MANAGEMENT'S REPORT

Financial Market Review October 2023 - September 2024⁽¹⁾

Macro

The final quarter of 2023 featured a backdrop of strong growth, resilient labor markets, steady disinflation progress across major economies, and emerging signals from major central banks around a shift towards less restrictive monetary policy. Lower yields fuelled a rally in risk assets, headlined by strong performance across equities, credit, and government bonds. Shifting towards the first half of 2024, continued signs of improvement in global manufacturing data, robust labor markets, a resilient US economy, and expectations of policy easing by major central banks further supported investor risk appetite. Early in the first half of 2024, while the growth outlook remained benign, inflation, especially in the US, raised some concerns due to a few downside surprises in key inflation prints. However, the US began to see disinflationary progress once again in the second quarter of 2024, providing both the US Federal Reserve (Fed) and investors with renewed confidence in the path ahead following the string of higher-than-expected prints to start of the year. US Core PCE (Personal Consumption Expenditures Price Index, Excluding Food and Energy) averaged 0.17% in April and May versus an average reading of 0.37% in the first quarter of 2024. This progress, combined with strong earnings growth, and expectations of policy easing by major central banks supported momentum in risk assets.

In July 2024, the macro backdrop remained fluid with slight moderation in global manufacturing/services activity, but continued disinflation progress in the US. Then, in August 2024, financial markets were jolted by a weaker than expected US jobs print in August. The print, headlined by the US national unemployment rate (U3) rising from 4.1% to 4.3%, triggering the Sahm Rule, which indicates that the US economy has moved into recession territory whenever the 3-month moving average of the U3 unemployment rate rises by more than 0.5% from its 12-month low. As a result, panic ensued among market participants, leading to sell-off in equities and rally in safe-haven assets like US treasuries and the Japanese Yen. However, the shock proved to be short-lived as a string of data releases over the next few days and weeks provided better comfort around the strength of the US economy and labor market. September was an eventful month, as two of the biggest central banks, the Fed and People's Bank of China (PBoC), helped ease monetary policy by lowering interest rates to support domestic economies. The Fed cut its policy rate by 50bps, marking the first US rate cut since March 2020.

Monetary Policy

2023 ended with a noticeable slowdown in global inflation, leading to a somewhat dovish stance from major central banks that carried over into the final quarter of 2023. Strong disinflation progress and continued resilience in the labor market led many to gain further confidence in the possibility of a soft landing. Despite many investors coming into the year with expectations for an earlier and swifter start to central bank easing cycles, many of these central banks, including the Fed, tilted hawkish at the start of 2024 as inflation surprised to the upside and the strong economy gave policymakers the option to be patient around the onset of their policy easing cycle. Elsewhere, the Swiss National Bank surprised markets in March and cut policy rates by 25bps, becoming the first G10 central bank to start easing. In Asia, the BoJ paved its own path and decided to end its negative interest rate policy at its March meeting.

In the June of 2024, the European Central Bank and the Bank of Canada started their respective easing cycles, both cutting their respective policy rates by 25bps. Continued moderation in the US inflation over the summer, paired with added stress around the sustainability of the US labor market, meant that the Fed could start its much-awaited easing cycle in September. The post-meeting statement indicated that the Federal Open Market Committee (FOMC) was "strongly committed to supporting maximum employment" alongside the 2% inflation target and that the risks to the Committee's dual-mandate goals were roughly in balance. In Europe, the European Central Bank (ECB) cut the policy rate by 25bps in September, as expected, and left economic forecasts largely unchanged. In China, the PBoC announced a slew of policy measures in September to boost activity in general and property market in particular. Amid all the easing, the Bank of Japan (BoJ), which had been gradually tightening monetary policy, decided to leave policy rate unchanged in September.

Bond Markets

In the final quarter of 2023, US, UK, and German 10-year yields were down 70bps, 90bps, and 90bps respectively. In FX, the USD was down 3% as a dovish Fed weighed on the USD. CHF and JPY were up 9% and 6% respectively vs the USD, while the EUR and GBP were each up 4%. In summary, market performance in Q4 2023 was underscored by a classic reaction to lower inflation and dovish monetary policy. Both credit and government bonds rallied, whereas the USD sold off. Moving towards the start of 2024, bond yields climbed higher as recession fears continued to ease and US inflation surprised to the upside. The US 10Y yield rose by 35bps to 4.2% in Q1 2024, following a decline of 70bps in Q4 2023. Yields were modestly higher in the second quarter of 2024, with the yield on the US 10Y up by 15bps. This increase was largely concentrated in April in response to strong labor market and inflation data. Subsequently, as inflation and activity data moderated, the yield on the 10Y declined in May and June. In France, the 10Y yield was 55bps in the second quarter of 2024 as the market priced in a higher term premium given increased political uncertainty.

In rates, yields declined in July on the back of weaker US inflation data and a softening labor market. The US 10Y yield was down by 25bps whereas German and UK 10Y yields were down 20bps each. The US 10Y yield went as low as 3.65% in September following the weak jobs numbers leading the market to price in a greater probability of a 50bps cut in September and more than 100bps of cuts in 2024. Nonetheless, the US 10Y yield rebounded following the Fed's September meeting on the back of a string of more optimistic economic prints.

Equity Markets

Global developed market equities (MSCI World) and emerging market equities (MSCI EM) were up 10% and 8% respectively in the final quarter of 2023. Within developed market equities, US equities (S&P 500) led the way with a rally of 12% in the quarter, whereas Euro area equities (Euro Stoxx 50) gained 9%. Global developed market equities also started 2024 on a strong footing with significant gains in Q1 2024 following a strong end to 2023, with several equity indices reaching new all-time highs. Continued signs of improvement in global manufacturing activity, a resilient US economy, and still strong expectations of policy easing by major central banks in 2024 supported risk appetite for many equity investors. In the second quarter of 2024, global developed market equities and emerging market equities were up by 3.2% and 6.4%, respectively, following gains of 10% and 4.5% in Q1 2024. Within developed market equities, US equities outperformed their peers once again with a gain of 4.5% in Q2 2024, whereas Japanese equities were up by 1.7%. Euro area equities were down by 1.3% following increased uncertainty around major elections in June. Elsewhere, Chinese equities rallied at the start of 2024, outperforming most developed and emerging equity markets, but began to retreat in June.

Global developed market equities experienced modest positive returns in July, although weaker European data and a stronger JPY weighed on European and Japanese equities. In the US, a few disappointing earnings results began to cast doubts on the durability of the mega cap tech names and the future reliability of the hype around artificial intelligence. This led to a significant rotation away from mega-caps names into small-caps—the outperformance of the Russell 2000 over the NASDAQ was the largest in any month since February 2001. August saw small gains for global developed market equities and emerging market stocks. However, at their worst on 5 August - as volatility increased due to macro uncertainty - both MSCI World and MSCI EM were down 6.9% and 4.9% before staging a comeback. This uncertainty led defensive sectors like consumer staples and healthcare to outperform in the US. September saw developed market equities and emerging market equities post gains of 1.5% and 5.7% respectively. US equities outperformed, posting a gain of 2.1%, followed up by Euro area equities, which rallied 0.9%. Conversely, Japanese equities underperformed as a stronger JPY weighed on equity market performance. The MSCI China index however, delivered a significant +23% return in September with almost all these gains coming after government officials announced significant stimulus plans on 24 September.

Luxembourg, 16 October 2024

DIRECTOR REPORT

Corporate Governance Statement

Introduction

The Board of Directors of the Company (the “Board”) is committed to maintaining high standards of corporate governance and as such has adopted the principles set out in the Association of the Luxembourg Fund Industry (“ALFI”) Code of Conduct Revision 2022 (the “Code”) issued by ALFI in June 2022 which sets out principles of good governance.

The Board considers that the Company has been in compliance with the principles of the Code in all material aspects for the year ended 30 September 2024. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

The principles of the Code are set out below:

1. The Board should adopt clear and transparent standards of corporate governance.
2. The Board should have good professional standing and appropriate experience and use best efforts to ensure that it is collectively competent to fulfil its responsibilities.
3. The Board should act fairly and independently in the best interests of the investors;
4. The Board should act with due care and diligence in the performance of its duties;
5. The Board should ensure compliance with all applicable laws and regulations and with the Fund’s constitutional documents;
6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled;
7. The Board should ensure that an effective risk management process and appropriate internal controls are in place;
8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure;
9. The Board should ensure that Shareholder rights are exercised in a considered way and in the best interests of the Fund;
10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed;
11. The Board should integrate as appropriate sustainability standards and objectives including environmental, social and governance (ESG) criteria in its business model and operations.

Board Composition

The Board currently consists of two Independent Non-Executive Directors and four Executive Directors. The Board defines an Executive Director as someone who is employed by the Goldman Sachs Group, Inc. or any of its affiliates, and an Independent Non-Executive Director as someone who is free of any business, family or other relationship with the Fund or Goldman Sachs Group, Inc. or any of its affiliates. All Board meetings require a majority of Independent Non-Executive Directors to be in attendance.

Article 13 of the Company’s Articles of Incorporation in accordance with Luxembourg law, provides that Directors shall be elected by the shareholders at their annual general meeting for a period ending at the next annual general meeting and until their successors are elected.

Directors receive induction training upon appointment, as well as receive regular ongoing training updated and briefings incorporating all relevant information regarding the Company to facilitate the Director fulfilling his or her duties responsibilities as a Director. The Company’s policy is to encourage Directors to keep up to date with

developments relevant to the Company. The Directors have attended and will continue to attend updates and briefings run by Goldmans Sachs Group, Inc. or its affiliates. The Directors also receive regular briefings from, amongst others, auditors, investment specialists, risk specialists, depositary and legal advisers regarding any proposed product developments, changes in laws or regulations and market practice that could affect the Company.

In addition to the full Board of Directors there is an Audit Committee who are primarily responsible for overseeing the quality and integrity of the financial reporting process, along with a review of any external auditor's findings and review of compliance of legal and regulatory requirements that have a material effect on the financial statements. The Audit Committee will report to the full Board of Directors on a regular basis and will also identify any matters within its mandate which would require further action/attention by the Board.

Board's Responsibilities

The Board meets at least quarterly and on an ad hoc basis as required. The Board is supplied with information in a timely manner and of a quality appropriate to enable it to discharge its duties. The Board reserves to itself decisions relating to the determination of investment policy and objectives, any change in investment strategy, entering into any material contracts, any change in board membership, any change of external auditor and any significant change in accounting policies or practices.

The Directors have access to the advice and services of external counsel and the resources of the Goldman Sachs Group, Inc. including, but not limited to, investment specialists, risk specialists and various infrastructure teams. Where necessary, in the furtherance of their duties, the Board and individual Directors may seek independent professional advice.

The Board are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds.

In fulfilment of this responsibility, the Board have appointed Goldman Sachs Asset Management B.V. ("GSAMBV") as its Management Company, which has delegated the administration of the adequate accounting records to Brown Brothers Harriman (Luxembourg) S.C.A..

The Directors are also responsible for safeguarding the assets of the Company and in fulfilment of this responsibility they have contracted the assets of the Brown Brothers Harriman (Luxembourg) S.C.A. (the "Depositary") for safekeeping in accordance with the Memorandum Prospectus and Articles of Association of the Company. They are also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board exercise these functions, inter alia, to fulfil their responsibility of overseeing the management of the Company and in their fiduciary duty to represent the interest of shareholders.

Remuneration

Ms. Grainne Alexander and Ms. Sophie Mosnier are independent Directors and have no executive function with the Investment Manager or its affiliated companies. The Fund pays each independent Director an annual fee for their services as a Director of the Fund. For the year ended 30 September 2024, the total Directors' fees amounted to EUR 120,668.

Mr. Jonathan Beinner, Mr. Dirk Buggenhout, Mr. Jan Jaap Hazenberg and Ms. Hilary Lopez are affiliated with the Investment Manager and receive no compensation from the Fund.

Communication with Shareholders

The Board is responsible for convening the annual general meeting and all other general meetings of the Company.

Notice of general meetings is issued in accordance with the Articles of Incorporation of the Company and notice of the annual general meeting is sent out at least 8 days in advance of the meeting.

The next Annual General Meeting of Shareholders will be held on 23 January 2025 and shareholders will be asked to consider the usual matters presented at such meeting including:

- Approval of the financial statements & the payment of dividends
- The approval of Directors fees
- The election or re-election of directors
- The election or re-election of the auditor

The proceedings of general meetings are governed by the Articles of Incorporation of the Company.

Audit report

To the Shareholders of
Goldman Sachs Funds III

Our opinion

In our opinion, the accompanying annual accounts give a true and fair view of the financial position of Goldman Sachs Funds III (the “Fund”) and of each of its sub-funds as at 30 September 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts.

What we have audited

The Fund’s annual accounts comprise:

- the statement of net assets as at 30 September 2024;
- the statement of operations for the year then ended;
- the statement of changes in net assets for the year then ended;
- the schedule of investments as at 30 September 2024; and
- the notes to the annual accounts, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the annual accounts” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the annual accounts. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information stated in the annual report but does not include the annual accounts and our audit report thereon.

Our opinion on the annual accounts does not cover the other information and we do not express any form of assurance conclusion thereon.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In connection with our audit of the annual accounts, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the annual accounts or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors for the annual accounts

The Board of Directors is responsible for the preparation and fair presentation of the annual accounts in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the annual accounts, and for such internal control as the Board of Directors determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the Board of Directors is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the annual accounts

The objectives of our audit are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual accounts.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the annual accounts, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors;

- conclude on the appropriateness of the Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Goldman Sachs Multi Asset Factor Opportunities, Goldman Sachs Emerging Markets Corporate Debt (Former NN), Goldman Sachs Emerging Markets Debt Short Duration (Hard Currency) and Goldman Sachs Emerging Markets Debt (Local Currency) where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the annual accounts, including the disclosures, and whether the annual accounts represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Other matter

In addition to our responsibility to audit and express an opinion on the annual accounts in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we have been requested by the Board of Directors to express an opinion on the annual accounts in accordance with generally accepted auditing standards in the United States of America as issued by the AICPA, in order to meet the requirements of Rule 206(4)-2 of the US Investment Advisors Act of 1940. We have reported separately in this respect on Page 19.

Luxembourg, 19 December 2024

Audit Report

To the Board of Directors of
Goldman Sachs Funds III

Opinion

We have audited the accompanying financial statements of Goldman Sachs funds III (the "Fund"), which comprise the statement of net assets and the schedule of investments as at 30 September 2024 and the related statement of operations and the statement of changes in net assets for the year then ended, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as of 30 September 2024 and the results of its operations, changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern for at least, but not limited to, twelve months from the end of the reporting period, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg
T : +352 494848 1, F : +352 494848 2900, www.pwc.lu*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

In performing an audit in accordance with US GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit;
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control. Accordingly, no such opinion is expressed;
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by the Board of Directors of the Fund, as well as evaluate the overall presentation of the financial statements;
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information

The Board of Directors of the Fund is responsible for the other information included in the annual report. The other information comprises the information included in the annual included but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

NOTES TO THE FINANCIAL STATEMENTS

1 Organisation

Goldman Sachs Funds III (the "Fund" or the "Company") is a "Société d'Investissement à Capital Variable" ("SICAV") incorporated on 6 September 1993 for an unlimited period as a société anonyme (public limited company), governed by Part I of the Luxembourg law of 17 December 2010 on undertakings for collective investment, as amended.

The Memorandum and Articles of Association of the Company were published in the "Mémorial C, Recueil Spécial des Sociétés et Associations" of the Grand Duchy of Luxembourg and filed with the Register of the Luxembourg District Court where they may be consulted and copies may be obtained upon payment of registry fees.

The Fund is registered with the Luxembourg Register of Companies under number B 44 873.

As at 30 September 2024, the Fund offered shares in the sub-funds as detailed in the prospectus.

Investment Objectives

Shareholders are advised that detailed investment policies of each sub-fund are described in the prospectus, which is made available to the shareholders at the Company's website and at the Company's registered office identified in this report. The prospectus will also be sent free of charge to anyone who so requests.

Information on Environmental, Social and Governance is available in the Other information to shareholders (unaudited) under the Sustainable Finance Disclosure Regulation (SFDR) Classification section.

The following sub-funds are invested in other sub-funds of the Fund. As at 30 September 2024, such investments are as follows:

Investing sub-fund	Investee sub-fund	Investments at market value as at 30 September 2024
Goldman Sachs Emerging Markets Debt (Hard Currency)	Goldman Sachs Emerging Markets Corporate Debt (Former NN)	105,071,071.81 USD
Goldman Sachs Emerging Markets Debt (Hard Currency)	Goldman Sachs Emerging Markets Debt Short Duration (Hard Currency)	97,606,853.39 USD
Goldman Sachs Emerging Markets Debt (Hard Currency)	Goldman Sachs Frontier Markets Debt (Hard Currency)	242,088,897.45 USD
Goldman Sachs Euro Bond	Goldman Sachs AAA ABS	14,909,114.25 EUR
Goldman Sachs Euro Bond	Goldman Sachs European ABS	15,058,455.43 EUR
Goldman Sachs Euro Long Duration Bond	Goldman Sachs European ABS	5,725,412.32 EUR
Goldman Sachs Global High Yield (Former NN)	Goldman Sachs US High Yield	110,526,365.31 EUR
Goldman Sachs Global High Yield (Former NN)	Goldman Sachs Europe High Yield (Former NN)	55,603,063.38 EUR

The combined statements were calculated on the basis of aggregation of individual sub-fund's statements with no elimination of cross-investments if any. As of 30 September 2024, the cross-investments within the Fund represent EUR 600,333,483.78 or 1.60% of the combined net assets.

Changes

On 6 November 2023, the sub-fund Goldman Sachs Asia Equity Growth & Income has changed the name to Goldman Sachs Asia Equity Income.

On 6 November 2023, the sub-fund Goldman Sachs Global Energy Equity has changed the name to Goldman Sachs Global Environmental Transition Equity.

On 27 November 2023, the sub-fund Goldman Sachs Eurozone Equity Income has absorbed Goldman Sachs Eurozone Equity Growth & Income. As per 30 September 2024, the cash balance in base currency of the absorbed fund amounted to EUR 7,695.23.

On 6 December 2023, the sub-fund Goldman Sachs Global Social Impact Equity has absorbed Goldman Sachs Global Banking & Insurance Equity, Goldman Sachs Global Food & Beverages Equity and Goldman Sachs Global Health Care Equity. As per 30 September 2024, the cash balance in base currency of the absorbed fund Goldman Sachs Global Banking & Insurance Equity amounted to ILS 5,487.38.

On 8 December 2023, the sub-fund Goldman Sachs Global Real Estate Equity (Former NN) has absorbed Goldman Sachs Europe Real Estate Equity. As per 30 September 2024, the cash balance in base currency of the absorbed fund amounted to EUR 8,940.42.

On 8 December 2023, the sub-fund Goldman Sachs USD Green Bond has absorbed Goldman Sachs US Factor Credit.

On 19 January 2024, the sub-fund Goldman Sachs Global Convertible Bond was liquidated. As per 30 September 2024, the bank overdraft in base currency of the sub-fund amounted to USD 3.00.

On 15 March 2024, the sub-fund Goldman Sachs Global Convertible Bond Opportunities was liquidated. As per 30 September 2024, the bank overdraft in base currency of the sub-fund amounted to USD 18,056.21.

On 29 July 2024, the sub-fund Goldman Sachs Asia High Yield (Former NN) was liquidated. As per 30 September 2024, the cash balance in base currency of the sub-fund amounted to USD 34,555.56.

On 25 September 2024, the sub-fund Goldman Sachs Europe Sustainable Small Cap Equity has absorbed Goldman Sachs BENE Opportunities Equity.

Update on Russian Investments

Since the outbreak of the Russia-Ukraine war, which started on 24 February 2022, the international economic and financial sanctions imposed against Russia have led to liquidity concerns in financial markets in general and for Russian, Ukrainian and Belarussian markets in particular.

As all sub-funds, except for the following, have no direct investments in these countries, the impact is limited:

- Goldman Sachs Emerging Europe Equity
- Goldman Sachs Emerging Markets Enhanced Index Sustainable Equity
- Goldman Sachs Emerging Markets Equity Income
- Goldman Sachs Global Flexible Multi-Asset
- Goldman Sachs Global Inflation Linked Bond

Goldman Sachs Emerging Europe Equity

The exposure of investment in Russia by Goldman Sachs Emerging Europe Equity ("sub-fund") is significant and resulted in suspension of NAV on 1 March 2022. The sub-fund was put into liquidation with effect from 24 June 2022. The liquidation was triggered by the impact of the Russia-Ukraine conflict, which caused exceptional market circumstances, thereby preventing the Company from valuating and trading some of its assets as well as determining the sub-fund's net asset value in a reasonable manner. While the assets representing the majority proportion of the sub-fund's net asset value have been sold, and the Company is proactively acting on opportunities to sell the remaining holdings, the current portfolio contains holdings that still cannot be traded due to the on-going conflict. Therefore, Commission de Surveillance du Secteur Financier ("CSSF") has granted an extended wind-down phase, which will be followed by the closing of the liquidation of the sub-fund once all remaining assets have been sold.

In April 2024, the sub-fund was able to sell some holdings in the portfolio, resulting in distribution to shareholders. Previous distribution took place in July 2022. The sub-fund will continue to monitor the situation and proactively act on opportunities to sell any of the remaining holdings on an ongoing basis, considering the regulatory environment and the best interest of Shareholders, and distribute the proceeds when applicable.

The impact for the other listed sub-funds is limited. The Board of Directors is continuously monitoring the developments and will always strive to act in the best interest of its funds' shareholders.

Valuation of Russian shares

During the reporting year, Russian shares could not be traded and were valued at zero except for the securities sold off in April 2024 for the Goldman Sachs Emerging Europe Equity. The situation on the Russian stock market has not changed significantly and the current portfolio contains holdings that still cannot be traded.

As at 30 September 2024, the following sub-funds held restricted cash denominated in Russian Rouble, which was valued at zero and is not part of the NAV of the sub-funds:

Sub-fund name	Value in RUB	Value in EUR
Goldman Sachs Emerging Europe Equity	RUB 21,313,750.00	EUR 205,073.40
Goldman Sachs Emerging Markets Enhanced Index Sustainable Equity	RUB 39,976,987.50	EUR 384,644.50

Goldman Sachs Global Convertible Bond Opportunities

Upon the liquidation of the sub-fund Goldman Sachs Global Convertible Bond Opportunities, all compulsory redemptions were processed on trade date 15 March 2024 and the associated proceeds were paid to investors with value date 20 March 2024, all with the exception of the shares of 1 investor due to OFAC sanctions. As a result of the sanctions, the redemption of these shares could not be processed, and these shares will therefore remain listed in the Fund's TA Register. Operationally and on behalf of this investor, the value amounting USD 1,102,691.22 as per 28 March 2024 of these shares has been administered on a segregated OFAC-Blocked custody account in the name of the Fund. These shares will be redeemed, and the redemption proceeds will be paid to the investor once the investor is removed from the OFAC sanctions list.

Restatement of prior period

The financial statements for Goldman Sachs Emerging Europe Equity fund have been restated during the year ended 30 September 2024 due to several balances being materially misstated for the year ended 30 September 2023, as detailed below:

- The Other receivables and the Other Income were overstated by EUR 7,145 due to a tax reclaim wrongly reflected in the NAV in May 2023. In order to correct it, the write-off has been reflected as an Other Expenses as at 30 September 2024. The Other Expenses are understated by EUR 7,145.
- The Other liabilities were overstated by EUR 39,427 due to the recognition of a provision to cover any transaction costs (legal expenses), which the fund might incur in order to sell Russian equities. This provision was booked in June 2022 and should not have been reflected in the financial statements. In

order to reflect true and fair view of the financial statements, the write-off of this provision released during the year results in the overstatement of the Other Income as at 30 September 2024.

2 Significant Accounting Policies

2.1 Basis of Preparation of Financial Statements

The financial statements are prepared under a going concern basis of accounting and presented in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements except for Goldman Sachs Emerging Europe Equity, Goldman Sachs Asia High Yield (Former NN), Goldman Sachs Emerging Markets Corporate Debt (Former NN), Goldman Sachs Emerging Markets Debt (Local Currency), Goldman Sachs Emerging Markets Debt Short Duration (Hard Currency), Goldman Sachs Global Convertible Bond, Goldman Sachs Global Convertible Bond Opportunities and Goldman Sachs Multi Asset Factor Opportunities for which a non-going concern basis of accounting was adopted.

In accordance with the Prospectus, Total Net Assets as at 30 September 2024 reflect all capital and securities transactions until 27 September 2024 for all sub-funds of the Fund.

By way of information, if the Fund had calculated the Total Net Assets solely with a view to publication, all the capital and securities transactions traded on 30 September 2024 would have been included in the Total Net Assets as at 30 September 2024.

2.2 Operating Expenses

Operating expenses (including custody expense, fund administration expense, management fees, fixed service fees, subscription tax and other expenses) are recognised on an accrual basis. Those expenses are reflected in the Statement of Operations.

2.3 Investment Transactions and Related Investment Income

Investment transactions are recorded on a trade date basis in accounting. Realised gains and losses are based on the average cost method.

Dividends are accounted for on the ex-date. Dividend income are recognised on a gross basis before withholding tax, if any.

Interest is accrued on a daily basis.

Interest income includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment.

2.4 Transaction Costs

In case of investments in the shares/units of other UCITS and/or other UCIs that are managed directly or by delegation by the Management Company (the "GSAM funds"), no transaction costs are applicable.

Please refer to Note 12 for details of the sub-funds that incurred separately identifiable transaction costs. Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each sub-fund.

2.5 Due to/from Brokers

These accounts represent the amount that the sub-fund owes to brokers ("Due to Brokers") or that brokers owe to sub-fund ("Due from Brokers"). The due to/from brokers relates to cash held at brokers and/or counterparties for derivative contracts.

2.6 Expenses Payable

This account represents the expenses that still have to be paid on the balance sheet date. These may include various costs that the Fund has to incur, such as, but not limited to, Fixed service fee payable or Subscription tax payable.

2.7 Financial Investment in Securities and Valuation

2.7.1 Recognition

The sub-funds recognise financial assets and financial liabilities on the date they become a party to the contractual provisions of the investment. Purchases and sales of financial assets and financial liabilities are recognised using trade date accounting. From trade date, any unrealised gains and losses arising from changes in value of the financial assets or financial liabilities are recorded in the Statement of Operations.

2.7.2 Value Measurement Principles

The value of all securities and derivatives is determined according to the following policies:

Exchange Listed Assets and Liabilities

The value of exchange traded financial investments, including transferable securities admitted to an official listing or to any other regulated market are valued at the last known prices. If these transferable securities are traded on several markets, the valuation is made on the basis of the last known price on the main market on which the transferable securities are listed.

Debt Securities

Debt securities, comprising bonds, are valued clean (excluding interest receivable). The last known price used for the bonds is the bid price.

Money Market Investments

The Fund's valuation methodology for money market investments meets the requirements of money market fund regulation (MMFR) that came into effect as of 21 January 2019. The valuation model determines that the MMF valuation shall be valued on a daily basis. The assets of the Fund shall be valued by using mark-to-market whenever possible and the asset of the Fund shall be valued at the more prudent side of bid and offer unless the asset can be closed out at mid-market. The Fund shall calculate a NAV per unit or share as the difference between the sum of all assets of the MMF and the sum of all liabilities of the MMF valued in accordance with mark-to-market or mark-to-model, or both, divided by the number of outstanding units or shares of the MMF. For the year ended 30 September 2024, no mark-to-model is used by the Fund.

Shares in Collective Investment Schemes

The value of investments in open-ended investment funds are valued based upon the official net asset values per share as at the last available date as supplied by the funds, in accordance with the valuation policy of the applicable fund as outlined in its prospectus.

Realised gains and losses on securities portfolio are calculated on the basis of the average cost of securities sold.

Derivatives

A derivative is an instrument whose fair value is derived from an underlying instrument, index reference rate or a combination of these factors. Derivative instruments may be privately negotiated contracts which are often referred to as over the counter ("OTC") derivatives or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments or commodities at specified

terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative contracts are stated at fair value and recognized as financial assets and financial liabilities on the Statements of Net Assets. Gains and losses resulting from the change in the fair value are reflected on the Statements of Operations as a component of change in unrealised gain/(loss). Realised gains or (losses) are recorded on termination or from periodic cash flow payments.

Forward Foreign Currency Contracts

The forward foreign exchange contracts represent obligations of purchase or the sale of foreign currency on the basis of future exchange rates determined at a fixed price at the time of conclusion of the contracts. The unexpired forward foreign exchange contracts are valued at the last "forward" rate available on the valuation dates or at the balance sheet date and unrealised appreciation or (depreciation) are recorded. Positive fair values of forward foreign exchange contracts are disclosed as assets and negative fair values as liabilities in the Statement of Net Assets. Realised gains or (losses) and changes in unrealised results are recorded in the Statement of Operations.

Futures Contracts

Futures contracts are valued based on the last available market price. Initial margin deposits are made upon entering into futures contracts. Variation margin payments are made or received, depending on the daily fluctuation in market value of the contract and are recorded by the fund as unrealised appreciation and depreciation. Positive fair values of futures instruments are disclosed as assets and negative fair values as liabilities in the Statement of Net Assets. Realised gains or (losses) and changes in unrealised results are recorded in the Statement of Operations. For the calculation of net holdings by currency on financial instruments, the holdings are converted at the exchange rate prevailing at the year-end.

Option Contracts

Option contracts quoted on an official stock exchange or on another regulated market are valued according to the last known market price or, if there are several markets, according to the last known price of the principal market. Option contracts not quoted on an official stock exchange or on another regulated market are valued at their last known market value or, in the absence of a market value, according to their probable market value in the reasonable estimation of the Board of Directors of the Fund.

Positive fair values of option instruments are disclosed as assets and negative fair values as liabilities in the Statement of Net Assets. Realised gains or (losses) and changes in unrealised results are recorded in the Statement of Operations.

Swap Contracts

Swaps are, in general, contracts by which two parties commit themselves during a given period to exchange two flows, one in exchange of the other, determined on the basis of a nominal value. The flows may be linked to interest rate(s), exchange rate(s), share(s), index(es) or credit event(s). Swap contracts are valued using the difference between the values of forecasted flows the counterparty is to pay to the sub-fund and those owed by the sub-fund to its counterparties. Swaps are valued on the basis of their market value, which depends on several parameters (level of the index, market interest rate, remaining life of the swap).

Positive fair values of swap instruments are disclosed as assets and negative fair values as liabilities in the Statement of Net Assets. Realised gains or (losses) and changes in unrealised results are recorded in the Statement of Operations.

Swaps are valued clean (excluding interest receivable/payable). Interest to be received on swaps is included in the item "Accrued interest receivable". Interest to be paid on swaps is included in the item "Investment interest payable".

All Securities and Derivatives

If a quoted market price is not available from a third party pricing service or a dealer, or a quotation is believed to be materially inaccurate, the market value of the investment is determined by using valuation techniques. Valuation techniques include the use of recent market transactions, reference to the current market value of another investment that is substantially the same, discounted cash flow analyses or any other techniques that provides a reliable estimate of prices obtained in actual market transactions. Such securities and derivatives shall be valued at their fair value as determined by the Valuer. The Valuer also has direct responsibilities to the Board of Directors for certain valuation functions, which are ultimately reflected in the financial statements. The Valuer during the year ended 30 September 2024 was GSAM B.V. Product Controllers Division ("Controllers").

The investments have been valued in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements that may require the use of certain estimates and assumptions to determine value. Although these estimates and assumptions are based on the best available information, actual results could be materially different from these estimates.

2.8 Cash

Cash is valued at cost, which approximates market value.

Cash in currencies other than the reference currency of the sub-fund is converted into reference currency at the foreign exchange rate prevailing on the date of valuation. Foreign currency exchange differences arising on translation are recognised in the Statement of Operations and Changes in Net Assets as realised gains or (losses) on currency.

2.9 Other Assets

This account mainly includes miscellaneous interest receivables.

2.10 Other Liabilities

This account mainly includes accrued tax payable, transaction expense payable and Indian capital gains equivalent tax payable.

2.11 Other Income

This account mainly includes consent payment income, Central Securities Depositories Regulations (CSDR) cash penalties income, SEC litigation income proceeds and income on cash held away.

2.12 Other Expenses

This account mainly includes Central Securities Depositories Regulations (CSDR) cash penalties expense, investment interest expenses on cash collateral, Indian capital gain tax expense, Italian substitute tax expense, depositary receipt fees expense and transaction expense.

2.13 Foreign Currency Translation

The books and records of all sub-funds are maintained in their base currency. Transactions in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into base currency at the foreign currency closing exchange rate in effect at the year end date.

Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of assets and liabilities are recognised in the Statement of Operations. Foreign currency exchange gains or losses relating to investments, derivative financial investments, and all other foreign currency exchange

gains or losses relating to monetary items, including cash and cash equivalents, are reflected in the net realised gain/(loss) or net change in unrealised gain/(loss) in the Statement of Operations.

2.14 Swinging Single Pricing

A sub-fund may suffer "dilution" of its net asset value per share because the price at which investors subscribe or redeem shares of the sub-fund, does not reflect the dealing and other costs that arise when trading is undertaken by the Investment Manager to accommodate the cash inflows or outflows related to these subscriptions or redemptions.

In order to counter this impact, a Swinging Single Pricing mechanism (SSP) may be applied to compensate expected transaction costs resulting from the difference between capital inflows and outflows. If on any valuation day, the aggregate net transactions in shares of a sub-fund exceed a pre-determined threshold, the net asset value per share may be adjusted upwards or downwards to compensate expected transaction costs related to these net capital inflows or outflows respectively by a pre-determined swing factor. The net inflows and net outflows will be determined by the Board of Directors based on the latest available information at the time of calculation of the net asset value per share.

Such predetermined threshold and swing factors are reviewed on a regular basis and may be adjusted. The maximum Swing Factor is 1.50% of the respective sub-fund's Net Asset Value except for sub-funds investing in fixed income instruments which may apply a maximum Swing Factor of 3.00%.

In exceptional market circumstances, in the case of large volumes of subscription, redemption or conversion requests that may have an adverse effect on the interests of Shareholders, the Board of Directors may, at its own discretion, authorize a temporary increase of a Swing Factor beyond the maximum Swing Factor. Exceptional market circumstances can be characterized among others as periods of increased market volatility, lack of liquidity, challenges in dealer intermediation, disorderly trading conditions, dislocated markets, disconnect between market pricing and valuations and could be the result of force majeure (acts of war, industrial action, civil unrest or cyber sabotage, among others).

For an individual sub-fund an applicable threshold could mean SSP is not or rarely applied. The current levels of thresholds and Swing Factors for each sub-fund are disclosed and updated on the website: <https://am.gs.com>.

The net assets value per share as disclosed in the statistical information is the published net asset value per share, whereas the total net assets disclosed in the Statement of Net Assets, Statement of Operations and Changes in Net Assets and summary of net assets is the total net asset value including any period end swing adjustments.

Refer to the Statement of Assets and Liabilities and the Statement of Changes in Net Assets for the sub-funds that applied swing pricing. As at 30 September 2024, a swing factor was applied only on Goldman Sachs Global Real Estate Equity (Former NN) sub-fund.

The list of sub-funds which have applied the swinging single pricing mechanism during the reporting year ended 30 September 2024 is as follows:

Sub-funds	Thresholds	Swing Factor subscriptions	Swing Factor redemptions

* Refer to Note 1 Organisation for more details.

The swing factors disclosed are the current applicable factors as of 30 September 2024 and may not be the actual ones that were applied during the year ended 30 September 2024.

3 Taxation

The Company is liable in Luxembourg to a subscription tax ("Taxe d'abonnement") of 0.05% per annum of its net assets, such tax being payable quarterly and calculated on the net asset value at the end of the relevant calendar quarter. However, this tax is reduced to 0.01% per annum on the net assets of money market sub-funds and on the net assets of sub-funds and/or Share-Classes reserved for Institutional Investors as prescribed by Article 174 (II) of the Law of 2010.

No subscription tax is paid on the assets held by the Company in other UCIs already subject to that tax in Luxembourg.

The Company may be subject to withholding taxes at varying rates on dividends, interest and capital gains, in accordance with the tax laws applicable in the countries of origin of such income. The Company may in certain cases benefit from reduced tax rates under double tax treaties which Luxembourg has concluded with other countries.

The tax reclaims are booked automatically as per tax applicable for the entity type and are booked as per occurrence of the dividend activity. Open tax reclaims on dividends are recorded under "Accrued dividend receivables" in the Statement of Net Assets.

4 Distributions

The Fund intends that substantially all the allocable net investment income, if any, of each sub-fund will be declared as a dividend and paid at least annually to the Shareholders of the Distribution Share Classes of the sub-funds. Net capital and currency gains realised on each sub-fund's investments and/or capital attributable to certain Share Classes may also be distributed to Shareholders of certain Distribution Share Classes of the sub-funds.

Please refer to the Prospectus for further details about distribution policies.

5 Management Fees

In accordance with the terms and conditions of the "Collective Portfolio Management Agreement" between Goldman Sachs Asset Management B.V. and the SICAV, the sub-funds pay Goldman Sachs Asset Management B.V. an annual management fee calculated on the average net assets of each class of shares as described in the table below. This fee is payable monthly in arrears.

As at 30 September 2024, the effective management fees rates are as follows:

Sub-funds	Management fees rate (p.a.)

* for this share class, the management fee is not charged to the share class. Instead, a specific management fee is levied and collected by the Management Company directly from the shareholders.

⁽¹⁾ On 6 November 2023, the sub-fund Goldman Sachs Asia Equity Growth & Income has changed the name to Goldman Sachs Asia Equity Income.

⁽²⁾ The sub-fund Goldman Sachs Emerging Europe Equity is in liquidation.

⁽³⁾ The sub-fund Goldman Sachs Europe Real Estate Equity was merged on 8 December 2023 and the effective management fee rate is disclosed as of the merger date.

⁽⁴⁾ The sub-fund Goldman Sachs Eurozone Equity Growth & Income was merged on 27 November 2023 and the effective management fee rate is disclosed as of the merger date.

⁽⁵⁾ The sub-fund Goldman Sachs Global Banking & Insurance Equity was merged on 6 December 2023 and the effective management fee rate is disclosed as of the merger date.

⁽⁶⁾ On 6 November 2023, the sub-fund Goldman Sachs Global Energy Equity has changed the name to Goldman Sachs Global Environmental Transition Equity.

⁽⁷⁾ The sub-fund Goldman Sachs Global Food & Beverages Equity was merged on 6 December 2023 and the effective management fee rate is disclosed as of the merger date.

⁽⁸⁾ The sub-fund Goldman Sachs Global Health Care Equity was merged on 6 December 2023 and the effective management fee rate is disclosed as of the merger date.

⁽⁹⁾ For this share class there are two different management fee rates, for Capitalisation M (EUR) - 1.08% and for Capitalisation M (USD) - 1.50%.

⁽¹⁰⁾ The sub-fund Goldman Sachs Asia High Yield (Former NN) was liquidated on 29 July 2024 and the effective management fee rate is disclosed as of the liquidation date.

⁽¹¹⁾ The sub-fund Goldman Sachs Global Convertible Bond was liquidated on 19 January 2024 and the effective management fee rate is disclosed as of the liquidation date.

⁽¹²⁾ The sub-fund Goldman Sachs Global Convertible Bond Opportunities was liquidated on 15 March 2024 and the effective management fee rate is disclosed as of the liquidation date.

⁽¹³⁾ For Capitalisation "I" the management fee rates have changed as follows:

- 0.20% until 10 October 2023, 0.27% since 11 October 2023.

⁽¹⁴⁾ The sub-fund Goldman Sachs US Factor Credit was merged on 8 December 2023 and the effective management fee rate is disclosed as of the merger date.

