerente con i già adottati “Principi di Stewardship” per l’esercizio dei diritti amministrativi e di voto nelle società quotate e delle relative Raccomandazioni di best practice definite da Assogestioni. La SGR, dal 2015 firmataria dei “Principi per l’Investimento Responsabile” delle Nazioni Unite (UN PRI), presta particolare attenzione alle politiche implementate dagli emittenti in cui investe per conto dei patrimoni gestiti, nella convinzione che sane politiche e pratiche di governo societario (che incorporino questioni ambientali, sociali e di governance) siano in grado di creare valore per gli azionisti nel lungo termine. In tale ambito, la ricerca specializzata di cui si avvale la SGR, a supporto delle decisioni di investimento e dell’esercizio dei diritti di intervento e di voto, comprende anche informazioni sulla responsabilità sociale e ambientale degli emittenti, volte ad identificare eventuali impatti in termini di reputazione, concorrenza e di opportunità di business determinati dalle scelte di governo societario (corporate governance).

In conformità alla normativa vigente, la SGR ha adottato la propria “Strategia per l’esercizio dei diritti di intervento e di voto inerenti agli strumenti finanziari di pertinenza dei patrimoni gestiti di Eurizon Capital SGR S.p.A.” che definisce le procedure e le misure adottate per:

- monitorare gli eventi societari connessi agli strumenti finanziari detenuti dai portafogli gestiti, laddove richiesto dalle caratteristiche degli strumenti finanziari che incorporano i diritti da esercitare;
- valutare le modalità e i tempi per l’eventuale esercizio dei diritti di intervento e di voto, sulla base di un’analisi costi/benefici che consideri anche gli obiettivi e la politica di investimento di ciascun portafoglio gestito;
- prevenire o gestire le eventuali situazioni di conflitto di interessi che possono risultare dall’esercizio dei diritti di voto per conto dei patrimoni gestiti.

La partecipazione alle Assemblee è regolata da una specifica procedura operativa interna che disciplina le modalità di partecipazione nell’interesse dei portafogli gestiti e dell’integrità del mercato, con l’obiettivo di ridurre al minimo il rischio di conflitti di interesse. A tal fine, la SGR si è dotata di appositi presidi volti ad identificare le circostanze che generano o potrebbero generare situazioni di conflitto di interesse e quindi ledere gravemente gli interessi di uno o più Clienti/Investitori/OICR. La SGR interviene, per conto dei patrimoni gestiti, nelle assemblee di selezionate società con azioni quotate alla Borsa Italiana e sui mercati internazionali, tenendo conto dell’utilità della partecipazione rispetto agli interessi dei patrimoni gestiti e della possibilità di incidere sulle decisioni in relazione ai diritti di voto posseduti.

Con specifico riferimento alle motivazioni che guidano la scelta di esercitare i diritti di intervento e di voto, la SGR ha individuato i seguenti criteri di tipo quantitativo e qualitativo:

- partecipare alla vita assembleare di quelle società nelle quali si detengano quote significative di capitale, quali di tempo in tempo individuate nelle procedure aziendali;
- partecipare a quelle assemblee che presentino tematiche giudicate rilevanti nell’interesse dei patrimoni gestiti al fine di (i) stigmatizzare situazioni di particolare rilievo, in difesa o a supporto degli interessi degli azionisti di minoranza o (ii) supportare decisioni significative riferite a pratiche ambientali, sociali e di buon governo societario;
- contribuire ad eleggere sindaci o consiglieri di amministrazione di società quotate in Italia mediante il meccanismo del voto di lista, in rappresentanza delle minoranze azionarie;
- partecipare alle assemblee in cui vengono deliberate operazioni straordinarie ritenute significative per l’interesse dei patrimoni gestiti al fine di supportare o contrastare l’operazione proposta.

Qualora uno o più di tali criteri siano soddisfatti, la struttura ESG & Strategic Activism definisce le proposte relative alle istruzioni di voto sulla base (i) di analisi e di approfondimenti svolti su documenti pubblici, (ii) della ricerca disponibile, a supporto delle decisioni di corporate governance e nelle raccomandazioni di voto, (iii) delle indicazioni fornite dai gestori di riferimento, nonché (iv) degli esiti dell’eventuale interazione con la società emittente (cd. “engagement”). La partecipazione alle singole assemblee viene autorizzata dall’Amministratore Delegato della SGR che definisce altresì (i) il voto da esprimere, (ii) le eventuali specifiche istanze da manifestare nell’interesse degli investitori, in modo indipendente da qualsiasi condizionamento interno ed esterno alla Società e (iii) le modalità di partecipazione, ivi compresa la delega, in occasione delle singole assemblee, da conferire a Società terze specializzate, impartendo espresse istruzioni. Qualora ritenuta la modalità più efficiente nell’interesse dei patrimoni gestiti e non ricorrano i criteri quali-quantitativi sopra indicati, la SGR esercita, inoltre, i diritti di voto avvalendosi del processo di voto elettronico eventualmente previsto dagli emittenti. A tal fine, la SGR si avvale di una piattaforma informatica che permette di efficientare il processo di esercizio dei diritti di voto, con particolare riferimento agli emittenti esteri. In tali situazioni, le istruzioni di voto sono definite sulla base di apposite linee guida approvate dal Consiglio di Amministrazione su proposta formulata dall’Amministratore Delegato e Direttore Generale.

Eurizon Capital si impegna, inoltre, ad effettuare una ricerca approfondita e ad instaurare un dialogo costruttivo con gli organi di amministrazione e/o controllo degli “emittenti rilevanti” individuati in base a precisi criteri di selezione definiti nella Politica di Impegno (c.d. “Engagement Policy”) di Eurizon Capital SGR che è pubblica e disponibile sul sito internet della SGR.

La SGR promuove un’interazione proattiva nei confronti delle società in cui investe, incoraggiando un’efficace comunicazione con il management di tali emittenti, ricorrendo ad una delle seguenti modalità di ingaggio:

- “unilaterale”, qualora sia SGR ad avviare la comunicazione (“one-way”);
- “bilaterale”, laddove la SGR e l’emittente partecipato abbiano instaurato un dialogo costruttivo (“two-way”);
- “collettivo”, ove sia prevista l’azione coordinata su temi mirati di più investitori istituzionali, anche tramite la partecipazione alle attività del Comitato di Corporate Governance e del Comitato dei Gestori promossi da Assogestioni, con altri investitori istituzionali firmatari di UN PRI, oppure nell’ambito di altre sedi internazionali di rilievo.

I documenti relativi all’attività di Stewardship di Eurizon sono disponibili sul sito internet della SGR.

Si riporta di seguito l’elenco delle Assemblee degli azionisti in cui la SGR è intervenuta per conto del Fondo nel corso del

periodo di riferimento:

Schlumberger N.V., BHP Group Limited, Bluescope Steel Limited, Fortescue Ltd., James Hardie Industries Plc, Orica Limited, Pilbara Minerals Ltd., Rio Tinto Limited, Santos Limited, Woodside Energy Group Ltd., ARC Resources Ltd., Agnico Eagle Mines Limited, Barrick Gold Corporation, Cameco Corporation, Enbridge Inc., First Quantum Minerals Ltd., Franco-Nevada Corporation, Nutrien Ltd., Pan American Silver Corp., Pembina Pipeline Corporation, Secure Energy Services Inc., TC Energy Corporation, Teck Resources Limited, Tourmaline Oil Corp., Wheaton Precious Metals Corp., Covestro AG, BASF SE, Repsol SA, Stora Enso Oyj, Air Liquide SA, TotalEnergies SE, Rio Tinto Plc, BP Plc, Anglo American Plc, Shell Plc, Asahi Kasei Corp., Idemitsu Kosan Co., Ltd., Oji Holdings Corp., Shin-Etsu Chemical Co., Ltd., JFE Holdings, Inc., ENEOS Holdings, Inc., Sumitomo Metal Mining Co. Ltd., Toray Industries, Inc., Nissan Chemical Corp., Nitto Denko Corp., Nippon Sanso Holdings Corp., Nippon Paint Holdings Co., Ltd., Mitsui Chemicals, Inc., Equinor ASA, Albemarle Corporation, Antero Resources Corporation, Baker Hughes Company, Ball Corporation, Celanese Corporation, Chevron Corporation, Cleveland-Cliffs Inc., ConocoPhillips, DuPont de Nemours, Inc., EOG Resources, Inc., Exxon Mobil Corporation, Freeport-McMoRan, Inc., Hess Corporation, International Flavors & Fragrances Inc., Kinder Morgan, Inc., Newmont Corporation, PBF Energy Inc., Sealed Air Corporation, WestRock Company.

Sostenibilità

La SGR si è dotata della Politica di Sostenibilità che descrive le metodologie di selezione e monitoraggio degli strumenti finanziari adottate al fine di integrare l'analisi dei rischi di sostenibilità nell'ambito del proprio Processo di Investimento relativo ai servizi di gestione collettiva del risparmio e di gestione di portafogli e alle raccomandazioni effettuate nell'ambito del servizio di consulenza in materia di investimenti.

In linea con i "Principi per gli Investimenti Sostenibili" (PRI) promossi dalle Nazioni Unite e con il quadro normativo e regolamentare europeo, la SGR ha adottato metodologie che prevedono l'applicazione di specifici processi di selezione degli strumenti finanziari, opportunamente graduati in funzione delle caratteristiche e degli obiettivi dei singoli prodotti gestiti, che tengono conto di fattori ambientali, sociali e di governance ("Environmental, Social and Governance factors" - ESG) e di principi di Investimento Sostenibile e Responsabile ("Sustainable and Responsible Investments" - SRI).

I criteri di selezione e monitoraggio degli emittenti basati su profili ESG e SRI integrano le tradizionali analisi finanziarie dei profili di rischio/rendimento degli emittenti che la SGR prende in considerazione nella formazione delle proprie scelte di investimento al fine di (i) evitare che condizioni di tipo ambientale, sociale e di governance possano determinare un significativo impatto negativo, effettivo o potenziale, sul valore degli investimenti dei patrimoni gestiti e (ii) cogliere le capacità degli emittenti di trarre vantaggio dalle opportunità di crescita sostenibile.

In conformità a quanto previsto dalla normativa vigente la SGR mette a disposizione dei propri clienti/investitori e degli altri stakeholder la Sintesi della Politica di Sostenibilità, ed ogni eventuale aggiornamento rilevante della stessa, sul proprio sito Internet www.eurizoncapital.com.

Informazioni su SFDR e tassonomia

La SGR, ai sensi all'articolo 11, paragrafo 2, del Regolamento (UE) 2019/2088 (cd. "Regolamento SFDR") e della correlata disciplina di attuazione, mette a disposizione per i prodotti classificati ai sensi dell'art.8 del Regolamento SFDR, le informazioni sulle caratteristiche ambientali e/o sociali nell'allegato "Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario".

RELAZIONE DI GESTIONE AL 30 DICEMBRE 2024

PREMESSA

La Relazione di gestione del Fondo si compone di una Situazione patrimoniale, di una Sezione reddituale e di una Nota integrativa ed è stata redatta in conformità alle disposizioni del Regolamento della Banca d'Italia del 19 gennaio 2015 in materia di gestione collettiva del risparmio, come modificato dal Provvedimento della Banca d'Italia del 12 marzo 2024. Questi sono inoltre accompagnati dalla relazione degli amministratori.

I prospetti contabili e la nota integrativa sono redatti in unità di euro, senza cifre decimali, a eccezione del valore della quota, che viene calcolato in millesimi di euro.

La presente Relazione di gestione è redatta con riferimento al 30 dicembre 2024, che risulta, ai sensi del regolamento del Fondo attualmente in vigore, l'ultimo giorno di calcolo del valore della quota del mese di dicembre. Tale data rappresenta pertanto il termine dell'esercizio contabile del Fondo.

Come espressamente previsto dal Provvedimento di riferimento, i prospetti allegati sono stati posti a confronto con i dati relativi al periodo precedente.

L'Assemblea degli Azionisti di Eurizon Capital SGR S.p.A. del 16 marzo 2020 ha incaricato EY S.p.A. della revisione legale del bilancio d'esercizio e della revisione contabile delle relazioni di gestione dei Fondi comuni d'investimento istituiti dalla SGR per gli esercizi 2021 - 2029.

Milano, 25 febbraio 2025

Per IL CONSIGLIO DI AMMINISTRAZIONE

NOTA INTEGRATIVA

Parte A - Andamento del valore della quota

1) Nel periodo di riferimento, la performance del Fondo, al netto delle commissioni applicate, e la performance del benchmark di riferimento, sono state rispettivamente pari a 2,66% e 4,48%.

2) Il rendimento annuo del Fondo e del benchmark nel corso degli ultimi dieci anni, o del minor periodo di vita, può essere rappresentato come segue:

I dati di rendimento del Fondo non includono eventuali costi di sottoscrizione e rimborso a carico dell'investitore. La performance del Fondo e del benchmark riflette valori che fino al 30/06/2011 erano al netto dell'effetto fiscale, mentre dal 01/07/2011 sono calcolati al lordo di tale componente.

3) I valori minimi e massimi della quota raggiunti durante l'esercizio sono così raffigurabili:

Andamento del valore della quota durante l'esercizio	
Valore minimo al 19/01/24	15,758
Valore massimo al 22/11/24	18,317

Per quanto concerne i principali eventi che hanno influito sull'andamento del valore della quota si rimanda a quanto illustrato nel commento di gestione.

4) Il Fondo non presenta la suddivisione in Classi di quote.

5) Nel corso dell'esercizio non sono stati riscontrati errori nel calcolo del valore della quota del Fondo.

6) La volatilità della differenza di rendimento del Fondo rispetto al benchmark di riferimento negli ultimi tre anni o del minor periodo di vita del Fondo è rappresentata dal valore della "Tracking Error Volatility(*)" di seguito riportata:

	2024	2023	2022
TEV	2,66%	2,57%	2,60%

(*) La Tracking Error Volatility è calcolata come deviazione standard settimanale annualizzata della differenza tra la performance del Fondo e quella del benchmark.

7) La quota del Fondo non è trattata su mercati regolamentati.

8) Le quote del Fondo sono del tipo ad accumulazione. I proventi realizzati non vengono pertanto distribuiti ma restano compresi nel patrimonio del Fondo.

9) Il Fondo rimane esposto ai rischi tipici dell'investimento azionario, tra cui la maggior avversione al rischio da parte degli investitori in condizioni di incertezza. Le politiche monetarie espansive sono un supporto alla crescita, tuttavia gli impatti delle politiche economiche della nuova presidenza americana a livello globale sono un elemento di preoccupazione. Gli equilibri tra domanda e offerta nei settori oggetto di investimento (energia e materie prime) verranno monitorati con attenzione; attualmente l'adozione di un portafoglio diversificato, prevalentemente investito in titoli di società di qualità e dai fondamentali solidi, resta la principale linea di condotta.

Il monitoraggio di tali rischi viene effettuato su base continuativa dal gestore attraverso la costante verifica dell'effettivo posizionamento del Fondo rispetto al profilo di rischio-rendimento desiderato e al benchmark di riferimento. La misurazione ed il controllo dei rischi in oggetto viene inoltre effettuata con frequenza giornaliera mediante l'utilizzo di modelli matematico-statistici utilizzati autonomamente dalla struttura di Risk Management. I risultati di tali valutazioni sono regolarmente portati all'attenzione degli organi amministrativi della SGR.

Ai fini di fornire una rappresentazione dei rischi assunti nell'esercizio, si riporta qui di seguito una sintesi degli indicatori più significativi, elaborati a posteriori su dati di consuntivo:

Volatilità annualizzata su quote nette del Fondo **13,25%**

(esprime la misura annualizzata della variabilità settimanale del rendimento della quota rispetto al valore medio del rendimento stesso)

Volatilità annualizzata del Benchmark **13,26%**

(esprime la misura annualizzata della variabilità del rendimento del benchmark rispetto al valore medio del rendimento stesso)

Var mensile (99%) su quote nette **-6,72%**

(Minor rendimento realizzato su base mensile nel corso del periodo di riferimento determinato escludendo l'1% dei peggiori risultati)

Nel corso del periodo di riferimento non sono stati utilizzati strumenti derivati con finalità di copertura.

Parte B - Le attività, le passività e il valore complessivo netto

SEZIONE I - Criteri di valutazione

Principi contabili

La presente relazione di gestione è redatta nel presupposto della continuità operativa del Fondo.

Nella redazione del presente documento vengono applicati i principi contabili di generale accettazione per i fondi comuni d'investimento e i criteri di valutazione previsti dal Regolamento in accordo con quanto espressamente disposto dalla Banca d'Italia. Tali principi contabili, coerenti con quelli utilizzati nel corso del periodo per la predisposizione dei prospetti giornalieri, sono di seguito riepilogati.

Criteri contabili

Gli acquisti e le vendite di titoli e di altre attività sono contabilizzati nel portafoglio del Fondo sulla base della data di effettuazione dell'operazione, indipendentemente dalla data di regolamento dell'operazione stessa. Nel caso di sottoscrizione di titoli di nuova emissione la contabilizzazione nel portafoglio del Fondo avviene invece alla data di attribuzione.

La vendita o l'acquisto di contratti future su titoli nozionali influenzano il valore netto del Fondo attraverso la corresponsione o l'incasso dei margini di variazione i quali incidono direttamente sulla liquidità disponibile e sul conto economico mediante l'imputazione dei differenziali positivi/negativi. Tali differenziali vengono registrati secondo il principio della competenza, sulla base della variazione giornaliera tra i prezzi di chiusura del mercato di contrattazione e i costi dei contratti stipulati e/o i prezzi del giorno precedente.

Le opzioni, i premi e i warrant acquistati e le opzioni emesse e i premi venduti sono computati tra le attività/passività al loro valore corrente. I controvalori delle opzioni, dei premi e dei warrant non esercitati confluiscono, alla scadenza, nelle apposite poste di conto economico.

I costi delle opzioni, dei premi e dei warrant, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i costi per acquisti e i ricavi per vendite dei titoli cui si riferiscono, mentre i ricavi da premi venduti e opzioni emesse, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i ricavi per vendite e i costi per acquisti dei titoli cui si riferiscono.

Le differenze tra i costi medi ponderati di carico e i prezzi di mercato relativamente alle quantità in portafoglio originano minusvalenze e/o plusvalenze; nell'esercizio successivo tali poste da valutazione influiranno direttamente sui relativi valori di libro. Gli utili e le perdite su realizzazioni riflettono la differenza fra i costi medi ponderati di carico e i prezzi relativi alle vendite dell'esercizio. Le commissioni di acquisto e vendita corrisposte alle controparti, qualora esplicitate sono imputate a costo nella voce "13. Altri Oneri" della Sezione Reddittuale della relazione di gestione.

Gli interessi e gli altri proventi su titoli, gli interessi sui depositi bancari, gli interessi sui prestiti, nonché gli oneri di gestione, vengono registrati secondo il principio della competenza temporale, mediante il calcolo, ove necessario, di ratei attivi e passivi.

I dividendi maturati su titoli azionari in portafoglio vengono registrati dal giorno della quotazione ex cedola, al netto della ritenuta d'imposta ove applicata.

Le sottoscrizioni e i rimborsi delle quote sono registrati a norma di Regolamento del Fondo, nel rispetto del principio della competenza temporale.