In the case where the sub-funds invest in the units/shares of other UCITS and/or other UCIs that are managed directly or by delegation by the Management Company or by any other company with which the Management Company is linked by common management or control or by a substantial direct or indirect holding, the management fees paid by the UCITS and/or UCIs will be deducted from the management fees paid to the Management Company.

6 Significant Agreements and Related Parties

Investment Managers and Sub-Investment Managers⁽¹⁾

The following affiliated Investment Managers have been appointed on behalf of the Company to provide portfolio management services:

- Goldman Sachs Asset Management International
- Goldman Sachs Asset Management (Singapore) Pte. Ltd.⁽²⁾

The appointment of Goldman Sachs Advisors B.V. as an affiliated Investment Manager was terminated with effect from 1 December 2023. This was due to the merger that became effective on 30 December 2023 between Goldman Sachs Asset Management B.V. (the surviving company) and Goldman Sachs Advisors B.V. (the disappearing company), whereby the latter merged into the former and ceased to exist.

The appointment of Goldman Sachs Towarzystwo Funduszy Inwestycyjnych S.A. as an affiliated Investment Manager of the Goldman Sachs Emerging Europe Equity (in liquidation) was terminated with effect from 26 February 2024 as it had ceased to provide discretionary portfolio management functions to the same.

Goldman Sachs Asset Management International has entered into a sub-delegation agreement with each of the following affiliated Sub-Investment Managers of certain sub-funds of the Company:

- Goldman Sachs Asset Management Co., Ltd.
- Goldman Sachs Asset Management, L.P.
- Goldman Sachs Asset Management (Hong Kong) Ltd.
- Goldman Sachs Asset Management (Singapore) Pte. Ltd.⁽³⁾

The following non-affiliated Investment Managers have been appointed on behalf of the Company to provide portfolio management services in respect of the below mentioned sub-funds of the Company:

Sub-funds	Non-Affiliated Investment Managers
Goldman Sachs Asia Equity Income	Nomura Asset Management Taiwan Ltd.
Goldman Sachs Emerging Markets Enhanced Index Sustainable Equity	Irish Life Investment Managers Limited
Goldman Sachs Europe Enhanced Index Sustainable Equity	Irish Life Investment Managers Limited
Goldman Sachs Global Enhanced Index Sustainable Equity	Irish Life Investment Managers Limited
Goldman Sachs Greater China Equity	Nomura Asset Management Taiwan Ltd.
Goldman Sachs North America Enhanced Index Sustainable Equity	Irish Life Investment Managers Limited

Directors' Remuneration

Ms. Grainne Alexander and Ms. Sophie Mosnier are independent Directors and have no executive function with the Management Company or its affiliated companies. The Fund pays each independent Director an annual fee for their services as a Director of the Fund. For the year ended 30 September 2024, the total Directors' fees amounted to EUR 120,668.

Mr. Jonathan Beininger, Mr. Dirk Buggenhout, Mr. Jan Jaap Hazenberg and Ms. Hilary Lopez are affiliated with the Management Company and receive no compensation from the Fund.

⁽¹⁾ Please refer to the latest Prospectus for a list of current affiliated and non-affiliated (Sub-)Investment Managers which are selected and appointed on behalf of the Company and its sub-funds including a reference to an overview of portfolio management activities to be performed by the respective (Sub-)Investment Managers.

⁽²⁾ While discretionary investment management of the Goldman Sachs Asia Equity Income and the Goldman Sachs Greater China Equity sub-funds remains with Nomura Asset Management Taiwan Ltd. ("Nomura"), trade orders from Nomura will be executed by Goldman Sachs Asset Management (Singapore) Pte. Ltd. who will have discretion over the pricing and timing of the orders.

⁽³⁾ Goldman Sachs Asset Management (Singapore) Pte. Ltd was appointed as an affiliated sub-investment manager over certain sub-funds of the Company with effect from 26 February 2024.

7 Fixed Service Fees

A fixed service fee is charged at the level of the share classes of each sub-fund. The fixed service fee is paid to the Management Company and used by the latter to pay in the name of the Company the administration fees, the depositary fees, the transfer agent fees, the Belgian subscription tax and other on-going operating and administrative expenses billed to the Company.

The fixed service fee is fixed in the sense that the Management Company will bear the excess of any expenses above the paid fixed service fee for each share class of each sub-fund.

Conversely, the Management Company will be entitled to retain any amount of service fee charged to the share class which exceeds the actual related expenses incurred by the respective share class.

This fee is calculated on the average net assets of each share class and is payable monthly in arrears.

As at 30 September 2024, the effective fixed service fees rates for the active share classes are as follows:

Sub-funds	Fixed service fees rate (p.a.)														
	Class	Class	Class	Class	Class	Class	Class	Class	Class	Class	Class	Class	Class	Class	Class

* for this share class, an additional distribution fee of 1.00% per annum is charged.

** for this share class, a service fee is charged to cover the administration and safe-keeping of assets and other on-going operating and administrative expenses.

⁽¹⁾ On 6 November 2023, the sub-fund Goldman Sachs Asia Equity Growth & Income has changed the name to Goldman Sachs Asia Equity Income.

⁽²⁾ The sub-fund Goldman Sachs Emerging Europe Equity is in liquidation.

⁽³⁾ The sub-fund Goldman Sachs Europe Real Estate Equity was merged on 8 December 2023 and the effective fixed service fee rate is disclosed as of the merger date.

⁽⁴⁾ The sub-fund Goldman Sachs Eurozone Equity Growth & Income was merged on 27 November 2023 and the effective fixed service fee rate is disclosed as of the merger date.

⁽⁵⁾ The sub-fund Goldman Sachs Global Banking & Insurance Equity was merged on 6 December 2023 and the effective fixed service fee rate is disclosed as of the merger date.

⁽⁶⁾ On 6 November 2023, the sub-fund Goldman Sachs Global Energy Equity has changed the name to Goldman Sachs Global Environmental Transition Equity.

⁽⁷⁾ The sub-fund Goldman Sachs Global Food & Beverages Equity was merged on 6 December 2023 and the effective fixed service fee rate is disclosed as of the merger date.

⁽⁸⁾ The sub-fund Goldman Sachs Global Health Care Equity was merged on 6 December 2023 and the effective fixed service fee rate is disclosed as of the merger date.

⁽⁹⁾ The sub-fund Goldman Sachs Asia High Yield (Former NN) was liquidated on 29 July 2024 and the effective fixed service fee rate is disclosed as of the liquidation date.

⁽¹⁰⁾ The sub-fund Goldman Sachs Global Convertible Bond was liquidated on 19 January 2024 and the effective fixed service fee rate is disclosed as of the liquidation date.

⁽¹¹⁾ The sub-fund Goldman Sachs Global Convertible Bond Opportunities was liquidated on 15 March 2024 and the effective fixed service fee rate is disclosed as of the liquidation date.

⁽¹²⁾ The sub-fund Goldman Sachs US Factor Credit was merged on 8 December 2023 and the effective fixed service fee rate is disclosed as of the merger date.

8 Overlay Fees

The Management Company may be entitled to receive a uniform Share-Class Overlay Fee of maximum 0.04% which is to be paid from the assets of the applicable Share-Class and based on actual costs. The Share-Class Overlay Fee is accrued at each calculation of the Net Asset Value and is set as a maximum in the sense that the Management Company may decide to lower the Overlay Fee charged to the respective Share-Class if economies of scale will allow.

The Overlay Fee is applicable to all the Currency Hedged Share-Classes. In case of Z and Zz Share-Classes those fees may be specified in the Special Agreement or Fund Management Services which will be levied and collected by the Management Company directly from the Shareholder and not charged directly to the respective Share-Class.

As at 30 September 2024, the overlay fee is 0.021%.

13 Portfolio Turnover Ratio dedicated to the Singapore market

The Portfolio Turnover Ratio is an indicator of the relevance of the additional costs incurred by a fund when buying and selling investments according to its investment policy.

Formula "Turnover" Singapore given by Singapore Authorities:

$$\text{Turnover} = \text{Min}(\text{purchases}; \text{sales}) / \text{Average Net Assets} * 100$$

Remarks:

- Derivatives and deposits are not included,
- Turnover is not annualised.

The Portfolio Turnover Ratio is expressed as a percentage. The Portfolio Turnover calculation excludes the trades instructed into Liquid Euro and Liquid Euribor 3M (sub-funds of Goldman Sachs Funds VI umbrella), which are linked to cash facility management.

As at 30 September 2024, the Portfolio Turnover Ratio is as follows:

Sub-funds	Portfolio Turnover Ratio (%)
Goldman Sachs Asia Equity Income*	97.33
Goldman Sachs Emerging Europe Equity ⁽¹⁾	46.09
Goldman Sachs Emerging Markets Enhanced Index Sustainable Equity	51.31

⁽¹⁾ The sub-fund Goldman Sachs Emerging Europe Equity is in liquidation and the portfolio turnover is calculated as of 28 February 2022.

14 Securities Lending

Under an agreement dated 26 June 2012 as amended, the Fund has appointed Goldman Sachs International Bank to act as securities lending agent for the Fund.

As from 1 January 2015, the totality of the income generated from the securities lending program is credited to the participating sub-funds. The fee structure of the securities lending activity is based on the yield generated and the revenue offered by counterparties borrowing securities. Goldman Sachs Asset Management B.V. and/or the external lending agents do not charge a management fee in that respect.

As at 30 September 2024, the sub-funds of the Fund which are mentioned below were engaged in securities lending transactions.

The value of the securities lent and the market value of the collateral received for the sub-funds is detailed in the following table:

Sub-funds	Currency	Market value of securities lent	Market value of collateral received*	Securities lending income
Goldman Sachs Europe Equity Income	EUR	2,976,702.48	3,328,230.72	18,004.01
Goldman Sachs Global Equity Income	EUR	4,547,883.30	5,058,246.69	58,601.27
Goldman Sachs Asian Debt (Hard Currency)	USD	8,264,935.36	9,377,273.47	153,581.06
Goldman Sachs Emerging Markets Corporate Debt (Former NN)	USD	3,057,910.98	3,368,377.97	42,903.68
Goldman Sachs Emerging Markets Debt (Hard Currency)	USD	241,016,769.83	280,309,823.38	888,660.86
Goldman Sachs Frontier Markets Debt (Hard Currency)	USD	24,690,744.26	28,022,655.32	212,258.24
Goldman Sachs Global Yield Opportunities (Former NN)	EUR	2,020,920.38	2,834,838.81	17,905.05
Goldman Sachs US High Yield	USD	4,951,728.06	5,737,041.00	87,031.22
Goldman Sachs Europe High Yield (Former NN)	EUR	7,194,047.72	8,404,021.73	83,065.37
Goldman Sachs Global High Yield (Former NN)	EUR	153,160,970.86	177,058,960.24	1,224,236.36

* High quality government bonds are used as collateral.

As at 30 September 2024, the authorised borrowers are the following: ABN AMRO Bank N.V., Banco Santander SA, The Bank of Nova Scotia, Barclays Capital Securities Ltd, BNP Paribas Arbitrage S.N.C., BNP Paribas Prime Brokerage International Ltd. (Ireland), BNP Paribas SA, Citigroup Global Markets Inc., Citigroup Global Markets Ltd, Credit Agricole Corporate And Investment Bank, Credit Suisse AG (Dublin Branch), Credit Suisse International, Credit Suisse Securities (Europe) Ltd, Deutsche Bank AG, Goldman Sachs International, HSBC Bank PLC, ING Bank N.V., JP Morgan Securities Plc, Merrill Lynch International, Morgan Stanley & Co International Plc, Natixis, Nomura International Plc, Skandinaviska Enskilda Banken AB., Societe Generale S.A., UBS AG, Unicredit Bank AG and Zurcher Kantonalbank.

The following sub-funds had security lending incomes throughout the period but do not have lending as of 30 September 2024:

Sub-funds	Currency	Securities lending income
Goldman Sachs Europe Equity	EUR	6,305.69
Goldman Sachs Greater China Equity	USD	78,882.08

Revenues from securities lending transactions are included in the caption "Interest income on securities lending".

15 Subsequent Events

Following the decision by GSAM to globally align swing methodology and the valuation method of financial instruments, fixed income valuation of the sub-fund/Fund will change from bid price, as used in the 2024 financial statements, to mid price. The impact of this change is expected to be immaterial for all funds except for Goldman Sachs Frontier Markets Debt (Hard Currency), which has NAV impact of 0.57%, as assessed at the closing date. Change from bid price to mid price for fixed income instruments valuation has been implemented on 16 December 2024.

On 22 November 2024, the sub-fund Goldman Sachs Multi Asset Factor Opportunities was liquidated.

On 2 December 2024, the sub-fund Goldman Sachs Emerging Markets Corporate Debt (Former NN) was liquidated.

On 2 December 2024, the sub-fund Goldman Sachs Emerging Markets Debt Short Duration (Hard Currency) was liquidated.

On 11 December 2024, the sub-fund Goldman Sachs Emerging Markets Debt (Local Currency) was liquidated.

16 Approval of Financial Statements

The Board of Directors approved the audited Annual Financial Statements on 19 December 2024.

The required Periodic Disclosures (PD) have been incorporated into the SFDR Note in the "Other information to shareholders" of the annual report for all Funds categorized as Art. 8 and Art. 9. Please note that the information in these PD contain information which is mainly sourced from the front office systems of the fund manager (Investment Book of Records) and therefore might deviate from the information in the audited section which is based on the administration of fund administrator, Brown Brothers Harriman (Luxembourg) S.C.A. (Accounting Book of Records).

* Refer to Note 1 Organisation for more details.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Product name: Goldman Sachs Emerging Europe Equity

Legal entity identifier: 549300AZ6MZXVFJCFC25

The Goldman Sachs Emerging Europe Equity sub-fund ("Sub-Fund") was put into liquidation with effect from 24 June 2022. The liquidation was triggered by the impact of the Russia-Ukraine conflict (the "Conflict"), which caused exceptional market circumstances, thereby preventing the Company from valuating and trading some of its assets as well as determining the Sub-Fund's net asset value in a reasonable manner. While the assets representing the majority proportion of the Sub-Fund's net asset value have been sold, and the Company is proactively acting on opportunities to sell the remaining holdings, the current portfolio contains holdings that still cannot be traded due to the on-going Conflict. Therefore, with the approval of the Commission de Surveillance du Secteur Financier, the liquidation period has been extended to allow for the remaining assets of the Sub-Fund to be sold. Although this Sub-Fund is categorized under Article 8 Regulation (EU) 2019/2088 ("SFDR") for the purpose of this reporting, it did not produce any pre-contractual disclosures under the regulatory technical standards foreseen under Commission Delegated Regulation (EU) 2022/1288 of 6 April 2022 supplementing SFDR ("SFDR RTS"), which applied as of 1 January 2023.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ Yes

☐ No

☐ It made sustainable investments with an environmental objective: % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: %	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

As the sub-fund has been in liquidation throughout its reference period, the sustainability-related provisions under SFDR were not applicable and are therefore deemed irrelevant to the sub-fund's operations during this time. All sections to which the same reasoning applies shall be designated as 'Not Applicable' for the purposes of this report.

How did the sustainability indicators perform?

Not Applicable

● **...and compared to previous periods?**

Not Applicable

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

- Not Applicable

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
CASH & EQUIVALENTS	Other	100.0	
GAZPROM	MINING AND QUARRYING-Extraction of crude petroleum and natural gas	0.00	Russian Federation
AEROFLOT ROSSIYSKIYE AVIALINII	TRANSPORTATION AND STORAGE-Air transport	0.00	Russian Federation
SBERBANK ROSSII	FINANCIAL AND INSURANCE ACTIVITIES-Financial service activities, except insurance and pension funding	0.00	Russian Federation
SBERBANK ROSSII PREF	FINANCIAL AND INSURANCE ACTIVITIES-Financial service activities, except insurance and pension funding	0.00	Russian Federation
TATNEFT	MINING AND QUARRYING-Extraction of crude petroleum and natural gas	0.00	Russian Federation
TATNEFT PREF	MINING AND QUARRYING-Extraction of crude petroleum and natural gas	0.00	Russian Federation
BANK VTB	FINANCIAL AND INSURANCE ACTIVITIES-Financial service activities, except insurance and pension funding	0.00	Russian Federation
NOVATEK	MINING AND QUARRYING-Extraction of crude petroleum and natural gas	0.00	Russian Federation
NK LUKOIL	MINING AND QUARRYING-Extraction of crude petroleum and natural gas	0.00	Russian Federation

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

Not Applicable

● *In which economic sectors were the investments made?*

No investments are held in sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels.

Sector	% Assets
Other	100.00
MINING AND QUARRYING - Extraction of crude petroleum and natural gas	0.00
FINANCIAL AND INSURANCE ACTIVITIES - Financial service activities, except insurance and pension funding	0.00
TRANSPORTATION AND STORAGE - Air transport	0.00
WHOLESALE AND RETAIL TRADE; REPAIR OF MOTOR VEHICLES AND MOTORCYCLES - Retail trade, except of motor vehicles and motorcycles	0.00

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

0%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Not applicable.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

Not applicable.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not applicable.

- ***How does the reference benchmark differ from a broad market index?***

Not applicable.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective :_% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective :_%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 43.01% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - Controversial Weapons (Any Tie)
 - Nuclear Weapons (Any Tie)
 - Tobacco Revenue (5%)
 - Tobacco Production (Any Tie)
 - Thermal Coal Extraction Revenue (5%)
 - Thermal Coal Power Revenue (5%)
 - Fossil Fuel Power Revenue (5%)
 - Gambling Revenue (5%)
 - Adult Entertainment Revenue (5%)
 - All Weapons-Related Revenue (5%)
 - Unconventional Oil & Gas Revenue (5%)
 - Oil & Gas Revenue (5%)

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is

determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

2. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

3. Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was better than the carbon intensity of the Benchmark.

From 1st October 2023 - 29th February 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - ISS Scope 1 + 2 + 3', sourced by ISS.

From 1st March - 30th September 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - MSCI Scope 1 + 2 + 3', sourced by MSCI.

4. Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

● ***How did the sustainability indicators perform?***

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted carbon intensity score against the universe - MSCI Scope 1 + 2 + 3	655.46	1417.81
Percentage of Sustainable Investments	43.01%	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted carbon intensity score against the universe - MSCI Scope 1 + 2 + 3	655.46	1417.81	548.09	1390.29
Percentage of Sustainable Investments	43.01%	Not applicable	32.01%	Not applicable
Average weighted waste intensity score against the Index/Benchmark - Refinitiv	Not applicable	Not applicable	118.57	768.61

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and

stewardship. In this process, the following PAIs were taken into account:

- PAI 1: GHG emissions Scope 1,2 & 3 (via portfolio construction);
- PAI 2: Carbon footprint Scope 1,2, & 3 (via portfolio construction);
- PAI 3: GHG intensity of investee companies (via portfolio construction);
- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 5: Share of Non-Renewable Energy Consumption and Production (via sustainable investment framework);
- PAI 6: Energy Consumption Intensity per High Impact Climate Sector (via sustainable investment framework);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 8: Emissions to water (via sustainable investment framework);
- PAI 9: Hazardous waste and radioactive waste ratio (via sustainable investment framework);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 12: Unadjusted Gender Pay Gap (via sustainable investment framework);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

CONSTRUCTION - Specialised construction activities	0.01

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0.2710

What was the share of socially sustainable investments?

0.1591

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Invested in sustainable investments;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Goldman Sachs Emerging Markets Equity Income

Legal entity identifier:
549300NSYRACRQQ9F081

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒ Yes
☐ No

☐ It made sustainable investments with an environmental objective : % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : %	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st October 2023- 5th November 2023, the Sub-Fund promoted environmental and social characteristics. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator ‘Excluding investments in issuers involved in controversial activities’.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 6th November 2023 - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:
 - Controversial weapons (including nuclear weapons)
 - Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Artic oil and gas.)
 - Tobacco
 - Adult entertainment

- For-profit prisons
- Civilian firearms

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

How did the sustainability indicators perform?

From 1 October 2023 - 5th November 2023, the Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.

From 6th November 2023 - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Arctic oil and gas.)
- Tobacco
- Adult entertainment
- For-profit prisons
- Civilian firearms

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	N/A	N/A
Companies invested in by the Portfolio that were directly engaged in, and/or derived significant revenue from excluded activities (as outlined above)	N/A	0	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	N/A	These investments have been excluded in line with the description provided in the previous question	N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel industry • Activities negatively affecting biodiversity sensitive areas • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons • (antipersonnel mines, cluster munitions, chemical weapons and

	biological weapons)
Non-mandatory Climate PAIs	- Investing in companies without carbon emission reduction initiatives - Land degradation, desertification, soil sealing - Investments in companies without sustainable land or agriculture practices or policies - Natural species and protected areas - Deforestation
Non-mandatory Social PAIs	- Rate of accidents - Number of days lost to injuries, accidents, fatalities or illness - Number of incidents of discrimination - Number of incidents of discrimination leading to sanctions - Excessive CEO pay ratio

What were the top investments of this financial product?

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Over the reference period, 94.97% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 94.97% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

5.03% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 90% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Arts entertainment and recreation	Gambling and betting activities	0.27%
Cash	Cash	0.75%
Construction	Civil engineering	0.75%

	Wholesale trade except of motor vehicles and motorcycles	0.93%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes

☐ In fossil gas

☐ In nuclear energy

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

- 

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.
- 

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.
- 

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Goldman Sachs Europe Enhanced Index Sustainable Equity

Legal entity identifier: 549300AH1C3JSFTHHN70

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes ☐ No	
☐ It made sustainable investments with an environmental objective :_% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective :_%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 52.89% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

1. Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:

- Controversial Weapons (Any Tie)
- Nuclear Weapons (Any Tie)
- Tobacco Revenue (5%)
- Tobacco Production (Any Tie)
- Thermal Coal Extraction Revenue (5%)
- Thermal Coal Power Revenue (5%)
- Fossil Fuel Power Revenue (5%)
- Gambling Revenue (5%)
- Adult Entertainment Revenue (5%)
- All Weapons-Related Revenue (5%)
- Unconventional Oil & Gas Revenue (5%)
- Oil & Gas Revenue (5%)

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is

determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

2. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

3. Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was better than the carbon intensity of the Benchmark.

From 1st October 2023 - 29th February 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - ISS Scope 1 + 2 + 3', sourced by ISS.

From 1st March - 30th September 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - MSCI Scope 1 + 2 + 3', sourced by MSCI.

4. Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

● ***How did the sustainability indicators perform?***

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted carbon intensity score against the universe - MSCI Scope 1 + 2 + 3	515.5	907.76
Percentage of Sustainable Investments	52.89%	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted carbon intensity score against the universe - MSCI Scope 1 + 2 + 3	515.5	907.76	235.32	589.48
Percentage of Sustainable Investments	52.89%	Not applicable	50.23%	Not applicable
Average weighted waste intensity score against the Index/Benchmark - Refinitiv	Not applicable	Not applicable	19.46	486.29

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and

stewardship. In this process, the following PAIs were taken into account:

- PAI 1: GHG emissions Scope 1,2 & 3 (via portfolio construction);
- PAI 2: Carbon footprint Scope 1,2, & 3 (via portfolio construction);
- PAI 3: GHG intensity of investee companies (via portfolio construction);
- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 5: Share of Non-Renewable Energy Consumption and Production (via sustainable investment framework);
- PAI 6: Energy Consumption Intensity per High Impact Climate Sector (via sustainable investment framework);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 8: Emissions to water (via sustainable investment framework);
- PAI 9: Hazardous waste and radioactive waste ratio (via sustainable investment framework);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 12: Unadjusted Gender Pay Gap (via sustainable investment framework);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
NOVO NORDISK CLASS B	MANUFACTURING	3.38	Denmark

ARTS ENTERTAINMENT AND RECREATION - Creative arts and entertainment activities	0.05

TRANSPORTATION AND STORAGE - Air transport	0.04
MANUFACTURING - Manufacture of other non-metallic mineral products	0.01

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0.2501

What was the share of socially sustainable investments?

0.2788

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Invested in sustainable investments;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Goldman Sachs Europe Equity

Legal entity identifier:
549300V5KTXWBKJYL511

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?	
☒ Yes	☐ No
☐ It made sustainable investments with an environmental objective: % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: %	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 52.50% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st October 2023 - 4th March 2024, the Sub-Fund promoted environmental and social characteristics. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Average Screening carbon intensity score - ISS Scope 1+2
The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower compared to the Benchmark.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 4th March 2024 - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:
 - Controversial weapons (including nuclear weapons)
 - Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
 - Tobacco
 - Adult entertainment

- For-profit prisons
- Civilian firearms

The performance of this characteristic was measured with the indicator 'Companies invested in by the Sub-Fund that were directly engaged in, and/or derived significant revenue from excluded activities'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower compared to the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - Scope 1 + 2 + 3'.

- Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

How did the sustainability indicators perform?

From 1 October 2023 - 4th March 2024, the Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund.

These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:

These investments have been excluded in line with the description provided in the previous question.

From 4th November 2024 - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund.

These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
- Tobacco
- Adult entertainment
- For-profit prisons
- Civilian firearms

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:

These investments have been excluded in line with the description provided in the previous question.

- Average weighted carbon intensity of the Sub-Fund was lower compared to the Benchmark:

Sub-Fund: 470.03 Scope 123 (Tons CO₂ / \$M EVIC)

Benchmark: 530.71 Scope 123 (Tons CO₂ / \$M EVIC)

- 52.50% was invested in sustainable investments.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outline above)	These investments have been excluded in line with the description provided in the previous question	N/A	N/A
Average weighted carbon intensity score - ISS Scope 1 + 2 (compared to the Benchmark)	Sub-Fund: 124.54 Benchmark: 164.38	N/A	N/A
Companies invested in by the Sub-Fund that were directly engaged in, and/or derived significant revenue from excluded activities (as outlined above)	N/A	0	%
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	N/A	These investments have been excluded in line with the description provided in the previous question	N/A
Average weighted carbon intensity score - Scope 1 + 2 + 3 (compared to the Benchmark)	N/A	Sub-Fund: 470.03 Benchmark: 530.71	Tons CO2 / \$M EVIC
Percentage Sustainable Investments	55.45	52.50	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
Non-mandatory Climate PAIs	• Investing in companies without carbon emission reduction initiatives • Land degradation, desertification, soil sealing • Investments in companies without sustainable land or agriculture practices or policies • Natural species and protected areas • Deforestation
Non-mandatory social PAIs	• Rate of accidents • Number of days lost to injuries, accidents, fatalities or illness • Number of incidents of discrimination • Number of incidents of discrimination leading to sanctions • Excessive CEO pay ratio

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
NOVO NORDISK A/S	Manufacturing	5.16%	DK
ASML HOLDING N.V.	Manufacturing	4.41%	NL

SCHINDLER HOLDING AG	Manufacturing	2.32%	CH
NESTLE S.A.	Manufacturing	2.28%	CH

What was the proportion of sustainability-related investments?

Over the reference period, 99.56% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 99.56% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

0.44 % of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

And while the Sub-Fund did not have as its objective a sustainable investment, it had a proportion of 52.50% sustainable investments, of which 17.29% were other environmentally and 35.21% were socially sustainable investments.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

-The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Accommodation and food service activities	Food and beverage service activities	1.76%
Cash	Cash	0.42%
Derivatives	Forward	-0.02%

	Wholesale trade except of motor vehicles and motorcycles	2.10%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 17.29%.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 35.21%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Goldman Sachs Europe Equity Income

Legal entity identifier:
5493000YF35FL5NW5J03

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?	
☐ It made sustainable investments with an environmental objective : % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : %	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 48.61% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

Sustainability Indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st October 2023- 26th February 2024, the Sub-Fund promoted environmental and social characteristics. More specifically:

- Limited investments in companies involved in controversial activities.
- During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco ($\geq 50\%$);
 - the production of oil sands and controversial pipelines ($>20\%$);
 - the extraction of thermal coal ($>20\%$).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 26th February - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:
- Controversial weapons (including nuclear weapons)
 - Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
 - Tobacco
 - Adult entertainment

- For-profit prisons
- Civilian firearms

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower compared to the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - Scope 1 + 2 + 3'.

- Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

How did the sustainability indicators perform?

From 1 October 2023 - 26th February 2024, the Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:

These investments have been excluded in line with the description provided in the previous question.

From 26th February - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
- Tobacco
- Adult entertainment
- For-profit prisons
- Civilian firearms

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:

These investments have been excluded in line with the description provided in the previous question.

- Average weighted carbon intensity of the Sub-Fund was lower compared to the Benchmark:

Sub-Fund: 399.85 (Tons CO₂ / \$M EVIC)

Benchmark: 530.71 (Tons CO₂ / \$M EVIC)

- 48.61% was invested in sustainable investments.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	N/A	N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Percentage Sustainable Investments	49.68	48.61	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach.

In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

Non-mandatory Climate PAIs	- Investing in companies without carbon emission reduction initiatives - Land degradation, desertification, soil sealing - Investments in companies without sustainable land or agriculture practices or policies - Natural species and protected areas - Deforestation
Non-mandatory Social PAIs	- Rate of accidents - Number of days lost to injuries, accidents, fatalities or illness - Number of incidents of discrimination - Number of incidents of discrimination leading to sanctions - Excessive CEO pay ratio

What was the proportion of sustainability-related investments?

Over the reference period, 98.01% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 98.01% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

1.99% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/ investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

And while the Sub-Fund did not have as its objective a sustainable investment, it had a proportion of 48.61% sustainable investments, of which 23.65% were other environmentally and 24.96% were socially sustainable investments.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Asset allocation describes the share of investments in specific assets.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Administrative and support service activities	Security and investigation activities	1.35%

Cash	Cash	1.65%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy'?

☐ Yes

☐ In fossil gas

☐ In nuclear energy

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the

'Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 23.65%.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 24.96%.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Europe Real Estate Equity

Legal entity identifier: 549300CFXH2ON03G2C30

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

3. Took ESG factors of each issuer into account in the investment decision-making process. The Sub-Fund met this characteristic by applying a proprietary approach to ESG integration. The Sub-Fund ensured during the reporting period that it had a better average weighted ESG score than the benchmark of the Sub-Fund. The Sub-Fund integrates the information on environmental, social and governance factors for its investments based on a proprietary ESG Integration approach. ESG Integration involves incorporating the ESG analysis into investment decision making, which takes into account not just the financial, but also the environmental, social and governance factors of the issuer.

The performance of this characteristic was measured with the indicator 'average weighted ESG Rating versus the benchmark'

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Number of issuers excluded from the investment universe based on the Exclusion List	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers involved in material violations of internationally recognised standards for example: OECD Guidelines for Multinational Enterprises the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted ESG Rating against the Index/Benchmark - Sustainability Risk Rating	10.48	11.06

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Number of issuers excluded from the investment universe based on the Exclusion List	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers involved in material violations of internationally recognised standards] for example: OECD Guidelines for Multinational Enterprises] the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted ESG Rating against the Index/Benchmark - Sustainalytics Risk Rating	10.48	11.06	10.6	11.07

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/11/2023

Largest investments	Sector	% Assets	Country
VONOVIA	REAL ESTATE ACTIVITIES	7.91	Germany
UNIBAIL RODAMCO WE STAPLED UNITS	REAL ESTATE ACTIVITIES	6.74	France
SWISS PRIME SITE AG	REAL ESTATE ACTIVITIES	5.71	Switzerland
LEG IMMOBILIEN N	REAL ESTATE ACTIVITIES	5.05	Germany
CASTELLUM	REAL ESTATE ACTIVITIES	4.89	Sweden

INMOBILIARIA COLONIAL SA	REAL ESTATE ACTIVITIES	2.06	Spain

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

What was the asset allocation?

In which economic sectors were the investments made?

Sector	% Assets
REAL ESTATE ACTIVITIES - Renting & operating of own or leased real estate	78.55
Other	10.94
REAL ESTATE ACTIVITIES - Buying & selling of own real estate	8.6
CONSTRUCTION - Civil engineering	1.15
REAL ESTATE ACTIVITIES - Other	0.39
CONSTRUCTION - Construction of buildings	0.31
FINANCIAL AND INSURANCE ACTIVITIES - Financial service activities except insurance and pension funding	0.06

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
 - ☐ In fossil gas
 - ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

● **What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

● **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?	
☐ It made sustainable investments with an environmental objective: % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: %	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 59.46% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability Indicators measure how the environmental or social characteristics promoted by the financial product are attained.

From the 1st October 2023- 4th March 2024, the Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
- During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - Small arms and military contracting (>5%);
 - the production of tobacco ($\geq 5\%$) and retail (>10%);
 - the production of oil sands and controversial pipelines (>10%);
 - the extraction of thermal coal (>5%);
 - adult entertainment (>5% for production and >10% for distribution);
 - fur & specialty leather (>5% for production and >10% for distribution);
 - gambling operations (>5%) and supporting products and services (50%);
 - nuclear energy (0%, when the issuer is constructing additional nuclear-based power production installations);
 - shale oil & gas and arctic drilling (combined > 10%);
 - Power generation from non-renewable sources.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Water intensity

The Sub-Fund applied screening regarding the water intensity of investee companies. In line with the ambition of the Sub-Fund the water intensity of the Sub-Fund was better than the water intensity of the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted water intensity score'.

- Waste intensity

The Sub-Fund applied screening regarding the waste intensity of investee companies. In line with

the ambition of the Sub-Fund the waste intensity of the Sub-Fund was better than the waste intensity of the Benchmark.
The performance of this characteristic was measured with the indicator 'Average weighted waste intensity score'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 4th March - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
- Tobacco
- Alcohol
- Adult entertainment
- Gambling
- For-profit prisons
- Civilian firearms

The performance of this characteristic was measured with the indicator 'Companies invested in by the Sub-Fund that were directly engaged in, and/or derived significant revenue from excluded activities'.

- The Sub-Fund took ESG factors of each issuer into account in the investment decision-making process.

The performance of this characteristic was measured with the indicator 'average weighted ESG Rating against the benchmark'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower compared to the Benchmark.

- Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

How did the sustainability indicators perform?

From 1 October 2023 - 4th March 2024, the Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Average weighted ESG Rating - ESG Corporate Lens:
Sub-Fund: 65.23
Benchmark: 60.51

Average weighted water intensity score:
Sub-Fund: 3183.98
Benchmark: 4878.7

- Average weighted waste intensity score:
Sub-Fund: 9.7
Benchmark: 486.29

From 4th March 2024 - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:
 - Controversial weapons (including nuclear weapons)
 - Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
 - Tobacco
 - Alcohol
 - Adult entertainment
 - Gambling
 - For-profit prisons
 - Civilian firearms
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.
- Average weighted ESG rating versus the Benchmark.
Sub-Fund: 2.90
Benchmark: 2.70
- Average weighted carbon intensity of the Sub-Fund was lower compared to the Benchmark:
Sub-Fund: 135.48 (Tons CO₂ / \$M EVIC)
Benchmark: 530.71 (Tons CO₂ / \$M EVIC)
- 59.46% was invested in sustainable investments.

... and compared to previous periods ?

Percentage Sustainable Investments	58.55	59.46	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and

excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive wasteratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap

	- Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
Non-mandatory Climate PAIs	- Investing in companies without carbon emission reduction initiatives - Land degradation, desertification, soil sealing - Investments in companies without sustainable land or agriculture practices or policies - Natural species and protected areas - Deforestation
Non-mandatory Social PAIs	- Rate of accidents - Number of days lost to injuries, accidents, fatalities or illness - Number of incidents of discrimination - Number of incidents of discrimination leading to sanctions - Excessive CEO pay ratio

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
SAP SE	Information and communication	5.24%	DE
NOVO NORDISK A/S	Manufacturing	5.11%	DK
ASML HOLDING N.V.	Manufacturing	4.81%	NL
ASTRAZENECA PLC	Manufacturing	4.09%	GB
UNILEVER PLC	Manufacturing	4.01%	NL
NATIONAL GRID PLC	Electricity gas steam and air conditioning supply	3.82%	GB
NESTLE S.A.	Manufacturing	3.80%	CH
INTESA SANPAOLO SPA	Financial and insurance activities	3.67%	IT
RELX PUBLIC LIMITED COMPANY	Information and communication	3.60%	NL
ALLIANZ SE	Financial and insurance activities	3.51%	DE
SCHNEIDER ELECTRIC SE	Manufacturing	3.40%	FR
ZURICH INSURANCE GROUP AG	Financial and insurance activities	3.28%	CH
COMPASS GROUP PLC	Accommodation and food service activities	2.98%	GB

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

What was the proportion of sustainability-related investments?

Over the reference period, 99.34% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 99.34% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

0.66% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

And while the Sub-Fund did not have as its objective a sustainable investment, it had a proportion of 59.46% sustainable investments, of which 30.18% were other environmentally and 29.28% were socially sustainable investments.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

-The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024

	Scientific research and development	1.58%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- ☐ Yes
☐ In fossil gas ☐ In nuclear energy
☒ No

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a

substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 30.18%.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 29.28%.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Goldman Sachs Europe Sustainable Small Cap Equity

Legal entity identifier:
549300J9L3FRF0L11I97

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

No

☐ It made sustainable investments with an environmental objective: % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: %	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 36.29% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st October 2023 - 4th March 2024, the Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - Small arms and military contracting (>5%);
 - the production of tobacco (≥5%) and retail (>10%);
 - the production of oil sands and controversial pipelines (>10%);
 - the extraction of thermal coal (>5%);
 - adult entertainment (>5% for production and >10% for distribution);
 - fur & specialty leather (>5% for production and >10% for distribution);
 - gambling operations (>5%) and supporting products and services (50%);
 - nuclear energy (0%, when the issuer is constructing additional nuclear-based power production installations);
 - shale oil & gas and arctic drilling (combined ≤10%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 4th March - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that

are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
- Tobacco
- Alcohol
- Adult entertainment
- Gambling
- For-profit prisons
- Civilian firearms

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower compared to the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - Scope 1 + 2 + 3'.

- Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

How did the sustainability indicators perform?

From 1 October 2023 - 4th March 2024, the Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund.

These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:

These investments have been excluded in line with the description provided in the previous question.

From 4th March - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
- Tobacco
- Alcohol
- Adult entertainment
- Gambling
- For-profit prisons
- Civilian firearms

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:

These investments have been excluded in line with the description provided in the previous question.

- Average weighted carbon intensity of the Sub-Fund was lower compared to the Benchmark:

Sub-Fund: 437.92 (Tons CO₂ / \$M EVIC)

Benchmark: 512.14 (Tons CO₂ / \$M EVIC)

- 36.29% was invested in sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	N/A	N/A
Companies invested in by the Sub-Fund that were directly engaged in, and/or derived significant revenue from excluded activities (as outlined above)	N/A	0	%
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	N/A	These investments have been excluded in line with the description provided in the previous question	N/A
Average weighted carbon intensity score - Scope 1 + 2 + 3 (compared to the Benchmark)	Sub-Fund: 377.07 Benchmark: 685.74	Sub-Fund: 437.92 Benchmark: 512.14	Tons CO2 / \$M EVIC
Percentage Sustainable Investments	34.08	36.29	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Green house gas emissions - Carbon footprint - Green house gas intensity of investee companies - Exposure to companies active in the fossil fuel sector - Energy consumption from non-renewable sources - Energy production from non-renewable sources - Energy consumption intensity per high impact climate sector - Activities negatively affecting biodiversity sensitive areas - Emission to water - Hazardous waste and radioactive wasteratio - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Unadjusted gender pay gap - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
Non-mandatory Climate PAIs	- Investing in companies without carbon emission reduction initiatives - Land degradation, desertification, soilsealing - Investments in companies without sustainable land or agriculture practices or policies - Natural species and protected areas - Deforestation
Non-mandatory Social PAIs	- Rate of accidents - Number of days lost to injuries, accidents, fatalities or illness - Number of incidents of discrimination - Number of incidents of discrimination leading to sanctions - Excessive CEO pay ratio

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 25.27%.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 11.02%.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or

low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Goldman Sachs Eurozone Equity
Legal entity identifier: 22210031I3MMSBDME003

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?
Yes No
It made sustainable investments with an environmental objective: %
It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 56.07% of sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st October 2023 - 4th March 2024, the Sub-Fund promoted environmental and social characteristics. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
- the controversial supply of weapons (0%);
- the production of tobacco (=50%);
- the production of oil sands and controversial pipelines (>20%);
- the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 4th March 2024 - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:
- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Arctic oil and gas.)
- Tobacco
- Adult entertainment

- For-profit prisons
- Civilian firearms

The performance of this characteristic was measured with the indicator 'Companies invested in by the Sub-Fund that were directly engaged in, and/or derived significant revenue from excluded activities'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower compared to the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - Scope 1 + 2 + 3'.

- Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

How did the sustainability indicators perform?

From the 1st October 2023 - 4th March 2024, the Sub-Fund promoted environmental and social characteristics. More specifically:

- Limited investments in companies involved in controversial activities.

During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:

- the development, production, maintenance or trade in controversial weapons (0%);
- the controversial supply of weapons (0%);
- the production of tobacco (=50%);
- the production of oil sands and controversial pipelines (>20%);
- the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., the approach to taking ESG considerations into account in the investment decision-making process became aligned with The Goldman Sachs Group, Inc., effective as of 4th March 2024.

From 4th March 2024 - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Arctic oil and gas.)
- Tobacco
- Adult entertainment
- For-profit prisons
- Civilian firearms

The performance of this characteristic was measured with the indicator 'Companies invested in by the Sub-Fund that were directly engaged in, and/or derived significant revenue from excluded activities'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower compared to the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - Scope 1 + 2 + 3'.

- Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities <i>(as outlined above)</i>	These investments have been excluded in line with the description provided in the previous question	N/A	N/A

Percentage Sustainable Investments	56.72	56.07	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no

significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach.

In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN

	Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
Non-mandatory Climate PAIs	• Investing in companies without carbon emission reduction initiatives • Land degradation, desertification, soil sealing • Investments in companies without sustainable land or agriculture practices or policies • Natural species and protected areas • Deforestation
Non-mandatory Social PAIs	• Rate of accidents • Number of days lost to injuries, accidents, fatalities or illness • Number of incidents of discrimination • Number of incidents of discrimination leading to sanctions • Excessive CEO pay ratio

What was the proportion of sustainability-related investments?

Over the reference period, 99.62% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 99.62% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

0.38% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

And while the Sub-Fund did not have as its objective a sustainable investment, it had a proportion of 56.07% sustainable investments, of which 24.33% were other environmentally and 31.74% were socially sustainable investments.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Asset allocation describes the share of investments in specific assets.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	-0.14%

	Wholesale trade except of motor vehicles and motorcycles	1.87%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy'?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

'Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 24.33%.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 31.74%.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Goldman Sachs Eurozone Equity Growth & Income

Legal entity identifier: 5493008WY05E4KCP5D05

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

3. Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was better than the carbon intensity of the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - ISS Scope 1 + 2'.

● *How did the sustainability indicators perform?*

Indicator	Portfolio	Benchmark
Number of issuers excluded from the investment universe based on the Exclusion List	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers involved in material violations of internationally recognised standards for example: OECD Guidelines for Multinational Enterprises the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted carbon intensity score against the Index/Benchmark - ISS Scope 1 + 2	137.98	191.31

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Number of issuers excluded from the investment universe based on the Exclusion List	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers involved in material violations of internationally recognised standards] for example: OECD Guidelines for Multinational Enterprises] the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted carbon intensity score against the Index/Benchmark - ISS Scope 1 + 2	137.98	191.31	140.9	187.06

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 3: GHG intensity of investee companies (via portfolio construction);
- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31/10/2023

MANUFACTURING - Manufacture of paper and paper products	1.00
PROFESSIONAL SCIENTIFIC AND TECHNICAL ACTIVITIES - Activities of head offices; management consultancy activities	0.84
MANUFACTURING - Manufacture of basic metals	0.70
Other	0.54

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Adhered to good governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Screened carbon intensity;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Goldman Sachs Eurozone Equity
Income

Legal entity identifier:
549300R35LEP2GV6YS74

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒ ☐ ☒ No

☐ It made sustainable investments with an environmental objective : % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : %	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 52.64% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

Sustainability Indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st October 2023- 26th February 2024, the Sub-Fund promoted environmental and social characteristics. More specifically:

- Limited investments in companies involved in controversial activities.
- During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco ($\geq 50\%$);
 - the production of oil sands and controversial pipelines ($>20\%$);
 - the extraction of thermal coal ($>20\%$).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 26th February - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:
- Controversial weapons (including nuclear weapons)
 - Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Arctic oil and gas.)
 - Tobacco
 - Adult entertainment

- For-profit prisons
- Civilian firearms

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower compared to the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - Scope 1 + 2 + 3'.

- Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

How did the sustainability indicators perform?

From 1 October 2023 - 26th February 2024, the Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:

These investments have been excluded in line with the description provided in the previous question.

From 26th February - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Arctic oil and gas.)
- Tobacco
- Adult entertainment
- For-profit prisons
- Civilian firearms

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:

These investments have been excluded in line with the description provided in the previous question.

- Average weighted carbon intensity of the Sub-Fund was lower compared to the Benchmark:

Sub-Fund: 453.63 (Tons CO₂ / \$M EVIC)

Benchmark: 550.81 (Tons CO₂ / \$M EVIC)

- 52.64% was invested in sustainable investments.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities <i>(as outlined above)</i>	These investments have been excluded in line with the description provided in the previous question	N/A	N/A
Companies invested in by the Sub-Fund that were directly engaged in, and/or derived significant revenue from excluded activities <i>(as outlined above)</i>	Not applicable	0	%
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	N/A	These investments have been excluded in line with the description provided in the previous question	N/A
Average weighted carbon intensity score - Scope 1 + 2 + 3 <i>(compared to the Benchmark)</i>	Sub-Fund: 540.99 Benchmark: 637.12	Sub-Fund: 453.63 Benchmark: 550.81	Tons CO2 / \$M EVIC)
Percentage Sustainable Investments	55.24	52.64	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive wasteratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

Non-mandatory Climate PAIs	- Investing in companies without carbon emission reduction initiatives - Land degradation, desertification, soil sealing - Investments in companies without sustainable land or agriculture practices or policies - Natural species and protected areas - Deforestation
Non-mandatory Social PAIs	- Rate of accidents - Number of days lost to injuries, accidents, fatalities or illness - Number of incidents of discrimination - Number of incidents of discrimination leading to sanctions - Excessive CEO pay ratio

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
TOTAL ENERGIES SE	Manufacturing	5.35%	FR
DEUTSCHE BOERSE AKTIENGESELLSCHAFT	Financial and insurance activities	4.78%	DE
LVMH MOET HENNESSY LOUIS VUITTON SE	Manufacturing	4.46%	FR
SIEMENS AKTIENGESELLSCHAFT	Information and communication	4.38%	DE
ASML HOLDING N.V.	Manufacturing	4.29%	NL
AIRBUS SE	Manufacturing	3.99%	FR
ALLIANZ SE	Financial and insurance activities	3.88%	DE
KONINKLIJKE AHOLD DELHAIZE N.V.	Wholesale and retail trade; repair of motor vehicles and motorcycles	3.59%	NL
IBERDROLA S.A.	Electricity gas steam and air conditioning supply	3.53%	ES
DEUTSCHE POST AG	Transporting and storage	3.42%	DE
E.ON SE	Electricity gas steam and air conditioning supply	3.35%	DE
VINCI SA	Construction	3.30%	FR
CAPGEMINI SE	Information and communication	3.29%	FR

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

What was the proportion of sustainability-related investments?

Over the reference period, 98.39% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 98.39% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

1.61 % of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

And while the Sub-Fund did not have as its objective a sustainable investment, it had a proportion of 52.64% sustainable investments, of which 29.62% were other environmentally and 23.02% were socially sustainable investments.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

-The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	1.57%
Construction	Civil engineering	3.30%
Derivatives	Forward	-0.01%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	10.93%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	4.78%
	Financial service activities except insurance and pension funding	9.12%
	Insurance reinsurance and pension funding except compulsory social security	11.50%
Information and communication	Computer programming consultancy and related activities	7.67%
	Publishing activities	1.63%
	Telecommunications	4.87%
Manufacturing	Manufacture of basic pharmaceutical products and pharmaceutical preparations	2.85%
	Manufacture of chemicals and chemical products	3.02%
	Manufacture of coke and refined petroleum products	5.35%
	Manufacture of machinery and equipment n.e.c.	4.29%
	Manufacture of other transport equipment	3.99%
	Manufacture of paper and paper products	2.52%
	Manufacture of rubber and plastic products	1.30%
	Manufacture of wearing apparel	4.46%

Mining and quarrying	Extraction of crude petroleum and natural gas	1.18%
Real estate activities	Real estate activities	2.54%
Transporting and storage	Postal and courier activities	3.42%
	Warehousing and support activities for transportation	3.25%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	3.59%
	Wholesale trade except of motor vehicles and motorcycles	2.89%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes

☐ In fossil gas

☐ In nuclear energy

☒ No

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 29.62%.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 23.02%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under ‘other’ were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Goldman Sachs Global Banking & Insurance Equity

Legal entity identifier: 549300ZJ28OGRB3TGH21

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

3. Took ESG factors of each issuer into account in the investment decision-making process. The Sub-Fund met this characteristic by applying a proprietary approach to ESG integration. The Sub-Fund ensured during the reporting period that it had a better average weighted ESG score than the benchmark of the Sub-Fund. The Sub-Fund integrates the information on environmental, social and governance factors for its investments based on a proprietary ESG Integration approach. ESG Integration involves incorporating the ESG analysis into investment decision making, which takes into account not just the financial, but also the environmental, social and governance factors of the issuer.

The performance of this characteristic was measured with the indicator 'average weighted ESG Rating versus the benchmark'

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Number of issuers excluded from the investment universe based on the Exclusion List	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers involved in material violations of internationally recognised standards for example: OECD Guidelines for Multinational Enterprises the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted ESG Rating against the Index/ Benchmark -Sustainalytics Risk Rating	17.46	21.31

● ...and compared to previous periods?

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Number of issuers excluded from the investment universe based on the Exclusion List	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers involved in material violations of internationally recognised standards] for example: OECD Guidelines for Multinational Enterprises] the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/11/2023

Largest investments	Sector	% Assets	Country
UNITEDHEALTH GROUP INC	FINANCIAL AND INSURANCE ACTIVITIES	6.28	United States

AGRICULTURE FORESTRY AND FISHING - Fishing and aquaculture	0.4
INFORMATION AND COMMUNICATION - Telecommunications	0.27
ADMINISTRATIVE AND SUPPORT SERVICE ACTIVITIES - Security and investigation activities	-0.77

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

- ☐ Taxonomy-aligned: Fossil gas
- ☐ Taxonomy-aligned: Nuclear
- ☐ Taxonomy-aligned (no gas and nuclear)
- ☐ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds*

- ☐ Taxonomy-aligned: Fossil gas
- ☐ Taxonomy-aligned: Nuclear
- ☐ Taxonomy-aligned (no gas and nuclear)
- ☐ Non Taxonomy-aligned

This graph represents 100.00% of the total Investments.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx)

showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for financial products referred to in Article 9 (1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name:
Goldman Sachs Global Climate & Environment Equity

Legal entity identifier:
5493002LTQZUXRXPNO60

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
☒ Yes ☐ No	
☒ It made sustainable investments with an environmental objective: 89.25%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☒ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☒ It made sustainable investments with a social objective: 10.00%	☐ with a social objective
	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

From 1st October 2023 - 26th February 2024, The Sub-Fund used an active management approach which aims at investing in companies that generate a positive social and environmental impact alongside a financial return. In line with its investment objective and policy, the Sub-Fund focused its investments on companies that contribute positively to one or more UN SDGs related to the sustainability of our natural resources.

Each of the Sub-Fund's equity holdings has been aligned to one or more of the following SDGs:
Zero Hunger
Clean Water and Sanitation
Affordable and Clean Energy
Industry, Innovation and Infrastructure
Responsible Consumption and Production and
Climate Action

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 26th February - 30th September 2024, the Sub-Fund sought to create positive environmental impact by investing in companies that the Management Company considered to be sustainable investments, and which provide solutions that drive environmental sustainability, by virtue of their alignment to key themes associated with solving environmental problems.

The key themes (thematic alignment) are represented by companies that, in the Management Company's view, provide, invest in or help create products, services or technologies in areas including but not limited to:

- Clean Energy: present in areas such as solar energy, wind energy, bioenergy, energy storage, grid services and carbon sequestration.
- Resource Efficiency: present in areas such as electric and autonomous vehicles, sustainable manufacturing, logistics and smart cities.

- Sustainable Consumption: present in areas such as agriculture, food, tourism and fashion.
- Circular Economy: present in areas such as recycling and reuse, waste management and single-use substitution.
- Water Sustainability: present in areas such as water treatment, water distribution and desalination.

Additionally, the Sub-Fund has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which over the reference period included but were not limited to:

- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco
- alcohol
- adult entertainment
- for-profit prisons
- civilian firearms
- gambling
- controversial weapons (including nuclear weapons)

The Sub-Fund additionally excluded from its investment universe companies the Management Company believes to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

How did the sustainability indicators perform?

From 1 October 2023 - 26th February 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities and in issuers involved in controversial behaviour.
These investments have been excluded in line with the description provided in the previous question.

- Average weighted ESG Rating:
Sub-Fund: 17.95
Benchmark: 21.87

- Average weighted waste intensity score:
Sub-Fund: 11.41
Benchmark: 403.18

- Average weighted water intensity score:
Sub-Fund: 2725.21
Benchmark: 4314.05

- Percentage of Sustainable Investments was 96.94%.

From 26th February - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 100% of companies in the Sub-Fund demonstrating material alignment to one or more of the key themes according to the Management Company's assessment

- Aggregate contribution of companies held in the Sub-Fund to environmental impact key performance indicators, as collected on a lagged annual basis:

- Clean Energy: 255 GW of renewable energy capacity installed
- Resource Efficiency: 1.0 billion metric tons of CO₂e avoided
- Sustainable Consumption: 170,000 metric tons of waste reduced
- Circular Economy: 40.4 million metric tons of material recycled
- Water Sustainability: 5.9 million megaliters of water saved

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco
- alcohol
- adult entertainment
- for-profit prisons
- civilian firearms
- gambling
- controversial weapons (including nuclear weapons)
- Power generation from non-renewable sources

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact.

These investments have been excluded in line with the description provided in the previous question.

- Average weighted carbon intensity against the benchmark:
Sub-Fund: 208.79 Scope 123 (Tons CO₂ / \$M EVIC)
Benchmark: 367.38 Scope 123 (Tons CO₂ / \$M EVIC)

- 100% of companies in the Sub-Fund determined to meet the Management Company's sustainable impact revenue threshold over the period by which the Sub-Fund was Article 9.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit

Percentage of companies in the Sub-Fund determined to meet the Management Company's sustainable impact revenue threshold over the period by which the Sub-Fund was Article 9.	N/A	100	%

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Green house gas emissions - Carbon footprint - Green house gas intensity of investee companies - Exposure to companies active in the fossil fuel sector - Energy consumption from non-renewable sources - Energy production from non-renewable sources - Energy consumption intensity per high impact climate sector - Activities negatively affecting biodiversity sensitive areas - Emission to water - Hazardous waste and radioactive waste ratio - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Unadjusted gender pay gap - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
Non-mandatory Climate PAIs	- Investing in companies without carbon emission reduction initiatives - Land degradation, desertification, soilsealing - Investments in companies without sustainable land or agriculture practices or policies - Natural species and protected areas - Deforestation
Non-mandatory social PAIs	- Rate of accidents - Number of days lost to injuries, accidents, fatalities or illness - Number of incidents of discrimination - Number of incidents of discrimination leading to sanctions - Excessive CEO pay ratio

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
BADGER METER INC.	Manufacturing	5.24%	US
IBERDROLA S.A.	Electricity gas steam and air conditioning supply	5.18%	ES
TRANE TECHNOLOGIES PLC	Manufacturing	5.06%	IE

THE DESCARTES SYSTEMS GROUP INC.	Information and communication	4.29%	CA
ANSYS INC.	Information and communication	4.26%	US

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Asset allocation
describes the share of
investments in specific
assets.

WASTE CONNECTIONS INC.	Water supply; sewerage waste management and remediation activities	4.16%	CA
WASTE MANAGEMENT INC.	Water supply; sewerage waste management and remediation activities	3.57%	US

What was the proportion of sustainability-related investments?

Over the reference period, 99.24% of investments were aligned to the sustainable investment objective of the Sub-Fund.

What was the asset allocation?

Over the reference period, 99.24% of investments were aligned to the sustainable investment objective of the Sub-Fund, of which 89.25% were environmentally and 10% were socially sustainable aligned. 0.76 % were held in cash, cash equivalents, and derivatives.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Agriculture forestry and fishing	Fishing and aquaculture	2.93%
Cash	Cash	0.68%
Construction	Civil engineering	4.72%
Derivatives	Forward	-0.06%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	5.18%
Information and communication	Computer programming consultancy and related activities	2.40%
	Publishing activities	8.55%
Manufacturing	Manufacture of chemicals and chemical products	2.95%
	Manufacture of computer electronic and optical products	21.08%
	Manufacture of electrical equipment	4.80%
	Manufacture of fabricated metal products except machinery and equipment	2.45%
	Manufacture of food products	4.53%
	Manufacture of machinery and equipment n.e.c.	18.51%
	Manufacture of motor vehicles trailers and semi-trailers	1.31%
	Manufacture of paper and paper products	4.99%
Water supply; sewerage waste management and remediation activities	Waste collection treatment and disposal activities; materials recovery	8.61%

Water supply; sewerage waste management and remediation activities	Water collection treatment and supply	5.00%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Wholesale trade except of motor vehicles and motorcycles	1.38%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy’?

- ☐ Yes
- ☐ In fossil gas
 ☐ In nuclear energy
- ☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Whilst this Sub-Fund has invested in sustainable investments, it does not specifically commit to a minimum proportion of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Hence, the minimum commitment is 0%.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change(“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 10%.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Global Enhanced Index Sustainable Equity

Legal entity identifier: 549300681VGWRRMS8U2
3

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☐ No
☐ It made sustainable investments with an environmental objective :_% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective :_%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 44.76% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - Controversial Weapons (Any Tie)
 - Nuclear Weapons (Any Tie)
 - Tobacco Revenue (5%)
 - Tobacco Production (Any Tie)
 - Thermal Coal Extraction Revenue (5%)
 - Thermal Coal Power Revenue (5%)
 - Fossil Fuel Power Revenue (5%)
 - Gambling Revenue (5%)
 - Adult Entertainment Revenue (5%)
 - All Weapons-Related Revenue (5%)
 - Unconventional Oil & Gas Revenue (5%)
 - Oil & Gas Revenue (5%)

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment

restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

2. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

3. Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was better than the carbon intensity of the Benchmark.

From 1st October 2023 - 29th February 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - ISS Scope 1 + 2 + 3', sourced by ISS.

From 1st March - 30th September 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - MSCI Scope 1 + 2 + 3', sourced by MSCI.

4. Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

● ***How did the sustainability indicators perform?***

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted carbon intensity score against the universe - MSCI Scope 1 + 2 + 3	430.09	797.63
Percentage of Sustainable Investments	44.76%	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period

Average weighted waste intensity score against the Index/Benchmark - Refinitiv	Not applicable	Not applicable	95.5	359.44

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and

stewardship. In this process, the following PAIs were taken into account:

- PAI 1: GHG emissions Scope 1,2 & 3 (via portfolio construction);
- PAI 2: Carbon footprint Scope 1,2, & 3 (via portfolio construction);
- PAI 3: GHG intensity of investee companies (via portfolio construction);
- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 5: Share of Non-Renewable Energy Consumption and Production (via sustainable investment framework);
- PAI 6: Energy Consumption Intensity per High Impact Climate Sector (via sustainable investment framework);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 8: Emissions to water (via sustainable investment framework);
- PAI 9: Hazardous waste and radioactive waste ratio (via sustainable investment framework);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 12: Unadjusted Gender Pay Gap (via sustainable investment framework);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country

ARTS, ENTERTAINMENT AND RECREATION - Creative, arts and entertainment activities	0.02

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0.2602

What was the share of socially sustainable investments?

0.1874

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Invested in sustainable investments;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Goldman Sachs Global Environmental Transition Equity

Legal entity identifier:

Environmental and/or social characteristics

Does this financial product have a sustainable investment objective ?

☒ ☐ ☐

Yes

☐ ☒ ☒

No

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st October 2023- 6th November 2023, the Sub-Fund promoted environmental and social characteristics. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator ‘Excluding investments in issuers involved in controversial activities’.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 6th November 2023 - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:
 - Controversial weapons (including nuclear weapons)
 - Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Artic oil and gas.)
 - Tobacco
 - Adult entertainment

- For-profit prisons
- Civilian firearms

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Percentage of companies in the Sub-Fund that are transitioning to a lower environmental footprint.
- The performance of this characteristic was measured with the indicator 'Percentage of companies transitioning to a lower environmental footprint'.

How did the sustainability indicators perform?

From 1 October 2023 - 6th November 2023, the Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
- These investments have been excluded in line with the description provided in the previous question.

From 6th November 2023 - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Arctic oil and gas.)
- Tobacco
- Adult entertainment
- For-profit prisons
- Civilian firearms

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
- These investments have been excluded in line with the description provided in the previous question.

- 100% of companies transitioning to a lower environmental footprint.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	N/A	N/A
Companies invested in by the Portfolio that were directly engaged in, and/or derived significant revenue from excluded activities (as outlined above)	N/A	0	%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	N/A	These investments have been excluded in line with the description provided in the previous question	N/A
Percentage of companies transitioning to a lower environmental footprint	N/A	100	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel industry • Activities negatively affecting biodiversity sensitive areas • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
Non-mandatory Climate PAIs	• Investing in companies without carbon emission reduction initiatives • Land degradation, desertification, soil sealing • Investments in companies without sustainable land or agriculture practices or policies • Natural species and protected areas • Deforestation
Non-mandatory Social PAIs	• Rate of accidents • Number of days lost to injuries, accidents, fatalities or illness • Number of incidents of discrimination • Number of incidents of discrimination leading to sanctions • Excessive CEO pay ratio

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
UNITED PARCEL SERVICE INC.	Transporting and storage	4.66%	US
WALMART INC.	Wholesale and retail trade; repair of motor vehicles and motorcycles	4.55%	US
HITACHI LTD.	Information and communication	4.51%	JP
FIRSTENERGY CORP.	Electricity gas steam and air conditioning supply	4.33%	US
XCEL ENERGY INC.	Electricity gas steam and air conditioning supply	4.31%	US

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

AMEREN CORPORATION	Electricity gas steam and air conditioning supply	3.93%	US
HONEYWELL INTERNATIONAL INCORPORATION	No NACE data available	3.88%	US
PACKAGING CORPORATION OF AMERICA	Manufacturing	3.63%	US
WASTE CONNECTIONS INC.	Water supply; sewerage waste management and remediation activities	3.57%	CA
NESTLE S.A.	Manufacturing	3.52%	CH
AMAZON.COM INC.	Wholesale and retail trade; repair of motor vehicles and motorcycles	3.52%	US
GENERAL MOTORS COMPANY	Manufacturing	3.38%	US
NORFOLK SOUTHERN CORPORATION	Transporting and storage	3.36%	US

What was the proportion of sustainability-related investments?

Over the reference period, 98.56% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 98.56% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

144 % of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 90% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

Asset allocation
describes the share of
investments in specific
assets.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	0.73%
Derivatives	Forward	0.04%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	9.94%
Information and communication	Computer programming consultancy and related activities	2.38%
Manufacturing	Manufacture of basic metals	2.31%
	Manufacture of beverages	2.48%
	Manufacture of chemicals and chemical products	3.46%
	Manufacture of coke and refined petroleum products	8.57%
	Manufacture of food products	0.93%
	Manufacture of motor vehicles trailers and semi-trailers	4.69%
	Manufacture of other non-metallic mineral products	2.93%
	Manufacture of other transport equipment	1.39%
	Manufacture of paper and paper products	2.19%
Mining and quarrying	Extraction of crude petroleum and natural gas	2.28%
	Mining of metal ores	1.70%
	Other mining and quarrying	1.77%
No NACE data available	No NACE data available	1.42%
Transporting and storage	Air transport	1.81%
	Land transport and transport via pipelines	2.25%
	Postal and courier activities	3.28%
Water supply; sewerage waste management and remediation activities	Waste collection treatment and disposal activities; materials recovery	2.25%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	4.90%
	Wholesale trade except of motor vehicles and motorcycles	2.95%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

☐ Yes

☐ In fossil gas

☐ In nuclear energy

☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under ‘other’ were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for financial products referred to in Article 9 (1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name:
Goldman Sachs Global Equity Impact Opportunities

Legal entity identifier:
549300B4KPB2FJB2YZ07

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
☒ Yes	☐ No
☒ It made sustainable investments with an environmental objective: 48.40% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ It made sustainable investments with a social objective: 50.81%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☐ It promoted E/S characteristics, but didnot make any sustainable investments

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

From 1st October 2023 - 26th February 2024, the Sub-Fund used an active management approach which aims at investing in companies that generate a positive societal and environmental impact by contributing to promote the quality of human life, protecting the climate and environment and strengthening access to inclusive economic growth through innovative technologies.

The Sub-Fund focused its investments on companies that contribute positively to one or more UN SDGs related to: 1) Promoting the quality of human life, 2) Protecting the climate and environment, 3) Strengthening access to inclusive growth.

- Each of the Sub-Fund's equity holdings has been aligned to one or more of the following SDGs:
- No Poverty
 - Zero Hunger
 - Good Health and Well-being
 - Quality Education
 - Clean Water and Sanitation
 - Affordable and Clean Energy
 - Decent Work and Economic Growth
 - Industry, Innovation and Infrastructure
 - Reduced Inequality,
 - Sustainable Cities and Communities
 - Responsible Consumption and Production
 - Climate Action and
 - Peace, Justice and Strong Institutions

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 26th February - 30th September 2024, the Sub-Fund sought to create positive environmental and social impact by investing in companies that the Management Company considered to be sustainable investments, and which provide solutions that drive environmental and social sustainability, by virtue of their alignment to key themes associated with solving environmental and social problems.

The key themes (thematic alignment) are represented by companies that, in the Management Company's view, provide, invest in or help create products, services or technologies in areas including but not limited to:

- Thriving Communities – in areas such as affordable housing, digital inclusion, access to clean water and sanitation, access to clean energy.
- Economic Empowerment – in areas such as education for all, equal job opportunities, financial inclusion.
- Safe Society – in areas such as data privacy and security, human safety, climate change resilience, accountable and transparent institutions.
- Good Health & Well-Being – in areas such as nutritious food, accessible and innovative healthcare, active lifestyle.
- Clean Energy – in areas such as solar energy, wind energy, bioenergy, energy storage, grid services and carbon sequestration.
- Resource Efficiency – in areas such as electric and autonomous vehicles, sustainable manufacturing, logistics and smart cities.
- Sustainable Consumption – in areas such as agriculture, food, tourism and fashion.
- Circular Economy - in areas such as recycling and reuse, waste management and single-use substitution.
- Water Sustainability - in areas such as water treatment, water distribution and desalination.

Additionally, the Sub-Fund has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which over the reference period included but were not limited to:

- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- alcohol
- adult entertainment;
- for-profit prisons;
- civilian firearms;
- gambling;
- controversial weapons (including nuclear weapons)

The Sub-Fund additionally excluded from its investment universe companies the Management Company believes to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

How did the sustainability indicators perform?

From 1 October 2023 - 26th February 2024, the Sub-Fund used the following sustainability indicators to measure the sustainable investment objective of the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.

- Average weighted ESG Rating:
Sub-Fund: 18.11
Benchmark: 21.87

- Average weighted waste intensity score:
Sub-Fund: 4.47
Benchmark: 403.18

- Average weighted water intensity score:
Sub-Fund: 1524.69
Benchmark: 4431.05

- Percentage of Sustainable Investments was 98.25

From 26th February - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 100% of companies in the Sub-Fund demonstrating material alignment to one or more of the key themes according to the Management Company's assessment

- Aggregate contribution of companies held in the Sub-Fund to social impact key performance indicators, as collected on a lagged annual basis:

- 32.1 million people using mobile-phone-based payment services in Africa, 800,000 households in India provided with finance, of which 64% are people in lower- and middle-income groups
- 30 million jobs searchable online around the world per day on average, 35 million entrepreneurs and SMEs provided with digital solutions
- 18.7 million people accessing affordable fitness facilities, 2.3 million patients equipped with a continuous glucose monitor
- 125 low- and middle-income countries provided with scientific information for researchers
- 677 million people provided with foods containing essential micronutrients
- 25 GW of renewable energy capacity installed
- 312 million metric tons of CO₂e emissions avoided
- 2 million meals containing fresh food produced per day
- 15.2 million tons of waste recycled
- 2.7 million megaliters of water saved

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
- tobacco
- alcohol
- adult entertainment
- for-profit prisons
- civilian firearms
- gambling
- controversial weapons (including nuclear weapons)

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact.
These investments have been excluded in line with the description provided in the previous question.

- Average weighted carbon intensity score against the Index/Benchmark:
Sub-Fund: 104.56 Scope 123 (Tons CO₂ / \$M EVIC)
Benchmark: 367.38 Scope 123 (Tons CO₂ / \$M EVIC)

- 100% of companies in the Sub-Fund determined to meet the Management Company's sustainable impact revenue threshold over the period by which the Sub-Fund was Article 9.

Percentage of companies in the Sub-Fund determined to meet the Management Company's sustainable impact revenue threshold over the period by which the Sub-Fund was Article 9	N/A	100	%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
Non-mandatory Climate PAIs	• Investing in companies without carbon emission reduction initiatives • Land degradation, desertification, soil sealing • Investments in companies without sustainable land or agriculture practices or policies • Natural species and protected areas • Deforestation
Non-mandatory social PAIs	• Rate of accidents • Number of days lost to injuries, accidents, fatalities or illness • Number of incidents of discrimination • Number of incidents of discrimination leading to sanctions • Excessive CEO pay ratio

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
UNITEDHEALTH GROUP INCORPORATED	Financial and insurance activities	4.18%	US
THERMO FISHER SCIENTIFIC INCORPORATED	Manufacturing	3.92%	US
SCHNEIDER ELECTRIC SE	Manufacturing	3.57%	FR
AMERICAN WATER WORKS COMPANY INC.	Water supply; sewerage waste management and remediation activities	3.47%	US
TYLER TECHNOLOGIES INC.	Information and communication	3.41%	US
TRANE TECHNOLOGIES PLC	Manufacturing	3.36%	IE
EXPERIAN PLC	Administrative and support service activities	3.35%	GB
HALMA PUBLIC LIMITED COMPANY	Manufacturing	3.23%	GB
HDFC BANK LIMITED	Financial and insurance activities	3.03%	IN
WASTE MANAGEMENT INC.	Water supply; sewerage waste management and remediation activities	2.88%	US

INTUITIVE SURGICAL INC.	Manufacturing	2.82%	US
MERCADOLIBRE INC.	Wholesale and retail trade; repair of motor vehicles and motorcycles	2.73%	US
INTUIT INC.	Information and communication	2.57%	US
SIKA AG	Manufacturing	2.54%	CH
AIA GROUP LIMITED	Financial and insurance activities	2.51%	HK

What was the proportion of sustainability-related investments?

Over the reference period, 99.21% of investments were aligned to the sustainable investment objective of the Sub-Fund.

What was the asset allocation?

Over the reference period, 99.21% of investments were aligned to the sustainable investment objective of the Sub-Fund, of which 48.40% were environmentally and 50.81% were socially sustainable aligned.

0.79% were held in cash, cash equivalents, and derivatives.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Administrative and support service activities	Employment activities	2.27%
	Office administrative office support and other business support activities	3.35%
Agriculture forestry and fishing	Fishing and aquaculture	1.69%
Arts entertainment and recreation	Sports activities and amusement and recreation activities	1.44%
Cash	Cash	0.77%
Construction	Civil engineering	4.13%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	4.33%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	1.26%
	Financial service activities except insurance and pension funding	3.03%
	Insurance reinsurance and pension funding except compulsory social security	6.69%
Information and communication	Computer programming consultancy and related activities	7.52%
	Information service activities	2.48%
	Publishing activities	9.32%
Manufacturing	Manufacture of basic pharmaceutical products and pharmaceutical preparations	2.51%
	Manufacture of chemicals and chemical products	2.54%

	Manufacture of computer electronic and optical products	22.64%
	Manufacture of electrical equipment	3.57%
	Manufacture of machinery and equipment n.e.c.	5.27%
	Manufacture of paper and paper products	1.50%
	Other manufacturing	0.84%
Professional scientific and technical activities	Activities of head offices; management consultancy activities	3.76%
Water supply; sewerage waste management and remediation activities	Waste collection treatment and disposal activities; materials recovery	2.88%
	Water collection treatment and supply	3.47%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	2.73%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy'?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Whilst this Sub-Fund has invested in sustainable investments, it does not specifically commit to a minimum proportion of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Hence, the minimum commitment is 0%.

What was the share of socially sustainable investments?

The share in socially sustainable investments was 50.81%.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Goldman Sachs Global Equity Income
Legal entity identifier: 5493000WZY3YLO3WB727

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?
Yes No
It made sustainable investments with an environmental objective: %
It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments
It made sustainable investments with a social objective: %
It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
- the controversial supply of weapons (0%);
- the production of tobacco (≥50%);
- the production of oil sands and controversial pipelines (>20%);
- the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Exposure to companies active in the fossil fuel sector • Activities negatively affecting biodiversity sensitive areas • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
MICROSOFT CORPORATION	Information and communication	3.28%	US
SHELL PLC	Mining and quarrying	3.19%	GB
JPMORGAN CHASE & CO.	Financial and insurance activities	3.01%	US

ACCENTURE PUBLIC LIMITED COMPANY	Information and communication	1.97%	US

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

What was the proportion of sustainability-related investments?

Over the reference period, 97.17% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 97.17% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

2.83% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Accommodation and food service activities	Food and beverage service activities	2.07%
Cash	Cash	2.70%
Construction	Civil engineering	0.98%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	7.80%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	3.99%
	Financial service activities except insurance and pension funding	9.76%
	Insurance reinsurance and pension funding except compulsory social security	3.67%
Information and communication	Computer programming consultancy and related activities	3.33%

	Mining of metal ores	1.99%
No NACE data available	No NACE data available	2.14%
Professional scientific and technical activities	Scientific research and development	1.28%
Real estate activities	Real estate activities	3.82%
Transporting and storage	Postal and courier activities	1.51%
	Warehousing and support activities for transportation	1.70%
Water supply; sewerage waste management and remediation activities	Waste collection treatment and disposal activities; materials recovery	1.82%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	6.72%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

☐ Yes

☐ In fossil gas

☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of

sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the criteria for fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Global Food & Beverages Equity

Legal entity identifier: 549300O10HV1YHZ8SN95

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

3. Took ESG factors of each issuer into account in the investment decision-making process. The Sub-Fund met this characteristic by applying a proprietary approach to ESG integration. The Sub-Fund ensured during the reporting period that it had a better average weighted ESG score than the benchmark of the Sub-Fund. The Sub-Fund integrates the information on environmental, social and governance factors for its investments based on a proprietary ESG Integration approach. ESG Integration involves incorporating the ESG analysis into investment decision making, which takes into account not just the financial, but also the environmental, social and governance factors of the issuer.

The performance of this characteristic was measured with the indicator 'average weighted ESG Rating versus the benchmark'

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Number of issuers excluded from the investment universe based on the Exclusion List	These investments have been excluded in line with the description provided in the previous question	Not applicable

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

What were the top investments of this financial product?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes

☐ In fossil gas
 ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Global Health Care Equity

Legal entity identifier: 549300MA6C2SRZN61561

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

3. Took ESG factors of each issuer into account in the investment decision-making process. The Sub-Fund met this characteristic by applying a proprietary approach to ESG integration. The Sub-Fund ensured during the reporting period that it had a better average weighted ESG score than the benchmark of the Sub-Fund. The Sub-Fund integrates the information on environmental, social and governance factors for its investments based on a proprietary ESG Integration approach. ESG Integration involves incorporating the ESG analysis into investment decision making, which takes into account not just the financial, but also the environmental, social and governance factors of the issuer.

The performance of this characteristic was measured with the indicator 'average weighted ESG Rating versus the benchmark'

● *How did the sustainability indicators perform?*

Indicator	Portfolio	Benchmark
Number of issuers excluded from the investment universe based on the Exclusion List	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers involved in material violations of internationally recognised standards for example: OECD Guidelines for Multinational Enterprises the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted ESG Rating against the Index/Benchmark - Sustainability Risk Rating	17.46	21.02

● ...and compared to previous periods?

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark

Number of issuers involved in material violations of internationally recognised standards] for example: OECD Guidelines for Multinational Enterprises] the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted ESG Rating against the Index/Benchmark - Sustainalytics Risk Rating	17.46	21.02	20.1	21.36

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/11/2023

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx)

showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?	
☒ Yes	☐ No
☐ It made sustainable investments with an environmental objective: % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: %	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st October 2023 - 6th November 2023, the Sub-Fund promoted environmental and social characteristics. More specifically:

- Limited investments in companies involved in controversial activities.
- During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 6th November 2023 - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:
- Controversial weapons (including nuclear weapons)
 - Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
 - Tobacco
 - Adult entertainment

- For-profit prisons
- Civilian firearms

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

How did the sustainability indicators perform?

From 1 October 2023 - 6th November 2023, the Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:

These investments have been excluded in line with the description provided in the previous question.

From 6th November 2023 - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas)
- Tobacco
- Adult entertainment
- For-profit prisons
- Civilian firearms

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:

These investments have been excluded in line with the description provided in the previous question.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities	These investments have been excluded in line with the description provided in the previous question	N/A	N/A
Companies invested in by the Portfolio that were directly engaged in, and/or derived significant revenue from excluded activities	Not applicable	0	%
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel industry • Activities negatively affecting biodiversity sensitive areas • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
Non-mandatory Climate PAIs	• Investing in companies without carbon emission reduction initiatives • Land degradation, desertification, soil sealing • Investments in companies without sustainable land or agriculture practices or policies • Natural species and protected areas • Deforestation

Non-mandatory Social PAIs	- Rate of accidents - Number of days lost to injuries, accidents, fatalities or illness - Number of incidents of discrimination - Number of incidents of discrimination leading to sanctions - Excessive CEO pay ratio

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
PROLOGIS INC.	Real estate activities	7.22%	US

What was the proportion of sustainability-related investments?

Over the reference period, 96.53% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 96.53% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

3.47% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 90% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Accommodation and food service activities	Accommodation	0.60%
Cash	Cash	2.88%
Construction	Construction of buildings	2.52%
Information and communication	Information service activities	5.58%
	Telecommunications	1.01%
No NACE data available	No NACE data available	0.42%
Real estate activities	Real estate activities	85.82%
Transporting and storage	Warehousing and support activities for transportation	1.16%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes

☐ In fossil gas
 ☐ In nuclear energy

☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

Category	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0%	0%	0%
Taxonomy-aligned: Nuclear	0%	0%	0%
Taxonomy-aligned (no gas and nuclear)	0%	0%	0%
Non Taxonomy-aligned	100%	100%	100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

Category	Turnover	CapEx	OpEx
Taxonomy-aligned: Fossil gas	0%	0%	0%
Taxonomy-aligned: Nuclear	0%	0%	0%
Taxonomy-aligned (no gas and nuclear)	0%	0%	0%
Non Taxonomy-aligned	100%	100%	100%

This graph represents 100% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change(“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Sustainable investment objective

Did this financial product have a sustainable investment objective?

☒

Yes

☐

No

☒

It made **sustainable investments with an environmental objective**: 30.11%

☐

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☒

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☒

It made **sustainable investments with a social objective**: 69.49%

☐

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments

☐

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

☐

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐

with a social objective

☐

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent was the sustainable investment objective of this financial product met?

From 1st October 2023 - 26th February 2024, the Sub-Fund used an active management approach which aims at investing in companies that generate a positive societal and environmental impact alongside a financial return.

In line with its investment objective and policy, the Sub-Fund focused its investments on companies that contribute positively to one or more UN SDGs related to improved connectivity and sustainable economic growth.

Each of the Sub-Fund's equity holdings has been aligned to one or more of the following SDGs:

Decent Work and Economic Growth,
Industry, Innovation and Infrastructure,
Reduced Inequality,
Sustainable Cities and Communities,
Peace, Justice and Strong Institutions.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 26th February - 30th September 2024, the Sub-Fund sought to create positive social impact by investing in companies that the Management Company considered to be sustainable investments, and which provide solutions that drive social sustainability, by virtue of their alignment to key themes associated with solving environmental problems.

The key themes (thematic alignment) are represented by companies that, in the Management Company's view, provide, invest in or help create products, services or technologies in areas including but not limited to:

- Thriving Communities – in areas such as affordable housing, digital inclusion, access to clean water and sanitation, access to clean energy.
- Economic Empowerment – in areas such as education for all, equal job opportunities, financial inclusion.
- Safe Society – in areas such as data privacy and security, human safety, climate change resilience, accountable and transparent institutions.

680

- Good Health & Well-Being – in areas such as nutritious food, accessible and innovative healthcare, active lifestyle.

Additionally, the Sub-Fund has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which over the reference period included but were not limited to:

- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco
- alcohol
- adult entertainment
- for-profit prisons
- civilian firearms
- gambling
- controversial weapons (including nuclear weapons)

The Sub-Fund additionally excluded from its investment universe companies the Management Company believes to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

How did the sustainability indicators perform?

From 1 October 2023 - 26th February 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities and in issuers involved in controversial behaviour in line with the Management Company's Policy
These investments have been excluded in line with the description provided in the previous question.

• Average weighted ESG Rating:
Sub-Fund: 18.07
Benchmark: 21.87

From 26th February - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 100% of companies in the Sub-Fund demonstrating material alignment to one or more of the key themes according to the Management Company's assessment

- Aggregate contribution of companies held in the Sub-Fund to social impact key performance indicators, as collected on a lagged annual basis:

- 144 million people reached with telecommunication services coverage, 3.2 million people reached with water services, 3 million students provided with virtual study and exam preparation materials
- 35 million entrepreneurs and SMEs provided with digital solutions, 45 million loans granted to entrepreneurs and SMEs
- 1 million diagnostic tests performed per hour around the world, 14.2 million minimally invasive robotic procedures performed, 45 million patients provided with access to mental health services through a US-based insurance company
- 65% improvement in detecting breast cancer cases by 3D mammography tests
- 40 million workers protected annually through safety gear and equipment, 41 million users protected from cybersecurity threats

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:

- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco
- alcohol
- adult entertainment
- for-profit prisons
- civilian firearms
- gambling
- controversial weapons (including nuclear weapons)
- Power generation from non-renewable sources

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact.

These investments have been excluded in line with the description provided in the previous question.

• Average weighted carbon intensity against the benchmark:
Sub-Fund: 73.77 Scope 123 (Tons CO2 / \$M EVIC)
Benchmark: 367.38 Scope 123 (Tons CO2 / \$M EVIC)

- 100% of companies in the Sub-Fund determined to meet the Management Company's sustainable impact revenue threshold over the period by which the Sub-Fund was Article 9.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive wasteratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

Non-mandatory Climate PAIs	- Investing in companies without carbon emission reduction initiatives - Land degradation, desertification, soil sealing - Investments in companies without sustainable land or agriculture practices or policies - Natural species and protected areas - Deforestation
Non-mandatory social PAIs	- Rate of accidents - Number of days lost to injuries, accidents, fatalities or illness - Number of incidents of discrimination - Number of incidents of discrimination leading to sanctions - Excessive CEO pay ratio

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
AMERICAN WATER WORKS COMPANY INC.	Water supply; sewerage waste management and remediation activities	4.34%	US
UNITEDHEALTH GROUP INCORPORATED	Financial and insurance activities	4.14%	US
TYLER TECHNOLOGIES INC.	Information and communication	3.94%	US

TERNA - RETE ELETTRICA NAZIONALE SOCIETA PER AZIONI	Electricity gas steam and air conditioning supply	2.78%	IT
INTUITIVE SURGICAL INC.	Manufacturing	2.76%	US

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Over the reference period, 99.60% of investments were aligned to the sustainable investment objective of the Sub-Fund.

What was the asset allocation?

Over the reference period, 99.60% of investments were aligned to the sustainable investment objective of the Sub-Fund, of which 30.11% were environmentally and 69.49% were socially sustainable aligned. 0.40% were held in cash, cash equivalents, and derivatives.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Administrative and support service activities	Employment activities	2.86%
	Office administrative office support and other business support activities	3.10%
Agriculture forestry and fishing	Fishing and aquaculture	1.75%
Arts entertainment and recreation	Sports activities and amusement and recreation activities	2.38%
Cash	Cash	0.39%
Construction	Civil engineering	4.40%
Education	Education	2.25%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	2.78%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	1.77%
	Financial service activities except insurance and pension funding	4.20%
	Insurance reinsurance and pension funding except compulsory social security	8.33%
Information and communication	Computer programming consultancy and related activities	9.50%
	Information service activities	3.64%
	Publishing activities	7.08%
	Telecommunications	1.08%
Manufacturing	Manufacture of basic pharmaceutical products and pharmaceutical preparations	2.33%
	Manufacture of chemicals and chemical products	1.00%
	Manufacture of computer electronic and optical products	19.36%
	Manufacture of food products	2.40%
	Manufacture of machinery and equipment n.e.c.	1.77%

	Architectural and engineering activities; technical testing and analysis	1.59%
Real estate activities	Real estate activities	1.04%
Water supply; sewerage waste management and remediation activities	Water collection treatment and supply	4.34%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	2.44%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Whilst this Sub-Fund has invested in sustainable investments, it does not specifically commit to a minimum proportion of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Hence, the minimum commitment is 0%.

What was the share of socially sustainable investments?

The share in socially sustainable investments was 69.49%.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒ ☐ ☒ No

☐ It made sustainable investments with an environmental objective : % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 65.85% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective
☐ It made sustainable investments with a social objective : %	☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

From the 1st October 2023- 26th February 2024, the Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
- During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - Small arms and military contracting (>5%);
 - the production of tobacco ($\geq 5\%$) and retail (>10%);
 - the production of oil sands and controversial pipelines (>10%);
 - the extraction of thermal coal (>5%);
 - adult entertainment (>5% for production and >10% for distribution);
 - fur & specialty leather (>5% for production and >10% for distribution);
 - gambling operations (>5%) and supporting products and services (50%);
 - nuclear energy (0%, when the issuer is constructing additional nuclear-based power production installations);
 - shale oil & gas and arctic drilling (combined >10%);

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Water intensity

The Sub-Fund applied screening regarding the water intensity of investee companies. In line with the ambition of the Sub-Fund the water intensity of the Sub-Fund was better than the water intensity of the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted water intensity score'.

- Waste intensity

The Sub-Fund applied screening regarding the waste intensity of investee companies. In line with the ambition of the Sub-Fund the waste intensity of the Sub-Fund was better than the waste

intensity of the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted waste intensity score'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

From 26th February - 30th September 2024, The Management Company has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

- As part of the ESG investment process, the Management Company has not invested in companies that are, in the opinion of the Management Company, directly engaged in, and/or deriving significant revenues from the following activities, which included but were not limited to:

- Controversial weapons (including nuclear weapons)
- Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Arctic oil and gas.)
- Tobacco
- Alcohol
- Adult entertainment
- Gambling
- For-profit prisons
- Civilian firearms

The performance of this characteristic was measured with the indicator 'Companies invested in by the Sub-Fund that were directly engaged in, and/or derived significant revenue from excluded activities'.

- The Sub-Fund took ESG factors of each issuer into account in the investment decision-making process.

The performance of this characteristic was measured with the indicator 'average weighted ESG Rating against the benchmark'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

- Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower compared to the Benchmark.

- Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

How did the sustainability indicators perform?

From 1 October 2023 - 26th February 2024, the Sub-Fund used the following sustainability indicator to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Average weighted water intensity score:
Sub-Fund: 270.89
Benchmark: 4323.28
- Average weighted waste intensity score:
Sub-Fund: 3.86
Benchmark: 359.44

From 2th February - 30th September 2024, the Sub-Fund used the following sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:
 - Controversial weapons (including nuclear weapons)
 - Extraction and/or production of certain fossil fuels (including thermal coal, oil sands, Artic oil and gas.)
 - Tobacco
 - Alcohol
 - Adult entertainment
 - Gambling
 - For-profit prisons
 - Civilian firearms
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.
- Average weighted ESG rating versus the Benchmark.
Sub-Fund: 3.18
Benchmark: 3.00
- Average weighted carbon intensity of the Sub-Fund was lower compared to the Benchmark:
Sub-Fund: 97.5 Scope 123 (Tons CO2 / \$M EVIC)
Benchmark: 330.35 Scope 123 (Tons CO2 / \$M EVIC)
- 65.85% was invested in sustainable investments.

... and compared to previous periods ?

Percentage Sustainable Investments	62.3	65.84	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

Non-mandatory Climate PAIs	- Investing in companies without carbon emission reduction initiatives - Land degradation, desertification, soil sealing - Investments in companies without sustainable land or agriculture practices or policies - Natural species and protected areas - Deforestation
Non-mandatory Social PAIs	- Rate of accidents - Number of days lost to injuries, accidents, fatalities or illness - Number of incidents of discrimination - Number of incidents of discrimination leading to sanctions - Excessive CEO pay ratio

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
MICROSOFT CORPORATION	Information and communication	7.15%	US
APPLE INC.	Manufacturing	5.95%	US
NVIDIA CORPORATION	Manufacturing	4.43%	US
ALPHABET INC.	Information and communication	4.37%	US
UNITEDHEALTH GROUP INCORPORATED	Financial and insurance activities	3.59%	US
VISA INC.	Financial and insurance activities	2.87%	US
3I GROUP PLC	Financial and insurance activities	2.85%	GB

AMAZON.COM INC.	Wholesale and retail trade; repair of motor vehicles and motorcycles	2.77%	US
BROWN & BROWN INC.	Financial and insurance activities	2.75%	US
ASML HOLDING N.V.	Manufacturing	2.67%	NL
THERMO FISHER SCIENTIFIC INCORPORATED	Manufacturing	2.55%	US
NESTLE S.A.	Manufacturing	2.48%	CH
NOVO NORDISK A/S	Manufacturing	2.47%	DK
AIA GROUP LIMITED	Financial and insurance activities	2.43%	HK

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

What was the proportion of sustainability-related investments?

Over the reference period, 99.31% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 99.31% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund. 0.69% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

And while the Sub-Fund did not have as its objective a sustainable investment, it had a proportion of 65.85% sustainable investments, of which 40.77% were other environmentally and 25.08% were socially sustainable investments.

Asset allocation describes the share of investments in specific assets.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Accommodation and food service activities	Food and beverage service activities	1.87%
Administrative and support service activities	Employment activities	1.55%
Cash	Cash	0.68%
Derivatives	Forward	-0.01%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	8.42%
	Financial service activities except insurance and pension funding	2.85%
	Insurance reinsurance and pension funding except compulsory social security	10.75%
Information and communication	Computer programming consultancy and related activities	1.91%
	Information service activities	9.11%
	Publishing activities	12.53%
Manufacturing	Manufacture of basic pharmaceutical products and pharmaceutical preparations	4.15%
	Manufacture of beverages	2.48%
	Manufacture of chemicals and chemical products	7.19%
	Manufacture of coke and refined petroleum products	0.47%
	Manufacture of computer electronic and optical products	17.52%
	Manufacture of electrical equipment	1.90%
	Manufacture of food products	2.25%
	Manufacture of leather and related products	1.12%

	Manufacture of machinery and equipment n.e.c.	4.80%
	Manufacture of motor vehicles trailers and semi-trailers	1.24%
Professional scientific and technical activities	Scientific research and development	1.61%
Water supply; sewerage waste management and remediation activities	Waste collection treatment and disposal activities; materials recovery	1.51%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	4.00%
	Wholesale trade except of motor vehicles and motorcycles	0.11%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy'?

☐ Yes

☐ In fossil gas

☐ In nuclear energy

☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 40.77%.

What was the share of socially sustainable investments?

The share of socially sustainable investments was 25.08%.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under ‘other’ were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company’s Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team’s engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team’s thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Goldman Sachs North America
Enhanced Index Sustainable Equity

Legal entity
identifier: 549300BCWEKCL173WB8

8

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes
☐ ☒ No

☐ It made **sustainable investments with an environmental objective**:_%

☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective**:_%

☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 42.41% of sustainable investments

☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
☒ with a social objective

☐ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - Controversial Weapons (Any Tie)
 - Nuclear Weapons (Any Tie)
 - Tobacco Revenue (5%)
 - Tobacco Production (Any Tie)
 - Thermal Coal Extraction Revenue (5%)
 - Thermal Coal Power Revenue (5%)
 - Fossil Fuel Power Revenue (5%)
 - Gambling Revenue (5%)
 - Adult Entertainment Revenue (5%)
 - All Weapons-Related Revenue (5%)
 - Unconventional Oil & Gas Revenue (5%)
 - Oil & Gas Revenue (5%)

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment

restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

2. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

3. Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was better than the carbon intensity of the Benchmark.

From 1st October 2023 - 29th February 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - ISS Scope 1 + 2 + 3', sourced by ISS.

From 1st March - 30th September 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - MSCI Scope 1 + 2 + 3', sourced by MSCI.

4. Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

● ***How did the sustainability indicators perform?***

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable
Average weighted carbon intensity score against the universe - MSCI Scope 1 + 2 + 3	389.3	719.6
Percentage of Sustainable Investments	42.41%	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	
Average weighted carbon intensity score against the universe - MSCI Scope 1 + 2 + 3	389.3	719.6	224.1	728.82
Percentage of Sustainable Investments	42.41%	Not applicable	37.97%	Not applicable
Average weighted waste intensity score against the Index/Benchmark - Refinitiv	Not applicable	Not applicable	151.62	317.17

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and

stewardship. In this process, the following PAIs were taken into account:

- PAI 1: GHG emissions Scope 1,2 & 3 (via portfolio construction);
- PAI 2: Carbon footprint Scope 1,2, & 3 (via portfolio construction);
- PAI 3: GHG intensity of investee companies (via portfolio construction);
- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 5: Share of Non-Renewable Energy Consumption and Production (via sustainable investment framework);
- PAI 6: Energy Consumption Intensity per High Impact Climate Sector (via sustainable investment framework);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 8: Emissions to water (via sustainable investment framework);
- PAI 9: Hazardous waste and radioactive waste ratio (via sustainable investment framework);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 12: Unadjusted Gender Pay Gap (via sustainable investment framework);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

What were the top investments of this financial product?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

☐ Yes

☐ In fossil gas

☐ In nuclear Energy

☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0.2492

What was the share of socially sustainable investments?

0.1749

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Invested in sustainable investments;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Yes No
It made sustainable investments with an environmental objective: %
It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
- the controversial supply of weapons (0%);
- the production of tobacco (≥50%);
- the production of oil sands and controversial pipelines (>20%);
- the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- 0% of the companies invested in by the Sub-Fund were directly engaged in, and/or derived significant revenues from:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Exposure to companies active in the fossil fuel sector • Activities negatively affecting biodiversity sensitive areas • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
MICROSOFT CORPORATION	Information and communication	7.58%	US

What was the proportion of sustainability-related investments?

Asset allocation
describes the share of investments in specific assets.

Over the reference period, 99.49% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 99.49% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

0.51% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 90% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	0.51%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	3.61%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	4.50%
	Financial service activities except insurance and pension funding	4.72%
	Insurance reinsurance and pension funding except compulsory social security	4.84%
Information and communication	Computer programming consultancy and related activities	3.06%
	Information service activities	3.22%
	Publishing activities	11.33%
	Telecommunications	2.31%
Manufacturing	Manufacture of basic pharmaceutical products and pharmaceutical preparations	7.06%
	Manufacture of beverages	3.36%
	Manufacture of chemicals and chemical products	6.04%
	Manufacture of computer electronic and optical products	18.19%
	Manufacture of electrical equipment	3.16%

Manufacturing	Manufacture of leather and related products	1.74%
	Manufacture of machinery and equipment n.e.c.	3.04%
	Other manufacturing	1.29%
Mining and quarrying	Extraction of crude petroleum and natural gas	2.48%
No NACE data available	No NACE data available	2.56%
Professional scientific and technical activities	Scientific research and development	2.02%
Real estate activities	Real estate activities	2.98%
Water supply; sewerage waste management and remediation activities	Waste collection treatment and disposal activities; materials recovery	1.77%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	6.23%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy’?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change(“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Management Company leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Sub-Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Goldman Sachs AAA ABS
Legal entity identifier:
549300DV6X6ZJLHWYD81

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒ Yes
☐ No

It made sustainable investments with an environmental objective: ___%
- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective: ___%

It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- 1. Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- 2. The Sub-Fund met this characteristic by applying the Manager's approach to ESG integration. The purpose in advance was to use ESG information in the assessment of companies to identify risks or opportunities in the field of ESG. During the reporting period, in accordance with the objective, environmental, social and governance (ESG) risks and opportunities for the majority of investments were (1) identified on the basis of materiality, (2) consistently assessed throughout the investment process and (3) systematically documented. The additional insight provided by the ESG data was used to mitigate risks and exploit new investment opportunities.
 - Re 1. ESG factors were identified that were deemed relevant (material) for individual sectors based on an internal framework. The framework consists of 4 pillars: business model, governance, environmental and social factors. The governance, social and environmental factors are again subdivided into specific topics.
 - Re 2. The previous assessment translates into a large number of data points that result in an overall ESG score. This ESG score and/or the underlying data influence the internal assessment of a company. The scorecards took into account Environmental, Social and Governance factors and were calibrated to return a below 50% score for a security that did not encompass any ESG features and also for an originator/collateral manager that did not respond positively towards engagement. The scorecards have been scrutinised by both the Risk Management and Responsible Investments teams.
 - Re 3. The ESG score and the analysis of the underlying information influence the assessment of a

company and this is recorded in an investment case.

The performance of this characteristic was measured with the indicator 'Percentage of securities with a minimum ESG rating of 50' meaning securities that had an above average (50%) score as mentioned under Re 2 above.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.

Percentage of securities with a minimum ESG rating of 50' meaning securities that had an above average (50%) score as mentioned under Re 2 above:

These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Percentage of securities with a minimum ESG rating of 50' meaning securities that had an above average (50%) score (as outlined above)	71.92	75.62%	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Asia High Yield (Former NN)

Legal entity identifier: 549300IC47H3JVJ6IW42

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☐ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

- Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/06/2024

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

Oil & Gas	3.37
Transport	2.76
Industrial	2.53

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx)

showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx)

reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund promoted environmental and social characteristics during the entire reporting period via the following actions:

1. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
2. Limited investments in issuers involved in controversial activities;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Goldman Sachs Asian Debt (Hard Currency)

Legal entity identifier: 549300ZSI9I7LF8WJ851

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒
☐

Yes

☐
☒

No

☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a "Call for Action"'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material

violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy’?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change(“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for financial products referred to in Article 9 (1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name: Goldman Sachs Corporate Green Bond
Legal entity identifier: 549300JQ2JWYPCANER60

Sustainable investment objective

Did this financial product have a sustainable investment objective ?
Yes No
[X] It made sustainable investments with an environmental objective: 98.91%
[X] in economic activities that qualify as environmentally sustainable under the EU Taxonomy
[X] in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
[] It made sustainable investments with a social objective: %
[] It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments
[] with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
[] with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
[] with a social objective
[] It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

This Sub-Fund has met the objective during the reporting period by investing in bonds of which the proceeds are used to finance climate and environmental projects contributing positive benefits to the environment by applying the proprietary Green, Social & Sustainability Bond Assessment Methodology that are aligned with the International Capital Markets Association (ICMA) Green Bond Principles.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the sustainable investment objective. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities: These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact: These investments have been excluded in line with the description provided in the previous question.
- 98.91% of the net assets of this Sub-Fund were invested in sustainable investments.
- 98.91% of the net assets of this Sub-Fund were invested in green bonds.
- The percentage of taxonomy alignment was 40.33%.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Percentage Sustainable Investments	99.08	98.91	%
The percentage of the net assets of the Sub-Fund invested in green bonds	99.08	98.91	%
The percentage of Taxonomy alignment	34.64	40.33	%

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country

Transporting and storage	Land transport and transport via pipelines	0.83%
	Water transport	0.54%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	0.78%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Management Company calculated the Taxonomy alignment percentage based on the data provided by the issuers of the bonds.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The minimum share of investments in transitional and enabling activities was 0%.

Most of the Taxonomy aligned investments focussed on Climate Change mitigation. A proportion of the Taxonomy aligned investments could have been related to transitional and enabling activities but the Management Company did not have the data to substantiate this share.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

During the reporting period the Taxonomy aligned percentage was 40.33% compared to previous reporting period 34.64%

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 58.58%.

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of socially sustainable investments?

Whilst this Sub-Fund has made sustainable investments, it did not specifically commit to a minimum proportion of socially sustainable investments. Hence, the minimum commitment is 0%.

As noted above, whether investments made by this Sub-Fund were sustainable investments is determined by reference to the Management Company's Sustainable Investment Framework for assessing the contribution of investments to environmental and/or social objectives. This product did not target one specific category of sustainable investments, but instead assesses all investments made pursuant to its overall investment strategy using the framework.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were mainly cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the SubFund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Emerging Markets Corporate Debt (Former NN)

Legal entity identifier: 549300LPBLPC6RQC8291

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☐ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

- Excluding countries.
During the reporting period, no investments have been made in countries against which arms

embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list'.

3. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria);
- PAI 16: Investee countries subject to social violations (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund promoted environmental and social characteristics during the entire reporting period via the following actions:

1. Excluded countries;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Limited investments in issuers involved in controversial activities;
4. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

☐ ☒ No

☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator ‘Excluding investments in issuers involved in controversial activities’.

- Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a “Call for Action”.

The performance of this characteristic was measured with the indicator ‘Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a “Call for Action”.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator ‘Limiting investments in material

violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact’.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a ‘Call for Action’: These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

	Wholesale trade except of motor vehicles and motorcycles	0.35%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes

☐ In fossil gas

☐ In nuclear energy

☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of

sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx)

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

- What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.
- What was the share of socially sustainable investments?**

This question is not applicable as the Sub-Fund did not make any sustainable investments.
- What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Emerging Markets Debt (Local Currency)

Legal entity identifier: PQNTTFDS5ZW4DUGMCZ09

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective :_% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective :_%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of_% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

Excluding countries.
During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list'.

● How did the sustainability indicators perform?

Indicator	Portfolio	Benchmark
Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list	These investments have been excluded in line with the description provided in the previous question	Not applicable

● **...and compared to previous periods?**

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 16: Investee countries subject to social violations (via restriction criteria).

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

What was the asset allocation?

In which economic sectors were the investments made?

Sector	% Assets
PUBLIC ADMINISTRATION AND DEFENCE; COMPULSORY SOCIAL SECURITY - Administration of the State the economic/social policy	84.24
ACTIVITIES OF EXTRATERRITORIAL ORGANISATIONS AND BODIES -	8.13
Other	5.6
FINANCIAL AND INSURANCE ACTIVITIES - Financial service activities except insurance and pension funding	2.03

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Excluded countries;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Emerging Markets Debt Short Duration (Hard Currency)

Legal entity identifier: 549300WLEKZCCGGUCN
73

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

- Excluding countries.

During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list'.

3. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria);
- PAI 16: Investee countries subject to social violations (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund promoted environmental and social characteristics during the entire reporting period via the following actions:

1. Excluded countries;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Limited investments in issuers involved in controversial activities;
4. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Goldman Sachs Euro Bond
Legal entity identifier: 62IR3CXMHZX5EF2JXK15

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?
Yes No
It made sustainable investments with an environmental objective: %
It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
- the controversial supply of weapons (0%);
- the production of tobacco (≥50%);
- the production of oil sands and controversial pipelines (>20%);
- the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a "Call for Action"'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material

violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact’.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a ‘Call for Action’: These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

What was the proportion of sustainability-related investments?

Over the reference period, 96% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 96% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

4% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 90% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Accommodation and food service activities	Food and beverage service activities	0.17%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes
 ☐ In fossil gas
 ☐ In nuclear energy
 ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of

sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Goldman Sachs Euro Covered Bond
Legal entity identifier: 549300YHUU15EOD17C66

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?
Yes No
It made sustainable investments with an environmental objective: %
It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments
It made sustainable investments with a social objective: %
It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
- the controversial supply of weapons (0%);
- the production of tobacco (≥50%);
- the production of oil sands and controversial pipelines (>20%);
- the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a "Call for Action"'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material

violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

Over the reference period, 98.92% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 98.92% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund. 1.08% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 90% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	1.04%
Collateralized	COVERED BOND	90.29%
Derivatives	Futures	1.52%
Financial and insurance activities	Financial service activities except insurance and pension funding	7.13%
No NACE data available	No NACE data available	0.02%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional**

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change(“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Euro Credit

Legal entity identifier: 549300LI1RIHCWUDJZ28

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

- Excluding countries.
During the reporting period, no investments have been made in countries against which arms

embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list'.

3. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

● *How did the sustainability indicators perform?*

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **...and compared to previous periods?**

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria);
- PAI 16: Investee countries subject to social violations (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

What were the top investments of this financial product?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund promoted environmental and social characteristics during the entire reporting period via the following actions:

1. Excluded countries;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Limited investments in issuers involved in controversial activities;
4. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒
☐

Yes

☐
☒

No

☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator ‘Excluding investments in issuers involved in controversial activities’.

- Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a “Call for Action”.

The performance of this characteristic was measured with the indicator ‘Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a “Call for Action”.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator ‘Limiting investments in material

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability Indicators measure how the environmental or social characteristics promoted by the financial product are attained.

violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact’.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a ‘Call for Action’: These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit

Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
REPUBLIQUE FRANCAISE	Public administration and defence; compulsory social security	15.32%	FR
REPUBBLICA ITALIANA	Public administration and defence; compulsory social security	13.09%	IT
REINO DE ESPANA	Public administration and defence; compulsory social security	10.20%	ES
EUROPEAN UNION	Activities of extraterritorial organisations and bodies	7.62%	BE
ROYAUME DE BELGIQUE	Public administration and defence; compulsory social security	4.80%	BE

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

What was the proportion of sustainability-related investments?

Over the reference period, 98.33% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 98.33% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

1.67% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Activities of extraterritorial organisations and bodies	Activities of extraterritorial organisations and bodies	13.23%

Transporting and storage	Land transport and transport via pipelines	0.05%
	Warehousing and support activities for transportation	1.07%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	0.05%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- ☐ Yes
☐ In fossil gas ☐ In nuclear energy
☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Asset allocation describes the share of investments in specific assets.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	0.38%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	2.34%
	Financial service activities except insurance and pension funding	30.63%
Public administration and defence; compulsory social security	Public administration and defence; compulsory social security	66.66%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes
- ☐ In fossil gas
 ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
-turnover reflecting the share of revenue from

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change(“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Goldman Sachs Euro Sustainable Credit

Legal entity identifier: 222100019E1J2N5LXF58

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☐ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 46.69% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - The development, production or maintenance in controversial weapons (0%);
 - The controversial supply of weapons (0%);
 - The extraction of shale oil & gas, oil sands and Arctic oil and gas (each separately 5%, combined 5%);
 - The extraction of thermal coal (5%);
 - Small arms and military contracting (5%);
 - The production of tobacco (5%);
 - The wholesale distribution of tobacco (5%);
 - The retail distribution of tobacco (10%);
 - Adult entertainment (5% for production);
 - Adult entertainment 10% for distribution);
 - Fur & specialty leather (5% for production);
 - Fur & specialty leather (10% for distribution);
 - Gambling operations (5%);
 - Gambling operations supporting products and services (50%);
 - Power generation from non-renewable resources (5%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

2. Excluding countries.

During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list'.

3. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

4. Screening carbon footprint

The Sub-Fund applied screening regarding the carbon footprint of investee companies. In line with the ambition of the Sub-Fund the carbon footprint of the Sub-Fund was better than the carbon footprint of the Benchmark.

From 1st October 2023 - 29th February 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon footprint score - ISS Scope 1 + 2 + 3 sourced by ISS.

From 1st March - 30th September 2024, the performance of this characteristic was measured with the indicator Average weighted carbon footprint score - MSCI Scope 1 + 2 + 3 sourced by MSCI.

5. Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator "Percentage of

Sustainable Investments.

● **How did the sustainability indicators perform?**

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ('PAIs') set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ('PAIs') set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and

stewardship. In this process, the following PAIs were taken into account:

- PAI 3: GHG intensity of investee companies (via portfolio construction);
- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).
- PAI 16: Investee countries subject to social violations (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

During the reporting period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

25.25%

What was the share of socially sustainable investments?

21.44%

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Excluded countries;
3. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
4. Adhered to good governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
5. Screened carbon footprint;
6. Invested in sustainable investments;
7. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: Goldman Sachs Euro Sustainable Credit (ex-Financials)

Legal entity identifier: 549300QKR99BILS8E556

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☐ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 52.87% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - The development, production or maintenance in controversial weapons (0%);
 - The controversial supply of weapons (0%);
 - The extraction of shale oil & gas, oil sands and Arctic oil and gas (each separately 5%, combined 5%);
 - The extraction of thermal coal (5%);
 - Small arms and military contracting (5%);
 - The production of tobacco (5%);
 - The wholesale distribution of tobacco (5%);
 - The retail distribution of tobacco (10%);
 - Adult entertainment (5% for production);
 - Adult entertainment 10% for distribution);
 - Fur & specialty leather (5% for production);
 - Fur & specialty leather (10% for distribution);
 - Gambling operations (5%);
 - Gambling operations supporting products and services (50%);
 - Power generation from non-renewable resources (5%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

2. Excluding countries.

During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list'.

3. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

4. Screening carbon footprint

The Sub-Fund applied screening regarding the carbon footprint of investee companies. In line with the ambition of the Sub-Fund the carbon footprint of the Sub-Fund was better than the carbon footprint of the Benchmark.

From 1st October 2023 - 29th February 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon footprint score - ISS Scope 1 + 2 + 3' sourced by ISS.

From 1st March - 30th September 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon footprint score - MSCI Scope 1 + 2 + 3' sourced by MSCI.

5. Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of

Sustainable Investments'.

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ('PAIs') set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ('PAIs') set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and

stewardship. In this process, the following PAIs were taken into account:

- PAI 3: GHG intensity of investee companies (via portfolio construction);
- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).
- PAI 16: Investee countries subject to social violations (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Cash	3.44
Owned No Guarantee	2.04
Utility Other	1.51
Technology	1.04
Natural Gas	0.68
Energy	0.61
Synthetic Cash	-0.37

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
 - ☐ In fossil gas
 - ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds*, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

During the reporting period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

31.80%

What was the share of socially sustainable investments?

21.07%

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Excluded countries;
3. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
4. Adhered to good governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
5. Screened carbon footprint;
6. Invested in sustainable investments;
7. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Goldman Sachs Euromix Bond

Legal entity identifier:
549300QPSBIM0UVOQU85

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒ Yes
☐ No

☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

1. Excluding countries.
During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a 'Call for Action'.

The performance of this characteristic was measured with the indicator "Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'".

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in countries subject to countrywide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	Investee countries subject to social violations

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
BUNDESREPUBLIK DEUTSCHLAND	Public administration and defence; compulsory social security	59.44%	DE

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

What was the proportion of sustainability-related investments?

Asset allocation
describes the share of investments in specific assets.

Over the reference period, 98.10% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 98.10% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.
1.90% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 95% of the Sub-Fund’s investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	1.60%
Derivatives	Futures	8.47%
No NACE data available	No NACE data available	0.14%
Public administration and defence; compulsory social security	Public administration and defence; compulsory social security	89.79%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy’?

- ☐ Yes
 ☐ In fossil gas
 ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change(“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of

sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Goldman Sachs European ABS

Legal entity identifier: 549300CY1METF34H4295

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒ Yes

☐ No

☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

1. Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator ‘Excluding investments in issuers involved in controversial activities’.

2. The Sub-Fund met this characteristic by applying the Manager’s approach to ESG integration.
The purpose in advance was to use ESG information in the assessment of companies to identify risks or opportunities in the field of ESG. During the reporting period, in accordance with the objective, environmental, social and governance (ESG) risks and opportunities for the majority of investments were (1) identified on the basis of materiality, (2) consistently assessed throughout the investment process and (3) systematically documented. The additional insight provided by the ESG data was used to mitigate risks and exploit new investment opportunities.
Re 1. ESG factors were identified that were deemed relevant (material) for individual sectors based on an internal framework. The framework consists of 4 pillars: business model, governance, environmental and social factors. The governance, social and environmental factors are again subdivided into specific topics.
Re 2. The previous assessment translates into a large number of data points that result in an overall ESG score. This ESG score and/or the underlying data influence the internal assessment of a company. The scorecards took into account Environmental, Social and Governance factors and were calibrated to return a below 50% score for a security that did not encompass any ESG features and also for an originator/collateral manager that did not respond positively towards engagement. The scorecards have been scrutinised by both the Risk Management and Responsible Investments teams.
Re 3. The ESG score and the analysis of the underlying information influence the assessment of a

company and this is recorded in an investment case.

The performance of this characteristic was measured with the indicator 'Percentage of securities with a minimum ESG rating of 50' meaning securities that had an above average (50%) score as mentioned under Re 2 above.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Percentage of securities with a minimum ESG rating of 50' meaning securities that had an above average (50%) score as mentioned under Re 2 above:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Percentage of securities with a minimum ESG rating of 50' meaning securities that had an above average (50%) score (as outlined above)	74.51	70.22	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

What was the proportion of sustainability-related investments?

Over the reference period, 97.19% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 97.19% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund. 2.81% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	-2.34%
Collateralized	ABS	75.73%
	MBS	20.69%
Derivatives	Forward	-0.04%
No NACE data available	No NACE data available	5.95%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes
 ☐ In fossil gas
 ☐ In nuclear energy
 ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of

sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒ Yes
☐ No

☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a "Call for Action"'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material

violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment

means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: **Goldman Sachs Global Convertible Bond**

Legal entity identifier: **222100JS7NK23L8CV969**

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators

measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Excluding countries.
During the reporting period, no investments have been made in countries against which arms

embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a "Call for Action"'.

3. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Excluding investments in issuers involved in controversial activities	These investments have been excluded in line with the description provided in the previous question	Not applicable

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria);
- PAI 16: Investee countries subject to social violations (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31/12/2023

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

● **What was the share of socially sustainable investments?**

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

● **What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?**

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

● **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Sub-Fund promoted environmental and social characteristics during the entire reporting period via the following actions:

1. Excluded countries;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Limited investments in issuers involved in controversial activities;
4. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● **How does the reference benchmark differ from a broad market index?**

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● **How did this financial product perform compared with the broad market index?**

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Global Convertible Bond Opportunities

Legal entity identifier: 222100G9H7X0ZYZKR185

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator "Excluding investments in issuers involved in controversial activities".

- Excluding countries.
During the reporting period, no investments have been made in countries against which arms

embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a "Call for Action"'.

3. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Excluding investments in issuers involved in controversial activities	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers involved in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Excluding investments in issuers involved in controversial activities	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers involved in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria);
- PAI 16: Investee countries subject to social violations (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 29/02/2024

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund promoted environmental and social characteristics during the entire reporting period via the following actions:

1. Excluded countries;
2. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
3. Limited investments in issuers involved in controversial activities;
4. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
5. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Sustainable investment objective

Did this financial product have a sustainable investment objective?	
☒ ☒ ☒ Yes	☐ ☐ ☐ No
☒ It made sustainable investments with an environmental objective: 97.95% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ It made sustainable investments with a social objective: 13.89%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

To what extent was the sustainable investment objective of this financial product met?

This Sub-Fund has met the objective during the reporting period by investing in corporate green, social and sustainability bonds as defined by the International Capital Markets Association (ICMA) Green Bond Principles, ICMA Social Bond Principles and ICMA Sustainability Bond Guidelines.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the sustainable investment objective. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.
- 97.95% were invested in sustainable investments.
- Percentage of the net assets of the Sub-Fund invested in green, social & sustainability bonds was 97.95%.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities <i>(as outlined above)</i>	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Percentage Sustainable Investments	97.91	97.95	%
Percentage of the net assets of the Sub-Fund invested in green, social & sustainability bonds	97.91	97.95	%

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Green house gas emissions - Carbon footprint - Green house gas intensity of investee companies - Exposure to companies active in the fossil fuel sector - Share of Non-Renewable Energy Consumption and Production - Energy Consumption Intensity per High Impact Climate Sector - Activities negatively affecting biodiversity sensitive areas - Emissions to water - Hazardous waste and radioactive waste ratio - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Unadjusted gender pay gap - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
CAIXABANK S.A.	Financial and insurance activities	3.25%	ES
NATIONAL GRID PLC	Electricity gas steam and air conditioning supply	3.18%	GB

Transporting and storage	Land transport and transport via pipelines	0.58%
	Postal and courier activities	0.55%
	Water transport	0.64%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	0.56%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- ☐ Yes
- ☐ In fossil gas

☐ In nuclear energy
- ☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The minimum share of investments in transitional and enabling activities was 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Whilst this Sub-Fund has invested in sustainable investments, it does not specifically commit to a minimum proportion of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Hence, the minimum commitment is 0%.

What was the share of socially sustainable investments?

The share in socially sustainable investments was 13.89%.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were mainly cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Goldman Sachs Global Inflation Linked Bond
Legal entity identifier: 6YHYO2C8GGWW6BMN3557

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?
Yes No
It made sustainable investments with an environmental objective: ___%
It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- 1. Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a 'Call for Action'.

The performance of this characteristic was measured with the indicator "Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'".

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in countries subject to countrywide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	Investee countries subject to social violations

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
UNITED STATES OF AMERICA	Public administration and defence; compulsory social security	42.58%	US
UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND	Public administration and defence; compulsory social security	21.10%	GB

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Over the reference period, 97.74% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 97.74% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.
2.26% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 95% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Activities of extraterritorial organisations and bodies	Activities of extraterritorial organisations and bodies	3.97%
Cash	Cash	1.86%
Derivatives	Forward	-0.04%
	Futures	3.68%

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

- ☐ Yes
- ☐ In fossil gas
 ☐ In nuclear energy
- ☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?	
☒ Yes	☐ No
☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a "Call for Action"'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material

violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact’.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a ‘Call for Action’: These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

What was the proportion of sustainability-related investments?