Criteri di valutazione

Il prezzo di valutazione dei titoli in portafoglio in ottemperanza a quanto disposto dalla normativa vigente è determinato sulla base dei seguenti parametri:

- i prezzi unitari utilizzati, determinati in base all'ultimo prezzo disponibile rilevato sul mercato di negoziazione, sono quelli del giorno di Borsa aperta al quale si riferisce il valore della quota;
- per i titoli di Stato italiani è l'ultimo prezzo rilevato sul Mercato Telematico (MOT) e, in mancanza di quotazione, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli obbligazionari quotati negoziati presso il Mercato Telematico (MOT) è il prezzo trade e, in mancanza di questo, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli quotati presso altri mercati regolamentati, è l'ultimo prezzo ufficiale disponibile entro le ore 24 italiane del giorno al quale si riferisce il valore della quota. Se il titolo è trattato su più mercati si applica la quotazione più significativa, tenuto conto anche delle quantità trattate e dell'operatività svolta dal Fondo. Nel caso in cui nel mercato di quotazione risultino contenuti gli scambi ed esistano elementi di scarsa liquidità, la valutazione tiene altresì conto del presumibile valore di realizzo determinabile anche sulla base delle informazioni reperibili su circuiti internazionali di

referimento oggettivamente considerate dai responsabili organi della SGR;

- per i titoli e le altre attività finanziarie non quotati, compresi quelli esteri, è il loro presumibile valore di realizzo sul mercato, individuato su un'ampia base di elementi di informazione - oggettivamente considerati dai responsabili organi della SGR - con riferimento alla peculiarità del titolo, alla situazione patrimoniale e reddituale degli emittenti, alla situazione del mercato e al generale andamento dei tassi di interesse;

- per le opzioni, i warrant e gli strumenti derivati trattati in mercati regolamentati è il prezzo di chiusura del giorno rilevato nel mercato di trattazione; nel caso di contratti trattati su più mercati è il prezzo più significativo, anche in relazione alle quantità trattate sulle diverse piazze e all'operatività svolta dal Fondo;

- per le opzioni, i warrant e gli strumenti derivati non trattati in mercati regolamentati è il valore corrente espresso dalla formula indicata dall'Organo di Vigilanza; qualora i valori risultassero incongruenti con le quotazioni espresse dal mercato, la SGR riconsidera il tasso d'interesse "risk free" e la volatilità utilizzati, al fine di ricondurne il risultato al presunto valore di realizzo;

- per la conversione in Euro delle valutazioni espresse in altre valute si applicano i relativi cambi correnti alla data di riferimento comunicati da WM Reuters. Le operazioni a termine in valuta sono convertite al tasso di cambio a termine corrente per scadenze corrispondenti a quelle delle operazioni oggetto di valutazione;

- per i titoli strutturati non quotati la valutazione viene effettuata procedendo alla valutazione distinta di tutte le singole componenti elementari in cui essi possono essere scomposti; per titoli strutturati si intendono quei titoli che incorporano una componente derivata e/o presentano il profilo di rischio di altri strumenti finanziari sottostanti. In particolare, non sono considerati titoli strutturati i titoli di Stato parametrati a tassi di interesse di mercato e i titoli obbligazionari di emissione societaria che prevedono il rimborso anticipato.

SEZIONE II - Le attività

Qui di seguito vengono riportati alcuni grafici che forniscono l'indicazione della composizione del portafoglio del Fondo alla chiusura dell'esercizio, ripartito in base alle aree geografiche verso cui sono orientati gli investimenti e in base ai settori economici di impiego delle risorse del Fondo.

Si riporta inoltre l'elenco analitico dei principali strumenti finanziari detenuti dal Fondo (i primi 50 o comunque tutti quelli che superano lo 0,5% delle attività del Fondo).

Aree geografiche verso cui sono orientati gli investimenti

Settori economici di impiego delle risorse del Fondo

Si segnala che le parti di OICR sono classificate all'interno del settore finanziario, compreso nel settore "diversi".

II.1 STRUMENTI FINANZIARI QUOTATI

Ripartizione degli strumenti finanziari quotati per Paese di residenza dell'emittente:

	Paesi di residenza dell'emittente			
	Italia	Paesi dell'UE	Altri paesi dell' OCSE	Altri paesi
Titoli di debito: - di Stato - di altri enti pubblici - di banche - di altri				
Titoli di capitale: - con diritto di voto - con voto limitato - altri		15.774.035	296.855.843	
Parti di OICR: - OICVM - FIA aperti retail - altri				140.785
Totali: - in valore assoluto - in percentuale del totale delle attività		15.774.035 4,9	296.855.843 93,0	140.785

Nel caso di quote di OICR, la ripartizione per paese di residenza dell'emittente è stata effettuata tenendo in considerazione i mercati prevalenti nei quali gli OICR investono.

Ripartizione degli strumenti finanziari quotati per mercato di quotazione:

	Mercato di quotazione			
	Italia	Paesi dell'UE	Altri paesi dell'OCSE	Altri paesi
Titoli quotati Titoli in attesa di quotazione		15.914.820	296.855.843	
Totali: - in valore assoluto - in percentuale del totale delle attività		15.914.820 5,0	296.855.843 92,9	

Si segnala che, le quote di OICR, in accordo con quanto stabilito dal Regolamento della Banca d'Italia, sono ricondotte tra gli strumenti finanziari quotati. La ripartizione per mercato di quotazione, in tal caso, viene effettuata in base al paese di residenza della SGR che li ha istituiti.

Movimenti dell'esercizio:

	Controvalore acquisti	Controvalore vendite/rimborsi
Titoli di debito: - titoli di Stato - altri		
Titoli di capitale	372.468.516	412.784.275
Parti di OICR	38.234.957	38.328.913
Totale	410.703.473	451.113.188

II.3 TITOLI DI DEBITO

1) Non risultano in portafoglio titoli strutturati.

II.4 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizioni creditorie:

Tipologia dei contratti	Attività ricevute in garanzia				
	Cash (eccetto margin)	Titoli di Stato	Altri titoli di debito	Titoli di capitale	Altri
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili					
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili					
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili					
Altre operazioni: - future - opzioni - swap	100.000				

II.8 POSIZIONE NETTA DI LIQUIDITÀ

La posizione netta di liquidità è composta dalle seguenti sottovoci:

Descrizione	Importo
Liquidità disponibile	6.483.830
- Liquidità disponibile in euro	4.203.909
- Liquidità disponibile in divisa estera	2.279.921
Liquidità da ricevere per operazioni da regolare	40.940.786
- Vend/Acq di divisa estera a contanti	43.523
- Vend/Acq di divisa estera a termine	40.897.263
Liquidità impegnata per operazioni da regolare	-40.767.861
- Acq/Vend di divisa estera a contanti	-43.525
- Acq/Vend di divisa estera a termine	-40.724.336
Totale posizione netta di liquidità	6.656.755

II.9 ALTRE ATTIVITÀ

Le altre attività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Ratei attivi	30.621
- Su liquidità disponibile	29.486
- Su contratti CSA	1.135
Altre	118.711
- Dividendi da incassare	118.711
Totale altre attività	149.332

SEZIONE III - Le passività

III.1 FINANZIAMENTI RICEVUTI

Il Fondo ricorre a forme di finanziamento rappresentate da affidamenti temporanei di conto corrente concessi dal Depositario che non risultano essere utilizzati a fine esercizio e a forme di indebitamento a vista con Intesa Sanpaolo S.p. A., al fine di far fronte ad una dilazione temporale nel versamento dei margini di variazione relativi a operazioni in strumenti finanziari derivati su mercati regolamentati.

Qui di seguito si riporta il riepilogo dei finanziamenti in essere a fine periodo:

Finanziamenti ricevuti	Importo
- Finanziamenti Non EUR	1.125

III.5 DEBITI VERSO PARTECIPANTI

I debiti verso partecipanti sono così dettagliabili:

Descrizione	Data estinzione debito	Importi
Rimborsi richiesti e non regolati		238.294
-	31/12/2024	238.294
Totale debiti verso i partecipanti		238.294

III.6 ALTRE PASSIVITÀ

Le altre passività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Provvigioni ed oneri maturati e non liquidati	519.156
- Commissioni Depositario, custodia e amministrazione titoli	7.944
- Provvigioni di gestione	488.475
- Ratei passivi su conti correnti	5.917
- Commissione calcolo NAV	9.667
- Commissioni di tenuta conti liquidità	6.610
- Ratei passivi su CSA	543
Altre	122.882
- Società di revisione	17.583
- Contratti CSA	100.000
- Spese per pubblicazione	5.299
Totale altre passività	642.038

La voce "Contratti CSA" si riferisce a debiti iscritti a fronte della liquidità ricevuta a garanzia dell'operatività in strumenti finanziari derivati sulla base di Credit Support Annex stipulati.

SEZIONE IV - Il Valore Complessivo Netto

1) Le quote in circolazione a fine periodo detenute da investitori qualificati risultano in numero di 2.689.730 pari a 14,31% delle quote in circolazione alla data di chiusura.

2) Le quote in circolazione a fine periodo detenute da soggetti non residenti risultano in numero di 297.801 pari a 1,58% delle quote in circolazione alla data di chiusura.

3) Le componenti che hanno determinato la variazione della consistenza del patrimonio netto tra l'inizio e la fine del periodo sono qui di seguito riportate:

Variazioni del patrimonio netto				
		Anno 2024	Anno 2023	Anno 2022
Patrimonio netto a inizio periodo		359.895.586	404.852.069	322.676.823
Incrementi:	a) sottoscrizioni:	74.440.439	81.127.386	266.865.679
	- sottoscrizioni singole	31.808.976	32.487.620	180.741.027
	- piani di accumulo	33.626.983	35.128.353	49.632.096
	- switch in entrata	9.004.480	13.511.413	36.492.556
	b) risultato positivo della gestione	8.567.652	17.138.610	71.377.397
Decrementi:	a) rimborsi:	124.208.384	143.222.479	256.067.830
	- riscatti	107.611.839	124.534.160	235.523.317
	- piani di rimborso	11.400	16.200	200
	- switch in uscita	16.585.145	18.672.119	20.544.313
	b) proventi distribuiti

Patrimonio netto a fine periodo		318.695.293	359.895.586	404.852.069

SEZIONE V - Altri dati patrimoniali

V.1 IMPEGNI ASSUNTI DAL FONDO A FRONTE DI STRUMENTI FINANZIARI DERIVATI E ALTRE OPERAZIONI A TERMINE

Si riporta il dettaglio degli impegni assunti dal Fondo a fronte di strumenti derivati in essere alla data di chiusura:

	Ammontare dell'impegno	
	Valore assoluto	% del Valore Complessivo Netto
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili		
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili	1.634.244	0,5
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili		
Altre operazioni: - future e contratti simili - opzioni e contratti simili - swap e contratti simili		

Si ricorda che la normativa vigente richiede che l'ammontare degli impegni di cui sopra assunti dal Fondo non sia superiore al valore complessivo netto del Fondo stesso.

V.2 AMMONTARE DELLE ATTIVITÀ E PASSIVITÀ NEI CONFRONTI DI ALTRE SOCIETÀ DEL GRUPPO INTESA SANPAOLO

Le attività e passività in essere a fine periodo nei confronti delle altre società appartenenti al Gruppo Intesa Sanpaolo sono le seguenti:

	EURIZON CAPITAL SA	INTESA SANPAOLO SPA		
Strumenti finanziari detenuti (Incidenza % sul portafoglio)	140.785 0,1			
Strumenti finanziari derivati				
Depositi bancari				
Altre attività		-4.199		
Finanziamenti ricevuti		-1.125		
Altre passività				
Garanzie e impegni				

V.3 COMPOSIZIONE DELLE POSTE PATRIMONIALI DEL FONDO PER DIVISA DI DENOMINAZIONE

Le poste patrimoniali alla fine del periodo erano così ripartite per divisa di denominazione:

	ATTIVITÀ				PASSIVITÀ		
	Strumenti finanziari	Depositi bancari	Altre attività	TOTALE	Finanziamenti ricevuti	Altre passività	TOTALE
Dollaro Australiano	18.256.776		-1.577.060	16.679.716			
Dollaro Canadese	40.381.035		-4.263.521	36.117.514		288	288
Franco Svizzero	8.188.565		668.839	8.857.404			
Corona Danese	6.624.253		-5.420.576	1.203.677			
Euro	9.149.782		36.816.749	45.966.531		879.454	879.454
Sterlina Regno Unito	45.473.568		-18.571.637	26.901.931	21		21
Yen Giapponese	11.149.315		-226.740	10.922.575			
Corona Norvegese	4.186.868		-1.818.172	2.368.696			
Dollaro Neozelandese			2	2			
Corona Svedese			1.160.099	1.160.099			
Dollaro Statunitense	169.360.501		38.104	169.398.605	1.104	590	1.694
TOTALE	312.770.663		6.806.087	319.576.750	1.125	880.332	881.457

Parte C - Il risultato economico dell'esercizio

SEZIONE I - Strumenti finanziari quotati e non quotati e relative operazioni di copertura

I.1 RISULTATO DELLE OPERAZIONI SU STRUMENTI FINANZIARI

Il risultato delle operazioni del periodo è così dettagliabile:

Risultato complessivo delle operazioni su:	Utile/perdita da realizzi	di cui: per variazioni dei tassi di cambio	Plus / minusvalenze	di cui: per variazioni dei tassi di cambio
A. Strumenti finanziari quotati	5.642.399	819.248	378.842	8.796.321
1. Titoli di debito				
2. Titoli di capitale	5.574.108	796.320	369.217	8.790.686
3. Parti di OICR	68.291	22.928	9.625	5.635
- OICVM	68.291	22.928	9.625	5.635
- FIA				
B. Strumenti finanziari non quotati				
1. Titoli di debito				
2. Titoli di capitale				
3. Parti di OICR				

I.2 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizione debitorie:

Risultato degli strumenti finanziari derivati				
	Con finalità di copertura (sottovoci A4 e B4)		Senza finalità di copertura (sottovoci C1 e C2)	
	Risultati realizzati	Risultati non realizzati	Risultati realizzati	Risultati non realizzati
Operazioni su tassi di interesse				
- future su titoli di debito, tassi e altri contratti simili				
- opzioni su tassi e altri contratti simili				
- swap e altri contratti simili				
Operazioni su titoli di capitale			230.258	
- future su titoli di capitale, indici azionari e contratti simili			230.258	
- opzioni su titoli di capitale e altri contratti simili				
- swap e altri contratti simili				
Altre operazioni				
- future				
- opzioni				
- swap				

SEZIONE III - Altre operazioni di gestione e oneri finanziari

III.2 RISULTATO DELLA GESTIONE CAMBI

Le differenze di cambio derivanti dalla gestione della liquidità in valuta sono di seguito dettagliate:

Risultato della gestione cambi		
	Risultati realizzati	Risultati non realizzati
OPERAZIONI DI COPERTURA		
Operazioni a termine	-1.901.318	172.362
Strumenti finanziari derivati su tassi di cambio - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili		
OPERAZIONI NON DI COPERTURA		
Operazioni a termine	1.806.090	566
Strumenti finanziari derivati su tassi di cambio - future su valute e altri contratti simili - opzioni su tassi e altri contratti simil - swap e altri contratti simili		
LIQUIDITÀ	-377.024	-6.725

III.3 INTERESSI PASSIVI SU FINANZIAMENTI RICEVUTI

Gli interessi passivi addebitati al Fondo nell'esercizio sono così dettagliabili:

Descrizione	Importi
Interessi passivi per scoperti di : - c/c denominati in Dollaro Australiano	-400
Interessi passivi per scoperti di : - c/c denominati in Dollaro Canadese	-399
Interessi passivi per scoperti di : - c/c denominati in Euro	-19.348
Interessi passivi per scoperti di : - c/c denominati in Yen Giapponese	-216
Interessi passivi per scoperti di : - c/c denominati in Corona Norvegese	-18
Interessi passivi per scoperti di : - c/c denominati in Dollaro Statunitense	-2.490
Totale interessi passivi su finanziamenti ricevuti	-22.871

III.4 ALTRI ONERI FINANZIARI

Gli altri oneri finanziari addebitati al Fondo nell'esercizio sono così dettagliabili:

Descrizione	Importi
Interessi negativi su saldi creditori	-3.470
Totale altri oneri finanziari	-3.470

SEZIONE IV - Oneri di gestione

IV.1 COSTI SOSTENUTI NEL PERIODO

I costi sostenuti nel complesso dal Fondo nell'esercizio sono così dettagliati:

ONERI DI GESTIONE	Importi complessivamente corrisposti				Importi corrisposti a soggetti del gruppo di appartenenza della SGR			
	Importo (migliaia di Euro)	% sul valore complessivo netto	% su valore dei beni negoziati	% su valore del finanziamento	Importo (migliaia di Euro)	% sul valore complessivo netto	% su valore dei beni negoziati	% su valore del finanziamento
1) Provvigioni di gestione - provvigioni di base	6.154 6.154	1,80 1,80						
2) Costo per il calcolo del valore della quota	120	0,04						
3) Costi ricorrenti degli OICR in cui il fondo investe								
3) Costi ricorrenti degli OICR in cui il fondo investe(*1)								
3) Costi ricorrenti degli OICR in cui il fondo investe(*1)(*2)								
4) Compenso del depositario	181	0,05						
5) Spese di revisione del fondo	18	0,01						
6) Spese legali e giudiziarie								
7) Spese di pubblicazione del valore della quota	5	0,00						
8) Altri oneri gravanti sul fondo - contributo di vigilanza - commissioni varie - commissioni di garanzia	2 2	0,00 0,00						
9) Commissioni di collocamento								
COSTI RICORRENTI TOTALI (SOMMA DA 1 A 9)	6.480	1,90						
10) Commissioni di performance (già provvig. di incentivo)								
11) Oneri di negoziazione di strumenti finanziari di cui: - su titoli azionari - su titoli di debito - su derivati - su OICR - Commissioni su C/V Divise Estere - Commissioni su prestito titoli	498		0,06					
12) Oneri finanziari per i debiti assunti dal fondo	23			3,20				
13) Oneri fiscali di pertinenza del fondo	196	0,06						
TOTALE SPESE (SOMMA DA 1 A 13)	7.197	1,96						

- (*1) I costi ricorrenti degli OICR sono di natura extracontabile e sono conformi alle Linee Guida del CESR/10-674

A fronte dell'attività di promozione e collocamento nonché dell'attività di assistenza fornita in via continuativa nei confronti dei partecipanti ai Fondi, anche nelle operazioni successive alla prima sottoscrizione e, laddove previsto, a fronte del servizio di consulenza, ai collocatori del Fondo sono stati riconosciuti i seguenti compensi:

- una quota parte degli importi percepiti dalla SGR a titolo di provvigioni di gestione, in media pari al 67,5%, corrispondente ad un importo di 4.155 migliaia di euro.

Si precisa che gli oneri di negoziazione su strumenti finanziari, sostenuti nell'esercizio e riportati al punto 11) della presente tabella, consistono nelle commissioni di negoziazione esplicitate dalle controparti. In caso contrario, tali oneri accessori risultano già inclusi nel prezzo di acquisto o vendita.

IV.2 COMMISSIONI DI PERFORMANCE (già provvigioni di incentivo)

La commissione di performance a favore della Società di Gestione viene calcolata e liquidata sulla base di quanto previsto dal Regolamento del Fondo così come esplicitato nella presente relazione tra le caratteristiche del Fondo Comune d'Investimento al relativo paragrafo delle "Spese ed oneri a carico del Fondo".

Alla fine dell'esercizio non sono state accantonate commissioni di performance, in quanto le stesse non risultavano dovute rispetto al calcolo effettuato a fine periodo contabile.

Commissioni di performance nell'esercizio	
Importo delle commissioni di performance addebitate	0
Commissioni di performance (in percentuale del NAV)	0,0

IV.3 REMUNERAZIONI

Le Politiche di remunerazione e incentivazione della SGR sono state predisposte sulla base delle Politiche di Remunerazione del Gruppo Intesa Sanpaolo e, per quanto non in contrasto, non disciplinato o più restrittivo della normativa del settore bancario, nel rispetto delle disposizioni europee e nazionali che regolamentano il settore del Risparmio Gestito.

Al riguardo, la SGR elabora ed attua politiche e prassi di remunerazione ed incentivazione coerenti con le proprie caratteristiche, la propria dimensione e quella degli OICR gestiti, l'organizzazione interna, la natura, la portata e la complessità delle attività. L'applicazione dei sistemi di incentivazione per il personale della SGR è subordinata alle seguenti condizioni: (i) di attivazione a livello di Gruppo Intesa Sanpaolo e della SGR; (ii) di "finanziamento" previste dai connessi meccanismi a livello di Gruppo e della SGR, nonché (iii) di accesso individuale.