Over the reference period, 95.42% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 95.42% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

4.58% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 90% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	4.45%
Construction	Civil engineering	0.67%
Derivatives	Forward	0.51%
	Futures	-2.75%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	7.78%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	3.64%
	Financial service activities except insurance and pension funding	38.77%
	Insurance reinsurance and pension funding except compulsory social security	1.56%
Human health and social work activities	Human health activities	0.99%
Information and communication	Publishing activities	2.68%
	Telecommunications	5.57%
Manufacturing	Manufacture of basic pharmaceutical products and pharmaceutical preparations	4.98%
	Manufacture of beverages	5.08%
	Manufacture of chemicals and chemical products	1.23%

Manufacturing	Manufacture of computer electronic and optical products	2.57%
	Manufacture of food products	1.99%
	Manufacture of machinery and equipment n.e.c.	1.38%
	Manufacture of motor vehicles trailers and semi-trailers	0.44%
	Other manufacturing	1.15%
No NACE data available	No NACE data available	5.20%
Real estate activities	Real estate activities	2.66%
Transporting and storage	Land transport and transport via pipelines	0.87%
	Warehousing and support activities for transportation	1.00%
Water supply; sewerage waste management and remediation activities	Waste collection treatment and disposal activities; materials recovery	1.95%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	5.63%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational**

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

expenditure (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Goldman Sachs Global Yield Opportunities (Former NN)
Legal entity identifier: 549300ZH1SNL1LPQ2C09

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?
Yes No
It made sustainable investments with an environmental objective: ___%
It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
It made sustainable investments with a social objective: ___%
It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
- the development, production, maintenance or trade in controversial weapons (0%);
- the controversial supply of weapons (0%);
- the production of tobacco (≥50%);
- the production of oil sands and controversial pipelines (>20%);
- the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a "Call for Action".

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material

violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Excluding investments in countries subject to countrywide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
UNITED STATES OF AMERICA	Public administration and defence; compulsory social security	1.94%	US
CLOVERIE PUBLIC LIMITED COMPANY	No NACE data available	1.42%	IE
AUTOSTRADA PER L'ITALIA S.P.A.	Transporting and storage	1.14%	IT
VOLKSWAGEN LEASING GESELLSCHAFT MIT BESCHRAENKTER HAFTUNG	Administrative and support service activities	1.08%	DE
FAIRFAX FINANCIAL HOLDINGS LIMITED	Financial and insurance activities	1.05%	CA
VONOVIA SE	Real estate activities	0.93%	DE
ARCHROCK PARTNERS L.P.	Mining and quarrying	0.90%	US

ASBURY AUTOMOTIVE GROUP INC.	Wholesale and retail trade; repair of motor vehicles and motorcycles	0.67%	US
HAT HOLDINGS I LLC	Financial and insurance activities	0.66%	US
JPMORGAN CHASE & CO.	Financial and insurance activities	0.65%	US

What was the proportion of sustainability-related investments?

Over the reference period, 98.26% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 98.26% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

1.74% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 80% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

Periodic disclosure for financial products referred to in Article 9 (1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name: Goldman Sachs Green Bond
Legal entity identifier: 5493000HC7SO40XEH445

Sustainable investment objective

Did this financial product have a sustainable investment objective?

☒ Yes	☐ No
☒ It made sustainable investments with an environmental objective: 98.67% ☒ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: %	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

This Sub-Fund has met the objective during the reporting period by investing in bonds of which the proceeds are used to finance climate and environmental projects contributing positive benefits to the environment by applying the proprietary Green, Social & Sustainability Bond Assessment Methodology that are aligned with the International Capital Markets Association (ICMA) Green Bond Principles.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.
The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the sustainable investment objective. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.
- 98.67% of the net assets of this Sub-Fund were invested in sustainable investments.
- 98.67% of the net assets of this Sub-Fund were invested in green bonds.
- The percentage of taxonomy alignment was 37.91%.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Excluding investments in countries subject to countrywide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Percentage Sustainable Investments	98.06	98.67	%
The percentage of the net assets of the Sub-Fund invested in green bonds	98.06	98.67	%
The percentage of Taxonomy alignment	35.93	37.91	%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) • Investee countries subject to social violations

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
EUROPEAN UNION	Activities of extraterritorial organisations and bodies	5.44%	BE
REPUBLIQUE FRANCAISE	Public administration and defence; compulsory social security	5.42%	FR

BUNDESREPUBLIK DEUTSCHLAND	Public administration and defence; compulsory social security	1.56%	DE

What was the proportion of sustainability-related investments?

Over the reference period, 98.67% of investments were aligned to the sustainable investment objective of the Sub-Fund.

What was the asset allocation?

Over the reference period, 98.67% of investments were aligned to the sustainable investment objective of the Sub-Fund. 98.67% were environmentally sustainable aligned of which 37.91% were taxonomy aligned. 1.33% were held in cash, cash equivalents, and derivatives.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Activities of extraterritorial organisations and bodies	Activities of extraterritorial organisations and bodies	5.44%
Administrative and support service activities	Rental and leasing activities	0.12%
Cash	Cash	0.57%
Collateralized	COVERED BOND	4.91%
Construction	Civil engineering	0.08%
Derivatives	Futures	-2.89%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	17.45%
Financial and insurance activities	Financial service activities except insurance and pension funding	37.10%
	Insurance reinsurance and pension funding except compulsory social security	1.61%
Information and communication	Information service activities	0.36%
	Telecommunications	0.30%
Manufacturing	Manufacture of beverages	0.03%
	Manufacture of coke and refined petroleum products	0.12%
	Manufacture of computer electronic and optical products	0.17%
	Manufacture of machinery and equipment n.e.c.	0.19%
	Manufacture of motor vehicles trailers and semi-trailers	0.12%
	Manufacture of other transport equipment	0.16%
	Manufacture of paper and paper products	0.54%
	Manufacture of wearing apparel	0.11%
No NACE data available	No NACE data available	4.15%

Professional scientific and technical activities	Activities of head offices; management consultancy activities	1.02%
Public administration and defence; compulsory social security	Public administration and defence; compulsory social security	23.55%
Real estate activities	Real estate activities	1.11%
Transporting and storage	Land transport and transport via pipelines	1.72%
	Postal and courier activities	0.35%
	Warehousing and support activities for transportation	0.91%
	Water transport	0.15%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	0.58%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Management Company calculated the Taxonomy alignment percentage based on the data provided by the issuers of the bonds.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The minimum share of investments in transitional and enabling activities was 0%.

Most of the Taxonomy aligned investments focussed on Climate Change mitigation. A proportion of the Taxonomy aligned investments could have been related to transitional and enabling activities but the Management Company did not have the data to substantiate this share.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

During the reporting period the Taxonomy aligned percentage was 37.91% compared to previous reporting period 35.93%

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 60.76%.

What was the share of socially sustainable investments?

Whilst this Sub-Fund has made sustainable investments, it did not specifically commit to a minimum proportion of socially sustainable investments. Hence, the minimum commitment is 0%.

As noted above, whether investments made by this Sub-Fund were sustainable investments is determined by reference to the Management Company's Sustainable Investment Framework for assessing the contribution of investments to environmental and/or social objectives. This product did not target one specific category of sustainable investments, but instead assesses all investments made pursuant to its overall investment strategy using the framework.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were mainly cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Periodic disclosure for financial products referred to in Article 9 (1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name:
Goldman Sachs Green Bond Short
Duration

Sustainable investment objective

Did this financial product have a sustainable investment objective ?

☒ Yes
☐ No

☒ It made sustainable investments with an environmental objective: 97.52% ☒ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

This Sub-Fund has met the objective during the reporting period by investing in bonds of which the proceeds are used to finance climate and environmental projects contributing positive benefits to the environment by applying the proprietary Green, Social & Sustainability Bond Assessment Methodology that are aligned with the International Capital Markets Association (ICMA) Green Bond Principles.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the sustainable investment objective. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.
- 97.52% of the net assets of this Sub-Fund were invested in sustainable investments.
- 97.52% of the net assets of this Sub-Fund were invested in green bonds.
- The percentage of taxonomy alignment was 39.31%.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Excluding investments in countries subject to countrywide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Percentage Sustainable Investments	95.94	97.52	%
The percentage of the net assets of the Sub-Fund invested in green bonds	95.94	97.52	%
The percentage of Taxonomy alignment	35.07	39.31	%

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach.

In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included

PAI CATEGORY	PAI
Mandatory PAIs	- Green house gas emissions - Carbon footprint - Green house gas intensity of investee companies - GHG intensity of investee companies - Exposure to companies active in the fossil fuel sector - Energy consumption from non-renewable sources - Energy production from non-renewable sources - Energy consumption intensity per high impact climate sector - Activities negatively affecting biodiversity sensitive areas - Emission to water - Hazardous waste and radioactive waste ratio - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Unadjusted gender pay gap - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Management Company calculated the Taxonomy alignment percentage based on the data provided by the issuers of the bonds.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- ☐ Yes
☐ In fossil gas ☐ In nuclear energy
☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational**

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The minimum share of investments in transitional and enabling activities was 0%.

Most of the Taxonomy aligned investments focussed on Climate Change mitigation. A proportion of the Taxonomy aligned investments could have been related to transitional and enabling activities but the Management Company did not have the data to substantiate this share.

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

expenditure (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

During the reporting period the Taxonomy aligned percentage was 39.31% compared to previous reporting period 35.07%

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 58.21%.

What was the share of socially sustainable investments?

Whilst this Sub-Fund has made sustainable investments, it did not specifically commit to a minimum proportion of socially sustainable investments. Hence, the minimum commitment is 0%.

As noted above, whether investments made by this Sub-Fund were sustainable investments is determined by reference to the Management Company's Sustainable Investment Framework for assessing the contribution of investments to environmental and/or social objectives. This product did not target one specific category of sustainable investments, but instead assesses all investments made pursuant to its overall investment strategy using the framework.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were mainly cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability- related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms potential adverse impact.

How did this financial product perform compared with the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Protection

**Legal entity
identifier:** 5493000K858UHG00SN90

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. The Sub-Fund effectuated the characteristics during the reporting period by investing in investment funds managed by a party affiliated to the Management Company that applied these criteria and by investing directly in underlying securities. The characteristics that were promoted during the reporting period are:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

2. Excluding countries.

During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list'.

3. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria);
- PAI 16: Investee countries subject to social violations (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

What was the asset allocation?

In which economic sectors were the investments made?

Sector	% Assets
Other	64.37
PUBLIC ADMINISTRATION AND DEFENCE; COMPULSORY SOCIAL SECURITY - Administration of the State the economic/social policy	35.63

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any "sustainable investments" within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
 ☐ In fossil gas
 ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Excluded countries;
3. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
4. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
5. Preferred inclusion over exclusion through engagement.

The Sub-Fund effectuated the characteristics during the reporting period by investing in investment funds managed by a party affiliated to the Management Company that applied these criteria and by investing directly in underlying securities.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for financial products referred to in Article 9 (1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name: Goldman Sachs Social Bond
Legal entity identifier: 5493005TMV0TCSX44S59

Sustainable investment objective

Did this financial product have a sustainable investment objective ?
Yes
No
It made sustainable investments with an environmental objective: 0%
It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

To what extent was the sustainable investment objective of this financial product met?

This Sub-Fund has met the objective during the reporting period by investing in green bonds that applied to the Management Company's proprietary Green, Social & Sustainability Bond Assessment Methodology that are aligned with the International Capital Markets Association (ICMA) Green Bond Principles.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the sustainable investment objective. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact: These investments have been excluded in line with the description provided in the previous question.
- 98.56% of the net assets of this Sub-Fund were invested in social bonds.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Excluding investments in countries subject to countrywide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
The percentage of the net assets of the Sub-Fund invested in social bonds	98.24	98.56	%

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • GHG intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) • Investee countries subject to social violations

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Transporting and storage	Postal and courier activities	1.10%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy'?

- ☐ Yes
☐ In fossil gas
☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities

'Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The minimum share of investments in transitional and enabling activities was 0%.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

Whilst this Sub-Fund has invested in sustainable investments, it does not specifically commit to a minimum proportion of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Hence, the minimum commitment is 0%.

What was the share of socially sustainable investments?

The share in socially sustainable investments was 98.56%.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were mainly cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms potential adverse impact.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Periodic disclosure for financial products referred to in Article 9 (1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name: Goldman Sachs Sovereign Green Bond
Legal entity identifier: 549300TIZRR5CVLAZU53

Sustainable investment objective

Did this financial product have a sustainable investment objective ?
Yes No
It made sustainable investments with an environmental objective: 98.84%
It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments

To what extent was the sustainable investment objective of this financial product met?

This Sub-Fund has met the objective during the reporting period by investing in bonds of which the proceeds are used to finance climate and environmental projects contributing positive benefits to the environment by applying the proprietary Green, Social & Sustainability Bond Assessment Methodology that are aligned with the International Capital Markets Association (ICMA) Green Bond Principles.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the sustainable investment objective. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.
- 98.84% of the net assets of this Sub-Fund were invested in sustainable investments.
- 98.84% of the net assets of this Sub-Fund were invested in green bonds.
- The percentage of taxonomy alignment was 38.87%.

... and compared to previous periods ?

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach.

In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- GHG intensity of investee companies - Investee countries subject to social violations

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
EUROPEAN UNION	Activities of extraterritorial organisations and bodies	9.96%	BE
REPUBLIQUE FRANCAISE	Public administration and defence; compulsory social security	9.49%	FR
REPUBBLICA ITALIANA	Public administration and defence; compulsory social security	7.70%	IT
KONINKRIJK DER NEDERLANDEN	Public administration and defence; compulsory social security	4.49%	NL
IRELAND	Public administration and defence; compulsory social security	4.01%	IE
BUNDESREPUBLIK DEUTSCHLAND	Public administration and defence; compulsory social security	3.30%	DE

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

ROYAUME DE BELGIQUE	Public administration and defence; compulsory social security	3.27%	BE
TENNET HOLDING B.V.	Electricity gas steam and air conditioning supply	3.22%	NL
BUNDESKANZLERAMT OESTERREICH	Public administration and defence; compulsory social security	2.16%	AT
ALLIANDER N.V.	Electricity gas steam and air conditioning supply	2.16%	NL
ENEXIS HOLDING N.V.	Electricity gas steam and air conditioning supply	1.86%	NL

What was the proportion of sustainability-related investments?

Over the reference period, 98.84% of investments were aligned to the sustainable investment objective of the Sub-Fund.

What was the asset allocation?

Over the reference period, 98.84% of investments were aligned to the sustainable investment objective of the Sub-Fund. 98.84% were environmentally sustainable aligned of which 38.87% were taxonomy aligned. 1.16% were held in cash, cash equivalents, and derivatives.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Activities of extraterritorial organisations and bodies	Activities of extraterritorial organisations and bodies	9.96%
Cash	Cash	0.50%
Collateralized	COVERED BOND	0.22%
Construction	Civil engineering	0.33%
Derivatives	Forward	0.08%
	Futures	1.61%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	17.84%
Financial and insurance activities	Financial service activities except insurance and pension funding	21.54%
	Insurance reinsurance and pension funding except compulsory social security	0.31%
No NACE data available	No NACE data available	1.39%
Public administration and defence; compulsory social security	Public administration and defence; compulsory social security	41.24%
Transporting and storage	Land transport and transport via pipelines	3.29%
	Postal and courier activities	0.35%
	Warehousing and support activities for transportation	1.35%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Management Company calculated the Taxonomy alignment percentage based on the data provided by the issuers of the bonds.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- ☐ Yes
- ☐ In fossil gas

☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

*Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The minimum share of investments in transitional and enabling activities was 0%.

Most of the Taxonomy aligned investments focused on Climate Change mitigation. A proportion of the Taxonomy aligned investments could have been related to transitional and enabling activities but the Management Company did not have the data to substantiate this share.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

During the reporting period the Taxonomy aligned percentage was 38.87% compared to previous reporting period 35.14%

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 59.97%.

What was the share of socially sustainable investments?

Whilst this Sub-Fund has made sustainable investments, it did not specifically commit to a minimum proportion of socially sustainable investments. Hence, the minimum commitment is 0%.

As noted above, whether investments made by this Sub-Fund were sustainable investments is determined by reference to the Management Company's Sustainable Investment Framework for assessing the contribution of investments to environmental and/or social objectives. This product did not target one specific category of sustainable investments, but instead assesses all investments made pursuant to its overall investment strategy using the framework.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were mainly cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Sustainable Yield Opportunities

Legal entity identifier: 549300PGXZ6YGIDLZV06

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective :_% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective :_%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 37.05% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - The development, production or maintenance in controversial weapons (0%);
 - The controversial supply of weapons (0%);
 - The extraction of shale oil & gas, oil sands and Arctic oil and gas (each separately 5%, combined 10%);
 - The extraction of thermal coal (5%);
 - Small arms and military contracting (5%);
 - The production of tobacco (5%);
 - The wholesale distribution of tobacco (5%);
 - The retail distribution of tobacco (10%);
 - Adult entertainment (5% for production);
 - Adult entertainment 10% for distribution);
 - Fur & specialty leather (5% for production);
 - Fur & specialty leather (10% for distribution);

- Gambling operations (5%);
- Gambling operations supporting products and services (50%);
- Power generation from non-renewable resources (5%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

2. Excluding countries.

During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Number of issuers against which arms embargoes have been issued by the UN Security Council and subject to a 'Call for Action' on the Financial Action Task Force list'.

3. Took ESG factors of each issuer into account in the investment decision-making process.

The Sub-Fund met this characteristic by applying a proprietary approach to ESG integration. The Sub-Fund ensured during the reporting period that it had a better average weighted ESG score than the benchmark of the Sub-Fund. The Sub-Fund integrates the information on environmental, social and governance factors for its investments based on a proprietary ESG Integration approach. ESG Integration involves incorporating the ESG analysis into investment decision making, which takes into account not just the financial, but also the environmental, social and governance factors of the issuer.

The performance of this characteristic was measured with the indicator 'Average weighted ESG Rating versus the benchmark'.

4. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

5. Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line

with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was better than the carbon intensity of the Benchmark.

From 1st October 2023 - 29th February 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - ISS Scope 1 + 2 + 3' sourced by ISS.

From 1st March - 30th September 2024, the performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - MSCI Scope 1 + 2 + 3' sourced by MSCI.

6. Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

● How did the sustainability indicators perform?

Indicator		Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements		These investments have been excluded in line with the description provided in the previous question	Not applicable

Percentage of Sustainable Investments		37.05%	Not applicable	36.42%	Not applicable

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ('PAIs') set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ('PAIs') set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and

stewardship. In this process, the following PAIs were taken into account:

- PAI 3: GHG intensity of investee companies (via portfolio construction);
- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria);
- PAI 16: Investee countries subject to social violations (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any ‘sustainable investments’ within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
 ☐ In fossil gas
 ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

During the reporting period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

24.18%

What was the share of socially sustainable investments?

12.87%

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub Fund promoted environmental and social characteristics during the reporting period via the following actions:

1. Limited investments in issuers involved in controversial activities;
2. Excluded countries;
3. Took ESG factors of each issuer into account in the investment decision-making process;
4. Adhered to good governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
5. Screened carbon intensity;
6. Invested in sustainable investments;
7. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Goldman Sachs US Dollar Credit

Legal entity identifier: HFKIDI5CTG4L2CR5MQ32

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒ Yes

☐ No

☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator ‘Excluding investments in issuers involved in controversial activities’.

- Excluding countries. During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a “Call for Action”.

The performance of this characteristic was measured with the indicator ‘Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a “Call for Action”.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator ‘Limiting investments in material

violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact’.

- Screening board gender diversity

The Sub-Fund has achieved a lower exposure, relative to the Index, to companies with less than 10% threshold of women on the company’s board of directors.

The performance of this characteristic was measured with the indicator “The difference between the exposure to companies with less than 10% of women on the company’s board of directors of the Sub-Fund and the Index”.

- Screening weighted average carbon intensity

In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower relative to the Index.

The performance of this characteristic was measured with the indicator ‘The difference between the weighted average scope 1 and 2 carbon intensity of all the corporate issuers (where available) in the Sub-Fund and weighted average scope 1 and 2 carbon intensity of the Index’.

- Excluding government and corporate issuers with an ESG rating less than or equal to 1.

During the reporting period, no investments have been made in government and corporate issuers with an ESG rating according to the Investment Manager’s proprietary internal scoring system of less than or equal to 1.

The performance of this characteristic was measured with the indicator “% of government and corporate issuers in the Sub-Fund with an ESG rating according to the Investment Manager’s proprietary internal scoring system of less than or equal to 1”.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:

These investments have been excluded in line with the description provided in the previous question.

- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a ‘Call for Action’: These investments have been excluded in line with the description provided in the previous question.

- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:

These investments have been excluded in line with the description provided in the previous question.

- The Sub-Fund’s exposure to companies with less than 10% of women on the company’s board of directors was 0.15% and the Benchmark’s exposure to companies with less than 10% of women on the company’s board of directors was 1.23%.

Over the reference period, the Sub-Fund consistently achieved a lower exposure, relative to the Sub-Fund/Benchmark, to companies with less than 10% of women on the companies board of directors.

- The weighted average scope 1 and 2 carbon intensity of all the corporate issuers (where available) in the Sub-Fund was 124.6 TCO₂e/Sales (\$mn) and the weighted average scope 1 and 2 carbon intensity of the Sub-Fund/Benchmark was 249.64 TCO₂e/Sales (\$mn).

Over the reference period, the Sub-Fund consistently achieved a lower weighted average carbon intensity relative to the Sub-Fund/Benchmark.

- 0% of government and corporate issuers in the Sub-Fund with an ESG rating according to the Investment Manager’s proprietary internal scoring system had an ESG rating of less than or equal to 1.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Excluding investments in countries subject to countrywide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Exposure to companies with less than 10% of women on the company board of directors (in relation to the Sub-Fund/Benchmark)	Sub-Fund: 1.14 Benchmark: 1.81	Sub-Fund: 0.15 Benchmark: 1.23	%
Weighted average scope 1 and 2 carbon intensity (in relation to the Sub-Fund/Benchmark)	Sub-Fund: 186.29 Benchmark: 268.83	Sub-Fund: 124.6 Benchmark: 249.64	N/A
Government and corporate issuers in the Sub-Fund with an ESG rating according to the Investment Manager's proprietary internal scoring system had an ESG rating of less than or equal to 1	0	0	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
UNITED STATES OF AMERICA	Public administration and defence; compulsory social security	4.86%	US

What was the proportion of sustainability-related investments?

Asset allocation
describes the share of investments in specific assets.

Over the reference period, 95.14% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 95.14% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

4.86% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 60% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Accommodation and food service activities	Accommodation	1.22%
	Food and beverage service activities	0.05%
Administrative and support service activities	Office administrative office support and other business support activities	0.19%
	Rental and leasing activities	2.48%
	Travel agency tour operator and other reservation service and related activities	0.12%

Wholesale and retail trade; repair of motor vehicles and motorcycles	Wholesale and retail trade and repair of motor vehicles and motorcycles	0.11%
	Wholesale trade except of motor vehicles and motorcycles	1.44%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy’?

- ☐ Yes
- ☐ In fossil gas
 ☐ In nuclear energy
- ☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change(“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under ‘other’ were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company’s Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs US High Yield

**Legal entity
identifier:** 222100V1FLPFY01QOX20

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☐ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

1. Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:

- the development, production, maintenance or trade in controversial weapons (0%)
- the controversial supply of weapons (0%)
- the production of tobacco (≥50%)
- the production of oil sands and controversial pipelines (>20%)
- the extraction of thermal coal (>20%)

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

2. Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Synthetic Cash	-0.01

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereigns bonds' consist of all sovereign exposures

1 Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund promoted environmental and social characteristics during the entire reporting period via the following actions:

1. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
2. Limited investments in issuers involved in controversial activities;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for financial products referred to in Article 9 (1), (2) and (3) of Regulation (EU) 2019/2088 and Article 5 of Regulation (EU) 2020/852

Product name: Goldman Sachs USD Green Bond
Legal entity identifier: 549300HFMZBKIBOH3T06

Sustainable investment objective

Did this financial product have a sustainable investment objective ?
Yes No
[X] It made sustainable investments with an environmental objective: 98.42%
[X] in economic activities that qualify as environmentally sustainable under the EU Taxonomy
[X] in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
[] It made sustainable investments with a social objective: %
[] It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of % of sustainable investments
[] with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
[] with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
[] with a social objective
[] It promoted E/S characteristics, but did not make any sustainable investments

To what extent was the sustainable investment objective of this financial product met?

This Sub-Fund has met the objective during the reporting period by investing in bonds of which the proceeds are used to finance climate and environmental projects contributing positive benefits to the environment by applying the proprietary Green, Social & Sustainability Bond Assessment Methodology that are aligned with the International Capital Markets Association (ICMA) Green Bond Principles.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the sustainable investment objective. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action': These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.
- 98.42% of the net assets of this Sub-Fund were invested in sustainable investments.
- 98.42% of the net assets of this Sub-Fund were invested in green bonds.
- The percentage of taxonomy alignment was 28.68%.

... and compared to previous periods ?

Sustainability Indicator	September 30, 2023	September 30, 2024	Unit
Excluding investments in issuers involved in controversial activities (as outlined above)	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Excluding investments in countries subject to countrywide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact	These investments have been excluded in line with the description provided in the previous question	These investments have been excluded in line with the description provided in the previous question	N/A
Percentage Sustainable Investments	96.19	98.42	%
The percentage of the net assets of the Sub-Fund invested in green bonds	96.19	98.42	%
The percentage of Taxonomy alignment	19.84	28.68	%

How did the sustainable investments not cause significant harm to any sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • GHG intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy production from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) • Investee countries subject to social violations

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
DUKE ENERGY PROGRESS LLC	Electricity gas steam and air conditioning supply	6.65%	US
BNP PARIBAS SA	Financial and insurance activities	6.53%	FR
EDP FINANCE B.V.	Financial and insurance activities	5.55%	NL
BANK OF IRELAND GROUP PUBLIC LIMITED COMPANY	Financial and insurance activities	5.25%	IE
ING GROEP N.V.	Financial and insurance activities	4.83%	NL
AVANGRID INC.	Electricity gas steam and air conditioning supply	4.40%	US
XYLEM INC.	Manufacturing	4.19%	US
COOPERATIEVE RABOBANK U.A.	Financial and insurance activities	3.61%	NL
NXP B.V.	Manufacturing	3.37%	NL
NIAGARA MOHAWK POWER CORPORATION	Electricity gas steam and air conditioning supply	3.30%	US
LG CHEM LTD	Manufacturing	3.22%	KR

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

Over the reference period, 98.42% of investments were aligned to the sustainable investment objective of the Sub-Fund.

What was the asset allocation?

Over the reference period, 98.42% of investments were aligned to the sustainable investment objective of the Sub-Fund. 98.42% were environmentally sustainable aligned of which 28.68% were taxonomy aligned. 1.58% were held in cash, cash equivalents, and derivatives.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Cash	Cash	1.61%
Construction	Construction of buildings	0.41%
Derivatives	Forward	0.51%
	Futures	-4.15%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	21.21%
Financial and insurance activities	Financial service activities except insurance and pension funding	40.40%
	Insurance reinsurance and pension funding except compulsory social security	3.38%
Information and communication	Information service activities	1.26%
	Telecommunications	2.05%
Manufacturing	Manufacture of beverages	2.57%
	Manufacture of chemicals and chemical products	1.29%
	Manufacture of coke and refined petroleum products	3.22%
	Manufacture of computer electronic and optical products	7.34%
	Manufacture of machinery and equipment n.e.c.	4.19%
	Manufacture of paper and paper products	0.95%
No NACE data available	No NACE data available	-0.51%
Professional scientific and technical activities	Scientific research and development	1.80%
Public administration and defence; compulsory social security	Public administration and defence; compulsory social security	1.83%
Real estate activities	Real estate activities	8.51%
Transporting and storage	Land transport and transport via pipelines	1.24%
	Water transport	0.87%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Management Company calculated the Taxonomy alignment percentage based on the data provided by the issuers of the bonds.

To comply with the EU Taxonomy, the criteria for **fossil gas** include

limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

☐ Yes
 ☐ In fossil gas
 ☐ In nuclear energy

☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

Category	Taxonomy-aligned (no gas and nuclear)	Non Taxonomy-aligned
Turnover	28.7%	71.3%
CapEx	0%	100%
OpEx	0%	100%

2. Taxonomy-alignment of investments excluding sovereign bonds*

Category	Taxonomy-aligned (no gas and nuclear)	Non Taxonomy-aligned
Turnover	30.4%	69.6%
CapEx	0%	100%
OpEx	0%	100%

This graph represents 93% of the total investments.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The minimum share of investments in transitional and enabling activities was 0%.

Most of the Taxonomy aligned investments focussed on Climate Change mitigation. A proportion of the Taxonomy aligned investments could have been related to transitional and enabling activities but the Management Company did not have the data to substantiate this share.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

During the reporting period the Taxonomy aligned percentage was 28.68% compared to previous reporting period 19.84%

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 69.74%.

What was the share of socially sustainable investments?

Whilst this Sub-Fund has made sustainable investments, it did not specifically commit to a minimum proportion of socially sustainable investments. Hence, the minimum commitment is 0%.

As noted above, whether investments made by this Sub-Fund were sustainable investments is determined by reference to the Management Company's Sustainable Investment Framework for as-sessing the contribution of investments to environmental and/or social objectives. This product did not target one specific category of sustainable investments, but instead assesses all investments made pursuant to its overall investment strategy using the framework.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

981

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'not sustainable' were mainly cash used for liquidity purposes. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms potential adverse impact.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the sustainable objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Product name: Goldman Sachs Europe High Yield (Former NN)

Legal entity identifier: WCMOO3625KZ71RJPW09

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
☒ Yes	☒ No
☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

This was checked daily in the Aladdin portfolio management system. Within the Management Company, the Risk Management department is responsible for these daily checks on investment restrictions. The assessment of whether companies carry out the aforementioned activities is determined on the basis of external information from ESG data providers.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements'.

- Adhered to good corporate governance, compliance with human and labour rights, protection of

the environment and prevention of bribery and corruption.

The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores (including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).

Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance'.

● **How did the sustainability indicators perform?**

Indicator	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable

● **...and compared to previous periods?**

Indicator	Reference period		Previous reference period	
	Portfolio	Benchmark	Portfolio	Benchmark
Sub-Fund's direct exposure to investments excluded as described in the Sub-Fund's binding elements	These investments have been excluded in line with the description provided in the previous question	Not applicable	These investments have been excluded in line with the description provided in the previous question	Not applicable
Sub-Fund's direct exposure to issuers excluded based on violations of internationally recognised standards as described in the approach to assess good governance	These investments have been avoided in line with the description provided in the previous question	Not applicable	These investments have been avoided in line with the description provided in the previous question	Not applicable

Principal adverse impacts are the most significant negative impact of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and anti-bribery matters.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not have an explicit commitment to make sustainable investments that are in line with SFDR during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the reporting period, elements pertaining to PAIs were taken into account as part of the investment process of the Sub-Fund. This was done mainly via restriction criteria and stewardship. In this process, the following PAIs were taken into account:

- PAI 4: Exposure to companies active in the fossil fuel sector (via restriction criteria, engagement and voting);
- PAI 7: Activities negatively affecting biodiversity sensitive areas (via engagement);
- PAI 10: Violations of UN Global Compact principles and OECD Guidelines on Multi National Enterprises (via restriction criteria, voting and engagement);
- PAI 11: Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises (via engagement);
- PAI 13: Board gender diversity (via voting and engagement);
- PAI 14: Exposure to controversial weapons (via restriction criteria).

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 30/09/2024

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund did not invest in any 'sustainable investments' within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy⁽¹⁾?

- ☐ Yes
- ☐ In fossil gas
- ☐ In nuclear Energy
- ☒ No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy alignment of sovereign bonds, the first graph shows the taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

As the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was therefore also 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

During the reporting period, the Sub-Fund has promoted environmental and social characteristics but did not make any sustainable investments. As a consequence, the Sub-Fund did not invest in a minimum share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make socially sustainable investments.

What investments were included under “#2 Other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund promoted environmental and social characteristics during the entire reporting period via the following actions:

1. Took ESG factors of each issuer into account in the investment decision-making process. This was a documented process but no binding outcomes were intended;
2. Limited investments in issuers involved in controversial activities;
3. Adhered to good to governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption;
4. Preferred inclusion over exclusion through engagement.

Reference benchmarks are indexes to measure whether the financial products attain the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

Not Applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How does the reference benchmark differ from a broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the reference benchmark?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

● ***How did this financial product perform compared with the broad market index?***

Not applicable. No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Goldman Sachs Global Flexible Multi-Asset

Legal entity identifier:

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ ☐ Yes
☒ ☐ ☒ No

☐ It made sustainable investments with an environmental objective : % ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : %	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 32.31% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☒ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities.
During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Excluding countries.
During the reporting period, no investments have been made in countries against which arms embargoes have been imposed by the United Nations Security Council. Similarly, investments are not made in countries included in the Financial Action Task Force list, which are subject to a "Call for Action".

The performance of this characteristic was measured with the indicator 'Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a "Call for Action"'.

- Adhered to good corporate governance, compliance with human and labour rights, protection of the environment and prevention of bribery and corruption.
The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards: the OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact. This was done based on a proprietary approach that sought to identify, review, evaluate and monitor companies that were flagged by external data providers as being in violation of, or otherwise not aligned with the aforementioned Global Standards as well companies that received high controversy scores

Sustainability Indicators measure how the environmental or social characteristics promoted by the financial product are attained.

(including significant governance controversies, severe labour rights controversies and severe tax compliance controversies).
Following review of these external data inputs, companies that the Management Company believed to have an on-going and serious violation and/or were considered to not be following good governance practices with insufficient remediation were excluded from the Sub-Fund.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

4. Screening carbon intensity

The Sub-Fund applied screening regarding the carbon intensity of investee companies. In line with the ambition of the Sub-Fund the carbon intensity of the Sub-Fund was lower than the universe of the applicable underlying asset classes compared to the Benchmark.

The performance of this characteristic was measured with the indicator 'Average weighted carbon intensity score - Scope 1 + 2 + 3'.

5. Invested in sustainable investments

The Sub-Fund invested in companies or projects that contributed to an environmental or social objective based on the product contribution or operational contribution.

The performance of this characteristic was measured with the indicator 'Percentage of Sustainable Investments'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Excluding investments in countries subject to country-wide arms embargo sanctions imposed by the United Nations Security Council, and countries on the Financial Action Task Force list, that are subject to a 'Call for Action'. These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.
- Average weighted carbon intensity of the Sub-Fund was lower than the universe of the applicable underlying asset classes compared to the Benchmark:

EQU
Sub-Fund: 494.18
Benchmark: 862.93
IG
Sub-Fund: 644.76
Benchmark: 848.68
HY
Sub-Fund: 880.50
Benchmark: 1196.08
- 32.31% were invested in sustainable investments.

... and compared to previous periods ?

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The consideration of investments made by the Sub-Fund as sustainable investments was determined by reference to the Management Company's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Sub-Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Sub-Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Management Company's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR.

Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Sub-Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Sub-Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for the mandatory PAIs relating to investees, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Management Company's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Sub-Fund leveraged a proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	- Green house gas intensity of investee companies - Exposure to companies active in the fossil fuel sector - Activities negatively affecting biodiversity sensitive areas - Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises - Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises - Board gender diversity - Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons) - Investee countries subject to social violations

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
UNITED STATES OF AMERICA	Public administration and defence; compulsory social security	12.11%	US

What was the proportion of sustainability-related investments?

Over the reference period, 90.04% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 90.04% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

9.96 % of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

And while the Sub-Fund did not have as its objective a sustainable investment, it had a proportion of 32.31% sustainable investments, of which 19.99% were other environmentally and 12.32% were socially sustainable investments.

Over the reference period, a minimum of 80% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics and a minimum portion of 10% of the Sub-Fund were made in sustainable investments.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Accommodation and food service activities	Accommodation	0.48%

	Wholesale trade except of motor vehicles and motorcycles	0.10%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Sub-Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational**

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change("climate change mitigation") and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

expenditure (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 19.99%.

What was the share of socially sustainable investments?

The share in socially sustainable investments was 12.32%.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?

☒ ☐ Yes
☒ ☐ No

☐ It made sustainable investments with an environmental objective : __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective : __%	☐ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of __% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☒ It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852 establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Sub-Fund promoted environmental and social characteristics during the reporting period. More specifically:

- Limited investments in companies involved in controversial activities. During the reporting period, the Sub-Fund did not invest in issuers that realised a certain percentage of their revenue from activities related to:
 - the development, production, maintenance or trade in controversial weapons (0%);
 - the controversial supply of weapons (0%);
 - the production of tobacco (≥50%);
 - the production of oil sands and controversial pipelines (>20%);
 - the extraction of thermal coal (>20%).

The performance of this characteristic was measured with the indicator 'Excluding investments in issuers involved in controversial activities'.

- Adhered to good governance, respecting human rights and labour rights, protecting the environment and prevention of bribery and corruption. The Sub-Fund met this characteristic by assessing the extent to which the investee companies act in accordance with relevant legislation and internationally recognised standards, for example: OECD Guidelines for Multinational Enterprises, the UN Principles for Business and Human Rights and the UN Global Compact.

The performance of this characteristic was measured with the indicator 'Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact'.

As part of ongoing efforts to optimize businesses and operations of Goldman Sachs Asset Management B.V. and The Goldman Sachs Group, Inc., Goldman Sachs Asset Management International has been appointed to provide portfolio management services to the Sub-Fund.

Sustainability Indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Sub-Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Sub-Fund. These sustainability indicators have performed as follows:

- Excluding investments in issuers involved in controversial activities:
These investments have been excluded in line with the description provided in the previous question.
- Limiting investments in material violators of internationally recognized standards, for example: OECD Guidelines for Multinational Enterprises, the UN Guiding Principles on Business and Human Rights and UN Global Compact:
These investments have been excluded in line with the description provided in the previous question.

... and compared to previous periods ?

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Over the reference period, the Sub-Fund did not commit to a minimum proportion of sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Sub-Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Sub-Fund included.

PAI CATEGORY	PAI
Mandatory PAIs	• Exposure to companies active in the fossil fuel sector • Activities negatively affecting biodiversity sensitive areas • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 30/09/2024

Largest investments	Sector	% Assets	Country
CCO HOLDINGS LLC	Information and communication	1.76%	US
TENET HEALTHCARE CORPORATION	Human health and social work activities	0.95%	US
CARNIVAL CORPORATION	Transporting and storage	0.94%	PA
BELLIS ACQUISITION COMPANY PLC	No NACE data available	0.81%	GB
LIFEPOINT HEALTH INC.	No NACE data available	0.80%	US

ZF EUROPE FINANCE B.V.	Financial and insurance activities	0.61%	NL

What was the proportion of sustainability-related investments?

Asset allocation describes the share of investments in specific assets.

Over the reference period, 98.55% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

What was the asset allocation?

Over the reference period, 98.55% of investments were aligned to the environmental and/or social characteristics promoted by this Sub-Fund.

1.45% of investments were held cash for liquidity purposes; derivatives for efficient portfolio management/investment purposes; and/or investments in UCITS and other collective investment schemes in order to achieve the investment objective of the Sub-Fund.

Over the reference period, a minimum of 90% of the Sub-Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at September 30, 2024
Accommodation and food service activities	Accommodation	2.75%
	Food and beverage service activities	0.24%
Administrative and support service activities	Office administrative office support and other business support activities	0.15%
	Rental and leasing activities	0.44%
	Security and investigation activities	0.41%
	Services to buildings and landscape activities	0.11%
	Travel agency tour operator and other reservation service and related activities	0.71%
Arts entertainment and recreation	Gambling and betting activities	0.59%
Cash	Cash	1.87%
Construction	Civil engineering	0.16%
Derivatives	Forward	0.33%
	Futures	-1.20%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	0.46%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	0.39%
	Financial service activities except insurance and pension funding	16.26%
Human health and social work activities	Human health activities	1.52%
Information and communication	Computer programming consultancy and related activities	0.43%
	Motion picture video and television programme production sound recording and music publishing activities	0.76%
	Programming and broadcasting activities	1.54%
	Publishing activities	2.41%

	Waste collection treatment and disposal activities; materials recovery	0.10%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	2.04%
	Wholesale and retail trade and repair of motor vehicles and motorcycles	0.88%
	Wholesale trade except of motor vehicles and motorcycles	1.22%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

Over the reference period, the Sub-Fund did not invest in any “sustainable investments” within the meaning of the EU Taxonomy and therefore its alignment with the Taxonomy was 0%.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Sub-Fund does not commit to any “sustainable investment” within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Sub-Fund did not commit to a minimum proportion of sustainable investments.

What was the share of socially sustainable investments?

This question is not applicable as the Sub-Fund did not make any sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under 'other' were cash used for liquidity purposes, derivatives for efficient portfolio management/investment purposes and investments in UCITS and UCIs needed to achieve the investment objective of the Sub-Fund. These investments were not subject to any minimum environmental or social safeguards.

¹Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change(“climate change mitigation”) and do not significantly harm any EU Taxonomy objectives - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Management Company has taken actions to ensure that the environmental and/or social characteristics of the Sub-Fund were met during the reference period. The sustainability indicators of the Sub-Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Sub-Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Sub-Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, assessing and promoting effective stewardship among the companies and issuers represented in the Sub-Fund was a key part of the investment process.

The Management Company has engaged with corporate issuers in this Sub-Fund that the Management Company believed to have low ESG credentials or involvement in sustainability related controversies, with the objective to encourage issuers to improve their ESG practices relative to peers. The Management Company is permitted to invest in a corporate issuer prior to or without engaging with such corporate issuer. Where applicable, the Management Company has engaged with sovereign issuers in this Sub-Fund that have a low E-score with the objective to encourage sovereigns to improve their overall environmental performance and to encourage enhanced disclosures of climate related metrics. The Management Company is permitted to invest in a sovereign issuer, where applicable, prior to or without engaging with such sovereign issuer.

The Global Stewardship Team focus on proactive, outcomes-based engagement, in an attempt to promote best practices. The engagements conducted by the Global Stewardship Team were designed to complement the engagements conducted by our investment teams. The Fixed Income Team regularly engaged with companies including in one-on-one and investor group settings to corporate issuers that the Management Company believed to have had low ESG credentials, with the objective to encourage issuers to improve their ESG practices relative to peers. Engagement with management teams was an important component of the fixed income research process, which often informed investment selection. It gave a unique insight into management quality, business model, financial performance and strategy and future business prospects.

The engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement at the firmwide-level, the Global Stewardship Team leverages our stewardship framework, which reflects thematic priorities and guides voting and engagement efforts, and will include environmental, social and governance matters that are considered to be principal in terms of potential adverse impacts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Sub-Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

ALFI Code of Conduct

It is hereby confirmed that Goldman Sachs Funds III adheres and complies to the principles of the ALFI "Code of Conduct for Luxembourg Investment Funds".

Remuneration Report - 2023 - Goldman Sachs Asset Management B.V. (Management Company)

1.1 Remuneration disclosures

Introduction

The following disclosures are made by Goldman Sachs Asset Management B.V. ("GSAM B.V.") in accordance with the AIFMD (2011/61/EU) and UCITS Directive (2014/91/EU) and further guidance included in the ESMA Guidelines on sound remuneration policies under the AIFMD (3 July 2013/ESMA/2013/232) and UCITS Directive (14 October 2016/ESMA/2016/575).

1.1.1 Remuneration Programme Philosophy

Retention of talented employees is critical to executing the The Goldman Sachs Group, Inc.'s ("the firm" or "GS Group") business strategy successfully. Remuneration is, therefore, a key component of the costs the firm incurs to generate revenues, similar to cost of goods sold or manufacturing costs in other industries.

The remuneration philosophy and the objectives of the remuneration programme for the firm are reflected in the Compensation Principles for GS Group, as posted on the Goldman Sachs public website:

<https://am.gs.com/en-lu/institutions/creating-impact/policies-and-governance>

In particular, effective remuneration practices should:

- (i) Encourage a real sense of teamwork and communication, binding individual short-term interests to the institution's long-term interests;
- (ii) Evaluate performance on a multi-year basis;
- (iii) Discourage excessive or concentrated risk-taking;
- (iv) Allow an institution to attract and retain proven talent;
- (v) Align aggregate remuneration for the firm with performance over the cycle; and
- (vi) Promote a strong risk management & control environment.

1.1.2 Compensation Frameworks

The Amended and Restated Firmwide Performance Assessment & Variable Compensation Framework ("Firmwide Compensation Framework") formalises the variable remuneration practices of the firm.

The primary purpose of this Firmwide Compensation Framework is to assist the firm in assuring that its variable compensation programme does not provide "covered employees" (i.e., senior executives as well as other employees of the firm, who, either individually or as part of a group, have the ability to expose the firm to material amounts of risk) with incentives to take imprudent risks and is consistent with the safety and soundness of the firm.

Each business, and each of its underlying business units, maintains a Performance Assessment & Variable Compensation Framework that is specific to the business or business unit, as applicable, and that is consistent with the Firmwide Compensation Framework (collectively, the "Compensation Frameworks").

1.1.3 Integration of GSAM B.V. and its Remuneration structures

The firm completed the acquisition of GSAM B.V. on 11 April 2022 from NN Group. The NN Group Remuneration Framework remained applicable during the transition year of 2022 and this framework – in addition to the Goldman Sachs Compensation Frameworks and Plans such as the Goldman Sachs NNIP Phantom Unit Investment Plan – was followed until the full integration into Goldman Sachs. From 1 January 2024, and effective over fiscal year 2023 grants, GSAM B.V implemented the Goldman Sachs Asset Management B.V. Compensation Policy, with the purpose of supplementing the firm's remuneration programmes and frameworks in alignment with applicable local laws, rules and regulations.

1.1.4 Remuneration Governance

The Compensation Committee

The Board of Directors of GS Group (the "Group Board") oversees the development, implementation and effectiveness of the firm's global remuneration practices, and it generally exercises this responsibility directly or through delegation to the Compensation Committee of the Group Board (the "Compensation Committee"). The responsibilities of the Compensation Committee include:

- Review and approval of (or recommendation to the Group Board to approve) the firm's variable remuneration structure, including the portion to be paid as share-based awards, all year-end share-based grants for eligible employees and the terms and conditions of such awards.
- Assisting the Group Board in its oversight of the development, implementation and effectiveness of policies and strategies relating to the Human Capital Management ("HCM") function, including recruiting, retention, career development and progression, management succession (other than that within the purview of the Corporate Governance and Nominating Committee) and diversity.
- The Compensation Committee held 10 meetings in 2023 to discuss and make determinations regarding remuneration.
- The members of the Compensation Committee at the end of 2023 were Kimberley D. Harris (Chair), M. Michele Burns, Kevin R. Johnson, Ellen J. Kullman, Lakshmi N. Mittal, and Adebayo O. Ogunlesi (ex-officio). None of the members of the Compensation Committee was an employee of the firm. All members of the Compensation Committee were "independent" within the meaning of the New York Stock Exchange Rules and the Group Board Policy on Director Independence.

External Consultants

The Compensation Committee recognises the importance of using a remuneration consultant that is appropriately qualified and is determined to be independent.

For 2023, the Compensation Committee received the advice of a remuneration consultant from Frederic W. Cook & Co., Inc.

Other Group Stakeholders

In carrying out the responsibilities of the Compensation Committee, the Chair of the Compensation Committee met multiple times with senior management during the year, including the firm's Chief Operating Officer ("COO"), the Executive Vice President, the Global Head of HCM and other members of senior management.

The GSAM B.V. Compensation Committee

The GSAM B.V. Compensation Committee (the “GSAM B.V. Compensation Committee”) operates in line with GS Group policies and practices.

The members of the GSAM B.V. Compensation Committee at the end of 2023 were Martijn Canisius (Chair), Anya Radford, Jan van Vulpen, Patrick den Besten and Kameliya Evtimova. The responsibilities of the GSAM B.V. Compensation Committee include:

- Overseeing the development and implementation of the Goldman Sachs Asset Management B.V. remuneration policy (“the GSAM B.V. Compensation Policy”) and related practices of GSAM B.V. in accordance with the relevant provisions in and any other applicable law and regulation.
- Supporting the GSAM B.V. Supervisory Compensation Committee with regard to reviewing and approving the remuneration of the GSAM B.V. Board and the highest paid staff members of GSAM B.V. and the senior officers in the independent control functions.
- Preparing appropriate recommendations for holdback of deferred compensation by way of malus and or holdback to GSAM B.V. staff, to be signed-off by the GSAM B.V. Supervisory Compensation Committee.

The GSAM B.V. Compensation Committee held 4 meetings in 2023 in fulfilment of these responsibilities.

GSAM B.V. Supervisory Compensation Committee

The GSAM B.V. Supervisory Compensation Committee oversees the development and implementation of those remuneration policies and practices of GSAM B.V. that are required to supplement the global Compensation Policy of GS Group in accordance with applicable law and regulations.

The GSAM B.V. Supervisory Committee works alongside the GSAM B.V. Compensation Committee. The GSAM B.V. Supervisory Compensation Committee is chaired by Fadi Abuali. The GSAM B.V. Supervisory Compensation Committee held 3 meetings in 2023 in fulfilment of these responsibilities.

Remuneration Risk Assessment

The GSAM B.V. Head of Reward presented the annual remuneration risk assessment to the GSAM B.V. Compensation Committee, to assist the GSAM B.V. Compensation Committee in its assessment of the effectiveness of GSAM B.V.’s remuneration programme, and particularly, whether the programme is consistent with the principle that variable remuneration does not encourage employees to expose the firm to imprudent risk. This assessment most recently occurred in March 2024, over performance year 2023.

Global Remuneration Determination Process

The firm’s global process for setting variable remuneration (including the requirement to consider risk and compliance issues) applies to employees of GSAM B.V. and is subject to oversight by the GSAM B.V. Compensation Committee and the GSAM B.V. Supervisory Compensation Committee and ultimately the Group Board and the Compensation Committee. The firm uses a highly disciplined and robust process for setting variable remuneration across all regions following the processes outlined in the Compensation Frameworks.

In addition, as part of the remuneration determination process, members of the firm’s Compliance, Risk, Employment Law Group and Employee Relations functions make arrangements for business and business unit management to take into consideration certain compliance, risk or control matters when determining remuneration of individuals.

1.1.5 Link Between Pay and Performance

In 2023, annual remuneration for employees comprised fixed remuneration (including base salary) and variable remuneration. The firm's remuneration practices provide for variable remuneration determinations to be made on a discretionary basis. Variable remuneration is based on multiple factors and is not set as a fixed percentage of revenue or by reference to any other formula, consistent with the process outlined in the Compensation Frameworks. Firmwide performance is a key factor in determining variable remuneration.

The firm is committed to aligning variable remuneration with performance. In order to do so, the performance of the firm, relevant business, and/or business unit, desk (if applicable) and individual over the past year, as well as over prior years, are taken into account.

The firm believes that multi-year guarantees should be avoided as they risk misaligning remuneration and performance, and guaranteed variable remuneration should be awarded in exceptional circumstances only (for example, for certain new hires).

1.1.6 Selection and remuneration of Identified Staff

GSAM B.V. selects Identified Staff (staff whose professional activities have material impact on the risk profile of GSAM) on the basis of both AIFMD and UCITS (being staff whose professional activities have a material impact on the Dutch licensed AIF(s), and/or the UCITS and/or GSAM based in The Hague). AIFMD and UCITS Identified Staff are selected in accordance with ESMA guidelines 2013/232 and 2016/575. Under its selection methodology, GSAM B.V. considers the categories as detailed in the aforementioned ESMA guidelines and conducts a review of employees who have a material impact and whose total remuneration takes them into the same remuneration bracket as senior managers and risk takers. GSAM B.V. also selected Identified Staff on the basis of the Regulatory Technical Standards on Identified Staff under IFD in 2023. It should be noted that IFD ceased to apply to any entities in The Netherlands during the year.

The applied selection methodology and selection criteria were approved by the GSAM B.V. Compensation Committee.

1.1.7 Performance Measurement

Financial performance is measured at the firmwide, business, business unit, desk and individual level as applicable. Employees are evaluated annually as part of the performance review feedback process. The process reflects evaluation of employee objectives and performance focusing on matters including but not limited to teamwork and collaboration.

Firmwide performance

The following metrics are among the firmwide financial performance measures, considered in determining amounts, although the firm does not use specific measures/targets as part of a formula:

- Net revenues;
- Provision for credit losses;
- Revenues net of provision for credit losses;
- Compensation and benefits expense;
- Non-compensation expenses;
- Pre-tax earnings;
- Net earnings;
- Ratio of compensation and benefits to revenues net of provision for credit losses;
- Efficiency ratio;

- Diluted earnings per share;
- Return on average common equity;
- Return on average tangible common equity; and
- Book value per common share.

Business, business unit, desk performance

Additionally, at both the business and business unit level, quantitative and/or qualitative metrics specific to such levels, respectively, and below are used to evaluate the performance of the business/business unit and their respective employees.

Individual performance

Employees are evaluated annually as part of the performance review feedback process.

Performance Management for Identified Staff

The performance management principles applied to Identified Staff ensure that there is focus on financial and non-financial performance, strong leadership behavior and reinforcement of GSAM B.V.'s strategy. The principles also create alignment with the AIF and UCITS risk profile. The performance objectives include both financial and non-financial performance objectives according to the following balance:

- A maximum of 50% financial objectives for non-control functions Identified Staff;
- A maximum of 15% financial objectives for control functions;
- Control functions will only have financial performance objectives that are not linked to the performance of the business unit they control.

GSAM B.V. promotes robust and effective risk management. This includes risk management of sustainability risks (such as environment, society, governance and people related matters). It supports balanced risk-taking and long-term value creation. This will be supported, among others, by the processes related to determining performance targets that can be linked to variable remuneration. Investment professionals are required and all staff are encouraged to incorporate objectives related to sustainability and the integration of sustainability risks.

1.1.8 Risk Adjustment

Prudent risk management is a hallmark of the firm's culture and sensitivity to risk and risk management are key elements in assessing employee performance, including as part of the performance review feedback process noted above.

The firm takes risk, including conduct risk, into account both on an ex-ante and ex-post basis when setting the amount and form of variable remuneration for employees. As indicated in the Compensation Frameworks, different lines of business have different risk profiles and these are taken into account when determining remuneration. These include Compliance and Operational Risk, Strategic and Business Environment Risk, Credit and Market Risk, Liquidity and Funding Risk and the potential for reputational risk that may emanate from any of the aforementioned risks.

Guidelines are provided to assist compensation managers when exercising discretion during the remuneration process to promote appropriate consideration of the different risks presented by the firm's businesses. Further, to ensure the independence of control function employees, remuneration for those employees is not determined by individuals in revenue-producing positions but rather by the management of the relevant control function.

Consistent with prior years, for 2023 certain employees receive a portion of their variable remuneration as a share-based award that is subject to a number of terms and conditions that could result in forfeiture or recapture. For further details, see "Structure of Remuneration" below.

In the 2023 annual remuneration risk assessment presented to the Compensation Committee, meeting jointly with the Risk Committee of the Group Board, GS Group's CRO confirmed that the various components of the firm's remuneration programmes and policies (for example, process, structure and governance) balanced risk and incentives in a manner that does not encourage imprudent risk-taking. In addition, the CRO stated that the firm has a risk management process that, among other things, is consistent with the safety and soundness of the firm and focuses on our:

- (i) Risk management culture: the firm's culture emphasises continuous and prudent risk management;
- (ii) Risk-taking authority: there is a formal process for identifying employees who, individually or as part of a group, have the ability to expose the firm to material amounts of risk;
- (iii) Upfront risk management: the firm has tight controls on the allocation, utilisation and overall management of risk-taking, as well as comprehensive profit and loss and other management information which provide ongoing performance feedback. In addition, in determining variable remuneration, the firm reviews performance metrics that incorporate ex-ante risk adjustments; and
- (iv) Governance: the oversight of the Group Board, management structure and the associated processes all contribute to a strong control environment and control functions have input into remuneration structure and design.

The GSAM B.V. Compensation Committee has also reviewed the annual compensation-related risk assessment with respect to GSAM B.V.

1.1.9 Structure of Remuneration

Fixed Remuneration

The firm has a global salary approach to ensure consistency in salary levels and to achieve an appropriate balance between fixed and variable remuneration.

Variable Remuneration

For employees with total remuneration and variable remuneration above specific thresholds, variable remuneration is generally paid in a combination of cash and equity-based remuneration. In general, the portion paid in the form of an equity-based award increases as variable remuneration increases and, for Identified Staff, is set to ensure compliance with the applicable rules of the AIFMD and UCITS Directive.

The variable remuneration programme is flexible to allow the firm to respond to changes in market conditions and to maintain its pay-for-performance approach. Variable remuneration is discretionary (even if paid consistently over a period of years).

Equity-Based Remuneration

The firm believes that remuneration should encourage a long-term, firmwide approach to performance and discourage imprudent risk-taking. Paying a significant portion of variable remuneration in the form of equity-based remuneration that delivers over time, changes in value according to the price of shares of common stock (shares) of GS Group and/or the performance of GSAM B.V. funds, and is subject to forfeiture or recapture encourages a long-term, firmwide focus because its value is realised through long-term responsible behaviour and the financial performance of the firm.

To ensure continued alignment to the investment activities of GSAM B.V., Identified Staff and GSAM B.V. staff eligible for equity-based remuneration are generally awarded both GS Group Restricted Stock Units ("RSUs") and Phantom Units under the Goldman Sachs NNIP Phantom Investment Plan ("GSAM B.V. Phantom Unit Plan"), described further below.

The firm imposes transfer restrictions, retention requirements, and anti-hedging policies on RSUs to further align the interests of the firm's employees with those of the firm's shareholders. The firm's retention and transfer restriction policies, coupled with the practice of paying senior employees a significant portion of variable remuneration in the form of share-based awards, leads to a considerable investment in shares of GS Group over time.

- **Identified Staff upfront award:** For Identified Staff, the upfront part of the award consists of cash and GSAM B.V. Phantom units. These Phantom Units are tied to the performance of funds managed by GSAM B.V. and vest immediately upon grant. A 12 month retention applies over all upfront GSAM B.V. Phantom Unit awards.
- **Deferral Policy:** The deferred portion of fiscal year 2023 annual variable remuneration was generally awarded in the form of RSUs and GSAM B.V. Phantom Units. An RSU is an unfunded, unsecured promise to deliver a share on a predetermined date. RSUs awarded in respect of fiscal year 2023 generally deliver in three equal instalments on or about each of the first, second and third anniversaries of the grant date, and GSAM B.V. Phantom Units generally vest in three equal instalments on or about each of the first, second and third anniversaries of the grant date, assuming the employee has satisfied the terms and conditions of the award at each such date.
- **Transfer Restrictions over RSUs:** The firm generally requires certain individuals to hold a material portion of the shares they receive in respect of RSUs granted as part of their year-end remuneration according to the firm's global deferral table. These transfer restrictions apply to the lower of 50% of the shares delivered before reduction for tax withholding, or the number of shares received after reduction for tax withholding. Because combined tax and social security rates in the Netherlands are close to 50%, transfer restrictions apply to substantially all net shares delivered to employees resident in the Netherlands.

An employee generally cannot sell, exchange, transfer, assign, pledge, hedge or otherwise dispose of any RSUs or shares that are subject to transfer restrictions.

- **Retention Requirement:** For certain individuals the firm requires that the GSAM B.V. Phantom Units awarded in relation to their variable remuneration will remain subject to a 12 month retention period after vesting. All GSAM B.V. Phantom Units awarded to employees designated as Identified Staff are subject to this retention requirement.
- **Forfeiture and Recapture Provisions:** The RSUs and shares delivered thereunder and GSAM B.V. Phantom Units awarded in relation to variable remuneration are subject to forfeiture or recapture if the Compensation Committee or its delegate(s) determine(s) that during 2023 the employee participated (or otherwise oversaw or was responsible for, depending on the circumstances, another individual's participation) in the structuring or marketing of any product or service, or participated on behalf of the firm or any of its clients in the purchase or sale of any security or other property, in any case without appropriate consideration of the risk to the firm or the broader financial system as a whole (for example, if the employee were to improperly analyse risk or fail sufficiently to raise concerns about such risk) and, as a result of such action or omission, the Compensation Committee or its delegate(s) determine(s) there has been, or reasonably could be expected to be, a material adverse impact on the firm, the employee's business unit or the broader financial system.

This provision is not limited to financial risks and is designed to encourage the consideration of the full range of risks associated with the activities (for example, legal, compliance or reputational). The provision also does not require that a material adverse impact actually occur, but rather may be triggered if the firm determines that there is a reasonable expectation of such an impact.

The Compensation Committee previously adopted guidelines that set forth a formal process regarding determinations to forfeit or recapture awards for failure to consider risk appropriately upon the occurrence of certain pre-determined events (for example, in the event of annual firmwide, business unit and below or individual losses). The review of whether forfeiture or recapture is appropriate includes input from the CRO, as well as representatives from Legal Division, as appropriate. Determinations are made by the Compensation Committee or its delegates, with any determinations made by delegates reported to the Compensation Committee.

All variable remuneration granted to Identified Staff is generally subject to forfeiture or recapture in the event of a "material failure of risk management", or in the event that the employee engages in "serious misconduct", at any time during the seven year period after grant (equity-based awards) or payment (cash).

Additionally, RSUs and shares delivered thereunder and GSAM B.V. Phantom Units awarded in relation to variable remuneration are generally subject to forfeiture or recapture if it is appropriate to hold an Identified Staff accountable in whole or in part for an "adjustment event" that occurred during 2023. This may include conduct which resulted in a material loss of capital or a material relevant regulatory sanction for the firm.

An employee's RSUs and GSAM B.V. Phantom Units may also be forfeited, and shares delivered thereunder recaptured if the employee engages in conduct constituting "cause" at any time before the RSUs are delivered and any applicable transfer restrictions lapse. Cause includes, among other things, any material violation of any firm policy, any act or statement that negatively reflects on the firm's name, reputation or business interests and any conduct detrimental to the firm.

With respect to all of the forfeiture conditions, if the firm determines after delivery or release of transfer restrictions that an RSU or share delivered thereunder or GSAM B.V. Phantom Unit should have been forfeited or recaptured, the firm can require return of any shares delivered or repayment to the firm of the fair market value of the shares or GSAM B.V. Phantom Units when delivered or paid (including those withheld to pay taxes) or any other amounts paid or delivered in respect thereof.

- **Hedging:** The firm's anti-hedging policy ensures employees maintain the intended exposure to the firm's stock performance. In particular, all employees are prohibited from hedging RSUs, including shares that are subject to transfer restrictions. Employees may hedge only shares that they can otherwise sell. However, no employee may enter into uncovered hedging transactions or sell short any shares. Employees may only enter into transactions or otherwise make investment decisions with respect to shares during applicable "window periods".
- **Treatment upon Termination or Change-in-Control:** As a general matter, delivery schedules are not accelerated, and transfer restrictions are not removed, when an employee leaves the firm. The limited exceptions include death and "conflicted employment." A change in control alone is not sufficient to trigger acceleration of any deliveries or removal of transfer restrictions; only if the change in control is followed within 18 months by a termination of employment by the firm without "cause" or by the employee for "good reason" will delivery and release of transfer restrictions be accelerated.

1.1.10 Quantitative Disclosures

Remuneration over 2023

Over 2023, GSAM B.V. has awarded a total amount of EUR 124.09 mln to all employees. This amount consists of fixed remuneration of EUR 91.93 mln. and variable remuneration of EUR 32.16 mln. Per 31 December 2023 this concerned 770 employees and 5 board members of GSAM B.V. The majority of employees spend their time on activities that are directly or indirectly related to the management of the funds. There is no remuneration in the form of carried interest. In total GSAM B.V. awarded remuneration exceeding EUR 1 mln. to 2 employees.

From the above mentioned amounts, total remuneration for the board members is EUR 3.01 mln., of which fixed remuneration is EUR 1.58 mln. and variable remuneration is EUR 1.43 mln.

Remuneration paid or awarded for the financial year ended 31 December 2023 comprised fixed remuneration (salaries, allowances and director fees) and variable remuneration. Information of fixed remuneration and variable remuneration is not administered on fund level, resulting in the costs above to be disclosed on aggregated total management company level.

Aggregated fixed and variable remuneration over 2023

The following tables show aggregate quantitative remuneration information for all Identified Staff of GSAM B.V. selected on the basis of AIFMD, UCITs and/or IFD for the performance year 2023.

Table 1: Aggregated fixed and variable remuneration for the performance year 2023 for Identified Staff

Amounts in EUR 1,000 and gross	Identified Staff qualified as Executives	Other Identified Staff
Number of employees (#)	5	28
Fixed remuneration (1)	1,582	7,981
Variable remuneration (2)	1,430	7,014
Aggregate of fixed and variable remuneration	3,012	14,995

Note 1) Fixed remuneration per ultimo 2023 for contractual working hours. The Fixed remuneration includes allowances, which includes elements such as holiday pay, and pension allowance and excludes benefits.

Note 2) Variable remuneration includes all conditional and unconditional awards in relation to the performance year 2023 as approved by the relevant committees and authorized per December 2023. This includes all payments to be processed through payroll per January 2024, and GSAM B.V. Phantom Unit awards as awarded to Identified Staff as well as all conditional deferred RSUs and GSAM B.V. Phantom Units. A reference to the allocated Funds is not available.

Table 2: Aggregated fixed and variable remuneration for the performance year 2022 for Identified Staff

Amounts in EUR 1,000 and gross	Identified Staff qualified as Executives	Other Identified Staff
Number of employees (#)	6	23
Fixed remuneration (1)	2,482	5,832
Variable remuneration (2)	1,885	3,512
Aggregate of fixed and variable remuneration	4,367	9,344

Note 1) Fixed remuneration per ultimo 2022 for contractual working hours. The Fixed remuneration includes allowances, which includes elements such as holiday pay, and pension allowance and excludes benefits.

Note 2) Variable remuneration includes all conditional and unconditional awards in relation to the performance year 2022 as approved by the relevant committees and authorized per October 2022. This includes all payments to be processed through payroll per January 2023, and GSAM B.V. Phantom Unit awards as awarded to Identified Staff as well as all conditional deferred RSUs and GSAM B.V. Phantom Unit. A reference to the allocated Funds is not available.

Remuneration information third parties

GSAM B.V. has (partly) outsourced its portfolio management activities to third parties. For each of these parties a Portfolio Management Agreement (PMA) has been arranged. The PMA guarantees efficient and effective services in accordance with the set agreements with these third parties. The services offered by these third parties based on the PMA are evaluated annually by GSAM B.V.

The transparency that GSAM B.V. maintains with regard to the applied compensation policy also includes transparency regarding the compensation policy of third parties who carry out portfolio management activities for GSAM B.V. By doing this GSAM B.V. is aligned with the guidance from the European regulator (ESMA).

GSAM B.V. annually requests information from third parties in order to be able to evaluate the services and information about the applied remuneration policy by the third party is included in this request. For more information about the remuneration policies of these third parties, please refer to: <https://am.gs.com/en-lu/institutions/creating-impact/policies-and-governance>.

Global Exposure Calculation Method in Accordance with the Provisions of CSSF Circular 11/512

For the year ended 30 September 2024, the VaR methodology, the reference portfolio in the case the relative VaR approach is used, the information on the utilisation of the VaR limit (the lowest, the highest and the average VaR), the model and the parameters used for its calculation as well as the average level of leverage are detailed as follows:

Sub-fund Name	Goldman Sachs Alternative Beta

Comments:

⁽¹⁾ Absolute or Relative VaR approach.

⁽²⁾ In accordance with the UCITS regulation, the expected level of leverage is outlined in the above for the sub-funds using the VaR approach. The expected level of leverage is expressed as the ratio between the market risk exposure of the sub-fund's positions in derivatives and its net asset value. The ratio is calculated in accordance with the commitment method ("net approach") and the sum of notional method ("gross approach"). While the net approach takes into account netting and hedging arrangements, the gross approach does not take into account such arrangements, hence triggering results that are generally higher and not necessarily representative from an economic exposure point of view. Irrespective of the approach used, the expected level of leverage is an indicator and not a regulatory limit. A sub-fund's observed level of leverage may be higher than the expected level as long as it remains in line with its risk profile and complies with its VaR limit. Depending on market movements, the expected level of leverage may vary over time. In case no derivatives positions are included in the portfolio, the base value for the leverage is "0" (i.e. 0%). The leverage ratio aims to approximate the impact of the use of derivatives instruments on the overall market risk of a given sub-fund.

For a complete picture of the risk profile associated to each sub-fund, please refer to the risk profile section disclosed in each sub-fund's Factsheet of the Prospectus.

Portfolio Turnover Ratio

The Portfolio Turnover Ratio is an indicator of the relevance of the additional costs incurred by a fund when buying and selling investments according to its investment policy.

The Portfolio Turnover Ratio is calculated using the method described below:

$$\text{Turnover} = [(Total\ 1 - Total\ 2)/M] \times 100$$

Total 1 = Total securities transactions during the period = X + Y

X = purchases

Y = sales

Total 2 = Total capital transactions during the period = S + R

S = subscriptions

R = redemptions

M = Average Net Assets

The Portfolio Turnover Ratio is expressed as a percentage. The Portfolio Turnover calculation excludes the trades instructed into Goldman Sachs Funds VI which are linked to cash facility management.

As at 30 September 2024, the Portfolio Turnover Ratio is as follows:

Sub-funds	Portfolio Turnover Ratio (%)
Goldman Sachs Asia Equity Income*	22.07
Goldman Sachs Emerging Europe Equity ⁽¹⁾	19.56

* Refer to Note 1 Organisation for more details.

The Ongoing Charges are calculated using the following formula: the sum of 12 months of operational expenses^(a)/average Relative Net Assets^(b).

^(a) Operational expenses are management fees, fixed service fees, tax d'abonnement, legal expenses, overlay fees, distribution expense, fund administration expense, custody expense and other expense.

^(b) Relative Net Assets = prior day Total Net Assets + capstock activities.

Information to Shareholders

Under the Belgian Finance Act of 22 December 2003, that came into effect on 1 January 2004, a 0.06% yearly tax was applied on all money originating from Belgium included in the Company at 31 December of the prior year. This tax rate has been increased to 0.07% in 2005, to 0.08% in 2007, to 0.0965% in 2013 and decreased to 0.0925% from 2014 onwards. The Company has lodged a complaint with the European Commission against the Belgian State for this tax to be recognized as contravening the Community law. That complaint has been rejected by the European Commission. Following another complaint introduced by the Company before the Belgian Courts, the Brussels Court of First Instance has delivered a positive judgment condemning the Belgian State to refund the amounts unduly paid. The Belgian State has, however, appealed against that decision. On 29 November 2018, the Court of Appeals of Brussel rendered its decision. The decision of the Court upheld the judgement of the Brussels

Court of First Instance which had ordered the Belgian State to reimburse the Belgian yearly tax levied on the Luxembourg fund. The Belgian State has filed an appeal before the Belgian Supreme Court. On 13 April 2022 the decision of the Belgium Supreme Court was published: the Supreme Court annulled the Brussels' Court of Appeal positive decision, so basically denying a refund to claimants. On 6 November 2024, the Liege Court of Appeal upheld the decision of the Belgian Supreme Court, confirming that claimants are not entitled to a refund. We, as Management Company of the Fund, are investigating whether it is feasible to further appeal this decision before the Belgian Supreme Court.

Securities Financing Transaction Regulation ("SFTR")

Securities Financing Transaction Regulation ("SFTR") introduces reporting requirements for Securities Financing Transactions ("SFTs") and total return swaps in the framework of transparency of securities financing transactions and of reuse.

A Securities Financing Transaction (SFT) is defined as per Article 3(11) of the SFTR as:

- repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- buy-sell back transaction or sell-buy transaction;
- margin lending transaction.

As at 30 September 2024, the the sub-funds held securities lending and total return swaps as a type of instruments under the scope of the SFTR.

Global Data

The amount of assets across all securities lending as at 30 September 2024 is as follows:

Sub-funds	Type of Asset	Currency	Market Value	% of AUM	% of lendable assets
Goldman Sachs Europe Equity Income	Securities lending	EUR	2,976,702.48	1.60	1.63
Goldman Sachs Global Equity Income	Securities lending	EUR	4,547,883.30	0.86	0.88
Goldman Sachs Asian Debt (Hard Currency)	Securities lending	USD	8,264,935.36	3.95	3.97
Goldman Sachs Emerging Markets Corporate Debt (Former NN)	Securities lending	USD	3,057,910.98	2.35	2.53
Goldman Sachs Emerging Markets Debt (Hard Currency)	Securities lending	USD	241,016,769.83	3.92	4.11
Goldman Sachs Frontier Markets Debt (Hard Currency)	Securities lending	USD	24,690,744.26	6.15	6.37
Goldman Sachs Global Yield Opportunities (Former NN)	Securities lending	EUR	2,020,920.38	2.37	2.38
Goldman Sachs US High Yield	Securities lending	USD	4,951,728.06	3.16	3.50
Goldman Sachs Europe High Yield (Former NN)	Securities lending	EUR	7,194,047.72	7.23	7.77
Goldman Sachs Global High Yield (Former NN)	Securities lending	EUR	153,160,970.86	5.67	5.87

The amount of assets across total return swaps as at 30 September 2024 is as follows:

Sub-Funds	Type of Assets	Currency	Market Value	% of AUM
Goldman Sachs Alternative Beta	Total Return Swaps	USD	1,947,424.72	0.75
Goldman Sachs Commodity Enhanced	Total Return Swaps	USD	5,357,458.57	3.03
Goldman Sachs Multi Asset Factor Opportunities	Total Return Swaps	USD	(106,547.14)	(0.66)

Data on reuse of collateral

There was no collateral reused during the year ended 30 September 2024.

Concentration Data

The largest issuers for collateral securities received across all SFTs as at 30 September 2024 are as follows:

Sub-funds	Collateral Issuer	Currency	Market Value of collateral received
Goldman Sachs Europe Equity Income	Canadian Government	EUR	3,328,230.72
Goldman Sachs Global Equity Income	French Government	EUR	5,058,246.69

Merrill Lynch International	Cash	USD	(210,000.00)	NA	NA	USD	United States	Bi-party

* The amounts reported relate to OTC derivatives positions and not only to total return swaps positions.

The maturity of SFTs and TRS is as follows:

As at 30 September 2024, all the securities lending trades have an open maturity.

As at 30 September 2024, the maturity of each Total Return Swap is disclosed in the Schedule of Investments of each sub-fund.

For the sub-fund Goldman Sachs Alternative Beta, the maturity of the total return swaps is between one month to three months.

For the sub-fund Goldman Sachs Commodity Enhanced, the maturity of the total return swaps is between one week to one month.

For the sub-fund Goldman Sachs Multi Asset Factor Opportunities, the maturity of the total return swap is between one week to one month.

Safekeeping of Collateral Granted

The collateral granted is on a title transfer basis and the fund can recover this collateral at any time. The counterparty only has the obligation to return the same amount back to the fund and the fund cannot request to return this amount "at any time" as long as there is exposure to the underlying transaction.

There was no collateral granted during the year ended 30 September 2024.

Returns/Costs

The net returns presented in the Securities Lending part cannot be compared to the securities lending income from Securities Financing Transaction Regulation ("SFT") part because of timing difference related to communication and processing of data between the parties involved.

Returns and costs for each type of SFTs and total return swaps for the year ended 30 September 2024 are as follows:

Goldman Sachs Funds II plc

Directors' Report

For the Year Ended 31 December 2023

Directors' Report

The Directors present to the shareholders their annual report together with the financial statements of Goldman Sachs Funds II plc (the "Company") for the year ended 31 December 2023. The Company currently consists of one fund, Goldman Sachs China A-Share Equity Portfolio (the "Fund").

Business Review and Future Developments

The results of operations are set out on page 20. A review of the performance of the Company is contained in the Investment Adviser's Report on pages 9 to 10.

Principal Risks and Uncertainties

The Company is exposed to a variety of risks as disclosed in Note 11 of the Financial Statements, together with the Prospectus.

In addition to the financial risks potentially impacting the Company, the performance is subject to a number of uncertainties including, but not limited to, macro-economic factors and geopolitical tensions. These factors have the ability to impact the value of the Company's assets directly and indirectly. The Management Company, as appointed by the Directors of the Company, actively monitor market conditions and report the impact on the Company to those charged with governance.

Assets Under Management

As at 31 December 2023 and 31 December 2022 assets under management were:

Fund	Assets Under Management	
	31-Dec-2023	31-Dec-2022
Goldman Sachs China A-Share Equity Portfolio	US\$ 1,333,088,826	US\$ 1,518,045,858

Dividends

The dividends for the year are set out in Note 10, on page 35.

Significant Events

Significant events are set out in Note 20, on page 42.

Subsequent Events

Subsequent events are set out in Note 21, on page 42.

Directors' and Secretary's Interests

The Directors of the Company are listed in the Directors and Other Information on page 2. Unless indicated, they served for the entire year. Matsack Trust Limited held the office of Secretary throughout the year.

The Directors and Secretary and their families had no interest in the shares of the Company at 31 December 2023.

No Director or the Secretary had a material interest in any contract of significance during or at the end of the year in relation to the business of the Company.

Independent Auditors

The Auditors, PricewaterhouseCoopers, have indicated their willingness to continue in office in accordance with Section 383(2) of the Companies Act 2014 and the Companies (Accounting) Act 2017 (collectively the "Companies Act").

Goldman Sachs Funds II plc Directors' Report For the Year Ended 31 December 2023 (continued)

Statement of Fund Governance

The Company has decided to adopt the corporate governance code for Irish domiciled investment funds and management companies issued by Irish Funds (the "Code") in December 2012. This Code is available from the Irish Funds Industry Association's website at the attached link: <http://files.irishfunds.ie/1432820468-corporategovernance-code-for-collective-investment-schemes-and-management-companies.pdf>

The Board adopted the Code having regard for certain other key pillars of governance within the collective investment fund governance structure, including:

- (i) the unique role of the promoter of a collective investment fund (which is, or a related company of which is, normally the investment manager of the collective investment fund), in supporting the corporate governance culture of the Company;
- (ii) the uniqueness of the independent segregation of duties as between the Management Company, the Investment Adviser, the Administrator (with responsibility for the calculation of the net asset value, amongst other duties) and the independent Depositary (with responsibility for safeguarding the assets of the Company and overseeing how the Company is managed), such segregation of duties/functions being achieved through delegation of respective responsibilities to and appointment of suitably qualified and also regulated third party entities who are subject to regulatory supervision; and
- (iii) the role of the Company's shareholders in allocating their capital to the Company to have such capital managed in accordance with the investment objective and policies of the relevant Fund of the Company as promoted by the promoter.

The Company's Requirements

The Company is subject to the requirements of:

- (i) The Irish Companies Act, including, but is not limited to:
 - (a) Section 167 on Audit committees
 - (b) Section 281-285 on Accounting Records
 - (c) Section 225 on Directors Compliance Statement and related statement
 - (d) Section 330 on Relevant audit information
- (ii) The Central Bank of Ireland in its UCITS Regulations

Goldman Sachs Funds II plc

Directors' Report

For the Year Ended 31 December 2023 (continued)

Statement of Directors' Responsibilities

A. Audit Committees

Section 167 of the Companies Act obliges the Board to either establish an audit committee or, if it decides not to do so, to disclose the reasons for that decision.

The Board has determined not to establish an audit committee. Given the current size of the Board, it is likely that an audit committee would comprise all, or a significant majority, of the Board and accordingly it is considered efficient for audit matters to be discussed by the entire Board rather than by an audit committee.