Tali condizioni sono ispirate ai principi di sostenibilità finanziaria della componente variabile dei compensi e rappresentate dalla verifica della "qualità" dei risultati reddituali raggiunti e della coerenza con i limiti previsti nell'ambito del quadro di riferimento per la determinazione della propensione al rischio del Gruppo Intesa Sanpaolo.

Nel dettaglio, la struttura della retribuzione variabile prevede modalità di erogazione differenziate in funzione del ruolo ricoperto (ad esempio nel caso del cd. "personale più rilevante") e del rapporto tra retribuzione variabile e fissa che prevede l'applicazione dei requisiti più stringenti della regolamentazione comunitaria, nazionale e di Gruppo, tra cui: (i) il differimento, ovvero la corresponsione della retribuzione variabile negli anni successivi a quello di maturazione; (ii) l'assegnazione di parte in contanti e parte in strumenti finanziari; (iii) la previsione di un meccanismo di mantenimento degli strumenti finanziari assegnati; (iv) la previsione di meccanismi di correzione che prevedano la riduzione parziale e/o totale della retribuzione variabile ovvero la restituzione dei premi già corrisposti. Sono, inoltre, vietate eventuali strategie di copertura personale o assicurazioni sulla remunerazione che possano alterare gli effetti di allineamento al rischio insiti nei meccanismi di remunerazione.

Con specifico riferimento alla filiera dei gestori, la definizione della remunerazione variabile viene effettuata tenendo conto del profilo di rischio/rendimento dei diversi patrimoni gestiti al fine di orientare e premiare le migliori performance e al tempo stesso allineare i sistemi incentivanti agli interessi degli investitori. La valutazione delle performance viene effettuata sulla base del livello di professionalità e della tipologia e complessità delle attività gestite. Oltre a tali valutazioni, è inoltre considerato il livello di raggiungimento di prestazioni qualitative di tipo discrezionale e/o progettuale, che rafforzano l'orientamento del singolo a obiettivi di lungo termine e verso performance sostenibili.

Le politiche di remunerazione e incentivazione della SGR sono altresì coerenti con le previsioni in tema di integrazione dei rischi di sostenibilità ai sensi del Regolamento UE 2019/2088.

Ciò posto, si forniscono le seguenti informazioni relative all'applicazione delle Politiche di remunerazione relative all'esercizio 2023:

- la remunerazione totale del personale della SGR è risultata pari a 59,8 milioni di euro, di cui 41,0 milioni di euro riconducibili alla componente fissa e 18,9 milioni di euro alla componente variabile liquidata. Al 31 dicembre 2023 il personale della SGR era composto da n. 531 dipendenti;
- la remunerazione totale del personale complessivamente coinvolto, anche in via non esclusiva, nella gestione delle attività del Fondo è risultata complessivamente pari a 2,1 milioni di euro, di cui 0,9 milioni di euro riconducibili alla componente fissa e 1,2 milioni di euro alla componente variabile;
- la remunerazione totale del personale più rilevante della SGR, ammonta complessivamente a 13,1 milioni di euro. La stessa risulta essere suddivisa tra le seguenti categorie di "personale più rilevante" di seguito indicate:
 - i) membri esecutivi e non esecutivi del Consiglio di Amministrazione, per complessivi 3,0 milioni di euro;
 - ii) i soggetti che riportano direttamente al vertice aziendale, nonché coloro i quali riportano direttamente al Consiglio di Amministrazione, all'Amministratore Delegato e al Collegio Sindacale, per complessivi 3,8 milioni di euro;
 - iii) personale appartenente alle funzioni aziendali di controllo, per complessivi 0,9 milioni di euro;
 - iv) altri soggetti che, individualmente o collettivamente, assumono rischi in modo significativo per la SGR o per i Fondi gestiti, per complessivi 5,2 milioni di euro;

v) altri soggetti la cui remunerazione totale si collochi nella medesima fascia retributiva delle categorie sub ii) e iv), per complessivi 0,2 milioni di euro;

- la proporzione della remunerazione totale del personale attribuibile al Fondo è pari all'1,7% del costo del personale coinvolto nella gestione del Fondo, cui corrisponde un numero medio di beneficiari pari a 9,5;

- le informazioni relative alle remunerazioni sono state determinate sulla base della contabilità industriale della SGR utilizzando i dati del Bilancio d'esercizio; gli esiti del riesame periodico svolto dal Consiglio di Amministrazione hanno riscontrato la rispondenza delle prassi operative seguite nella determinazione del sistema incentivante rispetto alle Politiche deliberate dagli Organi aziendali e alle disposizioni normative e di Gruppo in materia; non si evidenziano modifiche sostanziali rispetto alle Politiche di Remunerazione valide per il periodo precedente.

La sintesi delle Politiche di remunerazione e incentivazione della SGR è disponibile nel sito internet della SGR.

SEZIONE V - Altri ricavi ed oneri

Si riportano qui di seguito i dettagli delle voci interessi attivi su disponibilità liquide, altri ricavi e altri oneri:

Descrizione	Importi
Interessi attivi su disponibilità liquide	231.782
- C/C in Euro	210.249
- C/C in Dollaro Statunitense	15.152
- C/C in Sterlina Regno Unito	2.483
- C/C in Dollaro Australiano	1.883
- C/C in Dollaro Canadese	1.735
- C/C in Franco Svizzero	280
Altri ricavi	159.927
- Interessi attivi su CSA	6.731
- Sopravvenienze attive	152.864
- Ricavi vari	332
Altri oneri	-553.874
- Commissione su contratti regolati a margine	-366
- Commissione su operatività in titoli	-498.478
- Interessi passivi e spese su CSA	-5.644
- Spese bancarie	-28.099
- Sopravvenienze passive	-18.224
- Spese varie	-3.063
Totale	-162.165

SEZIONE VI - Imposte

Si riporta qui di seguito il riepilogo delle imposte del Fondo nell'esercizio rappresentate principalmente da imposte su titoli di capitale (c.d. Tobin tax), bolli su titoli di debito, bolli su OICR esteri e ritenute fiscali su c/c:

Descrizione	Importi
Altre imposte	-196.022
Totale imposte	-196.022

Parte D - Altre informazioni

1. OPERATIVITÀ POSTA IN ESSERE PER LA COPERTURA DEI RISCHI DI PORTAFOGLIO

Al fine di fornire adeguata informativa anche sulle operazioni aventi l'obiettivo di copertura del rischio di cambio, si segnala che nel corso dell'esercizio sono state poste in essere le seguenti operazioni:

Concluse alla chiusura del periodo:

Tipo operazione	Posizione	Divisa	Ammontare operazioni	Numero operazioni
DIVISA A TERMINE	Acquisto	AUD	28.095.000	13
DIVISA A TERMINE	Acquisto	CAD	27.796.732	12
DIVISA A TERMINE	Acquisto	CHF	9.970.251	2
DIVISA A TERMINE	Acquisto	DKK	8.798.774	1
DIVISA A TERMINE	Acquisto	GBP	21.180.000	16
DIVISA A TERMINE	Acquisto	JPY	1.983.559.985	11
DIVISA A TERMINE	Acquisto	NOK	27.890.000	2
DIVISA A TERMINE	Acquisto	USD	84.650.000	38
DIVISA A TERMINE	Vendita	AUD	29.164.698	15
DIVISA A TERMINE	Vendita	CAD	20.930.000	13
DIVISA A TERMINE	Vendita	CHF	10.280.000	8
DIVISA A TERMINE	Vendita	DKK	44.490.000	6
DIVISA A TERMINE	Vendita	GBP	35.748.338	26
DIVISA A TERMINE	Vendita	JPY	1.819.990.000	11
DIVISA A TERMINE	Vendita	NOK	84.830.997	7
DIVISA A TERMINE	Vendita	SEK	7.255.000	1
DIVISA A TERMINE	Vendita	USD	99.116.705	47

In essere alla chiusura del periodo:

Tipo operazione	Posizione	Divisa	Ammontare operazioni	Numero operazioni
DIVISA A TERMINE	Acquisto	GBP	725.000	1
DIVISA A TERMINE	Acquisto	USD	1.758.295	1
DIVISA A TERMINE	Vendita	AUD	3.219.698	1
DIVISA A TERMINE	Vendita	CAD	6.968.268	2
DIVISA A TERMINE	Vendita	DKK	41.071.226	2
DIVISA A TERMINE	Vendita	GBP	16.688.338	2
DIVISA A TERMINE	Vendita	JPY	62.605.015	1
DIVISA A TERMINE	Vendita	NOK	23.535.997	2
DIVISA A TERMINE	Vendita	USD	2.290.000	3

2. INFORMAZIONE SUGLI ONERI DI INTERMEDIAZIONE

Nell'esercizio sono stati corrisposti oneri di intermediazione esplicitati dalle controparti e relativi ad operazioni effettuate in strumenti finanziari. Tali oneri sono stati così riconosciuti alle seguenti categorie di intermediari:

	Soggetti non appartenenti al gruppo	Soggetti appartenenti al gruppo	Totale
Banche italiane SIM	35	331	366
Banche e imprese di investimento estere	220.416		220.416
Altre controparti	278.062		278.062

3. INFORMAZIONE SULLE UTILITÀ RICEVUTE

La SGR assorbe direttamente i costi connessi alla ricerca in materia di investimenti relativi ai prodotti gestiti al fine di mantenere inalterato il livello di qualità e di valore per tutti gli investitori, evitando di addebitare tali oneri al patrimonio gestito.

La SGR considera comunque ammissibili le seguenti tipologie di benefici non monetari di minore entità:

- a) le informazioni o la documentazione relativa a uno strumento finanziario o a un servizio di investimento di natura generica ovvero personalizzata in funzione di uno specifico cliente;
- b) il materiale scritto da terzi, commissionato e pagato da un emittente societario o da un emittente potenziale per promuovere una nuova emissione da parte della società, o quando l'intermediario è contrattualmente impegnato e pagato dall'emittente per produrre tale materiale in via continuativa, purché il rapporto sia chiaramente documentato nel materiale e quest'ultimo sia messo a disposizione di qualsiasi intermediario che desideri riceverlo o del pubblico in generale nello stesso momento;
- c) partecipazione a convegni, seminari e altri eventi formativi sui vantaggi e sulle caratteristiche di un determinato strumento finanziario o servizio di investimento;
- d) ospitalità di un valore de minimis ragionevole, come cibi e bevande nel corso di un incontro di lavoro o di una conferenza, seminario o altri eventi di formazione di cui alla lettera c).

5. TURNOVER

Il tasso di movimentazione del portafoglio del Fondo (c.d. turnover), espresso dal rapporto percentuale tra la somma degli acquisti e delle vendite di strumenti finanziari, al netto delle sottoscrizioni e rimborsi delle quote del Fondo, e il patrimonio netto medio del Fondo, nell'esercizio è stato pari a 193,8%.

TRASPARENZA DELLE OPERAZIONI DI FINANZIAMENTO TRAMITE TITOLI (SFT) E TOTAL RETURN SWAP ED EVENTUALE RIUTILIZZO

Con riferimento all'obbligo previsto dall'art. 13 comma 1 lett. a. del Regolamento UE 2015/2365 (Regolamento SFT) sulla trasparenza delle operazioni di finanziamento tramite titoli e dei total return swap, si informa che il Fondo non presenta posizioni in essere, relative a operazioni di Prestito titoli, Pronti contro termine, Repurchase transaction e Total return swap, alla data di riferimento della presente relazione e non ha fatto ricorso a tali operazioni nel periodo di riferimento della stessa.

Pertanto non sono rappresentate le informazioni previste alla sezione A dell'allegato del citato Regolamento UE.

Allegato - Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario.

Informativa periodica sulla promozione di caratteristiche ambientali, sociali e di buon governo societario.

Nome prodotto: EURIZON AZIONI ENERGIA E MATERIE PRIME

Identificativo dell'Entità giuridica: 549300BGZM57AY7YC963

Caratteristiche ambientali e/o sociali**PARTE I***Questo prodotto finanziario aveva un obiettivo di investimento sostenibile?*☐ **SI**

- ☐ ha effettuato investimenti sostenibili con un obiettivo ambientale: _%
- ☐ in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'Unione Europea (UE)
- ☐ in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE
- ☐ ha effettuato investimenti sostenibili con un obiettivo sociale: _%

☒ **NO**

- ☒ ha promosso caratteristiche Ambientali/Sociali (A/S) e, pur non avendo come obiettivo un investimento sostenibile, aveva una quota del(lo) 18,68% di investimenti sostenibili:
 - ☐ con un obiettivo ambientale in attività economiche considerate ecosostenibili conformemente alla tassonomia dell'Unione Europea (UE)
 - ☒ con un obiettivo ambientale in attività economiche che non sono considerate ecosostenibili conformemente alla tassonomia dell'UE
 - ☒ con un obiettivo sociale
- ☐ ha promosso caratteristiche A/S, ma non ha effettuato alcun investimento sostenibile

PARTE II

In che misura sono state soddisfatte le caratteristiche ambientali e/o sociali promosse da questo prodotto finanziario?

Il Fondo ha integrato fattori ambientali, sociali e di buon governo societario (cd. fattori "ESG") nell'analisi, selezione e composizione degli investimenti, con la finalità di conseguire un punteggio (cd. "Score ESG"), calcolato a livello complessivo di portafoglio/componente di portafoglio come media ponderata degli Score ESG dei singoli emittenti, superiore a quello del relativo parametro di riferimento (benchmark).

In considerazione della peculiarità e dell'eterogeneità dei singoli investimenti effettuati dal Fondo, la selezione degli emittenti è avvenuta sulla base del Score ESG complessivo dell'emittente e non per singola caratteristica ambientale e/o sociale promossa. Nello specifico, con riferimento alle caratteristiche ambientali e sociali promosse dal Fondo si riportano, per ciascuna di esse, i principali indicatori di sostenibilità scelti per misurarne il rispetto:

Limitazione gas ad effetto Serra

- Assenza di investimenti in imprese che derivano (i) almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (ii) almeno il 10% del fatturato derivante da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands), contribuendo così a limitare le emissioni di gas a effetto serra. (Esclusioni SRI)

- "ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti degli strumenti finanziari in portafoglio. La limitazione delle emissioni di gas a effetto serra è un indicatore considerato nell'ambito dello Score ESG. (ESG Score Integration)

Rispetto dei diritti umani

- Assenza di investimenti in società caratterizzate da un evidente coinvolgimento diretto nella manifattura di armi non convenzionali (Mine antiuomo; Bombe a grappolo; Armi nucleari; Uranio impoverito; Armi biologiche; Armi chimiche; Armi a frammentazione invisibile; Laser accecanti; Armi incendiarie; Fosforo bianco). (Esclusioni SRI)

Conservazione e ripristino della biodiversità, utilizzo di energia rinnovabile, utilizzo e provenienza di materie prime, gestione dei rifiuti

- Assenza o limitazione di investimenti in emittenti considerati "critici", ovvero quelle società caratterizzate da una più elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano un livello di rating di sostenibilità ESG più basso nell'universo di investimento. (Esclusioni ESG)

- "ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti gli strumenti finanziari in portafoglio. La conservazione e ripristino della biodiversità, l'utilizzo di energia rinnovabile, l'utilizzo e provenienza delle materie prime e la gestione dei rifiuti sono indicatori considerati nell'ambito dello Score ESG. (ESG Score Integration)

Contrasto delle disuguaglianze sociali, relazioni con il personale, investimenti nel capitale umano e parità di genere nell'organo amministrativo

- Assenza o limitazione di investimenti in emittenti considerati "critici", ovvero quelle società caratterizzate da una più elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano un livello di rating di sostenibilità ESG più basso nell'universo di investimento. (Esclusioni ESG)

- "ESG Score" del prodotto: media ponderata dei punteggi ESG degli emittenti gli strumenti finanziari in portafoglio. Il contrasto delle disuguaglianze sociali, le relazioni con il personale, gli investimenti nel capitale umano e la parità di genere nell'organo amministrativo sono indicatori considerati nell'ambito dello Score ESG. (ESG Score Integration)

Qual è stata la prestazione degli indicatori di sostenibilità?

Indicatore di sostenibilità	Descrizione	2024-12-31
Esclusioni "SRI"	Il peso degli emittenti operanti in settori ritenuti non "socialmente responsabili", (i) quelle società caratterizzate da un evidente coinvolgimento diretto nella manifattura di armi non convenzionali, (ii) le società che derivano almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (iii) le società che derivano almeno il 10% del fatturato da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands).	0,00%
Esclusioni "ESG"	Il peso degli emittenti con un'elevata esposizione a rischi ESG (cd. "emittenti critici"), ossia quelle società caratterizzate da una elevata esposizione a rischi ambientali, sociali e di governo societario, ossia che presentano il livello di rating di sostenibilità ESG più basso, pari a "CCC", assegnato dall'info-provider specializzato "MSCI ESG Research".	0,00%
ESG Score Integration	Lo "score ESG" del prodotto/componente di portafoglio è calcolato dalla SGR sulla base di specifici datapoint dell'infoprovider MSCI ESG Research per ogni tipologia di strumento (es. titoli corporate, governativi, OICR). Tali valori sono successivamente aggregati attraverso una media ponderata tra i pesi dei singoli titoli e i corrispondenti Score ESG. Le medesime logiche sono utilizzate ai fini del calcolo dello score del benchmark del prodotto. Lo Score ESG viene calcolato giornalmente anche a supporto del processo di controllo dei limiti di investimento che prevede sia un controllo ex-ante in fase di predisposizione degli ordini sia ex-post in fase di valorizzazione dei portafogli.	Prodotto: 7,39 Benchmark: 6,97 L'ESG score viene calcolato su una scala da 0 a 10

Il prodotto finanziario promuove l'interazione proattiva nei confronti delle società emittenti sia mediante l'esercizio dei diritti di intervento e di voto sia mediante il confronto con le società partecipate, incoraggiando un'efficace comunicazione con il management delle società.

ESG Score Integration	Prodotto: 7,38 Benchmark: 6,93 L'ESG score viene calcolato su una scala da 0 a 10	Prodotto: 6,95 Benchmark: 6,55 L'ESG score viene calcolato su una scala da 0 a 10

Quali erano gli obiettivi degli investimenti sostenibili che il prodotto finanziario in parte ha realizzato e in che modo l'investimento sostenibile ha contribuito a tali obiettivi?

La SGR ha adottato una metodologia di selezione degli investimenti sostenibili basata sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite (SDG). In particolare, tale metodologia permette di selezionare gli emittenti le cui attività contribuiscono ad uno o più Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite (cd. "Sustainable Development Goals" o "SDG"), sia attraverso i propri prodotti/servizi sia con riguardo allo svolgimento dei propri processi operativi, a condizione che detti investimenti non arrechino un danno significativo ad alcuno degli obiettivi ambientali o sociali stabiliti nel Regolamento (UE) 2019/2088 e che le imprese che beneficino di tali investimenti rispettino prassi di buona governance.

Gli Obiettivi di Sviluppo Sostenibile si pongono l'obiettivo di favorire uno sviluppo globale più consapevole e duraturo; nello specifico tali obiettivi ricomprendono, tra gli altri: il contrasto della povertà e della fame, il diritto alla salute, al lavoro e all'istruzione, la parità di genere e la riduzione delle disuguaglianze, l'accesso all'acqua e all'energia, l'urbanizzazione e la promozione di infrastrutture resilienti, il contrasto del cambiamento climatico e la tutela dell'ambiente inclusi la preservazione degli ecosistemi marini e terrestri.

La porzione minima di investimenti sostenibili è calcolata come il peso ponderato degli emittenti che risultano avere, con riferimento ai propri prodotti/servizi e processi produttivi: (i) un allineamento netto positivo ad almeno uno dei 17 SDG e (ii) nessun disallineamento netto nei confronti di alcuno dei 17 SDG a cui si somma l'eventuale peso ponderato di obbligazioni con proventi destinati al finanziamento di progetti ambientali e/o sociali. Nello specifico, la contribuzione ad uno o più SDG tiene conto di selezionate metriche quantitative e qualitative, tra cui l'esposizione a controversie, che contribuiscono ad evidenziare eventuali impatti avversi causati dall'emittente.