B. Accounting Records

Irish company law requires the Directors to prepare financial statements for each year which give a true and fair view of the state of the affairs of the Company and of the profit or loss of the Company for that year. In preparing those financial statements, the Directors are required to:

1. select suitable accounting policies and then apply them consistently;
2. make judgements and estimates that are reasonable and prudent;
3. disclose and explain material departures from applicable accounting standards; and
4. prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The financial statements have been prepared on a going concern basis.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements are prepared in accordance with Financial Reporting Standard 102 ("FRS 102") "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and comply with the Companies Act and the UCITS Regulations.

In fulfilment of this responsibility, the Directors of the Company have appointed Goldman Sachs Asset Management Fund Services Limited as its Management Company, which has delegated the administration of the adequate accounting records to State Street Fund Services (Ireland) Limited. For the year ended 31 December 2023, the adequate accounting records were kept at State Street Fund Services (Ireland) Limited, 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

The Directors are also responsible for safeguarding the assets of the Company and in fulfilment of this responsibility they have contracted the assets of the Company to State Street Custodial Services (Ireland) Limited, (the "Depositary") for safekeeping in accordance with the Memorandum and Articles of Association of the Company. They are also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements are published on the below Goldman Sachs website: https://www.gsam.com/content/dam/gsam/pdfs/international/en/prospectus-and-regulatory/annual-financial-statement/ar_ii_plc_en.pdf?sa=n&rd=n.

The Directors, together with the Management Company, are responsible for the maintenance and integrity of the financial information included on this website. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

C. Directors Compliance Statement and related statement

The Board acknowledges its responsibilities to comply with relevant obligations as defined in section 225 of the Companies Act.

The Directors confirm that:

1. A compliance policy document has been drawn up that sets out policies, that in our opinion are appropriate to the Company, respecting compliance by the Company with its relevant obligations;
2. Appropriate arrangements or structures are in place that are, in our opinion, designed to secure material compliance with the Company's relevant obligations; and
3. During the year, the arrangements or structures referred to in (2) have been reviewed.

Goldman Sachs Funds II plc
Directors' Report
For the Year Ended 31 December 2023 (continued)

D. Relevant Audit Information

The Directors believe that they have complied with the requirements of Section 330 of the Companies Act as follows:

1. So far as each person who is a Director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware; and
2. Having made enquiries of fellow directors and the Company's auditor, each Director has taken all the steps that he/she is obliged to take as a Director in order to make himself/herself aware of any relevant audit information and to establish that the auditor is aware of the information.

E. Connected Persons Transactions

Regulation 43 of the UCITS Regulations "Restrictions on transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unit-holders of the UCITS".

The Board of Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and all transactions with connected persons that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

On behalf of the Board of Directors:

Ms. Grainne Alexander
Director

Mr. John Whittaker
Director

23 April 2024

Depository's Report to the Shareholders of Goldman Sachs Funds II plc For the Year Ended 31 December 2023

Report of the Depository to the Shareholders

We have enquired into the conduct of the Manager in respect of Goldman Sachs Funds II plc (the "Company") for the year ended 31 December 2023, in our capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations'), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Manager in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Memorandum and Articles of Association of the Company and the UCITS Regulations. It is the overall responsibility of the Manager to comply with these provisions. If the Manager or the Company has not so complied, we as Depository must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depository Opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Memorandum and Articles of Association of the Company and the UCITS Regulations and
- (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Manager and the Depository by the Memorandum and Articles of Association of the Company, by the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Memorandum and Articles of Association of the Company, the UCITS Regulations and the Central Bank UCITS Regulations.

State Street Custodial Services (Ireland) Limited
78 Sir John Rogerson's Quay
Dublin 2
Ireland

23 April 2024

Goldman Sachs Funds II plc Investment Adviser's Report For the Year Ended 31 December 2023

Dear Shareholders:

Enclosed is the report for the year ended 31 December 2023.

A. Market Review¹

The MSCI China A Onshore Index returned (11.65)% during the year of 2023.¹

After a disappointing 2022, investors had entered 2023 with renewed optimism for China given the much-awaited unwinding of the Zero-Covid policy. While the initial euphoria did deliver, a downward spiral in the economy, driven by a deterioration in the property market, dampened any hopes of an immediate recovery. This was accompanied by a lack of deployment of accumulated excess savings, a by-product of the breakdown in consumer confidence in the economy. Meanwhile, absent policy support led markets to trade sentimentally, trading on the emerging themes of artificial intelligence and State-Owned reforms, at the expense of fundamentals.

Starting July, however, the course of markets have improved, as a string of support measures were announced to invigorate capital markets and encourage housing policies. During the July Politburo, policymakers announced a host of measures supporting the property market and consumption. These included a further reduction in interest rates, lowering of downpayment requirements and trimming home mortgage rates. Moving into the fourth quarter, we believed we could be on the onset of a stabilization in the economy. First, headline growth improved sequentially while there continued to be improvements across key consumption indicators such as retail sales (driven by auto, clothing, catering, and services), though their pace moderated due to an unfavorable base effect. Meanwhile, industrial profits have improved since August, although PMI growth remains mixed. Lastly, household income recovered from the second quarter, with a small release of excess savings in the third quarter, driven by rural households.

However, in 2024, conditions look brighter, as policy has become more supportive, segments of the economy are seeing a revival, and activity indicators tell a tale of resilience. Admittedly, risks remain in property and debt deleveraging. Against this backdrop, we continue to advise investors to focus on secular alpha opportunities and stay actively invested, especially given downward adjustment valuations.

B. Performance Review²

The Goldman Sachs China A-Share Equity Portfolio returned (17.77)% P Class Shares (Acc), net of fees in 2023, underperforming the MSCI China A Onshore Index.

At a sector level, positions within the Financials and Consumer Discretionary sectors underperformed, while an underweight in Materials and positions within the Industrials sector contributed to relative results. From a factor lens, we continue to face challenges in the current factor environment. This has predominantly been a result of our natural tilt towards "Growth" as a factor and corresponding underweight to "Value" as a factor. More importantly, our overweight exposure to the "Size" factor, as a result of our tilt towards larger-cap stocks within the China A-Share universe given their longer track records, cash flow generation capability, and quality management with execution capability has also contributed to our underperformance. Smaller-cap companies, which in general tend to exhibit more heated valuations and remain sentimentally driven, outperformed their large-cap counterparts in the relatively short time-period.

In terms of individual stocks, our position in China Tourism Duty Free Group ("China Tourism") underperformed. China Tourism has the largest duty-free business in China. The company has established long-term cooperation with more than 300 top luxury brands in the world. During the second quarter, the company underperformed as the duty-free sales during May and June were negatively affected by the price hike and crackdown of daigou activities in Hainan. The Hainan full island tax free policies that would be implemented in 2025 also confused the market given no detailed policies. Hence, we exited out of the position.

On the upside, our overweight position in Zhejiang Sanhua Intelligent Controls, ("Sanhua") one of China's leading HVAC control and component manufacturers with a global footprint and 30 years of experience, contributed to returns. The company has established relationships with leading refrigeration and air-conditioning manufacturers. Following its entrance into auto parts business, Sanhua further extended its core competence to grow consistently with rising demand for thermal management from the leading Neighborhood Electric Vehicle (NEV) auto makers. The stock outperformed the market in 2023, helped by continued strong order delivery on auto thermal management products and solid progress of refrigeration components business, including contribution from Energy Storage Solutions. Also, good progress made in Cybertruck, Tesla's humanoid and entry of Huawei into NEV supply chain where Sanhua has been one of the key suppliers, added to the positive sentiment around the stock.

Independent auditors' report to the members of Goldman Sachs Funds II plc

Report on the audit of the financial statements

Opinion

In our opinion, Goldman Sachs Funds II plc's financial statements:

- give a true and fair view of the Company's assets, liabilities and financial position as at 31 December 2023 and of its results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 31 December 2023;
 - the Statement of Comprehensive Income for the year then ended;
 - the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
 - the Schedule of Investments as at 31 December 2023; and
 - the notes to the financial statements, which include a description of the accounting policies.
-

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on pages 6 & 7, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Goldman Sachs Funds II plc **Notes to the Financial Statements** **For the Year Ended 31 December 2023**

1. Organisation

Goldman Sachs Funds II plc ("the Company") is an investment company with variable capital, incorporated on 23 June 2005 and organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 and the Companies (Accounting) Act 2017 (collectively the "Companies Act"). It was authorised by the Central Bank of Ireland as a Qualifying Investor Alternative Investment fund ("QIAIF") and named as GSAMI China Funds plc. The Company was then authorised as an Undertakings for Collective Investment in Transferable Securities ("UCITS") pursuant to European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the "UCITS Regulations") on 24 April 2020 and it changed its name to Goldman Sachs Funds II plc on 24 April 2020.

The Company has appointed Goldman Sachs Asset Management Fund Services Limited ("GSAMFSL") as the Management Company. Refer to Note 7 for the functions the Management Company undertakes.

The Company has appointed State Street Custodial Services (Ireland) Limited (the "Depositary") to act as Depositary of the Company's assets.

As at 31 December 2023 and 31 December 2022 the Goldman Sachs China A-Share Equity Portfolio consisted of twenty one active classes.

2. Investment Objectives

The primary objective of the Goldman Sachs China A-Share Equity Portfolio is to achieve long-term capital appreciation through investment in companies established or operating in the People's Republic of China.

3. Accounting Policies

(a) Basis of Preparation of Financial Statements

The Company has applied Financial Reporting Standard 102 ("FRS 102") "The Financial Reporting Standard applicable in the UK and Republic of Ireland".

The financial statements are presented in United States Dollars, the Company's functional currency. The Board of Directors considers that this currency most accurately represents the economic effects of the underlying transactions, events and conditions of the Company.

The preparation of the financial statements is in accordance with FRS 102 and Irish Statute comprising the Companies Act 2014 and in accordance with the UCITS Regulations. The financial statements have been prepared on a going concern basis as the Directors are of the view that the Company can continue in operational existence for the foreseeable future.

The preparation of the financial statements requires the Board of Directors to make certain estimates and assumptions that may affect the amounts reported in the financial statements and accompanying notes. Refer to the Liabilities section of the Statement of Financial Position and Note 4 for instances where the Board was required to make certain estimates and assumptions to determine fair value. Actual results may differ from those estimates.

Accounting standards FRS 102 applied in preparing financial statements giving a true and fair view are those issued by the Financial Reporting Council.

The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities held at fair value through profit or loss.

The format and certain wording of the financial statements have been adapted from those contained in the Companies Act 2014 and FRS 102, Section 3 "Financial Statement Presentation" so that, in the opinion of the Directors, they more appropriately reflect the nature of the Company's business as an Investment Company.

In the opinion of the Directors, the financial statements provide the information required by the Companies Act 2014.

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

3. Accounting Policies (continued)

(b) Investment Transactions, Related Investment Income and Operating Expenses

Investment transactions are recorded on a trade date basis. Realised gains and losses are based on a Weighted Average Cost method.

Dividend income and dividend expense are recorded on the ex-dividend date and interest income and interest expense are accrued over the life of the investment. Interest income includes accretion of market discount, original issue discounts, amortisation of premiums and effective interest and is recorded into income over the life of the underlying investment. Interest income and dividend income are recognised on a gross basis before withholding tax, if any.

Operating expenses are recognised on an accrual basis.

(c) Transaction Costs

Transaction costs are recognised in the Statement of Comprehensive Income as part of net change in unrealised investment loss and net realised investment loss.

Transaction costs for fixed income investments, forward currency contracts and other derivative contracts, excluding futures contracts, are not separately identifiable. For these investments transaction costs are included in the purchase and sales price and are part of the gross investment performance of the Company.

(d) Financial Investment in Securities and Valuation

Under FRS 102, in accounting for all of its financial instruments, an entity is required to apply either (a) the full requirements of Section 11 "Basic Financial Instruments" and Section 12 "Other Financial Instruments Issues" of FRS 102, (b) the recognition and measurement provisions of International Accounting Standards 39 "Financial Instruments: Recognition and Measurement" ("IAS 39") as adopted for use in the European Union and the disclosure requirements of Sections 11 and 12, or (c) the recognition and measurement provisions of International Financial Reporting Standards ("IFRS") 9 "Financial Instruments" ("IFRS 9") and the disclosure requirements of Sections 11 and 12. The Company has elected to apply the recognition and measurement provisions of IAS 39 and the disclosure requirements of Sections 11 and 12.

(i) Classification

A financial asset or financial liability at fair value through profit or loss is a financial asset or liability that is classified as held-for-trading or designated at fair value through profit or loss. The following financial investments are classified as held-for-trading: common stock investments.

Financial assets that are not at fair value through profit or loss include accounts receivable.

Financial liabilities that are not at fair value through profit or loss include accounts payable.

(ii) Recognition and Derecognition

The Company recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the investment.

Purchases and sales of financial assets and financial liabilities are recognised using trade date basis accounting. From trade date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded in the Statement of Comprehensive Income.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

3. Accounting Policies (continued)

(d) Financial Investment in Securities and Valuation (continued)

(iii) Fair Value Measurement Principles

Financial assets and financial liabilities at fair value through profit or loss are valued in accordance with IAS 39. Financial assets and financial liabilities are initially recorded at their transaction price and then measured at fair value subsequent to initial recognition. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' categories are presented in the Statement of Comprehensive Income in the financial period in which they arise.

Financial assets classified as receivables are carried at cost less impairment losses, if any. Financial liabilities, other than those at fair value through profit or loss, are measured at amortised cost. Financial liabilities arising from redeemable participating shares issued by the Company are carried at the redemption amount representing the investors' right to a residual amount of the Company's Net Assets Attributable to Holders of Redeemable Participating Shares ("Net Assets").

The fair value of all securities is determined according to the following policies:

(iii 1) Exchange Listed Assets and Liabilities

The fair value of exchange traded financial investments, comprising common stock and corporate bonds, are based upon adjusted quoted market prices at the year end date without any deduction for estimated future transaction costs.

(iii 2) All Securities

If a quoted market price is not available from a third party pricing service or a dealer, or a quotation is believed to be materially inaccurate, the fair value of the investment is determined by using valuation techniques. Valuation techniques include the use of recent market transactions, reference to the current fair value of another investment that is substantially the same, discounted cash flow analyses or any other techniques that provides a reliable estimate of prices obtained in actual market transactions.

Such securities and derivatives shall be valued at their probable realisation value as determined by a Valuer.

The investments have been valued in accordance with generally accepted accounting principles that may require the use of certain estimates and assumptions to determine fair value. Although these estimates and assumptions are based on the best available information, actual results could be materially different from these estimates.

Refer to Note 4 for securities where the Valuer was used to determine fair value.

(iv) Transfers between levels of the fair value hierarchy

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the reporting period.

(e) Cash

Cash is valued at amortised cost, which approximates fair value.

(f) Foreign Currency Translation

Transactions in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into US Dollars at the foreign currency closing exchange rate in effect at the year end date. Refer to Note 15 for further details.

Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of assets and liabilities are recognised in the Statement of Comprehensive Income.

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

3. Accounting Policies (continued)

(f) Foreign Currency Translation (continued)

Foreign currency exchange gains or losses relating to investments at fair value through profit or loss, derivative financial investments, and all other foreign currency exchange gains or losses relating to monetary items, including cash, are reflected in the net realised investment loss or net change in unrealised investment loss in the Statement of Comprehensive Income.

(g) Expenses

Expenses incurred by the Company that do not specifically relate to an individual Fund or Share Class of the Company are allocated to the Funds based on an allocation basis that depends upon the nature of the charges. Expenses directly attributable to a Fund or Share Class are generally charged to that Fund or Share Class.

(h) Finance Costs

Dividends declared on redeemable participating shares and bank interest expenses are recognised in the Statement of Comprehensive Income as Finance Costs.

(i) Redeemable Participating Shares

All redeemable participating shares issued by the Company provide the investors with the right to redeem for cash at the value proportionate to the investor's share in the Company's Net Assets on the redemption date.

In accordance with FRS 102, Section 22 "Liabilities and Equity", such Shares have been classified as a financial liability at the value of the redemption amount in the Statement of Financial Position. The Company is contractually obliged to redeem shares in accordance with the Prospectus.

4. Valuation determined by the Valuer

The Valuer is appointed by the Management Company. The Valuer also has direct responsibilities to the Board of Directors for certain valuation functions, which are ultimately reflected in the Financial Statements. The Valuer during the year ended 31 December 2023 and year ended 31 December 2022 was Goldman Sachs & Co. LLC and the valuation function was performed by Goldman Sachs Controllers Division ("Controllers").

As at 31 December 2023 and 31 December 2022, there were no assets or liabilities where estimates and assumptions were used to determine fair value.

Securities traded on China exchanges may utilise international equity adjusted prices provided by an independent third party pricing service in order to more accurately reflect the value of securities traded on markets which are closed at the valuation point.

The independent valuation service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange.

5. Taxation

Irish Tax

Under current Irish law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis Irish tax is not chargeable to the Company on its income or capital gains.

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

5. Taxation (continued)

Irish Tax (continued)

The Company will not be liable to Irish tax in respect of its income and gains, other than on the occurrence of a chargeable event. A chargeable event includes any distribution to Shareholders or any encashment, redemption or transfer of Shares or appropriation or cancellation of Shares, or a deemed disposal of Shares every 8 years beginning from the date of the acquisition of those Shares, but does not occur in respect of:

- (a) Shareholders who are neither Irish Resident nor Irish Ordinary Resident for tax purposes at the time of the chargeable event and who have provided the Company with a relevant declaration to that effect, and
- (b) certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.

A chargeable event does not include:

- (i) any transaction in relation to Shares held in a recognised clearing system as designated by order of the Revenue Commissioners of Ireland;
- (ii) an exchange by a Shareholder, effected by way of an arm's length bargain where no payment is made to the Shareholder of Shares in the Company for other Shares in the Company;
- (iii) an exchange of Shares arising on a qualified amalgamation or reconstruction of a fund with another fund; or
- (iv) a transfer by a Shareholder of the entitlement to a Share where the transfer is between spouses and former spouses, subject to certain conditions.

In the absence of an appropriate declaration, the Company will be liable for Irish tax on the occurrence of a chargeable event and the Company reserves its right to withhold such taxes from Shareholders. Capital gains, dividends and interest received by the Company may be subject to taxes, including withholding taxes in the countries in which the issuers of investments are located, which may be reflected in the Net Asset Value ("NAV") of the Company. Such taxes may not be recoverable by the Company or its Shareholders.

Chinese Withholding Tax on Dividends and Interest

Dividend withholding tax was deducted at source at the rate of 10% on dividends received during the year.

The currently effective tax rules and regulations stipulate that foreign entities without a permanent establishment in, but earning dividend income from, the People's Republic of China ("PRC"), are subject to withholding tax, subject to benefits under applicable treaties.

According to State Council decree No. 512 and in reference to new tax law effective from 1 January 2008, the tax rate to be applied is 10%. Circular 47, issued by the Chinese State Administration of Taxation ("SAT") on 23 January 2009, also noted that dividend withholding tax is deductible at 10% on stock dividends and cash dividends and that the A-share enterprises making the distribution should be the withholding agents.

Interest withholding tax is also due at 10% on interest and the enterprises making the payment should withhold the tax upon payment or when the payment is due. The Circular, however, did not address retroactivity issues with respect to dividends and interest received prior to 1 January 2008.

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

5. Taxation (continued)

Chinese Capital Gains Tax

A. Ministry of Finance and SAT announcement 14 November 2014

On 14 November 2014, the Ministry of Finance and SAT jointly issued Caishui [2014] No. 79 (“the Notice”) which provides that foreign entities under a QFII or RQFII arrangement without an establishment or place in the PRC will be temporarily exempt from taxation on capital gains derived from the trading of A shares effective from 17 November 2014. The Notice also stated that realised capital gains derived before 17 November 2014 would be subject to tax based on the tax rules and practices prevailing at the time the gains were realised.

The Company has therefore ceased providing for tax on capital gains, both realised and unrealised, made post 17 November 2014.

B. Potential for future tax changes

It should be noted that the tax laws and regulations in PRC, and the interpretation thereof, continue to change and they may be changed in the future with retrospective effect. Investors continue to agree to indemnify the Company (including for professional fees, interest and other costs and expenses) in the event that the Company is assessed for any tax by the PRC authorities that is attributable to periods prior to their redemption date, which was not reflected in the NAV of the Company used to determine the investor’s redemption proceeds. This therefore constitutes their relevant portion of such tax.

6. Financial Assets and Financial Liabilities at Fair Value Through Profit or Loss

Under Amendments to FRS 102, Section 34, the Company is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including but not limited to quoted prices for similar securities, interest rates, foreign exchange rates, volatility and credit spreads), either directly or indirectly. This may include the Valuer’s assumptions in determining fair value measurement;

Level 3 – Prices or valuations that require significant unobservable inputs (including the Valuer’s assumptions in determining fair value measurement).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety shall be determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety.

If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

Goldman Sachs Funds II plc

Notes to the Financial Statements

For the Year Ended 31 December 2023 (continued)

6. Financial Assets and Financial Liabilities at Fair Value Through Profit or Loss (continued)

The following tables provide an analysis of financial instruments that are measured at fair value in accordance with FRS 102:

31-Dec-2023				
Goldman Sachs China A-Share Equity Portfolio				
	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
Financial assets at fair value through profit or loss				
Common Stocks	60,483,896	1,257,979,366	-	1,318,463,262
Total	60,483,896	1,257,979,366	-	1,318,463,262

31-Dec-2022				
Goldman Sachs China A-Share Equity Portfolio				
	Level 1 USD	Level 2 USD	Level 3 USD	Total USD
Financial assets at fair value through profit or loss				
Corporate Bonds	-	954,781	-	954,781
Common Stocks	5,338,827	1,476,171,090	-	1,481,509,917
Total	5,338,827	1,477,125,871	-	1,482,464,698

7. Significant Agreements and Related Parties

Management Company

As outlined in Note 1, the Company has appointed GSAMFSL, a wholly-owned indirect subsidiary of The Goldman Sachs Group, Inc., as its Management Company.

The Company will pay the Management Company an annual fee which shall be accrued daily and generally paid monthly in arrears. For the year ended 31 December 2023, the Management Company earned fees of US\$191,264 (year ended 31 December 2022: US\$164,794). The Management Company fee is included in the Other Expenses category presented in the Statement of Comprehensive Income.

Investment Adviser and Sub-Investment Advisers

The Management Company has appointed Goldman Sachs Asset Management International ("the Investment Adviser"), a related party to the Company, as its delegate to provide portfolio management services.

The Company pays to the Investment Adviser a fee from the Net Assets of the Company, payable monthly in arrears, calculated as a percentage figure of the average daily NAV attributable to redeemable participating shareholders of the Company at the annual rate up to the following rates. The Investment Adviser is responsible for paying the fees of the Sub-Investment Advisers.

Fund	Shares	Fees (% per annum of the Net Assets)
Goldman Sachs China A-Share Equity Portfolio	Base Class Shares	1.75%
Goldman Sachs China A-Share Equity Portfolio	P Class Shares	1.25%
Goldman Sachs China A-Share Equity Portfolio	R Class Shares	0.85%
Goldman Sachs China A-Share Equity Portfolio	I Class Shares	0.85%
Goldman Sachs China A-Share Equity Portfolio	IC Class Shares	0.85%
Goldman Sachs China A-Share Equity Portfolio	IG Class Shares	NIL
Goldman Sachs China A-Share Equity Portfolio	IO Class Shares	NIL
Goldman Sachs China A-Share Equity Portfolio	E Class Shares	1.75%
Goldman Sachs China A-Share Equity Portfolio	IS Class Shares	1.00%

Goldman Sachs Funds II plc

Notes to the Financial Statements

For the Year Ended 31 December 2023 (continued)

7. Significant Agreements and Related Parties (continued)

Investment Adviser and Sub-Investment Advisers (continued)

The rates applied during the year ended 31 December 2022 were as follows:

Fund	Shares	Fees (% per annum of the Net Assets)
Goldman Sachs China A-Share Equity Portfolio	Base Class Shares	1.75%
Goldman Sachs China A-Share Equity Portfolio	P Class Shares	1.25%
Goldman Sachs China A-Share Equity Portfolio	R Class Shares	0.85%
Goldman Sachs China A-Share Equity Portfolio	I Class Shares	0.85%
Goldman Sachs China A-Share Equity Portfolio	IC Class Shares	0.85%
Goldman Sachs China A-Share Equity Portfolio	IG Class Shares	NIL
Goldman Sachs China A-Share Equity Portfolio	IO Class Shares	NIL
Goldman Sachs China A-Share Equity Portfolio	E Class Shares	1.75%
Goldman Sachs China A-Share Equity Portfolio	IS Class Shares	1.00%

For the year ended 31 December 2023, the Investment Adviser earned investment advisory fees of US\$13,655,172 (year ended 31 December 2022: US\$11,214,605) in respect of its investment management of the Goldman Sachs China A-Share Equity Portfolio. For the year ended 31 December 2023, there were no expenses reimbursed by the Investment Advisor (year ended 31 December 2022: US\$Nil).

Directors' Remuneration

Ms. Grainne Alexander and Mr. Frank Ennis are independent Directors and have no executive function with the Investment Adviser or its related party companies. Ms. Barbara Healy is an Independent Director and a Director of the Management Company. The Company pays each independent Director an annual fee for their services as a Director of the Company.

Mr. Jonathan Beinner, Ms. Hilary Lopez, Mr. John Whittaker and Ms. Katherine Uniacke are related parties to the Investment Adviser and are employed by The Goldman Sachs Group, Inc. or a direct or indirect Subsidiary. They do not receive compensation from the Company for their service as Directors.

Mr. Frank Ennis resigned as a member of the Board of Directors as of 12 April 2023. Ms. Hilary Lopez was appointed as a member of the Board of Directors as of 1 June 2023. Mr. John Whittaker was appointed as a member of the Board of Directors as of 23 June 2023. Ms. Katherine Uniacke resigned as a member of the Board of Directors as of 28 July 2023. Ms. Barbara Healy was appointed as a member of the Board of Directors as of 11 August 2023.

For the year ended 31 December 2023, the Directors fees were US\$5,638 (31 December 2022: US\$5,083), of which US\$11,276 was payable as at 31 December 2023 (31 December 2022: US\$5,638).

Administrator

The Management Company has appointed State Street Fund Services (Ireland) Limited ("the Administrator") as the central administration agent of the Company. The Administrator is responsible for the administration of the Company's affairs including the calculation of the NAV and the preparation of the financial statements. The Company pays a monthly administration fee out of the NAV of the Company, in respect of the provision of administrative, accounting and investor services. This fee is subject to a minimum amount per month.

In addition, the Company pays the Administrator fees in respect of the preparation of the audited and unaudited semi-annual financial statements of the Company, as well as certain fees for investment transactions. These fees shall be accrued daily and paid generally monthly in arrears.

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

7. Significant Agreements and Related Parties (continued)

Depository

The Company has appointed State Street Custodial Services (Ireland) Limited to act as Depository ("the Depository") of the Company's assets.

The Company will pay the Depository an annual fee, based on the Company's Net Assets, which shall be accrued daily and paid monthly in arrears, subject to a minimum monthly fee.

For the year ended 31 December 2023, the Depository fees and costs charged by the Depository were US\$272,762 (year ended 31 December 2022: US\$299,408).

Sub-Depository

The Depository has appointed State Street Bank and Trust Company ("SSBTC") as its Global Sub-Depository.

SSBTC has in turn appointed The Hong Kong and Shanghai Banking Corporation Limited acting through its wholly-owned subsidiary HSBC Bank (China) Company Limited to act as Sub-Depository to the Company. The Depository will pay the Sub-Depository fees from its fee.

Distributor

The Company has appointed the Management Company as Principal Distributor and the Management Company appoints sub-distributors and oversees them. The Distributor may in its discretion impose a sales charge of up to 5% payable on subscription for redeemable participating shares.

For the year ended 31 December 2023, the Distributor received no sales charges (year ended 31 December 2022: Nil).

Securities Trading Broker

The Securities Trading Broker fees are included in net realised investment loss in the Statement of Comprehensive Income. The following table shows the commissions earned by the Securities Trading Brokers for the years ended 31 December 2023 and 31 December 2022.

Broker name	Commission for year ended 31 December 2023 US\$	Commission for year ended 31 December 2022 US\$

Morgan Stanley & Co. Incorporated	361,968	201,165
Merrill Lynch International	1,074	-

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

7. Significant Agreements and Related Parties (continued)

Registrar and Transfer Agent

The Management Company has appointed CACEIS Investor Services (Ireland) Limited ("the Registrar and Transfer Agent") to perform registrar and transfer agency functions in respect of the Company.

The day-to-day services provided to the Company by the Transfer Agent include receiving and processing subscription and redemption orders, allotting and issuing shares and maintaining the Shareholder register for the Shares. The Transfer Agent is paid a fee quarterly in arrears out of the Net Assets of the Company.

The amount charged by CACEIS Investor Services (Ireland) Limited was US\$99,481 for the year ended 31 December 2023 (year ended 31 December 2022: US\$71,756).

Qualified Foreign Investor

The Investment Adviser on behalf of the Company acts as Qualified Foreign Investors ("QFI") in the Shanghai and Shenzhen A-share markets. Subject to the arrangement with the QFI custodian, a deposit shall be maintained in the relevant account as the "minimum settlement reserve" pursuant to the rules of Central Depository of Shanghai and Shenzhen. The minimum settlement reserve is calculated based on a QFI's net cash remittance in the previous month (calculated by the QFI custodian), and the relevant deposit rate is 0.06% in both Shanghai and Shenzhen markets. Refer to Note 12 for further details.

Auditor Remuneration

Statutory audit fees charged during the year ended 31 December 2023 amounted to US\$ 36,868 (VAT-exclusive) (year ended December 2022: US\$35,863). PricewaterhouseCoopers Ireland provided US\$Nil of VAT Compliance Services during the year ended 31 December 2023 (year ended 31 December 2022: \$Nil). There were no other assurance services, tax advisory services or other non-audit services provided by PricewaterhouseCoopers Ireland as the auditor of the Company.

Valuer

The Management Company has appointed Goldman Sachs & Co. LLC as its delegate to act as the Valuer and the valuation function was performed by Controllers during year ended 31 December 2023.

8. Share Capital

The share capital of the Company attributable to the redeemable participating shares shall at all times equal the NAV. The Company may issue up to 500 billion redeemable participating shares of no par value and the Directors are empowered to issue such redeemable participating shares at the NAV per redeemable participating share (or the relevant initial subscription price in the case of redeemable participating shares subscribed for during an initial offer period) on such terms as they may think fit. The minimum authorised share capital of the Company is US\$2 represented by two Subscriber Shares of no par value issued for US\$1 each.

Each of the redeemable participating shares entitles the Shareholder to participate equally on a pro rata basis in the dividends and net assets of the Fund in respect of which they are issued, save in the case of dividends declared prior to becoming a Shareholder. The Subscriber Shares entitle the Shareholders holding them to attend and vote at all meetings of the Company, but do not entitle the holders to participate in the dividends or net assets of any fund.

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

8. Share Capital (continued)

Each of the redeemable participating shares (including the Subscriber Shares; the initial share capital of two Shares with no par value, subscribed for US\$1 each) entitles the holder to attend and, except in the case of Non-Voting Shares, vote at meetings of the Company and of the Fund.

No class or series of redeemable participating shares confers on the holder thereof any preferential or preemptive rights or any rights to participate in the profits and dividends of any other class or series of redeemable participating shares or any voting rights in relation to matters relating solely to any other class or series of redeemable participating shares.

The relevant movements on share capital are shown on the Statement of Changes in Net Assets. The Company invests the proceeds from the issue of shares in appropriate investments while maintaining sufficient liquidity to meet redemptions when necessary.

The following tables summarise the activity in the Company's redeemable participating shares:

	Balance at 31-Dec-2022	Subscriptions	Redemptions	Balance at 31-Dec-2023

9. NAV

Dilution Adjustment

On any Dealing Day where there are net subscriptions or net redemptions, a dilution adjustment (sometimes referred to as Swing pricing) may be applied to the NAV per Share in accordance with the Dilution Adjustment policy, as approved by the Directors.

The determination to apply a dilution adjustment under the policy will consider, but not be limited to, such reasonable factors as the prevailing market conditions and the level of subscriptions or redemptions requested by Shareholders or potential Shareholders in relation to the size of the Company. This adjustment is intended to pass the observable estimated costs of underlying investment activity of the Company to the active Shareholders by adjusting the NAV of the relevant classes of Shares and thus to protect the Company's long-term Shareholders from costs associated with ongoing subscription and redemption activity.

The dilution adjustment may take account of trading spreads on the Company's investments, the value of any duties and charges incurred as a result of trading and may also include an allowance for market impact. The dilution adjustment may change from time to time due to changes in these factors. This is processed as a capital adjustment.

As at 31 December 2023 and 31 December 2022, no dilution adjustment was applied for Goldman Sachs China A-Share Equity Portfolio.

The following table summarises the NAV and the NAV per share of each Share Class of the Company.

Goldman Sachs China A-Share Equity Portfolio - Share Classes	31-Dec-2023

10. Distributions

The Company may declare and distribute dividends to the holders of redeemable participating shares. Dividends declared by the Company are, at the election of each shareholder, paid in cash or reinvested in additional shares. Upon declaration of any dividends, Net Assets are reduced by the amount of such dividend. Base Share Class (Dist) (A), P Class Shares (Dist) (A), R Class Shares (Dist) (A) and I Class Shares (Dist) (A) may declare and distribute dividends on an annual basis. IC Class Shares (Dist) (S-A) may declare and distribute dividends on a semi-annual basis.

The Company declared a dividend of US\$44,146 during the year ended 31 December 2023 (31 December 2022: US\$421,587).

11. Financial Investments and Associated Risks

The Company's investing activities expose it to various types of risks that are associated with the financial investments and markets in which it invests (the "Investment Risks"). These may be both derivative and non-derivative financial investments. The Company's investment portfolio is comprised of common stock investments at year end. The Board has appointed the Management Company to be responsible for, amongst other things; investment management and risk management. The Management Company has delegated certain investment functions to the Investment Adviser. The types of financial risks which the Company is exposed to are market risk, liquidity risk and credit risk.

The Prospectus provides details of these and other types of risk some of which are additional to that information provided in these financial statements. Asset allocation is determined by the Company's Investment Adviser who manages the allocation of assets to achieve the investment objectives as detailed in Note 2. Achievement of the investment objectives involves taking risks.

The Investment Adviser exercises judgement based on analysis, research and risk management techniques when making investment decisions. Divergence from the benchmark and/or the target asset allocation and the composition of the portfolio is monitored in accordance with the Fund's risk management policy.

The risk management policies employed in relation to the Company are outlined below:

(a) Market Risk

The potential for changes in the fair value of the Company's investment portfolio is referred to as market risk.

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

11. Financial Investments and Associated Risks (continued)

(a) Market Risk (continued)

Commonly used categories of market risk include currency risk, interest rate risk and other price risk.

- (i) Currency risks may result from exposures to changes in spot prices, forward prices and volatilities of currency rates.
- (ii) Interest rate risks may result from exposures to changes in the level, slope and curvature of the various yield curves, the volatility of interest rates, mortgage prepayment speeds and credit spreads.
- (iii) Other price risks are the risk that the value of an investment will fluctuate as a result of changes in market prices other than those arising from currency risk or interest rate risk and may result from exposures to changes in the prices and volatilities of individual equities, equity baskets, equity indices and commodities.

The Company's market risk strategy is driven by the Company's investment risk and return objectives.

Market risk is managed through the application of risk budgeting principles. The Investment Adviser determines an appropriate risk target, commonly referred to as Tracking Error, employing a risk budgeting framework.

The AM Risk Management group at Goldman Sachs ("AM Risk") is responsible for overall risk governance structure and establishing appropriate risk management best practices. The risk governance structure includes identifying, measuring, monitoring, escalating and remediating applicable risks. AM Risk uses a number of risk metrics to monitor the risk profile of funds on a regular and ongoing basis. GSAMFSL's risk management function, in association with AM Risk Management team, will seek to ensure that the risk profile of funds remain consistent with applicable risk limits and internal thresholds which are established consistent with the risk profile disclosed to investors.

Adherence with these risk thresholds is monitored on a weekly basis with exceptions promptly notified to the AM Chief Risk Officer and portfolio management teams. All governance exceptions are reported to the Risk Management Oversight Committee ("RMOC") and the AM Risk Working Group. In addition, the GSAMFSL risk management function presents or provides written materials on the risks to the Board no less frequently than semi-annually.

AM Risk has taken the decision to align the shocks used in FRS 102 sensitivities calculations with the regulatory prescribed shocks in Form-PF, as determined by the SEC, for consistency and to streamline reporting. AM Risk will review the shocks periodically and revise as necessary.

Details of the Company's investment portfolio at the reporting date are disclosed in the Schedule of Investments. All individual equity investments are disclosed separately.

(i) Currency Risk

The Company may invest in financial investments and enter into transactions denominated in currencies other than its functional currency. Consequently, the Company may be exposed to risks that the exchange rate of its functional currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Company's assets or liabilities denominated in currencies other than the functional currency.

When an investor invests into a share class which is in a different currency to the functional currency of the Company in which it invests, the currency risk of the investor will be different to the currency risk of the Company.

Goldman Sachs Funds II plc

Notes to the Financial Statements

For the Year Ended 31 December 2023 (continued)

11. Financial Investments and Associated Risks (continued)

(a) Market Risk (continued)

(i) Currency Risk (continued)

The following tables set forth a sensitivity analysis showing gains and losses that would be associated with changes in the currency markets. This sensitivity analysis is based on a change in one currency versus the functional currency of the fund while holding all other currencies constant. For the Total Portfolio, monetary and non-monetary, the assumption is that all currencies move simultaneously against the base currency of the Company.

Currency Risk as at 31-Dec-2023		
Base Currency is US\$		
	Impact on NAV for 20% Base Currency	
Currency	Appreciation	Depreciation
RMB	(19.9%)	19.9%
GBP	(0.1%)	0.1%
EUR	0.0%	0.0%
Total Portfolio	(20.0%)	20.0%

Currency Risk as at 31-Dec-2022		
Base Currency is US\$		
	Impact on NAV for 20% Base Currency	
Currency	Appreciation	Depreciation
RMB	(19.8%)	19.8%
GBP	0.0%	0.0%
EUR	0.0%	0.0%
Total Portfolio	(19.8%)	19.8%

The above analysis illustrates gains and losses that are associated with changes in the currency market that are reasonably possible over a one year period and these do not include stress scenarios when market moves and changes in correlations and liquidity may result in larger overall gains or losses.

(ii) Interest Rate Risk

The Company may invest in fixed income securities and interest rate swap contracts. Any change to relevant interest rates for particular securities may result in the Investment Adviser being unable to secure similar returns upon the expiry of contracts or the sale of securities. In addition, changes to prevailing interest rates or change in expectations of future rates may result in an increase or decrease in the value of the securities held. In general, if interest rates rise, the value of fixed income securities will decline. A decline in interest rates will in general, have the opposite effect.

The Company may invest in instruments in desired currencies at fixed, floating and zero rates of interest.

The majority of the financial assets and liabilities are non-interest bearing or have a very short time to maturity.

As a result, the Company is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

(iii) Other Price Risk

Other price risk is the risk that the value of a financial investment will fluctuate as a result of changes in market prices, other than those arising from currency risk or interest rate risk whether caused by factors specific to an individual investment, its issuer or any factor affecting financial investments traded in the market.

As the Company's financial investments are carried at fair value with fair value changes recognised in the Statement of Comprehensive Income, all changes in market conditions will directly affect Net Assets.

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

11. Financial Investments and Associated Risks (continued)

(a) Market Risk (continued)

(iii) Other Price Risk (continued)

The following table sets forth a sensitivity analysis showing gains and losses that are associated with changes in the equity markets. This sensitivity analysis is based on a change in one industry's collective stock prices while holding all other industries' stock prices constant. For the Total Portfolio, the assumption is that all industries' stock prices decline / rally simultaneously by the same percentage.