In che modo gli investimenti sostenibili che il prodotto finanziario in parte ha realizzato non hanno arrecato danno significativo a nessun obiettivo di investimento sostenibile sotto il profilo ambientale o sociale?

La misurazione della contribuzione di un emittente ad uno o più Obiettivi di Sviluppo Sostenibile ha tenuto conto di selezionate metriche quantitative e qualitative, tra cui l'esposizione a controversie, nell'ambito degli indicatori degli effetti negativi sui fattori di sostenibilità.

La Tassonomia UE stabilisce un principio di "non nuocere in modo significativo" ("do not significant harm" o "DNSH") secondo il quale gli investimenti allineati alla tassonomia non dovrebbero nuocere in modo significativo agli obiettivi della tassonomia dell'UE ed è accompagnata da criteri specifici dell'UE.

Il principio del "non nuocere in modo significativo" si applica solo agli investimenti sottostanti il prodotto finanziario che tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale. Gli investimenti sottostanti la parte restante di questo prodotto finanziario non tengono conto dei criteri UE per le attività economiche sostenibili dal punto di vista ambientale.

In che modo si è tenuto conto degli indicatori degli effetti negativi sui fattori di sostenibilità?

La metodologia di selezione degli investimenti sostenibili definita dalla SGR si basa sugli Obiettivi di Sviluppo Sostenibile promossi dalle Nazioni Unite e tiene conto - con diversi gradi di intensità - dei principali indicatori di impatto avverso attraverso metriche quantitative e qualitative.

Gli indicatori di natura qualitativa comprendono l'eventuale (i) presenza di controversie relative al cambiamento climatico, a contaminanti rilasciati nel terreno, nell'aria e/o nell'acqua, alla discriminazione, agli standard lavorativi della catena di fornitura o al rispetto dei diritti umani; (ii) assenza di piani di transizione accompagnati da obiettivi di riduzione delle emissioni; (iii) generazione di energia da combustibili fossili e prodotti correlati o presenza di riserve utilizzabili di combustibili fossili e (iv) assenza di diversità nel Consiglio di Amministrazione o discriminazioni retributive.

Gli indicatori di natura quantitativa comprendono l'esclusione dall'universo investibile delle imprese che derivano (i) almeno il 25% del fatturato da attività estrattive o di produzione di energia elettrica collegate al carbone termico o (ii) almeno il 10% del fatturato derivante da attività di estrazione di oil & gas attraverso lo sfruttamento delle sabbie bituminose (cd. oil sands) nonché delle società coinvolte nella manifattura o nella vendita di armi non convenzionali (quali, tra le altre, mine antiuomo, bombe a grappolo, armi chimiche e armi biologiche).

Il principio di non arrecare un danno significativo (cd. "do not significant harm" - DNSH) viene verificato attraverso l'assenza di disallineamenti netti nei confronti di ciascuno dei n. 17 SDG. Il punteggio sintetico di ciascun SDG viene determinato mediante l'analisi dei punteggi attribuiti alle n. 2 componenti: (i) l'allineamento netto dei prodotti e servizi di un emittente ai target associati a ciascun SDG; e (ii) l'allineamento netto dei processi produttivi delle società emittenti rispetto a specifici obiettivi di sviluppo sostenibile.

Gli investimenti sostenibili erano allineati con le linee guida OCSE destinate alle imprese multinazionali e con i Principi guida delle Nazioni Unite su imprese e diritti umani?

Il Prodotto finanziario non ha perseguito alcun obiettivo di investimento sostenibile secondo l'art 2 comma 17 del Regolamento 2019/2088. Tuttavia, il Prodotto finanziario ha investito in attività considerate sostenibili secondo la metodologia adottata dalla SGR.

PARTE III

In che modo questo prodotto finanziario ha preso in considerazione i principali impatti negativi sui fattori di sostenibilità?

La valutazione dei principali effetti negativi delle scelte di investimento sui fattori di sostenibilità e la definizione delle possibili azioni di mitigazione connesse costituiscono parte integrante dell'approccio della SGR alla sostenibilità. In tale ambito, la SGR si è dotata di un framework che prevede l'utilizzo di specifici indicatori di natura ambientale e sociale per la valutazione dei principali effetti negativi sui fattori di sostenibilità determinati in funzione delle caratteristiche e degli obiettivi dei singoli prodotti finanziari.

PAI considerati

Attività che incidono negativamente sulle aree sensibili sotto il profilo della biodiversità

Diversità di genere nel Consiglio di Amministrazione

Esposizione ad armi controverse (mine antiuomo, munizioni a grappolo, armi chimiche e armi biologiche)

Intensità delle emissioni di gas serra delle imprese beneficiarie degli investimenti

Intensità di emissioni di gas serra

Quota di investimenti in imprese attive nel settore dei combustibili fossili

PARTE IV

Quali sono stati i principali investimenti di questo prodotto finanziario?

Vengono elencati di seguito i principali investimenti¹ in cui ha investito il prodotto finanziario con l'indicazione del settore e del paese.

Principali titoli	Settore	Percentuale	Paese
CONOCOPHILLIPS	MINERALE E METALLURGICO	6,55%	Stati Uniti d'America
EXXON MOBIL CORP	MINERALE E METALLURGICO	6,32%	Stati Uniti d'America
KINDER MORGAN INC	SETTORI DIVERSI	4,22%	Stati Uniti d'America
BAKER HUGHES CO	MINERALE E METALLURGICO	4,21%	Stati Uniti d'America
DUPONT DE NEMOURS IN	CHIMICO	4,17%	Stati Uniti d'America
BALL CORP	CARTARIO ED EDITORIALE	4,10%	Stati Uniti d'America
CHEVRON CORP	MINERALE E METALLURGICO	4,08%	Stati Uniti d'America
INTL FLAVORS FRAGRAN	CHIMICO	4,03%	Stati Uniti d'America
BP PLC	MINERALE E METALLURGICO	3,81%	Regno Unito
RIO TINTO PLC	MINERALE E METALLURGICO	3,74%	Regno Unito
SEALED AIR CORP	CARTARIO ED EDITORIALE	3,65%	Stati Uniti d'America
SHELL PLC NEW	MINERALE E METALLURGICO	3,61%	Regno Unito

¹ Qualora nel periodo di riferimento il Prodotto finanziario abbia investito cumulativamente il 50% del proprio portafoglio in meno di n. 15 strumenti, questi vengono rappresentati in ordine decrescente in base al rispettivo peso.

PARTE V

Quale è stata la quota degli investimenti in materia di sostenibilità?

Qual è stata l'allocazione degli attivi?

"#1 Allineati con caratteristiche A/S" comprende gli investimenti del prodotto finanziario utilizzati per rispettare le caratteristiche ambientali o sociali promosse dal prodotto finanziario.

"#2 Altri" comprende gli investimenti rimanenti del prodotto finanziario che non sono allineati alle caratteristiche ambientali o sociali, né sono considerati investimenti sostenibili.

La categoria "#1 Allineati con caratteristiche A/S" comprende:

- la sottocategoria "#1-a Sostenibili", che contempla gli investimenti sostenibili con obiettivi ambientali o sociali.
- la sottocategoria "#1-b Altri investimenti allineati alle caratteristiche A/S" che contempla gli investimenti allineati alle caratteristiche ambientali o sociali che non sono considerati investimenti sostenibili.

In quali settori economici sono stati effettuati gli investimenti?

In quale misura gli investimenti sostenibili con un obiettivo ambientale erano allineati alla tassonomia dell'UE?

Il Prodotto finanziario ha promosso caratteristiche ambientali e/o sociali ma non si è impegnato ad effettuare investimenti sostenibili secondo l'articolo 2, comma 17, del Regolamento (UE) 2019/2088. Tuttavia, il Prodotto finanziario ha investito in attività considerate sostenibili dal punto di vista ambientale secondo la metodologia adottata dalla SGR, per una misura pari al 4,20% del totale degli investimenti. Attualmente, in considerazione del set informativo a disposizione della SGR alla data della presente rendicontazione periodica, la quota di investimenti ecosostenibili ai sensi del Regolamento (UE) 2020/852 (ovvero allineati alla tassonomia dell'UE) è stata valutata pari allo 0%. Il Prodotto finanziario potrebbe aver investito in attività ecosostenibili selezionate in base alla sua politica di investimento, ma tali investimenti non sono stati di per sé decisivi per il perseguimento delle caratteristiche ambientali del Prodotto finanziario.

Si evidenzia infine che gli investimenti sottostanti il presente Fondo non tengono conto dei criteri dell'Unione Europea per le attività economiche ecosostenibili.

Il prodotto finanziario ha investito in attività connesse al gas fossile e/o all'energia nucleare che erano conformi alla tassonomia dell'UE?²

- ☐ Sì
- ☐ Gas fossile ☐ Energia nucleare
- ☒ No

I due grafici che seguono mostrano in verde la percentuale di investimenti che erano allineati alla tassonomia dell'UE. Poiché non esiste una metodologia adeguata per determinare l'allineamento delle obbligazioni sovrane alla tassonomia, il primo grafico mostra l'allineamento alla tassonomia in relazione a tutti gli investimenti del prodotto finanziario comprese le obbligazioni sovrane, mentre il secondo grafico mostra l'allineamento alla tassonomia solo in relazione agli investimenti del prodotto finanziario diversi dalle obbligazioni sovrane.*

*Ai fini dei grafici di cui sopra, per "obbligazioni sovrane" si intendono tutte le esposizioni sovrane.

² Le attività connesse al gas fossile e/o all'energia nucleare sono conformi alla tassonomia dell'UE solo se contribuiscono all'azione di contenimento dei cambiamenti climatici ("mitigazione dei cambiamenti climatici") e non arrecano un danno significativo a nessuno degli obiettivi della tassonomia dell'UE. I criteri completi riguardanti le attività economiche connesse al gas fossile e all'energia nucleare che sono conformi alla tassonomia dell'UE sono stabiliti nel Regolamento delegato (UE) 2022/1214 della Commissione.

Qual era la quota degli investimenti effettuati in attività transitorie e abilitanti?

Attività transitorie	0,00%
Attività abilitanti	0,00%

Qual è l'esito del raffronto della percentuale degli investimenti che erano allineati alla tassonomia dell'UE rispetto ai precedenti periodi di riferimento?

Raffronto dei periodi precedenti considerando i sovereign bonds:

2023-12-29	
CapEx	0,00%
Fatturato	0,00%
OpEx	0,00%

Raffronto dei periodi precedenti escludendo i sovereign bonds:

2023-12-29	
CapEx	0,00%
Fatturato	0,00%
OpEx	0,00%

Qual era la quota di investimenti sostenibili con un obiettivo ambientale non allineati alla tassonomia dell'UE?

Il Prodotto finanziario ha promosso caratteristiche ambientali e/o sociali, ma non si è impegnato ad effettuare investimenti sostenibili secondo l'articolo 2, comma 17, del Regolamento (UE) 2019/2088. Tuttavia, il Prodotto finanziario ha investito in attività considerate sostenibili dal punto di vista ambientale, interamente non allineate alla tassonomia dell'UE, per una misura pari al 4,20% del totale di investimenti sostenibili effettuati.

Qual era la quota di investimenti socialmente sostenibili?

Il prodotto finanziario ha promosso caratteristiche ambientali e sociali e ha avuto una quota di investimenti socialmente sostenibili pari al 14,48% del totale degli investimenti.

Quali investimenti erano compresi nella categoria "Altri", qual era il loro scopo ed esistevano garanzie minime di salvaguardia ambientale o sociale?

Nella quota "Altri" sono inclusi: (i) eventuali investimenti in emittenti privi di score ESG; (ii) strumenti derivati sia per finalità di copertura dei rischi sia per finalità diverse da quelle di copertura; (iii) liquidità detenuta; (iv) eventuali strumenti, quali ad esempio i Pronti Contro Termine, utilizzati per l'efficiente gestione del portafoglio.

PARTE VI

Quali azioni sono state adottate per soddisfare le caratteristiche ambientali e/o sociali durante il periodo di riferimento?

Nel corso del periodo di riferimento oggetto della presente Informativa, la SGR ha monitorato il rispetto delle strategie di selezione degli strumenti finanziari riportate nella Parte II coerentemente con i principi di Investimento Sostenibile e Responsabile (SRI) e di fattori ambientali, sociali e di governance (ESG) promossi dal prodotto.

Il perseguimento delle caratteristiche ambientali e/o sociali viene presidiato attraverso appositi limiti di investimento. Il Prodotto finanziario ha inoltre promosso l'interazione proattiva nei confronti delle società emittenti sia mediante l'esercizio dei diritti di intervento e di voto sia mediante il confronto con le società partecipate, incoraggiando un'efficace comunicazione con il management delle società. Per maggiori informazioni si rimanda allo Stewardship Report pubblicato sul sito <https://www.eurizoncapital.com/it-IT/sostenibilita/politica-impegno-attivita-stewardship>.

PARTE VII

Qual è stata la prestazione di questo prodotto finanziario rispetto all'indice di riferimento?

Non è stato designato un indice di riferimento per il perseguimento delle caratteristiche ambientali/sociali del prodotto.

Fondo Comune di Investimento Mobiliare Aperto
"Eurizon Obbligazioni Euro Breve Termine"

Relazione sulla revisione contabile della relazione di gestione

Giudizio

Abbiamo svolto la revisione contabile della relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Obbligazioni Euro Breve Termine" (il "Fondo"), costituita dalla situazione patrimoniale al 30 dicembre 2024, dalla sezione reddituale per l'esercizio chiuso a tale data e dalla nota integrativa.

A nostro giudizio, la relazione di gestione fornisce una rappresentazione veritiera e corretta della situazione patrimoniale e finanziaria del Fondo al 30 dicembre 2024 e del risultato economico per l'esercizio chiuso a tale data in conformità al Provvedimento emanato dalla Banca d'Italia il 19 gennaio 2015 e successive modifiche (di seguito anche il "Provvedimento") che ne disciplina i criteri di redazione.

Elementi alla base del giudizio

Abbiamo svolto la revisione contabile in conformità ai principi di revisione internazionali (ISA Italia). Le nostre responsabilità ai sensi di tali principi sono ulteriormente descritte nella sezione "Responsabilità della società di revisione per la revisione contabile della relazione di gestione" della presente relazione. Siamo indipendenti rispetto al Fondo e a Eurizon Capital SGR S.p.A., Società di Gestione del Fondo, in conformità alle norme e ai principi in materia di etica e di indipendenza applicabili nell'ordinamento italiano alla revisione contabile del bilancio. Riteniamo di aver acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio.

Responsabilità degli amministratori e del collegio sindacale per la relazione di gestione

Gli amministratori della Società di Gestione del Fondo sono responsabili per la redazione della relazione di gestione del Fondo che fornisca una rappresentazione veritiera e corretta in conformità al Provvedimento che ne disciplina i criteri di redazione e, nei termini previsti dalla legge, per quella parte del controllo interno dagli stessi ritenuta necessaria per consentire la redazione di una relazione di gestione che non contenga errori significativi dovuti a frodi o a comportamenti o eventi non intenzionali.

Gli amministratori della Società di Gestione del Fondo sono responsabili per la valutazione della capacità del Fondo di continuare ad operare come un'entità in funzionamento e, nella redazione della relazione di gestione, per l'appropriatezza dell'utilizzo del presupposto della continuità aziendale, nonché per una adeguata informativa in materia. Gli amministratori utilizzano il presupposto della continuità aziendale nella redazione della relazione di gestione a meno che abbiano valutato che sussistono le condizioni per la liquidazione del Fondo o per l'interruzione dell'attività o non abbiano alternative realistiche a tali scelte.

Il collegio sindacale della Società di Gestione del Fondo ha la responsabilità della vigilanza, nei termini previsti dalla legge, sul processo di predisposizione dell'informativa finanziaria del Fondo.

Shape the future
with confidence

Responsabilità della società di revisione per la revisione contabile della relazione di gestione

I nostri obiettivi sono l'acquisizione di una ragionevole sicurezza che la relazione di gestione nel suo complesso non contenga errori significativi, dovuti a frodi o a comportamenti o eventi non intenzionali, e l'emissione di una relazione di revisione che includa il nostro giudizio. Per ragionevole sicurezza si intende un livello elevato di sicurezza che, tuttavia, non fornisce la garanzia che una revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia) individui sempre un errore significativo, qualora esistente. Gli errori possono derivare da frodi o da comportamenti o eventi non intenzionali e sono considerati significativi qualora ci si possa ragionevolmente attendere che essi, singolarmente o nel loro insieme, siano in grado di influenzare le decisioni economiche prese dagli utilizzatori sulla base della relazione di gestione.

Nell'ambito della revisione contabile svolta in conformità ai principi di revisione internazionali (ISA Italia), abbiamo esercitato il giudizio professionale e abbiamo mantenuto lo scetticismo professionale per tutta la durata della revisione contabile. Inoltre:

- abbiamo identificato e valutato i rischi di errori significativi nella relazione di gestione, dovuti a frodi o a comportamenti o eventi non intenzionali; abbiamo definito e svolto procedure di revisione in risposta a tali rischi; abbiamo acquisito elementi probativi sufficienti ed appropriati su cui basare il nostro giudizio. Il rischio di non individuare un errore significativo dovuto a frodi è più elevato rispetto al rischio di non individuare un errore significativo derivante da comportamenti o eventi non intenzionali, poiché la frode può implicare l'esistenza di collusioni, falsificazioni, omissioni intenzionali, rappresentazioni fuorvianti o forzature del controllo interno;
- abbiamo acquisito una comprensione del controllo interno rilevante ai fini della revisione contabile allo scopo di definire procedure di revisione appropriate nelle circostanze e non per esprimere un giudizio sull'efficacia del controllo interno del Fondo e della Società di Gestione del Fondo;
- abbiamo valutato l'appropriatezza dei criteri e delle modalità di valutazione adottati, nonché la ragionevolezza delle stime contabili effettuate dagli amministratori, inclusa la relativa informativa;
- siamo giunti ad una conclusione sull'appropriatezza dell'utilizzo da parte degli amministratori del presupposto della continuità aziendale e, in base agli elementi probativi acquisiti, sull'eventuale esistenza di una incertezza significativa riguardo a eventi o circostanze che possono far sorgere dubbi significativi sulla capacità del Fondo di continuare ad operare come una entità in funzionamento. In presenza di un'incertezza significativa, siamo tenuti a richiamare l'attenzione nella relazione di revisione sulla relativa informativa della relazione di gestione, ovvero, qualora tale informativa sia inadeguata, a riflettere tale circostanza nella formulazione del nostro giudizio. Le nostre conclusioni sono basate sugli elementi probativi acquisiti fino alla data della presente relazione. Tuttavia, eventi o circostanze successivi possono comportare il fatto che il Fondo cessi di operare come un'entità in funzionamento;
- abbiamo valutato la presentazione, la struttura e il contenuto della relazione di gestione nel suo complesso, inclusa l'informativa, e se la relazione di gestione rappresenti le operazioni e gli eventi sottostanti in modo da fornire una corretta rappresentazione.

Abbiamo comunicato ai responsabili delle attività di governance della Società di Gestione del Fondo, identificati ad un livello appropriato come richiesto dai principi di revisione internazionali (ISA Italia), tra gli altri aspetti, la portata e la tempistica pianificate per la revisione contabile e i risultati significativi emersi, incluse le eventuali carenze significative nel controllo interno identificate nel corso della revisione contabile.

Relazione su altre disposizioni di legge e regolamentari

Giudizi e dichiarazione ai sensi dell'articolo 14, comma 2, lettera e), e-bis) ed e-ter) del D. Lgs. 27 gennaio 2010, n. 39

Gli amministratori della Eurizon Capital SGR S.p.A. sono responsabili per la predisposizione della relazione degli amministratori del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Obbligazioni Euro Breve Termine" al 30 dicembre 2024, incluse la sua coerenza con la relazione di gestione del Fondo e la sua conformità al Provvedimento.

Abbiamo svolto le procedure indicate nel principio di revisione (SA Italia) n. 720B al fine di:

- esprimere un giudizio sulla coerenza della relazione degli amministratori con la relazione di gestione;
- esprimere un giudizio sulla conformità al Provvedimento della relazione degli amministratori;
- rilasciare una dichiarazione su eventuali errori significativi nella relazione degli amministratori.

A nostro giudizio, la relazione degli amministratori è coerente con la relazione di gestione del Fondo Comune di Investimento Mobiliare Aperto "Eurizon Obbligazioni Euro Breve Termine" al 30 dicembre 2024.

Inoltre, a nostro giudizio, la relazione degli amministratori è redatta in conformità al Provvedimento.

Con riferimento alla dichiarazione di cui all'articolo 14, comma 2, lettera e-ter), del D. Lgs. 27 gennaio 2010, n. 39, rilasciata sulla base delle conoscenze e della comprensione del Fondo e del relativo contesto acquisite nel corso dell'attività di revisione, non abbiamo nulla da riportare.

- *NOTA INTEGRATIVA*

SOCIETÀ DI GESTIONE

La società di gestione EURIZON CAPITAL SGR S.p.A., di seguito “la SGR” o “la Società”, è stata costituita con la denominazione di “EUROFOND - Società di Gestione di Fondi Comuni di Investimento Mobiliare S.p.A.” in data 22 dicembre 1983 a Torino con atto del notaio Dott. Ettore Morone, n. repertorio 39.679.

In data 1° agosto 1991, contestualmente all’incorporazione di “SANPAOLO - HAMBROS - Società Internazionale Gestione Fondi S.p.A.”, la SGR ha assunto la denominazione sociale di “SANPAOLO FONDI - Gestioni Mobiliari S.p.A.”. In data 1° ottobre 1999, contestualmente all’incorporazione della “Sanpaolo Asset Management SIM S.p.A.”, ha assunto la denominazione sociale di SANPAOLO IMI ASSET MANAGEMENT SGR S.p.A..

La SGR ha incorporato in data 1° settembre 2003 “BANCO DI NAPOLI ASSET MANAGEMENT SGR p.A.”, in data 1° maggio 2004 “EPTAFUND SGR p.A.”, in data 29 dicembre 2004 parte di “SANPAOLO IMI WEALTH MANAGEMENT S.p.A.”, in data 29 dicembre 2005 “SANPAOLO IMI INSTITUTIONAL ASSET MANAGEMENT SGR S.p.A.”, in data 7 aprile 2008 parte di “EURIZON INVESTIMENTI SGR S.p.A.”, in data 31 dicembre 2008 “Intesa Distribution Services S.r.l.” e in data 31 dicembre 2011 “Eurizon AI SGR S.p.A.”.

In data 1° luglio 2021, ha avuto efficacia la fusione per incorporazione di Pramerica SGR S.p.A. in Eurizon Capital SGR S.p.A.

L’attuale denominazione sociale di “EURIZON CAPITAL SGR S.p.A.” è stata assunta in data 1° novembre 2006.

La Società è iscritta all’Albo delle Società di Gestione del Risparmio, tenuto dalla Banca d’Italia ai sensi dell’articolo 35 del D. Lgs. 58/98, al n. 3 nella Sezione Gestori di OICVM e al n. 2 nella Sezione Gestori di FIA.

La Società ha sede legale in Milano, Via Melchiorre Gioia 22.

Sito Internet: www.eurizoncapital.com

La durata della SGR è fissata sino al 31 dicembre 2050, mentre l’esercizio sociale si chiude il 31 dicembre di ogni anno.

Il capitale sociale sottoscritto e interamente versato è di euro 99.000.000 ed è integralmente posseduto da Intesa Sanpaolo S.p.A., che esercita l’attività di direzione e coordinamento.

La composizione degli Organi Sociali alla data di approvazione della presente relazione è la seguente:

IL DEPOSITARIO

Il Depositario del Fondo è “State Street Bank International GmbH - Succursale Italia” (di seguito, il “Depositario”), via Ferrante Aporti 10, Milano, iscritta al n. 5757 dell'Albo delle Banche tenuto dalla Banca d'Italia e aderente al Fondo di Protezione dei Depositi dell'associazione delle banche tedesche.

Il Depositario adempie agli obblighi di custodia degli strumenti finanziari ad esso affidati e alla verifica della proprietà nonché alla tenuta delle registrazioni degli altri beni. Il Depositario, se non sono affidate a soggetti diversi, detiene altresì le disponibilità liquide del Fondo e nell'esercizio delle proprie funzioni:

- accerta la legittimità delle operazioni di vendita, emissione, riacquisto, rimborso e annullamento delle quote del Fondo, nonché la destinazione dei redditi dello stesso;
- accerta la correttezza del calcolo del valore delle quote del Fondo;
- accerta che nelle operazioni relative al Fondo la controprestazione sia rimessa nei termini d'uso;
- esegue le istruzioni del Gestore se non sono contrarie alla legge, al Regolamento o alle prescrizioni degli Organi di Vigilanza.

9 

FONDO COMUNE D'INVESTIMENTO

Il fondo "EURIZON OBBLIGAZIONI EURO BREVE TERMINE" (già denominato "Nextra Euro Monetario" fino al 27 aprile 2008 ed "Eurizon Focus Obbligazioni Euro Breve Termine" fino al 29 maggio 2011) è stato istituito in data 24 ottobre 1989 da Eurizon Investimenti SGR S.p.A., ai sensi della legge n. 77 del 23 marzo 1983 ed autorizzato dalla Banca d'Italia con Provvedimento del 26 gennaio 1990. Il Fondo è operativo a partire dal 21 maggio 1990. In data 27 giugno 2003 ha incorporato i fondi "Nextra Breve Termine" e "Centrale Cash Euro"; in data 3 gennaio 2005 ha incorporato il fondo "Sicilfondo Monetario" e in data 28 aprile 2008 ha incorporato i fondi "Sanpaolo Obbligazionario Euro Breve Termine", "Sanpaolo Soluzione Cash" e "Sanpaolo Reddito". In data 24 giugno 2022 ha incorporato il fondo "Eurizon AM Euro B.T".

La durata del Fondo è fissata al 31 dicembre 2050, salvo proroga da assumersi con deliberazione del Consiglio di Amministrazione almeno due anni prima della scadenza.

Il Fondo, denominato in euro, dal 29 luglio 2021, prevede tre categorie di quote, definite quote di "Classe A", quote di "Classe D" e quote di "Classe I". Le quote di "Classe A" e le quote di "Classe I" sono del tipo ad accumulazione; i proventi realizzati non vengono pertanto distribuiti ai partecipanti a tali Classi, ma restano compresi nel patrimonio del Fondo afferente a ciascuna Classe. Le quote di "Classe D" sono del tipo a distribuzione dei ricavi; i ricavi realizzati ed afferenti a detta Classe sono pertanto distribuiti semestralmente ai partecipanti a tale Classe secondo le modalità di seguito indicate.

La SGR provvede alla distribuzione ai partecipanti alla "Classe D" di almeno l'80% dei ricavi conseguiti nella gestione del Fondo ed afferenti alla stessa Classe con periodicità semestrale (con riferimento al 30 giugno ed al 31 dicembre).

I ricavi distribuibili sono costituiti dai proventi da investimento (interessi, dividendi ed altri proventi) su strumenti finanziari quotati e non quotati, dai proventi delle operazioni di pronti contro termine e di prestito titoli e dagli interessi attivi su disponibilità liquide e su depositi bancari, al netto degli oneri finanziari (interessi passivi ed altri oneri finanziari) e degli oneri di gestione, come risultanti dalla relazione di gestione del Fondo.

L'ammontare così distribuito non rappresenta il risultato effettivo della "Classe D" del Fondo nel periodo, in quanto non vengono prese in considerazione né le plusvalenze né le minusvalenze. Per tali ragioni, la distribuzione potrebbe anche essere superiore al risultato effettivo di gestione della "Classe D" del Fondo (variazione del valore della quota), rappresentando - in tal caso - un rimborso parziale del valore delle quote di "Classe D".

Hanno diritto alla distribuzione dei ricavi i partecipanti alla "Classe D" esistenti il giorno di approvazione da parte del Consiglio di Amministrazione della relazione di gestione del Fondo relativa al periodo di riferimento per la distribuzione dei ricavi. I diritti rivenienti dalle cedole non rimosse si prescrivono ai sensi di legge a favore del Fondo a decorrere dalla data del pagamento.

La partecipazione al Fondo si realizza attraverso la sottoscrizione di quote o il loro successivo acquisto a qualsiasi titolo. La sottoscrizione di quote può avvenire solo a fronte del versamento di un importo corrispondente al valore delle quote di partecipazione.

La SGR provvede a determinare il numero delle quote di partecipazione e frazioni millesimali di esse arrotondate per difetto da attribuire ad ogni partecipante dividendo l'importo del versamento, al netto degli oneri a carico dei singoli partecipanti, per il valore unitario della quota relativo al giorno di riferimento. Quando in tale giorno non sia prevista la valorizzazione del Fondo, le quote vengono assegnate sulla base del valore relativo al primo giorno successivo di valorizzazione della quota.

Il giorno di riferimento è il giorno in cui la SGR ha ricevuto, entro le ore 13.00, notizia certa della sottoscrizione ovvero, se successivo, è il giorno in cui decorrono i giorni di valuta riconosciuti al mezzo di pagamento indicati nel modulo di sottoscrizione. Nel caso di bonifico, il giorno di valuta è quello riconosciuto dalla banca ordinante.

I partecipanti al Fondo possono, in qualsiasi momento, chiedere alla SGR il rimborso totale o parziale delle quote possedute.

Il rimborso può avvenire a mezzo bonifico ovvero a mezzo assegno circolare o bancario non trasferibile all'ordine del richiedente.

Il valore del rimborso è determinato in base al valore unitario delle quote del giorno di ricezione della domanda da parte della SGR. Quando nel giorno di ricezione della domanda non è prevista la valorizzazione del Fondo, il valore del rimborso è determinato in base al primo valore del Fondo successivamente determinato.

La SGR provvede, tramite il Depositario, al pagamento dell'importo nel più breve tempo possibile e non oltre il termine di quindici giorni dalla data in cui la domanda è pervenuta, salvi i casi di sospensione del diritto di rimborso.

Caratteristiche del Fondo

Il Fondo di tipo aperto, rientrando nell'ambito di applicazione della Direttiva 2009/65/CE come successivamente modificata ed integrata, appartiene alla categoria "Obbligazionario Euro Governativi Breve Termine" e fa parte del

"Sistema Mercati".

Il benchmark di riferimento è:

60% JP Morgan Emu Government Bond Index 1-3 anni

40% FTSE Eurozone BOT (Weekly)

Gli investimenti sono effettuati prevalentemente in strumenti finanziari di natura monetaria e/o obbligazionaria di emittenti governativi o di organismi sovranazionali/agenzie con merito di credito non inferiore ad investment grade. E' escluso l'investimento in titoli azionari o recanti opzione su azioni. La durata media finanziaria (duration) del Fondo è tendenzialmente inferiore a 2 anni. Gli investimenti sono effettuati in strumenti finanziari denominati in euro quotati nei mercati regolamentati dei Paesi aderenti al Fondo Monetario Internazionale nonché Taiwan. Possono essere effettuati, in via residuale, investimenti in strumenti finanziari denominati in valute diverse dall'euro purché siano poste in essere operazioni finalizzate alla copertura del rischio di cambio.

Il Fondo può inoltre investire:

- in strumenti finanziari di natura monetaria e/o obbligazionaria di emittenti societari, fino al 10% del totale delle attività;
- in strumenti finanziari di natura monetaria e/o obbligazionaria aventi rating inferiore ad investment grade o privi di rating, fino al 10% del totale delle attività;
- in depositi bancari denominati in euro, fino ad un massimo del 30% del totale delle attività;
- in parti di OICVM e FIA aperti non riservati, la cui composizione del portafoglio risulti compatibile con la politica di investimento del Fondo, fino ad un massimo del 10% del totale delle attività;
- in strumenti del mercato monetario non quotati, fino ad un massimo del 10% del totale delle attività.

Il Fondo utilizza strumenti finanziari derivati per finalità di copertura dei rischi e per finalità diverse da quelle di copertura. L'esposizione complessiva in strumenti finanziari derivati non può essere superiore al valore complessivo netto del Fondo e deve risultare coerente con la politica di investimento. Tale esposizione è calcolata secondo il metodo degli impegni, secondo quanto stabilito nella disciplina di vigilanza.

La SGR adotta uno stile di gestione moderatamente attivo. La selezione degli investimenti viene effettuata sulla base delle previsioni circa l'evoluzione dei tassi di interesse considerando le opportunità di posizionamento, anche tramite arbitraggi, sui diversi tratti della curva dei rendimenti a breve termine, nonché sulla base dell'analisi dell'affidabilità degli emittenti.

A prescindere dagli orientamenti di investimento specifici del Fondo, resta comunque ferma la facoltà di:

- effettuare investimenti in strumenti finanziari non quotati, nei limiti previsti dalle vigenti disposizioni normative;
- detenere liquidità per esigenze di tesoreria;
- assumere, in relazione all'andamento dei mercati finanziari o ad altre specifiche situazioni congiunturali, scelte per la tutela dell'interesse dei partecipanti, che si discostino dalle politiche d'investimento.

Il Fondo può inoltre:

- acquistare titoli di società finanziate da società del Gruppo di appartenenza della SGR;
- negoziare strumenti finanziari con altri patrimoni gestiti dalla SGR;
- investire in parti di altri OICR gestiti dalla SGR o da altre società alla stessa legate tramite controllo comune o con una considerevole partecipazione diretta o indiretta.

La SGR ha facoltà di effettuare operazioni in divisa estere (es. acquisti e vendite a pronti ed a termine, ecc.) ed utilizzare strumenti di copertura del rischio di cambio, coerentemente con la politica di investimento del Fondo. La SGR ha inoltre la facoltà di utilizzare tecniche di gestione efficiente del portafoglio (quali ad esempio operazioni di pronti contro termine, riporti, prestito titoli ed altre operazioni assimilabili) coerentemente con la politica di investimento del Fondo e nel rispetto dei limiti e delle condizioni stabilite dalle vigenti disposizioni normative.

Spese ed oneri a carico del Fondo

Le spese a carico del Fondo sono:

- la provvigione di gestione a favore della SGR, pari allo 0,75% su base annua sia per la Classe A che per la Classe D, e pari allo 0,20% su base annua per la Classe I, calcolata quotidianamente sul valore complessivo netto del Fondo. La misura mensile della provvigione di gestione è pari ad 1/12 dell'aliquota sopra riportata ed è ripartita su base giornaliera; la medesima è prelevata dalle disponibilità del Fondo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento;

- il costo per il calcolo del valore della quota del Fondo, nella misura massima dello 0,034% su base annua per tutte e tre le Classi, calcolato ogni giorno di valorizzazione sul valore complessivo netto del Fondo e prelevato mensilmente dalle disponibilità di quest'ultimo il primo giorno di calcolo del valore unitario della quota del mese successivo a quello di riferimento;

- il compenso riconosciuto al Depositario per l'incarico svolto. Tale importo è calcolato quotidianamente sul valore complessivo netto del Fondo, nella misura massima annua dello 0,051% per tutte e tre le Classi di quote del Fondo;
- le spese di pubblicazione del valore unitario delle quote e dei prospetti periodici del Fondo;
- le spese degli avvisi inerenti alla liquidazione del Fondo, al pagamento delle cedole qualora il Fondo preveda la distribuzione dei proventi, alla disponibilità dei prospetti periodici nonché alle modifiche del Regolamento richieste da mutamenti della legge ovvero delle disposizioni di vigilanza;
- gli oneri della stampa dei documenti destinati al pubblico nonché gli oneri derivanti dagli obblighi di comunicazione alla generalità dei partecipanti, purché tali oneri non attengano a propaganda e a pubblicità o comunque al collocamento delle quote del Fondo;
- le spese per la revisione della contabilità e dei rendiconti del Fondo, ivi compreso quello finale di liquidazione;
- gli oneri finanziari per i debiti assunti dal Fondo e le spese connesse;
- le spese legali e giudiziarie sostenute nell'esclusivo interesse del Fondo;
- il contributo di vigilanza dovuto alla Consob nonché alle Autorità estere competenti, per lo svolgimento dell'attività di controllo e di vigilanza. Tra tali spese non sono in ogni caso comprese quelle relative alle procedure di commercializzazione del Fondo nei paesi diversi dall'Italia;
- gli oneri di intermediazione inerenti alla compravendita di strumenti finanziari o di parti di OICR, all'investimento in depositi bancari nonché gli oneri connessi alla partecipazione agli OICR oggetto dell'investimento;
- gli oneri fiscali di pertinenza del Fondo.

Il pagamento delle suddette spese, salvo quanto diversamente indicato, è disposto dalla SGR mediante prelievo dalla disponibilità del Fondo con valuta non antecedente a quella del giorno di effettiva erogazione.

In caso di investimento in OICR collegati, sul Fondo acquirente non vengono fatte gravare spese e diritti di qualsiasi natura relativi alla sottoscrizione e al rimborso delle parti degli OICR acquisiti. La SGR deduce dal proprio compenso, fino a concorrenza dello stesso, la remunerazione complessiva (provvigione di gestione, di incentivo, ecc.) percepita dal gestore degli OICR "collegati".

Regime fiscale

La SGR, ai sensi della Legge 10/2011, applica una ritenuta sul reddito realizzato direttamente in capo ai partecipanti.

La ritenuta viene applicata nella misura del 26%. La quota parte dei redditi riconducibile all'investimento in titoli governativi italiani ed equiparati e in obbligazioni emesse da Stati esteri white list e loro enti territoriali partecipa in misura ridotta, per il 48,08% del relativo ammontare al reddito fiscalmente imponibile. I proventi riferibili ai titoli pubblici italiani ed equiparati sono determinati proporzionalmente alla percentuale media dell'attivo investita direttamente, o indirettamente per il tramite di altri organismi di investimento.

Tale percentuale media viene aggiornata con cadenza semestrale e decorre dal 1° gennaio e dal 1° luglio di ciascun anno solare. Il relativo dato è disponibile sul sito internet della SGR, nella sezione dedicata alla fiscalità.

Il reddito imponibile in capo al partecipante corrisponde ai proventi distribuiti in costanza di partecipazione al Fondo o alla differenza tra il valore di rimborso, di liquidazione o di cessione delle quote e il costo medio ponderato di sottoscrizione o acquisto delle quote medesime, rilevati dai prospetti periodici. Tra le operazioni di rimborso sono comprese anche quelle realizzate mediante operazioni di spostamento tra Fondi. La ritenuta è applicata anche nell'ipotesi di trasferimento delle quote a rapporti di custodia, amministrazione o gestione intestati a soggetti diversi dagli intestatari dei rapporti di provenienza, incluse le operazioni di trasferimento avvenute per successione o donazione.

Nel caso in cui il partecipante realizzi una perdita, tale minusvalenza può essere portata dal partecipante in diminuzione di plusvalenze realizzate su altri titoli, nel medesimo periodo d'imposta o entro il quarto successivo.

Durata dell'esercizio contabile

L'esercizio contabile del Fondo ha durata annuale e si chiude l'ultimo giorno di valorizzazione del mese di dicembre di ogni anno.

RELAZIONE DEGLI AMMINISTRATORI

Scenario Macroeconomico

Nel periodo di riferimento (1° gennaio 2024 - 30 dicembre 2024) i mercati finanziari hanno registrato un andamento generalmente positivo. Il contesto macro si è caratterizzato per una certa divergenza fra gli USA e l'area Euro. Negli USA, infatti, la forza del ciclo ha sorpreso le stime e l'inflazione, sebbene in calo, ha mostrato un trend di rientro meno lineare; viceversa, nell'area Euro la crescita ha mostrato una maggiore debolezza e l'inflazione ha evidenziato un percorso di rientro verso il target del 2% più marcato. All'interno di questo scenario le principali Banche Centrali hanno avviato, seppure con tempistiche e modalità differenti, un ciclo di taglio dei tassi.