Equity Risk as at 31-Dec-2023		
Industry Sector	NAV Impact of 20% Change in Equity Market	
	Decline	Rally
Industrials	(3.3%)	3.3%
Financials	(3.3%)	3.3%
Consumer Staples	(3.1%)	3.1%
Information Technology	(3.1%)	3.1%
Consumer Discretionary	(2.0%)	2.0%
Other	(4.9%)	4.9%
Total Portfolio	(19.7%)	19.7%

Equity Risk as at 31-Dec-2022		
Industry Sector	NAV Impact of 20% Change in Equity Market	
	Decline	Rally
Financials	(4.2%)	4.2%
Consumer Staples	(3.8%)	3.8%
Industrials	(3.7%)	3.7%
Information Technology	(2.1%)	2.1%
Consumer Discretionary	(2.1%)	2.1%
Other	(3.6%)	3.6%
Total Portfolio	(19.5%)	19.5%

The above analysis illustrates gains and losses that are associated with changes in the equity market that are reasonably possible over a one year period. These do not include stress scenarios when market moves and changes in correlations and liquidity may result in larger overall gains or losses. Currency, interest rate and other price risks are managed by the Company's Investment Adviser as part of the integrated market risk management processes described above.

(iv) Limitations of Sensitivity Analysis

Some of the limitations of sensitivity analysis include:

- the analysis is based on historical data and cannot take account of the fact that future market price movements, correlations between markets and levels of market liquidity may bear no relation to historical patterns;
- the analysis is a relative estimate of risk rather than a precise and accurate number;
- the analysis represents a hypothetical outcome and is not intended to be predictive; and
- future market conditions could vary significantly from those experienced in the past.

(b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Among other things liquidity could be impaired by an inability to access secured and/or unsecured sources of financing, an inability to sell assets or unforeseen outflows of cash or collateral.

This situation may arise due to circumstances outside of the Company's control, such as a general market disruption or an operational problem affecting the Company or third parties.

Goldman Sachs Funds II plc

Notes to the Financial Statements

For the Year Ended 31 December 2023 (continued)

11. Financial Investments and Associated Risks (continued)

(b) Liquidity Risk (continued)

Also, the ability to sell assets may be impaired if other market participants are seeking to sell similar assets at the same time.

The Company provides for the subscription and redemption of shares and it is therefore exposed to the liquidity risk associated with shareholder redemptions in accordance with the terms in the Prospectus.

The portfolio of the Company is managed to include liquid investments which the Investment Adviser believes are sufficient to meet normal liquidity needs although substantial redemptions of shares in the Company could require the Company to liquidate its investments more rapidly than otherwise desirable in order to raise cash for the redemptions. Changes in the liquidity of the Company's underlying investments once acquired can adversely impact its position in this respect. These factors could adversely affect the value of the shares redeemed and the valuation of the shares that remain outstanding and the liquidity of the Company's remaining assets if more liquid assets have been sold to meet redemptions.

Substantial redemption requests by Shareholders in a concentrated period of time could require the Company to liquidate certain of its investments more rapidly than might otherwise be desirable in order to raise cash to fund the redemptions and achieve a portfolio appropriately reflecting a smaller asset base. Substantial redemption requests may limit the ability of the Investment Adviser to successfully implement the investment program of the Company and could negatively impact the value of the Shares being redeemed and the value of Shares that remain outstanding. If Shareholders or investors in the Company request redemption of a substantial number of Shares in the Company, the Directors may determine to gate the Company and limit future redemptions or otherwise terminate the Company rather than continue it with a significantly smaller asset base. A determination to terminate the Company early may adversely affect the returns of the Company and, in turn, the Shareholders.

The following tables set forth details of the shareholders with holdings greater than 10% of the Company's Net Assets:

Goldman Sachs China A-Share Equity Portfolio

31-Dec-2023		31-Dec-2022	
Shareholder 1 ¹	12.78%	Shareholder 1 ¹	13.11%
Other Shareholders	87.22%	Other Shareholders	86.89%
Total	100.00%	Total	100.00%

¹Shareholder is a distributor.

Note: Shareholders are shown in order of holding at the specific year end so Shareholder 1 on 31 December 2023 may not be the same as Shareholder 1 on 31 December 2022.

As at 31 December 2023 and 31 December 2022, financial liabilities were generally payable within three months of year end.

(c) Credit Risk

Credit and counterparty risk is the risk that one party to a financial investment will cause a financial loss for the other party by failing to discharge an obligation.

Procedures have been adopted to reduce credit risk related to its dealings with counterparties. Before transacting with any counterparty, the Investment Adviser or its related parties evaluate both credit-worthiness and reputation by conducting a credit analysis of the party, their business and reputation. The credit risk of approved counterparties is then monitored on an ongoing basis, including periodic reviews of financial statements and interim financial reports as needed.

Goldman Sachs Funds II plc

Notes to the Financial Statements

For the Year Ended 31 December 2023 (continued)

11. Financial Investments and Associated Risks (continued)

(c) Credit Risk (continued)

Debt securities are subject to the risk of issuer's or a guarantor's inability to meet principal and interest payments on its obligations and are subject to price volatility due to factors such as interest rate sensitivity, market perception of the creditworthiness of the issuer, and general market liquidity.

The Company is subject to a number of risks relating to the insolvency, administration, liquidation or other formal protection from creditors ("insolvency") of the Depositary or any Sub-Depositary. These risks include without limitation:

- (i) The loss of all cash held with the Depositary or Sub-Depositary which is not being treated as client money both at the level of the Depositary and any Sub-Depositary ("client money").
- (ii) The loss of all cash which the Depositary or Sub-Depositary has failed to treat as client money in accordance with procedures (if any) agreed with the Company.
- (iii) The loss of some or all of any securities held, which have not been properly segregated and so identified both at the level of the Depositary and any Sub-Depositary or client money held by or with the Depositary or Sub-Depositary.
- (iv) The loss of some or all assets due to the incorrect operation of accounts by the Depositary or Sub-Depositary or due to the process of identifying and transferring the relevant assets and/or client money including any deduction to meet the administrative costs of an insolvency.
- (v) Losses caused by prolonged delays in receiving transfers of balances and regaining control over the relevant assets.

An insolvency could cause severe disruption to the Company's investment activity. In some circumstances, this could cause the Directors to temporarily suspend the calculation of the NAV and dealings in Shares.

At 31 December 2023 and 31 December 2022, the following financial assets were exposed to credit risk: investments in common stock, cash and other receivables. The carrying amounts of financial assets best reflect the maximum credit risk exposure at the reporting date.

The maximum exposure to credit risk as at the reporting date can be analysed as follows:

	31-Dec-2023	31-Dec-2022
Assets	USD	USD
Common Stock	1,318,463,262	1,481,509,917
Corporate Bonds	-	954,781
Cash	38,505,594	37,679,869
Receivable for Shares Subscribed	14,516,918	405,609
Dividends Receivable	133,523	17,609
Other assets	40,160	304
Total Assets	1,371,659,457	1,520,568,089

The table below sets forth concentrations of counterparty or issuer credit risk greater than 5% of the Net Assets:

Year ended 31-Dec-2023			Year ended 31-Dec-2022		
Institution	Capacity	% of Net Assets	Institution	Capacity	% of Net Assets
State Street Custodial Services (Ireland) Limited	Depositary	101.79%	State Street Custodial Services (Ireland) Limited	Depositary	100.14%

No counterparties or issuers are rated below investment grade. Counterparties or issuers are either rated investment grade in their own right or if not rated then an entity in the corporate family tree has such a rating

Goldman Sachs Funds II plc

Notes to the Financial Statements

For the Year Ended 31 December 2023 (continued)

11. Financial Investments and Associated Risks (continued)

(c) Credit Risk (continued)

and the Credit Risk Management and Advisory department of the Investment Adviser believes there is strong implicit support from the rated entity to the counterparty.

(d) Additional Risk

(i) Sustainability Risk

Sustainability risk is defined in Article 3 of Regulation (EU) 2019/2088 (the “Sustainable Finance Disclosure Regulation”) as an environmental, social or governance event or condition, that if it occurs, could cause an actual or a potential material negative impact on the value of the investment.

12. Credit Institutions

Cash is held at the following institutions:

Counterparty	Use	31-Dec-2023		31-Dec-2022	
		US\$	% of Net Assets	US\$	% of Net Assets
State Street Custodial Services (Ireland) Limited	(a)	18,489,142	1.39%	19,030,980	1.25%
State Street Custodial Services (Ireland) Limited*	(a)	20,005,129	1.50%	18,637,956	1.23%
State Street Custodial Services (Ireland) Limited**	(a)	11,323	0.00%	10,933	0.00%
Total Cash		38,505,594	2.89%	37,679,869	2.48%

a) Unrestricted – Depositary Cash account.

* Cash held through State Street Custodial Services (Ireland) Limited. Amount is held in non-USD currencies and is reported in USD for Financial Reporting purposes only.

** Cash held through State Street Custodial Services (Ireland) Limited in China as part of the QFI account. Amount held in EUR and reported in USD for Financial Reporting purposes only.

The terms and conditions associated with collateral are in accordance with requirements from usual practice of recourse if a default occurs.

13. Cash Flow Statement

The Company has elected to apply the exemption available to open-ended investment funds under FRS 102, Section 7 “Statement of Cash Flows” not to prepare a cash flow statement.

14. Statement of Changes in the Portfolio

A Statement of Changes in the Portfolio is available from the Administrator, free of charge, upon request.

15. Exchange Rates

The following exchange rates were used to convert the investments and other assets and liabilities denominated in currencies other than US\$:

Currency	31-Dec-2023	31-Dec-2022
	US\$	US\$
British Pound (GBP)	0.7853	0.8279
Chinese Renminbi (RMB) - CNH Offshore	7.1253	6.9105
Chinese Renminbi (RMB) - CNY Onshore	7.0922	6.9517
Euro (EUR)	0.9033	0.9355

Goldman Sachs Funds II plc
Notes to the Financial Statements
For the Year Ended 31 December 2023 (continued)

16. Soft Commissions

The Company pays commission for execution only and/or for execution and investment research. The Company did not otherwise enter into any third party soft commission arrangements for the year ended 31 December 2023 and for the year ended 31 December 2022.

17. Prospectus

As at 31 December 2023, the latest Prospectus of the Company was issued on 21 November 2023.

18. Contingent Liabilities

There were no contingent liabilities for the year ended 31 December 2023 and 31 December 2022.

19. Cross Liability

The Company is an "umbrella fund" enabling investors to choose between one or more investment objectives by investing in one or more separate Funds offered by the Company. Only one Fund was offered by the Company as at 31 December 2023 and 31 December 2022. The Company is subject to the provisions of the Irish Investment Funds, Companies and Miscellaneous Provisions Act 2005 (the "Act"), which states that each fund will have segregated liability from the other Funds and that the Company will not be liable as a whole to third parties for the liability of each Fund. However, the Act and its upholding of segregated liability has not been tested in the courts of another jurisdiction.

20. Significant events during the year

Mr. Frank Ennis resigned as a member of the Board of Directors as of 12 April 2023.

Ms. Hilary Lopez was appointed as a member of the Board of Directors on 1 June 2023.

Mr. John Whittaker was appointed as a member of the Board of Directors on 23 June 2023.

RBC Investor Services Ireland Limited was rebranded as CACEIS Investor Services Ireland Limited following CACEIS's acquisition of RBC Investor Services Bank S.A. effective 3 July 2023.

Ms. Katherine Uniacke resigned as a member of the Board of Directors as of 28 July 2023.

Ms. Barbara Healy was appointed as a member of the Board of Directors on 11 August 2023.

On 21 November 2023, an updated Prospectus was issued.

There have been no other significant events during the year.

21. Subsequent Events

There have been no subsequent events affecting the Company since 31 December 2023.

22. Indemnifications

The Company may enter into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these contracts.

23. Approval of the Financial Statements

The Board of Directors approved the audited annual financial statements on 23 April 2024.

Goldman Sachs Funds II plc
Reports of the Management Company I.1 – Total Expense Ratio
(Unaudited)
For the Year Ended 31 December 2023

A. Total Expense Ratio (“TER”) and Expense Cap Information

The below table sets out the TER and expense cap information:

Share Class	Expense Cap	Total Expense Ratio ^(a)
IG Class Shares (Acc.) (EUR)	0.24%	0.09%
IG Class Shares (Acc.)	0.24%	0.10%
P Class Shares (Acc.)	1.49%	1.36%
P Class Shares (Acc.) (EUR)	1.49%	1.36%
I Class Shares (Acc.)	1.09%	0.95%
I Class Shares (Acc.) (EUR)	1.09%	0.95%
IC Class Shares (Dist) (S-A)	1.09%	0.95%
Base Class Shares (Acc.)	1.99%	1.88%
E Class Shares (Acc.) (EUR)	2.49%	2.38%
Base Share Class (Dist) (A)	1.99%	1.87%
IS Class Shares (Acc.)	0.84%	0.70%
I Class Shares (Dist) (A)	1.09%	0.95%
P Class Shares (Dist) (A)	1.49%	1.35%
R Class Shares (Acc.)	1.09%	0.98%
R Class Shares (Dist) (A)	1.09%	0.98%
I Class Shares (Acc.) (GBP)	1.09%	0.90%
R Class Shares (Acc.) (GBP)	1.09%	0.98%
R Class Shares (Acc.) (EUR)	1.09%	0.98%
Base Class Shares (Acc.) (EUR)	1.99%	1.88%
Base Class Shares (Acc.) (CNH)	1.99%	1.88%
R Class Shares (Acc.) (CNH)	1.09%	0.98%

(a) The TER expresses the sum of all costs, commissions and performance fees (excluding dealing commissions and market costs) charged on an ongoing basis to the Funds' assets (operating net expenses) taken retrospectively as a percentage of the Funds' assets, and is calculated using the following formula:

Total operating net expenses in CU** / Average Funds' assets in CU** x 100 = TER %.

** CU = Currency units in the Fund's base currency.

Goldman Sachs Funds II plc Reports of the Management Company I.2 – UCITS V Remuneration Policy (Unaudited) For the Year Ended 31 December 2023

The UCITS management company (the “Company”) is required to make available an Annual Report for the year for each of its UCITS, containing certain disclosures as set out in Article 69 of the European Commission Directive 2009/65/EU, as amended by Article 1 (13)(b) of the European Commission Directive 2014/91/EU (the “Directive”). The disclosures set out below fulfill the requirements of the Directive.

Remuneration

The Company has 34¹ who are assigned to one or more of the following broad functions and teams: Risk Management, Compliance, Investor Services, Vendor Oversight and Controllers. The Company has outsourced the portfolio management function to GSAMI. The Company has identified staff members whose professional activities have a material impact on the Company’s risk profile (“UCITS Identified Staff”), including senior management, risk takers and control function heads.

The following disclosures are made in accordance with the Directive in respect of the Company, which is part of The Goldman Sachs Group, Inc. (“GS Group”). GS Group’s global remuneration philosophy, structure and process for setting remuneration generally applies to employees of the Company in the same manner as to other employees globally. References to the “firm” and “we” throughout this disclosure include GS Group and the Company and any subsidiaries and affiliates.

A. Remuneration Program Philosophy

The remuneration philosophy and the objectives of the remuneration program for the Company are reflected in the Compensation Policy Statement as adopted by the Board of Directors of the Company, which includes the following:

1. We pay for performance – this is an absolute requirement under our compensation program and inherent in our culture.
2. We structure compensation, especially at senior levels, to align with GS Group’s shareholders’ long-term interests and the interests of the funds that the firm manages.
3. We use compensation as an important tool to attract, retain and motivate talent.
4. We align total compensation with corporate performance over the period.

The Company’s remuneration program is intended to be flexible enough to allow responses to changes in market conditions, but grounded in a framework that maintains effective remuneration practices.

B. Remuneration Governance

The Board of Directors of the Company is responsible for supervising the planning, implementation and revision of the compensation policy of the Company, subject to the oversight of the Compensation Committee of the Board of Directors of GS Group (the “GS Group Compensation Committee”), the ultimate parent of the Company.

The members of the GS Group Compensation Committee at the end of 2023 were Kimberley D. Harris (Chair), M. Michele Burns, Kevin R. Johnson, Ellen J. Kullman, Lakshmi N. Mittal, and Adebayo O. Ogunlesi (ex-officio). None of the members of the GS Group Compensation Committee was an employee of the firm. All members of the GS Group Compensation Committee were “independent” within the meaning of the New York Stock Exchange Rules and the firm’s Director Independence Policy.

The GS Group Compensation Committee has for several years recognised the importance of using an independent remuneration consultant that is appropriately qualified and that provides services solely to the GS Group Compensation Committee and not to the firm. The Compensation Committee continued to retain an independent remuneration consultant in 2023.

¹As of 31 December 2023 in respect of the Company only (excludes staff from the appointed portfolio management delegate).

Goldman Sachs Funds II plc
Reports of the Management Company I.2 – UCITS V
Remuneration Policy (Unaudited)
For the Year Ended 31 December 2023 (continued)

B. Remuneration Governance (continued)

GS Group's global process for setting variable remuneration (including the requirement to consider risk and compliance issues) applies to employees of the Company in the same way as to employees of other entities and in other regions and is subject to oversight by the senior management of the firm in the region.

C. Link Between Pay and Performance

Annual remuneration for employees is generally comprised of fixed and variable remuneration. The Company's remuneration practices provide for variable remuneration determinations to be made on a discretionary basis. Variable remuneration is based on multiple factors and is not set as a fixed percentage of revenue or by reference to any other formula. Firmwide performance is a key factor in determining variable remuneration.

D. Performance Measurement

Year-end variable remuneration is determined through a discretionary process that relies on certain qualitative and quantitative metrics (amongst other factors) against which we assess performance at year-end. We do not set specific goals, targets or other objectives for purposes of determining year-end variable remuneration nor do we set an initial remuneration pool that is adjusted for any such goals, targets or other objectives. Such metrics are not formulaic nor given any specific weight. In addition, employees are evaluated annually as part of the annual performance review process.

E. Risk Adjustment

Prudent risk management is a hallmark of both the firm and the Company's culture and sensitivity to risk and risk management are key elements in assessing employee performance, including as part of the annual performance review process noted above. To that end, the GS Group Board approved a sixth compensation principle "Promote a strong risk management and control environment" to underscore the importance of sound risk management.

We take risk into account in setting the amount and form of variable remuneration for employees. We provide guidelines to assist compensation managers when applying discretion during the remuneration process to promote consistent consideration of the different metrics / factors considered during the remuneration process. Further, to ensure the independence of control function employees, remuneration for those employees is not determined by individuals in revenue-producing positions but rather by the management of the relevant control function.

F. Structure of Remuneration

1. Fixed Remuneration: Comprised of base salary and, where applicable, role-based allowances.
2. Variable Remuneration: For employees with total and variable remuneration above a specific threshold, variable remuneration is generally paid in a combination of cash and equity-based remuneration. In general, the portion paid in the form of an equity-based award increases as variable remuneration increases and, for UCITS Identified Staff, is set to ensure compliance with the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Goldman Sachs Funds II plc
Reports of the Management Company I.2 – UCITS V
Remuneration Policy (Unaudited)
For the Year Ended 31 December 2023 (continued)

G. Remuneration

Staff remuneration for the year ending 31 December 2023:

Total remuneration for the year ending 31 December 2023 paid to staff of the Company and to staff of appointed portfolio management delegate of the Company, in respect of the management of the UCITS	US\$2,506,659, made up of: • US\$1,884,055 fixed remuneration • US\$622,605 variable remuneration
Which includes:	
(a) Remuneration paid to senior management	US\$765,120
(b) Remuneration paid to other staff members whose actions have a material impact on the risk profile of the UCITS	US\$976,306

The remuneration figures above:

1. represent the proportion of the total remuneration of staff related to the time spent in relation to UCITS work performed by the Company; and
2. have not been broken down in relation to each individual UCITS in respect of the Company because staff of the Company provide their services to all UCITS collectively rather than on a UCITS by UCITS basis and therefore such breakdown is not readily available, whereas for delegated portfolio management services provided by GSAMI, the services provided by portfolio managers have been considered on a UCITS by UCITS basis and an estimated split for each UCITS has been incorporated into the calculations above.

Goldman Sachs Funds II plc
Reports of the Management Company I.3 – Disclosure of Transaction
Costs and Calculation method used for Global Exposure (Unaudited)
For the Year Ended 31 December 2023

i Transaction Costs

Transaction costs have been defined as broker commission fees, market fees and taxes relating to purchase or sale of equity and investments in other funds. Custodian based transaction costs are included in 'Depositary fees and costs' in the Statement of Comprehensive Income. The Fund invests in equities and bonds. There are no other transactions costs to be disclosed.

For the year ended 31 December 2023, the Fund incurred identifiable transaction costs as follows:

	31-Dec-2023	31-Dec-2022
Goldman Sachs China A-Share Equity Portfolio	2,160,070	2,182,055

Note: Benchmark returns, with the exception of taxes at times, do not incorporate transaction costs.

ii Global Exposure

The Undertakings for Collective Investment in Transferable Securities ("UCITS") IV directive requires disclosure of how global exposures on financial derivatives investments are managed.

The Investment Adviser uses the Commitment Approach in order to measure the global exposure. The Commitment Approach is a methodology that aggregates the underlying market or notional values of financial derivative instruments to determine the degree of global exposure of a Fund to financial derivative instruments. The Commitment Approach is generally for those Portfolios that hold less complex positions on financial derivatives investments and for the purposes of hedging or efficient portfolio management.

Goldman Sachs Funds II plc
Reports of the Management Company I.4 – Sustainable Finance
Disclosure Regulation (SFDR) and EU Taxonomy
Regulation (Unaudited)
For the Year Ended 31 December 2023

The EU Sustainable Finance Disclosure Regulation (“SFDR”) (Regulation (EU) 2019/2088) has applied since 10 March 2021. Pursuant to Article 11 of SFDR (Transparency of the promotion of environmental or social characteristics and of sustainable investments in periodic reports), Goldman Sachs Asset Management Fund Services Limited is required to provide a description of the extent to which environmental or social characteristics have been met with reference to Funds providing disclosures pursuant to Article 8(1) of SFDR, and to the extent applicable, Article 9 of SFDR.

In addition, the EU Taxonomy Regulation (“Taxonomy Regulation”) (Regulation (EU) 2020/852) establishes a framework for identifying economic activities as environmentally sustainable within the European Economic Area and requires the Funds to additionally disclose whether the EU criteria for environmentally sustainable economic activities has been taken into account.

Please see this information disclosed for the Fund in Reports of the Management Company I.4 – Sustainable Finance Disclosure Regulation (SFDR) and EU Taxonomy Regulation (Unaudited).

Regulation (Unaudited)
For the Year Ended 31 December 2023 (continued)

The following information has been provided in accordance with Article 11 of Regulation (EU) 2019/2088 (the “**Sustainable Finance Disclosure Regulation**” or “**SFDR**”.) For Sub - Funds of Goldman Sachs Asset Management (“GSAM”) that promoted environmental and/or social characteristics during the reference period, information has been made available via the SFDR regulatory technical standards (RTS) (2022/1288) template.

The disclosures provided below refer to a reference period of 1st January 2023 to 31st December 2023 in alignment to the annual reporting period, unless otherwise stated within the periodic disclosure.

Supplementary information as it pertains to the periodic disclosures provided has been made available below.

1.1 Economic Sector and sub-sector classification

The periodic disclosures refer to a combination of sector and sub-sector classification using information from both proprietary sources and third-party data providers.

The investment strategies use the statistical classification of economic activities in the European community, commonly referred to as NACE in which to classify sectors and subsectors.

Information pertaining to sector and sub-sector classifications has been taken as of 31st December 2023. Where Funds have closed mid-reference period, the sector and sub-sector classifications have been taken as of the last quarter end before closure date.

1.2 Top investments of the financial products

For this reference period, the calculations are based on the average figure using periodic snapshots, such that the figures are representative of the reference period for which they relate to. Where Funds have closed mid-reference period, the calculations have been taken as of the last quarter end before closure date. Percentage of assets disclosed in the periodic disclosures may not agree to the schedule of investments in the annual report, primarily due to accrued interests and differences in aggregation methodology of investments.

1.3 Asset allocation figures

For this reference period, the calculations are based on the average figure using periodic snapshots, such that the figures are representative of the reference period for which they relate to, unless specifically stated in the periodic disclosure.

1.4 Sustainability indicators

For this reference period, the calculations are based on the average figure using periodic snapshots, such that the figures are representative of the reference period for which they relate to, unless specifically stated in the periodic disclosure. This approach differs to that of the prior reporting period. The performance of indicators contained within the comparative table for 2022 have not been restated to reflect the revised methodology applied for this reference period.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Goldman Sachs China A-Share Equity Portfolio

Legal entity identifier:
549300MPI7SI012D0T08

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective ?	
☒ ☐ ☐ Yes	☐ ☒ ☐ No
☐ It made sustainable investments with an environmental objective: __% ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ It made sustainable investments with a social objective: __%	☒ It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 29.96% of sustainable investments ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy ☐ with a social objective ☐ It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Investment Adviser has implemented an approach to Environmental, Social and Governance (ESG) considerations into its fundamental investment process which consists of exclusionary screens as set forth below (the "ESG Criteria").

As part of the ESG investment process, the Investment Adviser has not invested in companies that are, in the opinion of the Investment Adviser, directly engaged in, and/or deriving significant revenues from the following activities, which over the reference period included but were not limited to:

- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- adult entertainment;
- for-profit prisons;
- civilian firearms.

The Fund additionally excluded from its investment universe companies the Investment Adviser believes to be violating the United Nations Global Compact's ten principles (which are widely recognised corporate sustainability principles that meet fundamental responsibilities in the areas of human rights, labour, environment and anti-corruption).

How did the sustainability indicators perform?

The Fund used sustainability indicators to measure the attainment of the environmental and/or social characteristics promoted by the Fund. These sustainability indicators have performed as follows:

0% of the companies in the Fund were directly engaged in, and/or derived significant revenues from:

- controversial weapons (including nuclear weapons);
- extraction and/or production of certain fossil fuels (including thermal coal, oil sands, arctic oil and gas);
- tobacco;
- adult entertainment;
- for-profit prisons;
- civilian firearms;
- 0% of the companies in the Fund were believed by the Investment Adviser to be violating the United Nations Global Compact ten principles.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

... and compared to previous periods ?

Sustainability Indicator	December 31, 2022	December 31, 2023	Unit
Companies invested in by the Portfolio that were directly engaged in, and/or derived significant revenue from excluded activities (as outlined above)	0	0	%
Companies violating the United Nations Global Compact's ten principles	0	0	%

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The consideration of investments made by the Fund as sustainable investments was determined by reference to the Investment Adviser's Sustainable Investment Framework, which includes an assessment as to whether the investment contributes to an environmental and/or social objective. Under this framework, an investment is considered to be contributing to an environmental and/or social objective via either a product or operational contribution.

Product contribution considers either i) the proportion of an issuer's revenue dedicated to an environmentally and/or socially sustainable impact category, ii) the alignment of a product to an environmental and/or social Sustainable Development Goal (SDG), iii) best-in-class scoring of an issue(r) as against environmental and/or social opportunities themes defined by an external data provider, or iv) the percentage of taxonomy aligned revenue of the issuer. Due to availability of reliable data, the taxonomy aligned revenue route will only be used as data improves.

Operational contribution takes a thematic approach, looking at the promotion of climate transition (environmental) within the operational framework of the issuer, inclusive growth (social) within the operational framework of the issuer, operational alignment to an environmental or social SDG, or the application of a best-in-class proprietary environmental and social score.

This Fund did not target a specific category of sustainable investments but assessed all investments made pursuant to its overall investment strategy using the Sustainable Investment Framework. Hence, the sustainable investments made by this Fund may contribute to a variety of environmental and/or social objectives of the sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Issuers that were classified as contributing to a sustainable investment were also required to meet the do no significant harm (DNSH) criteria of the Investment Adviser's Sustainable Investment Framework. Any issuers that do not meet the DNSH test will not qualify as a sustainable investment. A proprietary quantitative or qualitative threshold for significant harm has been set for all 14 mandatory indicators relating to investee companies for adverse impacts on sustainability factors ("PAIs") set out in the regulatory technical standards supplementing SFDR. Additionally, all issuers with a very severe controversy are considered to be causing significant harm and excluded from qualifying as a sustainable investment.

How were the indicators for adverse impacts on sustainability factors taken into account?

This Fund considered principal adverse impacts on sustainability factors across environmental and social pillars. The PAIs were taken into account through the application of the DNSH principle outlined above for the determination of sustainable investments as well as qualitatively through the Fund's investment approach. In regard to the consideration of the PAIs as part of the DNSH assessment of an issuer, as noted above a proprietary quantitative or qualitative threshold for significant harm has been set for all 14 mandatory PAIs relating to investee companies, and is assessed using information from an external data provider. These thresholds for significant harm have been set on a relative or absolute basis against each PAI depending on the Investment Adviser's assessment of the worst performing investments with respect to those PAIs. Where data is not available for a specific PAI a suitable proxy metric has been identified. If both PAI and proxy PAI data (where relevant) is not available and/or applicable to complete the DNSH assessment on an issuer, such issuer is generally excluded from qualifying as a sustainable investment.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Fund leveraged Goldman Sachs Asset Management's proprietary approach to identifying and evaluating companies which, amongst other factors, are not considered to be aligned with global norms as further described below. Following this assessment, any companies which are considered to be in violation of these global norms (including the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights) were excluded from qualifying as a sustainable investment.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Over the reference period, the Fund considered principal adverse impacts on sustainability factors (PAIs) across the environmental and/or social pillars. PAIs are taken into account qualitatively through the application of the binding ESG criteria outlined in the prospectus. On a non-binding and materiality basis, PAIs are also considered through firm-wide and investment team specific engagement. The PAIs considered by this Fund included:

PAI CATEGORY	PAI
Mandatory PAIs	• Green house gas emissions • Carbon footprint • Green house gas intensity of investee companies • Exposure to companies active in the fossil fuel sector • Energy consumption from non-renewable sources • Energy consumption intensity per high impact climate sector • Activities negatively affecting biodiversity sensitive areas • Emission to water • Hazardous waste and radioactive waste ratio • Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises • Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact Principles and OECD Guidelines for Multinational Enterprises • Unadjusted gender pay gap • Board gender diversity • Exposure to controversial weapons (antipersonnel mines, cluster munitions, chemical weapons and biological weapons)
Non-mandatory Climate PAIs	• Investing in companies without carbon emission reduction initiatives • Land degradation, desertification, soil sealing • Investments in companies without sustainable land or agriculture practices or policies • Natural species and protected areas • Deforestation
Non-mandatory social PAIs	• Rate of accidents • Number of days lost to injuries, accidents, fatalities or illness • Number of incidents of discrimination • Number of incidents of discrimination leading to sanctions • Excessive CEO pay ratio

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 2023-01-01 / 2023-12-31

Largest investments	Sector	% Assets	Country
KWEICHOW MOUTAI CO. LTD.	Manufacturing	7.18%	CN
CHINA MERCHANTS BANK CO. LTD.	Financial and insurance activities	3.77%	CN
PING AN INSURANCE (GROUP) COMPANY OF CHINA LTD.	Financial and insurance activities	3.72%	CN
CITIC SECURITIES COMPANY LIMITED	Financial and insurance activities	3.64%	CN
CONTEMPORARY AMPEREX TECHNOLOGY CO. LTD.	Manufacturing	3.52%	CN
MIDEA GROUP CO. LTD.	Manufacturing	3.05%	CN
LUXSHARE PRECISION INDUSTRY CO. LTD.	Manufacturing	2.78%	CN
SHENZHEN INOVANCE TECHNOLOGY CO. LTD	Manufacturing	2.36%	CN
BYD COMPANY LIMITED	Manufacturing	2.29%	CN

INNER MONGOLIA YILI INDUSTRIAL GROUP CO. LTD.	Manufacturing	2.24%	CN
EAST MONEY INFORMATION CO. LTD.	Financial and insurance activities	2.23%	CN

ZHEJIANG SANHUA INTELLIGENT CONTROLS CO.LTD.	Manufacturing	2.05%	CN
WILL SEMICONDUCTOR CO. LTD. SHANGHAI	Manufacturing	1.97%	CN
SHENZHEN MINDRAY BIO-MEDICAL ELECTRONICS CO LTD	Manufacturing	1.89%	CN

What was the proportion of sustainability-related investments?

Over the reference period, 97.59% of investments were aligned to the environmental and/or social characteristics promoted by this Fund.

What was the asset allocation?

Over the reference period, 97.59% of investments were aligned to the environmental and/or social characteristics promoted by this Fund. 2.41% were held in cash, cash equivalents, and derivatives (including but not limited to index futures). Over the reference period, a minimum of 90% of the Fund's investments were consistently aligned to the environmental and/or social characteristics described above.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

-The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.

- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

Sector	Sub Sector	% of NAV as at December 31, 2023
Agriculture forestry and fishing	Crop and animal production hunting and related service activities	0.57%
Electricity gas steam and air conditioning supply	Electricity gas steam and air conditioning supply	3.30%
Financial and insurance activities	Activities auxiliary to financial services and insurance activities	6.08%
	Financial service activities except insurance and pension funding	5.40%

Financial and insurance activities	Insurance reinsurance and pension funding except compulsory social security	4.07%
Human health and social work activities	Human health activities	1.17%
Information and communication	Computer programming consultancy and related activities	2.21%
	Motion picture video and television programme production sound recording and music publishing activities	0.51%
	Publishing activities	1.05%
Manufacturing	Manufacture of basic metals	4.53%
	Manufacture of basic pharmaceutical products and pharmaceutical preparations	4.57%
	Manufacture of beverages	10.41%
	Manufacture of chemicals and chemical products	4.77%
	Manufacture of computer electronic and optical products	11.87%
	Manufacture of electrical equipment	7.06%
	Manufacture of food products	2.39%
	Manufacture of furniture	0.50%
	Manufacture of machinery and equipment n.e.c.	8.74%
	Manufacture of motor vehicles trailers and semi-trailers	4.03%
	Manufacture of other non-metallic mineral products	1.56%
	Manufacture of rubber and plastic products	0.44%
Not classified	Not classified	7.51%
Professional scientific and technical activities	Advertising and market research	1.47%
	Scientific research and development	1.90%
Transporting and storage	Postal and courier activities	0.46%
	Warehousing and support activities for transportation	1.28%
Wholesale and retail trade; repair of motor vehicles and motorcycles	Retail trade except of motor vehicles and motorcycles	2.15%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include

comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective. **Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of: **-turnover** reflecting the share of revenue from green activities of investee companies. **- capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy. **- operational expenditure (OpEx)** reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Whilst this Fund has made sustainable investments, it does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the EU Taxonomy.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy?

- ☐ Yes
- ☐ In fossil gas ☐ In nuclear energy
- ☒ No

The two graphs below show in blue the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

As the Fund does not commit to invest any "sustainable investment" within the meaning of the EU Taxonomy, the minimum share of investments in transitional and enabling activities within the meaning of the EU Taxonomy was also 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

There have been no changes compared with previous reference periods.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Whilst this Fund has invested in sustainable investments, it does not specifically commit to a minimum proportion of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy. Hence, the minimum commitment is 0%.

What was the share of socially sustainable investments?

Whilst this product has made sustainable investments, it did not specifically commit to a minimum proportion of socially sustainable investments. Hence, the minimum commitment is 0%. As noted above, whether investments made by this product were sustainable investments is determined by reference to the Investment Adviser's Sustainable Investment Framework for assessing the contribution of investments to environmental and/or social objectives. This product did not target one specific category of sustainable investments, but instead assesses all investments made pursuant to its overall investment strategy using the framework.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Investments included under "other" include cash and cash equivalents for liquidity purposes and derivatives (including but not limited to index futures) for efficient portfolio management. These investments were used to achieve the investment objective of the Fund but neither promote the environmental or social characteristics of the Fund, nor qualify as sustainable investments. These financial instruments were not subject to any minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Investment Adviser has taken actions to ensure that the environmental and/or social characteristics of the Fund were met during the reference period. The sustainability indicators of the Fund were measured and evaluated on an ongoing basis.

GSAM used proprietary firm and third-party systems to monitor compliance with binding environmental or social characteristics of the Fund contained within the investment guidelines in line with the GSAM Investment Guidelines Policy.

Breaches or errors regarding investment guidelines (including breaches or errors regarding the binding environmental or social characteristics and minimum sustainable investment commitments of the Fund) were handled in accordance with the Management Company's Policy on Breaches and Errors and the Policy on GSAM Error Handling which also requires that employees promptly report any incidents (whether resulting from action or inaction) to their GSAM supervisors as well as GSAM Compliance. The information gathered in the incident reporting process is to ensure that clients are appropriately compensated, to assist in improving business practices and help prevent further occurrences.

Additionally, the Investment Adviser leveraged the Goldman Sachs Asset Management Global Stewardship Team's engagement initiatives in respect of the Fund. The Goldman Sachs Asset Management Global Stewardship Team focuses on proactive, outcomes-based engagement, in an attempt to promote best practices. Engagement initiatives were continually reviewed, enhanced, and monitored to ensure they incorporated current issues, evolving views about key environmental, social, and governance topics and sustainability-related controversies. To guide engagement efforts, the Goldman Sachs Asset Management Global Stewardship Team creates an annual Focus List, which reflects the Goldman Sachs Asset Management Global Stewardship Team's thematic priorities and guided voting and engagement efforts.

How did this financial product perform compared with the reference benchmark?

No reference benchmark has been designated for the purpose of attaining the environmental or social characteristics promoted by the Fund.

Reference benchmarks are indexes to measure whether the financial products attains the environmental or social characteristics that they promote.

Goldman Sachs Funds II plc Additional Information (Unaudited) For the Year Ended 31 December 2023

Offering Documents

This material is provided for informational purposes only and does not constitute a solicitation in any jurisdiction in which such a solicitation is unlawful or to any person to whom it is unlawful. It only contains selected information with regards to the fund and does not constitute an offer to buy shares in the fund. Prior to an investment, prospective investors should carefully read the latest Key Investor Information Document (KIID) as well as the offering documentation, including but not limited to the fund's prospectus which contains inter alia a comprehensive disclosure of applicable risks. The relevant articles of association, prospectus, supplement, KIID and latest annual/semi-annual report are available free of charge from the fund's paying and information agent and/or from your financial adviser.

Distribution of Shares

Shares of the Company may not be registered for public distribution in a number of jurisdictions (including but not limited to any Latin American, African or certain Asian countries). Therefore, the shares of the Company must not be marketed or offered in or to residents of any such jurisdictions unless such marketing or offering is made in compliance with applicable exemptions for the private placement of collective investment schemes and other applicable jurisdictional rules and regulations.

Investment Advice and Potential Loss

Financial advisers generally suggest a diversified portfolio of investments. The Company described herein does not represent a diversified investment by itself. This material must not be construed as investment or tax advice.

Prospective investors should consult their financial and tax adviser before investing in order to determine whether an investment would be suitable for them. **An investor should only invest if he/she has the necessary financial resources to bear a complete loss of this investment.**

Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.

Index Benchmarks

References to indices, benchmarks or other measures of relative market performance over a specified period of time are provided for your information only and do not imply that the portfolio will achieve similar results. The index composition may not reflect the manner in which a portfolio is constructed. While an adviser seeks to design a portfolio which reflects appropriate risk and return features, portfolio characteristics may deviate from those of the benchmark.

Confidentiality

No part of this material may, without Goldman Sachs' prior written consent, be (i) copied, photocopied or duplicated in any form, by any means, or (ii) distributed to any person that is not an employee, officer, director, or authorised agent of the recipient.