Più in dettaglio, negli USA l'inflazione totale ha chiuso il primo trimestre al 3,2%, in calo rispetto al dato di fine 2023, così come l'inflazione core (vale a dire al netto delle componenti più volatili legate ai prezzi di alimentari ed energia) che si è attestata al 3,8%, livello di poco inferiore al 4% che aveva caratterizzato la parte finale del 2023. A destare attenzione, però, sono stati i contributi mensili sia per l'inflazione totale che per quella core. La crescita mensile dei prezzi, infatti, si è assestata tra lo 0,3% e lo 0,4% per il primo trimestre. All'interno di questo contesto si è registrata una normalizzazione delle aspettative di politica monetaria, con i mercati che si sono via via allineati allo scenario delineato dalle Banche Centrali, prima fra tutte la Fed, che a dicembre 2023 aveva annunciato tre tagli dei tassi per il 2024. Nella riunione di marzo, la Banca Centrale statunitense ha lasciato i tassi invariati e ha confermato la volontà di procedere con tre tagli dei tassi, nonostante la dinamica inflattiva mostrasse una marginale resilienza ed i dati macro fossero ancora molto solidi, soprattutto, per quanto concerne le dinamiche occupazionali. Nell'area Euro l'inflazione ha registrato un percorso di discesa più netto, portandosi al 2,6% nel dato totale ed al 3,1% in quello core. Anche se l'inflazione europea ha mostrato una dinamica di rientro più consistente ed il quadro macro ha evidenziato una maggior debolezza rispetto a quello statunitense, la BCE non ha introdotto variazioni di politica monetaria nel trimestre, rimandando a giugno l'eventuale inizio dell'attesa riduzione dei tassi. Il contesto geopolitico ha visto il proseguimento delle tensioni sia in Ucraina che in Medio Oriente, ma con scarso impatto sui mercati finanziari. Anche le elezioni a Taiwan ed in Russia non hanno generato reazioni sostanziali sui mercati. Il congresso del Partito Comunista cinese ha fissato al 5% il target di crescita per il 2024; tuttavia le misure di stimolo introdotte da Pechino non sono state giudicate adeguate dagli investitori.

Nel secondo trimestre i dati di inflazione statunitensi sono apparsi in moderazione rispetto alla prima parte dell'anno; in particolare, i dati di aprile e maggio sono tornati ad evidenziare una tendenza al rientro. Da questo punto di vista, il mese di giugno è stato particolarmente importante; da un lato l'inflazione ha rallentato oltre le attese nel contributo mensile sia nella componente totale che in quella core, dall'altro la Fed ha rivisto le sue aspettative di politica monetaria (Dots), posticipando al 2025 la parte sostanziale della riduzione dei tassi e prevedendo un solo taglio per il 2024. In Europa, invece, i dati di inflazione hanno proseguito in un percorso di rientro più definito, portando la BCE ad effettuare un primo taglio dei tassi da 25 punti base nella riunione di giugno. Questo primo intervento di riduzione, però, non ha prodotto un cambiamento radicale nell'orientamento di politica monetaria, che è rimasto fortemente ancorato all'andamento dei dati macro e, in particolare, dell'inflazione. Oltre ai dati macro, molto rilevanti per gli operatori sono state anche le elezioni per il rinnovo del Parlamento europeo, il cui esito, però, non ha avuto particolari riflessi sui mercati visto che si è avuta una sostanziale riconferma della maggioranza uscente. La maggior parte della turbolenza politica si è avuta in Francia dove, a seguito della forte affermazione dei partiti di opposizione, il presidente Macron ha sciolto anticipatamente le camere e indetto nuove elezioni. Questo si è tradotto in una crescente volatilità sugli asset francesi, con un marginale contagio anche per gli altri Paesi europei; tale volatilità, però, è gradualmente rientrata man mano che i risultati elettorali mostravano sempre meno probabile una forte affermazione dei partiti con posizioni più estreme.

Il terzo trimestre è stato caratterizzato dal consolidamento del percorso di discesa per l'inflazione USA, mentre quella europea ha addirittura accelerato verso il basso, chiudendo il periodo sotto il target di riferimento della BCE. Negli USA l'inflazione su base annua è scesa al 2,5% nel dato totale, ai minimi da febbraio 2021, mentre nella componente core è apparsa più stabile al 3,2%, sui minimi da aprile 2021. In Europa l'inflazione è scesa significativamente, portandosi all'1,8% (sotto il target BCE del 2%), mentre quella core ha raggiunto il livello del 2,7% su base annua. A ridurre le pressioni inflazionistiche ha contribuito il calo diffuso dei prezzi delle materie prime, in particolare di quelle energetiche, con il petrolio che ha chiuso il trimestre in area 70 dollari al barile. Insieme al calo dell'inflazione, un marginale indebolimento del mercato del lavoro USA e un deterioramento del quadro macro complessivo in Europa hanno portato le Banche Centrali a ridurre i tassi. La BCE ha introdotto il secondo taglio da 25 punti base del tasso sui depositi, dopo quello effettuato a giugno, portandolo dal 3,75% al 3,5%. Negli USA, la Fed ha avviato la politica di allentamento monetario con un primo taglio da 50 punti base, che ha portato i tassi al 5%. Tra le principali Banche Centrali, quella giapponese è risultata in controtendenza, poiché a fine luglio ha annunciato un rialzo dei tassi per fronteggiare le crescenti pressioni inflazionistiche. Questo rialzo era inatteso ed ha innescato molta volatilità sui mercati, che, in seguito, è gradualmente rientrata con il consolidarsi della crescita globale. In Europa, la Francia ha ultimato la formazione del nuovo esecutivo; tuttavia, la debolezza del quadro politico, insieme a quella sui dati di bilancio, si è riflessa sullo spread del tasso decennale francese rispetto a quello tedesco che è tornato in area 80 punti base. Negli USA la corsa per la presidenza ha visto la rinuncia di Biden, molto penalizzato nei sondaggi, a favore della sua vice Kamala Harris. In Cina i policy maker hanno modificato l'approccio verso gli stimoli all'economia. La Banca Centrale cinese,

infatti, ha introdotto un significativo taglio dei tassi, mentre le autorità centrali hanno annunciato, anche se non ancora formalizzato, un piano di espansione fiscale, finalizzato al raggiungimento del target di crescita del 5%.

Il quarto trimestre è stato caratterizzato dal consolidamento di una marginale divergenza macroeconomica tra USA ed Eurozona. Negli USA l'inflazione totale ha chiuso il trimestre al 2,7%, mentre l'inflazione core si è stabilizzata in area 3,3%. Il rialzo medio su base mensile è stato nell'ordine dello 0,3%, evidenziando come, nonostante una tendenza di fondo dell'inflazione orientata al ribasso, la crescita mensile dei prezzi sia rimasta solida e i progressi verso l'obiettivo del 2% abbiano registrato un certo rallentamento. A questo si sono aggiunti un mercato del lavoro in fase di normalizzazione su livelli pre-pandemia e un quadro macro complessivo che ha visto i settori legati ai servizi sostenere la crescita americana. La netta affermazione repubblicana alle elezioni di novembre ha portato gli investitori a scontare molto rapidamente l'agenda economica di Trump, fatta di espansione fiscale, nuove tariffe, deregolamentazione e lotta all'immigrazione. La reazione della Fed ad un quadro macro più solido delle attese si è tradotta in due tagli dei tassi da 25 punti base nel corso del trimestre, mentre le stime relative ai tagli previsti per il 2025 sono state fortemente ridotte. Situazione diversa in Europa, dove l'inflazione ha chiuso il trimestre in area 2,3% nel dato totale, mentre la componente core in area 2,7%. Il quadro macro in Eurozona si è confermato più debole rispetto a quello americano. A questo si sono poi aggiunte le difficoltà politiche francesi e tedesche. In Francia, è stato varato un nuovo governo dopo quello di luglio, con l'obiettivo prioritario di approvare la nuova legge di bilancio, mentre in Germania la crisi politica si è tradotta nello scioglimento del parlamento, con nuove elezioni previste per il mese di febbraio. In tale contesto, la BCE ha effettuato due ulteriori tagli dei tassi da 25 punti base, prevedendo di riportare l'inflazione al target del 2% entro il 2025. La debolezza europea è in parte legata a quella evidenziata dall'economia cinese. Nel corso del trimestre, infatti, proprio la Cina ha annunciato un importante piano di stimolo fiscale a sostegno dell'economia, che fatica a raggiungere il target previsto di una crescita annua al 5%.

Analizzando l'andamento dei mercati finanziari, nei primi sei mesi del 2024, all'interno di un contesto macroeconomico nel quale la crescita ha mostrato una certa resilienza e l'inflazione un ritmo di rientro verso gli obiettivi delle Banche Centrali più lento del previsto, i tassi governativi si sono mossi al rialzo sia sulla parte a breve delle curve che su quella più lunga. Nel prosieguo del periodo di riferimento, però, di fronte al rafforzamento del movimento di discesa dell'inflazione e al cambio di approccio di politica monetaria da parte delle principali Banche Centrali, i tassi hanno ripreso a scendere, con un movimento che ha impattato maggiormente la parte a breve delle curve dei rendimenti. Nella parte conclusiva del periodo di riferimento, però, si è assistito ad una risalita dei tassi statunitensi che ha coinvolto, seppure con intensità più contenuta, anche quelli europei. I mercati, infatti, sono andati a scontare maggiormente la vittoria di Trump, con la possibilità di avere un'agenda economica molto espansiva in grado potenzialmente di rallentare il percorso di riduzione dei tassi intrapreso dalla Fed. Questi timori sono stati amplificati dalla Fed stessa che nell'ultimo meeting dell'anno, pur operando un ulteriore taglio dei tassi di 25 punti base, si è detta pronta a rallentare il ritmo dei tagli nel corso del 2025, alla luce della solidità della ripresa, della tenuta del mercato del lavoro e, soprattutto, del rallentamento nella discesa dell'inflazione.

Nel complesso, il tasso di interesse a 2 anni statunitense ha chiuso l'anno al 4,24% (sugli stessi livelli della chiusura annuale precedente), mentre il decennale è aumentato dal 3,88% al 4,53% per una curva che ha assunto un'inclinazione positiva (ossia, con un livello dei tassi sul tratto a lungo termine superiore a quello del tratto a breve termine). In Europa il tasso a 2 anni tedesco è sceso dal 2,40% al 2,08% mentre quello decennale è salito dal 2,02% al 2,37%. Tra i Paesi periferici dell'area Euro, lo spread del decennale italiano rispetto a quello tedesco è calato da 168 punti base a 115.

All'interno di questo scenario, il mercato obbligazionario globale ha mostrato una performance positiva dello 0,2% in valuta locale e del 2,6% in euro (indice JPM Global). A livello di singole aree geografiche, l'area Euro ha chiuso il periodo di riferimento con l'indice JPM Emu in rialzo dell'1,8% e gli Stati Uniti (indice JPM Usa) hanno registrato un guadagno dello 0,8% in valuta locale e del 7,2% in euro. I Paesi emergenti (indice JPM Embi+) hanno evidenziato un andamento nel complesso migliore rispetto a quello dei Paesi maggiormente sviluppati, con una variazione positiva del 7,7% in valuta locale e del 14,6% in euro.

Volgendo lo sguardo ai mercati azionari, essi hanno esibito un andamento positivo, beneficiando di una buona dinamica degli utili aziendali e di un contesto macro ancora favorevole. Inoltre, l'inizio dei tagli dei tassi da parte delle Banche Centrali è stato un elemento di ulteriore supporto, sebbene le tempistiche di riduzione siano state più lente delle stime iniziali. Nel corso dei mesi estivi si è assistito ad un aumento della volatilità che è sfociata in alcune fasi ribassiste, peraltro interamente recuperate in orizzonti temporali molto ridotti. Nel corso del mese di ottobre, sulla base delle attese di una politica fiscale a favore delle aziende e di un processo di deregolamentazione in vari settori economici nel caso di una vittoria di Trump, la Borsa statunitense ha consolidato il movimento rialzista, mentre i listini europei e asiatici (in primis quello cinese) sono stati penalizzati dai timori di una nuova politica di dazi commerciali. Nella parte conclusiva del periodo di riferimento, la vittoria di Trump e la conquista da parte dei repubblicani della maggioranza sia alla Camera che al Senato hanno fornito ulteriore sostegno agli indici azionari americani, mentre quelli europei e dei Paesi emergenti non hanno evidenziato un'impostazione rialzista così marcata, in attesa anche di verificare la reale portata delle decisioni della nuova amministrazione americana su vari dossier economici, primo fra tutti quello commerciale.

Il mercato azionario globale ha totalizzato un guadagno in valuta locale del 21,4% (indice MSCI World) e del 26,7% in euro. A livello di singole aree geografiche, il mercato azionario statunitense (indice MSCI Usa) ha chiuso il 2024 con una performance positiva del 25,1% in valuta locale che raggiunge il 33,2% se si considera l'andamento in euro. I mercati europei (indice MSCI Emu) hanno evidenziato un andamento rialzista più contenuto rispetto a quello mostrato dai listini

statunitensi, registrando una performance positiva dell'8,9%. Andamento positivo anche per i Paesi emergenti; l'area nel suo complesso (indice MSCI Emerging Markets) ha evidenziato un recupero del 13,3% in valuta locale e del 14,7% in euro.

Relativamente al mercato valutario, l'euro si è indebolito del 6,0% nei confronti del dollaro e del 4,2% rispetto alla sterlina, mentre si è rafforzato dell'1,2% contro il franco svizzero e del 4,8% verso lo yen. La dinamica valutaria ha impattato sulle performance convertite in euro dei mercati esterni all'area Euro.

Commento di gestione

Il Fondo ha aperto l'anno con un leggero sovrappeso di duration. In seguito alla consistente risalita dei rendimenti che ha cancellato in larga parte i numerosi rialzi già scontati dal mercato, il Fondo ha incrementato la duration di portafoglio, aumentando l'esposizione in particolare verso i tassi di area Euro, il cui rialzo è sembrato avvenire più in simpatia con quelli USA che per ragioni di ciclo economico. È stata incrementata anche la duration sull'obbligazionario USA e su quello del Regno Unito. Permane un sottopeso di duration sul mercato giapponese, implementato tramite futures. L'esposizione ai tassi americani è stata chiusa nella parte finale dell'anno.

All'interno dell'area Euro, il contributo positivo di duration all'inizio è stato distribuito omogeneamente tra Germania, Italia e Spagna. Successivamente l'esposizione è stata maggiormente concentrata sui titoli governativi italiani. Inoltre si è approfittato delle emissioni sul mercato primario per aumentare l'esposizione verso altri Paesi periferici come Portogallo e Grecia a scapito prevalentemente della carta francese penalizzata dalle vicende politiche e fiscali. Con la vittoria di Trump alla presidenza americana (deregulation, timori su imposizioni di tariffe globali, politica fiscale più restrittiva) e con una conseguente maggiore volatilità dei mercati, l'esposizione alla duration complessiva di portafoglio è stata gestita più tatticamente ed in particolare è stata chiusa l'esposizione ai tassi americani, ridotta quella ai tassi Euro e mantenuta quella sul Regno Unito dove la politica monetaria risulta essere più restrittiva. A livello di curva, nella seconda parte dell'anno, si è data una maggiore preferenza a investimenti sulle parti brevi e intermedie della curva rispetto a quelle più a lungo termine.

Nell'implementazione di posizioni volte a trarre profitto da movimenti tattici di duration, curva e differenziali di rendimento, si è optato per l'utilizzo di derivati al fine di ridurre i costi di transazione e sfruttare la maggiore liquidità offerta da questi strumenti rispetto all'investimento diretto in titoli. Inoltre, sono stati utilizzati strumenti derivati anche per finalità di copertura.

Il Fondo ha registrato una performance assoluta positiva, in linea con quella del benchmark di riferimento. Nel complesso il contributo positivo alla performance è stato dato dall'esposizione ai titoli periferici, non solo Italia ma anche Spagna, Portogallo, e Grecia, grazie al restringimento degli spread osservato per buona parte dell'anno, e al sottopeso della carta francese i cui spread si sono allargati per le note vicende politiche. Anche il posizionamento di curva in generale ha contribuito positivamente alla performance del Fondo.

Il Fondo per i prossimi mesi intende mantenere un posizionamento costruttivo sia sulla duration che sugli spread ma allo stesso tempo viene adottata una certa cautela in vista di una maggiore volatilità dei mercati in particolare con la vittoria di Trump alla presidenza americana. Verrà posta attenzione all'evoluzione delle condizioni macroeconomiche e di mercato per una gestione anche più tattica della duration e della curva.

Rapporti con le Società del Gruppo

Si precisa che i rapporti intrattenuti e le operazioni effettuate nel corso del periodo di riferimento con le altre Società del Gruppo vengono descritti nell'ambito della nota integrativa cui si rimanda. Tali rapporti e operazioni sono stati regolati in base alle normali condizioni di mercato.

Fatti di rilievo avvenuti dopo la chiusura del periodo di riferimento della presente relazione

Non si rilevano eventi significativi successivi alla chiusura della presente relazione di gestione, che possono avere un impatto rilevante sulla situazione patrimoniale e sezione reddituale del Fondo al 30 dicembre 2024.

Attività di collocamento delle quote

Di seguito si riporta il dettaglio dell'attività di collocamento delle classi di quote:

Classe A: raccolta netta positiva per euro 33.119.075, prevalentemente effettuata tramite Banca CR Asti S.p.A., Cassa di Risparmio di Bolzano S.p.A., Banca Passadore & C. S.p.A., Fideuram S.p.A. e, in misura minore, dalla restante rete di collocatori.

Classe D: raccolta netta negativa per euro 4.893.701.

Informazioni su SFDR e tassonomia

Nella gestione del Fondo, la SGR integra nel proprio processo di investimento l'analisi dei rischi di sostenibilità ai sensi dell'articolo 6 del Regolamento (UE) 2019/2088 del Parlamento Europeo e del Consiglio del 27 novembre 2019 (cd. "Regolamento SFDR") relativo all'informativa sulla sostenibilità nel settore dei servizi finanziari. Ferma restando l'integrazione dell'analisi dei rischi di sostenibilità nel processo di investimento della SGR, il Fondo non promuove, tuttavia, gli specifici obiettivi ambientali individuati dal Regolamento (UE) 2020/852 del Parlamento Europeo e del Consiglio del 18 giugno 2020 (cd. "Regolamento Tassonomia") relativo all'istituzione di un quadro che favorisce gli investimenti sostenibili e recante modifica del Regolamento (UE) 2019/2088. In tale ambito, si evidenzia che gli investimenti sottostanti il presente Fondo non tengono conto dei criteri dell'Unione Europea per le attività economiche ecosostenibili.

Politica di Distribuzione

Si precisa che, come indicato nel Regolamento del Fondo, gli importi distribuibili corrispondono ad un minimo di euro 165.255 (pari al 80% dei ricavi distribuibili) e ad un massimo di euro 391.878 (ovvero il 100% del massimo distribuibile). Il Consiglio di Amministrazione delibera, in ottemperanza a quanto stabilito nel Regolamento del Fondo, di distribuire alle quote in circolazione alla data di approvazione della presente relazione, l'importo complessivo di euro 391.878 destinando a proventi del Fondo l'eventuale residuo non distribuibile derivante dal troncamento della cedola unitaria. L'importo unitario della cedola, ottenuto dalla ripartizione dell'ammontare messo in distribuzione per le quote del Fondo in circolazione, dopo le operazioni di avvaloramento e di rimborso, alla data di approvazione della presente relazione di gestione, è di euro 0,153 pagabile a partire dal 10 marzo 2025.

Milano, 25 febbraio 2025

 IL CONSIGLIO DI AMMINISTRAZIONE

RELAZIONE DI GESTIONE AL 30 DICEMBRE 2024

PREMESSA

La Relazione di gestione del Fondo si compone di una Situazione patrimoniale, di una Sezione reddituale e di una Nota integrativa ed è stata redatta in conformità alle disposizioni del Regolamento della Banca d'Italia del 19 gennaio 2015 in materia di gestione collettiva del risparmio, come modificato dal Provvedimento della Banca d'Italia del 12 marzo 2024. Questi sono inoltre accompagnati dalla relazione degli amministratori.

I prospetti contabili e la nota integrativa sono redatti in unità di euro, senza cifre decimali, a eccezione del valore della quota, che viene calcolato in millesimi di euro.

La presente Relazione di gestione è redatta con riferimento al 30 dicembre 2024, che risulta, ai sensi del regolamento del Fondo attualmente in vigore, l'ultimo giorno di calcolo del valore della quota del mese di dicembre. Tale data rappresenta pertanto il termine dell'esercizio contabile del Fondo.

Come espressamente previsto dal Provvedimento di riferimento, i prospetti allegati sono stati posti a confronto con i dati relativi al periodo precedente.

L'Assemblea degli Azionisti di Eurizon Capital SGR S.p.A. del 16 marzo 2020 ha incaricato EY S.p.A. della revisione legale del bilancio d'esercizio e della revisione contabile delle relazioni di gestione dei Fondi comuni d'investimento istituiti dalla SGR per gli esercizi 2021 - 2029.

Per IL CONSIGLIO DI AMMINISTRAZIONE

Luigi Pizzarello

NOTA INTEGRATIVA

Parte A - Andamento del valore della quota

1) Nel periodo di riferimento, la performance del Fondo, al netto delle commissioni applicate, relativa alla Classe A, alla Classe D e alla Classe I e la performance del benchmark di riferimento, sono state rispettivamente pari a 2,92%, 2,91%, 3,48% e 3,36%, 3,36%, 3,36%.

Classe A

Classe D (*)

(*) Ai fini del confronto con il benchmark di riferimento, il valore unitario della quota è espresso al lordo del valore delle eventuali cedole unitarie distribuite dal Fondo nel corso del periodo di riferimento.

Classe I

2) Il rendimento annuo del Fondo e del benchmark nel corso degli ultimi dieci anni, o del minor periodo di vita delle Classi del Fondo, può essere rappresentato come segue:

Classe A

Classe D

Classe I

I dati di rendimento del Fondo non includono eventuali costi di sottoscrizione e rimborso a carico dell'investitore. La performance del Fondo e del benchmark riflette valori che fino al 30/06/2011 erano al netto dell'effetto fiscale, mentre dal 01/07/2011 sono calcolati al lordo di tale componente.

3) I valori minimi e massimi delle differenti Classi di quota raggiunti durante l'esercizio sono così raffigurabili:

Andamento del valore della quota durante l'esercizio - classe A	
Valore minimo al 22/02/24	16,210
Valore massimo al 11/12/24	16,764

Andamento del valore della quota durante l'esercizio - classe D	
Valore minimo al 22/02/24	13,993
Valore massimo al 11/12/24	14,409

Andamento del valore della quota durante l'esercizio - classe I	
Valore minimo al 22/02/24	16,430
Valore massimo al 11/12/24	17,067

Per quanto concerne i principali eventi che hanno influito sull'andamento del valore della quota si rimanda a quanto illustrato nel commento di gestione.

4) Il Fondo presenta la suddivisione nelle differenti Classi di quote, descritte nel paragrafo del "Fondo comune di investimento".

5) Nel corso dell'esercizio non sono stati riscontrati errori nel calcolo del valore delle quote del Fondo.

6) La volatilità della differenza di rendimento del Fondo rispetto al benchmark di riferimento negli ultimi tre anni o del minor periodo di vita del Fondo è rappresentata dal valore della "Tracking Error Volatility(*)" di seguito riportata:

<i>Classe</i>	<i>2024</i>	<i>2023</i>	<i>2022</i>
A	0,43%	0,63%	0,97%
D	0,44%	0,62%	0,97%
I	0,43%	0,63%	0,97%

(*) La Tracking Error Volatility è calcolata come deviazione standard settimanale annualizzata della differenza tra la performance del Fondo e quella del benchmark.

7) Le quote del Fondo non sono trattate su mercati regolamentati.

8) Si precisa che, come indicato nel Regolamento del Fondo, gli importi distribuibili corrispondono ad un minimo di euro 165.255 (pari al 80% dei ricavi distribuibili) e ad un massimo di euro 391.878 (ovvero il 100% del massimo distribuibile).

Il Consiglio di Amministrazione delibera, in ottemperanza a quanto stabilito nel Regolamento del Fondo, di distribuire alle quote in circolazione alla data di approvazione della presente relazione, l'importo complessivo di euro 391.878 destinando a proventi del Fondo l'eventuale residuo non distribuibile derivante dal troncamento della cedola unitaria. L'importo unitario della cedola, ottenuto dalla ripartizione dell'ammontare messo in distribuzione per le quote del Fondo in circolazione, dopo le operazioni di avvaloramento e di rimborso, alla data di approvazione della presente relazione di gestione, è di euro 0,153 pagabile a partire dal 10 marzo 2025.

9) Il Fondo è soggetto principalmente al rischio di sfavorevole andamento dei corsi dei titoli obbligazionari, che può dipendere sia dal movimento di risalita dei tassi d'interesse che dal movimento di allargamento degli spread dei Paesi in cui può avvenire l'investimento. Tali rischi vengono gestiti anche tramite l'utilizzo di derivati.

Il monitoraggio di tali rischi viene effettuato su base continuativa dal gestore attraverso la costante verifica dell'effettivo posizionamento del Fondo rispetto al profilo di rischio-rendimento desiderato e al benchmark di riferimento. La misurazione ed il controllo dei rischi in oggetto viene inoltre effettuata con frequenza giornaliera mediante l'utilizzo di modelli matematico-statistici utilizzati autonomamente dalla struttura di Risk Management. I risultati di tali valutazioni sono regolarmente portati all'attenzione degli organi amministrativi della SGR.

Ai fini di fornire una rappresentazione dei rischi assunti nell'esercizio, si riporta qui di seguito una sintesi degli indicatori più significativi, elaborati a posteriori su dati di consuntivo:

	Classe A	Classe D	Classe I
Volatilità annualizzata su quote nette del Fondo	1,04%	1,04%	1,03%
(esprime la misura annualizzata della variabilità settimanale del rendimento della quota rispetto al valore medio del rendimento stesso)			
Volatilità annualizzata del Benchmark	0,70%	0,70%	0,70%
(esprime la misura annualizzata della variabilità del rendimento del benchmark rispetto al valore medio del rendimento stesso)			
Var mensile (99%) su quote nette	-0,31%	-0,31%	-0,26%
(Minor rendimento realizzato su base mensile nel corso del periodo di riferimento determinato escludendo l'1% dei peggiori risultati)			

Nel corso del periodo sono stati utilizzati strumenti derivati con finalità di copertura.

Parte B - Le attività, le passività e il valore complessivo netto

SEZIONE I - Criteri di valutazione

Principi contabili

La presente relazione di gestione è redatta nel presupposto della continuità operativa del Fondo.

Nella redazione del presente documento vengono applicati i principi contabili di generale accettazione per i fondi comuni d'investimento e i criteri di valutazione previsti dal Regolamento in accordo con quanto espressamente disposto dalla Banca d'Italia. Tali principi contabili, coerenti con quelli utilizzati nel corso del periodo per la predisposizione dei prospetti giornalieri, sono di seguito riepilogati.

Criteri contabili

Gli acquisti e le vendite di titoli e di altre attività sono contabilizzati nel portafoglio del Fondo sulla base della data di effettuazione dell'operazione, indipendentemente dalla data di regolamento dell'operazione stessa. Nel caso di sottoscrizione di titoli di nuova emissione la contabilizzazione nel portafoglio del Fondo avviene invece alla data di attribuzione.

La vendita o l'acquisto di contratti future su titoli nozionali influenzano il valore netto del Fondo attraverso la corresponsione o l'incasso dei margini di variazione i quali incidono direttamente sulla liquidità disponibile e sul conto economico mediante l'imputazione dei differenziali positivi/negativi. Tali differenziali vengono registrati secondo il principio della competenza, sulla base della variazione giornaliera tra i prezzi di chiusura del mercato di contrattazione e i costi dei contratti stipulati e/o i prezzi del giorno precedente.

Le opzioni, i premi e i warrant acquistati e le opzioni emesse e i premi venduti sono computati tra le attività/passività al loro valore corrente. I controvalori delle opzioni, dei premi e dei warrant non esercitati confluiscono, alla scadenza, nelle apposite poste di conto economico.

I costi delle opzioni, dei premi e dei warrant, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i costi per acquisti e i ricavi per vendite dei titoli cui si riferiscono, mentre i ricavi da premi venduti e opzioni emesse, ove i diritti connessi siano esercitati, aumentano o riducono rispettivamente i ricavi per vendite e i costi per acquisti dei titoli cui si riferiscono.

Le differenze tra i costi medi ponderati di carico e i prezzi di mercato relativamente alle quantità in portafoglio originano minusvalenze e/o plusvalenze; nell'esercizio successivo tali poste da valutazione influiranno direttamente sui relativi valori di libro. Gli utili e le perdite su realizzazioni riflettono la differenza fra i costi medi ponderati di carico e i prezzi relativi alle vendite dell'esercizio. Le commissioni di acquisto e vendita corrisposte alle controparti, qualora esplicitate sono imputate a costo nella voce "13. Altri Oneri" della Sezione Reddittuale della relazione di gestione.

Gli interessi e gli altri proventi su titoli, gli interessi sui depositi bancari, gli interessi sui prestiti, nonché gli oneri di gestione, vengono registrati secondo il principio della competenza temporale, mediante il calcolo, ove necessario, di ratei attivi e passivi.

I dividendi maturati su titoli azionari in portafoglio vengono registrati dal giorno della quotazione ex cedola, al netto della ritenuta d'imposta ove applicata.

Le sottoscrizioni e i rimborsi delle quote sono registrati a norma di Regolamento del Fondo, nel rispetto del principio della competenza temporale.

Criteri di valutazione

Il prezzo di valutazione dei titoli in portafoglio in ottemperanza a quanto disposto dalla normativa vigente è determinato sulla base dei seguenti parametri:

- i prezzi unitari utilizzati, determinati in base all'ultimo prezzo disponibile rilevato sul mercato di negoziazione, sono quelli del giorno di Borsa aperta al quale si riferisce il valore della quota;
- per i titoli di Stato italiani è l'ultimo prezzo rilevato sul Mercato Telematico (MOT) e, in mancanza di quotazione, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli obbligazionari quotati negoziati presso il Mercato Telematico (MOT) è il prezzo trade e, in mancanza di questo, il prezzo rilevabile dai providers presenti nella Pricing Policy;
- per i titoli quotati presso altri mercati regolamentati, è l'ultimo prezzo ufficiale disponibile entro le ore 24 italiane del giorno al quale si riferisce il valore della quota. Se il titolo è trattato su più mercati si applica la quotazione più significativa, tenuto conto anche delle quantità trattate e dell'operatività svolta dal Fondo. Nel caso in cui nel mercato di quotazione risultino contenuti gli scambi ed esistano elementi di scarsa liquidità, la valutazione tiene altresì conto del presumibile valore di realizzo determinabile anche sulla base delle informazioni reperibili su circuiti internazionali di

referimento oggettivamente considerate dai responsabili organi della SGR;

- per i titoli e le altre attività finanziarie non quotati, compresi quelli esteri, è il loro presumibile valore di realizzo sul mercato, individuato su un'ampia base di elementi di informazione - oggettivamente considerati dai responsabili organi della SGR - con riferimento alla peculiarità del titolo, alla situazione patrimoniale e reddituale degli emittenti, alla situazione del mercato e al generale andamento dei tassi di interesse;

- per le opzioni, i warrant e gli strumenti derivati trattati in mercati regolamentati è il prezzo di chiusura del giorno rilevato nel mercato di trattazione; nel caso di contratti trattati su più mercati è il prezzo più significativo, anche in relazione alle quantità trattate sulle diverse piazze e all'operatività svolta dal Fondo;

- per le opzioni, i warrant e gli strumenti derivati non trattati in mercati regolamentati è il valore corrente espresso dalla formula indicata dall'Organo di Vigilanza; qualora i valori risultassero incongruenti con le quotazioni espresse dal mercato, la SGR riconsidera il tasso d'interesse "risk free" e la volatilità utilizzati, al fine di ricondurne il risultato al presunto valore di realizzo;

- per la conversione in Euro delle valutazioni espresse in altre valute si applicano i relativi cambi correnti alla data di riferimento comunicati da WM Reuters. Le operazioni a termine in valuta sono convertite al tasso di cambio a termine corrente per scadenze corrispondenti a quelle delle operazioni oggetto di valutazione;

- per i titoli strutturati non quotati la valutazione viene effettuata procedendo alla valutazione distinta di tutte le singole componenti elementari in cui essi possono essere scomposti; per titoli strutturati si intendono quei titoli che incorporano una componente derivata e/o presentano il profilo di rischio di altri strumenti finanziari sottostanti. In particolare, non sono considerati titoli strutturati i titoli di Stato parametrati a tassi di interesse di mercato e i titoli obbligazionari di emissione societaria che prevedono il rimborso anticipato.

SEZIONE II - Le attività

Qui di seguito vengono riportati alcuni grafici che forniscono l'indicazione della composizione del portafoglio del Fondo alla chiusura dell'esercizio, ripartito in base alle aree geografiche verso cui sono orientati gli investimenti e in base ai settori economici di impiego delle risorse del Fondo.

Si riporta inoltre l'elenco analitico dei principali strumenti finanziari detenuti dal Fondo (i primi 50 o comunque tutti quelli che superano lo 0,5% delle attività del Fondo).

Aree geografiche verso cui sono orientati gli investimenti

Settori economici di impiego delle risorse del Fondo

Si segnala che le parti di OICR sono classificate all'interno del settore finanziario.

II.1 STRUMENTI FINANZIARI QUOTATI

Ripartizione degli strumenti finanziari quotati per Paese di residenza dell'emittente:

	Paesi di residenza dell'emittente			
	Italia	Paesi dell'UE	Altri paesi dell' OCSE	Altri paesi
Titoli di debito:				
- di Stato	414.993.321	217.487.375	1.001.580	
- di altri enti pubblici				
- di banche	96.430	38.191.990	571.651	
- di altri	1.060.971	8.736.074	1.754.154	1.519.192
Titoli di capitale:				
- con diritto di voto				
- con voto limitato				
- altri				
Parti di OICR:				
- OICVM				25.297.914
- FIA aperti retail				
- altri				
Totali:				
- in valore assoluto	416.150.722	264.415.439	3.327.385	26.817.106
- in percentuale del totale delle attività	56,3	35,8	0,5	3,6

Altri paesi: Indonesia, Altri paesi.

Nel caso di quote di OICR, la ripartizione per paese di residenza dell'emittente è stata effettuata tenendo in considerazione i mercati prevalenti nei quali gli OICR investono.

Ripartizione degli strumenti finanziari quotati per mercato di quotazione:

	Mercato di quotazione			
	Italia	Paesi dell'UE	Altri paesi dell'OCSE	Altri paesi
Titoli quotati	415.081.071	294.312.737	1.316.844	
Titoli in attesa di quotazione				
Totali:				
- in valore assoluto	415.081.071	294.312.737	1.316.844	
- in percentuale del totale delle attività	56,2	39,8	0,2	

Si segnala che, le quote di OICR, in accordo con quanto stabilito dal Regolamento della Banca d'Italia, sono ricondotte tra gli strumenti finanziari quotati. La ripartizione per mercato di quotazione, in tal caso, viene effettuata in base al paese di residenza della SGR che li ha istituiti.

Movimenti dell'esercizio:

	Controvalore acquisti	Controvalore vendite/rimborsi
Titoli di debito:		
- titoli di Stato	749.655.438	677.708.002
- altri	17.145.693	17.811.534
Titoli di capitale		
Parti di OICR	272.487.177	287.288.268
Totale	1.039.288.308	982.807.804

II.3 TITOLI DI DEBITO

1) Elenco titoli strutturati detenuti in portafoglio.

Risultano in portafoglio i seguenti titoli strutturati:

Descrizione	Divisa	Valore Nominale	Controvalore Euro	Caratteristiche	% su portafoglio
BTPS 0.55 05/26	EUR	3.000.000	2.971.663	INDEX LINKED	0,4
BTPS 1.4 05/25	EUR	24.000.000	23.976.933	INDEX LINKED	3,4
BTPS 0.65 05/26	EUR	15.000.000	17.942.628	INDEX LINKED	2,5
BTPS IL 1.6 06/30 EX	EUR	7.500.000	7.437.818	INDEX LINKED	1,0

2) Duration modificata per valuta di denominazione.

Qui di seguito si riporta la ripartizione dei titoli di debito e degli strumenti finanziari derivati con sottostanti titoli di debito o tassi di interesse, in funzione della valuta di denominazione e della durata finanziaria (duration) modificata:

Valuta	Duration in anni		
	minore o pari ad 1	compresa tra 1 e 3,6	maggiore di 3,6
Euro	455.210.983	235.798.491	105.687.313
Sterlina Regno Unito			10.820.456
Yen Giapponese		8.195.995	

II.4 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizioni creditorie:

Valore patrimoniale degli strumenti finanziari derivati			
	Margini	Strumenti finanziari quotati	Strumenti finanziari non quotati
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili			42.949
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili			
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili	855.482		
Altre operazioni: - future - opzioni - swap			

Tipologia dei contratti	Controparte dei contratti				
	Banche Italiane	SIM	Banche e imprese di investimento di paesi OCSE	Banche e imprese di investimento di paesi non OCSE	Altre controparti
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili					42.949
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili					
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili	855.482				
Altre operazioni: - future - opzioni - swap					

Non risultano attività ricevute in garanzia.

II.8 POSIZIONE NETTA DI LIQUIDITÀ

La posizione netta di liquidità è composta dalle seguenti sottovoci:

Descrizione	Importo
Liquidità disponibile	22.845.426
- Liquidità disponibile in euro	22.408.724
- Liquidità disponibile in divisa estera	436.702
Liquidità da ricevere per operazioni da regolare	313.703
- Vend/Acq di divisa estera a contanti	72.312
- Margini di variazione da incassare	241.391
Liquidità impegnata per operazioni da regolare	-304.792
- Acq/Vend di divisa estera a contanti	-72.401
- Margini di variazione da versare	-232.391
Totale posizione netta di liquidità	22.854.337

II.9 ALTRE ATTIVITÀ

Le altre attività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Ratei attivi	4.408.890
- Su liquidità disponibile	137.411
- Su titoli di debito	4.271.479
Totale altre attività	4.408.890

SEZIONE III - Le passività

III.1 FINANZIAMENTI RICEVUTI

Il Fondo ricorre a forme di finanziamento rappresentate da affidamenti temporanei di conto corrente concessi dal Depositario e a forme di indebitamento a vista con Intesa Sanpaolo S.p.A., al fine di far fronte ad una dilazione temporale nel versamento dei margini di variazione relativi a operazioni in strumenti finanziari derivati su mercati regolamentati.

Qui di seguito si riporta il riepilogo dei finanziamenti in essere a fine periodo:

Finanziamenti ricevuti	Importo
- Finanziamenti Non EUR	65.789

III.4 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizione debitorie:

Valore patrimoniale degli strumenti finanziari derivati		
	Strumenti finanziari quotati	Strumenti finanziari non quotati
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili		98.887
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili		
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili		
Altre operazioni: - future - opzioni - swap		

Tipologia dei contratti	Controparte dei contratti				
	Banche Italiane	SIM	Banche e imprese di investimento di paesi OCSE	Banche e imprese di investimento di paesi non OCSE	Altre controparti
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili					98.887
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili					
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili					
Altre operazioni : - future - opzioni - swap					

III.5 DEBITI VERSO PARTECIPANTI

I debiti verso partecipanti sono così dettagliabili:

Descrizione	Data estinzione debito	Importi
Rimborsi richiesti e non regolati		412.168
-	31/12/2024	412.147
-	06/01/2025	21
Proventi da distribuire		7.770
-	31/03/2029	2.370
-	30/09/2027	124
-	31/03/2028	314
-	30/06/2024	2.218
-	30/06/2025	799
-	30/09/2028	1.105
-	30/09/2029	840
Totale debiti verso i partecipanti		419.938

III.6 ALTRE PASSIVITÀ

Le altre passività sono composte dalle seguenti sottovoci:

Descrizione	Importo
Provvigioni ed oneri maturati e non liquidati	461.138
- Commissioni Depositario, custodia e amministrazione titoli	14.085
- Provvigioni di gestione	411.530
- Ratei passivi su conti correnti	2.686
- Commissione calcolo NAV	21.105
- Commissioni di tenuta conti liquidità	11.732
Altre	54.756
- Società di revisione	43.874
- Spese per pubblicazione	10.882
Totale altre passività	515.894

SEZIONE IV - Il Valore Complessivo Netto

1) Le quote in circolazione a fine periodo detenute da investitori qualificati risultano in numero di 12.490 pari a 0,03% per la Classe A, nulle per la Classe I e in numero di 142.706 pari a 5,62% per la Classe D delle quote in circolazione alla data di chiusura.

2) Le quote in circolazione a fine periodo detenute da soggetti non residenti risultano in numero di 305.204 pari a 0,83% per la Classe A, nulle per la Classe I e in numero di 157.494 pari a 6,20% per la Classe D delle quote in circolazione alla data di chiusura.

3) Le componenti che hanno determinato la variazione della consistenza del patrimonio netto tra l'inizio e la fine del periodo sono qui di seguito riportate:

Variazioni del patrimonio netto				
Classe A		Anno 2024	Anno 2023	Anno 2022
Patrimonio netto a inizio periodo		568.190.379	589.422.036	511.255.472
Incrementi:	a) sottoscrizioni:	181.602.210	114.052.090	251.182.007
	- sottoscrizioni singole	157.594.680	102.971.792	71.454.134
	- piani di accumulo	12.248.448	6.616.951	4.330.604
	- switch in entrata	11.759.082	4.463.347	175.397.269
	b) risultato positivo della gestione	16.921.060	16.886.167	
Decrementi:	a) rimborsi:	148.483.135	152.169.914	152.237.479
	- riscatti	135.488.889	141.213.859	146.333.709
	- piani di rimborso	274.065	313.295	511.175
	- switch in uscita	12.720.181	10.642.760	5.392.595
	b) proventi distribuiti			20.777.964
c) risultato negativo della gestione

Patrimonio netto a fine periodo		83.003.918	80.210.708	302.901.540

SEZIONE V - Altri dati patrimoniali

V.1 IMPEGNI ASSUNTI DAL FONDO A FRONTE DI STRUMENTI FINANZIARI DERIVATI E ALTRE OPERAZIONI A TERMINE

Si riporta il dettaglio degli impegni assunti dal Fondo a fronte di strumenti derivati in essere alla data di chiusura:

	Ammontare dell'impegno	
	Valore assoluto	% del Valore Complessivo Netto
Operazioni su tassi di interesse: - future su titoli di debito, tassi e altri contratti simili - opzioni su tassi e altri contratti simili - swap e altri contratti simili	130.300.500	17,7
Operazioni su tassi di cambio: - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili		
Operazioni su titoli di capitale: - future su titoli di capitale, indici azionari e contratti simili - opzioni su titoli di capitale e altri contratti simili - swap e altri contratti simili		
Altre operazioni: - future e contratti simili - opzioni e contratti simili - swap e contratti simili		

Si ricorda che la normativa vigente richiede che l'ammontare degli impegni di cui sopra assunti dal Fondo non sia superiore al valore complessivo netto del Fondo stesso.

V.2 AMMONTARE DELLE ATTIVITÀ E PASSIVITÀ NEI CONFRONTI DI ALTRE SOCIETÀ DEL GRUPPO INTESA SANPAOLO

Le attività e passività in essere a fine periodo nei confronti delle altre società appartenenti al Gruppo Intesa Sanpaolo sono le seguenti:

	EURIZON CAPITAL SA	INTESA SANPAOLO SPA		
Strumenti finanziari detenuti (Incidenza % sul portafoglio)	25.297.914 3,6			
Strumenti finanziari derivati		855.482		
Depositi bancari				
Altre attività		10		
Finanziamenti ricevuti				
Altre passività				
Garanzie e impegni				

V.3 COMPOSIZIONE DELLE POSTE PATRIMONIALI DEL FONDO PER DIVISA DI DENOMINAZIONE

Le poste patrimoniali alla fine del periodo erano così ripartite per divisa di denominazione:

	ATTIVITÀ				PASSIVITÀ		
	Strumenti finanziari	Depositi bancari	Altre attività	TOTALE	Finanziamenti ricevuti	Altre passività	TOTALE
Dollaro Australiano			1.235	1.235			
Dollaro Canadese			53.218	53.218			
Euro	711.176.680		26.720.335	737.897.015		1.032.032	1.032.032
Sterlina Regno Unito	329.017		109.674	438.691	65.789	2.685	68.474
Fiorino Ungherese			139	139			
Yen Giapponese	103.386		237.700	341.086		2	2
Dollaro Neozelandese			32.144	32.144			
Corona Svedese			806	806			
Dollaro Statunitense			107.976	107.976			
TOTALE	711.609.083		27.263.227	738.872.310	65.789	1.034.719	1.100.508

Parte C - Il risultato economico dell'esercizio

SEZIONE I - Strumenti finanziari quotati e non quotati e relative operazioni di copertura

I.1 RISULTATO DELLE OPERAZIONI SU STRUMENTI FINANZIARI

Il risultato delle operazioni del periodo è così dettagliabile:

Risultato complessivo delle operazioni su:	Utile/perdita da realizzi	di cui: per variazioni dei tassi di cambio	Plus / minusvalenze	di cui: per variazioni dei tassi di cambio
A. Strumenti finanziari quotati	4.986.314		9.553.061	
1. Titoli di debito	4.704.976		8.205.852	
2. Titoli di capitale				
3. Parti di OICR	281.338		1.347.209	
- OICVM	281.338		1.347.209	
- FIA				
B. Strumenti finanziari non quotati				
1. Titoli di debito				
2. Titoli di capitale				
3. Parti di OICR				

I.2 STRUMENTI FINANZIARI DERIVATI

Sono di seguito fornite le informazioni su strumenti finanziari derivati che danno luogo a posizione debitorie:

Risultato degli strumenti finanziari derivati				
	Con finalità di copertura (sottovoci A4 e B4)		Senza finalità di copertura (sottovoci C1 e C2)	
	Risultati realizzati	Risultati non realizzati	Risultati realizzati	Risultati non realizzati
Operazioni su tassi di interesse	777.957		-1.993.774	-55.938
- future su titoli di debito, tassi e altri contratti simili	777.957		-1.993.774	
- opzioni su tassi e altri contratti simili				-55.938
- swap e altri contratti simili				
Operazioni su titoli di capitale				
- future su titoli di capitale, indici azionari e contratti simili				
- opzioni su titoli di capitale e altri contratti simili				
- swap e altri contratti simili				
Altre operazioni	-21.240		-307.963	
- future			-1	
- opzioni	-21.240		-307.962	
- swap				

SEZIONE III - Altre operazioni di gestione e oneri finanziari

III.2 RISULTATO DELLA GESTIONE CAMBI

Le differenze di cambio derivanti dalla gestione della liquidità in valuta sono di seguito dettagliate:

Risultato della gestione cambi		
	Risultati realizzati	Risultati non realizzati
OPERAZIONI DI COPERTURA		
Operazioni a termine		
Strumenti finanziari derivati su tassi di cambio - future su valute e altri contratti simili - opzioni su tassi di cambio e altri contratti simili - swap e altri contratti simili		
OPERAZIONI NON DI COPERTURA		
Operazioni a termine		
Strumenti finanziari derivati su tassi di cambio - future su valute e altri contratti simili - opzioni su tassi e altri contratti simil - swap e altri contratti simili		
LIQUIDITÀ	34.111	3.618

III.3 INTERESSI PASSIVI SU FINANZIAMENTI RICEVUTI

Gli interessi passivi addebitati al Fondo nell'esercizio sono così dettagliabili:

Descrizione	Importi
Interessi passivi per scoperti di : - c/c denominati in Sterlina Regno Unito	-4.249
Interessi passivi per scoperti di : - c/c denominati in Yen Giapponese	-98
Interessi passivi per scoperti di : - c/c denominati in Dollaro Statunitense	-2.611
Totale interessi passivi su finanziamenti ricevuti	-6.958

III.4 ALTRI ONERI FINANZIARI

Gli altri oneri finanziari addebitati al Fondo nell'esercizio sono così dettagliabili:

Descrizione	Importi
Interessi negativi su saldi creditori	-3.893
Totale altri oneri finanziari	-3.893

40

SEZIONE IV - Oneri di gestione

IV.1 COSTI SOSTENUTI NEL PERIODO

I costi sostenuti nel complesso dal Fondo nell'esercizio sono così dettagliati:

TOTALE SPESE (SOMMA DA 1 A 13)	D	320	0,82			1	0,00		

A fronte dell'attività di promozione e collocamento nonché dell'attività di assistenza fornita in via continuativa nei confronti dei partecipanti ai Fondi, anche nelle operazioni successive alla prima sottoscrizione e, laddove previsto, a fronte del servizio di consulenza, ai collocatori del Fondo sono stati riconosciuti i seguenti compensi:

- una quota parte degli importi percepiti dalla SGR a titolo di provvigioni di gestione, in media pari all'82,3%, corrispondente ad un importo di 3.530 migliaia di euro per la classe A, pari allo 0,0%, corrispondente ad un importo di 0 migliaia di euro per la classe I e pari al 79,0%, corrispondente ad un importo di 225 migliaia di euro per la classe D.

Si precisa che gli oneri di negoziazione su strumenti finanziari, sostenuti nell'esercizio e riportati al punto 11) della presente tabella, consistono nelle commissioni di negoziazione esplicitate dalle controparti. In caso contrario, tali oneri accessori risultano già inclusi nel prezzo di acquisto o vendita.

IV.3 REMUNERAZIONI

Le Politiche di remunerazione e incentivazione della SGR sono state predisposte sulla base delle Politiche di Remunerazione del Gruppo Intesa Sanpaolo e, per quanto non in contrasto, non disciplinato o più restrittivo della normativa del settore bancario, nel rispetto delle disposizioni europee e nazionali che regolamentano il settore del Risparmio Gestito.

Al riguardo, la SGR elabora ed attua politiche e prassi di remunerazione ed incentivazione coerenti con le proprie caratteristiche, la propria dimensione e quella degli OICR gestiti, l'organizzazione interna, la natura, la portata e la complessità delle attività. L'applicazione dei sistemi di incentivazione per il personale della SGR è subordinata alle seguenti condizioni: (i) di attivazione a livello di Gruppo Intesa Sanpaolo e della SGR; (ii) di "finanziamento" previste dai connessi meccanismi a livello di Gruppo e della SGR, nonché (iii) di accesso individuale.

Tali condizioni sono ispirate ai principi di sostenibilità finanziaria della componente variabile dei compensi e rappresentate dalla verifica della "qualità" dei risultati reddituali raggiunti e della coerenza con i limiti previsti nell'ambito del quadro di riferimento per la determinazione della propensione al rischio del Gruppo Intesa Sanpaolo.

Nel dettaglio, la struttura della retribuzione variabile prevede modalità di erogazione differenziate in funzione del ruolo ricoperto (ad esempio nel caso del cd. "personale più rilevante") e del rapporto tra retribuzione variabile e fissa che prevede l'applicazione dei requisiti più stringenti della regolamentazione comunitaria, nazionale e di Gruppo, tra cui: (i) il differimento, ovvero la corresponsione della retribuzione variabile negli anni successivi a quello di maturazione; (ii) l'assegnazione di parte in contanti e parte in strumenti finanziari; (iii) la previsione di un meccanismo di mantenimento degli strumenti finanziari assegnati; (iv) la previsione di meccanismi di correzione che prevedano la riduzione parziale e/o totale della retribuzione variabile ovvero la restituzione dei premi già corrisposti. Sono, inoltre, vietate eventuali strategie di copertura personale o assicurazioni sulla remunerazione che possano alterare gli effetti di allineamento al rischio insiti nei meccanismi di remunerazione.

Con specifico riferimento alla filiera dei gestori, la definizione della remunerazione variabile viene effettuata tenendo conto del profilo di rischio/rendimento dei diversi patrimoni gestiti al fine di orientare e premiare le migliori performance e al tempo stesso allineare i sistemi incentivanti agli interessi degli investitori. La valutazione delle performance viene effettuata sulla base del livello di professionalità e della tipologia e complessità delle attività gestite. Oltre a tali valutazioni, è inoltre considerato il livello di raggiungimento di prestazioni qualitative di tipo discrezionale e/o progettuale, che rafforzano l'orientamento del singolo a obiettivi di lungo termine e verso performance sostenibili.

Le politiche di remunerazione e incentivazione della SGR sono altresì coerenti con le previsioni in tema di integrazione dei rischi di sostenibilità ai sensi del Regolamento UE 2019/2088.

Ciò posto, si forniscono le seguenti informazioni relative all'applicazione delle Politiche di remunerazione relative all'esercizio 2023:

- la remunerazione totale del personale della SGR è risultata pari a 59,8 milioni di euro, di cui 41,0 milioni di euro riconducibili alla componente fissa e 18,9 milioni di euro alla componente variabile liquidata. Al 31 dicembre 2023 il personale della SGR era composto da n. 531 dipendenti;
 - la remunerazione totale del personale complessivamente coinvolto, anche in via non esclusiva, nella gestione delle attività del Fondo è risultata complessivamente pari a 1,7 milioni di euro, di cui 1,2 milioni di euro riconducibili alla componente fissa e 0,5 milioni di euro alla componente variabile;
 - la remunerazione totale del personale più rilevante della SGR, ammonta complessivamente a 13,1 milioni di euro. La stessa risulta essere suddivisa tra le seguenti categorie di "personale più rilevante" di seguito indicate:
 - i) membri esecutivi e non esecutivi del Consiglio di Amministrazione, per complessivi 3,0 milioni di euro;
 - ii) i soggetti che riportano direttamente al vertice aziendale, nonché coloro i quali riportano direttamente al Consiglio di Amministrazione, all'Amministratore Delegato e al Collegio Sindacale, per complessivi 3,8 milioni di euro;
 - iii) personale appartenente alle funzioni aziendali di controllo, per complessivi 0,9 milioni di euro;
 - iv) altri soggetti che, individualmente o collettivamente, assumono rischi in modo significativo per la SGR o per i Fondi gestiti, per complessivi 5,2 milioni di euro;
 - v) altri soggetti la cui remunerazione totale si collochi nella medesima fascia retributiva delle categorie sub ii) e iv), per complessivi 0,2 milioni di euro;
 - la proporzione della remunerazione totale del personale attribuibile al Fondo è pari all'1,1% del costo del personale coinvolto nella gestione del Fondo, cui corrisponde un numero medio di beneficiari pari a 13,4;
 - le informazioni relative alle remunerazioni sono state determinate sulla base della contabilità industriale della SGR utilizzando i dati del Bilancio d'esercizio; gli esiti del riesame periodico svolto dal Consiglio di Amministrazione hanno riscontrato la rispondenza delle prassi operative seguite nella determinazione del sistema incentivante rispetto alle Politiche deliberate dagli Organi aziendali e alle disposizioni normative e di Gruppo in materia; non si evidenziano modifiche sostanziali rispetto alle Politiche di Remunerazione valide per il periodo precedente.
- La sintesi delle Politiche di remunerazione e incentivazione della SGR è disponibile nel sito internet della SGR.

SEZIONE V - Altri ricavi ed oneri

Si riportano qui di seguito i dettagli delle voci interessi attivi su disponibilità liquide, altri ricavi e altri oneri:

Descrizione	Importi
Interessi attivi su disponibilità liquide	953.002
- C/C in Euro	918.945
- C/C in Dollaro Statunitense	25.369
- C/C in Sterlina Regno Unito	8.384
- C/C in Dollaro Canadese	249
- C/C in Dollaro Neozelandese	47
- C/C in Dollaro Australiano	6
- C/C in Yen Giapponese	2
Altri ricavi	10.353
- Sopravvenienze attive	9.062
- Ricavi vari	1.291
Altri oneri	-27.962
- Commissione su contratti regolati a margine	-23.751
- Interessi passivi e spese su CSA	-611
- Spese bancarie	-2.418
- Sopravvenienze passive	-1.101
- Spese varie	-81
Totale	935.393

Parte D - Altre informazioni

1. OPERATIVITÀ POSTA IN ESSERE PER LA COPERTURA DEI RISCHI DI PORTAFOGLIO

Si riportano qui di seguito i dati riepilogativi dell'operatività posta in essere per la copertura dei rischi di portafoglio:

Concluse alla chiusura del periodo:

Descrizione	Sottostante	Divisa	Quantità
FUTURES SU TITOLI DELLO STATO	BTPS 23/11.33 4.35%	EUR	390

INTEREST RATE SWAP	IRS	EUR	7.000.000	1	1

2. INFORMAZIONE SUGLI ONERI DI INTERMEDIAZIONE

Nell'esercizio sono stati corrisposti oneri di intermediazione esplicitati dalle controparti e relativi ad operazioni effettuate in strumenti finanziari. Tali oneri sono stati così riconosciuti alle seguenti categorie di intermediari:

	Soggetti non appartenenti al gruppo	Soggetti appartenenti al gruppo	Totale
Banche italiane	24	22.817	22.841
SIM			
Banche e imprese di investimento estere	444		444
Altre controparti	466		466

3. INFORMAZIONE SULLE UTILITÀ RICEVUTE

La SGR assorbe direttamente i costi connessi alla ricerca in materia di investimenti relativi ai prodotti gestiti al fine di mantenere inalterato il livello di qualità e di valore per tutti gli investitori, evitando di addebitare tali oneri al patrimonio gestito.

La SGR considera comunque ammissibili le seguenti tipologie di benefici non monetari di minore entità:

a) le informazioni o la documentazione relativa a uno strumento finanziario o a un servizio di investimento di natura generica ovvero personalizzata in funzione di uno specifico cliente;

- b) il materiale scritto da terzi, commissionato e pagato da un emittente societario o da un emittente potenziale per promuovere una nuova emissione da parte della società, o quando l'intermediario è contrattualmente impegnato e pagato dall'emittente per produrre tale materiale in via continuativa, purché il rapporto sia chiaramente documentato nel materiale e quest'ultimo sia messo a disposizione di qualsiasi intermediario che desideri riceverlo o del pubblico in generale nello stesso momento;
- c) partecipazione a convegni, seminari e altri eventi formativi sui vantaggi e sulle caratteristiche di un determinato strumento finanziario o servizio di investimento;
- d) ospitalità di un valore de minimis ragionevole, come cibi e bevande nel corso di un incontro di lavoro o di una conferenza, seminario o altri eventi di formazione di cui alla lettera c).

5. TURNOVER

Il tasso di movimentazione del portafoglio del Fondo (c.d. turnover), espresso dal rapporto percentuale tra la somma degli acquisti e delle vendite di strumenti finanziari, al netto delle sottoscrizioni e rimborsi delle quote del Fondo, e il patrimonio netto medio del Fondo, nell'esercizio è stato pari a 236,5%.

TRASPARENZA DELLE OPERAZIONI DI FINANZIAMENTO TRAMITE TITOLI (SFT) E TOTAL RETURN SWAP ED EVENTUALE RIUTILIZZO

Con riferimento all'obbligo previsto dall'art. 13 comma 1 lett. a. del Regolamento UE 2015/2365 (Regolamento SFT) sulla trasparenza delle operazioni di finanziamento tramite titoli e dei total return swap, si informa che il Fondo non presenta posizioni in essere, relative a operazioni di Prestito titoli, Pronti contro termine, Repurchase transaction e Total return swap, alla data di riferimento della presente relazione e non ha fatto ricorso a tali operazioni nel periodo di riferimento della stessa.

Pertanto non sono rappresentate le informazioni previste alla sezione A dell'allegato del citato Regolamento UE.
